CONSTELLATION BRANDS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
NOVEMBER 30, 2012
(unaudited)

1. BASIS OF PRESENTATION:

The consolidated financial statements included herein have been prepared by Constellation Brands, Inc. and its subsidiaries (the "Company"), without audit, pursuant to the rules and regulations of the Securities and Exchange Commission applicable to quarterly reporting on Form 10-Q and reflect, in the opinion of the Company, all adjustments necessary to present fairly the financial information for the Company. All such adjustments are of a normal recurring nature. Certain information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles, have been condensed or omitted as permitted by such rules and regulations. These consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2012. Results of operations for interim periods are not necessarily indicative of annual results.

2. RECENTLY ADOPTED ACCOUNTING GUIDANCE:

Fair value measurements –
Effective March 1, 2012, the Company adopted the Financial Accounting Standards Board ("FASB") amended guidance to achieve common fair value measurement and disclosure requirements under generally accepted accounting principles in the United States ("U.S.") and International Financial Reporting Standards. This amended guidance provides clarification about the application of existing fair value measurement and disclosure requirements, and expands certain other disclosure requirements. The adoption of this amended guidance on March 1, 2012, did not have a material impact on the Company's consolidated financial statements.

Presentation of comprehensive income –
Effective March 1, 2012, the Company adopted the FASB amended guidance requiring an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This amended guidance eliminates the option to present the components of other comprehensive income as part of the statement of stockholders' equity. In addition, this amended guidance requires retrospective application. In December 2011, the FASB issued additional guidance deferring the effective date of the June 2011 amended guidance related to the presentation of reclassification adjustments by component in both the statement where net income is presented and the statement where other comprehensive income is presented for further redeliberation. The adoption of this amended guidance on March 1, 2012, did not have a material impact on the Company's consolidated financial statements.

Intangibles – goodwill and other –
Effective March 1, 2012, the Company adopted the FASB amended guidance for goodwill impairment testing. The amended guidance allows an entity to assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If an entity determines it is not more likely than not that the fair value of the reporting unit is less than its carrying amount, then performing the two-step impairment test would be unnecessary. If an entity concludes otherwise, the entity would be required to complete the two-step impairment test by calculating the fair value of the reporting unit and then comparing the fair value with the carrying amount of the reporting unit. The adoption of this amended guidance on March 1, 2012, did not have a material impact on the Company's consolidated financial statements.

Table of Contents

3. INVENTORIES:

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and consist of the following:

(in millions)	November 30, 2012	February 29, 2012
Raw materials and supplies	$45.9	$47.6
In-process inventories	1,230.0	1,048.4
Finished case goods	320.4	278.5
	$1,596.3	$1,374.5

4. DERIVATIVE INSTRUMENTS:

As a multinational company, the Company is exposed to market risk from changes in foreign currency exchange rates, diesel fuel prices and interest rates that could affect the Company's results of operations and financial condition. The amount of volatility realized will vary based upon the effectiveness and level of derivative instruments outstanding during a particular period of time, as well as the currency, fuel pricing and interest rate market movements during that same period.

The Company enters into derivative instruments, primarily interest rate swaps, foreign currency forward and option contracts, and diesel fuel swaps, to manage interest rate, foreign currency and diesel fuel pricing risks, respectively. In accordance with the FASB guidance for derivatives and hedging, the Company recognizes all derivatives as either assets or liabilities on its Consolidated Balance Sheets and measures those instruments at fair value (see Note 5). The fair values of the Company's derivative instruments change with fluctuations in interest rates, currency rates and/or fuel prices and are expected to offset changes in the values of the underlying exposures. The Company's derivative instruments are held solely to hedge economic exposures. The Company follows strict policies to manage interest rate, foreign currency and diesel fuel pricing risks, including prohibitions on derivative market-making or other speculative activities.

To qualify for hedge accounting treatment under the FASB guidance for derivatives and hedging, the details of the hedging relationship must be formally documented at inception of the arrangement, including the risk management objective, hedging strategy, hedged item, specific risk that is being hedged, the derivative instrument, how effectiveness is being assessed and how ineffectiveness will be measured. The derivative must be highly effective in offsetting either changes in the fair value or cash flows, as appropriate, of the risk being hedged. Effectiveness is evaluated on a retrospective and prospective basis based on quantitative measures.

Certain of the Company's derivative instruments do not qualify for hedge accounting treatment under the FASB guidance for derivatives and hedging; for others, the Company chooses not to maintain the required documentation to apply hedge accounting treatment. These undesignated instruments are primarily used to economically hedge the Company's exposure to fluctuations in the value of foreign currency denominated receivables and payables; foreign currency investments, primarily consisting of loans to subsidiaries; and cash flows related primarily to repatriation of those loans or investments. Foreign currency contracts, generally less than 12 months in duration, are used to hedge some of these risks. The Company's derivative policy permits the use of undesignated derivatives when the derivative instrument is settled within the fiscal quarter or offsets a recognized balance sheet exposure. In these circumstances, the mark to fair value is reported currently through earnings in selling, general and administrative expenses on the Company's Consolidated Statements of Comprehensive Income. As of November 30, 2012, and February 29, 2012, the

Company had undesignated foreign currency contracts outstanding with a notional value of $274.0 million and $148.6 million, respectively. In addition, the Company had offsetting undesignated interest rate swap agreements with an absolute notional amount of $1.0 billion outstanding

6

as of November 30, 2012 (see Note 10). The Company had no undesignated interest rate swap agreements outstanding as of February 29, 2012.

Furthermore, when the Company determines that a derivative instrument which qualified for hedge accounting treatment has ceased to be highly effective as a hedge, the Company discontinues hedge accounting prospectively. The Company also discontinues hedge accounting prospectively when (i) a derivative expires or is sold, terminated, or exercised; (ii) it is no longer probable that the forecasted transaction will occur; or (iii) management determines that designating the derivative as a hedging instrument is no longer appropriate.

Cash flow hedges:
The Company is exposed to foreign denominated cash flow fluctuations in connection with third party and intercompany sales and purchases and, historically, third party financing arrangements. The Company primarily uses foreign currency forward and option contracts to hedge certain of these risks. In addition, the Company utilizes interest rate swaps to manage its exposure to changes in interest rates and diesel fuel swaps to manage its exposure to changes in diesel fuel prices. Derivatives managing the Company’s cash flow exposures generally mature within three years or less, with a maximum maturity of five years. Throughout the term of the designated cash flow hedge relationship on at least a quarterly basis, a retrospective evaluation and prospective assessment of hedge effectiveness is performed. All components of the Company’s derivative instruments’ gains or losses are included in the assessment of hedge effectiveness. In the event the relationship is no longer effective, the Company recognizes the change in the fair value of the hedging derivative instrument from the date the hedging derivative instrument became no longer effective immediately on the Company’s Consolidated Statements of Comprehensive Income. In conjunction with its effectiveness testing, the Company also evaluates ineffectiveness associated with the hedge relationship. Resulting ineffectiveness, if any, is recognized immediately on the Company’s Consolidated Statements of Comprehensive Income in selling, general and administrative expenses.

The Company records the fair value of its foreign currency contracts, interest rate swap contracts and diesel fuel swap contracts qualifying for cash flow hedge accounting treatment on its Consolidated Balance Sheets with the effective portion of the related gain or loss on those contracts deferred in stockholders’ equity (as a component of AOCI (as defined in Note 15)). These deferred gains or losses are recognized on the Company’s Consolidated Statements of Comprehensive Income in the same period in which the underlying hedged items are recognized and on the same line item as the underlying hedged items. However, to the extent that any derivative instrument is not considered to be highly effective in offsetting the change in the value of the hedged item, the hedging relationship is terminated and the amount related to the ineffective portion of such derivative instrument is immediately recognized on the Company’s Consolidated Statements of Comprehensive Income in selling, general and administrative expenses.

As of November 30, 2012, and February 29, 2012, the Company had cash flow designated foreign currency contracts outstanding with a notional value of $213.5 million and $353.7 million, respectively. In addition, as of November 30, 2012, and February 29, 2012, the Company had cash flow designated interest rate swap agreements outstanding with a notional value of $500.0 million (see Note 10). Lastly, as of November 30, 2012, the Company had cash flow designated diesel fuel swap contracts outstanding with a notional value of $18.3 million. The Company had no cash flow designated diesel fuel swap contracts outstanding as of February 29, 2012. The Company expects $5.9 million of net losses, net of income tax effect, to be reclassified from AOCI to earnings within the next 12 months.

Fair value hedges:
Fair value hedges are hedges that offset the risk of changes in the fair values of recorded assets and liabilities, and firm commitments. The Company records changes in fair value of derivative instruments, which are designated and deemed effective as fair value hedges, in earnings offset by the corresponding changes in the fair value of the hedged items. The Company did not designate any derivative instruments as fair value hedges for the nine months and three months ended November 30, 2012, and November 30, 2011.

Table of Contents

Net investment hedges:
Net investment hedges are hedges that use derivative instruments or non-derivative instruments to hedge the foreign currency exposure of a net investment in a foreign operation. Historically, the Company has managed currency exposures resulting from certain of its net investments in foreign subsidiaries principally with debt denominated in the related foreign currency. Accordingly, gains and losses on these instruments were recorded as foreign currency translation adjustments in AOCI. The Company did not designate any derivative or non-derivative instruments as net investment hedges for the nine months and three months ended November 30, 2012, and November 30, 2011.

Fair values of derivative instruments:
The fair value and location of the Company's derivative instruments on its Consolidated Balance Sheets are as follows:

Balance Sheet Location	November 30, 2012	February 29, 2012
(in millions)		
Derivative instruments designated as hedging instruments		
Foreign currency contracts:		
Prepaid expenses and other	$3.8	$7.9
Other accrued expenses and liabilities	$0.6	$2.7
Other assets, net	$2.2	$3.6
Other liabilities	$0.2	$2.2
Interest rate swap contracts:		
Other accrued expenses and liabilities	$3.4	$15.0
Other liabilities	$4.7	$30.7
Diesel fuel swap contracts:

Credit risk:

The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage credit risk. The Company’s derivative instruments are not subject to credit rating contingencies or collateral requirements. As of November 30, 2012, the fair value of derivative instruments in a net liability position due to counterparties was $49.2 million. If the Company were required to settle the net liability position under these derivative instruments on November 30, 2012, the Company would have had sufficient availability under its revolving credit facility to satisfy this obligation.

Table of Contents

Counterparty credit risk:
Counterparty credit risk relates to losses the Company could incur if a counterparty defaults on a derivative contract. The Company manages exposure to counterparty credit risk by requiring specified minimum credit standards and diversification of counterparties. The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage counterparty credit risk. As of November 30, 2012, all of the Company's counterparty exposures are with financial institutions which have investment grade ratings. The Company has procedures to monitor counterparty credit risk for both current and future potential credit exposures. As of November 30, 2012, the fair value of derivative instruments in a net receivable position due from counterparties was $7.4 million.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS:

The Company calculates the fair value of financial instruments using quoted market prices whenever available. When quoted market prices are not available, the Company uses standard pricing models for various types of financial instruments (such as forwards, options, swaps, etc.) which take into account the present value of estimated future cash flows.

The carrying amount and estimated fair value of the Company's financial instruments are summarized as follows:

	November 30, 2012		February 29, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(in millions)				
Assets:				
Cash and cash investments	$200.5	$200.5	$85.8	$85.8
Accounts receivable, net	$539.1	$539.1	$436.0	$436.0
Restricted cash	$650.3	$650.3	$—	$—
Available-for-sale debt securities	$33.3	$33.3	$28.5	$28.5
Foreign currency contracts	$6.9	$6.9	$13.2	$13.2
Interest rate swap contracts	$8.8	$8.8	$—	$—
Diesel fuel swap contracts	$1.0	$1.0	$—	$—
Notes receivable	$—	$—	$1.6	$1.6
Liabilities:				
Notes payable to banks	$16.6	$16.6	$377.9	$377.6
Accounts payable	$300.4	$300.4	$130.5	$130.5
Long-term debt, including current portion	$3,978.8	$4,358.9	$2,751.6	$3,007.9
Foreign currency contracts	$2.6	$2.6	$6.4	$6.4
Interest rate swap contracts	$55.9	$55.9	$45.7	$45.7

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and cash investments, accounts receivable, accounts payable and restricted cash: The carrying amounts approximate fair value due to the short maturity of these instruments (Level 1 fair value measurement).
Available-for-sale ("AFS") debt securities: The fair value is estimated by discounting cash flows using market-based inputs (see "Fair value measurements" below) (Level 3 fair value measurement).

Table of Contents

Foreign currency contracts: The fair value is estimated using market-based inputs, obtained from independent pricing services, into valuation models (see “Fair value measurements” below) (Level 2 fair value measurement).
Interest rate swap contracts: The fair value is estimated based on quoted market prices from respective counterparties (see “Fair value measurements” below) (Level 2 fair value measurement).
Diesel fuel swap contracts: The fair value is estimated based on quoted market prices from respective counterparties (see “Fair value measurements” below) (Level 2 fair value measurement).
Notes receivable: These instruments are fixed interest rate bearing notes. The fair value is estimated by discounting cash flows using market-based inputs, including counterparty credit risk (Level 3 fair value measurement).
Notes payable to banks: The revolving credit facility under the Company’s senior credit facility is a variable interest rate bearing note which includes a fixed margin which is adjustable based upon the Company’s debt ratio (as defined in the Company’s senior credit facility). The fair value of the revolving credit facility is estimated by discounting cash flows using LIBOR plus a margin reflecting current market conditions obtained from participating member financial institutions. The remaining instruments are variable interest rate bearing notes for which the carrying value approximates the fair value (Level 2 fair value measurement).
Long-term debt: The term loans under the Company’s senior credit facility are variable interest rate bearing notes which include a fixed margin which is adjustable based upon the Company’s debt ratio. The fair value of the term loans is estimated by discounting cash flows using LIBOR plus a margin reflecting current market conditions obtained from participating member financial institutions. The fair value of the remaining long-term debt, which is all fixed interest rate, is estimated by discounting cash flows using interest rates currently available for debt with similar terms and maturities (Level 2 fair value measurement).

Fair value measurements –
The FASB guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and requires disclosures about fair value measurements. This guidance emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. The fair value measurement guidance establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy is broken down into three levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; and Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Table of Contents

The following table presents the Company’s financial assets and liabilities measured at fair value on a recurring basis.

(in millions)	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
November 30, 2012				
Assets:				
AFS debt securities	$—	$—	$33.3	$33.3
Foreign currency contracts	$—	$6.9	$—	$6.9
Interest rate swap contracts	$—	$8.8	$—	$8.8
Diesel fuel swap contracts	$—	$1.0	$—	$1.0
Liabilities:				
Foreign currency contracts	$—	$2.6	$—	$2.6
Interest rate swap contracts	$—	$55.9	$—	$55.9
February 29, 2012				
Assets:				
AFS debt securities	$—	$—	$28.5	$28.5
Foreign currency contracts	$—	$13.2	$—	$13.2
Liabilities:				
Foreign currency contracts	$—	$6.4	$—	$6.4
Interest rate swap contracts	$—	$45.7	$—	$45.7

The Company’s foreign currency contracts consist of foreign currency forward and option contracts which are valued using market-based inputs, obtained from independent pricing services, into valuation models. These valuation models require various inputs, including contractual terms, market foreign exchange prices, interest-rate yield curves and currency volatilities. Interest rate swap fair values are based on quotes from respective counterparties. Quotes are corroborated by the Company using discounted cash flow calculations based upon forward interest-rate yield curves, which are obtained from independent pricing services. Diesel fuel swap fair values are based on quotes from respective counterparties. Quotes are corroborated by the Company using market data. AFS debt securities are valued using market-based inputs into discounted cash flow models.

Table of Contents

The following table represents a reconciliation of the changes in fair value of the Company's financial instruments measured at fair value on a recurring basis using significant unobservable inputs (Level 3).

(in millions)	November 30, 2012	November 30, 2011
AFS Debt Securities		
Balance as of March 1	$28.5	$40.8
Total net gains:		
Included in earnings (interest expense, net)	3.7	4.5
Included in other comprehensive income (net unrealized gains on AFS debt securities)	1.1	1.5
Total net gains	4.8	6.0
Settlements	—	(21.7)
Balance as of the end of the period	$33.3	$25.1

The fair value of the Level 3 AFS debt securities is based upon market-based inputs into discounted cash flow models that use both observable and unobservable inputs. The significant observable inputs used in the fair value measurement of the AFS debt securities are the Australian risk-free interest rate and the global high yield "B" rated option adjusted spread. The significant unobservable input used in the fair value measurement of the AFS debt securities is the internally reported results of operations of the underlying investment. A significant change in this unobservable input could result in a change in the fair value measurement of the AFS debt securities.

In the third quarter of fiscal 2012, the Company received cash proceeds of $21.7 million, consisting of proceeds for principal of $20.2 million and proceeds for interest of $1.5 million, in connection with the early redemption of certain of the AFS debt securities. In addition, the Company reclassified net gains of $3.2 million, net of income tax effect, from AOCI to selling, general and administrative expenses on the Company's Consolidated Statements of Comprehensive Income for the nine months and three months ended November 30, 2011.

Table of Contents

6. GOODWILL:

The changes in the carrying amount of goodwill are as follows:

(in millions)	Constellation Wines and Spirits	Crown Imports	Consolidations and Eliminations	Consolidated
Balance, February 28, 2011				
Goodwill	$2,619.8	$13.0	$(13.0)	$2,619.8
Accumulated impairment losses	—	—	—	—
	2,619.8	13.0	(13.0)	2,619.8
Purchase accounting allocations	9.3	—	—	9.3
Foreign currency translation adjustments	3.8	—	—	3.8
Balance, February 29, 2012				
Goodwill	2,632.9	13.0	(13.0)	2,632.9
Accumulated impairment losses	—	—	—	—
	2,632.9	13.0	(13.0)	2,632.9
Purchase accounting allocations	110.0	—	—	110.0
Foreign currency translation adjustments	(4.5)	—	—	(4.5)
Balance, November 30, 2012				
Goodwill	2,738.4	13.0	(13.0)	2,738.4
Accumulated impairment losses	—	—	—	—
	$2,738.4	$13.0	$(13.0)	$2,738.4

Ruffino –
For the year ended February 29, 2012, purchase accounting allocations of $9.3 million in the Constellation Wines and Spirits segment (formerly known as the Constellation Wines North America segment) consist of purchase accounting allocations associated with the acquisition of Ruffino S.r.l. (“Ruffino”) (see Note 9).

Mark West –
For the nine months ended November 30, 2012, purchase accounting allocations of $110.0 million in the Constellation Wines and Spirits segment consist primarily of purchase accounting allocations associated with the acquisition of Mark West (as defined below). In July 2012, the Company acquired Mark West for $159.3 million. The transaction primarily includes the acquisition of the Mark West trademark, related inventories and certain grape supply contracts (“Mark West”). The purchase price was financed with revolver borrowings under the May 2012 Credit Agreement (as defined in Note 10). In accordance with the acquisition method of accounting, the identifiable assets acquired and the liabilities assumed have been measured at their acquisition-date fair values. The acquisition of Mark West was not material for purposes of supplemental disclosure pursuant to the FASB guidance on business combinations. The results of operations of Mark West are reported in the Constellation Wines and Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Table of Contents

7. INTANGIBLE ASSETS:

The major components of intangible assets are as follows:

	November 30, 2012		February 29, 2012	
	Gross Carrying Amount	Net Carrying Amount	Gross Carrying Amount	Net Carrying Amount
(in millions)				
Amortizable intangible assets:				
Customer relationships	$83.5	$56.3	$82.8	$59.1
Other	8.0	2.6	7.0	3.7
Total	$91.5	58.9	$89.8	62.8
Nonamortizable intangible assets:				
Trademarks		812.1		798.0
Other		5.6		5.6
Total		817.7		803.6
Total intangible assets, net		$876.6		$866.4

The Company did not incur costs to renew or extend the term of acquired intangible assets during the nine months and three months ended November 30, 2012, and November 30, 2011. The difference between the gross carrying amount and net carrying amount for each item presented is attributable to accumulated amortization. Amortization expense for intangible assets was $5.5 million and $3.8 million for the nine months ended November 30, 2012, and November 30, 2011, respectively, and $1.9 million and $1.3 million for the three months ended November 30, 2012, and November 30, 2011, respectively. Estimated amortization expense for the remaining three months of fiscal 2013 and for each of the five succeeding fiscal years and thereafter is as follows:

(in millions)	
2013	$1.6
2014	$6.0
2015	$5.1
2016	$5.1
2017	$4.8
2018	$4.7
Thereafter	$31.6

Table of Contents

8. RESTRICTED CASH:

In connection with the issuance of the August 2012 Senior Notes (as defined in Note 10), on August 14, 2012, the Company and Manufacturers and Traders Trust Company, as Trustee, escrow agent, and securities intermediary, entered into an agreement (the "Escrow Agreement"), pursuant to which an amount equal to 100% of the principal amount of the August 2012 Senior Notes (collectively, with any other property from time to time held by the escrow agent, the "Escrowed Property") was placed into an escrow account and will be released to the Company upon the closing of the Crown Acquisition (as defined below). The restricted cash consists of highly liquid investments with an original maturity when purchased of 30 days or less. Income from these investments is paid into the escrow account and is subject to the terms of the Escrow Agreement. As of November 30, 2012, the Company had $650.3 million of restricted cash – noncurrent on its Consolidated Balance Sheets. In the event the Crown Acquisition is not consummated, this cash would be used to redeem the August 2012 Senior Notes (see Note 10). The Company had no restricted cash as of February 29, 2012.

Pending acquisition of Crown Imports –
In June 2012, the Company signed a definitive agreement to acquire the remaining 50% equity interest in Crown Imports (as defined in Note 9) for approximately $1.85 billion (the "Crown Acquisition"). In August 2012, the Company entered into financing arrangements to fund the Crown Acquisition consisting of a $575.0 million delayed draw term loan facility under the Company's 2012 Credit Agreement (as defined in Note 10) and the August 2012 Senior Notes. The Company expects the remaining financing for the Crown Acquisition to consist of a combination of available cash, borrowings under the Company's accounts receivable securitization facility (as discussed in Note 10) and revolver borrowings under the Company's 2012 Credit Agreement. The Company also has a fully committed bridge facility through December 30, 2013, upon which it could draw to fund all or a portion of the Crown Acquisition if any of its expected financing is unavailable. The Company currently expects to complete the Crown Acquisition in the first quarter of calendar 2013, subject to the satisfaction of certain closing conditions, including the receipt of necessary regulatory approvals and the consummation of certain transactions between Anheuser-Busch InBev SA/NV and Modelo (as defined in Note 9) and certain of its affiliates. The Company cannot guarantee that the Crown Acquisition will be completed upon the agreed upon terms, or at all. The results of operations of Crown Imports will be reported in the Crown Imports segment and will be included in the consolidated results of operations of the Company from the date of acquisition. The Crown Acquisition is expected to be significant and the Company expects it to have a material impact on the Company's future results of operations, financial position and cash flows.

9. INVESTMENTS:

Investments in equity method investees –
Crown Imports:
Constellation Beers Ltd. ("Constellation Beers"), an indirect wholly-owned subsidiary of the Company, and Diblo, S.A. de C.V. ("Diblo"), an entity owned 76.75% by Grupo Modelo, S.A.B. de C.V. ("Modelo") and 23.25% by Anheuser-Busch Companies, Inc., each have, directly or indirectly, equal interests in a joint venture, Crown Imports LLC ("Crown Imports"). Crown Imports has the exclusive right to import, market and sell primarily Modelo's Mexican beer portfolio (the "Modelo Brands") in the U.S. and Guam.

The Company accounts for its investment in Crown Imports under the equity method. Accordingly, the results of operations of Crown Imports are included in equity in earnings of equity method investees on the Company's Consolidated Statements of Comprehensive Income. As of November 30, 2012, and February 29, 2012, the Company's investment in Crown Imports was $145.9 million and $176.4 million, respectively. As of November 30, 2012, the carrying amount of the investment is greater than the Company's equity in the underlying assets of Crown Imports by $13.6 million due to the difference in the carrying amounts of the indefinite lived intangible assets contributed to

Crown Imports by each party. As of February 29, 2012, the carrying amount of the investment is greater than the Company's equity in the underlying assets of Crown Imports by $26.4 million due to the difference in the carrying amounts of the indefinite lived intangible assets contributed to Crown Imports by each party and timing of receipt of certain cash distributions from Crown Imports. The Company received $202.7

Table of Contents

million and $202.0 million of cash distributions from Crown Imports for the nine months ended November 30, 2012, and November 30, 2011, respectively, all of which represent distributions of earnings.

The following table presents summarized financial information for the Company's Crown Imports equity method investment. The amounts shown represent 100% of this equity method investment's results of operations.

	For the Nine Months Ended November 30,		For the Three Months Ended November 30,	
	2012	2011	2012	2011
(in millions)				
Net sales	$2,059.9	$1,945.0	$547.4	$540.5
Gross profit	$596.8	$567.5	$160.0	$157.6
Income from continuing operations	$344.6	$331.5	$78.6	$86.5
Net income	$344.6	$331.5	$78.6	$86.5

Ruffino:
Prior to the acquisition of Ruffino, the well-known Italian fine wine company, on October 5, 2011 (as further discussed below), the Company had a 49.9% interest in Ruffino. The Company did not have a controlling interest in Ruffino or exert any managerial control and the Company accounted for its investment in Ruffino under the equity method. Accordingly, the results of operations of Ruffino were included in equity in earnings of equity method investees on the Company's Consolidated Statements of Comprehensive Income through October 5, 2011. In addition, prior to October 5, 2011, the Company's Constellation Wines and Spirits segment distributed Ruffino's products primarily in the U.S. Amounts purchased from Ruffino under this arrangement for the nine months and three months ended November 30, 2011, were not material.

On October 5, 2011, the Company acquired the entire remaining 50.1% interest in Ruffino for €50.3 million ($68.6 million). As a result of this acquisition, the Company assumed indebtedness of Ruffino, net of cash acquired, of €54.2 million ($73.1 million). The purchase price was financed with revolver borrowings under the Company's then existing senior credit facility. In accordance with the acquisition method of accounting, the identifiable assets acquired and the liabilities assumed have been measured at their acquisition-date fair values. The acquisition of Ruffino was not material for purposes of supplemental disclosure per the FASB guidance on business combinations. The results of operations of the Ruffino business are reported in the Company's Constellation Wines and Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Investment in Accolade –
The Company retained a less than 20% interest in Accolade, its previously owned Australian and U.K. business divested in January 2011, which consists of equity securities and AFS debt securities. The investment in the equity securities is accounted for under the cost method. Accordingly, the Company recognizes earnings only upon the receipt of a dividend from Accolade. Dividends received in excess of net accumulated earnings since the date of investment are considered a return of investment and are recorded as a reduction of the cost of the investment. No dividends were received for the nine months and three months ended November 30, 2012, and November 30, 2011. The AFS debt securities are measured at fair value on a recurring basis with unrealized holding gains and losses, including foreign currency gains and losses, reported in AOCI until realized (see Note 15). Interest income is recognized based on the interest rate implicit in the AFS debt securities' fair value and is reported in interest expense, net, on the Company's Consolidated Statements of Comprehensive Income. Interest income of $3.7 million and $4.5 million was recognized in connection with the AFS debt securities for the nine months ended November 30, 2012, and November 30, 2011, respectively. Interest income of $1.3 million and $1.4 million was recognized in connection with the AFS debt securities for the three months ended November 30, 2012, and November 30, 2011, respectively. As discussed previously, in the third quarter of fiscal 2012, the Company received cash proceeds of $21.7 million,

consisting of proceeds for principal of $20.2 million and proceeds for interest of $1.5 million, in connection with the early redemption of certain of the AFS debt securities. Accordingly,

Table of Contents

the Company reclassified net gains of $3.2 million, net of income tax effect, from AOCI to selling, general and administrative expenses on the Company's Consolidated Statements of Comprehensive Income. The AFS debt securities contractually mature in January 2023 and can be settled, at the option of the issuer, in cash, equity shares of the issuer, or a combination thereof.

The Company is party to several agreements with Accolade, including distribution agreements under which the Company's Constellation Wines and Spirits segment distributes Accolade's products primarily in the U.S. and Canada, and Accolade distributes Constellation Wines and Spirits' products primarily in Australia, the U.K., and Mainland Europe; certain bulk wine supply agreements; and certain bottling agreements. The following table presents a summary of amounts recognized under these arrangements. As of November 30, 2012, and February 29, 2012, amounts receivable from or payable to Accolade under these arrangements were not material. Effective October 1, 2012, the Company no longer distributes Accolade's products in the U.S.

	For the Nine Months Ended November 30,		For the Three Months Ended November 30,	
	2012	2011	2012	2011
(in millions)				
Amounts sold to or related to services performed for Accolade	$ 70.3	$ 70.5	$ 21.8	$ 18.4
Amounts purchased from or related to services performed by Accolade	$ 11.5	$ 20.8	$ 3.7	$ 8.3

10. BORROWINGS:

Borrowings consist of the following:

	November 30, 2012			February 29, 2012
	Current	Long-term	Total	Total
(in millions)				
Notes Payable to Banks				
Senior Credit Facility –				
Revolving Credit Loans	$—	$—	$—	$ 298.0
Other	16.6	—	16.6	79.9
	$ 16.6	$—	$ 16.6	$ 377.9
Long-term Debt				
Senior Credit Facility – Term Loans	$ 30.0	$ 762.5	$ 792.5	$ 826.6
Senior Notes	—	3,145.7	3,145.7	1,894.8
Other Long-term Debt	19.9	20.7	40.6	30.2
	$ 49.9	$ 3,928.9	$ 3,978.8	$ 2,751.6

Senior credit facility –
On May 3, 2012 (the "Closing Date"), the Company, Bank of America, N.A., as administrative agent, and certain other lenders (all such parties other than the Company are collectively referred to as the "Lenders") entered into a new Credit Agreement (the "May 2012 Credit Agreement"). On August 8, 2012, the May 2012 Credit Agreement was amended and restated (the "August 2012 Restatement"). The May 2012 Credit Agreement together with the August 2012 Restatement is referred to as the "2012 Credit Agreement." The 2012 Credit Agreement provides for aggregate credit facilities of

$2,225.0 million, consisting of a $550.0 million term loan facility

19

Table of Contents

maturing on May 3, 2017 (the "Term A Facility"), a $250.0 million term loan facility maturing on May 3, 2019 (the "Term A-1 Facility"), a $575.0 million delayed draw term loan facility maturing on August 8, 2017 (the "Term A-2 Facility"), and an $850.0 million revolving credit facility (including a sub-facility for letters of credit of up to $200.0 million) which terminates on May 3, 2017 (the "Revolving Credit Facility"). The obligation of the relevant Lenders to make loans pursuant to the Term A-2 Facility (the "Term A-2 Loans") terminates no later than December 30, 2013, and is subject to limited conditions, including, but not limited to, the Crown Acquisition having closed (or closing concurrently with the making of the Term A-2 Loans, the "Term A-2 Closing Date"). The 2012 Credit Agreement also permits the Company from time to time after the Closing Date to elect to increase the Lenders' revolving credit commitments or add one or more tranches of additional term loans, subject to the willingness of existing or new lenders to fund such increase or term loans and other customary conditions. The minimum aggregate principal amount of such incremental revolving credit commitment increases or additional term loans may be no less than $25.0 million and the maximum aggregate principal amount of all such incremental revolving credit commitment increases and additional term loans (the "Incremental Facilities Cap"), other than term loans the proceeds of which are applied to repay existing term loans, may be no more than $500.0 million until the Term A-2 Closing Date (see additional discussion below). A portion of the proceeds of the May 2012 Credit Agreement were used to repay the outstanding obligations under the Company's then existing senior credit facility. The Company uses its revolving credit facility under the 2012 Credit Agreement for general corporate purposes.

The rate of interest on borrowings under the 2012 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is adjustable based upon the Company's debt ratio (as defined in the 2012 Credit Agreement). As of November 30, 2012, the LIBOR margin for the Term A Facility and the Revolving Credit Facility was 1.75%; and the LIBOR margin for the Term A-1 Facility was 2.0%.

The changes to the May 2012 Credit Agreement effected by the August 2012 Restatement, among other things, (i) arranged a portion of the debt to finance the Crown Acquisition (the Term A-2 Facility), (ii) facilitated the issuance of the August 2012 Senior Notes and the arrangements under the Escrow Agreement, (iii) modified certain defined terms and covenant requirements, and (iv) adjusted the Incremental Facilities Cap from $750.0 million to $500.0 million until the Term A-2 Closing Date. Subsequent to the Term A-2 Closing Date, the Incremental Facilities Cap will be $750.0 million minus the amount by which the aggregate initial principal amount of the Term A-2 Loans exceeds $325.0 million, if any. If the Term A-2 Loans are never borrowed and the commitments for the Term A-2 Facility are terminated, the Incremental Facilities Cap will revert to $750.0 million.

The obligations under the 2012 Credit Agreement are guaranteed by certain of the Company's U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 55-65% of certain interests of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2012 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, the payment of dividends, the making of certain investments, prepayments of certain debt, transactions with affiliates, agreements that restrict the Company's non-guarantor subsidiaries from paying dividends, and dispositions of property, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to a minimum interest coverage ratio and a maximum net debt coverage ratio.

As of November 30, 2012, under the 2012 Credit Agreement, the Company had outstanding borrowings under the Term A Facility of $543.1 million bearing an interest rate of 2.0%, Term A-1 Facility of $249.4 million bearing an interest rate of 2.2%, outstanding letters of credit of $14.4 million, and $835.6 million in revolving loans available to be drawn.

Table of Contents

As of November 30, 2012, the required principal repayments of the Term A Facility and the Term A-1 Facility for the remaining three months of fiscal 2013 and for each of the five succeeding fiscal years and thereafter are as follows:

	Term A Facility	Term A-1 Facility	Total
(in millions)			
2013	$6.9	$0.6	$7.5
2014	27.5	2.5	30.0
2015	41.2	2.5	43.7
2016	55.0	2.5	57.5
2017	55.0	2.5	57.5
2018	357.5	2.5	360.0
Thereafter	—	236.3	236.3
	$543.1	$249.4	$792.5

In April 2012, the Company transitioned its interest rate swap agreements to a one-month LIBOR base rate versus the then existing three-month LIBOR base rate. Accordingly, the Company entered into new interest rate swap agreements which were designated as cash flow hedges of $500.0 million of the Company's floating LIBOR rate debt. In addition, the then existing interest rate swap agreements were dedesignated by the Company and the Company entered into additional undesignated interest rate swap agreements for $500.0 million to offset the prospective impact of the newly undesignated interest rate swap agreements. The unrealized losses in AOCI related to the dedesignated interest rate swap agreements are being reclassified from AOCI ratably into earnings in the same period in which the original hedged item is recorded in the Consolidated Statements of Comprehensive Income. Accordingly, the Company has fixed its interest rates on $500.0 million of the Company's floating LIBOR rate debt at an average rate of 2.8% (exclusive of borrowing margins) through September 1, 2016. For the nine months ended November 30, 2012, and November 30, 2011, the Company reclassified net losses of $6.1 million and $2.0 million, net of income tax effect, respectively, from AOCI to interest expense, net, on the Company's Consolidated Statements of Comprehensive Income. For the three months ended November 30, 2012, and November 30, 2011, the Company reclassified net losses of $2.0 million and $2.0 million, net of income tax effect, respectively, from AOCI to interest expense, net, on the Company's Consolidated Statements of Comprehensive Income.

Senior notes –
On April 17, 2012, the Company issued $600.0 million aggregate principal amount of 6% Senior Notes due May 2022 (the "April 2012 Senior Notes"). The net proceeds of the offering ($591.4 million) were used for general corporate purposes, including, among others, reducing the outstanding indebtedness under the Company's prior senior credit facility and common stock share repurchases under the 2013 Authorization (as defined in Note 13). Interest on the April 2012 Senior Notes is payable semiannually on May 1 and November 1 of each year, beginning November 1, 2012. The April 2012 Senior Notes are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount plus a make whole payment based on the present value of the future payments at the adjusted Treasury Rate plus 50 basis points. The April 2012 Senior Notes are senior unsecured obligations and rank equally in right of payment to all existing and future senior unsecured indebtedness of the Company. Certain of the Company's U.S. subsidiaries guarantee the April 2012 Senior Notes on a senior unsecured basis. As of November 30, 2012, the Company had outstanding $600.0 million aggregate principal amount of April 2012 Senior Notes.

On August 14, 2012, the Company issued $650.0 million aggregate principal amount of 4.625% Senior Notes due March 2023 (the "August 2012 Senior Notes"). The Company intends to use the net proceeds from the offering ($640.6 million) to fund a portion of the Crown Acquisition. Interest on the August 2012 Senior Notes is payable semiannually on March 1 and September 1 of each year, beginning March 1, 2013. The August 2012 Senior Notes are redeemable,

in whole or in part, at the option of the Company at any time at a redemption price

---

Table of Contents

equal to 100% of the outstanding principal amount plus a make whole payment based on the present value of the future payments at the adjusted Treasury Rate plus 50 basis points. In addition, if the Crown Acquisition is terminated or has not been consummated on or prior to December 30, 2013, all of the August 2012 Senior Notes will be redeemed (the “Special Mandatory Redemption”) at a price equal to 100% of the outstanding principal amount, together with accrued and unpaid interest to the date of the Special Mandatory Redemption. The August 2012 Senior Notes are senior unsecured obligations that rank equally with the Company’s other senior unsecured indebtedness except that the Escrowed Property will be held in escrow and has been pledged to secure the August 2012 Senior Notes until it is used to fund a portion of the purchase price for the Crown Acquisition. Certain of the Company’s U.S. subsidiaries guarantee the August 2012 Senior Notes on a senior unsecured basis. As of November 30, 2012, the Company had outstanding $650.0 million aggregate principal amount of August 2012 Senior Notes.

As discussed previously, in connection with the issuance of the August 2012 Senior Notes, the Company entered into the Escrow Agreement pursuant to which the Escrowed Property was placed into an escrow account. In accordance with the terms of the Escrow Agreement, the Escrowed Property will be released to the Company upon closing of the Crown Acquisition. If the Crown Acquisition is terminated or has not been consummated on or prior to December 30, 2013, the Escrowed Property will be released for purposes of effecting the Special Mandatory Redemption.

Debt payments –
Principal payments required under long-term debt obligations (excluding unamortized discount of $4.3 million) for the remaining three months of fiscal 2013 and for each of the five succeeding fiscal years and thereafter are as follows:

(in millions)	
2013	$12.9
2014	47.0
2015	553.8
2016	63.4
2017	759.8
2018	1,060.0
Thereafter	1,486.2
	$3,983.1

Accounts receivable securitization facility –
On December 4, 2012, the Company entered into a 364-day revolving trade accounts receivable securitization facility. Under the facility, trade accounts receivable generated by the Company and certain of its subsidiaries are sold by the Company to a wholly-owned bankruptcy remote single purpose subsidiary (the “SPV”), which is consolidated with the Company for financial reporting purposes. Such trade accounts receivable have been pledged by the SPV to secure borrowings under the facility. The Company will continue to service the trade accounts receivable and act as servicer for the facility. The trade accounts receivable balances related to this facility will continue to be reported as accounts receivable on the Company's Consolidated Balance Sheets, but the trade accounts receivable will at all times be owned by the SPV and be included on the financial statements of the Company to comply with generally accepted accounting principles. Any borrowings under the facility will be recorded as secured borrowings and will bear interest at a rate based on a margin of 100 basis points plus the conduit lender's cost of funds or, if such borrowings were not funded by commercial paper issuances by the conduit lender, one-month LIBOR. The facility provides borrowing capacity of $65.0 million up to $250.0 million structured to account for the seasonality of the Company’s business, subject to further limitations based upon various pre-agreed formulas. As of January 9, 2013, the SPV had not effected any borrowings under the facility.

22

Table of Contents

11. INCOME TAXES:

The Company's effective tax rate for the nine months ended November 30, 2012, and November 30, 2011, was 25.3% and 24.6%, respectively. The Company's effective tax rate for the nine months ended November 30, 2012, was substantially impacted by the generation of additional foreign tax credits. The Company's effective tax rate for the nine months ended November 30, 2011, was substantially impacted by a decrease in uncertain tax positions in connection with the completion of various income tax examinations during the nine months ended November 30, 2011.

The Company's effective tax rate for the three months ended November 30, 2012, and November 30, 2011, was 27.0% and 37.4%, respectively. The Company's effective tax rate for the three months ended November 30, 2012, was substantially impacted by the benefit from additional foreign tax credits.

12. COMMITMENTS AND CONTINGENCIES:

Indemnification liabilities –
In connection with the Company's January 2011 divestiture of 80.1% of its Australian and U.K. business (the "CWAE Divestiture"), the Company indemnified respective parties against certain liabilities that may arise related to certain contracts with certain investees of Accolade, a certain facility in the U.K. and certain income tax matters. As of November 30, 2012, and February 29, 2012, the carrying amount of these indemnification liabilities was $22.3 million and $22.4 million, respectively. If the indemnified party were to incur a liability, pursuant to the terms of the indemnification, the Company would be required to reimburse the indemnified party. As of November 30, 2012, the Company estimates that these indemnifications could require the Company to make potential future payments of up to $303.4 million under these indemnifications with $282.0 million of this amount able to be recovered by the Company from third parties under recourse provisions. The Company does not expect to be required to make material payments under the indemnifications and the Company believes that the likelihood is remote that the indemnifications could have a material adverse effect on the Company's financial position, results of operations, cash flows or liquidity.

In addition, prior to January 1, 2012, Constellation Beers provided certain administrative services to Crown Imports. On January 1, 2012, in accordance with the terms of the original joint venture agreement, such administrative services were discontinued. In connection with the discontinuation of the Company's administrative services agreement with Crown Imports, Crown Imports entered into a contract with a third party for the lease of certain office facilities. The Company is jointly and severally liable with Modelo to indemnify the third party for lease payments over the term of the contract which extends through June 2021. The fair value of the liability recorded at January 1, 2012, was not material. As of November 30, 2012, if the indemnified party were to incur a liability, pursuant to the terms of the indemnification, the Company would be required to reimburse the indemnified party. As of November 30, 2012, this indemnification could require the Company to make potential future payments of up to $39.2 million with none of this amount able to be recovered by the Company from third parties under recourse provisions. The Company does not expect to be required to make material payments under this indemnification and the Company believes that the likelihood is remote that this indemnification could have a material adverse effect on the Company's financial position, results of operations, cash flows or liquidity. As of November 30, 2012, and February 29, 2012, the carrying amount of this indemnification liability was not material.

13. STOCKHOLDERS' EQUITY:

In April 2011, the Company's Board of Directors authorized the repurchase of up to $500.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock (the "2012 Authorization"). During the year ended February 29, 2012, the Company repurchased 21,234,266 shares of Class A Common Stock pursuant to the 2012 Authorization at an aggregate cost of $413.7 million, or an average cost of $19.48 per share, through open market transactions. During the nine months ended November 30, 2012, the Company utilized the remaining $86.3 million

outstanding under the 2012 Authorization to repurchase 3,970,481 shares of Class A Common Stock at an average cost of $21.74 per share, through open market transactions. In total, the Company has repurchased

Table of Contents

25,204,747 shares of Class A Common Stock pursuant to the 2012 Authorization at an aggregate cost of $500.0 million, or an average cost of $19.84 per share. The Company used proceeds from revolver borrowings under its then existing senior credit facility and cash generated from operations to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares.

In April 2012, the Company's Board of Directors authorized the repurchase of up to $1.0 billion of the Company's Class A Common Stock and Class B Convertible Common Stock (the "2013 Authorization"). The Board of Directors did not specify a date upon which the 2013 Authorization would expire. Share repurchases under the 2013 Authorization may be accomplished at management's discretion from time to time based on market conditions, the Company's cash and debt position, and other factors as determined by management. Shares may be repurchased through open market or privately negotiated transactions. The Company may fund future share repurchases with cash generated from operations, proceeds from borrowings under the accounts receivable securitization facility or proceeds from revolver borrowings under its senior credit facility. Any repurchased shares will become treasury shares.

During the nine months ended November 30, 2012, the Company repurchased 14,023,985 shares of Class A Common Stock pursuant to the 2013 Authorization at an aggregate cost of $296.7 million, or an average cost of $21.15 per share, through open market transactions. The Company used proceeds from the April 2012 Senior Notes, revolver borrowings under both the May 2012 Credit Agreement and its prior senior credit facility, and cash generated from operations to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares.

14. EARNINGS PER COMMON SHARE:

Earnings per common share – basic excludes the effect of common stock equivalents and is computed using the two-class computation method. Earnings per common share – diluted for Class A Common Stock reflects the potential dilution that could result if securities or other contracts to issue common stock were exercised or converted into common stock. Earnings per common share – diluted for Class A Common Stock has been computed using the more dilutive of the if-converted or two-class computation method. Using the if-converted method, earnings per common share – diluted for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock. Using the two-class computation method, earnings per common share – diluted for Class A Common Stock assumes the exercise of stock options using the treasury stock method and no conversion of Class B Convertible Common Stock. For the nine months and three months ended November 30, 2012, and November 30, 2011, earnings per common share – diluted for Class A Common Stock has been calculated using the if-converted method. For the nine months and three months ended November 30, 2012, and November 30, 2011, earnings per common share – diluted for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

Table of Contents

The computation of basic and diluted earnings per common share is as follows:

	For the Nine Months Ended November 30,		For the Three Months Ended November 30,	
	2012	2011	2012	2011
(in millions, except per share data)				
Income available to common stockholders	$306.1	$342.0	$109.5	$104.8
Weighted average common shares outstanding – basic:				
Class A Common Stock	158.442	183.348	158.270	176.293
Class B Convertible Common Stock	23.538	23.594	23.524	23.585
Weighted average common shares outstanding – diluted:				
Class A Common Stock	158.442	183.348	158.270	176.293
Class B Convertible Common Stock	23.538	23.594	23.524	23.585
Stock-based awards, primarily stock options	6.662	3.724	7.902	3.055
Weighted average common shares outstanding – diluted	188.642	210.666	189.696	202.933
Earnings per common share – basic:				
Class A Common Stock	$1.70	$1.67	$0.61	$0.53
Class B Convertible Common Stock	$1.55	$1.52	$0.55	$0.48
Earnings per common share – diluted:				
Class A Common Stock	$1.62	$1.62	$0.58	$0.52
Class B Convertible Common Stock	$1.49	$1.49	$0.53	$0.47

For the nine months ended November 30, 2012, and November 30, 2011, stock-based awards, primarily stock options, which could result in the issuance of 2.2 million and 9.2 million shares, respectively, of Class A Common Stock were outstanding, but were not included in the computation of earnings per common share – diluted for Class A Common Stock because the effect of including such awards would have been antidilutive. Stock-based awards outstanding whose impact would have been antidilutive in the computation of earnings per common share – diluted for Class A Common Stock for the three months ended November 30, 2012, were not material. For the three months ended November 30, 2011, stock-based awards, primarily stock options, which could result in the issuance of 9.6 million shares of Class A Common Stock were outstanding, but were not included in the computation of earnings per common share – diluted for Class A Common Stock because the effect of including such awards would have been antidilutive.

16. RESTRUCTURING CHARGES:

Restructuring charges consist of employee termination benefit costs, contract termination costs and other associated costs. Employee termination benefit costs are accounted for under the FASB guidance for compensation – nonretirement postemployment benefits, as the Company has had several restructuring programs which have provided employee termination benefits in the past. The Company includes employee severance, related payroll benefit costs (such as costs to provide continuing health insurance) and outplacement services as employee termination benefit costs. Contract termination costs, and other associated costs including, but not limited to, facility consolidation and relocation costs, are accounted for under the FASB guidance for exit or disposal cost obligations. Contract termination costs are costs to terminate a contract that is not a capital lease, including costs to terminate the contract before the end of its term or costs that will continue to be incurred under the contract for its remaining term without economic benefit to the Company. The Company includes costs to terminate certain operating leases for buildings, computer and IT

equipment, and costs to terminate contracts, including distributor contracts and contracts for long-term purchase commitments, as contract termination costs. Other associated costs

28

Table of Contents

include, but are not limited to, costs to consolidate or close facilities and relocate employees. The Company includes employee relocation costs and equipment relocation costs as other associated costs.

The Company's significant restructuring plan with current activity is as follows:

Fiscal 2012 Initiative –
In May 2011, the Company committed to a plan (announced in June 2011) to streamline operations, gain efficiencies and reduce its cost structure following the CWAE Divestiture (the "Fiscal 2012 Initiative"). The Fiscal 2012 Initiative includes an approximate two to three percent reduction in the Company's then existing global workforce. This initiative is part of the Company's ongoing efforts to maximize asset utilization, reduce costs and improve long-term return on invested capital throughout the Company's operations. The Company expects all costs and related cash expenditures associated with the Fiscal 2012 Initiative to be substantially complete by February 28, 2013.

Details of this plan for which the Company expects to incur additional costs are presented separately in the following table. Plans for which exit activities were substantially complete prior to March 1, 2012, and other immaterial restructuring activities are reported below under "Other Plans."

(in millions)	Fiscal 2012 Initiative	Other Plans	Total
Restructuring liability, February 29, 2012	$8.0	$6.8	$14.8
Restructuring charges:			
Employee termination benefit costs	0.4	—	0.4
Contract termination costs	—	—	—
Facility consolidation/relocation costs	—	0.1	0.1
Restructuring charges, May 31, 2012	0.4	0.1	0.5
Employee termination benefit costs	0.2	—	0.2
Contract termination costs	—	—	—
Facility consolidation/relocation costs	—	—	—
Restructuring charges, August 31, 2012	0.2	—	0.2
Employee termination benefit costs	(0.2)	0.5	0.3
Contract termination costs	—	—	—
Facility consolidation/relocation costs	—	—	—
Restructuring charges, November 30, 2012	(0.2)	0.5	0.3
Total restructuring charges	0.4	0.6	1.0
Cash expenditures	(5.5)	(2.9)	(8.4)
Foreign currency translation and other noncash adjustments	—	(0.1)	(0.1)
Restructuring liability, November 30, 2012	$2.9	$4.4	$7.3

For the nine months and three months ended November 30, 2012, employee termination benefit costs include the reversal of prior accruals of $0.5 million associated with the Fiscal 2012 Initiative.

Table of Contents

The following table presents a summary of restructuring charges and other costs incurred, including a summary of amounts incurred by each of the Company's reportable segments, in connection with the Company's restructuring plans noted above.

(in millions)	Fiscal 2012 Initiative	Other Plans	Total
For the Nine Months Ended November 30, 2012			
Restructuring charges	$0.4	$0.6	$1.0
Other costs:			
Accelerated depreciation (cost of product sold)	—	—	—
Other costs (selling, general and administrative expenses)	6.9	—	6.9

Total Corporate Operations and Other	$9.3

17. CONDENSED CONSOLIDATING FINANCIAL INFORMATION:

The following information sets forth the condensed consolidating balance sheets as of November 30, 2012, and February 29, 2012, the condensed consolidating statements of comprehensive income for the nine months and three months ended November 30, 2012, and November 30, 2011, and the condensed consolidating statements of cash flows for the nine months ended November 30, 2012, and November 30, 2011, for the Company, the parent company, the combined subsidiaries of the Company which guarantee the Company's senior notes ("Subsidiary Guarantors") and the combined subsidiaries of the Company which are not Subsidiary Guarantors (primarily foreign subsidiaries) ("Subsidiary Nonguarantors"). The Subsidiary Guarantors are 100% owned, directly or indirectly, by the parent company and the guarantees are joint and several obligations of each of the Subsidiary Guarantors. The guarantees are full and unconditional, as those terms are used in Rule 3-10 of Regulation S-X, except that a Subsidiary Guarantor can be automatically released and relieved of its obligations under certain customary circumstances contained in the indentures governing the Company's senior notes. These customary circumstances include, so long as other applicable provisions of the indentures are adhered to, the termination or release of a Subsidiary Guarantor's guarantee of other indebtedness or upon the legal defeasance or covenant defeasance or satisfaction and discharge of the Company's senior notes. Separate financial statements for the Subsidiary Guarantors of the Company are not presented because the Company has determined that such financial statements would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 to the Company's consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended February 29, 2012, and include the recently adopted accounting guidance described in Note 2 herein. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to the Company in the form of cash dividends, loans or advances.

Table of Contents

18. BUSINESS SEGMENT INFORMATION:

The Company's internal management financial reporting consists of two business divisions: Constellation Wines and Spirits and Crown Imports. Accordingly, the Company reports its operating results in three segments: Constellation Wines and Spirits (wine and spirits) (formerly known as Constellation Wines North America), Corporate Operations and Other, and Crown Imports (imported beer). The business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting. Amounts included in the Corporate Operations and Other segment consist of costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations and global information technology. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other reportable segments.

In addition, the Company excludes restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

Table of Contents

For the nine months and three months ended November 30, 2012, and November 30, 2011, restructuring charges and unusual items included in operating income consist of:

	For the Nine Months Ended November 30,		For the Three Months Ended November 30,
