Diluted Earnings Per Share	\$.60	\$.48 (2)	25.0%
Average Diluted Shares Outstanding	142,705	142,059	0.5%
Telephone Revenues	\$ 380,499	\$ 367,884	3.4%
Other Operations Revenues	\$ 58,203	\$ 41,366	40.7%
Telephone Access Lines	1,795,180	1,807,950	(0.7)%
Long Distance Customers	536,394	414,486	29.4%

- (1) Includes corporate overheads previously allocated to discontinued operations.
- (2) As adjusted to reflect the after-tax effect of eliminating goodwill amortization in accordance with SFAS 142.

"We are pleased with the strong increase in CenturyTel's revenue and cash flow from continuing operations, excluding nonrecurring items," Glen F. Post, III, president and chief executive officer, said. "We continue to experience strong demand for our long distance and DSL services, adding more than 120,000 long distance customers and more than doubling our DSL subscribers since second quarter 2001."

Consolidated revenues from continuing operations for the second quarter rose 7.2% to \$438.7 million from \$409.3 million. EBITDA from continuing operations, excluding nonrecurring items, grew to \$221.0 million from \$201.6 million. The Company achieved a consolidated EBITDA margin of 50.4% during the quarter. Income from continuing operations for the quarter, excluding nonrecurring items, increased 20.2% to \$47.5 million from \$39.5 million in second quarter 2001 (as adjusted). Diluted earnings per share from continuing operations, excluding nonrecurring items, increased 17.9% to \$.33 from \$.28 (as adjusted). Diluted earnings per share, excluding nonrecurring items, increased 25.0% to \$.60 from \$.48 (as adjusted).

Telephone revenues grew 3.4% to \$380.5 million during the quarter, compared with \$367.9 million in second quarter 2001. Revenues for the quarter were driven by an increase in Universal Service Fund payments and internal revenue growth of 2.3%, which was negatively impacted by a decline in intrastate revenue. Telephone operating expenses increased due to acquisition integration, employee-related, network, and depreciation expenses partially offset by a decrease in retail bad debt and access charge expenses. Telephone operating income, excluding nonrecurring items, increased 4.1% to \$118.7 million from \$114.1 million (as adjusted), and telephone EBITDA, excluding nonrecurring items, rose 5.3% to \$208.9 million from \$198.3 million a year ago. CenturyTel's second quarter telephone EBITDA margin was 54.9% while the operating income

Edgar Filing: CENTURYTEL INC - Form 8-K

margin was 31.2%.

Other Operations revenues grew 40.7% to \$58.2 million during second quarter 2002, compared with \$41.4 million in second quarter 2001. CenturyTel's long distance revenues increased \$5.9 million, or 20.9%, to \$34.5 million. CenturyTel now serves more than 536,000 long distance customers, adding more than 21,000 during the quarter. Internet revenues increased 68.7% to \$14.7 million in second quarter 2002 from \$8.7 million in second quarter 2001. The Internet business generated positive operating cash flow of \$55,000 for the quarter compared to negative operating cash flow of \$2.7 million for the second quarter 2001. CenturyTel CLEC revenues increased by \$4.7 million, of which \$4.0 million resulted from the acquisition of CLEC assets in Monroe and Shreveport, Louisiana, at the end of February, 2002.

"Revenue from Other Operations, which includes long distance, Internet and CLEC operations, rose 40.7 percent to more than \$58 million during the quarter, reflecting solid revenue growth in all three areas. We believe CenturyTel's strong financial performance this quarter is a good indicator that rural telephony is one of the industry's brightest segments," Post said.

For second quarter 2002, in accordance with generally accepted accounting principles (GAAP), the Company reported net income of \$78.8 million, or \$.55 per diluted share, compared to net income of \$168.4 million (as adjusted), or \$1.19 per diluted share in second quarter 2001. Nonrecurring items in second quarter 2002 include a \$15 million pre-tax charge (\$9.8 million after-tax) related to a reserve for uncollectible revenues primarily from WorldCom and a nonrecurring \$2.4 million after-tax gain on the sale of a PCS license. Net income in second quarter 2001 includes a net favorable \$100.7 million impact from nonrecurring items which consisted of the gain on sale of PCS licenses to Leap Wireless (\$107.5 million after-tax) and the write down of certain non-operating investments (\$6.8 million after-tax).

For the first six months of 2002, income from continuing operations, excluding nonrecurring items, increased 16.6% to \$92.4 million from \$79.2 million in 2001 (as adjusted) and diluted earnings per share increased 22.0% to \$1.11 from \$.91 (as adjusted). Consolidated revenues increased 5.0% to \$861.6 million from \$820.9 million while EBITDA was \$433.0 million compared to \$409.2 million a year ago, a 5.8% increase.

The Company continues to reflect its wireless business as discontinued operations due to its pending divestiture. As a result of this treatment, depreciation expense for the wireless operations was discontinued effective March 19, 2002, the date of the definitive agreement. This reduction in wireless depreciation contributed approximately \$.05 to earnings per share for second quarter 2002. Income from continuing operations includes total interest expense and \$5.1 million of corporate overheads previously absorbed by the Company's wireless operations.

For the third quarter 2002, the Company expects revenue from continuing operations to be \$515 to \$530 million. Operating cash flow from continuing operations is expected to be \$260 to \$270 million. Diluted earnings per share from continuing operations is anticipated to be \$.40 to \$.44, while total diluted earnings per share is expected to be \$.49 to \$.54 for third quarter 2002. These estimates exclude nonrecurring items and one-time integration costs of \$4.0 to \$6.0 million related to the pending Verizon Missouri acquisition. These estimates also include Alabama telephone properties acquired July 1, 2002, and assume that the sale of the Company's wireless business and the acquisition of Missouri telephone properties occur as scheduled on August 1, 2002, and August 31, 2002, respectively.

For the full year 2002, the Company expects its total diluted earnings per share, excluding nonrecurring items and one-time acquisition integration costs

Edgar Filing: CENTURYTEL INC - Form 8-K

of \$8 - \$10 million, to be \$2.08 to \$2.20, an increase from prior full year 2002 earnings per share guidance of \$2.06 to \$2.18. This guidance is based upon several financing, operational and other assumptions, including the timely close of our pending wireless divestiture and Verizon acquisition in Missouri discussed above.

The Company continues to believe the net effect of its wireless divestiture and its Verizon acquisitions will be breakeven to \$.03 accretive to earnings per share during the first full year of operations, based upon current financing, operational and other assumptions.

The Company's financing plans are now substantially complete. We successfully completed a \$500 million equity units offering in May and recently completed a new \$800 million credit facility. We anticipate using a portion of the proceeds from the divestiture of the Company's wireless business to complete the Missouri acquisition. We believe the Company's existing facilities, together with internally generated cash, may be sufficient to fund the December 2002 tax payment related to the wireless sale. The Company also has \$400 million in remarketable debt securities coming due in October 2002. We believe a number of financing options are available to fund these requirements if necessary.

In addition to historical information, this release includes forward-looking statements, estimates and projections that are based on current expectations only, and are subject to a number of risks, uncertainties and assumptions, many of which are beyond the control of CenturyTel. Actual events and results may differ materially from those anticipated, estimated or projected if one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect. Factors that could affect actual results include but are not limited to: the Company's ability to effectively manage its growth, including integrating newly acquired businesses into our operations, successfully financing and timely consummating pending acquisitions, hiring adequate numbers of qualified staff and successfully upgrading our billing and other information systems; successfully obtaining all consents and waivers necessary to complete the Company's pending acquisitions and wireless divestiture; the terms upon which the Company finances its pending acquisitions; the inherent risk of rapid technological change; the effects of on-going changes in the regulation of the Company or the communications industry generally; the effects of greater than anticipated competition in the Company's markets; possible changes in the demand for, or pricing of, the Company's products and services; the Company's ability to successfully introduce new offerings on a timely and cost-effective basis; higher than anticipated interest rates; and the effects of more general factors such as changes in overall market or economic conditions or in legislation, regulation or public policy. These and other uncertainties related to the Company's business are described in greater detail in the Company's Annual Report on Form 10-K for the year ended December 31, 2001. The information contained in this release is as of July 25, 2002. The Company undertakes no obligation to update or revise any of this information whether as a result of new information, future events or developments, or otherwise.

CenturyTel's management will host a conference call at 10:30 A.M. Central time today. Interested parties can access the call by dialing 800.729.6845 and the call will be accessible for replay by calling 800.642.1687 and entering the conference-id number: 12475. Investors can also listen to CenturyTel's earnings conference call and replay by accessing the Company's Web site at (www.centurytel.com).

CenturyTel, Inc. provides communications services including local exchange, wireless, long distance, Internet access and data services to more than three million customers in 22 states. The company, headquartered in Monroe, Louisiana, is publicly traded on the New York Stock Exchange under the symbol CTL. CenturyTel is the 8th largest local exchange telephone company, based on access lines, in the United States.
