NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements of Dillard's, Inc. (the "Company") have been prepared in accordance with the rules of the Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended August 1, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending January 30, 2016 due to, among other things, the seasonal nature of the business.

These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015 filed with the SEC on March 25, 2015.

Note 2. Business Segments

The Company operates in two reportable segments: the operation of retail department stores ("retail operations") and a general contracting construction company ("construction").

For the Company's retail operations, the Company determined its operating segments on a store by store basis. Each store's operating performance has been aggregated into one reportable segment. The Company's operating segments are aggregated for financial reporting purposes because they are similar in each of the following areas: economic characteristics, class of consumer, nature of products and distribution methods. Revenues from external customers are derived from merchandise sales, and the Company does not rely on any major customers as a source of revenue. Across all stores, the Company operates one store format under the Dillard's name where each store offers the same general mix of merchandise with similar categories and similar customers. The Company believes that disaggregating its operating segments would not provide meaningful additional information.

Table of Contents

The following tables summarize certain segment information, including the reconciliation of those items to the Company's consolidated operations:

Table of Contents

Note 3. Earnings Per Share Data

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated (in thousands, except per share data).

	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Net income	\$29,950	\$34,449	\$139,521	\$146,132
Weighted average shares of common stock outstanding	40,096	43,217	40,644	43,434
Basic and diluted earnings per share	\$0.75	\$0.80	\$3.43	\$3.36

The Company maintains a capital structure in which common stock is the only security issued and outstanding, and no shares of preferred stock, stock options, other dilutive securities or potentially dilutive securities were issued or outstanding during the three or six months ended August 1, 2015 and August 2, 2014.

Note 4. Commitments and Contingencies

Various legal proceedings, in the form of lawsuits and claims, which occur in the normal course of business, are pending against the Company and its subsidiaries. In the opinion of management, disposition of these matters, individually or in the aggregate, is not expected to have a material adverse effect on the Company's financial position, cash flows or results of operations.

At August 1, 2015, letters of credit totaling \$28.0 million were issued under the Company's revolving credit facility.

Note 5. Benefit Plans

The Company has an unfunded, nonqualified defined benefit plan ("Pension Plan") for its officers. The Pension Plan is noncontributory and provides benefits based on years of service and compensation during employment. Pension expense is determined using an actuarial cost method to estimate the total benefits ultimately payable to officers and allocates this cost to service periods. The actuarial assumptions used to calculate pension costs are reviewed annually. The Company contributed \$0.7 million and \$1.5 million to the Pension Plan during the three and six months ended August 1, 2015, respectively, and expects to make additional contributions to the Pension Plan of approximately \$3.1 million during the remainder of fiscal 2015.

The components of net periodic benefit costs are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Components of net periodic benefit costs:				
Service cost	\$983	\$1,099	\$1,966	\$2,198
Interest cost	1,684	1,911	3,368	3,822
Net actuarial loss	924	665	1,848	1,330
Net periodic benefit costs	\$3,591	\$3,675	\$7,182	\$7,350

Net periodic benefit costs are included in selling, general and administrative expenses.

Note 6. Revolving Credit Agreement

In May 2015, the Company entered into a new \$1.0 billion senior unsecured revolving credit facility ("credit agreement") replacing the Company's previous secured revolving credit facility. The new credit agreement matures on May 13, 2020 and is available to the Company for working capital needs and general corporate purposes. The Company pays a variable rate of interest on borrowings under the credit agreement and a commitment fee to the participating banks based on the Company's debt rating. To be in compliance with the financial covenants of the credit agreement, the Company's total leverage ratio cannot exceed 4.0 to 1.0 and the coverage ratio cannot be less than 2.5 to 1.0. At August 1, 2015, the Company was in compliance with all financial covenants related to the credit agreement.

Table of Contents

At August 1, 2015, no borrowings were outstanding, and letters of credit totaling \$28.0 million were issued under the credit agreement.

Note 7. Stock Repurchase Programs

The Company's Board of Directors has authorized the Company to repurchase the Company's Class A Common Stock under open-ended stock plans. These authorizations permit the Company to repurchase its Class A Common Stock in the open market, pursuant to preset trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934 or through privately negotiated transactions. The authorizations have no expiration date. The following is a summary of share repurchase activity for the periods indicated (in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	August 1, 2015	August 2, 2014	August 1, 2015	August 2, 2014
Cost of shares repurchased	\$207,945	\$—	\$207,945	\$65,922
Number of shares repurchased	1,843	—	1,843	738
Average price per share	\$112.83	\$—	\$112.83	\$89.34

All repurchases of the Company's Class A Common Stock above were made at the market price at the trade date. Accordingly, all amounts paid or payable to reacquire these shares were allocated to Treasury Stock. As of August 1, 2015, \$292.1 million of authorization remained under the November 2014 Stock Plan.

Note 8. Income Taxes

During the three months ended August 1, 2015, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes, which included benefits for legislatively-enacted state income tax rate reductions. During the three months ended August 2, 2014, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes.

During the six months ended August 1, 2015 and August 2, 2014, income tax expense differed from what would be computed using the statutory federal tax rate primarily due to the effect of state and local income taxes.

Note 11. Fair Value Disclosures

The estimated fair values of financial instruments which are presented herein have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of amounts the Company could realize in a current market exchange.

The fair value of the Company's long-term debt and subordinated debentures is based on market prices or dealer quotes.

The fair value of the Company's cash and cash equivalents and accounts receivable approximates their carrying values at August 1, 2015 due to the short-term maturities of these instruments. The fair value of the Company's long-term debt at August 1, 2015 was approximately \$702 million. The carrying value of the Company's long-term debt at August 1, 2015 was \$615 million. The fair value of the Company's subordinated debentures at August 1, 2015 was approximately \$210 million. The carrying value of the Company's subordinated debentures at August 1, 2015 was \$200 million.

Note 12. Recently Issued Accounting Standards

Revenue from Contracts with Customers

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which stipulates that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract and (5) recognize revenue when (or as) the entity satisfies a performance obligation. This update was amended by ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date for the Company from the first quarter of fiscal 2017 to the first quarter of fiscal 2018 with early adoption permitted. The Company is currently assessing the impact of this update on its consolidated financial statements.

Presentation of Financial Statements - Going Concern

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40), which requires management to evaluate, at each annual and interim reporting period, whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date the financial statements are issued and provide related disclosures. This ASU is effective for annual periods ending after December 15, 2016 and interim periods thereafter. Early application is permitted. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

Simplifying the Presentation of Debt Issuance Costs

In April 2015, the FASB issued ASU No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, to amend ASC Topic 835. The amendment adds the requirement for an entity to present debt issuance costs in the balance sheet as a direct deduction from the related debt liability rather than as an asset and to report amortization of the debt issuance costs as interest expense. This update will be effective for the Company beginning in the first quarter of fiscal 2016. The adoption of this guidance is not expected to have a significant impact on the Company's consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the condensed consolidated financial statements and the footnotes thereto included elsewhere in this report, as well as the financial and other information included in our Annual Report on Form 10-K for the year ended January 31, 2015.

EXECUTIVE OVERVIEW

The Company's second quarter performance of fiscal 2015 was disappointing. During the three months ended August 1, 2015, comparable store sales increased 1% over last year's second quarter. Gross margin from retail operations declined 54 basis points of sales. Selling, general and administrative expenses from retail operations increased 15 basis points of sales, mainly due to increases in payroll and insurance expense partially offset by decreased advertising expense. Net income decreased to \$29.9 million (\$0.75 per share) for the current year second quarter from \$34.5 million (\$0.80 per share) for the prior year second quarter.

As of August 1, 2015, we had working capital of \$934.0 million, cash and cash equivalents of \$175.1 million and \$814.8 million of total debt outstanding, excluding capital lease obligations. Cash flows from operating activities were \$62.0 million for the six months ended August 1, 2015. We operated 272 Dillard's locations, 25 clearance centers and one internet store as of August 1, 2015, an increase of one store from August 2, 2014.

FINANCIAL CONDITION

A summary of net cash flows for the six months ended August 1, 2015 and August 2, 2014 follows:

(in thousands of dollars)	Six Months Ended		\$ Change	
	August 1, 2015	August 2, 2014		
Operating Activities	\$61,974	\$133,836	\$(71,862)

Financing Activities	(211,137) (71,549) (139,588)
Total Cash Provided	\$(228,615) \$(1,803) \$(226,812)

Net cash flows from operations decreased \$71.9 million during the six months ended August 1, 2015 compared to the six months ended August 2, 2014. This decline was primarily attributable to a decrease of \$63.5 million related to changes in working capital items, primarily due to increases in inventories and decreases in income taxes payable.

Synchrony Financial ("Synchrony") owned and managed Dillard's private label credit cards under the Synchrony Alliance that expired in November 2014. Following that scheduled expiration, Wells Fargo Bank, N.A. ("Wells Fargo") purchased the Dillard's private label card portfolio from Synchrony and began managing Dillard's private label cards under a new 10-year agreement ("Wells Fargo Alliance"). Under the Wells Fargo Alliance, Wells Fargo establishes and owns private label card accounts for our customers, retains the benefits and risks associated with the ownership of the accounts, provides key customer service functions, including new account openings, transaction authorization, billing adjustments and customer inquiries, receives the finance charge income and incurs the bad debts associated with those accounts.

Pursuant to the Wells Fargo Alliance, we receive on-going cash compensation from Wells Fargo based upon the portfolio's earnings. The compensation earned on the portfolio is determined monthly and has no recourse provisions. The amount the Company receives is dependent on the level of sales on Wells Fargo accounts, the level of balances carried on Wells Fargo accounts by Wells Fargo customers, payment rates on Wells Fargo accounts, finance charge rates and other fees on Wells Fargo accounts, the level of credit losses for the Wells Fargo accounts as well as Wells Fargo's ability to extend credit to our customers. We participate in the marketing of the private label cards, which includes the cost of customer reward programs. We accept payments on the private label cards in our stores as a convenience to customers who prefer to pay in person rather than by paying online or mailing their payments to Wells Fargo. The Wells Fargo Alliance expires in fiscal 2024.

The Company received income of approximately \$50.7 million and \$55.7 million from the Wells Fargo Alliance and former Synchrony Alliance during the six months ended August 1, 2015 and August 2, 2014, respectively.

Capital expenditures were \$87.0 million and \$68.8 million for the six months ended August 1, 2015 and August 2, 2014, respectively. The current year expenditures were primarily for the construction of new stores and the remodeling of existing stores. Capital expenditures for fiscal 2015 are expected to be approximately \$160 million compared to actual expenditures of \$152 million during fiscal 2014.

The Company opened its new 200,000 square foot location at Fashion Place in Murray, Utah on August 8, 2015. The store replaces a 190,000 square foot location at the same center. Construction continues on the following new locations:

Center	City	Square Feet	Projected 2015 Opening
Fremaux Town Center	Slidell, Louisiana	126,000	* October
Liberty Center	Cincinnati, Ohio	155,000	October

* replacement store

No stores were closed during the six months ended August 1, 2015; however, we remain committed to closing under-performing stores where appropriate and may incur future closing costs related to these stores when they close.

The cash proceeds from the prior year sale of a store location were originally held in escrow for the acquisition of replacement property under like-kind exchange agreements. The escrow accounts were administered by an intermediary. Pursuant to the like-kind exchange agreements, the cash was restricted for a maximum of 180 days from the date of the property sale pending the acquisition of replacement property. Changes in restricted cash balances are reflected as an investment activity in the accompanying Condensed Consolidated Statements of Cash Flows. During the six months ended August 1, 2015, payments of \$7.3 million were made from restricted cash for like-kind property.

Table of Contents

The Company had cash on hand of \$175.1 million as of August 1, 2015. The new credit agreement matures on May 13, 2020 and is available to the Company for working capital needs and general corporate purposes. To be in compliance with the financial covenants of the credit agreement, the Company's total leverage ratio cannot exceed 4.0 to 1.0 and the coverage ratio cannot be less than 2.5 to 1.0.

At August 1, 2015, no borrowings were outstanding, and letters of credit totaling \$28.0 million were issued under the credit agreement.
