UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
^x 1934

For the quarterly period ended June 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
^o 1934

Commission File Number 1-815

E. I. du Pont de Nemours and Company

(Exact Name of Registrant as Specified in Its Charter)

Delaware 51-0014090

(State or other Jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

974 Centre Road, Wilmington, Delaware 19805

(Address of Principal Executive Offices)

(302) 774-1000

(Registrant's Telephone Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that registrant was required to submit and post such files.) Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer

Non-Accelerated Filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: DUPONT E I DE NEMOURS & CO - Form 10-Q

The Registrant had 867,806,000 shares (excludes 87,041,000 shares of treasury stock) of common stock, \$0.30 par value, outstanding at July 17, 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 1. Summary of Significant Accounting Policies

Interim Financial Statements

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair statement of the results for interim periods have been included. Results for interim periods should not be considered indicative of results for a full year. These interim Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto contained in the company's Annual Report on Form 10-K for the year ended December 31, 2016, collectively referred to as the "2016 Annual Report." The Consolidated Financial Statements include the accounts of the company and all of its subsidiaries in which a controlling interest is maintained.

Basis of Presentation

On July 1, 2015, the company completed the separation of its Performance Chemicals segment through the spin-off of all of the issued and outstanding stock of The Chemours Company (Chemours). In accordance with GAAP, the results of operations of the Performance Chemicals segment are presented as discontinued operations and, as such, have been excluded from continuing operations and segment results for all periods presented. The sum of the individual earnings per share amounts from continuing operations and discontinued operations may not equal the total company earnings per share amounts due to rounding.

Certain reclassifications of prior year's data have been made to conform to current year's presentation. As noted below under "Recent Accounting Pronouncements," effective January 1, 2017, the company adopted the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-09, Compensation - Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting. In conjunction with the adoption of this ASU, the company retrospectively reclassified cash flows related to income tax impacts associated with employee share-based payments in the interim Condensed Consolidated Statements of Cash Flows, as described below.

Recent Accounting Pronouncements

Accounting Pronouncements Implemented in 2017

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting, which modifies the accounting for certain aspects of share-based payments to employees. The new guidance requires excess tax benefits and tax deficiencies to be recorded in the income statement when stock awards vest or are settled. In addition, cash flows related to excess tax benefits will no longer be separately classified as a financing activity apart from other income tax cash flows. The standard also allows the company to repurchase more of an employee's vested shares for tax withholding purposes without triggering liability accounting, and clarifies that all cash payments made to tax authorities on an employee's behalf for withheld shares should be presented as a financing activity on the statement of cash flows. The company adopted this standard as of January 1, 2017.

The primary impact of adoption was the recognition of excess tax benefits in the company's provision for income taxes rather than additional paid-in capital, which is applied prospectively in accordance with the guidance. Adoption of the new standard resulted in the recognition of \$5 and \$25 of excess tax benefits in the company's provision for income taxes rather than additional paid-in capital for the three and six months ended June 30, 2017, respectively. The company elected to apply the presentation requirements for cash flows related to excess tax benefits retrospectively to all periods presented which resulted in a decrease to both net cash used for operating activities and net cash provided by financing activities of \$18 for the six months ended June 30, 2016. The presentation requirements for cash flows related to employee taxes paid for withheld shares resulted in a decrease to both net cash

used for operating activities and net cash provided by financing activities of \$25 for the six months ended June 30, 2016.

The remaining updates required by this standard did not have a material impact to the company's interim Consolidated Financial Statements.

7

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

New Accounting Pronouncements to be Implemented

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The new guidance requires registrants to present the service cost component of net periodic benefit cost in the same income statement line item or items as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Registrants will present the other components of net periodic benefit cost separately from the service cost component; and, the line item or items used in the income statement to present the other components of net periodic benefit cost must be disclosed. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted as of the beginning of an annual period. The new standard must be adopted retrospectively for the presentation of the service cost component and the other components of net periodic benefit cost in the income statement, and prospectively for the capitalization of the service cost component of net periodic benefit cost in assets. The company plans to adopt this guidance in the first quarter of 2018 and is currently evaluating the impact on the Consolidated Financial Statements and related disclosures. See Note 14 for the components of net periodic benefit cost.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles - Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment. The new guidance eliminates the requirement to determine the fair value of individual assets and liabilities of a reporting unit to measure goodwill impairment. Under the amendments in the new ASU, goodwill impairment testing will be performed by comparing the fair value of the reporting unit with its carrying amount and recognizing an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. The new standard is effective for annual and interim goodwill impairment tests in fiscal years beginning after December 15, 2019, and should be applied on a prospective basis. Early adoption is permitted for annual or interim goodwill impairment testing performed after January 1, 2017. The company is currently evaluating the timing of adoption.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805), Clarifying the Definition of a Business. The new guidance narrows the existing definition of a business and provides a framework for evaluating whether a transaction should be accounted for as an acquisition (or disposal) of assets or a business. The guidance requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets; if so, the set of transferred assets and activities (collectively, the set) is not a business. To be considered a business, the set would need to include an input and a substantive process that together significantly contribute to the ability to create outputs, as defined by the ASU. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual reporting periods, and should be applied prospectively. Early adoption is permitted. The company will apply this guidance to applicable transactions after the adoption date.

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740), Intra-Entity Transfers of Assets Other Than Inventory. The new guidance requires that entities recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs, rather than when the asset is sold to an outside party. The guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual reporting periods. Early adoption is permitted as of the beginning of an annual reporting period. The new guidance requires adoption on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The company plans to adopt this guidance in the first quarter of 2018 and is currently evaluating the impact this guidance will have on the Consolidated Financial Statements and related disclosures.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments. The new guidance makes eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The new guidance requires adoption on a retrospective basis unless it is impracticable to apply, in which case the company would be required to apply the amendments prospectively as of the earliest date practicable. The company is currently evaluating the impact this guidance will have on the Consolidated Financial Statements and related disclosures, but does not expect there to be a significant impact.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The amendments under the new guidance will require lessees to recognize almost all leases on their balance sheet as a right-of-use asset and a lease liability, other than leases that meet the definition of a short-term lease. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting. Lessor accounting is similar to the current model, but updated to align with certain changes to the lessee model and the new revenue recognition standard. The new leasing standard will be effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition, requiring application at the beginning of the earliest comparative period presented. The company is currently evaluating the impact of adopting this guidance on the Consolidated Financial Statements and related disclosures. The company is the lessee under various agreements for facilities and equipment that are currently accounted for as operating leases. A complete discussion of these leases is included in the company's 2016 Annual Report in Note 15, "Commitments and Contingent Liabilities."

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which was further updated in March, April, May and December 2016. The new guidance clarifies the principles for recognizing revenue and develops a common revenue standard for GAAP. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. The new standard also will result in additional disclosure requirements to describe the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In July 2015, the FASB approved a deferral of the ASU effective date from annual and interim periods beginning after December 15, 2016 to annual and interim periods beginning after December 15, 2017. The company continues to evaluate the impact of the new standard on the Consolidated Financial Statements and related disclosures. Based on the analysis conducted to date, the company does not believe the impact upon adoption will be material to its Consolidated Financial Statements. The company plans to adopt the standard in the first quarter of 2018 under the modified retrospective transition method.

Note 2. Planned Merger with Dow Chemical

On December 11, 2015, DuPont and The Dow Chemical Company (Dow) announced entry into an Agreement and Plan of Merger, as amended on March 31, 2017, (the Merger Agreement), under which the companies will combine in an all-stock merger of equals (the Merger Transaction) subject to satisfaction of customary closing conditions, including receipt of regulatory approval. The combined company will be named DowDuPont Inc. (DowDuPont). The Merger Transaction will be accomplished through the merger of separate DowDuPont subsidiaries with and into each of Dow and DuPont with Dow and DuPont surviving as subsidiaries of DowDuPont (the Mergers). Following the consummation of the Merger Transaction, DuPont and Dow intend to pursue, subject to the receipt of approval by the Board of Directors of DowDuPont, the separation of the combined company's agriculture business, specialty products business and material science business through a series of tax-efficient transactions (collectively, the Intended Business Separations).

On March 27, 2017, DuPont and Dow announced that the European Commission (EC) granted conditional regulatory clearance in Europe for the Merger Transaction conditional on DuPont and Dow fulfilling certain commitments. Dow is required to divest its global Ethylene Acrylic Acid copolymers and ionomers business and has entered a definitive agreement with SK Global Chemical Co., LTD, (the EAA Transaction) subject to the closing of the Merger Transaction in addition to customary closing conditions, including regulatory approval.

DuPont is required to sell certain assets related to its Crop Protection business and research and development (R&D) organization, specifically the company's Cereal Broadleaf Herbicides and Chewing Insecticides portfolios, including

Rynaxypyr[®], Cyazypyr[®] and Indoxacarb as well as the Crop Protection R&D pipeline and organization, excluding seed treatment, nematicides, and late-stage R&D programs. The company will continue to develop and bring to market its late-stage Crop Protection R&D programs and retain the personnel needed to support the Crop Protection marketed products and R&D programs not required to be divested per the EC's conditional approval.

On March 31, 2017, DuPont entered into a definitive agreement (the FMC Transaction Agreement) with FMC Corporation (FMC). Under the FMC Transaction Agreement, FMC will acquire the Crop Protection business and R&D assets that DuPont is required to divest in order to obtain EC approval of the Merger Transaction as described above, (the Divested Ag Business) and DuPont has agreed to acquire certain assets relating to FMC's Health and Nutrition segment, excluding its Omega-3 products, (the Acquired H&N Business) (collectively, the FMC Transactions). Additionally, FMC will pay DuPont \$1,200 in cash, subject to certain adjustments as set forth in the FMC Transaction Agreement, which reflects the difference in value between the Divested Ag Business and the Acquired H&N Business. DuPont will retain accounts receivable and accounts payable associated with the Divested Ag Business, with an expected net value of \$425 at closing.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

The divestiture will satisfy DuPont's commitments to the EC in connection with its conditional regulatory clearance of the merger with Dow. The FMC Transaction is expected to close in the fourth quarter of 2017, subject to the closing of the Merger Transaction, in addition to customary closing conditions, including regulatory approval of the FMC Transactions. Under the FMC Transaction Agreement, DuPont is not required to take certain specified actions to obtain regulatory approval with respect to the acquisition of the Acquired H&N Business (Divestiture Actions) that would reasonably be likely to result in the one-year loss of revenues to DuPont, Dow, DowDuPont Inc., their respective subsidiaries or the Acquired H&N Business in excess of \$350 in the aggregate (based on fiscal year 2016 annual revenues).

To accommodate the requirements of the FMC Transaction Agreement, DuPont and Dow entered into Amendment No. 1 to the Merger Agreement which, among other things, extends the termination date of the Merger Agreement from June 15, 2017 to August 31, 2017, and sets forth the companies' current intention, subject to approval of the DowDuPont Board of Directors, that the first step in the Intended Business Separation process will be the spin-off of the post-merger material science business, assuming that such sequencing would allow for the completion of all of the Intended Business Separations, through spin-offs as currently anticipated, within 18 months following closing of the merger and would not adversely impact the value of the intended spin-off transactions to DowDuPont's shareholders.

In the second quarter 2017, Dow and DuPont obtained conditional approval for the Merger Transaction from the antitrust regulatory authorities in the United States, Brazil, Canada and China, among others. The conditional approval was granted based on the companies fulfilling their commitments to the EC and, in the case of Brazil and China, certain local remedies. The local remedies in Brazil include the divestiture of a select portion of Dow's corn seed business in Brazil for which Dow has entered a definitive agreement with CITIC Henan Agriculture Industrial Investment Fund, subject to the closing of the Merger Transaction in addition to customary closing conditions, including regulatory approval, (the Brazil Seeds Transaction). In China, DuPont and Dow have made commitments related to the supply and distribution in China of certain herbicide and insecticide ingredients and formulations for rice crops for five years after the closing of the Merger Transaction.

Additional information about the Merger Agreement and the Intended Business Separations is set forth in the company's Current Reports on Form 8-K filed with the U.S. Securities and Exchange Commission (the SEC) on March 31, 2017, March 27, 2017 and December 11, 2015; the company's 2015 and 2016 Annual Reports filed with the SEC on February 4, 2016 and February 2, 2017, respectively, and the registration statement on Form S-4 (File No. 333-209869) (as amended, the Registration Statement) filed by DowDuPont and declared effective by the SEC on June 9, 2016. The Registration Statement constitutes a prospectus of DowDuPont and includes a joint proxy statement of Dow and DuPont. The joint proxy statement relates to the separate special meetings of the companies' respective common stock shareholders of record as of the close of business on June 2, 2016, to adopt the Merger Agreement and related matters. DuPont's special meeting of stockholders was held on July 20, 2016, which resulted in a vote for adoption of the Merger Agreement and approval of related matters.

Dow and DuPont continue to work constructively with regulators to address questions and obtain regulatory approval, primarily related to the FMC Transactions, the EAA Transaction and the Brazil Seeds Transaction, and to prepare for closing as soon as possible after closing conditions have been met. Subject to satisfaction of these customary closing conditions, including the receipt of regulatory approvals, closing is anticipated to occur no earlier than August 1, 2017.

During the three and six months ended June 30, 2017, and the three and six months ended June 30, 2016, the company incurred \$216 and \$386, and \$76 and \$100, respectively, of costs in connection with the planned merger with Dow

and the Intended Business Separations, including costs relating to integration and separation planning. These costs were recorded in selling, general and administrative expenses in the company's interim Consolidated Income Statements and primarily include financial advisory, information technology, legal, accounting, consulting and other advisory fees and expenses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 3. Divestitures and Other Transactions

Food Safety Diagnostic Sale

In February 2017, the company completed the sale of its global food safety diagnostic business, a part of the Nutrition & Health segment, to Hygiena LLC. The sale resulted in a pre-tax gain of \$162 (\$86 net of tax). The gain was recorded in other (loss) income, net in the company's interim Consolidated Income Statement for the six months ended June 30, 2017.

DuPont (Shenzhen) Manufacturing Limited

In March 2016, the company recognized the sale of its 100 percent ownership interest in DuPont (Shenzhen) Manufacturing Limited to the Feixiang Group. The sale of the entity, which held certain buildings and other assets, resulted in a pre-tax gain of \$369 (\$214 net of tax). The gain was recorded in other (loss) income, net in the company's interim Consolidated Income Statement for the six months ended June 30, 2016 and was reflected as a Corporate item.

Performance Chemicals

On July 1, 2015, DuPont completed the separation of its Performance Chemicals segment through the spin-off of all of the issued and outstanding stock of The Chemours Company (the Separation). In connection with the Separation, the company and The Chemours Company (Chemours) entered into a Separation Agreement, discussed below, and a Tax Matters Agreement and certain ancillary agreements, including an employee matters agreement, agreements related to transition and site services, and intellectual property cross licensing arrangements. In addition, the companies have entered into certain supply agreements.

Separation Agreement

The company and Chemours entered into a Separation Agreement that sets forth, among other things, the agreements between the company and Chemours regarding the principal transactions necessary to effect the Separation and also sets forth ancillary agreements that govern certain aspects of the company's relationship with Chemours after the separation. Among other matters, the Separation Agreement and the ancillary agreements provide for the allocation between DuPont and Chemours of assets, employees, liabilities and obligations (including investments, property and employee benefits and tax-related assets and liabilities) attributable to periods prior to, at and after the completion of the Separation.

Pursuant to the Separation Agreement, Chemours indemnifies DuPont against certain litigation, environmental, workers' compensation and other liabilities that arose prior to the distribution. The term of this indemnification is indefinite and includes defense costs and expenses, as well as monetary and non-monetary settlements and judgments. In connection with the recognition of liabilities related to these matters, the company records an indemnification asset when recovery is deemed probable. At June 30, 2017, the indemnified assets are \$412 within accounts and notes receivable, net and \$343 within other assets on the Condensed Consolidated Balance Sheet. See Note 11 for further discussion of certain litigation and environmental matters indemnified by Chemours.

Income (loss) from discontinued operations after taxes in the company's interim Consolidated Income Statements during the three and six months ended June 30, 2017 reflects a tax benefit of \$10 associated with an adjustment to the tax benefit recognized in the first quarter of 2017 related to the charge for the perfluorooctanoic acid (PFOA) multi-district litigation settlement. Income (loss) from discontinued operations after taxes for the six months ended June 30, 2017 includes a charge of \$335 (\$214 net of tax) in connection with the PFOA multi-district litigation settlement. See Note 11 for further discussion. Income (loss) from discontinued operations after taxes during the three and six months ended June 30, 2016, includes \$13 and \$20, respectively, of costs in connection with the separation transaction primarily related to professional fees associated with preparation of regulatory filings and separation activities within finance, tax, legal, and information system functions.

(Dollars in millions, except per share)

Note 4. Employee Separation / Asset Related Charges, Net

2017 Restructuring Program

During the first quarter 2017, DuPont committed to take actions to improve plant productivity and better position its businesses for productivity and growth before and after the anticipated closing of the Merger Transaction (the 2017 restructuring program). In connection with these actions, the company incurred pre-tax charges of \$160 and \$312, during the three and six months ended June 30, 2017, respectively, recognized in employee separation / asset related charges, net in the company's interim Consolidated Income Statements. The charge for the three months ended June 30, 2017 is comprised of \$160 of asset related charges. The charge for the six months ended June 30, 2017 is comprised of \$279 of asset-related charges and \$33 in severance and related benefit costs. The charges primarily relate to the second quarter closure of the Protection Solutions segment's Cooper River manufacturing site located near Charleston, South Carolina. The asset-related charges mainly consist of accelerated depreciation associated with the closure. The actions associated with this plan are expected to be substantially complete by the end of 2017.

The 2017 restructuring program charge related to the segments, as well as corporate expenses, was as follows:

	Three Months Ended June 30, 2017	Six Months Ended June 30, 2017
Electronics & Communications	\$ 1	\$ 6
Industrial Biosciences	—	6
Nutrition & Health	—	2
Performance Materials	2	13
Protection Solutions	157	281
Corporate expenses	—	4
	\$ 160	\$ 312

Account balances and activity for the 2017 restructuring program are summarized below:

	Severance and Related Benefit Costs	Asset Related Charges ¹	Total
Charges to income from continuing operations for the six months ended June 30, 2017	\$ 33	\$ 279	\$ 312
Payments	(5)	—	(5)
Asset write-offs	—	(279)	(279)
Balance as of June 30, 2017	\$ 28	\$ —	\$ 28

Includes accelerated depreciation related to site closure. Charge for accelerated depreciation represents the difference between the depreciation expense to be recognized over the revised useful life of the site, based upon the anticipated date the site will be closed and depreciation expense as determined utilizing the useful life prior to the restructuring action.

La Porte Plant, La Porte, Texas

In March 2016, DuPont announced its decision to not re-start the Agriculture segment's insecticide manufacturing facility at the La Porte site located in La Porte, Texas. The facility manufactured Lannate® and Vydate® insecticides and has been shut down since November 2014. As a result of this decision, during the six months ended June 30, 2016, a pre-tax charge of \$75 was recorded in employee separation / asset related charges, net in the company's interim Consolidated Income Statement which included \$41 of asset related charges, \$18 of contract termination costs,

and \$16 of employee severance and related benefit costs.

2016 Global Cost Savings and Restructuring Plan

At June 30, 2017, total liabilities related to the program were \$44. The restructuring actions associated with the charge were substantially completed in 2016. A complete discussion of restructuring initiatives is included in the company's 2016 Annual Report in Note 4, "Employee Separation / Asset Related Charges, Net."

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Account balances and activity for the restructuring plan, which reflect timing of payments, are summarized below:

	Severance and Related Benefit Costs	Other Non-Personnel Charges ¹	Total
Balance at December 31, 2016	\$ 100	\$ 22	\$122
Payments	(69)	(11)	(80)
Net translation adjustment	2	—	2
Balance as of June 30, 2017	\$ 33	\$ 11	\$44

¹. Other non-personnel charges consist of contractual obligation costs.

During the three and six months ended June 30, 2016, a net benefit of \$(90) and \$(88) was recorded associated with the 2016 global cost savings and restructuring plan in employee separation / asset related charges, net in the company's interim Consolidated Income Statements. This was primarily due to a reduction in severance and related benefit costs partially offset by the identification of additional projects in certain segments. The reduction in severance and related benefit costs was driven by the elimination of positions at a lower cost than expected as a result of redeployments and attrition as well as lower than estimated individual severance costs.

The net (benefit) charge related to the segments for the three and six months ended June 30, 2016 as follows:

	Three Months Ended June 30, 2016	Six Months Ended June 30, 2016
Agriculture	\$ (5)	\$ 16
Electronics & Communications	(8)	(15)
Industrial Biosciences	(3)	(4)
Nutrition & Health	(12)	(13)
Performance Materials	(9)	(5)
Protection Solutions	(7)	(10)
Other	—	3
Corporate expenses	(46)	(60)
	\$ (90)	\$ (88)

Note 5. Other (Loss) Income, Net

Other (loss) income, net		\$(21)\$51	\$285	\$423
--------------------------	--	------------	-------	-------

1. Includes a pre-tax gain of \$162 (\$86 net of tax) for the six months ended June 30, 2017 related to the sale of the global food safety diagnostic business. See Note 3 for additional information.

2. Includes a pre-tax gain of \$369 (\$214 net of tax) for the six months ended June 30, 2016 related to the sale of DuPont (Shenzhen) Manufacturing Limited. See Note 3 for additional information.

3. Miscellaneous income and expenses, net, includes interest items, gains (losses) on available for sale securities, gains related to litigation settlements, licensing income, and other items. For the six months ended June 30, 2017, the amount includes a \$47 benefit associated with accrued interest reversals related to a reduction in the company's unrecognized tax benefits due to the closure of various tax statutes of limitations. See Note 6 for additional information.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

The following table summarizes the impacts of the company's foreign currency hedging program on the company's results of operations for the three and six months ended June 30, 2017 and 2016. The company routinely uses foreign currency exchange contracts to offset its net exposures, by currency, related to the foreign currency-denominated monetary assets and liabilities. The objective of this program is to maintain an approximately balanced position in foreign currencies in order to minimize, on an after-tax basis, the effects of exchange rate changes on net monetary asset positions. The hedging program gains (losses) are largely taxable (tax deductible) in the U.S., whereas the offsetting exchange gains (losses) on the re-measurement of certain net monetary asset positions are not taxable (tax deductible) in their local jurisdictions. The net pre-tax exchange gains (losses) are recorded in other (loss) income, net and the related tax impact is recorded in provision for income taxes on continuing operations in the interim Consolidated Income Statements.

	Three Months		Six Months	
	Ended	Ended	Ended	Ended
	June 30,	June 30,	June 30,	June 30,
	2017	2016	2017	2016

Hedging Program Gain (Loss)				
Pre-tax exchange losses	\$(86)	\$(161)	\$(171)	\$(315)
Tax benefits	31	58	61	113
Net after-tax impact from hedging program exchange losses	\$(55)	\$(103)	\$(110)	\$(202)
Total Exchange Gain (Loss)				
Pre-tax exchange losses	\$(140)	\$(15)	\$(199)	\$(136)
Tax benefits (expenses)	125	(2)	191	66
Net after-tax exchange losses	\$(15)	\$(17)	\$(8)	\$(70)

Note 6. Income Taxes

Each year the company files hundreds of tax returns in the various national, state and local income taxing jurisdictions in which it operates. These tax returns are subject to examination and possible challenge by the tax authorities. Positions challenged by the tax authorities may be settled or appealed by the company. As a result, there is an uncertainty in income taxes recognized in the company's financial statements in accordance with accounting for income taxes and accounting for uncertainty in income taxes. It is reasonably possible that changes to the company's global unrecognized tax benefits could be significant; however, due to the uncertainty regarding the timing of completion of audits and possible outcomes, a current estimate of the range of increases or decreases that may occur within the next twelve months cannot be made.

During the three months ended June 30, 2017, the company recognized tax expense of \$29 associated with the elimination of the U.S. domestic manufacturing deduction recorded in 2016 due to taxable income limitations triggered by the Company's decision to deduct the second quarter 2017 principal U.S. pension plan contribution on its 2016 consolidated U.S. tax return.

Additionally, during the six months ended June 30, 2017, the company recognized a tax benefit of \$57, as well as a pre-tax benefit of \$50 on associated accrued interest reversals, related to a reduction in the company's unrecognized tax benefits due to the closure of various tax statutes of limitations. Income from continuing operations during the six

months ended June 30, 2017 includes a tax benefit of \$53 and a pre-tax benefit of \$47 for accrued interest reversals (recorded in other (loss) income, net). Income (loss) from discontinued operations after taxes during the six months ended June 30, 2017 includes a tax benefit of \$4 and a pre-tax benefit of \$3 for the accrued interest reversal.

Note 7. Earnings Per Share of Common Stock

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2017	2016	2017	2016
Numerator:				
Income from continuing operations after income taxes attributable to DuPont	\$852	\$ 1,023	\$2,182	\$ 2,246
Preferred dividends	(3)	(3)	(5)	(5)
Income from continuing operations after income taxes available to DuPont common stockholders	\$849	\$ 1,020	\$2,177	\$ 2,241
Income (loss) from discontinued operations after income taxes available to DuPont common stockholders	\$10	\$ (3)	\$(207)	\$ —
Net income available to common stockholders	\$859	\$ 1,017	\$1,970	\$ 2,241
Denominator:				
Weighted-average number of common shares outstanding - Basic	868,488,750	1,000,867,496	870,269,000	1,000,867,496
Dilutive effect of the company's employee compensation plans	4,269,000	6,000	4,424,000	8,945,000
Weighted-average number of common shares outstanding - Diluted	872,757,750	1,006,873,496	874,693,000	1,009,812,496

The following average number of stock options were antidilutive, and therefore not included in the dilutive earnings per share calculations:

	Three Months Ended	Six Months Ended
	June 30, 2017	June 30, 2016
Average number of stock options	4,994,000	3,005,049,000

The change in the average number of stock options that were antidilutive in the three and six months ended June 30, 2017, compared to the same period last year was due to changes in the company's average stock price.

Note 8. Inventories

	June 30, December 31,	
	2017	2016
Finished products	\$2,880	\$ 3,113
Semi-finished products	1,424	2,009
Raw materials, stores and supplies	713	719
	5,017	5,841
Adjustment of inventories to a last-in, first-out (LIFO) basis	(161)	(168)
Total	\$4,856	\$ 5,673

Note 9. Other Intangible Assets

The gross carrying amounts and accumulated amortization of other intangible assets by major class are as follows:

	June 30, 2017			December 31, 2016		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Intangible assets subject to amortization (Definite-lived):						
Customer lists	\$1,633	\$ (643) \$990	\$1,574	\$ (586) \$988
Patents	458	(287) 171	446	(259) 187
Purchased and licensed technology	920	(589) 331	964	(579) 385
Trademarks / trade names	54	(17) 37	53	(15) 38
Other ¹	173	(89) 84	171	(82) 89
	3,238	(1,625) 1,613	3,208	(1,521) 1,687
Intangible assets not subject to amortization (Indefinite-lived):						
In-process research and development	74	—	74	73	—	73
Microbial cell factories	306	—	306	306	—	306
Pioneer germplasm	1,057	—	1,057	1,053	—	1,053
Trademarks / trade names	573	—	573	545	—	545
	2,010	—	2,010	1,977	—	1,977
Total	\$5,248	\$ (1,625) \$3,623	\$5,185	\$ (1,521) \$3,664

¹. Primarily consists of sales networks, marketing and manufacturing alliances and non-competition agreements.

The aggregate pre-tax amortization expense from continuing operations for definite-lived intangible assets was \$57 and \$108 for the three and six months ended June 30, 2017, and \$104 and \$226 for the three and six months ended June 30, 2016, respectively. The estimated aggregate pre-tax amortization expense from continuing operations for the remainder of 2017 and each of the next five years is approximately \$95, \$211, \$210, \$194, \$141 and \$115, respectively.

Note 10. Short-Term and Long-Term Borrowings

Debt Offering

In May 2017, the company completed an underwritten public offering of \$1,250 of the company's 2.20 percent Notes due 2020 and \$750 of the company's Floating Rate Notes due 2020 (the May 2017 Debt Offering). The proceeds of this offering were used to make a discretionary pension contribution to the company's principal U.S. pension plan. See Note 14 for further discussion regarding this contribution.

Repurchase Facility

In January 2017, the company entered into a committed receivable repurchase agreement of up to \$1,300 (the Repurchase Facility). The Repurchase Facility is structured to account for the seasonality of the agriculture business and expires on November 30, 2017. Under the Repurchase Facility, the company may sell a portfolio of available and eligible outstanding customer notes receivables within the Agriculture segment to participating institutions and simultaneously must agree to repurchase such notes receivable at a future date. The Repurchase Facility is considered a secured borrowing with the customer notes receivables utilized as collateral. The amount of collateral required equals 105 percent of the outstanding borrowing amounts. Borrowings under the Repurchase Facility have an interest rate of the London interbank offered rate (LIBOR) plus 0.75 percent.

As of June 30, 2017, \$1,365 of notes receivable, recorded in accounts and notes receivable, net, were pledged as collateral against outstanding borrowings under the Repurchase Facility of \$1,300, recorded in short-term borrowings

and capital lease obligations on the Condensed Consolidated Balance Sheet.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Term Loan Facility

In March 2016, the company entered into a credit agreement that provides for a three-year, senior unsecured term loan facility in the aggregate principal amount of \$4,500 (as amended from time to time, the Term Loan Facility). In the first quarter of 2017, the Term Loan Facility was amended to extend the date on which the commitment to lend terminates. As a result, DuPont may make up to seven term loan borrowings through July 27, 2018; amounts repaid or prepaid are not available for subsequent borrowings. The Term Loan Facility matures in March 2019 at which time all outstanding borrowings, including accrued but unpaid interest, become immediately due and payable. As of June 30, 2017, the company had borrowed \$500 and had unused commitments of \$4,000 under the Term Loan Facility.

Note 11. Commitments and Contingent Liabilities

Guarantees

Indemnifications

In connection with acquisitions and divestitures as of June 30, 2017, the company has indemnified respective parties against certain liabilities that may arise in connection with these transactions and business activities prior to the completion of the transactions. The term of these indemnifications, which typically pertain to environmental, tax and product liabilities, is generally indefinite. In addition, the company indemnifies its duly elected or appointed directors and officers to the fullest extent permitted by Delaware law, against liabilities incurred as a result of their activities for the company, such as adverse judgments relating to litigation matters. If the indemnified party were to incur a liability or have a liability increase as a result of a successful claim, pursuant to the terms of the indemnification, the company would be required to reimburse the indemnified party. The maximum amount of potential future payments is generally unlimited.

Obligations for Equity Affiliates & Others

The company has directly guaranteed various debt obligations under agreements with third parties related to equity affiliates, customers and suppliers. Additionally, in connection with the Separation, the company has directly guaranteed Chemours' purchase obligations under an agreement with a third party supplier. At June 30, 2017 and December 31, 2016, the company had directly guaranteed \$298 and \$354, respectively, of such obligations. These amounts represent the maximum potential amount of future (undiscounted) payments that the company could be required to make under the guarantees. The company would be required to perform on these guarantees in the event of default by the guaranteed party.

The company assesses the payment/performance risk by assigning default rates based on the duration of the guarantees. These default rates are assigned based on the external credit rating of the counterparty or through internal credit analysis and historical default history for counterparties that do not have published credit ratings. For counterparties without an external rating or available credit history, a cumulative average default rate is used.

In certain cases, the company has recourse to assets held as collateral, as well as personal guarantees from customers and suppliers. Assuming liquidation, these assets are estimated to cover 20 percent of the \$119 of guaranteed obligations of customers and suppliers.

Set forth below are the company's guaranteed obligations at June 30, 2017:

	Short-Term	Long-Term	Total
Obligations for customers and suppliers ¹ :			
Bank borrowings (terms up to 5 years)	\$ 112	\$ 7	\$ 119
Obligations for equity affiliates ² :			
Bank borrowings (terms up to 1 year)	168	—	168
Obligations for Chemours ³ :			

Chemours' purchase obligations (final expiration - 2018)	11	—	11
Total	\$ 291	\$ 7	\$298

1. Existing guarantees for customers and suppliers, as part of contractual agreements.
2. Existing guarantees for equity affiliates' liquidity needs in normal operations.
3. Guarantee for Chemours' raw material purchase obligations under agreement with third party supplier.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Litigation

The company is subject to various legal proceedings arising out of the normal course of its business including product liability, intellectual property, commercial, environmental and antitrust lawsuits. It is not possible to predict the outcome of these various proceedings. Although considerable uncertainty exists, management does not anticipate that the ultimate disposition of these matters will have a material adverse effect on the company's results of operations, consolidated financial position or liquidity. However, the ultimate liabilities could be material to results of operations in the period recognized.

PFOA

DuPont used PFOA (collectively, perfluorooctanoic acids and its salts, including the ammonium salt), as a processing aid to manufacture some fluoropolymer resins at various sites around the world including its Washington Works plant in West Virginia. At June 30, 2017, DuPont has a total accrual balance of \$656 related to the PFOA matters discussed below and has recorded a total indemnification asset of \$335, including indemnifications related to the MDL Settlement and additional actions described below, from Chemours pursuant to the Separation Agreement discussed in Note 3 and the first quarter 2017 agreement between Chemours and DuPont.

Leach v. DuPont

In August 2001, a class action, captioned Leach v. DuPont, was filed in West Virginia state court alleging that residents living near the Washington Works facility had suffered, or may suffer, deleterious health effects from exposure to PFOA in drinking water.

DuPont and attorneys for the class reached a settlement in 2004 that binds about 80,000 residents, (the Leach Settlement). In 2005, DuPont paid the plaintiffs' attorneys' fees and expenses of \$23 and made a payment of \$70, which class counsel designated to fund a community health project. The company funded a series of health studies which were completed in October 2012 by an independent science panel of experts (the C8 Science Panel). The studies were conducted in communities exposed to PFOA to evaluate available scientific evidence on whether any probable link exists, as defined in the Leach Settlement Agreement, between exposure to PFOA and human disease. The C8 Science Panel found probable links, as defined in the Leach Settlement Agreement, between exposure to PFOA and pregnancy-induced hypertension, including preeclampsia; kidney cancer; testicular cancer; thyroid disease; ulcerative colitis; and diagnosed high cholesterol.

In May 2013, a panel of three independent medical doctors released its initial recommendations for screening and diagnostic testing of eligible class members for the six human diseases for which the C8 Science Panel determined a probable link exists. In September 2014, the medical panel recommended follow-up screening and diagnostic testing three years after initial testing, based on individual results. The medical panel has not communicated its anticipated schedule for completion of its protocol. Under the Leach Settlement Agreement, the company is obligated to fund up to \$235 for a medical monitoring program for eligible class members and, in addition, administrative costs associated with the program, including class counsel fees. In January 2012, the company established and put \$1 into an escrow account to fund medical monitoring as required by the settlement agreement. The balance in the escrow account must be at least \$0.5; as a result, transfers of additional funds may be required periodically. The court-appointed Director of Medical Monitoring has established the program to implement the medical panel's recommendations and the registration process, as well as eligibility screening, is ongoing. Diagnostic screening and testing has begun and associated payments to service providers are being disbursed from the escrow account; at June 30, 2017 less than \$1 has been disbursed. While it is probable that the company will incur liabilities related to funding the medical monitoring program, such liabilities cannot be reasonably estimated due to uncertainties surrounding the level of participation by eligible class members and the scope of testing. In addition, under the Leach Settlement Agreement, the company must continue to provide water treatment designed to reduce the level of PFOA in water to six area water

districts, including the Little Hocking Water Association (LHWA), and private well users.

Multi-District Litigation

Leach class members may pursue personal injury claims against DuPont only for the six human diseases for which the C8 Science Panel determined a probable link exists. At June 30, 2017, there were approximately 3,550 lawsuits, of which about 30 allege wrongful death, pending in various federal and state courts in Ohio and West Virginia. These lawsuits are consolidated in multi-district litigation (MDL) in the U.S. District Court for the Southern District of Ohio (the Court).

In February 2017, DuPont entered into an agreement in principle with MDL plaintiffs' counsel providing for a global settlement of all cases and claims in the MDL, including all filed and unfiled personal injury cases and claims that are part of the plaintiffs' counsel's claim inventory as well as the cases captioned Bartlett v. DuPont, Freeman v. DuPont, Moody v. DuPont and Vigneron v. DuPont, (the MDL Trial Plaintiffs).

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

In connection with all filed and unfiled personal injury cases and claims that are part of the plaintiffs' counsel's claim inventory, on March 31, 2017, DuPont and MDL plaintiffs' counsel entered into a definitive agreement covering Leach class members who either, 1) asserted a qualifying claim, not previously settled, withdrawn or dismissed as of February 11, 2017; or 2) claimed to have a qualifying condition and on or before February 11, 2017, had retained counsel for purposes of making a qualifying claim,(the Master Settlement Agreement). The required participation thresholds have been met for each disease category and the parties deemed the Master Settlement Agreement effective on July 6, 2017 (the MSA Effective Date).

Also on March 31, 2017, DuPont and MDL plaintiffs' counsel entered into a definitive agreement related to the MDL Trial Plaintiffs (the MDL Trial Plaintiffs Settlement Agreement) under which all payments were complete at June 30, 2017 and the individual actions have been or will be dismissed. The Master Settlement Agreement and the MDL Trial Plaintiffs Settlement Agreement (collectively referred to as the MDL Settlement) are not subject to court approval.

The aggregate total settlement amount under the MDL Settlement is \$670.7 in cash. DuPont and Chemours have agreed that half of that amount will be paid by Chemours and half by DuPont. DuPont's payment would not be subject to indemnification or reimbursement by Chemours. In exchange for that payment, DuPont and Chemours will receive a complete release of all claims by the settling plaintiffs. The MDL Settlement was entered into solely by way of compromise and settlement and is not in any way an admission of liability or fault by DuPont or Chemours.

In connection with the MDL Settlement, the company increased the accrual related to the PFOA multi-district litigation to \$670.7 at March 31, 2017, (the MDL Settlement Accrual). Due to the first quarter 2017 agreement with Chemours discussed above, the company increased the indemnification asset related to the PFOA multi-district litigation to \$335 at March 31, 2017. The remainder of the MDL Settlement Accrual amount was recorded as a charge of \$335 (\$214 net of tax) which is included in income (loss) from discontinued operations after taxes in the company's interim Consolidated Income Statement during the six months ended June 30, 2017. At June 30, 2017, the MDL Settlement Accrual and related indemnification asset were \$640.7 and \$320, respectively, a decrease of \$30 in the accrual balance from March 31, 2017, and \$15 in the indemnification asset from March 31, 2017, related to payment under the MDL Trial Plaintiffs Settlement Agreement described above. The settlement payment for the Master Settlement Agreement is due in the third quarter 2017.

DuPont and Chemours have also agreed, subject to and following the MSA Effective Date, to a limited sharing of potential future PFOA liabilities (i.e., indemnifiable losses, as defined in the Separation Agreement) for a period of 5 years, starting on the MSA Effective Date. During that five-year period, Chemours would annually pay future PFOA liabilities up to \$25 and, if such amount is exceeded, DuPont would pay any excess amount up to the next \$25 (which payment will not be subject to indemnification by Chemours), with Chemours annually bearing any further excess liabilities. After the five-year period, this limited sharing agreement would expire, and Chemours' indemnification obligations under the Separation Agreement would continue unchanged. Chemours has also agreed that, upon the occurrence of the MSA Effective Date, it will not contest its liability to DuPont under the Separation Agreement for PFOA liabilities on the basis of ostensible defenses generally applicable to the indemnification provisions under the Separation Agreement, including defenses relating to punitive damages, fines or penalties or attorneys' fees, and waives any such defenses with respect to PFOA liabilities. Chemours has, however, retained defenses as to whether any particular PFOA claim is within the scope of the indemnification provisions of the Separation Agreement.

Status of MDL Post MDL Settlement

The MDL Trial Plaintiffs cases have been dismissed as a result of the completion of actions under the MDL Trial Plaintiffs Settlement Agreement. Other litigation and judicial proceedings related to the MDL pending before the Court and U.S. Court of Appeals for the Sixth Circuit have been stayed (the MDL Stay) as a result of the MDL

Settlement.

Additional Actions

Since 2006, DuPont has undertaken obligations under agreements with the U.S. Environmental Protection Agency (EPA), including a 2009 consent decree under the Safe Drinking Water Act (the Order), and voluntary commitments to the New Jersey Department of Environmental Protection (NJDEP). These obligations and voluntary commitments include surveying, sampling and testing drinking water in and around certain company sites and offering treatment or an alternative supply of drinking water if tests indicate the presence of PFOA in drinking water at or greater than the national health advisory level, even if provisional, as established from time to time by the EPA. A provisional health advisory level was set in 2009 at 0.4 parts per billion (ppb) for PFOA in drinking water considering episodic exposure. In May 2016, the EPA announced a health advisory level of 0.07 ppb for PFOA in drinking water considering lifetime versus episodic exposure. In January 2017, the EPA announced it had amended the Order to include Chemours, and to make the new health advisory level the trigger for additional actions by the companies, thus expanding the obligations to the EPA beyond the previously established testing and water supply commitments around the Washington Works facility. The company's accrual balance at June 30, 2017, includes \$15 related to these obligations and voluntary commitments.

Environmental

The company is also subject to contingencies pursuant to environmental laws and regulations that in the future may require the company to take further action to correct the effects on the environment of prior disposal practices or releases of chemical or petroleum substances by the company or other parties. The company accrues for environmental remediation activities consistent with the policy as described in the company's 2016 Annual Report in Note 1, "Summary of Significant Accounting Policies." Much of this liability results from the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, often referred to as Superfund), the Resource Conservation and Recovery Act (RCRA) and similar state and global laws. These laws require the company to undertake certain investigative, remediation and restoration activities at sites where the company conducts or once conducted operations or at sites where company-generated waste was disposed. The accrual also includes estimated costs related to a number of sites identified by the company for which it is probable that environmental remediation will be required, but which are not currently the subject of enforcement activities.

Remediation activities vary substantially in duration and cost from site to site. These activities, and their associated costs, depend on the mix of unique site characteristics, evolving remediation technologies, diverse regulatory agencies and enforcement policies, as well as the presence or absence of potentially responsible parties. At June 30, 2017, the Condensed Consolidated Balance Sheet included a liability of \$490, relating to these matters and, in management's opinion, is appropriate based on existing facts and circumstances. The average time frame over which the accrued or presently unrecognized amounts may be paid, based on past history, is estimated to be 15-20 years. Considerable uncertainty exists with respect to these costs and, under adverse changes in circumstances, the potential liability may range up to \$790 above the amount accrued as of June 30, 2017. Pursuant to the Separation Agreement discussed in Note 3, the company is indemnified by Chemours for certain environmental matters, included in the liability of \$490, that have an estimated liability of \$261 as of June 30, 2017, and a potential exposure that ranges up to approximately \$410 above the amount accrued. As such, the company has recorded an indemnification asset of \$261 corresponding to the company's accrual balance related to these matters at June 30, 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

Note 13. Financial Instruments

Cash, Cash Equivalents and Marketable Securities

The company's cash, cash equivalents and marketable securities as of June 30, 2017 and December 31, 2016 are comprised of the following:

	June 30, 2017			December 31, 2016		
	Cash and Cash Equivalents	Marketable Securities	Total Estimated Fair Value	Cash and Cash Equivalents	Marketable Securities	Total Estimated Fair Value
Cash	\$ 1,507	\$ —	\$ 1,507	\$ 1,892	\$ —	\$ 1,892
Level 2:						
Certificate of deposit / time deposits ¹	1,747	2,974	4,721	2,713	1,362	4,075
Total cash, cash equivalents and marketable securities	\$ 3,254	\$ 2,974		\$ 4,605	\$ 1,362	

¹ Represents held-to-maturity investments reported at amortized cost.

The estimated fair value of the company's cash equivalents, which approximates carrying value as of June 30, 2017 and December 31, 2016, was determined using Level 2 inputs within the fair value hierarchy. Level 2 measurements were based on current interest rates for similar investments with comparable credit risk and time to maturity.

The estimated fair value of the held-to-maturity securities, which approximates carrying value as of June 30, 2017 and December 31, 2016, was determined using Level 2 inputs within the fair value hierarchy. Level 2 measurements were based on current interest rates for similar investments with comparable credit risk and time to maturity. The carrying value approximates fair value due to the short-term nature of the investments.

Available-for-sale securities are reported at estimated fair value with unrealized gains and losses reported as a component of accumulated other comprehensive loss. There were no sales of available-for-sale securities for the three and six months ended June 30, 2017. The proceeds from the sale of available-for-sale securities for the three and six months ended June 30, 2016 were \$205 and \$465, respectively.

Debt

The estimated fair value of the company's total debt, including interest rate financial instruments, was determined using Level 2 inputs within the fair value hierarchy, as described in the company's 2016 Annual Report in Note 1, "Summary of Significant Accounting Policies." Based on quoted market prices for the same or similar issues or on current rates offered to the company for debt of the same remaining maturities, the fair value of the company's debt was approximately \$14,060 and \$8,890 as of June 30, 2017 and December 31, 2016, respectively. The increase was due primarily to the May 2017 Debt Offering as well as increased borrowings from commercial paper and the Repurchase Facility used primarily to fund seasonal working capital requirements. See Note 10 for further discussion.

Derivative Instruments

Objectives and Strategies for Holding Derivative Instruments

In the ordinary course of business, the company enters into contractual arrangements (derivatives) to reduce its exposure to foreign currency, interest rate and commodity price risks. The company has established a variety of derivative programs to be utilized for financial risk management. These programs reflect varying levels of exposure coverage and time horizons based on an assessment of risk.

Derivative programs have procedures and controls and are approved by the Corporate Financial Risk Management Committee, consistent with the company's financial risk management policies and guidelines. Derivative instruments used are forwards, options, futures and swaps. The company has not designated any nonderivatives as hedging instruments.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

The company's financial risk management procedures also address counterparty credit approval, limits and routine exposure monitoring and reporting. The counterparties to these contractual arrangements are major financial institutions and major commodity exchanges. The company is exposed to credit loss in the event of nonperformance by these counterparties. The company utilizes collateral support annex agreements with certain counterparties to limit its exposure to credit losses. The company's derivative assets and liabilities are reported on a gross basis in the Condensed Consolidated Balance Sheets. The company anticipates performance by counterparties to these contracts and therefore no material loss is expected. Market and counterparty credit risks associated with these instruments are regularly reported to management.

The notional amounts of the company's derivative instruments were as follows:

	June 30, December 31,	
	2017	2016
Derivatives designated as hedging instruments:		
Commodity contracts	\$ 173	\$ 422
Derivatives not designated as hedging instruments:		
Foreign currency contracts	9,782	9,896
Commodity contracts	6	7

Foreign Currency Risk

The company's objective in managing exposure to foreign currency fluctuations is to reduce earnings and cash flow volatility associated with foreign currency rate changes. Accordingly, the company enters into various contracts that change in value as foreign exchange rates change to protect the value of its existing foreign currency-denominated assets, liabilities, commitments and cash flows.

The company routinely uses forward exchange contracts to offset its net exposures, by currency, related to the foreign currency-denominated monetary assets and liabilities of its operations. The primary business objective of this hedging program is to maintain an approximately balanced position in foreign currencies so that exchange gains and losses resulting from exchange rate changes, net of related tax effects, are minimized. The company also uses foreign currency exchange contracts to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on these contracts offset changes in the USD value of the related foreign currency-denominated revenues. The objective of the hedge program is to reduce earnings and cash flow volatility related to changes in foreign currency exchange rates.

Commodity Price Risk

Commodity price risk management programs serve to reduce exposure to price fluctuations on purchases of inventory such as corn, soybeans and soybean meal. The company enters into over-the-counter and exchange-traded derivative commodity instruments to hedge the commodity price risk associated with agricultural commodity exposures.

Derivatives Designated as Cash Flow Hedges**Foreign Currency Contracts**

The company uses foreign currency exchange instruments such as forwards and options to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on these contracts offset changes in the USD value of the related foreign currency-denominated revenues. In addition, the company occasionally uses forward exchange contracts to offset a portion of the company's exposure to certain foreign

currency-denominated transactions such as capital expenditures.

Commodity Contracts

The company enters into over-the-counter and exchange-traded derivative commodity instruments, including options, futures and swaps, to hedge the commodity price risk associated with agriculture commodity exposures.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

While each risk management program has a different time maturity period, most programs currently do not extend beyond the next two-year period. Cash flow hedge results are reclassified into earnings during the same period in which the related exposure impacts earnings. Reclassifications are made sooner if it appears that a forecasted transaction is not probable of occurring. The following table summarizes the after-tax effect of cash flow hedges on accumulated other comprehensive loss for the three and six months ended June 30, 2017 and 2016:

	Three Months Ended June 30, 2017	Six Months Ended June 30, 2016
Beginning balance	\$4	\$(7)
Additions and revaluations of derivatives designated as cash flow hedges	13	2
Clearance of hedge results to earnings	(8)	(13)
Ending balance	\$10	\$(4)

At June 30, 2017, an after-tax net loss of \$(2) is expected to be reclassified from accumulated other comprehensive loss into earnings over the next twelve months.

Derivatives not Designated in Hedging Relationships

Foreign Currency Contracts

The company routinely uses forward exchange contracts to reduce its net exposure, by currency, related to foreign currency-denominated monetary assets and liabilities of its operations so that exchange gains and losses resulting from exchange rate changes are minimized. The netting of such exposures precludes the use of hedge accounting; however, the required revaluation of the forward contracts and the associated foreign currency-denominated monetary assets and liabilities intends to achieve a minimal earnings impact, after taxes. The company also uses foreign currency exchange contracts to offset a portion of the company's exposure to certain foreign currency-denominated revenues so that gains and losses on the contracts offset changes in the USD value of the related foreign currency-denominated revenues.

Commodity Contracts

The company utilizes options, futures and swaps that are not designated as hedging instruments to reduce exposure to commodity price fluctuations on purchases of inventory such as corn, soybeans and soybean meal.

Fair Values of Derivative Instruments

The table below presents the fair values of the company's derivative assets and liabilities within the fair value hierarchy, as described in the company's 2016 Annual Report in Note 1, "Summary of Significant Accounting Policies."

Balance Sheet Location	Fair Value Using Level 2 Inputs	
	June 30, 2017	December 31, 2016
Asset derivatives:		
Derivatives not designated as hedging instruments:		
Foreign currency contracts ¹	Accounts and notes receivable, net	\$44 \$ 182
Commodity contracts	Accounts and notes receivable, net	3 —
Total asset derivatives ²		\$47 \$ 182
Cash collateral ¹	Other accrued liabilities	\$— \$ 52

Liability derivatives:

Derivatives not designated as hedging instruments:

Foreign currency contracts	Other accrued liabilities	\$ 125	\$ 121
Total liability derivatives ²		\$ 125	\$ 121

1. Cash collateral held as of December 31, 2016 is related to foreign currency derivatives not designated as hedging instruments.
2. The company's derivative assets and liabilities subject to enforceable master netting arrangements totaled \$39 at June 30, 2017 and \$114 at December 31, 2016.

1. OCI is defined as other comprehensive income (loss).

For cash flow hedges, this represents the effective portion of the gain (loss) reclassified from accumulated

2. OCI into income during the period. For the three and six months ended months ended June 30, 2017 and 2016, there was no material ineffectiveness with regard to the company's cash flow hedges.

Gain (loss) recognized in other (loss) income, net, was partially offset by the related gain (loss) on the foreign

3. currency-denominated monetary assets and liabilities of the company's operations, see Note 5 for additional information.

Note 14. Long-Term Employee Benefits

Defined Benefit Pensions

The workforce reductions in 2016 related to the 2016 global cost savings and restructuring plan triggered curtailments for certain of the company's pension plans, including the principal U.S. pension plan. For the principal U.S. pension plan, the company recorded curtailment losses of \$14 and \$63 during the three and six months ended June 30, 2016 and re-measured the principal U.S. pension plan as of March 31, 2016 and June 30, 2016. The curtailment loss was driven by the changes in the benefit obligation based on the demographics of the terminated positions partially offset by accelerated recognition of a portion of the prior service benefit. In connection with the re-measurements, the company recognized a pre-tax net loss of \$2,352 within other comprehensive income (loss) for the six months ended June 30, 2016. The loss was driven by the decrease in the discount rate from 4.47% at December 31, 2015 to 3.74% as of June 30, 2016. In addition, the company recorded a \$31 settlement charge during the three months ended June 30, 2016 related to the company's Pension Restoration Plan which provides for lump sum payments to certain eligible retirees.

Table of Contents

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per share)

The following sets forth the components of the company's net periodic benefit cost for pensions:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Service cost	\$34	\$42	\$67	\$89
Interest cost	197	206	392	423
Expected return on plan assets	(309)	(331)	(617)	(669)
Amortization of loss	189	204	379	376
Amortization of prior service benefit	(1)	(1)	(2)	(3)
Curtailment loss	—	17	—	66
Settlement loss	—	37	—	38
Net periodic benefit cost - Total	\$110	\$174	\$219	\$320
Less: Discontinued operations	—	—	—	(4)
Net periodic benefit cost - Continuing operations	\$110	\$174	\$219	\$324

During the six months ended June 30, 2017, the company made total contributions of \$2,900 to its principal U.S. pension plan funded through the May 2017 Debt Offering; short-term borrowings, including commercial paper issuance; and cash. See Note 10 for further discussion related to the May 2017 Debt Offering.

Other Post Employment Benefits

As a result of the workforce reductions noted above, curtailments were triggered for the company's other post employment benefit plans. The company recorded curtailment gains of \$3 and \$33 for the three and six months ended June 30, 2016 and re-measured the associated plans as of March 31, 2016 and June 30, 2016. The curtailment gains were driven by accelerated recognition of a portion of the prior service benefit partially offset by the change in the benefit obligation based on the demographics of the terminated positions. In connection with the re-measurements, the company recognized a pre-tax net loss of \$265 within other comprehensive income (loss) for the six months ended June 30, 2016. The loss was driven by the decrease in the discount rate from 4.30% at December 31, 2015 to 3.55% as of June 30, 2016.

The following sets forth the components of the company's net periodic benefit cost (credit) for other post employment benefits:

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Service cost	\$2	\$4	\$4	\$7
Interest cost	23	21	45	44
Amortization of loss	23	18	46	35
Amortization of prior service benefit	(18)	(36)	(35)	(75)

Note 15. Segment Information

Segment operating earnings is defined as income (loss) from continuing operations before income taxes excluding significant pre-tax benefits (charges), non-operating pension and other post employment benefit (OPEB) costs, exchange gains (losses), corporate expenses and interest. Non-operating pension and OPEB costs includes all of the components of net periodic benefit cost from continuing operations with the exception of the service cost component.

Three Months Ended June 30,	Agriculture ¹	Electronics & Communications	Industrial Biosciences	Nutrition & Health	Performance Materials	Protection Solutions	Other	Total
2017								
Net sales	\$ 3,446	\$ 546	\$ 395	\$ 818	\$ 1,381	\$ 801	\$ 37	\$7,424

2017								
Net sales	\$ 7,374	\$ 1,056	\$ 763	\$ 1,607	\$ 2,749	\$ 1,548	\$ 70	\$15,167
Operating earnings	2,199	205	151	256	684	368	(115)	3,748
2016								
Net sales	\$ 7,004	\$ 946	\$ 707	\$ 1,636	\$ 2,584	\$ 1,515	\$ 74	\$14,466
Operating earnings	1,966	152	125	234	598	364	(109)	3,330

As of June 30, 2017, Agriculture net assets were \$10,181, an increase of \$3,839 from \$6,342 at December 31, 2016.

¹. The increase was primarily due to higher trade receivables related to normal seasonality in the sales and cash collections cycle.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statements About Forward-Looking Statements

This report contains forward-looking statements which may be identified by their use of words like “plans,” “expects,” “will,” “anticipates,” “believes,” “intends,” “projects,” “estimates” or other words of similar meaning. All statements that address expectations or projections about the future, including statements about the company's strategy for growth, product development, regulatory approval, market position, anticipated benefits of recent acquisitions, timing of anticipated benefits from restructuring actions, outcome of contingencies, such as litigation and environmental matters, expenditures, and financial results, forward-looking statements including statements about the consummation of and expected benefits, including synergies, from the planned merger with The Dow Chemical Company (Dow) (the Merger Transaction) and the proposed separation of the combined company's (DowDuPont) agriculture business, specialty products business and material science business through a series of tax-efficient transactions (the Intended Business Separations), and the FMC Transactions, as defined below, in which, among other things, FMC will acquire the Divested Ag Business, as defined below and DuPont will acquire the Acquired H&N Business, as defined below, and the anticipated benefits thereof. These and other forward-looking statements, including the failure to consummate the Merger Transaction or FMC Transactions or to make or take any filing or other action required to consummate such transactions in a timely manner or at all, are not guarantees of future results and are subject to risks, uncertainties and assumptions that could cause actual results to differ materially from those expressed in any forward-looking statements.

Forward-looking statements are based on certain assumptions and expectations of future events which may not be accurate or realized. Forward-looking statements also involve risks and uncertainties, many of which are beyond the company's control. While the lists of factors presented here and in the Registration Statement (as defined in Note 2 to the interim Consolidated Financial Statements) are considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. Consequences of material differences in results as compared with those anticipated in the forward-looking statements could include, among other things, business disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on DuPont's consolidated financial condition, results of operations, credit rating or liquidity. Some of the important factors that could cause the company's actual results to differ materially from those projected in any such forward-looking statements are:

Risks related to the DowDuPont Merger, the Intended Business Separations and the FMC Transactions including, but not limited to, (i) the completion of the Merger Transaction and the FMC Transactions on anticipated terms and timing, including obtaining regulatory approvals, anticipated tax treatment, unforeseen liabilities, future capital expenditures, revenues, expenses, earnings, synergies, economic performance, indebtedness, financial condition, losses, future prospects, business and management strategies for the management, expansion and growth of the new combined company's operations or the Acquired H&N Business and other conditions to the completion of the Merger Transaction and the FMC Transactions, (ii) the possibility that the Merger Transaction and the FMC Transactions may not close, including because the various approvals, authorizations and declarations of non-objections from certain regulatory and governmental authorities with respect to either the Merger Transaction, including receipt of approvals by certain regulators of the respective purchasers in relation to the FMC Transactions, EAA Transaction, defined below, and the Brazil Seeds Transaction, defined below, or the FMC Transactions may not be obtained, on a timely basis or otherwise, including that these regulatory or governmental authorities may not approve of FMC as an acceptable purchaser of the Divested Ag Business in connection with the FMC Transactions or may impose conditions on the granting of the various approvals, authorizations and declarations of non-objections, including requiring the respective Dow, DuPont and FMC businesses, including the Acquired H&N Business (in the case of DuPont) and the Divested Ag Business (in the case of FMC), to divest certain assets if necessary to obtain certain regulatory approvals or otherwise limiting the ability of the combined company to integrate parts of the Dow and

DuPont businesses and/or the DuPont and Health and Nutrition businesses, (iii) the ability of DuPont to integrate the Acquired H&N Business successfully and to achieve anticipated synergies, (iv) potential litigation or regulatory actions relating to the Merger Transaction or the FMC Transactions that could be instituted against DuPont or its directors, (v) the risk that disruptions from the Merger Transaction or the FMC Transactions will harm DuPont's business, including current plans and operations, (vi) the ability of DuPont to retain and hire key personnel, (vii) potential adverse reactions or changes to business relationships resulting from the announcement or completion of the Merger Transaction or the FMC Transactions, (viii) uncertainty as to the long-term value of DowDuPont common stock, (ix) continued availability of capital and financing and rating agency actions, (x) legislative, regulatory and economic developments, (xi) potential business uncertainty, including changes to existing business relationships, during the pendency of the Merger Transaction or the FMC Transactions that could affect DuPont's financial performance, (xii) certain restrictions during the pendency of the Merger Transaction or the FMC Transactions that may impact DuPont's ability to pursue certain business opportunities or strategic transactions and (xiii) unpredictability and severity of catastrophic events, including, but not limited to, acts of terrorism or outbreak of war or hostilities, as well as management's response to any of the aforementioned factors. These risks, as well as other risks associated with the Merger Transaction

Table of Contents

or the FMC Transactions, are more fully discussed in (1) DuPont's most recently filed Form 10-K, 10-Q and 8-K reports, (2) DuPont's subsequently filed Form 10-K and 10-Q reports and (3) the joint proxy statement/prospectus included in the Registration Statement filed with the SEC in connection with the Merger Transaction;

- Volatility in energy and raw material prices;
- Failure to develop and market new products and optimally manage product life cycles;
- Outcome of significant litigation and environmental matters, including those related to divested businesses, including realization of associated indemnification assets, if any;
- Failure to appropriately manage process safety and product stewardship issues;
- Ability to obtain and maintain regulatory approval for its products especially in the Agriculture segment;
- Failure to realize all of the expected benefits from cost and productivity initiatives to the extent and as anticipated;
- Effect of changes in tax, environmental and other laws and regulations or political conditions in the United States of America (U.S.) and other countries in which the company operates;
- Conditions in the global economy and global capital markets, including economic factors such as inflation, deflation, fluctuation in currency rates, interest rates and commodity prices;
- Failure to appropriately respond to market acceptance, government rules, regulations and policies affecting products based on biotechnology;
- Impact of business disruptions, including supply disruptions, and security threats, regardless of cause, including acts of sabotage, cyber-attacks, terrorism or war, natural disasters and weather events and patterns which could affect demand as well as availability of product, particularly in the Agriculture segment;
- Ability to discover, develop and protect new technologies and enforce the company's intellectual property rights; and
- Successful integration of acquired businesses and separation of underperforming or non-strategic assets or businesses.

For further discussion of some of the important factors that could cause the company's actual results to differ materially from those projected in any such forward-looking statements, see the Risk Factors discussion set forth under Part I, Item 1A of the company's 2016 Annual Report.

Table of Contents

Recent Developments

DuPont Dow Merger of Equals

On December 11, 2015, DuPont and Dow announced entry into an Agreement and Plan of Merger, as amended on March 31, 2017 (the Merger Agreement), under which the companies will combine in an all-stock merger of equals (the Merger Transaction) subject to satisfaction of customary closing conditions, including receipt of regulatory approval. The combined company will be named DowDuPont Inc. (DowDuPont). Following the consummation of the Merger Transaction, DuPont and Dow intend to pursue, subject to the receipt of approval by the Board of Directors of DowDuPont, the separation of the combined company's agriculture business, specialty products business and material science business through a series of tax-efficient transactions (collectively, the Intended Business Separations).

On March 27, 2017, DuPont and Dow announced that the European Commission (EC) granted conditional regulatory clearance in Europe for the Merger Transaction conditional on DuPont and Dow fulfilling certain commitments. Dow is required to divest its global Ethylene Acrylic Acid copolymers and ionomers business and has entered into a definitive agreement with SK Global Chemical Co., LTD, (the EAA Transaction) subject to the closing of the Merger Transaction in addition to customary closing conditions, including regulatory approval.

DuPont is required to sell certain assets related to its Crop Protection business and research and development (R&D) organization, specifically the company's Cereal Broadleaf Herbicides and Chewing Insecticides portfolios, including Rynaxypyr[®], Cyazypyr[®] and Indoxacarb, as well as the Crop Protection R&D pipeline and organization, excluding seed treatment, nematicides, and late-stage R&D programs. The company will continue to develop and bring to market its late-stage Crop Protection R&D programs and retain the personnel needed to support the Crop Protection marketed products and R&D programs not required to be divested per the EC's conditional approval.

On March 31, 2017, DuPont entered into a definitive agreement (the FMC Transaction Agreement) with FMC Corporation (FMC). Under the FMC Transaction Agreement, FMC will acquire the Crop Protection business and R&D assets that DuPont is required to divest in order to obtain EC approval of the Merger Transaction as described above, (the Divested Ag Business), and DuPont has agreed to acquire certain assets relating to FMC's Health and Nutrition segment, excluding its Omega-3 products, (the Acquired H&N Business) (collectively, the FMC Transactions). Additionally, FMC will pay DuPont \$1.2 billion in cash, subject to certain adjustments as set forth in the FMC Transaction Agreement, which reflects the difference in value between the Divested Ag Business and the Acquired H&N Business. DuPont will retain accounts receivable and accounts payable associated with the Divested Ag Business, with an expected net value of \$425 million at closing. The assets associated with the Divested Ag Business generated revenues in 2016 of about \$1.4 billion. The FMC Health and Nutrition business being acquired, which includes texturants as food ingredients and pharmaceutical excipients, generated approximately \$700 million in revenues in 2016.

The divestiture will satisfy DuPont's commitments to the EC in connection with its conditional regulatory clearance of the merger with Dow. The FMC Transaction is expected to close in the fourth quarter of 2017, subject to the closing of the Merger Transaction, in addition to customary closing conditions, including regulatory approval of the FMC Transactions.

In the second quarter 2017, Dow and DuPont obtained conditional approval for the Merger Transaction from the antitrust regulatory authorities in the United States, Brazil, Canada, and China, among others. The conditional approval was granted based on the companies fulfilling their commitments to the EC and, in the case of Brazil and China, certain local remedies. The local remedies in Brazil include the divestiture of a select portion of Dow's corn seed business in Brazil for which Dow has entered a definitive agreement with CITIC Henan Agriculture Industrial Investment Fund, subject to the closing of the Merger Transaction in addition to customary closing conditions, including regulatory approval, (the Brazil Seeds Transaction). In China, DuPont and Dow have made commitments related to the supply and distribution in China of certain herbicide and insecticide ingredients and formulations for rice

crops for five years after the closing of the Merger Transaction.

To accommodate the transaction with FMC, DuPont and Dow have amended the Merger Agreement to extend the “Outside Date” to August 31, 2017, and the companies anticipate closing of the merger to occur no sooner than August 1, 2017, subject to satisfaction of customary closing conditions, including receipt of regulatory approvals. The companies still expect the Intended Business Separations, subject to DowDuPont Board approval, to occur within 18 months after closing the Merger Transaction. About \$3 billion in aggregate cost synergies are currently expected to be realized on a run-rate basis by the combined businesses within 24 months after consummation of the Merger Transaction, with approximately \$1.6 billion from the material science business; approximately \$1 billion from the agriculture business; and approximately \$0.4 billion from the specialty products business.

See Note 2 to the interim Consolidated Financial Statements for additional information.

Table of Contents

Settlement of PFOA MDL

As previously reported, approximately 3,550 lawsuits have been filed in various federal and state courts in Ohio and West Virginia alleging personal injury from exposure to perfluorooctanoic acid and its salts, including the ammonium salt (PFOA), in drinking water as a result of the historical manufacture or use of PFOA at the Washington Works plant outside Parkersburg, West Virginia. That plant is now owned and/or operated by The Chemours Company (Chemours). These personal injury lawsuits were consolidated in multi-district litigation in the United States District Court for the Southern District of Ohio (the MDL). In February 2017, DuPont and plaintiffs' counsel agreed to a settlement in principle of the MDL; the parties executed the definitive settlement agreements in March 2017. The total settlement amount is \$670.7 million in cash, half of which will be paid by Chemours and half paid by DuPont. In exchange for that payment, DuPont and Chemours will receive a complete release of all claims by the settling plaintiffs. The settlement was entered into solely by way of compromise and is not in any way an admission of liability or fault by DuPont or Chemours. The company recorded a charge of \$335 million (\$214 million net of tax) to income (loss) from discontinued operations after taxes in the company's interim Consolidated Income Statement for the six months ended June 30, 2017 for the remainder of the settlement not subject to indemnification by Chemours. See Note 11 to the interim Consolidated Financial Statements for additional information.

2017 Restructuring Program

In the first quarter 2017, DuPont committed to take actions to improve plant productivity and better position its businesses for productivity and growth before and after the anticipated closing of the Merger Transaction. In connection with these actions, the company incurred pre-tax charges of \$312 million, comprised of \$279 million of asset-related charges and \$33 million in severance and related benefit costs (the 2017 restructuring program) during the six months ended June 30, 2017. The charges, recognized in employee separation / asset related charges, net, in the company's interim Consolidated Income Statement, primarily relate to the second quarter closure of the Protection Solutions segment's Cooper River manufacturing site located near Charleston, South Carolina. The actions associated with this program are expected to be substantially complete by the end of 2017. The company anticipates including savings associated with these actions against the targeted \$3 billion of cost synergies associated with the Merger Transaction.

Results of Operations

Overview

The following is a summary of the results of continuing operations for the three months ended June 30, 2017:

Net sales were \$7.4 billion, 5 percent above the same period last year, reflecting a 6 percent volume increase partially offset by a 1 percent decline in local price. Volume grew in all reportable segments, led by Agriculture, Electronics & Communications, and Protection Solutions.

Segment operating earnings increased in all reportable segments driven by higher volumes. Segment operating margins expanded in most reportable segments.

Second quarter results include pre-tax charges of \$376 million, comprised of \$216 million of costs in connection with the planned merger with Dow and related activities, and \$160 million of restructuring charges.

Income from continuing operations after taxes was \$0.9 billion versus \$1.0 billion for the same period in the prior year.

The following is a summary of the results of continuing operations for the six months ended June 30, 2017:

Net sales were \$15.2 billion, 5 percent above the same period last year due to volume growth. Volume grew in most reportable segments led by Agriculture, Performance Materials, and Electronics & Communications.

Segment operating earnings increased in all reportable segments driven by higher volumes.

Agriculture sales increased 5 percent on a 5 percent benefit from volume and a 1 percent benefit from local price, partially offset by a 1 percent negative impact from portfolio. Agriculture operating earnings increased 12 percent on growth in volume and local price.

Year-to-date results include pre-tax charges of \$698 million, comprised of \$386 million of costs in connection with the planned merger with Dow and related activities and \$312 million of restructuring charges, partially offset by a \$162 million pre-tax gain from the sale of the global food safety diagnostics business. Year-to-date results in the prior year included a pre-tax gain of \$369 million from the sale of the DuPont (Shenzhen) Manufacturing Limited entity partially offset by \$100 million in pre-tax costs in connection with the planned merger with Dow and related activities.

Table of Contents

Income from continuing operations after taxes was \$2.2 billion versus \$2.3 billion for the same period in the prior year.

Net Sales

Net sales for the three months ended June 30, 2017 were \$7.4 billion, up 5 percent versus \$7.1 billion in the prior year reflecting 6 percent higher volume, partly offset by 1 percent lower local prices. Sales grew 6 percent in the U.S. and Canada driven by increased Agriculture volume, and increased 10 percent in Asia Pacific, primarily driven by volume growth in Electronics & Communications, Agriculture, Performance Materials, and Industrial Biosciences. Volume increased 3 percent in EMEA, led by Protection Solutions and Performance Materials. Net sales in developing markets, which include China, India, and countries in Southeast Asia, Latin America, Eastern and Central Europe, Middle East, and Africa, were \$2.1 billion, up 4 percent, driven by higher volume. Volume largely reflects strong growth in Electronics & Communications, Agriculture and Industrial Biosciences in developing Asia Pacific. Sales in developing markets represent 29 percent of total sales, unchanged from prior year.

The table below shows a regional breakdown of net sales based on location of customers and percentage variances from the prior year:

	Three Months		Percent Change Due to:			
	Ended June 30,	2017	Local	Price	Currency	Volume Portfolio and Other
Net Sales	(\$ Billions)	Change vs. 2016	Product	Mix		
Worldwide	\$ 7.4	5	(1)	—	6	—
U.S. & Canada	3.8	6	—	—	6	—
Europe, Middle East & Africa (EMEA)	1.4	1	—	(2)	3	—
Asia Pacific	1.7	10	(1)	—	11	—
Latin America	0.5	(3)	(4)	2	(1)	—

Net sales for the six months ended June 30, 2017 were \$15.2 billion versus \$14.5 billion in the prior year, a 5 percent increase, reflecting 5 percent higher volume. Sales volume in the U.S. and Canada increased 3 percent driven by increased volume in Agriculture. A volume increase of 13 percent in Asia Pacific was principally driven by Electronics & Communications, Performance Materials, Agriculture and Industrial Biosciences. Volume increased 6 percent in EMEA, with increased seed sales in Eastern Europe, and higher sales in the Performance Materials and Protection Solutions segments. Net sales in developing markets were \$4.6 billion, up 10 percent, driven by higher volume. Volume largely reflects strong growth in Agriculture in developing EMEA and Asia Pacific, and Electronics & Communications and Performance Materials in developing Asia Pacific. Sales in developing markets represent 30 percent of total sales versus 29 percent last year.

The table below shows a regional breakdown of net sales based on location of customers and percentage variances from the prior year:

	Six Months		Percent Change Due to:			
	Ended June 30,	2017	Local	Price	Portfolio	
Net Sales	(\$ Billions)	Change vs. 2016	Product	Mix	Other

Latin America	1.1	6	1	7	(2)	—

34

Table of Contents

Cost of Goods Sold (COGS)

COGS for the second quarter 2017 increased 5 percent to \$4.2 billion from \$4.0 billion in the prior year. For the six months ended June 30, 2017, COGS increased 4 percent to \$8.6 billion versus \$8.2 billion in the prior year. The increase in both periods versus prior year is primarily related to higher sales volume. COGS as a percentage of sales decreased to 56 percent for the three and six months ended June 30, 2017 from 57 percent for the three and six months ended June 30, 2016 primarily due to favorable mix.

Other Operating Charges

Other operating charges were \$176 million for the second quarter of 2017 versus \$143 million in the prior year, an increase of \$33 million, primarily due to the absence of \$30 million of insurance recoveries related to Imprelis® herbicide claims in 2016.

For the six months ended June 30, 2017, other operating charges were \$380 million versus \$328 million in the prior year, an increase of \$52 million, principally due to the absence of \$30 million of insurance recoveries and a \$23 million reduction in the estimated liability related to the Imprelis® herbicide claims in 2016.

Selling, General and Administrative Expenses (SG&A)

SG&A expenses were \$1.3 billion for the second quarter of 2017 versus \$1.2 billion in the prior year, with the increase primarily driven by costs in connection with the planned merger with Dow and related activities. During the three months ended June 30, 2017 and 2016, the company incurred \$216 million and \$76 million, respectively, of transaction costs in connection with the planned merger with Dow and the Intended Business Separations, including costs relating to integration and separation planning. SG&A was approximately 18 percent and 17 percent of net sales for the three months ended June 30, 2017 and 2016.

SG&A expenses for the six months ended June 30, 2017 were \$2.6 billion versus \$2.3 billion in the prior year, primarily due to increase in costs associated with the planned merger with Dow and related activities and increases in commission expense, partially offset by cost savings. During the six months ended June 30, 2017 and 2016, the company incurred \$386 million and \$100 million, respectively of transaction costs in connection with the planned merger with Dow and related activities. SG&A was approximately 17 percent and 16 percent of net sales for the six months ended June 30, 2017 and 2016.

Research and Development Expense (R&D)

R&D expense totaled \$441 million and \$432 million for the second quarter 2017 and 2016, respectively. Year-to-date R&D expense totaled \$857 million and \$850 million for the six months ended June 30, 2017 and 2016, respectively. The increase in both periods primarily related to increased spend in the Agriculture segment. R&D was approximately 6 percent of net sales for the three and six months ended June 30, 2017 and 2016, respectively.

Other (Loss) Income, Net

Other (loss) income, net totaled \$(21) million for the second quarter of 2017 compared to \$51 million in the prior year, a decrease of \$72 million, primarily due to an increase in net exchange losses. This was partially offset by the absence of prior year losses related to available-for-sale securities and increased licensing income.

For the six months ended June 30, 2017, other (loss) income, net, was \$285 million compared to \$423 million in the prior year, a decrease of \$138 million, primarily due to the change in net gains on sales of business and other assets period over period and an increase in net exchange losses. This was partially offset by the reversal of accrued interest related to unrecognized tax benefits in 2017, absence of prior year losses related to available-for-sale securities and increased licensing income. The six months ended June 30, 2017 included a pre-tax gain of \$162 million associated with the sale of the global food safety diagnostic business. The six months ended June 30, 2016 included a pre-tax gain of \$369 million associated with the sale of DuPont (Shenzhen) Manufacturing Limited entity.

See Note 5 to the interim Consolidated Financial Statements for additional information.

Interest Expense

Interest expense totaled \$99 million in the second quarter 2017 as compared to \$93 million in the prior year. The \$6 million increase was due primarily to higher debt balances.

For the six months ended June 30, 2017, interest expense was \$183 million versus \$185 million in the prior year. The \$2 million decrease was due primarily to lower interest on long-term debt prior to the May 2017 Debt Offering, partially offset by higher interest on commercial paper.

Table of Contents

Employee Separation / Asset Related Charges, Net

Employee separation / asset related charges, net totaled \$160 million for the second quarter 2017 versus a \$90 million benefit in the prior year. The charges in the second quarter 2017 relate to the closure of the Protection Solutions segment's Cooper River manufacturing site located near Charleston, South Carolina as part of the 2017 restructuring program. The benefit in the second quarter 2016 relates to a reduction in severance and related benefit costs in the 2016 global cost savings and restructuring plan driven by the elimination of positions at a lower cost than expected as a result of redeployments and attrition, as well as lower than estimated individual severance costs.

Employee separation / asset related charges, net totaled \$312 million for the six months ended 2017 versus a \$13 million benefit in the prior year. The \$312 million charge relates to the 2017 restructuring program. The six months ended June 30, 2016 included an \$88 million benefit primarily driven by a reduction in severance and related benefit costs in the 2016 global cost savings and restructuring plan, offset by a \$75 million charge in the first quarter related to the decision not to restart the insecticide manufacturing facility at the La Porte site located in La Porte, Texas.

See Note 4 to the interim Consolidated Financial Statements for additional information.

Provision for Income Taxes on Continuing Operations

The company's effective tax rate for the second quarter 2017 was 13.0 percent as compared to 23.0 percent in 2016. The lower effective tax rate is primarily driven by certain net exchange gains recognized on the re-measurement of the net monetary asset positions which were not taxable in their local jurisdictions, increased tax benefits on employee separation / asset related charges, as well as the impact of costs associated with the planned merger with Dow and related activities. These impacts were partially offset by a tax charge of \$29 million related to the elimination of a tax benefit recorded in 2016 due to a second quarter 2017 U.S. discretionary pension contribution.

The company's effective tax rate for the six months ended June 30, 2017 was 13.8 percent as compared to 24.0 percent in 2016. The lower effective tax rate is primarily driven by certain net exchange gains recognized on the re-measurement of the net monetary asset positions which were not taxable in their local jurisdictions. Other factors contributing to the lower effective tax rate include the absence of unfavorable tax consequences of a gain on the sale of an entity in the first quarter 2016, tax benefits related to a reduction in the company's unrecognized tax benefits due to the closure of various tax statutes of limitations, increased tax benefits on employee separation / asset related charges, as well as the impact of costs associated with the planned merger with Dow and related activities. These impacts were partially offset by the unfavorable tax consequences of non-deductible goodwill associated with the gain on the sale of the company's global food safety diagnostic business in the first quarter 2017.

See Notes 5 and 6 to the interim Consolidated Financial Statements for additional information.

Recent Accounting Pronouncements

See Note 1 to the interim Consolidated Financial Statements for a description of recent accounting pronouncements.

Table of Contents

Segment Reviews

Summarized below are comments on individual segment net sales and operating earnings for the three and six months ended June 30, 2017 compared with the same period in 2016. Segment operating earnings is defined as income (loss) from continuing operations before income taxes excluding significant pre-tax benefits (charges), non-operating pension and other post employment employee benefit costs, exchange gains (losses), corporate expenses and interest. Non-operating pension and other post employment benefit costs includes all of the components of net periodic benefit costs from continuing operations with the exception of the service cost component. See Note 15 to the interim Consolidated Financial Statements for details related to significant pre-tax benefits (charges) excluded from segment operating earnings. All references to prices are based on local price unless otherwise specified.

A reconciliation of segment operating earnings to income from continuing operations before income taxes for the three and six months ended June 30, 2017 and 2016 is included in Note 15 to the interim Consolidated Financial Statements.

The following table summarizes second quarter and year-to-date 2017 segment net sales and related variances versus prior year:

	Three Months		Percentage Change Due to:				
	Ended	June 30, 2017	Local	Price	Currency	Volume	Portfolio and Other
Segment	Net	Percent	vs.	and	Volume		
Sales	Change	Change	Product	Product	Product		
(\$ Billions)	2016	2016	Mix	Mix	Mix		
Agriculture	\$ 3.4	7	(1)	—	8	—	
Electronics & Communications	0.5	11	(1)	(1)	13	—	
Industrial Biosciences	0.4	11	3	(1)	9	—	
Nutrition & Health	0.8	(2)	(1)	(1)	1	(1)	
Performance Materials	1.4	3	2	(1)	2	—	
Protection Solutions	0.8	2	(2)	(1)	5	—	
	Six Months		Percentage Change Due to:				
	Ended	June 30, 2017	Local	Price	Currency	Volume	Portfolio and Other
Segment	Net	Percent	vs.	and	Volume		
Sales	Change	Change	Product	Product	Product		
(\$ Billions)	2016	2016	Mix	Mix	Mix		
Agriculture	\$ 7.4	5	1	—	5	(1)	
Electronics & Communications	1.1	12	(1)	(1)	14	—	
Industrial Biosciences	0.8	8	2	(1)	7	—	
Nutrition & Health	1.6	(2)	—	(1)	—	(1)	
Performance Materials	2.7	6	1	(1)	6	—	
Protection Solutions	1.5	2	(2)	(1)	5	—	

Agriculture - Second quarter 2017 segment net sales of \$3,446 million increased \$228 million, or 7 percent, on volume growth, partially offset by declines in local price. Volume growth was due to increased insecticide and fungicide sales, a benefit from the southern U.S. route-to-market change, and higher soybean sales in North America driven by increased soybean area. Reductions in local price were due to price declines in crop protection due to

competitive pressure in Latin America and Asia. Operating earnings of \$963 million increased \$98 million, or 11 percent, on volume growth, partially offset by declines in local price and increased product costs, primarily driven by higher soybean royalties.

Year-to-date segment net sales of \$7,374 million increased \$370 million, or 5 percent, on growth in volume and local price, partially offset by portfolio changes. Volume growth was driven by a change in the timing of seed deliveries, including the southern U.S. route-to-market change, increased insecticide and fungicide sales, higher soybean sales in North America, and increased sunflower and corn sales in Europe. The change in timing of seed deliveries benefited year-to-date segment net sales by approximately \$200 million. These increases were partially offset by lower North America corn seed volumes impacted by an expected decrease in corn area. Pricing growth was realized by double-digit increases in Brazil driven by the continued expansion of Pioneer[®] brand hybrids with Leptra[®] insect protection and increases in sunflower seed pricing in Europe, partially offset by price declines in crop protection due to competitive pressure in Latin America and Asia. Operating earnings of \$2,199 million increased \$233 million, or 12 percent, on growth in volume and local price.

Table of Contents

Electronics & Communications - Second quarter 2017 segment net sales of \$546 million increased \$52 million, or 11 percent, as volume growth more than offset a decline in local price, and a negative impact from currency. Volume growth was due to increased demand in consumer electronics and semiconductor markets, as well as stronger photovoltaic material sales. Operating earnings of \$116 million increased \$23 million, or 25 percent, as volume growth more than offset declines in local price.

Year-to-date segment net sales of \$1,056 million increased \$110 million, or 12 percent, on volume growth, partially offset by a decline in local price and a negative impact from currency. Volume growth was due to increased demand in consumer electronics and semiconductor markets, as well as stronger photovoltaic material sales. Operating earnings of \$205 million increased \$53 million, or 35 percent, primarily on volume growth and the absence of a \$16 million prior year litigation expense, partially offset by lower local price. Operating earnings included a gain on the sale of a business offset by costs associated with a legal matter.

Industrial Biosciences - Second quarter 2017 segment net sales \$395 million increased \$40 million, or 11 percent, as growth in volume and local price was partially offset by a negative impact from currency. Broad-based volume growth was driven by increased demand for biomaterials in apparel and carpeting, bioactives in the grain processing market, and clean technologies. Growth in local price was due to biomaterials in carpeting. Operating earnings of \$76 million increased \$14 million, or 23 percent, on volume growth and mix enrichment, partially offset by higher costs.

Year-to-date segment net sales of \$763 million, increased \$56 million, or 8 percent, as volume growth and local price gains were partially offset by a negative impact from currency. Volume growth was driven by increased demand for biomaterials in apparel and carpeting and, bioactives in the grain processing market. Local price gains were due to biomaterials in carpeting. Operating earnings of \$151 million increased \$26 million, or 21 percent, on volume growth and mix enrichment, partially offset by higher costs.

Nutrition & Health - Second quarter 2017 segment net sales of \$818 million decreased \$17 million, or 2 percent, as portfolio changes, lower local price and a negative impact from currency, were partially offset by volume growth. The negative impact from portfolio changes was due to the absence of sales related to the global food safety diagnostic business sold in February 2017. Increased demand in probiotics was partially offset by declines in protein solutions and systems and texturants. Operating earnings of \$135 million increased \$5 million, or 4 percent, on volume growth.

Year-to-date segment net sales of \$1,607 million decreased \$29 million, or 2 percent on portfolio changes and the negative impact from currency. Volume growth in probiotics was offset by declines in systems and texturants and protein solutions. The unfavorable portfolio impact was due to the absence of sales related to the global food safety diagnostic business sold in February 2017. Operating earnings of \$256 million increased \$22 million, or 9 percent, on plant productivity, mix enrichment and cost savings, partially offset by portfolio changes.

Performance Materials - Second quarter 2017 segment net sales of \$1,381 million increased \$46 million, or 3 percent, as increases in local price and volume were partially offset by a negative impact from currency. Higher local price for polymers was driven by price increases to mitigate higher raw material costs. Increased demand for polymers in automotive markets and increased demand for high-performance parts in semi-conductor and aerospace markets drove increased volumes, partially offset by lower ethylene sales due to the planned turnaround of the ethylene cracker in the second quarter. Operating earnings of \$329 million increased \$4 million, or 1 percent, as increases in volume and local price, and the absence of costs associated with a contractual claim, were largely offset by higher raw material costs.

Year-to-date segment net sales of \$2,749 million increased \$165 million, or 6 percent, as growth in volume and local price was partially offset by a negative impact from currency. Increased demand for polymers in automotive markets and increased demand for high-performance parts in semi-conductor and aerospace markets drove increased volumes, partially offset by lower ethylene sales due to the planned turnaround of the ethylene cracker in the second quarter.

Operating earnings of \$684 million increased \$86 million, or 14 percent, driven by volume growth, cost savings, and the absence of costs associated with a contractual claim, partially offset by higher raw material costs.

Protection Solutions - Second quarter 2017 segment net sales of \$801 million increased \$15 million, or 2 percent, as volume growth was partially offset by lower local price, unfavorable mix and the negative impact from currency. Broad-based volume growth was led by improved demand for Tyvek[®] protective material in medical packaging and protective apparel and Nomex[®] thermal-resistant fiber in oil and gas markets. Volume growth was partially offset by unfavorable mix in Nomex[®] and Kevlar[®], and lower local price in surfaces due to competitive pressure. Operating earnings of \$191 million increased \$3 million, or 2 percent, as volume growth more than offset unfavorable mix, lower local price and higher raw material costs.

Table of Contents

Year-to-date segment net sales of \$1,548 million increased \$33 million, or 2 percent, as volume growth was partially offset by unfavorable mix and the negative impact from currency. Broad-based volume growth was driven by increased demand for Nomex® in oil and gas markets, Kevlar® for composite structures, Tyvek® in medical packaging and protective apparel, and surfaces. Volume growth was partially offset by the impacts of unfavorable mix in Tyvek® and Nomex®, and lower local price in Kevlar® and surfaces due to competitive pressure. Operating earnings of \$368 million increased \$4 million, or 1 percent, as volume growth was partially offset by unfavorable mix, lower local price, and higher raw material costs.

Table of Contents

Liquidity & Capital Resources

Information related to the company's liquidity and capital resources can be found in the company's 2016 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Liquidity and Capital Resources. Discussion below provides the updates to this information for the six months ended June 30, 2017.

(Dollars in millions)	June 30, December 31,	
	2017	2016
Cash, cash equivalents and marketable securities	\$ 6,228	\$ 5,967
Total debt	13,559	8,536

The company's cash, cash equivalents and marketable securities at June 30, 2017 and December 31, 2016 are \$6.2 billion and \$6.0 billion, respectively.

Total debt as of June 30, 2017 was \$13.6 billion, a \$5.0 billion increase from December 31, 2016. This increase was due primarily to the May 2017 Debt Offering as well as increased borrowings from commercial paper and the Repurchase Facility used primarily to fund seasonal working capital requirements.

In May 2017, the company completed an underwritten public offering of \$1.25 billion of the company's 2.20 percent Notes due 2020 and \$750 million of the company's Floating Rate Notes due 2020 (the May 2017 Debt Offering). The proceeds of this offering were used to make a discretionary pension contribution to the company's principal U.S. pension plan, as discussed below. The company will be required to redeem all of the Notes associated with the May 2017 Debt Offering at a redemption price equal to 100 percent of the aggregate principal amount plus any accrued and unpaid interest upon the announcement of the record date for the separation of either the agriculture or specialty products business, or the entry into an agreement to sell all or substantially all of the assets of either business to a third party.

In March 2016, the company entered into a credit agreement that provides for a three-year, senior unsecured term loan facility in the aggregate principal amount of \$4.5 billion (as amended from time to time, the Term Loan Facility). In the first quarter of 2017, the Term Loan Facility was amended to extend the date on which the commitment to lend terminates. As a result, DuPont may make up to seven term loan borrowings through July 27, 2018; amounts repaid or prepaid are not available for subsequent borrowings. The Term Loan Facility matures in March 2019 at which time all outstanding borrowings, including accrued but unpaid interest, become immediately due and payable. As of June 30, 2017, the company had borrowed \$500 million and had unused commitments of \$4.0 billion under the Term Loan Facility. DuPont may elect to borrow under the Term Loan Facility to meet its short-term liquidity needs.

The Term Loan Facility and the amended revolving credit facility contain customary representations and warranties, affirmative and negative covenants, and events of default that are typical for companies with similar credit ratings and generally consistent with those applicable to DuPont's long-term public debt. The Term Loan Facility and the amended revolving credit facility contain a financial covenant requiring that the ratio of Total Indebtedness to Total Capitalization for DuPont and its consolidated subsidiaries not exceed 0.6667. At June 30, 2017, the company was in compliance with this financial covenant.

In January 2017, in line with seasonal agricultural working capital requirements, the company entered into a committed receivable repurchase agreement of up to \$1.3 billion (the Repurchase Facility) that expires on November 30, 2017. Under the Repurchase Facility, the company may sell a portfolio of available and eligible outstanding customer notes receivables within the Agriculture segment to participating institutions and simultaneously agree to repurchase at a future date. See further discussion of this facility in Note 10 to the interim Consolidated Financial Statements.

The company has access to approximately \$7.8 billion in unused credit lines, a decrease of \$0.1 billion from \$7.9 billion as of December 31, 2016. These unused credit lines provide support to meet the company's short-term liquidity needs and for general corporate purposes which may include funding of discretionary and non-discretionary contributions to certain benefit plans, severance plans in the event of a change in control, repayment and refinancing of debt, working capital, capital expenditures and repurchases and redemptions of securities.

The company previously anticipated making contributions of approximately \$230 million to its principal U.S. pension plan in 2017. During the six months ended June 30, 2017, the company made total contributions of \$2.9 billion to its principal U.S pension plan, an increase of approximately \$2.7 billion reflecting discretionary contributions. The discretionary contribution was funded through the May 2017 Debt Offering, as discussed above; short-term borrowings, including commercial paper issuance; and cash.

Table of Contents

Summary of Cash Flows

Cash used for operating activities was \$4.1 billion for the six months ended June 30, 2017 compared to \$1.5 billion during the same period in 2016. The \$2.6 billion increase was due primarily to higher pension contributions, as discussed above.

Cash used for investing activities was \$1.9 billion for the six months ended June 30, 2017 compared to \$0.4 billion during the same period in 2016. The \$1.5 billion increase was due primarily to increased net purchases of marketable securities, partially offset by lower net payments from foreign currency contracts.

Cash provided by financing activities was \$4.5 billion for the six months ended June 30, 2017, compared to \$1.0 billion during the same period last year. The \$3.5 billion increase was due primarily to the May 2017 Debt Offering and increased short-term borrowings in commercial paper for seasonal working capital requirements.

Dividend payments to shareholders during the six months ended June 30, 2017 totaled \$0.7 billion. In April and July of 2017, the Board of Directors declared second and third quarter common stock dividends of \$0.38 per share. The company has paid quarterly consecutive dividends since the company's first dividend in the fourth quarter 1904.

Guarantees and Off-Balance Sheet Arrangements

For detailed information related to Guarantees, Indemnifications, and Obligations for Equity Affiliates and Others, see the company's 2016 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Off- Balance Sheet Arrangements, and Note 11 to the interim Consolidated Financial Statements.

Contractual Obligations

Information related to the company's contractual obligations at December 31, 2016 can be found in the company's 2016 Annual Report, Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, Off-Balance Sheet Arrangements. The company's contractual obligations at June 30, 2017 have increased approximately \$2 billion versus prior year end. The increase is driven by the May 2017 Debt Offering. See Note 10 to the interim Consolidated Financial Statements for further discussion of the company's debt offering.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

See Note 13 to the interim Consolidated Financial Statements. See also Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk, of the company's 2016 Annual Report for information on the company's utilization of financial instruments and an analysis of the sensitivity of these instruments.

Item 4. CONTROLS AND PROCEDURES

a) Evaluation of Disclosure Controls and Procedures

The company maintains a system of disclosure controls and procedures to give reasonable assurance that information required to be disclosed in the company's reports filed or submitted under the Securities Exchange Act of 1934 (Exchange Act) is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. These controls and procedures also give reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to management to allow timely decisions regarding required disclosures.

As of June 30, 2017, the company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), together with management, conducted an evaluation of the effectiveness of the company's disclosure controls and procedures

pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the CEO and CFO concluded that these disclosure controls and procedures are effective.

b) Changes in Internal Control over Financial Reporting

There has been no change in the company's internal control over financial reporting that occurred during the quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The company is subject to various litigation matters, including, but not limited to, product liability, patent infringement, antitrust claims, and claims for third party property damage or personal injury stemming from alleged environmental torts. Information regarding certain of these matters is set forth below and in Note 11 to the interim Consolidated Financial Statements.

Litigation

PFOA: Environmental and Litigation Proceedings

For purposes of this report, the term PFOA means collectively perfluorooctanoic acid and its salts, including the ammonium salt and does not distinguish between the two forms. Information related to this matter is included in Note 11 to the interim Consolidated Financial Statements under the heading PFOA.

La Porte Plant, La Porte, Texas - Crop Protection - Release Incident Investigations

On November 15, 2014, there was a release of methyl mercaptan at the company's La Porte facility. The release occurred at the site's Crop Protection unit resulting in four employee fatalities inside the unit. DuPont continues to cooperate with governmental agencies, including the U.S. Environmental Protection Agency (EPA) and the Department of Justice (DOJ), still conducting investigations. These investigations could result in sanctions and penalties against the company.

Environmental Proceedings

The company believes it is remote that the following matters will have a material impact on its financial position, liquidity or results of operations. The descriptions are included per Regulation S-K, Item 103(5)(c) of the Securities Exchange Act of 1934.

La Porte Plant, La Porte, Texas - EPA Multimedia Inspection

The EPA conducted a multimedia inspection at the La Porte facility in January 2008. DuPont, EPA and DOJ began discussions in the Fall 2011 relating to the management of certain materials in the facility's waste water treatment system, hazardous waste management, flare and air emissions. These negotiations continue.

Sabine Plant, Orange, Texas - EPA Multimedia Inspection

In June 2012, DuPont began discussions with EPA and DOJ related to a multimedia inspection that EPA conducted at the Sabine facility in March 2009 and December 2015. The discussions involve the management of materials in the facility's waste water treatment system, hazardous waste management, flare and air emissions, including leak detection and repair. These negotiations continue.

La Porte Plant, La Porte, Texas - OSHA Release Incident Citations

In May 2015, the Occupational Safety & Health Administration (OSHA) cited the company in connection with the November 2014 release for fourteen violations (twelve serious, one repeat and one other-than-serious) with an aggregate associated penalty of \$99,000. In the second quarter 2017, OSHA and the company settled the Release Incident matter. The company agreed to pay penalties of \$106,375 for ten violations (two repeat, seven serious and one other-than-serious). Four violations were withdrawn. The settlement is pending judicial approval and is expected to be finalized in the third quarter.

La Porte Plant, La Porte, Texas - OSHA Process Safety Management (PSM) Audit

In 2015, OSHA conducted a PSM audit of the Crop Protection and Fluoroproducts units at the La Porte Plant. In July 2015, OSHA cited the company for three willful, one repeat and five serious PSM violations and placed the company in its Severe Violator Enforcement Program. OSHA has proposed a penalty of \$273,000. In the second quarter 2017,

OSHA and the company settled the PSM Audit matter. The company agreed to pay penalties of \$285,848 for seven violations (four repeat and three serious). Two violations were withdrawn and all willful violations were reclassified. The settlement is pending judicial approval and is expected to be finalized in the third quarter.

Table of Contents

Item 1A. RISK FACTORS

The following risk factor presented in the company's risk factors discussed in Part I, Item 1A, Risk Factors, in the company's 2016 Annual Report is updated solely to reflect Amendment No. 1 to the Merger Agreement which, among other things, extends the Merger Agreement to August 31, 2017.

The Merger Agreement may be terminated in accordance with its terms and the Mergers may not be completed. The completion of the Mergers is subject to the satisfaction or waiver of a number of conditions. Those conditions include: (i) the receipt of certain domestic and foreign regulatory approvals under competition laws, including receipt of approvals by certain regulators of the respective purchasers in relation to the FMC Transactions, EAA Transaction and the Brazil Seeds Transaction; (ii) the absence of certain governmental restraints or prohibitions preventing completion of the DuPont Merger or the Dow Merger; (iii) the approval of the shares of DowDuPont Common Stock to be issued to DuPont stockholders and Dow stockholders for listing on the NYSE; (iv) the reasonable determination by DuPont and Dow that neither the DuPont Merger nor the Dow Merger will constitute an acquisition of a 50 percent or greater interest in Dow or DuPont, under Section 355(e) of the Code; (v) the truth and correctness of the representations and warranties made by both parties (generally subject to certain "materiality" and "material adverse effect" qualifiers); (vi) the performance by DuPont and Dow of their respective obligations under the Merger Agreement in all material respects; and (vii) the receipt by both parties of legal opinions from their respective tax counsels with respect to the tax-free nature of each of the Mergers.

These conditions to the closing may not be fulfilled and, accordingly, the Mergers may not be completed. In addition, if the Mergers are not completed by August 31, 2017, either DuPont or Dow may choose not to proceed with the Mergers, and the parties can mutually decide to terminate the Merger Agreement at any time prior to the consummation of the Mergers. In addition, DuPont or Dow may elect to terminate the Merger Agreement in certain other circumstances. If the Merger Agreement is terminated, Dow and DuPont may incur substantial fees in connection with termination of the Merger Agreement and will not recognize the anticipated benefits of the Mergers.

Table of Contents

Item 5. OTHER INFORMATION

In anticipation of and to facilitate the Intended Business Separations post the merger with Dow, DuPont is planning for the internal separation of the three businesses, both domestically and internationally, through a series of transactions that are intended to be tax-efficient from both a United States and foreign perspective (collectively, the DuPont Internal Separations). See Note 2 to the interim Consolidated Financial Statements for more information regarding the merger and the Intended Business Separations. The DuPont Internal Separations are currently expected to consist of two phases: (i) a series of internal transactions undertaken by DuPont to separate the businesses underneath DuPont including multiple distributions intended to qualify as tax-free spinoffs for United States tax purposes under Section 355 of the Internal Revenue Code, followed by (ii) internal distributions by DuPont, as a subsidiary of DowDuPont, to DowDuPont of entities owning collectively the businesses to be owned by the two intended independent companies as opposed to DuPont, which distributions are intended to qualify as tax-free spinoffs for United States tax purposes under Section 355 of the Internal Revenue Code. As part of the DuPont Internal Separations, through transactions that include distributions intended to qualify as tax-free spinoffs for United States tax purposes under Section 355 of the Internal Revenue Code, DuPont also currently expects to separate more fully the internal legal structure of its specialty products businesses (its electronics and communications business, its industrial biosciences business, its nutrition and health business, and its protection solutions business) so that each business is owned by a separate intermediate corporation owned, in turn, by DowDuPont.

The DuPont Internal Separations are expected to occur in the United States and in (or involving entities domiciled in) various jurisdictions, including (but not limited to) Australia, Brazil, Canada, China, Colombia, Hong Kong, India, Japan, Korea, Luxembourg, Mexico, Netherlands, Russia, Singapore, Spain, Switzerland, Taiwan, and Thailand. Following the completion of the DuPont Internal Separations, DuPont expects that DowDuPont will effectuate the Intended Business Separations, pending DowDuPont Board approval, by means of distributions to its public shareholders of the capital stock of two entities each owning businesses currently owned by DuPont, in distributions intended to qualify as tax-free spinoffs for United States tax purposes under Section 355 of the Internal Revenue Code.

The DuPont subsidiaries, or their successors, that are anticipated to be distributing corporations in the DuPont Internal Separations (each in one or more tax-free spinoffs for United States tax purposes under Section 355 of the Internal Revenue Code) include the following: New Asia Holdco B.V.; DuPont China Holding Company Limited; DuPont China, Ltd.; SP International Holding 4 BV; E.I. DuPont India Private Limited; DuPont Kabushiki Kaisha; DuPont Specialty Products KK; DuPont - Toray Company, Ltd; Du Pont Company (Singapore) Pte Ltd; DuPont Taiwan Ltd; DuPont International BV; DuPont Textiles & Interiors Delaware, Ltd; DuPont (Thailand) Co, Ltd; DuPont do Brasil S.A.; DuPont Holdco Spain III SL; DuPont de Colombia, S.A ; DuPont Mexicana, S de RL de CV; DuPont Corporaciones S de RL de CV; DuPont Latin America, Inc; DuPont Science and Technologies LLC ; DuPont Asturias, S.L.; DuPont de Nemours International S.a.r.l; DuPont Technology (Luxembourg) S.a.r.l; DPC (Luxembourg) S.a.r.l; DuPont Contern (Luxembourg) S.a.r.l; DuPont Acquisition (Luxembourg) S.a.r.l; DuPont Holding Netherlands BV; DuPont C.H. (f/k/a DuPont Korea Y.H.; SP Korea, LLC; DuPont Operations Inc; E&C EMEA Holding 2 BV; E&C International Holding; DuPont Chemical and Energy Operations, Inc; Danisco Holding USA Inc; E. I. du Pont de Nemours and Company; PM Diamond, Inc; 1811324 Ontario Limited, Hickory Holdings, Inc.; DuPont Asia Pacific, Inc., and Pioneer Hi-Bred International, Inc.
