The Company continues to refine its costing procedures for valuation of interim inventories in an effort to minimize book to physical inventory adjustments.

**NOTE 6 - LEASE COMMITMENTS**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

On April 14, 2005, the Company entered into a third extension of an existing lease agreement with a related party. The third extension extends the lease term for certain of the Company's leased facilities in Goshen, Indiana and Griffin, Georgia for an additional five years, with a new expiration date of July 2010. Monthly rental payments under the related party lease agreement \$54,108 and increase in July of each successive year by an escalator defined in the lease agreement. All other terms and conditions of the existing lease agreement remain unchanged.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

&nbsp;

**Results of Operations**

&nbsp;

Net sales for the three months ended June 25, 2005 increased \$4.5 million or 5.0% to \$95.2 million from \$90.7 million for the three months ended June 26, 2004. Net sales for the six months ended June 25, 2005 increased \$21.3 million or 13.0% to \$185.5 million from \$164.2 million for the six months ended June 26, 2004. The Company completed two large fleet contracts during the first half of 2005 resulting in a majority of the increase in net sales. The higher fleet sales were a combination of a larger quantity of unit shipments along with price increases implemented in response to the significant raw material cost escalation experienced throughout 2005.

Despite the additional revenues resulting from higher fleet sales and price increases, overhead remained relatively constant as a percentage of net sales for the three and six month periods. The Company has experienced significant escalating group health insurance claim costs during 2005, particularly during the second quarter. Group health insurance expense increased \$561 thousand and \$738 thousand for the three and six month periods in 2005 compared to the 2004 comparative periods. In addition, depreciation expense has increased \$171 thousand and \$328 thousand for the 2005 three and six month periods compared to the 2004 comparative periods as a result of the \$9.7 million of capital expenditures incurred since June 26, 2004.

&nbsp;

Delivery expenses remained relatively unchanged as a percentage of net sales despite higher fuel costs. These higher fuel costs were offset by the increased number of fleet units invoiced in the first six months of 2005. Such products are generally not delivered by the Company but are picked up by the customers.

&nbsp;

Selling, general and administrative expenses were 7.7% and 7.4% of net sales for the three and six months ended June 25, 2005 compared to 7.1% and 7.3% of net sales for the three and six months ended June 26, 2004. Selling expenses increased as a percentage of net sales primarily due to a reduction in cooperative marketing funds the Company received from chassis manufacturers in the first six months of 2005 versus the first six months of 2004. These funds, which are used to offset marketing and promotional expenses, were reduced by the chassis manufacturers due to their improving business conditions. Additionally, the Company experienced higher sales commission expense as a result of the additional revenues recorded in the first six months of 2005 compared to the first six months of 2004. General and administrative expenses increased primarily as a result of additional compensation expense related to the Company's incentive bonus plans which are based on pretax earnings.

&nbsp;

Interest expense for the three and six months ended June 25, 2005 was \$.6 million and \$1.1 million compared to \$.2 million and \$.4 million for the three and six months ended June 26, 2004. The increase in interest expense was attributable to higher levels of borrowings to finance working capital and capital expenditures, and the rise in short-term interest rates.

&nbsp;

The Company's effective income tax rate was 36.0% for the first six months of 2005 compared to 38.1% for the first six months of 2004. The decrease in the Company's effective tax rate is attributable to additional tax deductions allowed manufacturers by the 2004 American Jobs Creation Act and certain tax benefits resulting from the formation of a captive insurance company. The manufacturer's deduction will lower the Company's effective tax rate by approximately one percent. In late 2004, after a review of insurance risk management alternatives, the Company restructured certain of its legal entities and formed a wholly owned captive insurance company which resulted in a further reduction in the Company's effective tax rate.

&nbsp;

Results of Operations, Concluded

&nbsp;

Net income for the three and six months ended June 25, 2005 was \$2.9 million and \$6.0 million compared to \$1.9 million and \$2.9 million for the three and six months ended June 26, 2004. Basic earnings per share were \$.23 and \$.49 for the three and six months ended June 25, 2005 compared to \$.16 and \$.24 per share for the three and six

months ended June 26, 2004. Diluted earnings per share were \$.23 and \$.47 for the three and six months ended June 25, 2005 compared to \$.15 and \$.23 per share for the three and six months ended June 26, 2004

Liquidity and Capital Resources

&nbsp;

The Company's revolving line of credit, net income and depreciation were the major sources of cash flows during the six months ended June 25, 2005. As a result of the higher levels of trade accounts receivable and inventories related to two large fleet contracts there was extensive use of our revolving line of credit during the first quarter of 2005. These contracts were completed during the second quarter, resulting in a reduction in trade accounts receivable of \$9.0 million and a reduction in inventories of \$7.4 million from the amounts of the end of the first quarter. These cash resources, along with cash flow from operations, were utilized to reduce trade accounts payable by \$6.4 million and to reduce long-term debt obligations by \$14.4 million during the second quarter of 2005.

&nbsp;

Capital expenditures for the six months ended June 25, 2005 were \$2.9 million. During the second quarter the Company completed the construction of an additional manufacturing facility at its Griffin, Georgia location and expended \$1.4 million on this building project during the first six months. Our Jonestown, Pennsylvania location expended \$.5 million in capital expenditures to continue improving operations at its recently acquired manufacturing plant adjacent to our other facilities. We expect our 2005 capital expenditures to approximate our 2005 depreciation expense of \$4.0 million.

&nbsp;

The Company believes that cash flow generated from operations and funds available under the Company's revolving line of credit will be sufficient to meet the Company's cash needs during the next twelve months.

Critical Accounting Policies and Estimates

&nbsp;

Management's discussion and analysis of its financial position and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The Company's significant accounting policies are discussed in Note 1 of the Notes to Consolidated Financial Statements included in the Annual Report on Form 10-K for the year ended December 25, 2004. In management's opinion, the Company's critical accounting policies include allowance for doubtful accounts, and obsolete inventories, inventory relief, accrued insurance and accrued warranty.

&nbsp;

**Allowance for Doubtful Accounts** - The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. If the financial condition of customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required which would affect future operating results.

&nbsp;

**Excess and Obsolete Inventories** - The Company must make estimates regarding the future use of products and provides a provision for obsolete or slow-moving inventories. If actual product life-cycles, product demand or market conditions are less favorable than those projected by management, additional inventory write-downs may be required which would affect future operating results.

&nbsp;

**Inventory Relief** - For monthly and quarterly financial reporting, cost of sales is recorded and inventories are relieved by the use of standard bills of material. Because of the customized nature of the Company's products, it is difficult to place full reliance on the use of bills of material for accurate relief of inventories. Although the Company continues to refine the process of creating accurate bills of material, manual adjustments, which are based on estimates, are necessary to assure correct relief of inventories for products. The estimate calculations consider the customized nature of products, historical inventory relief percentages, scrap variances and other factors which could impact inventory relief. The accuracy of the inventory relief is not known until the annual physical inventories are completed and it is not practical to consider more frequent physical inventories because of the sales order backlog and the costs associated with ceasing production for the purpose of conducting physical inventories. If the annual physical inventories result in significant favorable or unfavorable adjustments, such adjustments will affect future operating results.

&nbsp;

Accrued Insurance - The Company has a self-insured retention against product liability claims with insurance coverage over and above the retention. The Company is also self-insured for a portion of its employee medical benefits and workers' compensation. Product liability claims are routinely reviewed by the Company's insurance carrier and management routinely reviews other self-insurance risks for purposes of establishing ultimate loss estimates. In addition, management must determine estimated liabilities for claims incurred but not reported. Such estimates and any subsequent changes in estimates may result in adjustments to the Company's operating results in the future.

&nbsp;

Critical Accounting Policies and Estimates, Concluded

&nbsp;

Accrued Warranty - The Company provides limited warranties for periods of up to five years from the date of retail sales. Estimated warranty costs are provided for at the time of sale and are based upon historical experience.

Forward-Looking Statements

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

This report contains forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995), which are not historical facts, which reflect the view of the Company's management with respect to future events. When used in this report, words such as "believe," "expect," "anticipate," "estimate," "intend," and similar expressions, as they relate to the Company or its plans or operations, identify forward-looking statements. Such forward-looking statements are based on assumptions made by management based on information currently available to the Company's management. Although management believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations are reasonable, and it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from such expectations include, without limitation, limitations on the availability of chassis on which the Company's product is dependent, availability of raw materials, raw material cost increases, and severe interest rate increases. Furthermore, the Company can provide no assurance that such raw material cost increases can be passed on to its customers through implementation of price increases for the Company's products. The forward-looking statements contained herein reflect the current views of the Company's management with respect to future events and are subject to those factors and other risks, uncertainties and assumptions relating to the operations, results of operations, cash flows and financial position of the Company. The Company assumes no obligation to update the forward-looking statements or to update the reasons actual results could differ from those contemplated by such forward-looking statements.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;  
&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Issues and Uncertainties

&nbsp;

Business and Economic Cycles - The broad spectrum of industries that create demand for our products makes our business particularly sensitive to general economic conditions, including corporate profitability, interest rates, fuel costs, and consumer preference and spending patterns. Because of the replacement-nature of our products, an economic downturn could cause our customers to delay purchase of our products and adversely affect our ability to remain profitable.

&nbsp;

Suppliers of Key Materials - We require substantial amounts of raw materials which we purchase from third party suppliers. Raw materials (such as steel, aluminum and wood products) may not be available to us or we may be required to pay more for raw materials because of, among other things, new laws or regulations, our suppliers' commitments to other purchasers, interruption of production by suppliers, or general price fluctuations.

&nbsp;

Delivery of Truck Chassis - We mount our truck bodies on truck chassis delivered from truck chassis manufacturers. If truck chassis manufacturers experience disruptions in their businesses, we may be unable to sell or deliver our products. Work stoppages or slowdowns experienced by the large truck manufacturers that supply truck chassis could result in delays or slowdowns in our ability to deliver products to our customers. As a result, our sales and operating cash flows could be adversely affected.

Issues and Uncertainties, Concluded

&nbsp;

Environmental, Health, and Safety Liabilities - Our operations are subject to a variety of federal, state and local environmental, health and safety statutes and regulations, including those relating to emissions to the air, discharges to water, treatment, storage, and disposal of waste and remediation of contaminated sites. In certain cases, these requirements may limit the productive capacity of our operations. Certain laws, including the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, impose strict, and under certain circumstances, joint and several, liability for costs to remediate contaminated sites upon designated responsible parties, including site owners or operators and persons who dispose of waste at, or transport waste from, such sites. The Company is unaware of any unrecorded liabilities in the areas of environmental, health and safety risks and is not a party to any remediation of contaminated sites.

&nbsp;

Loss of Key Management - Our ability to compete successfully and implement our business strategy depends on the efforts of our senior management personnel. The loss of the services of any of these individuals could have a material adverse affect on our business. If we were unable to attract qualified personnel to our management, our existing management resources may become strained, which would harm our business and our ability to implement our strategies.

&nbsp;

Competition - Our products are produced by many companies including several with a national presence but most of which compete on a regional basis. We experience aggressive pricing practices from our national and regional competitors which can have an adverse affect on both revenues and earnings. To date chassis manufacturers have chosen not to manufacture specialized vehicles because of the wide variety of options and equipment which are not efficiently produced on highly automated assembly line operations. Though there is no indication to date, there is no assurance that this policy will not be modified.

**Employment Contract**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

**Supreme Corporation**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

**(Robert W. Wilson)**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

This Contract is entered into between **Supreme Corporation**, a Texas corporation (hereafter called "*Company*"), and **Robert**

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

Company is engaged in the business of manufacturing and selling specialized truck bodies. Company desires to retain the serv  
Employee is willing and able to perform in that capacity.

&nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp; &nbsp;

a. **Medical Benefits.** Employee and his dependent family members shall be covered under the same group hospitalization, accident and sickness insurance policy maintained by Company for its executive officers; provided, however, that (i) Employee shall pay the same portion of the cost of such insurance as is paid by the executive officers generally, and (ii) Employee shall apply for and elect to participate in Medicare parts A and B, at his own expense, as provided in the Medicare regulations.

b. **Insurance.** As reimbursement for insurance owned by Employee (and/or his wife), Company shall pay to Employee, each year, the amount of any premiums paid on insurance of any kind covering Employee or "last to die" insurance covering the lives of Employee and his dependent family members.

In addition to the Reimbursement Amount, Company shall also pay to Employee, each year, such amount which, after taking into account the "deemed income" (such "deemed income" in no event to exceed \$30,000) to Employee (for the Reimbursement Amount and the amount of such additional taxes (the "Gross-Up Amount"). In making the determination of the Gross-Up Amount, the following formula shall apply: Employee's marginal tax bracket + .014 [Medicare] + Employee's marginal tax bracket for state income taxes, if any, + city taxes, if any. For example, assuming that: (i) the annual premium is \$30,000.00 (Reimbursement Amount = \$30,000); (ii) Employee is in the 35% federal income tax bracket; (iii) the Reimbursement Amount is not subject to social security taxes; (iv) Employee is in the 10% state income tax bracket; and (v) the Reimbursement Amount is \$30,000, the Gross-Up Amount would be:  $\$30,000 / (.35 + .014 + .1)$  minus  $\$30,000 = \$25,970.15$ .

c. **Dental Benefits.** Company shall pay or reimburse Employee for all family dental expenses up to a maximum of \$5,000 per year.

d. **Paid Vacation.** Each calendar year (or proportion thereof), Employee may take a vacation of four (4) weeks during which time he shall be paid his regular rate of pay.

e. **Automobile.** Company shall provide an automobile for Employee's use in connection with the services to be rendered by Employee. Company shall reimburse Employee for maintenance and repair expenses of the automobile upon submission of vouchers or itemized lists of expenses in accordance with Company's policy. For so long as Company owns (or leases) the automobile, Company shall insure the automobile with the same insurance coverage provided for executive officers of Company. Company agrees that Employee shall be designated as an additional insured on a personal automobile liability insurance coverage. In the event the automobile is damaged or destroyed by reason of accident, theft, vandalism, or otherwise, Company shall reimburse Employee for any such loss or damage (including out-of-pocket deductibles); and

f. **Other Benefits.** No provision of this Contract shall preclude Employee from participating in any fringe benefit plan now in effect or hereafter established by Company. Company shall be under no obligation to provide for his participation in, or to institute, any such plan or to make any contribution to any such plan, if such plans are provided to all Company employees as a group, or to all of Company's senior officers as a group.

6. **Business Expenses.** Employee may incur reasonable expenses, as determined by Company's Chairman of the Board, in connection with his duties, including expenses for entertainment, travel, and similar items. Company agrees to reimburse Employee for all such reasonable expenses from time to time as required by Company, of an itemized account of such expenditures; provided, however, Employee shall not be reimbursed for any expense not permitted by the Internal Revenue Code of 1986, as amended, without prior written approval from the Chairman of the Board.

7. **Key-Man Insurance.** Company may, at any time during the term of this Contract, apply for and procure as owner, and for its benefit, key-man life insurance policies in such amounts and in such forms as Company may select. Employee hereby acknowledges the fact that he will have no interest in such policies. However, Employee agrees that he shall, at Company's request, submit to such medical examinations, supply such information as may be required by the insuring companies.
