For the year ended December 31, 2007, Data I/O reported revenues of \$26.8 million, a 7 percent decrease from revenues of \$28.8 million in 2006. Gross margins as a percentage of sales in 2007 were 56.1 percent, compared with 53.8 percent in the prior year. This gross margin percentage improvement was primarily due to savings from restructuring actions and favorable product price and mix changes between the two periods. The company's cash position improved by over \$5 million at December 31, 2007 at \$7.6 million compared to \$2.5 million at December 31, 2006.

During the fourth quarter, we again experienced large orders from automotive customers as well as strong wireless customer business, said Fred Hume, president and CEO. We were very pleased to announce and ship our new Flash Media Duplication system during the quarter. This system is based upon our FLX-500 platform.

We are pleased that our restructuring actions taken in the first half of 2007 were successful in adjusting the expense structure to increase profitability as demonstrated by our third and fourth quarter's results, said Hume.
