Item 1.01 Entry into a Material Definitive Agreement

### **Completed Sale of selected patents and patent applications**

Data I/O Corporation announced today that it has completed on March 18, 2008 the sale of selected patents and patent applications to Leannoux Properties AG L.L.C. for net proceeds of approximately \$3.3M and expects to report a net gain of approximately \$2.1M. The patents and patent applications sold related primarily to technology used in Data I/O Corporation's ProLINE-RoadRunner product line. Data I/O retains a non-exclusive, royalty-free license to use the technology covered by these patents and applications. Additional payments are due to Data I/O Corporation upon license or transfer of the proposed patents and patent applications to certain third parties. However Data I/O Corporation does not currently anticipate receiving any such payments.

The Patent Purchase Agreement, as amended, includes customary representations and warranties for a transaction of this nature, including, without limitation, representations and warranties regarding authority, title and validity.

The foregoing description of the Patent Purchase Agreement is qualified in its entirety by reference to the Patent Purchase Agreement, as amended, attached hereto as Exhibits 2.1 and 2.2, and incorporated herein by reference. A copy of the press release issued by the Company announcing the transaction was previously furnished in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on November 20, 2007. Most of the patents sold relate to technology that the company has been practicing for a number of years. The sale does not include technology related to the firm's most recent development programs.

Regarding the transaction, Fred Hume, President and CEO of Data I/O Corporation said, "This transaction delivers a substantial financial benefit to our shareholders. It monetizes the value of these patents, avoids future annual maintenance and patent defense expenses, and allows Data I/O royalty-free use of these patents."

The party to the agreement, Leannoux Properties AG L.L.C., is an unrelated party with no other material relationship to Data I/O Corporation.

identified on *Exhibit D* (the *Initial Deliverables* ). Seller acknowledges and agrees that Purchaser may request, and Seller will promptly deliver to Purchaser or its legal counsel, as directed by Purchaser, additional documents based on Purchaser's review of the Initial Deliverables (such additional documents and the Initial Deliverables are, collectively, the *Deliverables* ), and that as a result of Purchaser's review, the lists of Live Assets on *Exhibits A and B* and the list of Abandoned Assets on *Exhibit C*, may be revised by Purchaser both before and after the Closing to conform these lists to the definition of Patents (and these revisions may therefore require the inclusion of additional provisional patent applications, patent applications, and patents on *Exhibit A and B or Exhibit C*). To the extent any of the Live Assets are removed for any reason, the payment in paragraph 3.4 may be reduced by mutual agreement of the parties. If originals of the Deliverables are not available and delivered to Purchaser prior to Closing, Seller will cause (i) such originals of the Deliverables to be sent to Purchaser or Purchaser's representative promptly if and after such originals are located and (ii) Seller will deliver to Purchaser a declaration, executed under penalty of perjury, detailing Seller's efforts to locate such unavailable original documents and details regarding how delivered copies were obtained.

3.1B Conception and Reduction to Practice Materials. Seller's duty to search for conception and reduction to practice materials related to the Patents among Seller's documents stored in off-site document storage facilities will be limited to reasonable efforts to conduct such searches; provided that (i) the foregoing limitation will apply solely to searches for conception and reduction to practice materials related to the Patents among Seller's documents stored in off-site document storage facilities and will not apply to any other types of materials or documents related to the Patents regardless where located or to any documents on Seller's premises, (ii) Purchaser will promptly provide Purchaser any located conception and reduction to practice materials related to the Patents, and (iii) at any time upon Purchaser's reasonable written request Seller will promptly use its best efforts to search among Seller's documents stored in off-site document storage facilities for conception and reduction to practice materials related to the Patents and provide Purchaser any such materials found.

3.2 Closing. The closing of the sale of the Assigned Patent Rights and the assignment of the Abandoned Assets hereunder will occur when all conditions set forth in paragraphs 3.3A and 3.3B have been satisfied or waived (the *Closing* ). Purchaser and Seller will use reasonable efforts to carry out the Closing within seventy-five (75) calendar days following the later of the Effective Date or the date on which the last of the Deliverables was received by Purchaser.

3.3A Purchaser's Closing Conditions. The following are conditions precedent to Purchaser's obligation to make the payment in paragraph 3.4.

### 4. TRANSFER OF PATENTS AND ADDITIONAL RIGHTS

4.1 Assignment of Patents. Upon the Closing and payment of the amounts in paragraph 3.4, Seller hereby sells, assigns, transfers, and conveys to Purchaser all right, title, and interest in and to the Assigned Patent Rights. Seller understands and acknowledges that, if any of the Patents are assigned to Seller's affiliates or subsidiaries, Seller may be required prior to the Closing to perform certain actions to establish that Seller is the assignee and to record such assignments. On or before Closing, Seller will execute and deliver to Purchaser the Assignment of Patent Rights in the form set forth in *Exhibit B* (as may be updated based on Purchaser's review pursuant to paragraph 3.1).

4.2 Assignment of Additional Rights. Upon the Closing and payment of the amounts in paragraph 3.4, Seller hereby also sells, assigns, transfers, and conveys to Purchaser all right, title and interest in and to all

(a) Seller's inventions, invention disclosures, and discoveries described in any of the Patents;

(b) rights to apply in any or all countries of the world for patents, certificates of invention, utility models (excluding industrial design protection and design patent protection) or other governmental grants or issuances of any type related to any of the Patents and the inventions, invention disclosures, and discoveries therein;

(c) causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, any of the Patents and/or the rights described in subparagraph 4.2(b), including, without limitation, all causes of action and other enforcement rights for (i) damages, (ii) injunctive relief, and (iii) any other remedies of any kind for past, current and future infringement; and

(d) rights to collect royalties or other payments under or on account of any of the Patents and/or any of the foregoing.

4.2B Seller's transfer under subparagraph 4.2(a) does not include any know-how or show-how of Seller that is not described in any of the Patents. The foregoing sentence controls any conflicting language in the Executed Assignments.

4.3 Assignment of Rights in Certain Assets. Upon the Closing and payment of the amounts in paragraph 3.4, Seller hereby sells, assigns, transfers, and conveys to Purchaser all Seller's right, title, and interest in and to the Abandoned Assets. 4.4 License Back to Seller under Patents. Upon the Closing, Purchaser hereby grants to Seller and its Affiliates a royalty-free, non-exclusive, non-sublicensable

license under the Patents and the Abandoned Assets pursuant to the terms and conditions and subject to the limitations on and permitted transferability as set forth in *Exhibit F*.

## 5. ADDITIONAL OBLIGATIONS

5.1 Further Cooperation. At the reasonable request of Purchaser, Seller will execute and deliver such other instruments and do and perform such other acts and things as may be necessary or desirable for effecting completely the consummation of the transactions contemplated hereby, including, without limitation, execution, acknowledgment, and recordation of other such papers, and using commercially reasonable efforts to obtain the same from the respective inventors, as necessary or desirable for fully perfecting and conveying unto Purchaser the benefit of the transactions contemplated hereby. To the extent any attorney-client privilege or the attorney work-product doctrine applies to any portion of the Prosecution History Files, Seller will ensure that, if any such portion of the Prosecution History File remains under Seller's possession or control after Closing, it is not disclosed to any third party unless (a) disclosure is ordered by a court of competent jurisdiction, after all appropriate appeals to prevent disclosure have been exhausted, and (b) Seller gave Purchaser prompt notice upon learning that any third party sought or intended to seek a court order requiring the disclosure of any such portion of the Prosecution History File. In addition, Seller will continue to prosecute, maintain, and defend the Patents at its sole expense until the Closing.

5.2 Payment of Fees. Seller will pay any maintenance fees, annuities, and the like due or payable on the Patents until the Closing. For the avoidance of doubt, Seller shall pay any maintenance fees for which the fee is payable (e.g., the current fee payment window opens (excluding any additional maintenance fees that could be paid in advance for the Patents)) on or prior to the Closing even if the surcharge date or final deadline for payment of such fee would be after the Closing. Seller hereby gives Purchaser power-of-attorney to (a) execute documents in the name of Seller in order to effectuate the recordation of the transfers of any portion of the Patents in an governmental filing office in the world and (b) instruct legal counsel to take steps to pay maintenance fees and annuities that Seller declines to pay and to make filings on behalf of Seller prior to Closing and otherwise preserve the assets through Closing.

5.3 Foreign Assignments. To the extent the Patents include non-United States patents and patent applications, Seller will deliver to Purchaser's representatives a list of Seller's foreign Patent counsel and contact information so that Purchaser may obtain documents in a form as may be required in the non-U.S jurisdiction in order to perfect the assignment to Purchaser of the non-U.S. patents and patent applications.
