Interest on the Notes for the period from and including August 11, 2011 to but excluding the Maturity Date (the "Floating Rate Period") will be payable in U.S. Dollars quarterly, in arrears, on each February 11, May 11, August 11 and November 11, beginning November 11, 2011 (each a "Floating Rate Interest Payment Date"); provided that, if any such day falls on a day that is not a Business Day, it will be postponed to the following Business Day and interest thereon will not continue to accrue, except that if such following Business Day would fall in the next calendar month, the Interest Payment Date will be the immediately preceding Business Day. Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

|  | <u>Year Ended December 31,</u> |             |             |             |             | <u>Three<br/>Months<br/>Ended</u> |

|  | <u>2005</u>                    | <u>2006</u> | <u>2007</u> | <u>2008</u> | <u>2009</u> | <u>March 31,<br/>2010</u>         |
|  | 1.66                           | 1.63        | 1.56        | 1.24        | 0.85        | 0.98                              |

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, noncontrolling interests, discontinued operations and undistributed earnings of equity investees.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which we believe is a reasonable approximation of the interest factor of such rentals.

As set forth above, GE Capitals ratio of earnings to fixed charges increased to 0.98:1 in the first three months of 2010 due to higher pre-tax earnings at GECC, which were primarily driven by lower losses and delinquencies. As of March 31, 2010, the amount of earnings needed to achieve a one-to-one ratio of earnings to fixed charges was \$91 million.
