## **Item 2.02 Results of Operations and Financial Condition**

On February 8, 2010, we announced our financial results for the fiscal quarter and fiscal year ended December 27, 2009, and certain other financial information. The press release, which has been furnished as Exhibit 99.2, discloses a financial measure, Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), that is considered a non-GAAP financial measure as defined under SEC rules. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Management believes that EBITDA is one of the appropriate measures for evaluating our operating performance, because it reflects the resources available for strategic opportunities including, among others, to invest in the business, strengthen the balance sheet and make strategic acquisitions. However, this measure should be considered in addition to, and not as a substitute for, or superior to, net earnings or other measures of financial performance prepared in accordance with generally accepted accounting principles as more fully discussed in our financial statements and filings with the SEC. The EBITDA measures included in our press release have been reconciled to the most directly comparable GAAP measures as is required under SEC rules regarding the use of non-GAAP financial measures.

This press release also includes our Consolidated and International segment net revenues excluding the impact of exchange rate changes. Management believes that the presentation of the Consolidated and International segment net revenues minus the impact of exchange rate changes provides information that is helpful to an investor's understanding of the segment's underlying business performance absent exchange rate fluctuations which are beyond the Company's control.

As used herein, "GAAP" refers to accounting principles generally accepted in the United States of America.

## **Item 8.01 Other Events**
