Item 2.02 Results of Operations and Financial Condition.

On October 19, 2005, Modine Manufacturing Company (“Modine”) issued a press release reporting its financial results for the quarter ended September 26, 2005. A copy of the press release was attached as an exhibit to Modine’s Form 8-K furnished on October 20, 2005 (the “Initial Form 8-K”). In the Initial Form 8-K, Modine’s press release reported a non-cash charge to discontinued operations as a result of the spin off of the Aftermarket business of \$50.8 million.

On November 7, 2005, Modine is issuing a revised press release to report (1) that it recorded a charge to discontinued operations in the second quarter of fiscal 2006 of \$54.1 million as a result of the spin off of the Aftermarket business. This charge to discontinued operations was comprised of \$53.6 million in non-cash charges and \$0.5 million in unreimbursed expenses incurred as part of the transaction. Financial statements were included with the revised press release, incorporating the effect of the \$54.1 million change on net earnings, earnings per share and comprehensive earnings. Certain other minor offsetting reclassifications have been made within the earnings from continuing operations portion of the earnings statement and within the operating activities portion of the statement of cashflows. These reclassifications had no effect on the earnings from continuing operations or on the cashflows provided by operating activities as reported on the earlier press release

This amendment is being furnished solely to include the revised press release updating the items referenced above. A copy of the revised press release is being attached as Exhibit 99 to this Current Report on Form 8-K/A, which is being furnished, but not filed, pursuant to Item 2.02 of this Current Report on Form 8-K/A.

Item 9.01 Financial Statements and Exhibits.
