For the quarterly period ended September 30, 2013

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 1-11373

Cardinal Health, Inc.

(Exact name of registrant as specified in its charter)

Ohio

(State or other jurisdiction of
incorporation or organization)

31-0958666

(IRS Employer
Identification No.)

7000 Cardinal Place, Dublin, Ohio

(Address of principal executive offices)

43017

(Zip Code)

(614) 757-5000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller
reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

The number of the registrant's common shares, without par value, outstanding as of October 31, 2013, was the following: 341,476,573.

Notes to Condensed Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Basis of Presentation

Our condensed consolidated financial statements include the accounts of all majority-owned and controlled subsidiaries, and all significant intercompany transactions and amounts have been eliminated. References to "we," "our" and similar pronouns in this Quarterly Report on Form 10-Q refer to Cardinal Health, Inc. and its majority-owned and controlled subsidiaries unless the context requires otherwise. The results of businesses acquired or disposed of are included in the condensed consolidated financial statements from the effective date of the acquisition or up to the date of disposal, respectively.

Our condensed consolidated financial statements have been prepared in accordance with the U.S. Securities and Exchange Commission ("SEC") instructions to Quarterly Reports on Form 10-Q and include all of the information and disclosures required by accounting principles generally accepted in the United States ("GAAP") for interim financial reporting. The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect amounts reported in the condensed consolidated financial statements and accompanying notes. Actual amounts may differ from these estimated amounts. In addition, operating results presented for this fiscal 2014 interim period are not necessarily indicative of the results that may be expected for the full fiscal year ending June 30, 2014.

These condensed consolidated financial statements are unaudited and are presented pursuant to the rules and regulations of the SEC. Accordingly, the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q for the quarter ended September 30, 2013 (this "Form 10-Q") should be read in conjunction with the audited consolidated financial statements and related notes contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2013 (the "2013 Form 10-K"). In our opinion, all adjustments necessary for a fair presentation of the condensed consolidated financial statements have been included. Except as disclosed elsewhere in this Form 10-Q, all such adjustments are of a normal and recurring nature.

Recent Financial Accounting Standards

In February 2013, the Financial Accounting Standards Board ("FASB") issued amended accounting guidance related to reclassifications out of accumulated other comprehensive income ("AOCI"). An entity is required to present, either parenthetically on the face of the statement where net income is presented or in the notes, the significant amounts, by component, reclassified out of AOCI by the respective line items of net income and to report changes in its AOCI balances by component. We adopted this amended guidance on a prospective basis in the first quarter of fiscal 2014 and have elected to report reclassifications out of AOCI in Note 8 in this Form 10-Q. The adoption of this guidance did not impact our financial position or results of operations.

In January 2013, the FASB issued updated guidance to limit the scope of the balance sheet offsetting disclosures to derivatives, repurchase agreements and securities lending transactions to the extent they are offset in the financial statements or subject to an enforceable master netting arrangement or similar arrangement. We adopted this amended guidance on a retrospective basis in the first quarter of fiscal 2014. The adoption of this guidance did not impact our financial position or results of operations. See Note 7 for additional information.

In July 2012, the FASB issued amended accounting guidance related to testing indefinite-lived intangible assets for impairment. Under this guidance, a company is no longer required to calculate the fair value of an indefinite-lived intangible asset unless the company determines, based on a qualitative assessment, that it is more likely than not that its estimated fair value is less than its carrying amount. We adopted this amended guidance in the first quarter of fiscal 2014. The adoption of this guidance did not impact our financial position or results of operations.

2. Acquisitions

While we have completed acquisitions during the three months ended September 30, 2013, the pro forma results of operations and the results of operations for acquisitions since the acquisition date have not been separately disclosed because the effects were not significant enough compared to the consolidated financial statements, individually or in

the aggregate.

AssuraMed

On March 18, 2013, we completed the acquisition of AssuraMed, Inc. ("AssuraMed") for \$2.07 billion, net of cash acquired, in an all-cash transaction. The acquisition of AssuraMed, a provider of medical supplies to homecare providers and patients in the home, expands our ability to serve this patient base. The assessment of fair value is preliminary and is based on information that was available at the time the condensed consolidated financial statements were prepared.

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date for AssuraMed:

(in millions)	Amount	
Identifiable intangible assets	\$627	
Cash and equivalents	25	
Trade receivables	118	
Inventories	70	
Prepaid expenses and other	88	
Property and equipment	40	
Accounts payable	(71))
Other accrued liabilities	(24))
Deferred income taxes and other liabilities	(180))
Total identifiable net assets acquired	693	
Goodwill	1,402	
Total net assets acquired	\$2,095	

3. Restructuring and Employee Severance

The following table summarizes restructuring and employee severance costs relating to our restructuring activities:

	Three Months Ended September 30	
(in millions)	2013 (3)	2012
Employee-related costs (1)	\$4	\$5
Facility exit and other costs (2)	7	—
Total restructuring and employee severance	\$11	\$5

(1) Employee-related costs primarily consist of termination benefits provided to employees who have been involuntarily terminated and duplicate payroll costs during transition periods.

Facility exit and other costs primarily consist of lease termination costs, accelerated depreciation, equipment relocation costs, project consulting fees and costs associated with restructuring our delivery of information technology infrastructure services.

Table of Contents

Cardinal Health, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (continued)

(3) Includes \$1 million of employee-related costs and \$5 million of facility exit and other costs related to the restructuring within our Medical segment described further below.

On January 30, 2013, we announced a restructuring plan within our Medical segment. Under this restructuring plan, among other things, we are moving production of procedure kits from our facility in Waukegan, Illinois to other facilities and selling property and consolidating office space in Waukegan, Illinois.

At this time, we estimate the total costs associated with this restructuring plan to be approximately \$79 million on a pre-tax basis, of which \$51 million was recognized in fiscal 2013 and \$6 million was recognized during the three months ended September 30, 2013. Of the estimated \$22 million remaining costs to be recognized through the end of fiscal 2014, approximately \$8 million will be facility exit and other costs and \$14 million will be an expected loss on disposal of the property in Waukegan, Illinois described above. We have evaluated this property and have determined that at September 30, 2013 it does not meet the criteria for classification as held for sale.

The following table summarizes activity related to liabilities associated with restructuring and employee severance:

(in millions)	Employee-Related Costs	Facility Exit and Other Costs	Total
Balance at June 30, 2013	\$55	\$2	\$57
Additions	7	—	7
Payments and other adjustments	(15)	(1)	(16)
Balance at September 30, 2013	\$47	\$1	\$48

4. Goodwill and Other Intangible Assets

Goodwill

The following table summarizes the changes in the carrying amount of goodwill, by segment and in total:

(in millions)	Pharmaceutical	Medical	Total
Balance at June 30, 2013	\$2,094	\$2,507	\$4,601
Goodwill acquired, net of purchase price adjustments	4	8	12
Foreign currency translation adjustments and other	3	3	6
Balance at September 30, 2013	\$2,101	\$2,518	\$4,619

Other Intangible Assets

Other intangible assets are amortized over periods ranging from one to twenty years. The following tables summarize other intangible assets by class at:

(in millions)	September 30, 2013		
	Gross Intangible	Accumulated Amortization	Net Intangible
Indefinite-life intangibles:			
Trademarks and other	\$11	\$—	\$11
Total indefinite-life intangibles	11	—	11
Definite-life intangibles:			
Customer relationships	989	270	719
Trademarks, trade names and patents	213	55	158
Non-compete agreements	15	11	4
Other	115	56	59
Total definite-life intangibles	1,332	392	940
Total other intangible assets	\$1,343	\$392	\$951
June 30, 2013			
(in millions)	Gross Intangible	Accumulated Amortization	Net Intangible

Edgar Filing: CARDINAL HEALTH INC - Form 10-Q

Indefinite-life intangibles:

Trademarks and other	\$ 11	\$—	\$ 11
Total indefinite-life intangibles	11	—	11

Definite-life intangibles:

Customer relationships	982	230	752
Trademarks, trade names and patents	209	49	160
Non-compete agreements	15	10	5
Other	101	56	45
Total definite-life intangibles	1,307	345	962
Total other intangible assets	\$ 1,318	\$ 345	\$ 973

Total amortization of intangible assets for the three months ended September 30, 2013 and 2012 was \$46 million and \$21 million, respectively. Estimated annual amortization of intangible assets for the remainder of fiscal 2014 through 2018 is as follows: \$136 million, \$154 million, \$140 million, \$128 million and \$94 million.

Table of Contents

Cardinal Health, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (continued)

5. Income Taxes

Fluctuations in our provision for income taxes as a percentage of pretax earnings ("effective tax rate") are due to changes in international and U.S. state effective tax rates and discrete items.

During the three months ended September 30, 2013, the effective tax rate of 23.2 percent was impacted by net favorable discrete items of \$61 million, which reduced the rate by 13.7 percentage points. The discrete items include the favorable impact of the settlement of federal and state tax controversies (\$63 million).

During the three months ended September 30, 2012, the effective tax rate of 38.1 percent was impacted by net unfavorable discrete items of \$4 million, which increased the rate by 1.0 percentage point. The discrete items include unfavorable amounts related to remeasurement of certain unrecognized tax benefits.

We had \$452 million and \$650 million of unrecognized tax benefits at September 30, 2013 and June 30, 2013, respectively. The September 30, 2013 and June 30, 2013 balances include \$281 million and \$371 million, respectively, of unrecognized tax benefits that, if recognized, would have an impact on the effective tax rate. The remaining unrecognized tax benefits relate to tax positions for which ultimate deductibility is highly certain but for which there is uncertainty as to the timing of such deductibility. Recognition of these tax benefits would not affect our effective tax rate. We include the full amount of unrecognized tax benefits in deferred income taxes and other liabilities in the condensed consolidated balance sheets.

We recognize accrued interest and penalties related to unrecognized tax benefits in the provision for income taxes. At September 30, 2013 and June 30, 2013 we had \$131 million and \$198 million, respectively, accrued for the payment of interest and penalties. These balances are gross amounts before any tax benefits and are included in deferred income taxes and other liabilities in the condensed consolidated balance sheets.

It is reasonably possible that there could be a change in the amount of unrecognized tax benefits within the next 12 months due to activities of the U.S. Internal Revenue Service ("IRS") or other taxing authorities, including proposed assessments of additional tax, possible settlement of audit issues, reassessment of existing unrecognized tax benefits or the expiration of applicable statutes of limitations. We estimate that the range of the possible change in unrecognized tax benefits within the next 12 months is a decrease of approximately \$20 million to an increase of approximately \$5 million, exclusive of penalties and interest.

We file income tax returns in the U.S. federal jurisdiction, various U.S. state jurisdictions and various foreign jurisdictions. We are generally subject to audit by taxing authorities for fiscal years 2003 through the current fiscal year.

During the three months ended September 30, 2013, the IRS closed audits of fiscal years 2003 through 2005. The IRS is currently conducting audits of fiscal years 2006 through 2010, and our transfer pricing arrangements continue to be under consideration as part of these audits. While the IRS has made and could make proposed adjustments to our transfer pricing arrangements, or other matters, we are defending our reported tax positions, and have accounted for the unrecognized tax benefits associated with our tax positions.

We are a party to a tax matters agreement with CareFusion Corporation ("CareFusion"), under which CareFusion is obligated to indemnify us for certain tax exposures and transaction taxes prior to our fiscal 2010 spin-off of CareFusion. The indemnification receivable was \$171 million and \$186 million at September 30, 2013 and June 30, 2013, respectively, and is included in other assets in the condensed consolidated balance sheets.

6. Contingent Liabilities and Litigation**Legal Proceedings**

We become involved from time to time in disputes, litigation and regulatory matters incidental to our business, including governmental investigations and enforcement actions, personal injury claims, employment matters, commercial disputes, intellectual property matters, government contract compliance matters, disputes regarding environmental clean-up costs, litigation in connection with acquisitions and divestitures, and other matters arising out of the normal conduct of our business. We intend to vigorously defend ourselves in such litigation.

We may be named from time to time in qui tam actions, which are cases initiated by private parties purporting to act on behalf of federal or state governments that allege that false claims have been submitted or have been caused to be submitted for payment by the government. After a qui tam action has been filed, the government must investigate and determine whether to intervene in the matter. These actions may remain under seal while the government makes this determination.

In addition, we occasionally may suspect that products we manufacture, market or distribute do not meet product specifications, published standards or regulatory requirements. In such circumstances, we investigate and take appropriate corrective action. Such actions can lead to product recalls, costs to repair or replace affected products, temporary interruptions in product sales and action by regulators.

We accrue for contingencies related to disputes, litigation and regulatory matters if it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Because litigation is inherently unpredictable and unfavorable developments or resolutions can occur, assessing contingencies is highly subjective and requires judgments about future events. We regularly review contingencies to determine whether our accruals and related disclosures are adequate. The amount of ultimate loss may differ from these estimates.

We are unable to estimate a range of reasonably possible loss for matters described below, since damages or fines have not been specified and the proceedings are in early stages with significant uncertainty as to factual issues. We do not believe, based on currently available information, that the outcomes of these matters will have a material adverse effect on our financial condition, though the outcomes could be material to our results of operations for a particular period.

We recognize income from the favorable outcome of litigation when we receive the associated cash or assets.

We recognize estimated loss contingencies for litigation and regulatory matters and income from favorable resolution of litigation in litigation (recoveries)/charges, net in our condensed consolidated statements of earnings.

Cardinal Health, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (continued)

Lakeland, Florida Distribution Center DEA Investigation and Related Matters

In February 2012, the U.S. Drug Enforcement Administration (the "DEA") issued an order to show cause and immediate suspension of our Lakeland, Florida distribution center's registration to distribute controlled substances, asserting that we failed to maintain required controls against the diversion of controlled substances. In May 2012, we entered into a settlement agreement with the DEA under which our Lakeland registration will remain suspended until May 2014 and the DEA confirmed that it was planning no further administrative actions at any of our other facilities based on conduct prior to the settlement. The settlement agreement did not foreclose the possibility of the U.S. Department of Justice (the "DOJ") seeking civil fines for conduct covered by the settlement agreement. In that regard, we are providing information to and communicating with local offices within the DEA and the DOJ.

State of West Virginia vs. Cardinal Health, Inc.

In June 2012, the West Virginia Attorney General filed complaints against 14 pharmaceutical wholesale distributors, including us, in the Circuit Court of Boone County, West Virginia alleging, among other things, that the distributors failed to maintain effective controls to guard against diversion of controlled substances in West Virginia, failed to report suspicious orders of controlled substances in accordance with the West Virginia Uniform Controlled Substances Act and were negligent in distributing controlled substances to pharmacies that serve individuals who abuse controlled substances. In addition to injunctive and other equitable relief, the complaints seek monetary damages and the creation of a court-supervised fund, to be financed by the defendants in these actions, for a medical monitoring program focused on prescription drug abuse.

Qui Tam Action

Our P4 Healthcare subsidiaries and a former P4 Healthcare employee were named as additional defendants with another third-party defendant in a civil qui tam action filed in the U.S. District Court for the Central District of California. The action, which was filed under seal in January 2012 and was unsealed in July 2013, alleged violations of the federal healthcare fraud and abuse laws and federal False Claims Act, both before and after we acquired P4 Healthcare. Following an investigation, the DOJ declined to intervene as to us, and, together with the claimant, dismissed us from the action.

DOJ Civil Investigative Demand

In September 2012, we received a civil investigative demand from the DOJ under the Federal False Claims Act. The demand required us to produce documents relating to the structure of discounts offered or provided to our customers. We believe the focus of the investigation to have been whether the discounts complied with federal healthcare fraud and abuse laws. In October 2013, the DOJ informed us that it was closing its investigation.

Antitrust Litigation Proceeds

During the three months ended September 30, 2012, we recognized \$22 million of income resulting from settlements of class action antitrust claims in which we were a class member.

7. Fair Value Measurements

Fair value is defined as the price that would be received upon selling an asset or the price paid to transfer a liability on the measurement date. It focuses on the exit price in the principal or most advantageous market for the asset or liability in an orderly transaction between willing market participants. A three-tier fair value hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair values are as follows:

- Level 1 - Observable prices in active markets for identical assets and liabilities.
- Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities.
- Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities.

Recurring Fair Value Measurements

The following tables present the fair values for those assets measured on a recurring basis at:

	September 30, 2013			
(in millions)	Level 1	Level 2	Level 3	Total
Cash equivalents (1)	\$810	\$—	\$—	\$810
Forward contracts (2)	—	20	—	20
Other investments (3)	97	—	—	97
Total	\$907	\$20	\$—	\$927

	June 30, 2013			
(in millions)	Level 1	Level 2	Level 3	Total
Cash equivalents (1)	\$348	\$—	\$—	\$348
Forward contracts (2)	—	12	—	12
Other investments (3)	89	—	—	89
Total	\$437	\$12	\$—	\$449

(1) Cash equivalents are comprised of highly liquid investments purchased with a maturity of three months or less. The carrying value of these cash equivalents approximates fair value due to their short-term maturities.

The fair value of interest rate swaps, foreign currency contracts and commodity contracts is determined based on the present value of expected future cash flows considering the risks involved, including non-performance risk, and using discount rates appropriate for the respective maturities. Observable Level 2 inputs are used to determine the present value of expected future cash flows. The fair value of these derivative contracts, which are subject to master netting arrangements under certain circumstances, is presented on a gross basis in the condensed consolidated balance sheets.

The other investments balance includes investments in mutual funds, which are used to offset fluctuations in deferred compensation liabilities. These mutual funds primarily invest in the equity securities of companies with large market capitalization and high quality fixed income debt securities. The fair value of these investments is determined using quoted market prices.

Notes to Condensed Consolidated Financial Statements (continued)

Fair Value of Financial Instruments

The carrying amounts of cash and equivalents, trade receivables, net, accounts payable and other accrued liabilities at September 30, 2013 and June 30, 2013 approximate fair value due to their short-term maturities.

The following table summarizes the estimated fair value of our long-term obligations and other short-term borrowings compared to the respective carrying amounts at:

(in millions)	September 30, 2013	June 30, 2013
Estimated fair value	\$3,916	\$3,899
Carrying amount	3,883	3,854

The estimated fair value of our long-term obligations and other short-term borrowings is estimated based on either the quoted market prices for the same or similar issues or other inputs derived from available market information, which represents a Level 2 measurement.

8. Shareholders' Equity

During the three months ended September 30, 2013, we repurchased 1.0 million common shares having an aggregate cost of \$50 million. The average price paid per common share was \$51.65.

During the three months ended September 30, 2012, we repurchased 4.9 million common shares having an aggregate cost of \$200 million. The average price paid per common share was \$40.63.

We funded the repurchases with available cash. The common shares repurchased are held in treasury to be used for general corporate purposes.

Accumulated Other Comprehensive Income

The following table summarizes the changes in the balance of AOCI by component and in total:

(in millions)	Foreign Currency Translation Adjustments	Unrealized Gain on Derivatives, net of tax	Accumulated Other Comprehensive Income
Balance at June 30, 2013	\$54	\$14	\$68
Other comprehensive income, net of tax before reclassifications	24	1	25
Amounts reclassified to earnings	—	(1)	(1)
Total other comprehensive income, net of tax	24	—	24
Balance at September 30, 2013	\$78	\$14	\$92

9. Earnings Per Share

The following table reconciles the number of common shares used to compute basic and diluted earnings per share:

(in millions)	Three Months Ended September 30	
	2013	2012
Weighted-average common shares—basic	340	341
Effect of dilutive securities:		
Employee stock options, restricted share units and performance share units	4	3
Weighted-average common shares—diluted	344	344

The potentially dilutive employee stock options, restricted share units and performance share units that were antidilutive for the three months ended September 30, 2013 and 2012 were 1 million and 13 million, respectively.

10. Segment Information

Our operations are principally managed on a products and services basis and are comprised of two operating segments, which are the same as our reportable segments: Pharmaceutical and Medical. The factors for determining

the reportable segments include the manner in which management evaluates our performance combined with the nature of the individual business activities.

The following table presents revenue for each reportable segment and reconciling items necessary to agree to amounts reported in the condensed consolidated statements of earnings:

(in millions)	Three Months Ended September 30	
	2013	2012
Pharmaceutical (1)	\$21,813	\$23,498
Medical	2,711	2,393
Total segment revenue	24,524	25,891
Corporate (2)	(1) (2
Total revenue	\$24,523	\$25,889

The decrease in Pharmaceutical segment revenue is primarily due to the expiration of our pharmaceutical (1) distribution contracts with Walgreen Co. ("Walgreens") on August 31, 2013 and Express Scripts, Inc. on September 30, 2012.

(2) Corporate revenue consists of the elimination of inter-segment revenue.

We evaluate segment performance based upon segment profit, among other measures. Segment profit is segment revenue, less segment cost of products sold, less segment distribution, selling, general and administrative ("SG&A") expenses. Segment SG&A expenses include share-based compensation expense as well as allocated corporate expenses for shared functions, including corporate management, corporate finance, financial and customer care shared services, human resources, information technology and legal. Corporate expenses are allocated to the segments based upon headcount, level of benefit provided and ratable allocation. Other income, net, interest expense, net and provision for income taxes are not allocated to the segments.

Restructuring and employee severance, amortization and other acquisition-related costs, impairments and loss on disposal of assets and litigation (recoveries)/charges, net are not allocated to the segments. In addition, certain investment and other spending are not allocated to the segments. Investment spending generally includes the first-year spend for certain projects that require incremental investments in the form of additional operating expenses. We encourage our segments and corporate functions to identify investment projects that will promote innovation and provide future returns. As approval decisions for such projects are dependent upon executive management, the expenses for such projects are often retained at Corporate. Investment spending within Corporate was \$3 million and zero for the three months ended September 30, 2013 and 2012, respectively.

Cardinal Health, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (continued)

The following table presents segment profit by reportable segment and reconciling items necessary to agree to amounts reported in the condensed consolidated statements of earnings:

	Three Months Ended September 30	
(in millions)	2013	2012
Pharmaceutical	\$433	\$400
Medical	106	74
Total segment profit	539	474
Corporate	(68) (17
Total operating earnings	\$471	\$457

The following table presents total assets for each reportable segment and reconciling items necessary to agree to amounts reported in the condensed consolidated balance sheets at the dates indicated below:

(in millions)	September 30, 2013	June 30, 2013
Pharmaceutical (1)	\$13,874	\$16,258
Medical	6,473	6,521
Corporate	3,469	3,040
Total assets	\$23,816	\$25,819

(1) The decrease in Pharmaceutical segment assets is primarily due to the decrease in trade receivables, net and inventories, net as a result of the expiration of our pharmaceutical distribution contract with Walgreens.

11. Share-Based Compensation

Share-Based Compensation Plans

We maintain stock incentive plans (collectively, the “Plans”) for the benefit of certain of our officers, directors and employees. The following table provides total share-based compensation expense by type of award:

	Three Months Ended September 30	
(in millions)	2013	2012
Restricted share unit expense	\$16	\$15
Employee stock option expense	5	7
Performance share unit expense	3	2
Total share-based compensation	\$24	\$24

The total tax benefit related to share-based compensation for the three months ended September 30, 2013 and 2012 was \$9 million and \$8 million, respectively.

Stock Options

Employee stock options granted under the Plans generally vest in equal annual installments over three years and are exercisable for periods ranging from seven to ten years from the grant date. All stock options are exercisable at a price equal to the market value of the common shares underlying the option at the grant date and, when exercised, are issued out of treasury shares.

The following table summarizes all stock option transactions under the Plans:

(in millions, except per share amounts)	Stock Options	Weighted-Average Exercise Price per Common Share
Outstanding at June 30, 2013	15	\$36.97
Granted	2	51.50
Exercised	(3) 39.64
Canceled and forfeited	—	—
Outstanding at September 30, 2013	14	\$38.60
Exercisable at September 30, 2013	10	\$35.31

At September 30, 2013, the total pre-tax compensation cost, net of estimated forfeitures, related to nonvested stock options not yet recognized was \$38 million, which is expected to be recognized over a weighted-average period of two years. The following table provides additional data related to stock option activity:

(in millions, except contractual lives)	September 30, 2013	June 30, 2013
Aggregate intrinsic value of outstanding options at period end	\$ 192	\$ 156
Aggregate intrinsic value of exercisable options at period end	\$ 163	\$ 113
Weighted-average remaining contractual life of outstanding options (in years)	5	4
Weighted-average remaining contractual life of exercisable options (in years)	3	3

Stock options are granted to our officers and certain employees. The fair values were estimated on the grant date using a lattice valuation model. We believe the lattice model provides reasonable estimates because it has the ability to take into account individual exercise patterns based on changes in our stock price and other variables, and it provides for a range of input assumptions.

Restricted Share Units

Restricted share units granted under the Plans generally vest in equal annual installments over three years. The fair value is determined by the grant date market price of our common shares. Restricted share units accrue cash dividend equivalents that are payable upon vesting of the awards.

The following table summarizes all transactions related to restricted share units under the Plans:

(in millions, except per share amounts)	Restricted Share Units	Weighted-Average Grant Date Fair Value per Share
Nonvested at June 30, 2013	3	\$38.74
Granted	1	51.51
Vested	(1)	37.45
Canceled and forfeited	—	—
Nonvested at September 30, 2013	3	\$44.77

Table of Contents

Cardinal Health, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (continued)

At September 30, 2013, the total pre-tax compensation cost, net of estimated forfeitures, related to nonvested restricted share units not yet recognized was \$113 million, which is expected to be recognized over a weighted-average period of two years.

Performance Share Units

Performance share units vest over a three-year performance period based on achievement of specific performance goals. Based on the extent to which the targets are achieved, vested shares may range from zero to 200 percent of the target award amount. The fair value of performance share units is determined by the grant date market price of our common shares. The compensation expense associated with nonvested performance share units is dependent on our periodic assessment of the probability of the targets being achieved and our estimate of the number of shares that will ultimately be issued. Performance share units accrue cash dividend equivalents that are payable upon vesting of the awards.

During the three months ended September 30, 2013, 274 thousand performance share units were granted at target at a weighted-average fair value per share of \$51.49. Also during the three months ended September 30, 2013, 157 thousand performance share units with an initial two-year performance period and a weighted-average grant date fair value per share of \$41.60 vested based on achievement of 143 percent of the target performance goal. At September 30, 2013, there were 870 thousand nonvested performance share units with a weighted-average grant date fair value per share of \$44.40.

At September 30, 2013, the total pre-tax compensation cost, net of estimated forfeitures, related to nonvested performance share units not yet recognized was \$24 million, which is expected to be recognized over a weighted-average period of two years.

12. Subsequent Events

On October 15, 2013, we reduced our committed receivables sales facility program from \$950 million to \$700 million in light of the expiration of our pharmaceutical distribution contract with Walgreens. Our committed receivables sales facility program is available to us through Cardinal Health Funding, LLC ("CHF"), which was organized for the sole purpose of buying receivables and selling undivided interests in those receivables to third-party purchasers. Although consolidated in accordance with GAAP, CHF is a separate legal entity from Cardinal Health and from our subsidiary that sells the receivables to CHF. CHF is designed to be a special purpose, bankruptcy-remote entity whose assets are available solely to satisfy the claims of its creditors.

On October 29, 2013, our Board of Directors approved a \$1.0 billion share repurchase program, which expires on December 31, 2016. The \$350 million remaining under our current repurchase authorization also remains in effect.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion and analysis presented below is concerned with material changes in financial condition and results of operations for our condensed consolidated balance sheets at September 30, 2013 and June 30, 2013, and for our condensed consolidated statements of earnings for the three months ended September 30, 2013 and 2012. This discussion and analysis should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2013 Form 10-K.

Portions of this Form 10-Q (including information incorporated by reference) include "forward-looking statements."

The words "expect," "anticipate," "intend," "plan," "believe," "will," "should," "could," "would," "project," "continue," "likely," and other expressions, among others, generally identify "forward-looking statements," which speak only as of the date the statements were made. The matters discussed in these forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those made, projected or implied in the forward-looking statements. The most significant of these risks, uncertainties and other factors are described in Exhibit 99.1 to this Form 10-Q and in "Item 1A: Risk Factors" of our 2013 Form 10-K. Except to the extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Overview

We are a healthcare services company providing pharmaceutical and medical products and services that help pharmacies, hospitals, ambulatory surgery centers, clinical laboratories, physician offices and other healthcare providers focus on patient care while reducing costs, enhancing efficiency and improving quality. We also provide medical products to patients in the home.

We report our financial results in two segments: Pharmaceutical and Medical.

Revenue for the three months ended September 30, 2013 was \$24.5 billion, a 5 percent decrease from the prior year largely due to the previously disclosed expiration of our pharmaceutical distribution contracts with Walgreen Co. ("Walgreens") on August 31, 2013 and Express Scripts, Inc. ("Express Scripts") on September 30, 2012. Gross margin increased 9 percent to \$1.3 billion and operating earnings increased 3 percent to \$471 million, reflecting strong performance in our Pharmaceutical segment generic programs and the impact of acquisitions. Earnings from continuing operations were up 25 percent to \$340 million primarily due to a \$63 million favorable impact from the settlement of federal and state tax controversies.

Our cash and equivalents balance was \$2.8 billion at September 30, 2013, compared to \$1.9 billion at June 30, 2013.

The increase in cash and equivalents during the quarter was driven by net cash provided by operating activities of \$951 million, due primarily to the decrease in our net working capital associated with the expiration of our pharmaceutical distribution contract with Walgreens. We plan to continue to execute a balanced deployment of available capital to position ourselves for sustainable competitive advantage and to enhance shareholder value.

Walgreens Contract

The expiration of our pharmaceutical distribution contract with Walgreens resulted in a reduction in revenue of \$1.7 billion during the three months ended September 30, 2013. Given the nature of the wind-down of the Walgreens contract, the contract expiration did not significantly impact our operating earnings compared to the prior-year period. We expect the contract expiration to have an adverse impact on our period-over-period comparisons of revenue and results of operations during the remainder of fiscal 2014 and the first quarter of fiscal 2015.

Acquisitions

We did not complete any acquisitions that were significant, individually or in the aggregate, during the three months ended September 30, 2013. In March 2013, we acquired AssuraMed, Inc. ("AssuraMed"), a provider of medical supplies to homecare providers and patients in the home. This acquisition increased revenues and operating earnings for the three months ended September 30, 2013.

Results of Operations**Revenue**

Edgar Filing: CARDINAL HEALTH INC - Form 10-Q

(in millions)	Three Months Ended September 30		Change	
	2013	2012		
Pharmaceutical	\$21,813	\$23,498	(7)%
Medical	2,711	2,393	13	%
Total segment revenue	24,524	25,891	(5)%
Corporate	(1) (2)	N.M.
Total revenue	\$24,523	\$25,889	(5)%

Pharmaceutical Segment

Revenue for the three months ended September 30, 2013 compared to the prior-year period was negatively impacted by the expiration of our pharmaceutical distribution contracts with Express Scripts (\$2.0 billion) and Walgreens (\$1.7 billion), partially offset by increased volume from new and existing pharmaceutical distribution customers (\$1.7 billion). Revenue was also favorably impacted by growth within our Specialty Solutions division (\$244 million).

Medical Segment

Revenue for the three months ended September 30, 2013 compared to the prior-year period reflects the benefit of acquisitions (\$269 million) and increased net volume from existing customers (\$73 million).

Cost of Products Sold

As a result of the same factors affecting the change in revenue, cost of products sold decreased \$1.5 billion (6 percent) compared to the prior-year period. See the gross margin discussion below for additional drivers impacting cost of products sold.

Gross Margin

(in millions)	Three Months Ended September 30		Change	
	2013	2012		
Gross margin	\$1,264	\$1,159	9	%

Gross margin increased during the three months ended September 30, 2013 compared to the prior-year period, driven by strong performance in our generic pharmaceutical programs (\$115 million) and the impact of acquisitions (\$73 million). Strong performance under our branded

Table of Contents

Cardinal Health, Inc. and Subsidiaries

Financial Review (continued)

pharmaceutical distribution agreements (exclusive of the related volume impact) also had a positive impact on gross margin (\$20 million). Pricing changes, including rebates (exclusive of the related volume impact), adversely impacted gross margin (\$113 million), driven by renewed customer contracts and customer and product mix. The adverse impact of these pricing changes was offset by sourcing programs and other sources of margin. While the expirations of the Walgreens and Express Scripts contracts resulted in lower revenue, they did not significantly impact gross margin.

Distribution, Selling, General and Administrative ("SG&A") Expenses

(in millions)	Three Months Ended September 30		Change	
	2013	2012		
SG&A expenses	\$732	\$690	6	%

SG&A expenses increased during the three months ended September 30, 2013 compared to the prior-year period primarily due to acquisitions (\$39 million).

Segment Profit and Consolidated Operating Earnings

(in millions)	Three Months Ended September 30		Change	
	2013	2012		
Pharmaceutical	\$433	\$400	8	%
Medical	106	74	43	%
Total segment profit	539	474	14	%
Corporate	(68) (17) N.M.	
Total operating earnings	\$471	\$457	3	%

Pharmaceutical Segment Profit

The principal drivers for the increase in Pharmaceutical segment profit during the three months ended September 30, 2013 were strong performances from both our generic pharmaceutical programs and our branded pharmaceutical distribution agreements. These benefits were partially offset by the impact of pharmaceutical distribution customer pricing changes. The expiration of the Walgreens and Express Scripts contracts did not significantly impact segment profit.

Medical Segment Profit

The principal driver for the increase in Medical segment profit during the three months ended September 30, 2013 was the positive impact of acquisitions.

Consolidated Operating Earnings

In addition to revenue, gross margin and SG&A expenses discussed above, operating earnings were impacted by the following:

	Three Months Ended September 30	
(in millions)	2013	2012
Restructuring and employee severance	\$11	\$5
Amortization and other acquisition-related costs	49	28
Impairments and loss on disposal of assets	—	1
Litigation (recoveries)/charges, net	1	(22

Restructuring and Employee Severance

We recognized \$6 million related to the restructuring within our Medical segment during the three months ended September 30, 2013.

Amortization and Other Acquisition-Related Costs

Amortization of acquisition-related intangible assets was \$45 million and \$21 million for the three months ended September 30, 2013 and 2012, respectively. The increase in amortization during the three months ended September 30, 2013 was primarily due to intangible assets from the acquisition of AssuraMed.

Litigation (Recoveries)/Charges, Net

During the three months ended September 30, 2012, we recognized \$22 million of income resulting from settlements of class action antitrust claims in which we were a class member.

Earnings Before Income Taxes and Discontinued Operations

In addition to the items discussed above, earnings before income taxes and discontinued operations were impacted by the following:

(in millions)	Three Months Ended September 30		Change	
	2013	2012		
Other income, net	\$(4) \$(8)	N.M.
Interest expense, net	33	26	28	%
Interest Expense, Net				

The increase in interest expense, net for the three months ended September 30, 2013 compared to the prior-year period was primarily due to \$1.3 billion of notes issued in connection with the AssuraMed acquisition during the third quarter of fiscal 2013.

Provision for Income Taxes

Generally, fluctuations in the effective tax rate are due to changes within international and U.S. state effective tax rates resulting from our business mix and discrete items.

During the three months ended September 30, 2013, the effective tax rate of 23.2 percent was impacted by net favorable discrete items of \$61 million, which reduced the rate by 13.7 percentage points. The discrete items include the favorable impact of the settlement of federal and state tax controversies (\$63 million).

During the three months ended September 30, 2012, the effective tax rate of 38.1 percent was impacted by net unfavorable discrete items of \$4 million, which increased the rate by 1.0 percentage point. The discrete items include unfavorable amounts related to remeasurement of certain unrecognized tax benefits.

In fiscal 2014, we expect our effective tax rate to fluctuate significantly from quarter to quarter based on discrete items, and we anticipate that the fiscal 2014 effective tax rate will be higher than the rate for the three months ended September 30, 2013.

Ongoing Audits

During the three months ended September 30, 2013, the U.S. Internal Revenue Service ("IRS") closed audits of fiscal years 2003 through 2005. The IRS is currently conducting audits of fiscal years 2006 through 2010.

Table of Contents

Cardinal Health, Inc. and Subsidiaries

Financial Review (continued)

Liquidity and Capital Resources

We currently believe that, based upon available capital resources (cash on hand and access to committed credit facilities) and projected operating cash flow, we have adequate capital resources to fund working capital needs; currently anticipated capital expenditures, business growth and expansion; contractual obligations; payments for tax settlements; and current and projected debt service requirements, dividends and share repurchases. If we decide to engage in one or more additional acquisitions, depending on the size and timing of such transactions, we may need to access capital in addition to cash on hand and our existing committed credit facilities.

Cash and Equivalents

Our cash and equivalents balance was \$2.8 billion at September 30, 2013, compared to \$1.9 billion at June 30, 2013. At September 30, 2013, our cash and equivalents were held in cash depository accounts with major banks or invested in high quality, short-term liquid investments.

The increase in cash and equivalents during the three months ended September 30, 2013 was driven by net cash provided by operating activities of \$951 million and proceeds from the issuance of common shares in connection with employee stock option exercises of \$102 million, offset by dividends of \$105 million and share repurchases of \$50 million.

Net cash provided by operating activities of \$951 million was driven primarily by the expiration of our pharmaceutical distribution contract with Walgreens, which resulted in a significant net working capital decrease based on reduced accounts receivable and inventory, partially offset by reduced accounts payable. The majority of the expected net working capital decrease from the contract expiration occurred during the three months ended September 30, 2013.

Net cash provided by operating activities was also impacted by other changes in working capital, including the timing of payments of accounts payable.

Changes in working capital can vary significantly depending on factors such as customer payments of accounts receivable, the timing of inventory purchases and payments to vendors in the regular course of business. We have historically presented days sales outstanding ("DSO"), days inventory on hand ("DIOH") and days payable outstanding ("DPO") to evaluate our working capital performance. Due to the expiration of the Walgreens contract on August 31, 2013, our revenue, cost of products sold and chargeback billings for the three months ended September 30, 2013 reflected two months of activity attributable to Walgreens, while our accounts receivable, inventory and accounts payable balances at September 30, 2013 reflected the significant net working capital decrease described above. Accordingly, we do not believe DSO, DIOH and DPO provide meaningful measures of our working capital performance for the three months ended September 30, 2013 compared to the prior-year period, and we have not presented these measures in this Form 10-Q.

The cash and equivalents balance at September 30, 2013 included \$475 million of cash held by subsidiaries outside of the United States. Although the vast majority of this cash is available for repatriation, permanently bringing the money into the United States could trigger U.S. federal, state and local income tax obligations. As a U.S. parent company, we may temporarily access cash held by our foreign subsidiaries without becoming subject to U.S. federal income tax through intercompany loans.

Credit Facilities and Commercial Paper

On October 15, 2013, we reduced our committed receivables sales facility program from \$950 million to \$700 million in light of the expiration of our pharmaceutical distribution contract with Walgreens. In addition to our committed receivables sales facility, our sources of liquidity include a \$1.5 billion revolving credit facility and a commercial paper program of up to \$1.5 billion, backed by the revolving credit facility.

We had no outstanding balance under the committed receivables sales facility program and no outstanding borrowings from the commercial paper program at September 30, 2013. We also had no outstanding balance under the revolving credit facility at September 30, 2013, except for \$42 million of standby letters of credit. Our revolving credit facility and committed receivables sales facility program require us to maintain a consolidated interest coverage ratio, as of any fiscal quarter end, of at least 4-to-1 and a consolidated leverage ratio of no more than 3.25-to-1. As of

September 30, 2013, we were in compliance with these financial covenants.

Capital Expenditures

Capital expenditures were \$26 million during both the three months ended September 30, 2013 and 2012, respectively.

Dividends

On August 7, 2013, our Board of Directors approved the quarterly dividend of \$0.3025 per share, or \$1.21 on an annualized basis, which was paid on October 15, 2013 to shareholders of record on October 1, 2013.

On November 6, 2013, our Board of Directors approved our 117th consecutive regular quarterly dividend, payable to shareholders of record on January 2, 2014.

Share Repurchases

During the three months ended September 30, 2013, we repurchased \$50 million of our common shares. We funded the repurchases with cash on hand. At September 30, 2013, we had \$350 million remaining under our current repurchase authorization which expires August 31, 2015.

On October 29, 2013, our Board of Directors approved an additional \$1.0 billion share repurchase program, which expires on December 31, 2016.

Off-Balance Sheet Arrangements

We had no significant off-balance sheet arrangements at September 30, 2013.

Contractual Obligations

There have been no material changes, outside of the ordinary course of business, in our outstanding contractual obligations since the end of fiscal 2013 through September 30, 2013.

Recent Financial Accounting Standards

See Note 1 of the "Notes to Condensed Consolidated Financial Statements" for a discussion of recent financial accounting standards.

Financial Review (continued)

Critical Accounting Policies and Sensitive Accounting Estimates

Refer to the Critical Accounting Policies and Sensitive Accounting Estimates section of "Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2013 Form 10-K. There have been no material changes to our critical accounting policies and sensitive accounting estimates since the end of fiscal 2013 through September 30, 2013.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

We believe there have been no material changes in the quantitative and qualitative market risks since our 2013 Form 10-K.

Item 4: Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We evaluated, with the participation of our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of September 30, 2013. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective as of September 30, 2013 to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1: Legal Proceedings

In addition to the proceedings described below, the legal proceedings described in Note 6 of the "Notes to Condensed Consolidated Financial Statements" are incorporated in this "Item 1: Legal Proceedings" by reference.

In June 2012, Henry Stanley, Jr., a purported shareholder, filed a derivative action on behalf of Cardinal Health, Inc. in the U.S. District Court for the Southern District of Ohio (the "federal action") against the current and certain former members of our Board of Directors. A similar action was filed by Daniel Himmel, a purported shareholder, in the Common Pleas Court of Delaware County, Ohio (the "state action") against the current and certain former members of our Board of Directors and certain of our officers. The complaints alleged that the defendants breached their fiduciary duties in connection with the DEA's suspension of our Lakeland, Florida distribution center's registration to distribute controlled substances in February 2012, and the suspension and reinstatement of such registrations at three of our facilities in 2007 and 2008. The state action also made claims based on corporate waste and unjust enrichment. The complaints sought, among other things, unspecified money damages from the defendants and an award of attorney's fees. In October 2012, the U.S. District Court dismissed the federal action with prejudice, and in August 2013, the U.S. Court of Appeals affirmed the decision. In July 2013, the Common Pleas Court dismissed the state action, and in October 2013, the plaintiff voluntarily dismissed an appeal of the court's decision with prejudice. In September 2013, the plaintiff in the federal action made demand on our Board of Directors to take action against current and certain former members of our Board of Directors to recover damages based on the allegations made in the federal action. Our Board of Directors, through a special committee of independent directors, is investigating the allegations made in the demand.

Item 1A: Risk Factors

You should carefully consider the information in this Form 10-Q and the risk factors discussed in "Item 1A: Risk Factors" and other risks discussed in our 2013 Form 10-K and our filings with the SEC since June 30, 2013. These risks could materially and adversely affect our results of operations, financial condition, liquidity and cash flows. Our business also could be affected by risks that we are not presently aware of or that we currently consider immaterial to our operations.

Item 2: Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information about purchases we made of our common shares during the three months ended September 30, 2013:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program (2)	Approximate Dollar Value of Shares That May Yet be Purchased Under the Program (2) (in millions)
July 1 – 31, 2013	192,910	\$50.18	—	\$400
August 1 – 31, 2013	967,951	51.65	967,685	350
September 1 – 30, 2013	397	51.70	—	350
Total	1,161,258	\$51.41	967,685	\$350

Includes 231, 266 and 397 common shares purchased in July, August and September 2013, respectively, through a rabbi trust as investments of participants in our Deferred Compensation Plan and 731 restricted shares surrendered and 191,948 common shares tendered in July 2013 by equity compensation plan participants to satisfy tax withholding and pay the exercise price upon vesting or exercise of outstanding awards.

(2)

On August 8, 2012, our Board of Directors approved a \$750 million share repurchase program, which expires on August 31, 2015. In August 2013, we repurchased \$50 million of our common shares under this program. On October 29, 2013, our Board of Directors approved an additional \$1.0 billion share repurchase program, which expires on December 31, 2016.
