Compliance With Section 16(a)

Section 16(a) of the Securities Exchange Act of 1934 requires that

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

our executive officers, directors and persons who own more than 10% of our common stock file reports of ownership and changes in ownership with the Securities and Exchange Commission. They are also required to furnish us with copies of all Section 16(a) forms they file. Based solely on our review of the copies of such forms, and, if appropriate, representations made to us by any reporting person concerning whether a Form 5 was required to be filed for 2000, we are not aware that any of our directors, executive officers or 10% shareholders failed to comply with the filing requirements of Section 16(a) during 2000.

Board of Directors and Committees of the Board

Our board of directors held 12 regularly scheduled meetings during 2000. The board of directors has, in addition to other committees, an audit committee and a compensation committee. There is no nominating committee as the full board acts on nominations. All members of our board of directors also serve as members of the board of directors of Lake City Bank. During 2000, none of the directors attended less than 75% of the total number of meetings they were eligible to attend, except Messrs. Ludwig and Welch and Ms. Duffin.

The audit committee, comprised of Anna K. Duffin, Richard L. Pletcher, Steven D. Ross, Terry L. Tucker, and George L. White, held 11 meetings during 2000. Each of these members were considered "independent" according to the Nasdaq listing requirements. In February, 2001, in connection with her retirement as an executive officer, Ms. Northernor was appointed to the audit committee and, because she was recently employed by the company, she is not considered "independent" under Nasdaq rules. By appointing Ms. Northernor to the committee, and pursuant to Nasdaq's rules and regulations, the board has determined that her membership is required for the best interests of Lakeland Financial and its shareholders because of her knowledge and familiarity with the company and the bank which she has garnered over her 17 years of service.

The functions performed by the audit committee include:

- making recommendations to the board of directors with respect to selection of our independent auditors;
- reviewing the independence of the independent auditors;
- reviewing actions by management on the independent auditors and internal auditors recommendations;

7

- meeting with management, the internal auditors and the independent auditors to review the effectiveness of our system of internal control and internal audit procedures; and
- reviewing reports of bank regulatory agencies and monitoring management's compliance with recommendations contained in those reports.

To promote independence of the audit function, the committee consults separately and jointly with the independent auditors, the internal auditors and management. The audit committee charter, which sets forth the duties and responsibilities of the audit committee, is attached to this proxy statement as Exhibit A.

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

The compensation committee, comprised of L. Craig Fulmer, R. Douglas Grant, Jerry L. Helvey, Michael L. Kubacki and George L. White, held 5 meetings during 2000. The functions performed by the compensation committee include making recommendations to the full board of directors with respect to officers' salaries and setting awards in accordance with our benefit plans.

Pension Plan Table

Our defined benefit retirement plan covers certain employees over 21 years of age with more than one year of service. Effective April 1, 2000, we amended the plan to freeze the accrual of benefits to participants under the plan. As a result of this amendment, employees who were not participants of the plan as of March 31, 2000 are no longer able to become participants under the plan. In addition, all benefits previously accrued under the plan by participants were frozen in place, and continuing employment with us will not increase the employee's benefits upon retirement. Normal retirement age is 65. Participants received credit for 2-1/2% of their average salary for each year up to 20 years of service or through March 31, 2000, whichever occurred first.

The principal benefit under this plan is a lifetime annuity for the joint lives of participants and their spouses. This amount is offset by social security benefits. On December 31, 1985, the then existing plan was terminated

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

and the latest plan (which is now frozen) was adopted effective January 1, 1986. Participants in the terminated plan were paid cash or received annuities for their earned benefits as of December 31, 1985. The amounts paid for annuities purchased, as a part of the plan termination will reduce the benefits to be paid out of the latest plan.

500,000	187,500	250,000	250,000	250,000	250,000

The amounts shown above include benefits payable under a supplemental employee retirement plan, which is a non-qualified plan payable as a general creditor of Lakeland Financial. This plan was created in 1989 when changes to the Internal Revenue Code that apply to defined pension plans could have resulted in a reduced pension benefit for certain highly compensated employees. This supplemental plan did not create any new benefits, but was adopted to offset any such reduction in pension benefits. Benefits under this plan were frozen as of December 31, 1999, by a resolution of our board, and continuing employment will not increase the employee's benefits under the plan.

Compensation Committee Interlocks and Insider Participation

During 2000, the compensation committee consisted of Messrs. Fulmer, Grant, Helvey, Kubacki and White. Inside directors (full-time employees of Lakeland Financial), serving on the compensation committee leave the meeting during the time the committee is deliberating on that individual's compensation or that of the individual's superiors. Inside directors do participate in evaluating and establishing the salaries of other executive officers. Mr. Kubacki, president and chief executive officer of Lakeland Financial, participated during 2000 in establishing the salaries of all executive officers except his own.

Employment Agreements

The Company has entered into change of control agreements with several of its executive officers, including Messrs. Kubacki, Smith, Weldy and Condon. The agreements provide that upon the termination of the executive's employment within one year prior to, or following, a change of control of Lakeland Financial, the executive has the right to receive a payment equal to approximately two times 120% of the executive's base salary. Also, the executive shall continue to receive certain benefits, including medical insurance coverage. Pursuant to the agreements, a "change of control" shall be

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

any of the following events: a merger or attempted hostile takeover; a person acquiring 30% of our voting securities followed by their election as a director to the board of directors; a person acquiring more than 50% of our voting securities; and any other event that has the effect of placing control of Lakeland Financial in someone other than current shareholders.

12

In addition, the agreements provide that the executive shall not compete with us, or our successor, for two years following a change of control. If the executive elects, he or she may forego the severance benefit and not be subject to the restrictive covenant. The restrictive covenant extends to a 60 mile radius of Warsaw, Indiana.

Report of the Compensation Committee on Executive Compensation

The report of the compensation committee below shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent Lakeland Financial specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

General

We annually review executive officer compensation in December with the new compensation to become effective on the following January 1. In establishing executive compensation, we have historically divided compensation into the two separate components of salary and bonus. When fixing an individual executive officer's compensation, these two components are intended to work together to compensate the executive officer fairly for his or her services and reward the executive officer based upon our performance during the year. We further encourage the executive officers and all employees to acquire a personal interest in the long-term success of Lakeland Financial by participating in stock ownership under our 401(k) plan. During 1998, we established the Lakeland Financial Corporation 1997 Share Incentive Plan to enhance the opportunity of the executive officers, as well as other covered employees, to acquire stock in Lakeland Financial. The board of directors retains final approval over executive compensation.

Salary

Executive officer salaries are based upon a wide variety of factors, including prior years' salary, duties and responsibilities, evaluations by supervisors, and salaries for comparable positions paid by similarly situated financial institutions. When establishing the salary of executive officers other than his own, Mr. Kubacki participated and made recommendations to the committee.

The committee reviews the annual survey of financial institution salaries paid by Indiana banks published by the Indiana Banker's Association as well as a salary survey prepared by Crowe, Chizek and Company LLP. Using this information, the committee establishes salaries using an informal and subjective analysis, primarily focused upon paying competitive salaries sufficient to retain the services of its executive officers without paying salaries which are significantly greater than those paid by similarly situated financial institutions. Although our overall profitability is a factor in establishing executive officer salaries, no specific weight is given to financial performance. Likewise, consideration is given to the performance of our common stock during the preceding several years, but no specific weight is given to this factor. The salary paid to Mr. Kubacki, as president and chief

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

executive officer, during 2000, as shown in the summary compensation table above, was based upon the committee's satisfaction with our overall profitability and performance of our common stock and retaining his services for future years, without any specific reference being made to qualitative or quantitative performance factors.

13

Bonus

Executive officer bonuses, including Mr. Kubacki's, are determined by an established executive incentive compensation program, which is periodically reviewed by the committee. This program applies to all of our executive officers, as well as designated officers of Lake City Bank. As established, the committee retains the right to modify the program and/or withhold payment at any time. Historically, payments have not been withheld since its adoption. The bonus program is designed to encourage the executive officers to maximize the annual profits of Lake City Bank with an incentive to conserve capital. During the December 2000 review, the committee chose not to modify the bonus program or withhold payment for fiscal year 2000. We have adopted provisions of Statement of Financial Accounting Standard ("SFAS") 115 which requires recognition of unrealized gains or losses on certain debt and equity securities held in Lake City Bank's investment securities portfolio at year end. For purposes of the bonus program, unrealized gains and losses in the investment securities portfolio of Lake City Bank are excluded from equity capital.

Bonuses are computed on our return on investment (shareholders' equity). It is based upon net profit (after taxes) and includes all realized securities gains and losses (including tax effect), before payment of bonuses and contributions to the 401(k) plan. The year end return on investment computed on shareholders' equity as of January 1 of each year must equal or exceed 12% in order for a bonus to be paid that year. Thereafter, based upon an established schedule, a percentage of each eligible officer's salary is paid as a bonus.

As established, the bonus program provides that our president and chief executive officer would receive two times the established percentage for his bonus and the executive vice presidents receive one and one half times the established percentage for their bonuses. For 2000, the return on investment established a 10% bonus payable in 2000. Bonuses for officers receiving promotions during the year are prorated.

Stock Ownership

At the annual meeting held in April 1998, the shareholders approved the Lakeland Financial Corporation 1997 Share Incentive Plan. The purpose of this incentive plan is to enhance our long term financial performance by

- attracting and retaining executive and other key employees of Lakeland Financial and Lake City Bank through incentive compensation opportunity;
- motivating such employees to further the long term goals of Lakeland Financial and the Lake City Bank; and
- furthering the identity of interests of participating employees with our shareholders through opportunities for increased employee ownership of Lakeland Financial.

During 2000, the compensation committee recommended, and the board of

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

directors approved, the granting of options for a total of 217,150 shares to 132 employees and directors. The number and terms of shares for which options were granted to Messrs. Kubacki, Smith, Weldy and Condon and Ms. Northenor during 2000 are shown in the table of option grants above.

14

We have a 401(k) plan, effective January 1, 1984, which allows the participants to choose between several different investment options, including shares of our common stock. Under the plan, employees are eligible to redirect up to 9% of their regular basic compensation into a tax-deferred trust. We make matching contributions on up to 6% of each participant's regular basic compensation. All participants are always 100% vested in their salary redirections and become 100% vested in our contribution upon retirement, disability or in accordance with the vesting provisions of the plan. Participant accounts are distributed to the individual participants upon termination of employment and may include our stock.

Approved by the Lakeland Financial compensation committee as of December 31, 2000.

DIRECTORS' COMPENSATION

Edgar Filing: LAKELAND FINANCIAL CORP - Form DEF 14A

During 2000, directors who were not full time employees of Lakeland Financial or Lake City Bank, were paid an annual fee of \$7,000 and an additional \$325 for each board meeting attended and \$325 for each committee meeting attended. They are not eligible to participate in the 401(k) plan or the defined benefit plan. Inside directors (those who are full time employees of Lakeland Financial or Lake City Bank) are not paid a director's fee. Directors are permitted to defer receipt of their directors' fees and earn a rate of return based upon Lake City Bank's six-month certificate of deposit rates. Effective January 1, 1997, this plan was broadened to add an option to permit the directors to earn a return based upon the performance of our stock rather than the certificate of deposit rate. We may, but are not required to, fund the deferred fees into a trust which may hold our stock. The plan is unqualified and the directors have no interest in the trust. The deferred fees and any earnings thereon are unsecured obligations of Lakeland Financial. Any shares held in the trust are treated as treasury shares and may not be voted. During 2000, each director who was not a full time employee of Lakeland Financial or Lake City Bank was granted an option to acquire 1,100 shares at the price of \$15.13, with the exception of Mr. Grant who received an option to acquire 3,600 shares. In addition, Mr. Ross received an option to purchase 500 shares at the price of \$12.38 because he joined the board in July, 2000. The options are not exercisable for 5 years, except in the case of retirement or disability.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2000, Lake City Bank had extended, and expects to continue to extend, loans to its directors and officers and to their related interests. Such loans were, and will continue to be, made only upon the same terms, conditions, interest rates, and collateral requirements as those prevailing at the same time for comparable loans extended from time to time to other, unrelated borrowers. Loans to directors and officers do not and will not involve greater risks of collectability, or present other unfavorable features, than loans to other borrowers.
