PROSPECTUS SUMMARY

This prospectus is part of an automatic shelf registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the SEC, as a “well known seasoned issuer” as defined in Rule 405 under the Securities Act. Under the shelf registration rules, using this prospectus and, if required, one or more prospectus supplements, the selling stockholders identified in this prospectus may sell, from time to time, the securities covered by this prospectus in one or more offerings.

We may provide a prospectus supplement containing specific information about the terms of a particular offering by the selling stockholders. The prospectus supplement may also add, update or change information contained in this prospectus. If the information in this prospectus is inconsistent with a prospectus supplement, you should rely on the information in that prospectus supplement. We recommend that you carefully read this entire prospectus and any applicable prospectus supplement, especially the section entitled “Risk Factors” beginning on page 2, before making a decision to invest in the securities covered by this prospectus. You should also carefully read the additional information and documents described under “Where You Can Find More Information.”

You should only rely on the information contained or incorporated by reference in this prospectus and any applicable prospectus supplement. We have not authorized any person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it. This prospectus is not an offer to sell the securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus or any applicable prospectus supplement is accurate as of the date on the front cover of such document and that any information incorporated by reference is accurate as of the date of the document incorporated by reference. Our business, financial condition, results of operations, and prospects may have changed since that date.

In this prospectus, unless otherwise specified or the context requires otherwise, we use the terms “Healthcare Services,” the “Company,” “we,” “us” and “our” to refer to Healthcare Services Group, Inc. and its consolidated subsidiaries.

SUMMARY OF THE COMPANY

The Company is a Pennsylvania corporation, incorporated on November 22, 1976. We provide management, administrative and operating expertise and services to the housekeeping, laundry, linen, facility maintenance and dietary service departments of the health care industry, including nursing homes, retirement complexes, rehabilitation centers and hospitals located throughout the United States. Based on the nature and similarities of the services provided, our business operations consist of two business segments (Housekeeping and Dietary). We believe that we are the largest provider of our services to the long-term care industry in the United States, rendering such services to over 3,000 facilities in 48 states as of June 30, 2014. We provide our Housekeeping services to essentially all client facilities and provide Dietary services to approximately 800 of such facilities. Although we do not directly participate in any government reimbursement programs, our clients’ reimbursements are subject to government regulation. Therefore, they are directly affected by any legislation and regulations relating to Medicare and Medicaid reimbursement programs.

As of June 30, 2014, we operate three wholly-owned subsidiaries, Huntingdon Holdings, Inc. (“Huntingdon”), HCSG Staff Leasing Solutions, LLC (“Staff Leasing”) and HCSG Insurance Corp. Huntingdon invests our cash and cash equivalents and manages our portfolio of available-for-sale marketable securities. Staff Leasing offers professional employer organization (“PEO”) services to potential clients in the health care industry. As of June 30, 2014, we have PEO service contracts in several states. Formed in 2014, HCSG Insurance Corp. is a captive insurance company domiciled in the State of New Jersey and provides the Company with certain insurance-related services.

On July 12, 2013, we acquired substantially all of the assets of Platinum Health Services, LLC pursuant to an Asset Purchase Agreement dated July 11, 2013, between us, Platinum Health Services, LLC, Platinum Health Services PEO, LLC, Platinum SG Equities LLC, Walnut Court Capital Advisors, LLC, Z Capital LLC, Joseph Foy, Simon Ganz and Seth E. Gribetz (the "Asset Purchase Agreement"). The purchase price consisted of a cash payment of approximately \$5,000,000 and the issuance of 1,214,646 shares of the Company's common stock, \$0.01 par value per share. The resale of such 1,214,646 shares was previously registered pursuant to a Registration Statement filed under Form S-3ASR (333-189986). Additionally, upon the achievement of certain financial and retention targets, the selling stockholders have received or will be eligible for contingent consideration paid by the future issuance of the Company's common stock. The resale of all of such shares has been registered pursuant to this Registration Statement. The number of shares that have been issued to the selling stockholders or that could be issued to the selling stockholders as part of a future issuance is based on the 10-day average closing price of our common stock \$24.81 per share as reported on the Nasdaq Global Select Market from June 25, 2013 through July 9, 2013.

Our principal executive offices are located at 3220 Tillman Drive, Suite 300, Bensalem, Pennsylvania 19020. Our telephone number at such location is (215) 639-4274.

SUMMARY OF THE OFFERING

This prospectus relates to the offer and sale, from time to time, of up to 1,005,138 shares of our common stock by the selling stockholders listed below. The shares of common stock being offered under this prospectus were acquired (or with respect to 705,360 shares will be acquired upon the achievement of certain financial targets) from us by the selling stockholders in connection with our acquisition of the assets of Platinum Health Services, LLC pursuant to the Asset Purchase Agreement.

Our registration of the resale of our common stock does not necessarily mean that all or any portion of such common stock will be offered for resale by the selling stockholders. We will not receive any proceeds from the sale of our common stock under this prospectus. We have agreed to bear the expenses of registering the shares under all federal and state securities laws.

RISK FACTORS

An investment in our common stock involves a high degree of risk. The risk factors listed below are those that we consider to be material to an investment in our common stock and those which, if realized, could have material adverse effects on our business, financial condition or results of operations as specifically discussed below. We believe these are our most significant risk factors, which may be beyond our control and could cause results to differ significantly from projection. If such an adverse event occurs, the trading price of our common stock could decline, and you could lose all or part of your investment. Before you invest in our common stock, you should be aware of various risks, including those described below. You should carefully consider these risk factors, together with all of the other information included or incorporated by reference in this prospectus, before you decide whether to purchase our common stock. This section includes or refers to certain forward-looking statements. You should refer to the explanation of the qualifications and limitations on such forward-looking statements discussed on page 7.

We provide services to several clients which contribute significantly, on an individual, as well as aggregate basis, to our total revenues.

We have several clients who each have made a contribution to our total consolidated revenues ranging from 3% to 5% for the year ended December 31, 2013 and 3% to 7% for the three and six months ended June 30, 2014. Although we expect to continue the relationship with these clients, there can be no assurance thereof. The loss, individually or in combination, of such clients, or a significant reduction in the revenues we receive from such clients, could have a material adverse effect on the results of operations of our two operating segments. In addition, if any of these clients change or alter current payment terms it could increase our accounts receivable balance and have a material adverse effect on our cash flows and cash and cash equivalents.

Our clients are concentrated in the health care industry which is currently facing considerable legislative proposals to reform it. Many of our clients rely on reimbursement from Medicare, Medicaid and other third-party payors. Rates from such payors may be altered or reduced, thus affecting our Clients' results of operations and cash flows.

We provide our services primarily to providers of long-term and post-acute care. In March 2010, the U.S. Congress enacted the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010, and is considering further legislation to reform healthcare in the United States which could significantly impact our clients. In July 2011, CMS issued final rulings which, among other things, reduced, effective October 1, 2011, Medicare payments to nursing centers by 11.1% and changed the reimbursement for the provision of group

rehabilitation therapy services to Medicare beneficiaries. In January 2013, the U.S. Congress enacted the American Taxpayer Relief Act of 2012, which delayed automatic spending cuts of \$1.2 trillion, including reduced Medicare payments to plans and providers up to 2%. These discretionary spending caps were originally enacted under provisions in the Budget Control Act of 2011, an initiative to reduce the federal deficit through the year 2021, also known as “sequestration.” The sequestration went into effect starting March 2013. In December 2013, the U.S. Congress enacted the Bipartisan Budget Act of 2013, which reduces the impact of the sequestration over the next two years, beginning in fiscal year 2014 and extended the reduction in Medicare payments to plans and providers for two years through the year 2023. Some states have enacted or are considering enacting measures designed to reduce their Medicaid expenditures. We cannot predict what efforts, and to what extent, such legislation and proposals to contain healthcare costs will ultimately impact our clients’ revenues through reimbursement rate modifications. Congress has enacted a number of major laws during the past decade that have significantly altered, or may alter, overall government reimbursement for nursing home services. Because our clients’ revenues are generally highly reliant on Medicare, Medicaid and other third-party payors’ reimbursement funding rates and mechanisms, the overall effect of these laws and trends in the long term care industry have affected and could adversely affect the liquidity of our clients,

resulting in their inability to make payments to us on agreed upon payment terms. These factors, in addition to delays in payments from clients have resulted in, and could continue to result in, significant additional bad debts in the future.

Federal health care reform legislation's eventual impact, including requiring most individuals to have health insurance and establish new regulation on health plans, may adversely affect our operating costs and results of operations.

The Act includes a large number of health-related provisions that become effective over the next several years, including requiring most individuals to have health insurance and establishing new regulations on health plans, effective January 2014. While much of the cost of the recent healthcare legislation enacted will occur on or after January 1, 2015 due to provisions of the legislation being phased in over time, changes to our healthcare cost structure could have an impact on our operating costs. Providing such additional health insurance benefits to our employees or the payment of penalties if such coverage is not provided, would increase our expense. If we are unable to pass-through these charges to our clients to cover this expense, such increases in expense could adversely impact our operating costs and results of operations.

We have clients located in many states which have had and may continue to experience significant budget deficits and such deficits may result in reduction of reimbursements to nursing homes.

Many states, in which our clients are located, have significant budget deficits as a result of lower than projected revenue collections and increased demand for the funding of entitlements. As a result of these and other adverse economic factors, state Medicaid programs are reconsidering previously approved increases in nursing home reimbursement or are considering delaying those increases. Some states have over the past year indicated they may be unable to make entitlement payments, including Medicaid payments to nursing homes. Any disruption or delay in the distribution of Medicaid and related payments to our clients will adversely affect their liquidity and impact their ability to pay us as agreed upon for the services provided.

The Company has substantial investment in the creditworthiness and financial condition of our customers.

The largest current asset on our balance sheet is our accounts and notes receivable balances from our customers. We grant credit to substantially all of our customers. Deterioration in financial condition across a significant component of our customer base could hinder our ability to collect amounts from our customers. The potential causes of such decline include national or local economic downturns, customers' dependence on continued Medicare and Medicaid funding and the impact of additional regulatory actions. When contractual terms are not met, we generally encounter difficulty in collecting amounts due from certain of our clients. Therefore, we have sometimes been required to extend the period of payment for certain clients beyond contractual terms. These clients include those who have terminated service agreements and slow payers experiencing financial difficulties. In making our credit evaluations, in addition to analyzing and anticipating, where possible, the specific cases described above, we consider the general collection risk associated with trends in the long-term care industry. We also establish credit limits, perform ongoing credit evaluation and monitor accounts to minimize the risk of loss. Notwithstanding our efforts to minimize credit risk exposure, our clients could be adversely affected if future industry trends change in such a manner as to negatively impact their cash flows. If our clients experience a negative impact in their cash flows, it would have a material adverse effect on our consolidated results of operations, financial condition and cash flows.

We have a Paid Loss Retrospective Insurance Plan for general liability and workers' compensation insurance.

We self-insure or carry a high deductible, and therefore retain a substantial portion of the risk associated with the expected losses under our general liability and workers compensation programs. Under our insurance plans for general liability and workers' compensation, predetermined loss limits are arranged with our insurance company to limit both

our per occurrence cash outlay and annual insurance plan cost. We regularly evaluate our claims pay-out experience, present value factor and other factors related to the nature of specific claims in arriving at the basis for our accrued insurance claims estimate. Our evaluation is based primarily on current information derived from reviewing our claims experience and industry trends. In the event that our known claims experience and/or industry trends result in an unfavorable change in initial estimates of costs to settle such claims resulting from, among other factors, the severity levels of reported claims and medical cost inflation, it would have an adverse effect on our consolidated results of operations, financial condition and cash flows.

Federal, State and Local tax rules can adversely impact our results of operations and financial position.

We are subject to Federal, State and Local taxes in the United States and Canada. Significant judgment is required in determining the provision of income taxes. We believe our income tax estimates are reasonable. Although, if the Internal Revenue Service or other taxing authority disagrees with a taken tax position and upon final adjudication we are unsuccessful, we could incur additional tax liability, including interest and penalty. Such costs and expenses could have a material adverse impact on our results of operations and financial position. Additionally, the taxability of our services is subject to various interpretations within the taxing

jurisdictions of our markets. Consequently, in the ordinary course of business, a jurisdiction may contest our reporting positions with respect to the application of its tax code to our services. A jurisdiction's conflicting position on the taxability of our services could result in additional tax liabilities which we may not be able to pass on to our clients or could negatively impact our competitive position in the respective location. Additionally, if we or one of our employees fail to comply with applicable tax laws and regulations we could suffer civil or criminal penalties in addition to the delinquent tax assessment. In the taxing jurisdictions where our services have been determined to be subject to tax, the jurisdiction may increase the tax rate assessed on such services. We endeavor to pass-through to our clients such tax increases. In the event we are not able to pass-through any portion of the tax increase, it may have an adverse impact on our gross margin.

Our business and financial results could be adversely affected by unfavorable results of material litigation or governmental inquiries.

We are currently involved in civil litigations and government inquiries which arise in the ordinary course of business. These matters are related to, among other things, general liability, payroll or employee-related matters, as well as inquiries from governmental agencies. Legal actions could result in substantial monetary damages as well as adversely affect our reputation and business status with our clients whether we are ultimately determined to be liable or not. The outcome of litigation, particularly class action and collective action lawsuits and regulatory actions, is difficult to assess or quantify. The plaintiffs in these types of actions may seek recovery of very large or indeterminate amounts, and such amounts may remain unknown for substantial periods of time.

We assess contingencies to determine the degree of probability and range of possible loss of potential accrual in our financial statements. We would accrue an estimated loss contingency in our financial statements if it were probable that a liability had been incurred and the amount of the loss could be reasonably estimated. Due to the unpredictable and unfavorable nature of litigation, assessing contingencies is highly subjective and requires judgments about future events. The amount of actual losses may differ from our current assessment. As a result of the costs and expenses of defending ourselves against lawsuits or claims, and risks and consequences of legal actions, regardless of merit, our results of operations and financial position could be adversely affected or cause variability in our results compared to expectations.

We primarily provide our services pursuant to agreements which have a one year term, cancelable by either party upon 30 to 90 days' notice after the initial 90-day service agreement period.

We do not enter into long-term contractual agreements with our clients for the rendering of our services. Consequently, our clients can unilaterally decrease the amount of services we provide or terminate all services pursuant to the terms of our service agreements. Any loss of a significant number of clients during the first year of providing services, for which we have incurred significant start-up costs or invested in an equipment installation, could in the aggregate materially adversely affect our consolidated results of operations and financial position.

We are dependent on the management experience of our key personnel.

We manage and provide our services through a network of management personnel, from the on-site facility manager up to our executive officers. Therefore, we believe that our ability to recruit and sustain the internal development of managerial personnel is an important factor impacting future operating results and our ability to successfully execute projected growth strategies. Our professional management personnel are the key personnel in maintaining and selling additional services to current clients and obtaining new clients.

We may be adversely affected by inflationary or market fluctuations in the cost of products consumed in providing our services or our cost of labor. Additionally, we rely on certain vendors for housekeeping, laundry and dietary

supplies.

The prices we pay for the principal items we consume in performing our services are dependent primarily on current market prices. We have consolidated certain supply purchases with national vendors through agreements containing negotiated prospective pricing. In the event such vendors are not able to comply with their obligations under the agreements and we are required to seek alternative suppliers, we may incur increased costs of supplies.

Dietary supplies, to a much greater extent than Housekeeping supplies, are impacted by commodity pricing factors, which in many cases are unpredictable and outside of our control. Although we endeavor to pass on to clients such increased costs, from time to time, sporadic unanticipated increases in the costs of certain supply items due to market economic conditions may result in a timing delay in passing on such increases to our clients. It is this type of spike in Dietary supplies' costs that could most adversely affect Dietary's operating performance. The adverse effect would be realized if we delay in passing on such costs to our clients or in instances where we may not be able to pass such increase on to our clients until the time of our next scheduled service billing

4

review. We endeavor to mitigate the impact of unanticipated increase in such supplies' costs through consolidation of vendors, which increases our ability to obtain reduced pricing.

Our cost of labor may be influenced by unanticipated factors in certain market areas or increases in the respective collective bargaining agreements of our clients, to which we assent. A substantial number of our employees are hourly employees whose wage rates are affected by increases in the federal or state minimum wage rate. We are subject to the Fair Labor Standards Act, which governs such matters as minimum wages, overtime and other working conditions. As collective bargaining agreements are renegotiated or minimum wage rates increase, which has occurred or are still scheduled to occur in at least thirteen states during 2014, we may need to increase the wages paid to employees. This may be applicable to not only minimum wage employees but also to employees at wage rates which are currently above the minimum wage. Although we have contractual rights to pass such wage increases through to our clients, our delay in, or inability to pass such wage increases through to our clients could have a material adverse effect on financial condition, results of operations and cash flows.

Any perceived or real health risks related to the food industry could adversely affect our Dietary segment.

We are subject to risks affecting the food industry generally, including food spoilage and food contamination. Our products are susceptible to contamination by disease-producing organisms, or pathogens, such as listeria monocytogenes, salmonella, campylobacter, hepatitis A, trichinosis and generic E. coli. Because these pathogens are generally found in the environment, there is a risk that these pathogens could be introduced to our products as a result of improper handling at the manufacturing, processing or food service level. Our suppliers' manufacturing facilities and products are subject to extensive laws and regulations relating to health, food preparation, sanitation and safety standards. Difficulties or failures by these companies in obtaining any required licenses or approvals or otherwise complying with such laws and regulations could adversely affect our revenue that is generated from these companies. Furthermore, there can be no assurance that compliance with governmental regulations by our suppliers will eliminate the risks related to food safety.

Additionally, the Company may be subject to liability if the consumption of our food products causes injury, illness or death. Even if a product liability claim is unsuccessful or is not fully pursued, the negative publicity surrounding any assertion that the Company's products caused injury or illness could adversely affect the Company's reputation.

Events reported in the media, such as incidents involving food-borne illnesses or food tampering, whether or not accurate, can cause damage to the reputation of our dietary segment. In addition, to the extent there is an outbreak of food related illness in any of our client facilities, it could materially harm our business, results of operations and financial condition.

Our investments may be subject to fluctuating and even negative returns depending upon interest rate movements and financial market conditions.

Although management believes we have a prudent investment policy, we are exposed to fluctuations in interest rates and in the market values of our investment portfolio which could adversely impact our financial condition and results of operations. Our marketable securities are primarily invested in municipal bonds. We believe that our investment criteria which includes reducing our exposure to individual states, requiring certain credit ratings and limiting our investments' duration period, reduces our exposure related to the financial duress and budget shortfalls that many state and local governments currently face.

Market expectations are high and rely greatly on execution of our growth strategy and related increases in financial performance.

Management believes the historical price increases of our Common Stock reflect high market expectations for our future operating results. In particular, our ability to attract new clients, through organic growth or acquisitions, has enabled us to execute our growth strategy and increase market share. Our business strategy focuses on growth and improving profitability through obtaining service agreements with new clients, providing new services to existing clients, obtaining modest price increases on service agreements with clients and maintaining internal cost reduction strategies at our various operational levels. In respect to providing new services to new or existing clients, our strategy is to achieve corresponding profit margins in each of our segments. If, in the event we are not able to continue either historical client revenue and profitability growth rates or projected improvement in such factors, our operating performance may be adversely affected and the high expectations for our market performance may not be met. Any failure to meet the market's high expectations for our revenue and operating results may have an adverse effect on the market price of our Common Stock.

Failure to maintain effective internal control over financial reporting could have a material adverse effect on our ability to report our financial results on a timely and accurate basis.

We are required to maintain internal control over financial reporting pursuant to Rule 13a-15 under the Exchange Act. Failure to maintain such controls could result in misstatements in our financial statements and potentially subject us to sanctions or investigations by the SEC or other regulatory authorities or could cause us to delay the filing of required reports with the SEC and our reporting of financial results. Any of these events could result in a decline in the price of shares of our common stock. Although we have taken steps to maintain our internal control structure as required, we cannot assure you that control deficiencies will not result in a misstatement in the future.

Recent government regulations may impact our ability to distribute dividends or the amount of such dividends to shareholders. Any decrease in or suspension of our dividend could cause our stock price to decline.

We expect to continue to pay a regular quarterly cash dividend. However, our dividend policy and the payment of future cash dividends under the policy are subject to the final determination each quarter by our Board of Directors that (i) the dividend will be made in compliance with laws applicable to the declaration and payment of cash dividends, including Section 1551(b) of the Pennsylvania Business Corporation Law, and (ii) the policy remains in our best interests, which determination will be based on a number of factors, including the impact of changing laws and regulations, economic conditions, our results of operations and/or financial condition, capital resources, the ability to satisfy financial covenants and other factors considered relevant by the Board of Directors. While we have continually increased the amount of our dividends, given these considerations, there can be no assurance these increases will continue and our Board of Directors may increase or decrease the amount of the dividend at any time and may also decide to suspend or discontinue the payment of cash dividends in the future. Any decrease in the amount of the dividend, or suspension or discontinuance of payment of a dividend, could cause our stock price to decline.

We may be unable to successfully integrate the operations of Platinum Health Services, LLC and Platinum Health Services PEO, LLC with our operations.

We acquired the assets of Platinum Health Services, LLC and Platinum Health Services PEO, LLC (collectively "Platinum") on July 12, 2013. We have devoted significant management attention and resources to integrating the operations and business practices of Platinum with our existing operating and business practices. Potential difficulties we have or may encounter as part of the integration process include the following:

- the ability to retain a substantial number of Platinum's existing clients;
- the unanticipated or excessive diversion of management's resources;
- the integration of new operations and personnel and the disruption of, or the loss of momentum in, ongoing operations;
- the failure to achieve expected financial results;
- the inability to implement effective internal controls, procedures and policies for Platinum as required by the Sarbanes-Oxley Act of 2002 within the time periods prescribed thereby;
- the inability to successfully integrate Platinum in a manner that permits us to achieve the full revenue and other benefits anticipated to result from our acquisition of its assets; and
- the potential unknown liabilities and unforeseen incurred expenses or delays associated with the acquisition.

These and other risks could affect our ability to achieve the anticipated benefits of our acquisition of Platinum. In addition, these and other risks related to our acquisition of Platinum could adversely affect our ability to maintain relationships with customers and employees and have a material adverse effect on our business, financial condition and results of operations. If we were unable to successfully address any of these risks, our overall business could be

harméd.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report and documents incorporated by reference into this report may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"), as amended, which are not historical facts but rather are based on current expectations, estimates and projections about our business and industry, our beliefs and assumptions. Words such as "believes," "anticipates," "plans," "expects," "will," "goal," and similar expressions are intended to identify forward-looking statements. The inclusion of forward-looking statements should not be regarded as a representation by us that any of our plans will be achieved. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Such forward-looking information is also subject to various risks and uncertainties. Such risks and uncertainties include, but are not limited to, risks arising from our providing services exclusively to the health care industry, primarily providers of long-term care; credit and collection risks associated with this industry; from having several significant clients who each individually contributed at least 3% with two as high as 7% of our total consolidated revenues for the three and six months ended June 30, 2014; risks associated with our acquisition of Platinum Health Services, LLC; our claims experience related to workers' compensation and general liability insurance; the effects of changes in, or interpretations of laws and regulations governing the industry, our workforce and services provided, including state and local regulations pertaining to the taxability of our services and other labor related matters such as minimum wage increases, as well as the Risk Factors set forth in this Prospectus and in our Filings under the Securities Exchange Act of 1934, as amended.

These factors, in addition to delays in payments from clients and/or clients in bankruptcy or clients for which we are in litigation to collect payment, have resulted in, and could continue to result in, significant additional bad debts in the near future. Additionally, our operating results would be adversely affected if unexpected increases in the costs of labor and labor-related costs, materials, supplies and equipment used in performing services could not be passed on to our clients.

In addition, we believe that to improve our financial performance we must continue to obtain service agreements with new clients, provide new services to existing clients, achieve modest price increases on current service agreements with existing clients and maintain internal cost reduction strategies at our various operational levels. Furthermore, we believe that our ability to sustain the internal development of managerial personnel is an important factor impacting future operating results and successfully executing projected growth strategies.

INCORPORATION BY REFERENCE

The Securities and Exchange Commission allows us to "incorporate by reference" the information we file with them, which means that we can disclose important information to you by referring to those documents. The information we incorporate by reference is considered to be a part of this prospectus and information that we file later with the Securities and Exchange Commission will automatically update and replace this information. We incorporate by reference the documents listed below and any future filings we make with the Securities and Exchange Commission under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934, as amended prior to the termination of this offering:

USE OF PROCEEDS

The selling stockholders will receive all the proceeds from the sale of our common stock under this prospectus. Accordingly, we will not receive any part of the proceeds from the sale of our common stock under this prospectus.

SELLING STOCKHOLDERS

The following table sets forth the name of the selling stockholders, the number of shares beneficially owned by each selling stockholder, the number of shares that may be offered under this prospectus and the number of shares of common stock owned by the selling stockholders after the offering is completed. None of the selling stockholders has been an officer, director or had any material relationship with us within the past three years. All information with respect to beneficial ownership is based upon information obtained from the selling stockholders prior to the date hereof. Information concerning the selling stockholders may change from time to time. The selling stockholders may from time to time offer and sell any or all of the securities under this prospectus. Because the selling stockholders are not obligated to sell the offered securities, we cannot state with certainty the amount of our securities that the selling stockholders will hold upon consummation of any such sales. In addition, since the date on which the selling stockholders provided this information to us, the selling stockholders may have sold, transferred or otherwise disposed of all or a portion of the offered securities.

Assuming all of the shares of common stock being registered for resale are sold, and assuming the selling stockholders does not purchase additional shares in the interim, the selling stockholders will not own any shares of Healthcare Services common stock after completion of this offering.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities.

Our registration of the shares included in this prospectus does not necessarily mean that the selling stockholders will opt to sell any of the shares offered hereby. The shares covered by this prospectus may be sold from time to time by the selling stockholders so long as this prospectus remains in effect.

PLAN OF DISTRIBUTION

The selling stockholders and any of their pledgees, donees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. Subject to compliance with applicable law, the selling stockholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale;
- any other method permitted pursuant to applicable law; and
- distributions to members of Platinum SG Equities LLC, Walnut Court Capital, LLC, Z Capital LLC and SSGG Holdings, LLC.

The selling stockholders may also sell shares under Rule 144 under the Securities Act of 1933, if available, rather than under this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. None of the selling stockholders expects these commissions and discounts to exceed what is customary in the types of transactions involved.

The selling stockholders may from time to time pledge or grant a security interest in some or all of the shares owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell shares of common stock from time to time under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act of 1933 amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

Upon our being notified in writing by the selling stockholders that any material arrangement has been entered into with a broker-dealer for the sale of common stock through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer, a supplement to this prospectus will be filed, if required, pursuant to Rule 424(b) under the Securities Act of 1933, disclosing (i) the name of each such selling stockholder and of the participating broker-dealer(s), (ii) the number of shares involved, (iii) the price at which such shares of common stock were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, (v) that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus, and (vi) other facts material to the transaction.

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act of 1933 in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act of 1933. None of the selling stockholders has advised us of any current plans, arrangements or understandings between any selling stockholder and any underwriter, broker-dealer or agent regarding the sale of our common stock by any selling stockholder.

We are required to pay all fees and expenses incident to the registration of the shares.

LEGAL MATTERS

Certain legal matters in connection with the issuance of the Shares offered hereby have been passed upon for the Company by Olshan Frome Wolosky LLP, 65 East 55th Street, New York, New York 10022. Robert L. Frome, a member of Olshan Frome Wolosky LLP, is a director of the registrant and beneficially owns 30,501 shares and holds options to purchase 38,356 shares of Common Stock of the Company. In addition, an of counsel of such Firm has vested options to purchase 22,855 shares of Common Stock of the Company.

EXPERTS

The audited consolidated financial statements, schedule and management's assessment of the effectiveness of internal control over financial reporting, incorporated by reference in this prospectus and elsewhere in the registration statement have been so incorporated by reference in reliance upon the reports of Grant Thornton LLP, independent registered public accountants, upon the authority of said firm as experts in accounting and auditing.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 14. Other Expenses of Issuance and Distribution.

The following table sets forth the various expenses which will be paid by the Company in connection with the securities being registered. With the exception of the Securities and Exchange Commission registration fee, all amounts shown are estimates.

SEC registration fee	\$3,340.00
Legal fees and expenses	\$7,500.00
Accounting fees and expenses	\$6,000.00
Total	\$16,840.00

ITEM 15. Indemnification of Directors and Officers.

Sections 1741 through 1750 of Subchapter C of Chapter 17 of the Pennsylvania Business Corporation Law (the "BCL") contain, among other things, provisions for mandatory and discretionary indemnification of a corporation's directors, officers and other personnel.

Under Section 1741, unless otherwise limited by its by-laws, a corporation has the power to indemnify directors and officers under certain prescribed circumstances against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with a threatened, pending or completed action or proceeding, whether civil, criminal, administrative or investigative, to which any of them is a party or threatened to be made a party by reason of his being a representative, director or officer of the corporation or serving at the request of the corporation as a representative of another corporation, partnership, joint venture, trust or other enterprise, if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action or proceeding by judgment, order, settlement or conviction or upon a plea of nolo contendere or its equivalent does not of itself create a presumption that the person did not act in good faith and in a manner that he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal proceeding, had reasonable cause to believe that his conduct was unlawful.

Section 1742 provides for indemnification with respect to derivative actions similar to that provided by Section 1741. However, indemnification is not provided under Section 1742 with respect to any claim, issue or matter as to which a director or officer has been adjudged to be liable to the corporation unless and only to the extent that the court of common pleas of the judicial district embracing the county in which the registered office of the corporation is located or the court in which the action was brought determines upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, a director or officer is fairly and reasonably entitled to indemnity for the expenses that the court deems proper.

Section 1743 provides that indemnification against expenses is mandatory to the extent that the director or officer has been successful on the merits or otherwise in defense of any such action or proceeding referred to in Section 1741 or 1742.

Section 1744 provides that unless ordered by a court, any indemnification under Section 1741 or 1742 shall be made by the corporation as authorized in the specific case upon a determination that indemnification of directors and

officers is proper because the director or officer met the applicable standard of conduct, and such determination will be made by the Board of Directors by a majority vote of a quorum of directors not parties to the action or proceeding; if a quorum is not obtainable or if obtainable and a majority of disinterested directors so directs, by independent legal counsel; or by the shareholders.

Section 1745 provides that expenses incurred by a director or officer in defending any action or proceeding referred to in the Subchapter may be paid by the corporation in advance of the final disposition of such action or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined by a court having jurisdiction that he is not entitled to be indemnified by the corporation.

II-1

Section 1746 provides generally that except in any case where the act or failure to act giving rise to the claim for indemnification is determined by a court to have constituted willful misconduct or recklessness, the indemnification and advancement of expenses provided by the Subchapter shall not be deemed exclusive of any other rights to which a director or officer seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of shareholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding that office.

Section 1747 also grants a corporation the power to purchase and maintain insurance on behalf of any director or officer against any liability incurred by him in his capacity as officer or director, whether or not the corporation would have the power to indemnify him against the liability under this Subchapter of the BCL.

Sections 1748 and 1749 apply the indemnification and advancement of expenses provisions contained in the Subchapter to successor corporations resulting from consolidation, merger or division and to service as a representative of a corporation or an employee benefit plan.

The foregoing provisions substantially overlap the provisions of the Pennsylvania Directors' Liability Act, 42 Pa. C.S. ss. 8365, which are also applicable to the Company.

Article XI of the Company's By-laws provides, in part, that the Company shall indemnify its directors, officers, employees and agents to the fullest extent permitted by the BCL.

Article XII of the Company's By-laws provides, in part, that:

"A Director shall not be liable for monetary damages as such for any action taken, or any failure to take action, unless (1): the director has breached or failed to perform the duties of his office under Section 8363 of the Pennsylvania Consolidated Statutes and the breach or failure to perform constitutes self-dealing, willful misconduct or recklessness; provided, however, that the foregoing provision shall not relieve a director of responsibility or liability of a director pursuant to any criminal statute or for the payment of taxes pursuant to local, state or Federal law."

The Company has purchased director and officer liability insurance for its directors and officers.

ITEM 17. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(a) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(b) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into

the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser,

II-3

if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registration will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the Township of Bensalem, Commonwealth of Pennsylvania, on this 6th day of August, 2014.
