Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of  
The Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan

We have audited the accompanying statements of net assets available for benefits of the Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we expressed no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following description of The Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description or the Plan document for more complete information.

The Plan is a qualified defined contribution plan covering all employees of Republic Mortgage Insurance Company, RMIC Corporation, and Republic Mortgage Insurance Company of North Carolina (the "Sponsor"). Employees are eligible to participate in the Plan at the start of their employment and must elect to enroll in the plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC").

Contributions

The Sponsor makes contributions to the Plan at the discretion of the Sponsor's Board of Directors at a sum determined by the Board without regard to current and accumulated profits for the taxable year, for years ending with or within such Plan year. Contributions are allocated to eligible participants based on the participant's eligible compensation to total eligible compensation of all eligible participants.

Participants may contribute up to 25% of their compensation pre-tax and 25% after-tax for a combined maximum of 50% of compensation during any Plan year.

Participants may also make rollover contributions into the Plan from distributions from other qualified plans, as defined in the Plan.

Contributions are subject to certain limitations as prescribed by the Internal Revenue Service with contributions in excess of IRC limits returned to participants or sponsor when determined. There were no excess contributions to be returned to participants based on qualification testing for the years ended December 31, 2011 and 2010, respectively.

Vesting

Participant account balances provided by Sponsor contributions and related allocated Plan earnings become 40% vested after one year of service. Vesting percentages increase by 10% for each of the next four years with full vesting after six years of service.

Participant account balances provided by participant contributions and allocated Plan earnings are always fully vested.

Participant Accounts

A separate account balance is maintained for each participant and is credited with participant contributions, participant rollover contributions from other qualified plans, and allocations of Sponsor contributions, Plan earnings, and forfeitures of terminated participants' non vested accounts. Allocations of Plan earnings are based on participants' daily account balances. Sponsor contributions and forfeitures of non vested accounts are allocated based on eligible annual compensation of participants. The benefit to which a participant is entitled is the participant's vested account.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

Participants direct the investment of their account by electing among a variety of investment options offered by the Plan. Participants may change their investment designation with respect to their account balance and future contributions at any time.

#### Forfeitures

If a participant terminates employment with the Sponsor prior to becoming fully vested, the non vested portion of the Sponsor contributions and allocated earnings thereon are forfeited and are reallocated to eligible participants when the terminated participant incurs a break-in-service. Forfeited amounts are reallocated to the active eligible participants based on eligible participant compensation, as defined in the Plan agreement. Unallocated forfeitures totaled \$38,603 and \$54,925 at December 31, 2011 and 2010, respectively. Of the December 31, 2011 total, \$16,916 will be allocated in 2012.

#### Payment of Benefits

In the event of retirement, disability, or death, accumulated benefits become vested and are distributed to participants or designated beneficiaries by lump-sum payment or through various annuity options.

In the event of termination of employment, participants have the option of receiving vested accumulated benefits through lump-sum distributions, leaving the vested value of their accounts in the Plan until retirement or transferring amounts into an individual retirement account.

Participants may withdraw after-tax voluntary contributions at any time. Participants may withdraw pre-tax voluntary contributions at age 59½ or for financial hardship purposes.

Participants may elect to take early withdrawals of employer contributions if they have participated in the Plan for at least five years and in-service distributions after attaining age 59½. Such early withdrawals will not result in suspension of Sponsor contribution allocations.

Net assets at December 31, 2011 and 2010, included funds totaling \$14,080,130 and \$11,897,883, respectively, which represent the account balance of retired and terminated participants who have elected to leave their funds in the Plan upon retirement or termination.

#### Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have no more than two loans outstanding at one time. Loans plus interest must be repaid within five years through payroll deductions. These loans bear interest at the prevailing prime rate at the loan inception date. The loans are collateralized by the vested balance in the participant's account. Outstanding loans of terminated participants are repaid prior to distribution of the participant's account balance or the outstanding loans are repaid from the participant's account balance before distribution.

#### Partial Plan Termination

Beginning in September, 2011 and continuing into 2012, the Sponsor has experienced significant economic challenges. These issues have resulted in a series of large staff reductions at the Sponsor which have three major impacts on the Plan. In accordance with the rules and regulations of the Employee Retirement Income Security Act of 1974 (ERISA), the Internal Revenue Code (IRC), and plan documents, these actions are considered a Partial Plan Termination. The Plan is impacted by (1) reduced number of active participants; (2) acceleration of the vesting

schedule for those Participants that are involuntarily terminated by the Plan Sponsor; and (3) a market value adjustment to the Insurance Company Guaranteed Investment Account for those terminated Participants who were invested in that option. The Plan remains a viable qualified defined contribution plan for those participants remaining with the Sponsor.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The Plan prepares its financial statements under accounting principles generally accepted in the United States.

### Investment Valuation and Income Recognition

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Net appreciation (depreciation) in fair value of investments includes unrealized and realized gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

### Unit Values

Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

### Benefits and Withdrawals

Benefits and withdrawals are recorded when paid. At December 31, 2011 and 2010, there were no significant amounts due but unpaid to participants.

### Income Tax Status

The Plan obtained its latest determination letter on May 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

### Plan Expenses

Costs of administering the Plan are paid by the Sponsor except for investment management fees of individual fund investments which are charged to the respective investment and included in the net appreciation (depreciation) of the investment. Participating loan processing fees are charged as a reduction to the respective participant accounts.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

#### Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### Subsequent Events Policy

Subsequent events have been evaluated through the date the financial statements were issued.

**New Accounting Pronouncements** - The following new accounting pronouncements were adopted during year ended December 31, 2011.

**Fair value disclosures** – In January 2010, the Financial Accounting Standards Board (“FASB”) issued guidance which expanded the required disclosures about fair value measurements. This guidance requires information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements and is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

**Fair value measurements** – In May 2011, the FASB issued guidance requiring the categorization by level of items that are disclosed at fair value and information about transfers between Level 1 and Level 2. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company is currently evaluating the impact that this guidance will have on the Plan’s financial statement disclosures.

Net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

#### Reclassification

Certain items from the 2010 financial statements have been reclassified to conform with the 2011 presentation.

### 3. Investments

The Plan is invested in a group annuity contract with the Massachusetts Mutual Life Insurance Company (the “Trustee”). The contract allows for a participant-directed investment program in pooled separate accounts sponsored by the Trustee. Investment options include fixed income, asset allocation, domestic equity, and international equity subaccount options and a guaranteed investment account. In addition to the investment options offered through the Trustee, participants may also invest in common stock of the Sponsor’s parent, Old Republic International (“ORI”).

#### A. Summary of Investments

The following is a summary of investments held at December 31, 2011 and 2010.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

	2011	2010
Investments at fair value		
Insurance company pooled separate accounts:		
Select Indexed Equity (Northern Trust)	\$2,573,217 *	\$2,600,296 *
Select Large Cap Value (Davis)	2,516,891 *	3,335,173 *
Other pooled separate accounts	14,304,791	17,007,845
	19,394,899	22,943,314
Insurance Company Guaranteed Investment Account (a)	28,552,278 *	25,619,731 *
Old Republic International Corporation (ORI) Common Stock Fund	2,887,727 *	4,801,056 *
	\$50,834,904	\$53,364,101

\*Exceeds 5% of net Plan assets at December 31, 2011 and 2010.

(a) The contract value of the insurance company guaranteed investment account was \$25,172,604 and \$22,913,427 at December 31, 2011 and 2010, respectively.

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Insurance Company Pooled Separate Accounts	\$(488,180)
ORI Common Stock Fund	(1,372,994)
Guaranteed Investment Account	
market value adjustment	612,487
	\$(1,248,687)

#### B. Fair Value Measurements

The Plan's investments are stated at fair value in the accompanying statements of net assets available for benefits. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at the measurement date. A fair value hierarchy is established that prioritizes the sources ("inputs") used to measure fair value into three broad levels: inputs based on quoted prices in active markets (Level 1); observable inputs based on corroboration with available market data (Level 2); and unobservable inputs based on uncorroborated market data or a reporting entity's own assumptions (Level 3).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The valuation methodologies used for assets measured at fair value are discussed further in Note 2. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Edgar Filing: OLD REPUBLIC INTERNATIONAL CORP - Form 11-K

- Level 1                      Securities include publicly traded common stocks.
- Level 2                      Securities include pooled separate accounts.
- Level 3                      Securities include guaranteed investment contracts.

	\$4,801,056	\$22,943,314	\$25,619,731	\$53,364,101

## Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

	Guaranteed Investment Account
Balance, beginning of year	\$25,619,731
Interest income	805,816

Contract to fair value adjustment	673,369
Purchases	4,366,672
Sales	(2,913,310)
Balance, end of year	\$28,552,278

The Republic Mortgage Insurance Company and Affiliated Companies  
 Profit Sharing Plan  
 Notes to Financial Statements

---

### C. Guaranteed Investment Account

The Plan holds an investment contract with Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company maintains the contributions in a general investment account. The account is credited with earnings at the guaranteed crediting interest rates in affect for the six month period beginning April 1 and October 1 and is charged for participant withdrawals and administrative expenses. The guaranteed interest rates at April 1, 2011 and October 1, 2011 were 3.4% and 3.4%, respectively, and 3.5% and 3.5% at April 1, 2010 and October 1, 2010, respectively. The guaranteed investment account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment account. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an interest rate agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a semiannual basis (April 1 and October 1) for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2011	2010
Based on actual earnings	2.98%	3.07%
Based on interest rate credited to participants	2.98%	3.07%

### 4. Party In Interest Transactions

The Old Republic common stock fund consists of Old Republic International Corporation common stock, the parent of the company.

Certain Plan investments are pooled separate accounts and a guaranteed investment account sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the

Sponsor on behalf of the Plan for the investment management services amounted to \$4,727 for the year ended December 31, 2011.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their employer accounts.

6. Risks and Uncertainties

The Plan offers investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
