EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis ("CDA") describes our compensation philosophy, policies and practices with respect to our Principal Executive Officer ("PEO"), Principal Financial Officer ("PFO") and the other individuals named in the "Summary Compensation Table" below, who are collectively referred to as the Named Executive Officers ("NEOs") for the fiscal year ended February 28, 2010. It includes information regarding the Company's overall compensation objectives and each element of compensation that we provide. The Company's compensation policies and practices were evaluated to ensure that they do not encourage risk taking. Based on this assessment, the Company concluded that it has a balanced pay and performance program that does not promote excessive risk taking.

The principal elements of our executive compensation programs are base salary, annual performance based cash bonuses, short-term and long-term equity incentive awards in the form of stock options, a deferred compensation program, supplemental executive term life insurance and disability plans, certain perquisites and other benefits such as a 401(k) and Profit Sharing Plan with employer matching contributions, a Cash Bonus Profit Sharing Plan and health and welfare plans that are generally available to all of our salaried employees. The Company's objective is that the total compensation paid to executive officers and other employees should be competitive with the compensation provided to other persons with similar levels of responsibility at companies of similar size, complexity, revenue and growth potential. The Company's executive compensation practices recognize the caliber, level of experience and performance of management and include meaningful incentives to maximize long term shareholder value while

achieving the Company's short term financial objectives.

8

The Compensation Committee, which we refer to in this discussion as the “Committee” reviews and approves compensation for the Company’s PEO, PFO, other NEOs and directors, subject to Board of Director approval. Periodically, the Committee reviews relevant competitive data provided by third party compensation professionals, the internal human resource department and the observations and recommendations of the Company’s executive management. In addition, the PEO submits recommended compensation levels for other executive officers of the Company to the Committee for its review and approval. The Committee has the discretion to modify any compensation recommendations by management.

The Role of Company Executives in the Compensation Process

Although the compensation process is managed and driven by and decisions are made by the Committee, the recommendations of certain Company executive officers are taken into account in connection with setting the compensation of other executive officers. As described above, the PEO makes initial recommendations with respect to executive officers other than himself. Executive officers also participate in the preparation of materials requested by the Committee for use and consideration at the Compensation Committee meetings.

Compensation Philosophy and Policies

The Committee has designed the Company’s compensation program to promote individual performance and to be competitive with market practices in order to attract, retain, and motivate talented individuals in the consumer electronics industry, taking into account relative size, performance and geographic location as well as individual responsibilities and performance. The Company’s compensation program also seeks to hold our executives accountable and reward them appropriately for the success of the Company. Accordingly, the Committee strives to create an executive compensation program that is competitive as well as reflective of Company-wide strategic objectives and individual performance.

The Committee recognizes that certain elements of compensation are better suited to achieving different compensation objectives. The Committee believes that: (i) base salaries, which are based on market practices of similar companies, are designed to attract and retain our executives; (ii) bonuses are designed to motivate our executives to achieve specific corporate and personal performance goals and to share in the Company profits; (iii) equity incentive awards are designed to align the interest of our executive officers and shareholders by (a) motivating and rewarding the executive officer when shareholder value increases and (b) reward the executive officer for continued future service; (iv) deferred compensation plans are designed to provide our executives with supplemental retirement benefits by permitting the deferral of additional salary and bonuses with a limited employer matching contribution; (v) supplemental executive term life insurance and disability plans are designed to provide our executives and their families with supplemental benefits in accordance with market practices, and; (vi) other elements of compensation are primarily based on market practices.

The Committee’s philosophy for other benefits, such as general retirement and health and welfare benefits, is to make these benefits available to employees on a non-discriminatory basis. The Company’s compensation philosophy is designed to structure its compensation policy so that executive compensation is dependent on the achievement of corporate objectives and on the long-term increases in shareholder value.

The Company’s executive compensation programs are designed to achieve the following objectives:

- Offer a total compensation package that is competitive with the compensation levels and practices of peer companies;

• Motivate and reward executives whose performance is important to the Company's continued growth, profitability and success;

• Align a portion of executive compensation to the Company's financial strategic objectives and the executive's individual contributions toward those objectives;

- Align the interest of the Company's executives with the long term interests of its shareholders;

• Motivate executives to work together to achieve corporate goals by linking the annual cash incentives to the achievement of those corporate goals and;

- Provide incentives that promote executive retention.

The Company has engaged performance compensation consultants in the past to assist the Committee in reviewing the compensation programs for its executive officers and other officers of the Company. The consultants provided the Committee with relevant market data and alternatives to consider when making compensation decisions regarding the PEO, PFO and the Company's other executives. The review encompassed total compensation components, peer compensation levels and the link between cash incentive compensation, plan results and Company performance and included executive compensation trends and developments which were reviewed by the Company's Board of Directors. One of the recommendations considered was to continue to utilize stock-based compensation, profit sharing and other forms of equity and non-equity awards to motivate and retain its executives.

Principal Elements of our Executive Compensation Programs

This section describes the various elements of our compensation programs for our NEOs, with a discussion of the Committee's reasons for including a particular item in the compensation program. The Company's executive compensation program has five principal components that are discussed below.

Executive Base Salary

The Company provides our NEOs and other employees with a base salary to compensate them for services rendered during the fiscal year. Annual base salary ranges are determined for each executive, on a case-by-case basis, based on the position, the individual level of responsibility and performance, and the unique value and historical contributions made to the Company's success. The Committee reviews salaries each year as part of the Company's annual performance review process as well as upon a promotion or other change in job responsibility. In addition, the base salaries of our NEOs and other employees are periodically reviewed and measured against market data provided by outside consultants and the Company's internal human resources group. The Committee reviews base salary recommendations from the PEO for our other executive officers other than the PEO. Based upon this review process, the Committee approves base salaries for our executive officers. The Committee believes that the base salaries for our executive officers are based on levels commensurate with competitive amounts paid to executives with comparable qualifications at companies engaged in similar businesses or in the same region and of similar size.

2010 Executive Incentive Bonus Plan

Executive bonuses are used to motivate individuals and to reward our executives for the achievement of the Company's financial objectives and their individual performance goals. Bonus formulas are approved by the Committee at the beginning of the fiscal year and are paid on an annual basis after the completion of the fiscal bonus year. Under our bonus programs, the Chairman of the Board and the Chief Financial Officer's bonuses are based upon the Company's pre-tax earnings, except for extraordinary items.

For Fiscal 2010, Mr. Shalam's bonus was 3% or \$417,874 of consolidated pre-tax earnings of the Company and Mr. Stoehr's bonus was .75% or \$102,204 of consolidated pre-tax earnings. The Chief Executive Officer's bonus required attainment of targeted pre-tax earnings of the Company for Fiscal 2010 (see section on Employment Agreements for further discussion). As the Company earned pre-tax profits in excess of \$10,000,000, the first and second pre-tax bonus targets were met. Accordingly, the CEO received a bonus of \$500,000 for Fiscal 2010.

For Fiscal 2010, Mr. Malone's bonus was determined by multiplying the return on sales percentage by the pre-tax income (if applicable) of Audiovox Electronics Corp. The return on sales percent is capped at five (5%) percent with a guaranteed minimum annual aggregate salary and bonus of \$500,000. For Fiscal 2010, Audiovox Electronics Corp. had a pre-tax loss. Mr. Malone earned a bonus of \$275,000 as a result of the guaranteed minimum, which was subject to adjustment per the Overhead Reduction Program outlined below.

Mrs. Shelton's bonus is determined by the achievement of individual performance goals (as determined by the PEO) plus \$30,000 upon the achievement of consolidated pre-tax earnings of \$5,000,000, plus \$40,000 upon the achievement of consolidated pre-tax earnings of \$10,000,000, \$20,000 upon the achievement of consolidated pre-tax earnings of \$20,000,000, and \$20,000 upon the achievement of consolidated pre-tax earnings of \$30,000,000. For Fiscal 2010, Mrs. Shelton earned a bonus of \$100,000.

Other executive officers' bonuses are based on a target of 20% of the executive's base salary. The Committee based 50% of the executive officers' bonus on the achievement of corporate profitability targets during the fiscal year and 50% of the bonus was based on achievement of individual performance targets. The Committee believes that incentive cash bonuses should have an individual component that an executive directly contributes to and a corporate component that an executive indirectly contributes to. Individual performance objectives are determined by the executive officer to which the potential bonus recipient reports. At times, the Committee will approve additional discretionary cash bonus awards that the PEO recommends for certain executives based on individual performance levels that exceed expectations or for the successful completion of special strategic projects or events. During Fiscal 2010, the other executive officers' bonuses were 20%.

The Committee also reviews the unique circumstances involved in the recruitment of the Company's executive officers and will approve the payment of hiring bonuses if, in the judgment of the Committee, such payments are necessary to successfully recruit certain executives.

Executive Stock Based Compensation Awards

The Company's Stock Based Compensation Incentive Plan (the "Stock Based Incentive Plan") encourages participants to focus on long-term Company performance and provides an opportunity for our executives and designated key employees to increase their ownership in the Company through grants of the Company's common stock or grants of stock options. The Stock Based Incentive Plan provides for restricted stock grants and option grants to executive officers, employees and outside directors. The purpose of the Company's Stock Based Incentive Plan is to provide additional incentive to our executives, directors, and other employees whose substantial contributions are essential to the continued growth and success of the Company's business. Grants of stock or options are designed to strengthen their commitment to the Company, to motivate such persons to faithfully and diligently perform their responsibilities and to attract and retain competent and dedicated individuals whose efforts will result in the long-term growth and profitability of the Company. Additionally, the purpose of the Stock Based Incentive Plan is to secure for the Company and its shareholders the benefits of the incentive inherent in increased common stock ownership by our executives and the members of the board who are not employees of the Company who drive, direct and execute the Company's strategic objectives.

The Committee administers the Company's Stock Based Incentive Plan for our executive officers, employees, and outside directors. Stock based compensation is primarily composed of stock option grants and is intended to focus our executives on creating long-term stockholder value. The Committee will periodically grant stock options to executives who are responsible for designing and implementing the Company's long-range strategic plan. At its discretion, the Committee also grants options based on individual and corporate achievements. Under these plans, the Committee grants options to purchase common stock, with an exercise price equal to or above the fair market value of the common stock on the date of grant. To date, the Committee has never elected to re-price outstanding options. The Committee believes that providing stock options to the executive officers, who are responsible for the Company's management and growth, gives them an opportunity to own the Company's stock and better aligns their interests with the interests of our shareholders. The Plan also promotes the retention of our executives due to the vesting provisions of the option grant and the potential upside for stock price appreciation. Recent option grants vest over a

pre-determined period and expire two or three years from vesting date.

The Committee approves grants made to the PEO, PFO, directors and other executive officers and, in certain cases, recommends grants to the entire board for its approval. The Committee determines the number of shares underlying each stock option grant based upon the executive level and years of service, the Company's performance and the executives' individual roles and responsibilities. As discussed above, the Company typically reviews salaries, bonuses, other benefits and stock option grants on an annual basis. This process typically begins during the fourth quarter and is completed before the fiscal year end or shortly thereafter. The Committee determined that options would typically be granted annually in each fiscal year. In addition, in the event that an executive officer or a designated key employee is hired during the year, the Committee may make a discretionary grant at the commencement of employment.

During Fiscal 2010, the Committee awarded additional stock options to the Chairman and named executive officers with an exercise price of \$6.37 per share, with an equal number of shares vesting on November 30, 2009 and November 30, 2010. In addition, during Fiscal 2010, 320,000 of prior stock option awards with an exercise price of \$15.00 expired unexercised. The number of awards for the Chairman and each named executive officer is set forth in the Outstanding Equity Awards at 2010 Fiscal Year End table below.

For these reasons, the Committee considers stock options as an important element of compensation when it reviews our executive officer compensation programs.

Executive Deferred Compensation Plan

The Company has a nonqualified Deferred Compensation Plan (the "Deferred Compensation Plan") for a select group of executives, including the NEOs. The Plan is intended to provide certain executives the ability to defer additional salary and bonuses, in addition to those amounts that are permitted to be deferred under the Company's 401(k) and Profit Sharing Plan. The Deferred Compensation Plan provides for an employer matching contribution equal to 25% of the employee deferrals up to \$20,000 or a maximum employer matching contribution of \$5,000 per year, which vests immediately. For fiscal 2010, the Company continued its temporary suspension of employer matching contributions in connection with the Overhead Reduction Program outlined below. Except for Mr. Lavelle's compensation arrangement, the Company is under no obligation to set aside any additional funds for the purpose of making payments under the Plan. In accordance with Mr. Lavelle's Fiscal 2010 compensation arrangement, the Company is required to contribute \$250,000 annually into a separate deferred compensation account (the "Lavelle Account") on his behalf and benefit. The employer contributions into this account are invested by the Company in certain mutual funds. All earnings and losses are allocated directly to this account and all employer contributions and earnings thereon vest immediately. Contributions and earnings and the total account balance on this account as of the end of the 2010 fiscal year are shown in the Nonqualified Deferred Compensation table for Mr. Lavelle on page 25 of this proxy statement.

The Deferred Compensation Plan is not intended to be a qualified plan under the provisions of the Internal Revenue Code. All compensation deferred under the Plan is held by the Company in a "Rabbi" investment trust and invested by the participant among a number of mutual funds. Earnings and losses are allocated to the participant's individual account. Company contributions are vested immediately. The Committee has the option of amending or terminating the Plan at any time. Contributions and earnings on those contributions and total account balances as of the end of the 2010 fiscal year are shown for our NEOs in the Nonqualified Deferred Compensation table on page 25 of this proxy statement.

Perquisites and Other Benefits

Our executives are eligible to participate in all of our employee benefit plans, such as medical, dental, group life and disability insurance plans, our 401(k) and profit sharing plan, the Cash Bonus Profit Sharing Plan, in each case on the same basis as our other employees. In addition, certain executives, including our NEOs, receive additional benefits, including supplemental life insurance, supplemental short-term and long-term disability benefits, car allowances or mileage reimbursements, and reimbursement of business related expenses.

Tax and Accounting Implications of the Executive Compensation Program

It is the Committee's goal that the Company's executive compensation programs maximize the benefit of tax laws and accounting requirements, while meeting the Company's compensation policies and objectives. Section 162(m) of the Internal Revenue Code imposes a \$1 million limit on the amount that a public company may deduct for compensation paid to the Company's PEO or other NEOs. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualified performance based" compensation. The Committee believes it is desirable and in the Company's best interest to deduct compensation payable to our executive officers. Accordingly, the Committee considers the anticipated tax treatment to our Company and our executive officers in the review and establishment of compensation programs and payments. The Committee will continue to monitor the executive compensation programs to preserve the related Federal income tax deductions.

The board and the Compensation Committee reserve the authority to award non-deductible compensation in other circumstances as they deem appropriate. Further, because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, no assurance can be given, notwithstanding the Company's efforts, that compensation intended by the Company to satisfy the requirements for deductibility under Section 162(m) does in fact do so.

We adopted ASC 718 (formerly SFAS No. 123R) ("ASC 718") effective December 1, 2005. In determining equity compensation awards for Fiscal 2010, we generally considered the potential expense of our compensation awards under ASC 718 and the impact on earnings per share. We concluded that the award levels are in the best interests of our shareholders given competitive compensation practices among our peer companies, the awards' potential expense, our performance and the impact of the awards on executive motivation and retention.

Severance and Termination Benefits

With the exception of Mr. Lavelle's Employment Agreement (as defined below), we do not have a formal written severance plan or severance agreement with any executive, including our NEOs. However, we have in the past and may in the future provide severance benefits to our executives on a case-by-case basis, after taking into consideration the reason for termination and other factors present at the time of separation. The Company does not have any formal written agreements with any of our executives as it relates to change in control benefits or payments. However, the Committee reserves the right to enter into such arrangements with our NEOs.

Employment Agreements

On June 11, 2007 the Company's Board of Directors authorized and approved a three-year employment contract effective March 1, 2007 with Mr. Patrick M. Lavelle (the "Employment Agreement"). A copy of the Employment Agreement was filed as Exhibit 10 to the Company's Report on Form 8-K filed on June 15, 2007 with the Securities and Exchange Commission.

The Employment Agreement will be automatically renewed for successive one year periods unless either party notifies the other of his or its intention not to renew the Employment Agreement not less than one hundred eighty (180) days prior to the expiration of the initial or any renewal term, as the case may be. On March 1, 2010, the contract automatically renewed for one year.

During the term of the Employment Agreement the Company will pay Mr. Lavelle an annual base salary of Seven Hundred Fifty Thousand Dollars (\$750,000) per annum. Pursuant to the Employment Agreement, Mr. Lavelle,

effective as of the first fiscal year the Company achieves any year-end pre-tax profit, and for each fiscal year thereafter during the employment period, shall have credited to the Lavelle Account Two Hundred Fifty Thousand Dollars (\$250,000) for Mr. Lavelle's benefit, which sum shall be in addition to any other amounts that the Company may be required to pay for Mr. Lavelle's benefit under any deferred compensation plan established for the benefit of Mr. Lavelle and/or any other key executives of the Company.

In addition, the Company will pay Mr. Lavelle an annual bonus of Two Hundred Fifty Thousand Dollars (\$250,000) for each and every Five Million Dollars (\$5,000,000) of pre-tax profit earned by the Company during the fiscal year. In addition, the Employment Agreement provides for an annual discretionary merit based bonus, at the sole discretion of the board, based on the Company's performance.

In the event of the termination of Mr. Lavelle's employment, by the Company with or without cause, by Mr. Lavelle with or without good reason or by virtue of Mr. Lavelle's death or disability, Mr. Lavelle will be entitled to certain payments, continuation of benefits and vesting of stock based compensation depending on the reason for termination as more specifically set forth in the Employment Agreement.

Mr. Lavelle is subject to a confidentiality restriction during his employment and thereafter, and to non-compete, non-solicitation and non-disparagement restrictions during his employment and for 24 months following termination.

The above is a summary of the terms of the Employment Agreement and is qualified in its entirety by reference to the Employment Agreement.

Overhead Reduction Program

In January 2008, our PEO put into place a broad overhead reduction plan across all internal departments. This plan was modified during Fiscal 2010 and remains in effect as of the date of this report. The plan occurred in various phases. The initial component provided for a temporary mandated 10% reduction in base salary of our Senior Vice Presidents and above. The remaining components initiated during the fourth quarter of Fiscal 2009 mandated the following additional reductions:

• The Chairman received additional reductions to total 25% during Fiscal 2009. During the first half of Fiscal 2010, the Chairman temporarily relinquished all but 2% of his salary.

- The Chief Executive Officer received additional reductions for a total reduction of 25% in base salary.

• Divisional Presidents received additional reductions for a total reduction of 15% in base salary (including guaranteed minimums, if applicable).

• Vice Presidents received a reduction of 10% in base salary to mirror those previously implemented for Senior Vice Presidents.

- All other employees received a reduction of 10% in base salary.

In April 2010, one-half of the 10% reduction was restored for all employees below Vice President. When the reduction program is ended, remaining base salary reductions will be restored prospectively. Accordingly, the impact of base salary reductions for executives presented are reflected in the Salary column in the Fiscal 2010 Summary Compensation Table.

As part of the Overhead Reduction Program, the Company has continued the temporary suspension of the matching portion related to the Company's 401(k) Plan and Deferred Compensation Plan outlined in their respective sections of this proxy.

401(k) and Profit Sharing Plan

The Company has a 401(k) plan for eligible employees. The Company matches a portion of the participant's contributions in the amount of 50% of elective deferrals up to a maximum of 6% of eligible compensation after three months of service. Shares of the Company's common stock are not an investment option in the Savings Plan and the Company does not use such shares to match participants' contributions.

The Company also has a Profit Sharing Plan that allows the Company to make discretionary profit sharing contributions for the benefit of participating employees, including the NEOs, for any fiscal year in an amount determined by the Board of Directors. Whether or not the Board of Directors makes a discretionary contribution, the size of the contribution is dependent upon the performance of the Company. A participant's share of the discretionary contribution is determined pursuant to the participant's eligible wages for the fiscal year as a percentage of eligible wages for all participants for the fiscal year. During Fiscal 2010, the board did not make a discretionary profit sharing contribution to the Plan.

Cash Bonus Profit Sharing Plan

The Company has a Cash Bonus Profit Sharing Plan that allows the Company to make profit sharing contributions for the benefit of eligible employees, including NEOs, for any fiscal year in an amount not to exceed 3.5% of pre-tax profits or \$2.5 million. If pre-tax profits in any given fiscal year do not exceed \$3 million, there will be no contribution to the Cash Bonus Profit Sharing Plan for that fiscal year. The size of the contribution is dependent upon the performance of the Company. A participant's share of the contribution is determined pursuant to the participant's eligible wages for the fiscal year as a percentage of eligible wages for all participants for the fiscal year. The Company elected not to make a cash bonus profit sharing contribution for Fiscal 2010.

Measuring Company Performance for Compensation Purposes

The value of our stock options is based upon the Company's performance, as reflected in the price of its stock and is believed to best reflect the longer-term performance of the Company. Bonuses and other performance-based incentives are based on revenue, operating income targets or pre-tax profits established in connection with the annual budgeting process, or achieving certain strategic goals and are believed to best reflect the short-term performance of the Company.

The following Compensation Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this information by reference therein.
