INNSUITES HOSPITALITY TRUST AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
AS OF JULY 31 AND JANUARY 31, 2012
AND FOR THE THREE AND SIX MONTHS ENDED JULY 31, 2012 AND 2011

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

InnSuites Hospitality Trust (the “Trust”) is an unincorporated real estate investment trust in the State of Ohio that at July 31, 2012 wholly-owned one InnSuites® hotel located in Yuma, Arizona and together with its affiliate RRF Limited Partnership, a Delaware limited partnership (the “Partnership”), wholly-owned another InnSuites® hotel located in Tucson, Arizona, had a 56.12% interest in another hotel located in Tucson, Arizona and had a 71.32% interest in InnSuites® hotel located in Ontario, California. The Trust also owned a direct 42.25% interest in one InnSuites® hotel located in Albuquerque, New Mexico (all five InnSuites® hotels are hereinafter referred to as the “Hotels”). The Trust is the sole general partner in the Partnership. The Hotels are managed by InnSuites Hotels, Inc. (“InnSuites Hotels”), which is a wholly-owned subsidiary of the Trust.

InnSuites Hotels holds management contracts under which it provides hotel management services to the Hotels, as well as three hotels with an aggregate of 439 suites owned by affiliates of James F. Wirth (“Mr. Wirth”), the Trust’s Chairman and Chief Executive Officer. Under the management agreements, InnSuites manages the hotels’ daily operations, for which it receives a percentage of revenue from the hotels and an accounting fee. InnSuites Hotels also holds licensing agreements and the “InnSuites” trademarks and provides licensing services to the Hotels, as well as the three hotels owned by affiliates of Mr. Wirth with an aggregate of 439 suites. Under the licensing agreements with affiliates of Mr. Wirth, InnSuites Hotels receives a fixed monthly fee based on the number of units in the hotel properties in exchange for use of the “InnSuites” trademark. Additionally, InnSuites Hotels provides trademark and reservation services to 58 unrelated hotel properties. Under these licensing agreements with unrelated properties, InnSuites Hotels receives variable monthly fees based on the number of reservations processed for the hotel property and, in certain cases, the gross room revenue of the hotel property.

Effective February 1, 2012, the management agreements were amended for the Hotels and the three hotels owned by affiliates of Mr. Wirth. Under the new agreements, the employees are no longer employees of InnSuites Hotels and are now employees of the hotels at which they work. As such, each hotel is responsible for their employee’s payroll and payroll reimbursements are no longer required. The primary purpose for the amendment was to streamline the administrative and accounting functions between the management company, the Hotels and the three hotels owned by affiliates of Mr. Wirth, which resulted in a more efficient operation.

The Trust’s general partnership interest in the Partnership was 72.04% and 71.98% as of July 31 and January 31, 2012, respectively. The weighted average for the six months ended July 31, 2012 and 2011 was 72.03% and 71.5%, respectively.

PARTNERSHIP AGREEMENT

The Partnership Agreement of the Partnership (the “Partnership Agreement”) provides for the issuance of two classes of limited partnership units, Class A and Class B. Such classes are identical in all respects, except that each Class A limited partnership unit is convertible into a like number of Shares of Beneficial Interest of the Trust at any time at the option of the limited partner. A total of 286,034 and 293,665 Class A limited partnership units were issued and outstanding as of July 31 and January 31, 2012, respectively. Additionally, as of July 31 and January 31, 2012, a total of 3,407,938 Class B limited partnership units were held by Mr. Wirth and his affiliates, in lieu of the issuance of Class A limited partnership units. Each Class B limited partnership unit is identical to Class A limited partnership

units in all respects, except that Class B limited partnership units are convertible only with the approval of the Board of Trustees of the Trust, in its sole discretion. If all of the Class A and B limited partnership units were converted, the limited partners in the Partnership would receive 3,693,972 Shares of Beneficial Interest of the Trust as of July 31, 2012. The Trust held 9,517,545 and 9,509,914 General Partner Units as of July 31 and January 31, 2012, respectively.

BASIS OF PRESENTATION

The financial statements of the Partnership, InnSuites Hotels, Yuma Hospitality LP and Albuquerque Suite Hospitality, LLC are consolidated with the Trust, and all significant intercompany transactions and balances have been eliminated.

These consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions for Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six-month period ended July 31, 2012 are not necessarily indicative of the results that may be expected for the year ending January 31, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in the Trust's Annual Report on Form 10-K as of and for the year ended January 31, 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The accounting policies that the Trust believes are most critical and involve the most subjective judgments include estimates and assumptions of future revenue and expenditures used to project cash flows. Future cash flows are used to determine the recoverability (or impairment) of the carrying values of the Trust's long-lived assets in the event management is required to test an asset for recoverability of carrying value under FASB authoritative guidance related to the impairment or disposal of long-lived assets. The Trust's evaluation of future cash flows is based on historical experience and other factors, including certain economic conditions and committed future bookings. The estimated future cash flows are based upon, among other things, assumptions about expected future operating performance and may differ from actual cash flows.

LIQUIDITY

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico hotel property and our direct ownership of the Yuma, Arizona property. The Partnership's principal source of revenue is hotel operations for the two hotel properties it owns and quarterly distributions from the Tucson Foothills, Arizona property. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability and the Partnership's ability to generate sufficient cash flow from hotel operations.

Hotel operations are significantly affected by occupancy and room rates. Occupancy increased from the first six months of fiscal year 2012 to the first six months of fiscal year 2013, while rates decreased. Results are also significantly impacted by overall economic conditions and specifically conditions in the travel industry. Unfavorable changes in these factors could negatively impact hotel room demand and pricing, which would reduce the Trust's profit margins on rented suites.

The Trust has principal of \$514,000 due and payable for the remainder of fiscal year 2013 under mortgage notes payable. For the period between August 1, 2012 and July 31, 2013, the Trust has principal of \$1.1 million due and payable under mortgage notes payable.

The non-recourse mortgage note payable relating to our Ontario, California property, which is secured by the property and the rents, revenues and profits from the property, matured on May 11, 2011 and was modified on February 14, 2012. The lender reduced the principal balance by \$500,000 and waived all penalties and accumulated interest in exchange for a \$1.0 million pay down of the principal balance by the Trust. The interest rate was lowered from 8.28% to 5.0%, reducing the monthly principal and interest payments to \$31,700 from \$71,100. The note was extended for three years to January 14, 2015. The Trust accounted for the modification as a troubled debt restructure. Based on the terms of the modified mortgage note payable, the total future cash payments of \$7,795,006 consist of \$6,905,289 in principal payments and \$889,717 in interest payments. As such, total future cash payments exceeded the carrying value of the note payable (including accrued interest) of \$7,610,427 at the date of restructure by \$184,579. As a result, there was no gain or loss recorded during the period. In addition, no adjustment was made to the carrying value of the note at the date of restructure. Instead, this requires the Trust to recognize interest expense using an effective interest rate on the debt after the restructuring, which results in \$184,579 of interest expense being recognized over the remainder of the term. In addition, the carrying value is reduced over the remaining term by \$705,138. For the six

months ended July 31, 2012, principal and interest payments of \$1,190,000 were paid, \$29,000 of interest expense was recognized and the carrying value of the old debt was reduced by \$1,161,000.

For the remainder of fiscal year 2013 (August 1, 2012 through January 31, 2013), the Trust's management has projected that cash flows from operations alone may not be sufficient to meet all of the Trust's financial obligations as they come due. Based on this projection, the Trust continues selling non-controlling ownership interests in its Ontario, California subsidiary, providing enough available liquidity for management to believe that the Trust will meet all of its financial obligations as they come due during fiscal year 2013. See Note 5 – "Note Payable to Bank", Note 6 – "Sale of Membership Interests in Albuquerque Suite Hospitality, LLC", Note 7 – "Sale of Partnership Interests in Tucson Hospitality Properties, LP", Note 8 – "Sale of Partnership Interests in Ontario Hospitality Properties, LP" and Part I, Item 1 – "Financial Statements."

We anticipate that current cash balances, future cash flows from operations, proceeds from sales of non-controlling interests in the Ontario subsidiary, and available credit will be sufficient to satisfy our obligations as they become due. The \$500,000 bank line of credit was renewed on June 22, 2012, and we are in negotiations with the lender to increase the credit limit on the line to \$600,000. In the event cash flows from operations are insufficient to satisfy our obligations as they become due, we may seek to refinance properties, negotiate additional credit facilities or issue debt instruments. From sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, we received \$1.6 million during the first six months of fiscal year 2013.

REVENUE RECOGNITION

Room, food and beverage, telecommunications, management and licensing fees and other revenue are recognized as earned as services are provided and items are sold. Prior to February 1, 2012, payroll reimbursements were recorded as the Trust provided its personnel to the hotels under management agreements and were not netted with the corresponding payroll expense. As of February 1, 2012, the employees of each hotel at which they work are employees of the hotel and the hotels are responsible for their employee payrolls, which eliminated payroll reimbursements.

INCOME PER SHARE

Basic and diluted losses per share have been computed based on the weighted-average number of Shares of Beneficial Interest outstanding during the periods and potentially dilutive securities.

For the three- and six-month periods ended July 31, 2012 and 2011, there were Class A and Class B limited partnership units outstanding, which are convertible to Shares of Beneficial Interest of the Trust. Assuming conversion, the aggregate weighted-average incremental increase of the Shares of Beneficial Interest would have been 3,693,972 and 3,774,071 for the second quarter of fiscal year 2013 and 2012, respectively. The aggregate weighted-average incremental increase of the Shares of Beneficial Interest would have been 3,694,894 and 3,764,784 for the first six months of fiscal year 2013 and 2012, respectively. For the periods ended July 31, 2012 and 2011, the Class A and Class B limited partnership units were antidilutive. Therefore, a reconciliation of basic and diluted loss per share is not included.

3. STOCK-BASED COMPENSATION

For the six months ended July 31, 2012, the Trust recognized expenses of \$19,800 related to stock-based compensation. During the six months ended July 31, 2011, the Trust recognized expenses of \$25,920. The Trust issued 18,000 restricted shares with a total market value of \$39,600 in February 2012 as compensation to its three outside Trustees for fiscal year 2013.

The following table summarizes restricted share activity during the six months ended July 31, 2012:

	Restricted Shares	
	Shares	Weighted-Average Per Share Grant Date Fair Value
Balance at January 31, 2012	—	—

Vested	(9,000)	\$2.20
Forfeited	—	—
Balance of unvested awards at July 31, 2012	9,000	\$2.20

4. RELATED PARTY TRANSACTIONS

As of July 31, 2012, the Trust had notes receivable agreements with Rare Earth Financial, an affiliate of Mr. Wirth. The notes bear interest at 7.0% per annum and are interest only quarterly payments. On July 31, 2012 the balance of the notes was \$244,573.

As of July 31, 2012 and 2011, Mr. Wirth and his affiliates held 3,407,938 Class B limited partnership units in the Partnership. As of July 31, 2012 and 2011, Mr. Wirth and his affiliates held 5,573,624 Shares of Beneficial Interest of the Trust.

The Trust recognized related party payroll reimbursement revenue and related payroll expense to Mr. Wirth and his affiliates in the amounts of \$0 and \$1,116,081 for the six months ended July 31, 2012 and 2011, respectively. As of February 1, 2012, the employees of each hotel at which they work are employees of the hotel and the hotels are responsible for their employee payrolls.

See Note 6 – “Sale of Membership Interests in Albuquerque Suite Hospitality, LLC”, Note 7 – “Sale of Partnership Interests in Tucson Hospitality Properties, LP” and Note 8 – “Sale of Partnership Interests in Ontario Hospitality Properties, LP” for

additional information on related party transactions.

5. NOTE PAYABLE TO BANK

As of July 31, 2012, the Trust has a revolving bank line of credit agreement, with a credit limit of \$500,000. The line of credit bears interest at the prime rate plus 1.00% per annum with a 6.0% rate floor and has no financial covenants. As of July 31, 2012, the line was secured by a junior security interest in the Yuma, Arizona property and the Trust's trade receivables. Mr. Wirth is a guarantor on the line of credit. The Trust had drawn funds of \$355,945 on this line of credit as of July 31, 2012. On June 22, 2012, the line of credit was extended for one year to June 23, 2013. See Note 12 – "Subsequent Events" for additional information.

6. SALE OF MEMBERSHIP INTERESTS IN ALBUQUERQUE SUITE HOSPITALITY, LLC

On July 22, 2010, the Board of Trustees unanimously approved, with Mr. Wirth abstaining, for the Partnership to enter into an agreement with Rare Earth Financial, LLC ("Rare Earth"), an affiliate of Mr. Wirth, to sell additional units in Albuquerque Suite Hospitality, LLC (the "Albuquerque entity"), which owns and operates the Albuquerque, New Mexico hotel property. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase at least 51% of the membership interests in the Albuquerque entity and the parties agreed to restructure the operating agreement of the Albuquerque entity. A total of 400 units were available for sale for \$10,000 per unit, with a two-unit minimum subscription. On October 29, 2010, the parties revised the operating agreement.

Under the new operating agreement, Rare Earth became the administrative member of the Albuquerque entity, in charge of the day-to-day management of the company. Additionally, the membership interests in the Albuquerque entity were allocated to three classes with differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Albuquerque entity. Priority distributions are cumulative for five years. Rare Earth also earned a formation fee equal to \$320,000, payable in either cash or units in the Albuquerque entity, which was intended for 32 Class C units in the Albuquerque entity after the sale of at least 160 units. If certain triggering events related to the Albuquerque entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distributions to the members. In the event that the proceeds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are projected to be \$280,000 each year for fiscal years 2013 through 2016. The Albuquerque entity is required to use its best efforts to pay the cumulative priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

On July 29, 2010, the Partnership sold approximately 11% of its sole membership interest in the Albuquerque entity for \$400,000 to Rare Earth. The price paid reflects the net assets of the Albuquerque entity calculated using the third-party appraisal value for the hotel property and the carrying cost of all other assets and liabilities. Subsequently, Rare Earth received an additional 32 units, or approximately 8%, worth \$320,000 as a formation fee resulting in Rare Earth having a total ownership interest of approximately 19% as of January 31, 2011. During the fiscal year ended January 31, 2011, the Partnership sold an additional approximately 47% of its membership interests for \$1,754,000 to unrelated third parties and approximately 1% for \$20,000 to Mr. Lawrence Pelegrin, who is a member of the Trust's Board of Trustees. The transactions were a reduction in the Partnership's controlling interest (see Note 9 – "Variable Interest Entity"), and therefore no gain or loss was reflected in the statements of operations and funds received in excess of cost basis were recorded to equity. On January 24, 2012 the Trust purchased 40 units at \$10,000 per unit from Rare Earth, and on January 31, 2012 the Trust purchased the Partnership's 114 units at \$10,000 per unit by reducing the Trust's receivable from the Partnership. As of July 31, 2012, the Partnership does not hold any ownership interest in the Albuquerque entity, the Trust holds a 42.25 % ownership interest, Mr. Wirth and his affiliates hold an 8.00% interest, and other parties hold a 49.75% interest. The Albuquerque entity has minimum preference payments to unrelated unit holders of \$139,300, to the Trust of \$118,300 and to Rare Earth of \$22,400 per year payable quarterly for calendar years 2014 and 2015. For fiscal year 2013, the Albuquerque entity has remaining minimum preference payments to unrelated unit holders of \$69,650, to the Trust of \$59,150, and to Rare Earth of \$11,200.

See Note 12 – "Subsequent Events" for additional information.

7. SALE OF PARTNERSHIP INTERESTS IN TUCSON HOSPITALITY PROPERTIES, LP

On February 17, 2011, the Trust and Partnership entered into a restructuring agreement with Rare Earth to allow for the sale of minority interest units in Tucson Hospitality Properties, LP (the "Tucson entity"), which operates the Tucson Foothills hotel property and was then wholly-owned by the Partnership. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase up to 250 units, which represents approximately 41% of the outstanding partnership units in the Tucson entity, on a post-transaction basis, and the parties agreed to restructure the limited partnership agreement of the Tucson entity. The Board of Trustees approved this restructuring on January 31, 2011.

Under the restructured limited partnership agreement, Rare Earth became a general partner of the Tucson entity along with the Partnership. The partnership interests in the Tucson entity were allocated to three classes with differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Tucson entity. Priority distributions are cumulative for five years. Rare Earth also received a formation fee of \$320,000, conditioned upon and arising from the sale of the first 160 units in the Tucson entity. If certain triggering events related to the Tucson entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distribution of the proceeds to the members. In the event that funds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are projected to be \$428,400 each year for fiscal years 2013 through 2017. The Tucson entity is required to use its best efforts to pay the priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the cumulative priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

At July 31, 2012, the Partnership had sold 256.52 units to unrelated parties at \$10,000 per unit totaling \$2,565,200. As of July 31, 2012, the Partnership holds a 54.33% ownership interest in the Tucson entity, the Trust holds a 1.80% ownership interest, Mr. Wirth and his affiliates hold a 1.96% interest, and other parties hold a 41.92% interest. The Tucson entity has estimated minimum preference payments to unrelated unit holders of \$179,564, to the Trust of \$7,700, to the Partnership of \$232,736 and to Rare Earth of \$8,400 per year payable quarterly for calendar years 2014 and 2015. For fiscal year 2013, the Tucson entity has remaining minimum preference payments to unrelated unit holders of \$89,782 to the Trust of \$3,850, to the Partnership of \$116,368 and to Rare Earth of \$4,200.

8. SALE OF PARTNERSHIP INTERESTS IN ONTARIO HOSPITALITY PROPERTIES, LP

On February 29, 2012, the Trust and Partnership entered into a restructuring agreement with Rare Earth to allow for the sale of minority interest units in Ontario Hospitality Properties, LP (the "Ontario entity"), which operates the Ontario hotel property and was then wholly-owned by the Partnership. Under the agreement, Rare Earth agreed to either purchase or bring in other investors to purchase up to 250 units, which represents approximately 49% of the outstanding partnership units in the Ontario entity, on a post-transaction basis, and the parties agreed to restructure the limited partnership agreement of the Ontario entity. The Board of Trustees approved this restructuring on February 1, 2012.

Under the restructured limited partnership agreement, Rare Earth became a general partner of the Ontario entity along with the Partnership. The partnership interests in the Ontario entity were allocated to three classes with differing cumulative priority distribution rights. Class A units are owned by unrelated third parties and have first priority for distributions, Class B units are owned by the Trust and/or the Partnership and have second priority for distributions, and Class C units are owned by Rare Earth or other affiliates of Mr. Wirth and have the lowest priority for distributions from the Ontario entity. Priority distributions are cumulative for five years. Rare Earth also received a formation fee of \$320,000, conditioned upon and arising from the sale of the first 160 units in the Ontario entity. If certain triggering events related to the Ontario entity occur prior to the payment of all accumulated distributions to its members, such accumulated distributions will be paid out of any proceeds of the event before general distribution of the proceeds to the members. In the event that funds generated from a triggering event are insufficient to pay the total amount of all such accumulated distributions owed to the members, all Class A members will participate pro rata in the funds available for distribution to them until paid in full, then Class B, and then Class C. After all investors have received their initial capital plus a 7% per annum simple return, any additional profits will be allocated 50% to Rare Earth, with the remaining 50% allocated proportionately to all unit classes. Priority distributions to all Classes are

projected to be \$216,875 for the remainder of fiscal year 2013 and \$433,749 for each of the fiscal years 2014 through 2017. The Ontario entity is required to use its best efforts to pay the priority distributions. The Trust does not guarantee and is not otherwise obligated to pay the cumulative priority distributions. InnSuites Hotels will continue to provide management, licensing and reservation services to the property.

At July 31, 2012, the Partnership had sold 173 units to unrelated parties at \$10,000 per unit totaling \$1,730,000. As of July 31, 2012, the Partnership holds a 71.32% ownership interest in the Ontario entity, Mr. Wirth and his affiliates hold a 1.57% interest, and other parties hold a 27.11% interest. The Ontario entity has estimated minimum preference payments to unrelated unit holders of \$121,100, to the Partnership of \$318,500 and to Rare Earth of \$7,000 per year payable quarterly for calendar years 2014 and 2015. For fiscal year 2013, the Ontario entity has remaining minimum preference payments to unrelated unit holders of \$60,550, to the Partnership of \$159,250 and to Rare Earth of \$3,500.

9. VARIABLE INTEREST ENTITY

Management evaluates the Trust's explicit and implicit variable interests to determine if they have any variable interests in VIEs. Variable interests are contractual, ownership, or other pecuniary interests in an entity whose value changes with changes in the fair value of the entity's net assets, exclusive of variable interests. Explicit variable interests are those which directly absorb the variability of a VIE and can include contractual interests such as loans or guarantees as well as equity investments. An implicit variable interest acts the same as an explicit variable interest except it involves the absorbing of variability indirectly, such as through related party arrangements or implicit guarantees. The analysis includes consideration of the design of the entity, its organizational structure, including decision making ability over the activities that most significantly impact the VIE's economic performance. Generally accepted accounting principles require a reporting entity to consolidate a VIE when the reporting entity has a variable interest, or combination of variable interest, that provides it with a controlling financial interest in the VIE. The entity that consolidates a VIE is referred to as the primary beneficiary of that VIE.

The Partnership has determined that the Albuquerque entity is a variable interest entity with the Partnership as the primary beneficiary. In its determination, management considered the following qualitative and quantitative factors:

- a) The Partnership, Trust and their related parties, which share common ownership and management, have guaranteed material financial obligations of the Albuquerque entity, including its mortgage note payable and distribution obligations, which, based on the capital structure of the Albuquerque entity, management believes could potentially be significant.
- b) The Partnership, Trust and their related parties have maintained, as a group, a controlling ownership interest in the Albuquerque entity, with the largest ownership belonging to the Partnership.
- c) The Partnership, Trust and their related parties have maintained control over the decisions which most impact the financial performance of the Albuquerque entity, including providing the personnel to operate the property on a daily basis.

During the first six months ending July 31, 2012 and 2011, neither the Trust nor the Partnership has provided any implicit or explicit financial support for which they were not previously contracted.

10. STATEMENTS OF CASH FLOWS, SUPPLEMENTAL DISCLOSURES

The Trust paid \$484,255 and \$579,911 in cash for interest for the six months ended July 31, 2012 and 2011, respectively.

During the first six months of fiscal year 2013, the Trust issued a promissory note for \$15,500 to an unrelated third party for the purchase of 7,631 limited partnership units in the Partnership. The note is due in 36 monthly principal and interest installments of \$479 and matures on February 22, 2015.

11. COMMITMENTS AND CONTINGENCIES

Two of the Hotels are subject to non-cancelable ground leases expiring in 2033 and 2050. Total expense associated with the non-cancelable ground leases for the six months ended July 31, 2012 was \$117,739, including a variable component based on gross revenues of each property that totaled approximately \$39,026.

During fiscal year 2010, the Trust entered into a five-year office lease for its corporate headquarters. The Trust recorded \$17,236 and \$14,774 of general and administrative expense related to the lease during the six-month period ended July 31, 2012 and 2011, respectively. The lease includes a base rent charge of \$24,000 for the first lease year

Edgar Filing: INNSUITES HOSPITALITY TRUST - Form 10-Q

with annual increases to a final year base rent of \$39,600. The Trust has the option to cancel the lease after each lease year for penalties of four months rent after the first year with the penalty decreasing by one month's rent each successive lease year. It is the Trust's intention to remain in the office for the duration of the five-year lease period.

Future minimum lease payments under the non-cancelable ground leases and office lease are as follows:

Fiscal Year Ending	
Remainder of 2013 \$	119,880
2014	247,760
2015	228,160
2016	206,560
2017	206,560
Thereafter	5,134,332
Total \$	6,143,252

The Trust is obligated under loan agreements relating to four of its Hotels to deposit 4% of the individual Hotel's room revenue into an escrow account to be used for capital expenditures. The escrow funds applicable to the four Hotel properties for which a mortgage lender escrow exists are reported on the Trust's Consolidated Balance Sheet as "Restricted Cash."

InnSuites Hotels has entered into membership agreements with Best Western International, Inc. for four of the Hotel properties. These agreements provide for fees to be paid by the Hotels based on revenue and reservations received, and contain no minimum payment provisions.

The nature of the operations of the Hotels exposes them to risks of claims and litigation in the normal course of their business. Although the outcome of these matters cannot be determined, management does not expect that the ultimate resolution of these matters will have a material adverse effect on the consolidated financial position, results of operations or liquidity of the Trust.

The Trust is involved from time to time in various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Trust's consolidated financial position, results of operations or liquidity.

12. SUBSEQUENT EVENTS

On August 1, 2012, InnSuites Hospitality Trust agreed to purchase 31.5 units in Albuquerque Suite Hospitality, LLC from Rare Earth for \$10,000 per unit totaling \$315,000. This transaction will increase the Trust ownership interest in Albuquerque Suite Hospitality, LLC to 50.25% from 42.25%, giving the Trust controlling ownership interest.

On August 24, 2012, Yuma Hospitality Properties Limited Partnership paid in full its \$5,000,000 mortgage note payable by borrowing \$5,500,000 on a new mortgage note. The principal balance borrowed on August 24, 2012 was \$5,500,000 and the interest rate is subject to change based on the Wall Street Journal Prime Rate index plus 1.0 percentage point with a rate floor of 5.0%. The collateral for the new note is the Yuma hotel property and the maturity date of the note is September 1, 2022. The note is callable upon demand.

On August 27, 2012, the \$500,000 Bank Line of Credit was amended to collateralize line of credit with a Deed of Trust on Yuma Hospitality Properties Limited Partnership for the full line of credit. Yuma's trade receivables no longer provide part of the collateral for the line of credit. We are in negotiations with the lender to increase the credit limit on the line from \$500,000 to \$600,000.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

The following discussion should be read in conjunction with our unaudited consolidated financial statements and notes thereto appearing elsewhere in this Form 10-Q.

We own the sole general partner's interest in the Partnership. Our principal source of cash flows is from the operations of the Hotels, management and licensing contracts with affiliated and third-party hotels and distributions from the hotels.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In our Annual Report on Form 10-K for the year ended January 31, 2012, we identified the critical accounting policies that affect our more significant estimates and assumptions used in preparing our consolidated financial statements. We believe that the policies we follow for the valuation of our hotel properties, which constitute the majority of our assets, are our most critical policies. Those policies include methods used to recognize and measure any identified impairment of our hotel properties assets. There have been no material changes to our critical accounting policies since January 31, 2012.

LIQUIDITY AND CAPITAL RESOURCES

Our principal source of cash to meet our cash requirements, including distributions to our shareholders, is our share of the Partnership's cash flow, quarterly distributions from the Albuquerque, New Mexico hotel property and our direct ownership of the Yuma, Arizona property. The Partnership's principal source of revenue is hotel operations for the two hotel properties it owns and quarterly distributions from the Tucson Foothills, Arizona property. Our liquidity, including our ability to make distributions to our shareholders, will depend upon our ability and the Partnership's ability to generate sufficient cash flow from hotel operations.

Hotel operations are significantly affected by occupancy and room rates. Occupancy increased from the first six months of fiscal year 2012 to the first six months of fiscal year 2013, while rates decreased. Results are also

significantly impacted by overall economic conditions and specifically conditions in the travel industry. Unfavorable changes in these factors could negatively impact hotel room demand and pricing, which would reduce the Trust's profit margins on rented suites.

The Trust has principal of \$514,000 due and payable for the remainder of fiscal year 2013 under mortgage notes payable. For the period between August 1, 2012 and July 31, 2013, the Trust has principal of \$1.1 million due and payable under mortgage notes payable.

The non-recourse mortgage note payable relating to our Ontario, California property, which is secured by the property and the rents, revenues and profits from the property, matured on May 11, 2011 and was modified on February 14, 2012. The lender reduced the principal balance by \$500,000 and waived all penalties and accumulated interest in exchange for a \$1.0 million pay down of the principal balance by the Trust. The interest rate was lowered from 8.28% to 5.0%, reducing the monthly principal and interest payments to \$31,700 from \$71,100. The note was extended for three years to January 14, 2015. The Trust accounted for the modification as a troubled debt restructure. Based on the terms of the modified mortgage note payable, the total future cash payments of \$7,795,006 consist of \$6,905,289 in principal payments and \$889,717 in interest payments. As such, total future cash payments exceeded the carrying value of the note payable (including accrued interest) of \$7,610,427 at the date of restructure by \$184,579. As a result, there was no gain or loss recorded during the period. In addition, no adjustment was made to the carrying value of the note at the date of restructure. Instead, this requires the Trust to recognize interest expense using an effective interest rate on the debt after the restructuring, which results in \$184,579 of interest expense being recognized over the remainder of the term. In addition, the carrying value is reduced over the remaining term by \$705,138. For the six months ended July 31, 2012, principal and interest payments of \$1,190,000 were paid, \$29,000 of interest expense was recognized and the carrying value of the old debt was reduced by \$1,161,000.

For the remainder of fiscal year 2013 (August 1, 2012 through January 31, 2013), the Trust's management has projected that cash flows from operations alone may not be sufficient to meet all of the Trust's financial obligations as they come due. Based on this projection, the Trust continues selling non-controlling ownership interests in its Ontario, California subsidiary, providing enough available liquidity for management to believe that the Trust will meet all of its financial obligations as they come due during fiscal year 2013. See Note 5 – "Note Payable to Bank", Note 6 – "Sale of Membership Interests in Albuquerque Suite Hospitality, LLC", Note 7 – "Sale of Partnership Interests in Tucson Hospitality Properties, LP", Note 8 – "Sale of Partnership Interests in Ontario Hospitality Properties, LP" and Part I, Item 1 – "Financial Statements."

We anticipate that current cash balances, future cash flows from operations, proceeds from sales of non-controlling interests in the Ontario subsidiary, and available credit will be sufficient to satisfy our obligations as they become due. The \$500,000 bank line of credit was renewed on June 22, 2012, and we are in negotiations with the lender to increase the credit limit on the line to \$600,000. In the event cash flows from operations are insufficient to satisfy our obligations as they become due, we may seek to refinance properties, negotiate additional credit facilities or issue debt instruments. From sales of non-controlling interests in the Ontario and Tucson Foothills subsidiaries, we received \$1.6 million during the first six months of fiscal year 2013.

RESULTS OF OPERATIONS

Our expenses consist primarily of hotel operating expenses, property taxes, insurance, corporate overhead, interest on mortgage debt, professional fees and depreciation of the Hotels. Our operating performance is principally related to the performance of the Hotels. Therefore, management believes that a review of the historical performance of the operations of the Hotels, particularly with respect to occupancy, calculated as rooms sold divided by the number of rooms available, average daily rate (“ADR”), calculated as total room revenue divided by number of rooms sold, and revenue per available room (“REVPAR”), calculated as total room revenue divided by the number of rooms available, is appropriate for understanding revenue from the Hotels. Occupancy was 68.51% for the six months ended July 31, 2012, an increase of 3.66 % from the prior year period. ADR decreased \$3.33, or 4.6%, to \$69.58. The decrease in ADR and increased occupancy resulted in an increase of \$0.39 in REVPAR to \$47.67 from \$47.28 in the prior year period. The increase in occupancy is due to the moderately improving trend in our economy, which caused more vacation and business travelers.

The following table shows occupancy, ADR and REVPAR for the periods indicated:

	FOR THE SIX MONTHS ENDED			
	JULY 31,			
	2012		2011	
OCCUPANCY	68.51	%	64.85	%
AVERAGE DAILY RATE (ADR)	\$69.58		\$72.91	
REVENUE PER AVAILABLE ROOM (REVPAR)	\$47.67		\$47.28	

No assurance can be given that the trends reflected in this data will be maintained or improve or that occupancy, ADR or REVPAR will not decrease as a result of changes in national or local economic or hospitality industry conditions. We expect the improving economic conditions to positively affect our business levels for the remainder of this current fiscal year.

RESULTS OF OPERATIONS FOR THE SIX MONTHS ENDED JULY 31, 2012 COMPARED TO THE SIX MONTHS ENDED JULY 31, 2011

A summary of the operating results for the six months ended July 31, 2012 and 2011 is:

	2012	2011	Change	% Change
Revenue	\$ 8,191,127	\$ 9,034,223	\$ (843,096)	(9.3)%
Operating Income	\$ 227,371	\$ 337,061	\$ (109,690)	(32.5)%
Total Expenses	\$ 8,448,853	\$ 9,468,616	\$ (1,019,763)	(10.8)%
Net Loss Attributable to Controlling				
Interest	\$ (221,777)	\$ (308,881)	\$ 87,104	(28.2)%
Net Loss Per Share – Basic and Diluted	\$ (0.03)	\$ (0.04)	\$ 0.01	(25.0)%

For the six months ended July 31, 2012, our total revenue was \$8.2 million, a decrease of \$843,000, compared with the prior year period total of \$9.0 million. The decrease was due to changing the employees at the Hotels from employees of the management company to employees of each hotel. The management company no longer receives payroll reimbursements, which in the prior year period was \$1.1 million. Revenues from hotel operations, which include Room, Food and Beverage, Telecommunications and Other revenues, increased 3.4% to \$8.2 million for the six months ended July 31, 2012, from \$7.9 million for the six months ended July 31, 2011. Hotel operations, including

Food and Beverage operations, experienced increases in revenues during the first six months of fiscal year 2013 due to higher occupancy as a result of moderately improving economic conditions.

Total operating expenses were \$8.0 million for the six months ended July 31, 2012, a decrease of \$733,000, or 8.4%, from the prior year period total of \$8.7 million. The decrease was due to payroll reimbursement expense of \$1.1 million in the six months ended July 31, 2011 and no payroll reimbursement expense for the six months ended July 31, 2012.

General and administrative expense of \$1.6 million was consistent for the six months ended July 31, 2012, with the prior year period primarily due to effective cost controls.

Repairs and maintenance expense was \$767,000 for the six months ended July 31, 2012, a decrease of \$22,000 or 2.8% under the prior year period total of \$789,000. The decrease was primarily due to lower maintenance labor and operating expenses at the Yuma, Arizona location due to significant maintenance projects at the property during the prior year period.

Operating income was \$227,000 for the six months ended July 31, 2012, a decrease of \$110,000, or 32.5%, from \$337,000 compared to the prior year period. The decrease was primarily due to higher occupancy, which increased expenses, and lower rates, which decreased revenues, at the Hotels during the second quarter of fiscal year 2013. Management is continuing its evaluation of its sales and rate management program at the Hotels.

Net loss attributable to controlling interest improved by \$87,000 for the six month period ended July 31, 2012 to a loss of \$222,000, or \$0.03 per basic share, from a loss of \$309,000, or \$0.04 per basic share, during the six months ended July 31, 2011. This increase was due to greater activity at the hotels and a successful debt restructure for our Ontario property.

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED JULY 31, 2012 COMPARED TO THE THREE MONTHS ENDED JULY 31, 2011

A summary of the operating results for the three months ended July 31, 2012 and 2011 is:

	2012	2011	Change	% Change
Revenue	\$ 3,371,502	\$ 4,035,441	\$ (663,939)	(16.5)%
Operating Loss	\$ (624,969)	\$ (106,141)	\$ (518,828)	>100%
Total Expenses	\$ 4,273,942	\$ 4,525,815	\$ (251,873)	(5.6)%
Net Loss Attributable to Controlling Interest	\$ (683,865)	\$ (358,987)	\$ (324,878)	90.5%
Net Loss Per Share – Basic and Diluted	\$ (0.08)	\$ (0.04)	\$ (0.04)	100.0%

For the three months ended July 31, 2012, our total revenue was \$3.4 million, a decrease of \$664,000, compared with the prior year period total of \$4.0 million. The decrease was primarily due to changing the employees at the Hotels from employees of the management company to employees of each hotel. The management company no longer receives payroll reimbursements, which in the prior year period was \$525,000. Revenues from hotel operations, which include Room, Food and Beverage, Telecommunications and Other revenues, decreased 3.9% to \$3.4 million for the three months ended July 31, 2012, from \$3.5 million for the three months ended July 31, 2011. Hotel operations experienced decreases in revenues during the second quarter of fiscal year 2013, primarily due to higher occupancy at three of our Hotels, which increased expenses, and lower rates, which decreased revenues, at the Hotels. Management is continuing its evaluation of its sales and rate management program at the Hotels. In addition, hotel operations experienced decreases in revenues during the second quarter of fiscal year 2013 due to lower occupancy and ADR at the Yuma hotel.

Total operating expenses were \$4.0 million for the three months ended July 31, 2012, a decrease of \$145,000, or 3.5%, from the prior year period total of \$4.1 million. The decrease was due to payroll reimbursement expense of \$525,000 in the three months ended July 31, 2011 and offset by a \$380,000 increase in other operating expenses for the three months ended July 31, 2012, primarily due to increased occupancy at its Tucson St. Mary's property, increased tax and insurance expenses at the Hotels and an increased sales efforts at the Hotels.

General and administrative expense increased \$49,000 for the three months ended July 31, 2012, or 6.4%, to \$818,000 from \$769,000 in the prior year period primarily due to increased activity at the hotels.

Repairs and maintenance expense was \$371,000 for the three months ended July 31, 2012, an increase of \$7,000, or 2.1%, over the prior year period total of \$364,000.

Operating loss was \$625,000 for the three months ended July 31, 2012, an increase of \$519,000 compared to the prior year period operating loss of \$106,000. Hotel operations experienced decreases in revenues during the second quarter of fiscal year 2013 due to lower occupancy and ADR at the Yuma hotel.

Net loss attributable to controlling interest increased by \$325,000 for the three month period ended July 31, 2012 to \$684,000, or a loss of \$0.08 per basic share, from \$359,000, or a loss of \$0.04 per basic share, during the three months ended July 31, 2011. Hotel operations experienced decreases in revenues during the second quarter of fiscal year 2013 primarily due to lower occupancy and ADR at the Yuma hotel.

ADJUSTED EBITDA

decrease of \$129,000, or 10.5%. Adjusted EBITDA is a non-GAAP financial measure that management believes provides meaningful insight into the Trust's financial performance and its operating profitability before non-operating expenses (such as interest and "other" non-core expenses) and non-cash charges (depreciation and amortization).

A reconciliation of Adjusted EBITDA to net income (loss) attributable to Shareholders of Beneficial Interest for the six month periods ended July 31 follows:

OFF-BALANCE SHEET FINANCINGS AND LIABILITIES

Other than lease commitments and legal contingencies incurred in the normal course of business, we do not have any off-balance sheet financing arrangements or liabilities. We do not have any majority-owned subsidiaries that are not included in the consolidated financial statements. (See Note 2 - "Summary of Significant Accounting Policies.")

SEASONALITY

The Hotels' operations historically have been seasonal. The three southern Arizona hotels experience their highest occupancy in the first fiscal quarter and, to a lesser extent, the fourth fiscal quarter. The second fiscal quarter tends to be the lowest period of occupancy at those three southern Arizona hotels. This seasonality pattern can be expected to cause fluctuations in our quarterly revenue. The two hotels located in California and New Mexico historically experience their most profitable periods during the second and third fiscal quarters (the summer season), providing some balance to the general seasonality of our hotel business. To the extent that cash flows from operations are insufficient during any quarter, because of temporary or seasonal fluctuations in revenue, we may utilize cash on hand or borrowings to make distributions to our shareholders or to meet operating needs. No assurance can be given that we will make distributions in the future.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, the principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of July 31, 2012 to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including the principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of January 31, 2012, our management identified a material weakness, and therefore, concluded that at January 31, 2012 our internal control over financial reporting was not effective. Management identified lack of controls related to process monitoring, testing, documentation, and change management within the information technology control environment. Specifically, the following material weakness existed as of January 31, 2012: Policies and procedures over IT program development and change management did not operate at a sufficient level to ensure all changes affecting the financial statements and underlying accounting records and key reports were identified, authorized, tested and implemented appropriately. In addition, certain deficiencies were noted in the monitoring of log security, testing of data transmissions, testing restoration, and incident/error management system. As such, there existed a reasonable possibility that a material error would not be prevented or detected on a timely basis.

We are actively engaged in the development and implementation of a remediation plan to ensure that controls contributing to this material weakness are designed appropriately and are operating effectively. These efforts included but were not limited to the hiring of a third-party contractor to test on a prospective basis our changes and updates made to our information technology environment supporting the financial reporting systems. For those controls that a remediation plan has not yet been specifically set forth, we are evaluating all our controls and procedures related to the information technology environment and are in the process of assessing an appropriate remediation plan.

Other than those discussed above, there was no change in our internal control over financial reporting during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
