Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to
 December 31, 2015.

Company and Product Overview

Lear Corporation (“Lear” or the “Company”) is a leading Tier 1 supplier to the global automotive industry. Our business spans all major automotive markets, and we supply seating and electrical distribution systems and related components to virtually every major automotive manufacturer in the world. As of December 31, 2015, we have manufacturing, engineering and administrative capabilities in 36 countries with 240 locations and are continuing to grow our business in all automotive producing regions of the world.

Lear is a recognized global leader in complete automotive seat systems and key individual seat component parts. Our seating business consists of the design, development, engineering, just-in-time assembly and delivery of complete seat systems, as well as the design, development, engineering and manufacture of all major seat components, including seat structures and mechanisms, seat covers and surface materials such as fabric and leather, seat foam and headrests. We are one of only two independent seat suppliers with global scale and the capability to design, develop, engineer, manufacture and deliver complete seat systems and components in every major automotive producing region in the world.

Our electrical business consists of the design, development, engineering and manufacture of complete electrical distribution systems that route electrical signals and manage electrical power within a vehicle. Key components in the electrical distribution system include wiring harnesses, terminals and connectors, junction boxes and high power components for hybrid and electric vehicles. We also design, develop, engineer and manufacture sophisticated electronic control modules that facilitate signal, data and power management within the vehicle. We have added capabilities in wireless communication modules that process various signals to, from and within the vehicle, including cellular, Wi-Fi and GPS. We are one of only four suppliers with complete electrical distribution system and component capabilities in every major automotive producing region in the world.

Our products are more fully described in our Annual Report, which can be accessed at: <http://www.lear.com/>.
