Explanatory Note

This Amendment No. 1 on Form 10-K/A (this “Amendment”) amends Harmonic Inc.’s Annual Report on Form 10-K for the year ended December 31, 2013, originally filed with the Securities and Exchange Commission, or SEC, on February 28, 2014 (the “Original Filing”). We are amending and refiling Part III to include information required by Items 10, 11, 12, 13 and 14 because our definitive proxy statement will not be filed within 120 days after December 31, 2013, the end of the fiscal year covered by our Annual Report on Form 10-K. Accordingly, reference to our proxy statement on the cover page has been deleted.

In addition, pursuant to the rules of the SEC, we have also included as exhibits currently dated certifications required under Section 302 of The Sarbanes-Oxley Act of 2002. We are amending and refiling Part IV solely to reflect the inclusion of those certifications. Because no financial statements are contained within this Amendment, and this Form 10-K/A does not contain or amend any disclosure with respect to Items 307 and 308 of Regulation S-K, paragraphs 3, 4 and 5 of the certifications have been omitted. We are not including certifications pursuant to Section 906 of The Sarbanes-Oxley Act of 2002.

Except as described above, no other changes have been made to the Original Filing. Except as otherwise indicated herein, this Amendment continues to speak as of the date of the Original Filing, and we have not updated the disclosures contained therein to reflect any events that occurred subsequent to the date of the Original Filing. The filing of this Annual Report on Form 10-K/A is not a representation that any statements contained in items of our Annual Report on Form 10-K other than Part III, Items 10 through 14, and Part IV are true or complete as of any date subsequent to the Original Filing.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) requires the Company’s executive officers and directors and persons who own more than ten percent of a registered class of the Company’s equity securities to file an initial report of ownership on Form 3 and changes in ownership on Form 4 or Form 5 with the SEC and the NASDAQ Stock Market. Executive officers, directors and greater than 10% stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms prepared and filed by it or received by it or on written representations from the reporting persons, the Company believes that, with respect to 2013, all filing requirements applicable to its officers, directors and 10% stockholders were complied with.

DIRECTOR NOMINATIONS

There have been no material changes to the procedures by which security holders may recommend nominees to our board of directors since those procedures were described in our proxy statement for our 2013 annual meeting of stockholders.

AUDIT COMMITTEE

The Board has a separately-designated Audit Committee. The charter for the Audit Committee is posted on our website at www.harmonicinc.com.

Table of Contents

The Audit Committee currently consists of Messrs. Covert and Reddersen and Ms. Swenson, each of whom is independent under Rule 10A-3 of the Exchange Act and under applicable NASDAQ Global Select Market listing standards. The Audit Committee serves as the representative of the Board for general oversight of the quality and integrity of Harmonic's financial accounting and reporting process, system of internal control over financial reporting, management of financial risks, audit process, and process for monitoring the compliance with related laws and regulations. The Audit Committee engages the Company's independent registered public accounting firm and approves the scope of both audit and non-audit services. Matters within the scope of the Audit Committee were also discussed in executive sessions at regularly scheduled meetings of the Board in 2013. The Audit Committee held nine meetings during 2013.

The Board has determined that Mr. Covert is an "audit committee financial expert," as defined by the current rules of the SEC. The Board believes that Mr. Covert's experience as the chief financial officer of several companies publicly traded on U.S. stock exchanges qualifies him as an "audit committee financial expert" because he has acquired relevant expertise and experience from performing his duties as a chief financial officer.

CODE OF BUSINESS CONDUCT AND ETHICS

Harmonic has adopted a Code of Business Conduct and Ethics for Senior Operational and Financial Leadership (the "Code"), which applies to its Chief Executive Officer, its Chief Financial Officer, its Corporate Controller and other senior operational and financial management. The Code is available on the Company's website at www.harmonicinc.com.

Harmonic intends to satisfy the disclosure requirement under Form 8-K regarding an amendment to, or waiver from, a provision of the Code by posting such information on our website, at the address specified above, and, to the extent required by the listing standards of the NASDAQ Global Select Market, by filing a Current Report on Form 8-K with the Securities and Exchange Commission disclosing such information.

ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Role of the Compensation and Equity Ownership Committee

The Compensation and Equity Ownership Committee (“Compensation Committee”) of Harmonic’s Board of Directors is responsible for approval of the Company’s executive compensation policies, compensation paid to executive officers, and administration of the Company’s equity ownership plans. The Compensation Committee currently consists of Messrs. Kvamme, Gallagher and Reddersen and Ms. Reaugh, none of whom is an employee of the Company, and each of whom is independent under applicable NASDAQ listing standards and for the purposes of Section 162(m) of the Code and Section 16 of the Securities and Exchange Act of 1934, as amended (the “’34 Act”). The charter of the Compensation Committee was adopted by the Board of Directors, and is posted on Harmonic’s website at www.harmonicinc.com.

The Compensation Committee has retained the services of Meyercord Associates (“Meyercord”), an independent compensation consulting firm, to assist the Compensation Committee in the evaluation of appropriate cash and equity compensation for executive management. Meyercord provides no other services to the Company, other than essentially the same services with respect to Board compensation. Meyercord makes recommendations to the Compensation Committee on the design and implementation of compensation plans, assists in determining the appropriate number of shares to be used for equity awards granted under the Company’s equity plans, reviews data and recommendations provided by management, and also reviews specific compensation proposals for each of the Company’s executive officers named in the Summary Compensation Table in the Company’s Form 10-K/A for the applicable year (each, an “NEO”). Meyercord attends all or part of certain Compensation Committee meetings, as requested by the Compensation Committee.

Role of Management

Harmonic’s CEO, assisted by our Senior Vice President of Human Resources, works with the Compensation Committee to establish meeting agendas. The CEO makes recommendations to the Compensation Committee with respect to the compensation of other members of executive management and the design and implementation of incentive compensation programs for NEOs. For 2013 executive compensation, these recommendations were developed with the assistance of Meyercord. The Compensation Committee considers the recommendations of management, but is not bound by such recommendations. The CEO does not make recommendations to the Compensation Committee with respect to his own compensation and is not present at any portion of Compensation Committee meetings when his compensation is discussed or when the Compensation Committee elects to meet in executive session. In 2014, the Compensation Committee considered and assessed all relevant factors, including those set forth in Rule 10C-1(b)(4)(i) through (vi) under the ’34 Act, that could give rise to a potential conflict of interest with respect to Meyercord’s work. Based on this review, we are not aware of any conflict of interest that has been raised by work performed by Meyercord.

Compensation Philosophy and Programs

The Company’s executive compensation programs are designed to attract, motivate and retain executives who will contribute significantly to the long-term success of the Company and the enhancement of stockholder value.

Consistent with this philosophy, the following goals provide a framework for our executive compensation program:

- provide a competitive total compensation package to attract, retain and motivate executives who must operate in a demanding and rapidly changing business environment;
- relate total compensation for each executive, consisting of base salary, annual cash bonus and equity awards, to overall company performance and, in the case of base salary and equity awards, to individual performance;
- tie annual cash bonus compensation to the Company’s achievement of objective performance parameters;
- reflect competitive market requirements and strategic business needs in determining the appropriate mix of cash and non-cash compensation and short-term (base salary and annual cash bonus) and long-term compensation (equity awards);

put at risk a significant portion of each executive's total target compensation, with the intent to reward superior performance by the Company; and

align the interests of our executives with those of our stockholders.

At our 2013 Annual Meeting of Stockholders, we held a stockholder advisory vote on the compensation of our NEOs, commonly referred to as a "say-on-pay vote." Our stockholders approved the compensation of our NEOs, with over 94% of stockholder votes cast voting in favor of the say-on-pay proposal. As we evaluated our compensation practices and talent needs throughout 2013, we were mindful of the support our stockholders expressed for our philosophy of linking compensation to our financial goals and in support of enhancing stockholder value. As a result, the Compensation Committee decided to retain our

Table of Contents

general approach with respect to our executive compensation programs, with an emphasis on delivering long-term and short-term incentive compensation that rewards our executives commensurate with the value they deliver to our stockholders.

Management of Risk Arising from Incentive Compensation Policies

The Compensation Committee has considered whether the Company's overall compensation program for employees creates incentives for employees to take excessive or unreasonable risks that could materially harm the Company. The Committee believes that our incentive plans are typical for our industry and market competitive, and that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. Several features of our compensation policies for management employees appropriately mitigate such risks, including a mix of long-term and short-term compensation incentives that we believe are properly weighted, the uniformity of compensation policies across the Company, caps on payments from the plans and the use of our business plan, which the Compensation Committee regards as setting an appropriate level of risk for the Company, as a baseline for our incentive bonus plan targets. We also believe the Company's internal legal and financial controls appropriately mitigate the probability and potential impact of an individual employee committing the Company to inappropriate transactions in exchange for short-term compensation benefits.

Elements of Compensation

In order to achieve the above goals, our total compensation packages include base salary and annual bonus paid in cash, as well as long-term equity compensation in the form of stock options or restricted stock units, or a combination of each. We also make available benefit plans to our executive officers which are generally provided to all regular full-time employees of Harmonic. We believe that appropriately balancing the total compensation package and ensuring the incentive effect of a significant portion of the package is necessary in order to provide market-competitive compensation. We focus on ensuring that the balance of the various components of our compensation program is optimized to motivate executives to improve our results on a cost-effective basis. The factors which are used to determine individual compensation packages are generally similar for each NEO, including our CEO.

In order to assess our compensation competitiveness against peer companies in 2013, management recommended a compensation peer group, which included approximately 14 companies. These peer companies were selected from the telecommunications and video services technology industries based principally on revenue and market capitalization data that placed Harmonic approximately in the middle of the range, as well as on such companies' proximity to Silicon Valley, which is the location of the Company's headquarters.

The Compensation Committee then asked Meyercord to review management's recommendations as to an appropriate compensation peer group for Harmonic. Meyercord selected the final peer group companies based principally on revenue and market capitalization data, and the compensation peer group included many technology companies in the Company's immediate geographic area with whom the Company competes for executive talent. These peer group recommendations from management and Meyercord were reviewed and discussed by the Compensation Committee, and a final list, as shown below, was approved by the Compensation Committee. Data prepared by Meyercord for the compensation peer group was used by management in formulating recommendations to the Compensation Committee for 2013 cash and equity compensation. Information from Meyercord was also used in formulating the CEO's recommendations to the Compensation Committee with respect to the design and implementation of compensation packages and for specific proposals related to the individual elements and total compensation packages for other NEOs, as well as for other employees.

The approved peer group for 2013 consisted of the following companies:

Arris Group
Aruba Networks
Cadence Design Systems
Coherent
Electronics for Imaging

Infinera
Netgear
Plantronics
SeaChange International
Sonus Networks

Extreme Networks
Finisar
Base Salary

Synaptics
TIVO

9

Table of Contents

Base salaries for NEOs, including that of the CEO, are set according to the responsibilities of the position, the specific skills and experience of the individual and the competitive market for executive talent. The Compensation Committee reviews salaries annually and adjusts them as appropriate to reflect changes in market conditions, individual performance and responsibilities, and the Company's financial position. The aggregate value of our total cash compensation (base salary and targeted bonus) for NEOs is generally set at approximately the 50th percentile of executive compensation of the compensation peer group, with the intent that superior performance under incentive bonus plans would enable the executive to elevate total cash compensation to levels that are above the average of comparable companies.

Following a review with Meyercord of the above factors and the data regarding the compensation peer group, the Compensation Committee decided that action to increase base salaries was appropriate in 2013, primarily because the Compensation Committee determined that the base salaries for the NEOs were not competitive. Further, Patrick J. Harshman, the Company's President and Chief Executive Officer, had not received an increase in base salary since 2008. The base salary increase for each of the NEOs, effective February 4, 2013, was as follows: (1) Patrick J. Harshman - \$450,000 to \$500,000; (2) Carolyn A. Aver, Chief Financial Officer - \$338,000 to \$365,000; (3) Charles Bonasera, Senior Vice President, Operations - \$260,000 to \$275,000; and (4) Neven Haltmayer, Senior Vice President, Research and Development - \$275,000 to \$300,000. George Stromeyer, Senior Vice President, Worldwide Sales, did not join Harmonic until June 2013 and was therefore not included in the Compensation Committee's NEO salary review at the outset of 2013. Mr. Stromeyer's base salary and total compensation package was determined after reviewing a combination of factors, including market data for comparable positions in the Radford database, market data provided by the search firm that recruited Mr. Stromeyer, and the compensation of the Company's executive management team.

After these adjustments, based on the base salary information available for the 2013 compensation peer group, Mr. Harshman's base salary was slightly above the 25th percentile for the peer group, Ms. Aver's base salary was slightly above the 60th percentile for the peer group, Mr. Bonasera's base salary was slightly below the 50th percentile for the peer group, and Mr. Haltmayer's base salary was at the 50th percentile for the peer group. Base salaries for NEOs, including Mr. Stromeyer's base salary, are disclosed in the Summary Compensation Table on page 16 of this Form 10-K/A.

No changes have been made to executive cash compensation for 2014, but the Compensation Committee is reviewing the compensation peer group with Meyercord and may make changes to the compensation peer group and NEO base salary, incentive bonus and total cash compensation benchmarking later in 2014.

Incentive Bonus Plan

The Company's annual incentive bonus plan in which NEOs participate reflects the Compensation Committee's belief that a meaningful component of executive compensation should be contingent on the Company achieving performance targets, thereby introducing a significant element of "pay for performance" and appropriate incentives to produce superior results.

For 2013, the Compensation Committee approved an incentive bonus plan in which 25% of the target bonus for a plan participant (including each NEO) was tied to a revenue target, 25% was tied to a non-GAAP gross margin target, 25% was tied to a non-GAAP operating margin target, and 25% of the plan participant's target bonus was tied to the achievement of certain strategic objectives. The strategic objectives included product and feature development milestones, new product launch targets and revenue objectives for such new products, and objectives tied to new customer acquisitions. The Compensation Committee approved these bonus plan components to focus the NEOs and other incentive plan participants on revenue growth, improved profitability and product and go-to-market initiatives. Mr. Stromeyer, who joined the Company in June 2013, also participated in the incentive bonus plan, and a portion of his target bonus for 2013 was guaranteed under the terms of his offer letter.

In addition, the 2013 incentive bonus plan had minimum thresholds that had to be met in order for any payout to be made (other than with respect to the strategic objectives component), and a cap of 200% of target bonus for any participant, including NEOs.

For 2013, the Compensation Committee approved the following targets for the incentive plan:

Edgar Filing: HARMONIC INC - Form 10-K/A

	Revenue (millions)	Non-GAAP Gross Margin (%)	Non-GAAP Operating Margin (%)	Strategic Objectives
Threshold	\$450	49.5	4.0	N/A
Target	\$500	51.8	8.0	N/A
Maximum	\$530	54.0	10.0	N/A

10

Table of Contents

For performance between these levels, bonus payouts would be determined by straight line interpolation. No payments would be made under any of the revenue, gross margin or operating margin components of the 2013 incentive plan if the threshold target for any such component was not achieved, and in any case, no payments would be made under any such component if the threshold non-GAAP operating margin was not achieved.

The Compensation Committee believed that the 2013 bonus targets were challenging, but achievable, based on their review of the Company's operating plan for 2013, their experience with respect to the Company's historical performance and the business and industry outlook. In 2013, the Company exceeded the minimum threshold for the revenue, gross margin and operating margin components of the incentive bonus plan, and also achieved a portion of some of the strategic objectives set forth in the plan. As a result, the incentive pool was funded at 66% of the aggregate targeted amount. Bonus payments from the 2013 incentive plan were approved by the Compensation Committee in February 2014, and made to executive officer participants in February 2014, as disclosed in the Summary Compensation Table on page 16 of this Form 10-K/A. All bonus amounts paid to NEOs with respect to 2013 were paid pursuant to the 2013 incentive bonus plan, with the exception of Mr. Stromeyer, who also received a signing bonus upon his commencement of employment with the Company.

Equity Compensation Plans

The Compensation Committee believes that equity compensation plans are an essential tool to link the long-term interests of stockholders and employees, especially the Chief Executive Officer and executive management, and serve to motivate employees, and particularly executive management, to make decisions that will, in the long run, deliver the best returns to stockholders, thus rewarding excellent long-term performance. Since 2010, stock options and restricted stock units ("RSUs") have been granted to executive management, including NEOs, when they join the Company, and on an annual basis thereafter.

Initial and annual stock option and RSU awards to executives have generally vested over four years. Beginning in 2012, the Company introduced three year vesting for initial RSU awards to new executive hires, while annual equity awards to existing executives continued to have four year vesting periods. Beginning in 2013, the Compensation Committee significantly reduced the size of annual RSU awards to executives in order to weight executive equity compensation more towards stock option grants, and to reduce equity dilution from RSU awards. The Company also introduced two year vesting for annual executive RSU grants, and annual stock option awards continued to have four year vesting.

Stock options are granted at an exercise price equal to the fair market value of the Company's common stock on the date of grant. The size of an initial equity award grant is based upon the position, responsibilities and expected contribution of the individual, with subsequent grants also taking into account the individual's performance, potential contributions, and, to a lesser extent, the vesting status of previous awards. This approach is designed to align optionees', including NEOs', interests with stockholders' interests over the long term, as no benefit is realized from the grant unless the price of the Company's common stock has increased over the number of years that the award vests. The Compensation Committee considers any such price increase to be tied to positive performance of the Company. The Compensation Committee therefore considers stock options to be the appropriate form of "performance-based" equity awards for the Company's executives and NEOs, and has weighted executive and NEO equity compensation significantly more towards stock option grants.

The Compensation Committee awarded stock options to most employees, including NEOs, on an annual basis until 2009, when, with respect to non-executive employees, the widespread use of stock options was replaced by restricted stock units. In prior years, the total pool of annual grants to be made to all employees, including NEOs, was determined principally by reference to guidelines published by shareholder advisory firms such as Institutional Shareholder Services and, in part, to historic practice. The guidelines generally refer to metrics such as total annual awards as a percentage of shares outstanding and total outstanding awards as a percentage of fully diluted shares. Historically, the Compensation Committee has set the total pool of equity awards to result in the Company's use of equity awards being substantially lower than the guideline amounts.

Executive officers are also eligible to participate in the Company's 2002 Employee Stock Purchase Plan (ESPP). The ESPP is available on a broad basis to the Company's employees. The ESPP allows eligible employees to purchase the

Company's common stock at a price equal to 85% of the lower of the fair market value at the beginning of a six month offering period or the fair market value at the end of the offering period, with the purchase amount limited to the lesser of 10% of eligible compensation or 3,000 shares per offering period, or as otherwise limited by applicable IRS regulations.

Financial Accounting Standards Codification Topic 718 of the Financial Accounting Standards Board ("FASC Topic 718") requires the Company to record a charge to earnings for equity compensation. However, the Compensation Committee believes that the Company should continue to operate its equity compensation plans in spite of the significant non-cash charges incurred by the Company as a result of the application of FASC Topic 718. The Compensation Committee continues to monitor the impact of the accounting standard on Harmonic's earnings, changes in the design and operation of equity compensation

Table of Contents

plans by other companies, particularly those with whom the Company competes locally for employees, and the attitude of financial analysts and investors towards these significant and potentially volatile non-cash charges. In 2011, 2012 and 2013, most employees who received equity awards, other than NEOs, received them in the form of RSUs. Beginning in 2012, new equity awards vested over three, rather than four years, and the amount of the awards were proportionally decreased from the amount that would have been granted with four year vesting. In 2013, the Company introduced two year vesting for annual employee RSU awards, and the amount of the awards were also decreased.

These practices generally result in lower and more predictable accounting charges.

The Compensation Committee continues to believe that broad-based equity plans reward long-term performance and remain an essential element of a competitive compensation package, as such plans are offered currently by most public and private technology companies in Silicon Valley with whom the Company competes for both executive and non-executive employees. Approximately 95% of eligible employees currently hold stock options and/or restricted stock units, and approximately 66% of eligible employees are currently participating in the Company's ESPP.

Equity Compensation Grant Practice

The Compensation Committee approves all stock option and RSU grants, except for certain grants made to non-executive employees in the ordinary course of business, for which it has delegated authority to the CEO, within parameters approved in advance by the Compensation Committee, pursuant to an Employee Equity Issuance Policy. The Compensation Committee reviews all grants made pursuant to the Employee Equity Issuance Policy. Initial hire grants of stock options that are within the CEO's approved range are made on the first Friday following the employee's start date, initial hire grants of RSUs are made on the second Friday of each month, and any other grants made by the CEO pursuant to authority granted by the Compensation Committee are made on the Friday of the week of such grant. Stock options are granted at 100% of the closing price of our stock on the NASDAQ Global Select Market on the date of grant.

Initial hire grants that are for executives reporting to the CEO or grants which are above the CEO's approved range are approved by the Compensation Committee, with the grant date being the day of approval by the Compensation Committee and, if in the form of a stock option, the exercise price being the closing price of the stock on the NASDAQ Global Select Market on that date. The initial grants are effective as of the date of grant, with vesting generally beginning on the date of commencement of employment. Annual grants are usually made in the first half of the year, and, in 2013, these grants were made in February. This timing enables management and the Compensation Committee to consider performance by both the Company and the individual and balance it against our expectations for the current year.

We do not time the granting of stock options or RSUs with any favorable or unfavorable news released by the Company. The timing of initial grants is driven by the date of hire of our new employees. The Board of Directors and Compensation Committee meeting schedules, for review and approval of annual grants, are usually established several months in advance for the calendar year. Proximity of any awards to an earnings announcement or other market events is coincidental.

Retirement Benefits

The Company does not provide pension benefits or deferred compensation plans to any of its employees, including NEOs, other than a 401(k) deferred compensation plan which is open to all regular, full-time U.S. employees. The Company suspended matching contributions to the 401(k) plan in 2010, 2011 and 2012, but reinstated its matching contribution policy, of up to \$1000 a year for each participant, for 2013. The Compensation Committee reviews regularly the performance of, and changes to, the 401(k) plan.

Change-of-Control Agreements

The Company does not have employment agreements with any of its present NEOs. However, as a historical practice, it has generally provided change of control severance agreements to its NEOs. These agreements are designed to incentivize continuing service to the Company by NEOs in the event that the Company may be in discussions regarding strategic transactions and to provide short-term benefits in the event that a NEO's position is eliminated or responsibilities or compensation are reduced following a change of control.

Under the terms of the respective NEO's change of control severance agreement, in the event of termination of the NEO other than for cause (as defined in the relevant change of control severance agreement) within 18 months

following a change in control of the Company, the NEO will be entitled to certain payments. Mr. Harshman, the Company's President and Chief Executive Officer, will receive a lump-sum payment of twice his annual salary, an amount equal to twice the greater of 50% of his then annual target bonus or the average of the actual bonus paid to him in each of the two prior years, and a continuation of his health, dental, and life insurance benefits for up to one year after the change of control. The other NEOs will receive a lump-sum payment of one year's salary, an amount equal to the greater of 50% of the NEO's then annual target bonus or the

Table of Contents

average of the actual bonus paid to the NEO in each of the two prior years, and a continuation of the NEO's health, dental and life insurance benefits for up to one year after the change of control. These agreements also provide for out-placement assistance and the full acceleration of unvested stock options and any restricted stock awards held by the respective NEO in the event of such termination, subject to certain limitations.

Other Compensation

Other elements of executive compensation include life and long-term disability insurance and health benefits. These benefits are available to all regular, full-time U.S. employees of the Company on the same basis, and similar benefits are provided to most employees in other countries. Management periodically reviews the level of benefits provided to all employees and adjusts those levels as appropriate. Company payments for NEOs pursuant to these other elements of compensation in 2011, 2012 and 2013 are included in the "All Other Compensation" column in the Summary Compensation Table on page 16 of this Form 10-K/A.

Approvals

In March 2013, the Compensation Committee approved the 2013 cash incentive compensation for all NEOs. Equity compensation awards for NEOs, and salary increases for NEOs, were also approved by the Compensation Committee in March 2013. The Company's CEO was not present during the portion of the meetings during which his compensation was discussed and approved.

Stock Ownership Guidelines

The Company currently has no stock ownership guidelines for its NEOs.

Financial Restatements

The Company has never restated its financial statements and does not have an established practice regarding the adjustment of bonus payments if the performance measures on which they were based are restated in a manner that would change the amount of an award.

Section 162(m)

We have considered the potential future effects of Section 162(m) of the Code on the compensation paid to our NEOs. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1.0 million in any taxable year for the Chief Executive Officer, the Chief Financial Officer or the three other most highly compensated executive officers, unless such compensation is "performance-based" under Section 162(m). For 2013, no executive officer received compensation subject to Section 162(m) in excess of \$1.0 million. We have adopted a policy that, where reasonably practicable, we will seek to qualify the variable compensation paid to our executive officers for an exemption from the deductibility limitations of Section 162(m).

OPTIONS EXERCISED AND STOCK VESTED DURING 2013

The following table summarizes (i) the options exercised during the year ended December 31, 2013 by our NEOs and the value realized upon exercise (which is the number of shares under each option exercised multiplied by (a) the closing price of the Company's common stock on the day of exercise, less (b) the exercise price of the respective option), and (ii) the number of shares of common stock acquired by our NEOs, and the value of such shares, upon the vesting of restricted stock units during the year ended December 31, 2013 (where the value realized on vesting is determined by multiplying the number of vested shares by the closing price of the Company's stock on the vesting date):

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise	Value Realized on Exercise	Number of Shares Acquired on Vesting	Value Realized on Vesting
Patrick J. Harshman	35,000	\$20,300	100,625	\$642,350
Carolyn V. Aver	—	—	58,125	381,550
Charles Bonasera	—	—	37,375	239,170
Neven Haltmayer	—	—	40,750	260,139
George Stromeyer	—	—	—	—

PENSION BENEFITS AND NONQUALIFIED DEFERRED COMPENSATION

There are no pension or retirement benefit plans for any of the NEOs, other than a 401(k) deferred compensation plan which is available to all regular, full-time U.S. employees of the Company. The Company made matching contributions to the 401(k) plan of up to \$1,000 per annum per participant in 2013.

CHANGE-OF-CONTROL AGREEMENTS

Table of Contents

The Company does not have employment agreements with any of its NEOs. The Company has entered into change of control severance agreements with each of the NEO's. Based on a hypothetical termination date of December 31, 2013, the respective amounts paid to the NEOs in the event of a change of control would have been:

Name	Salary (\$)	Bonus (\$)	Value of Unvested Restricted Stock(1)(2)	Value of Unvested Stock Options(1)(2)	Other(3)	Total(4)
Patrick J. Harshman	\$ 1,000,000	\$ 625,000	\$ 1,231,538	\$ 683,648	\$ 33,499	\$ 3,573,685
Carolyn V. Aver	365,000	113,150	668,813	321,825	25,110	1,493,898
Charles Bonasera	275,000	82,500	453,870	202,812	25,111	1,039,293
Neven Haltmayer	300,000	85,500	502,290	248,887	33,499	1,170,176
George Stromeyer	275,000	137,500	442,800	125,000	21,594	1,001,894

The amounts in this column represent the value which would have been realized by the acceleration of unvested restricted stock units and unvested stock options, calculated by, in the case of options, multiplying the number of (1) shares subject to acceleration by the difference between \$7.38, the closing price of the Company's common stock on December 31, 2013 and the exercise price of the respective option. The value of restricted stock units is the number of shares multiplied by the closing price of the Company's common stock on December 31, 2013.

(2) The Company's change of control severance agreements have a provision that all unvested restricted stock and options will be fully accelerated upon a change of control.

(3) The amounts in the column "Other" represent the maximum cost of continuing health, dental and life insurance benefits and outplacement fees.

(4) The Company's change of control severance agreements have a provision that payments will either be made in full, with the executive paying any applicable IRC Section 280G excise taxes, or the payments will be reduced to a level that does not trigger the Section 280G excise tax, whichever results in a greater amount. The amounts shown in the table assume that the executive would elect to receive full payment and pay any applicable excise taxes.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

No member of the Compensation and Equity Ownership Committee or executive officer of the Company has a relationship that would constitute an interlocking relationship with executive officers or directors of another entity.

All Other Fees

These amounts represent services rendered for preparation of foreign employee tax returns and for a subscription to a software research tool developed by PwC.

Consistent with its charter, the Audit Committee pre-approves all audit and non-audit services from our independent registered public accounting firm and did so in 2013. Pre-approval authority may be delegated by the Audit Committee to the Chairman of the Audit Committee.

The Audit Committee has considered whether the services provided by PwC are compatible with maintaining the independence of PwC and has concluded that the independence of PwC is maintained and is not compromised by the non-audit services provided.
