ANNEX 1

CHIEF EXECUTIVE OFFICER REPORT

Consolidated

Final printing

Highlights second quarter

- The main difference in second quarter and first half results is due to the consolidation of Embratel that began in the third quarter of 2004.
- Notwithstanding the improvement in margins of the subsidiaries in Latin America, consolidated EBITDA and operating margins were lower than last year.
- Despite of the lack of revenue growth in TELMEX Mexico due to price reductions (16% in local service, 44% in DLD and 34% in ILD in the last 5 years) and increased competition in traditional telephone services, the EBITDA and operating margins were maintained at the same levels as a result of operating efficiencies and lower operating costs.

- In the second quarter, data revenues increased 7.9% in Mexico, demonstrating the strength of broadband and corporate networks services. Consolidated data revenues represented 18.5% of the company's total revenues.
- For the six months, the consolidated investment was 798 million dollars in the expansion and modernization of the telecommunications platform. In particular, 64.8% were invested in Mexico, 29.7% in Embratel and 5.5% in Latin America.
- The company's consolidated net debt (4) increased to the equivalent of approximately 1.447 billion dollars, or 32.4%, to 5.907 billion dollars.
- For the six months, consolidated free cash flow (5) was 8,979 million pesos.
- Earnings per share in the quarter were 0.28 pesos and 0.52 dollars per ADR, an annual increase of 47.4% and 62.5%, respectively.

(4) Net debt defined as short-term liabilities plus long-term debt, less cash and equivalents.

(5) Free cash flow is calculated by resources provided by operating activities resulting from variations in working capital, investment in the telephone plant and inventories for the operation.

Consolidated

Income Statements

The second quarter 2005 analysis presented here includes the results of the subsidiaries in Latin America including Embratel. Results for the second quarter of 2004 relate to operations in Mexico and, recognize the assets acquired from AT&T Latin America.

Revenues

: At June 30, revenues from Telefonos de Mexico and its subsidiaries in Mexico and Latin America rose to 40,174 million pesos, an increase of 26.7% compared with the same period of 2004. The increase primarily was due to the incorporation of the new subsidiaries that were not included in the second quarter of 2004, mainly Embratel. Of total consolidated revenues, voice revenues represented 78.7% and data transmission revenues represented 18.5%. For the six months, consolidated revenues totaled 79,254 million pesos, an increase of 27.2% compared with the same period of last year.

Costs and expenses:

Costs and expenses totaled 29,204 million pesos, 35.1% higher than the second quarter of the previous year due to the incorporation of the new subsidiaries. In particular, transport and interconnection costs increased 114.6% representing the highest increase in the quarter, in spite of the fact that in Mexico, the calling party pays rate decreased. Of total costs and expenses, transport and interconnection costs represented 26.2%, cost of sales and services represented 29% and commercial, administrative and general expenses represented 24.3%. For the six months, costs and expenses increased 34.5% totaling 56,650 million pesos.

EBITDA and operating income:

EBITDA (1) rose to 16,984 million pesos in the second quarter, 7.9% higher than the same period of 2004, producing an EBITDA margin of 42.3%. Operating income totaled 10,970 million pesos, an increase of 8.7% compared with the previous year, and the margin was 27.3% in the quarter. For the six months, EBITDA and operating income were 35,011 and 22,604 million pesos, producing margins of 44.2% and 28.5%, respectively.

Comprehensive financing cost:

Comprehensive financing cost was positive by 573 million pesos in the quarter. This result was due to a net interest charge of 496 million pesos, with an exchange loss of 293 million pesos, a decrease of 71.7% compared with the same period of last year, resulting from the appreciation of the peso to the US dollar and the appreciation of the Brazilian real to the US dollar, and to the hedges that the company made, partially offset by a net monetary gain of 216 million pesos. For the six months, comprehensive financing cost was 1,412 million pesos, 19.8% lower than the same period of last year.

Majority net income:

Majority net income rose to 6,530 million pesos in the second quarter, 42.2% higher than the same period of the previous year. Earnings per share for the second quarter, based on the number of shares outstanding at period end, were 0.28 pesos, and earnings per ADR were 0.52 dollars.

Investments:

During the six months, 798 million dollars were invested. In Mexico, 518 million dollars were invested with special emphasis in the data and Internet businesses. In Embratel, investments totaled 237 million dollars, of which approximately 99 million dollars were used for their satellite business. In the rest of the operations in Latin America, close to 44 million dollars were used for the development of the infrastructure of the various companies.

Stock split

The Extraordinary Shareholders' Meeting held on April 28, 2005, approved the two-for one stock split; of Series "AA", "A" and "L" shares since May 25, 2005 that gave shareholders' the right to receive two new shares for each previous share that they owned.

Dividends:

On April 28, 2005 the Annual Shareholders' Meeting approved the payment of a cash dividend of \$0.76 Mexican pesos per outstanding share in four equal payments of \$0.19 Mexican pesos per share, resulting from the net tax profit account. Due to the approval of the stock split, the cash dividend will be \$0.38 Mexican pesos per share in four equal payments of \$0.095 Mexican pesos per share.

Repurchase of shares

During the quarter, the company used 3,495 million pesos to repurchase 359,169,700 of its own shares. For comparable purposes, it is important to consider the 2 for 1 stock split that was carried out on May 25, 2005.

Debt:

Total debt rose to the equivalent of 8.523 billion dollars compared with 5.482 billion dollars at June 30, 2004. The increase of 3.041 billion dollars or 55.5% is mainly explained by TELMEX's indebtedness related to the placement of bonds for 1.750 billion dollars as well as for the consolidation of Embratel's debt of 507 million dollars. Of total debt, 19.3% is short-term, 91% is in foreign currency (19.9% considering hedges) and 52.3% carries a fixed rate (67.9% considering swaps). Revenues from corporate networks and Internet access increased 7.9% and continue with the highest growth rate. For the six months, the company's revenues decreased 2.6% totaling 59,908 million pesos.

- **Local**

: Local revenues decreased 5.6% due to the decrease of local traffic and local rates in real terms. For the first half, these revenues decreased 4.3%.

- **DLD**

: Revenues decreased 1.1% due to the rate reduction in real terms that were not offset by higher traffic volume. For the six months, the annual decrease was 2.9%.

- **ILD**

: Revenues decreased 6.9% compared with last year's second quarter. ILD billed traffic totaled 1,575 million pesos in the quarter, 4.7% lower than the same period of 2004. International settlement revenues totaled 764 million pesos, a

decrease of 11.1% compared with the same quarter of the previous year. In both cases, lower revenues were because incoming and outgoing traffic did not offset the rate reduction per minute in real terms. - **Interconnection**

: In the second quarter, traffic from fixed lines to cellular subscribers increased 3.3% but interconnection revenues decreased 9.4%. Costs and expenses:

In the second quarter, costs and expenses from the operations in Mexico totaled 19,454 million pesos, a decrease of 7.1% compared with the same period of 2004. This decrease was due to lower costs of sales and services, lower interconnection costs related to the reduction of the calling party pays rate and lower depreciation and amortization.

- **Cost of sales and services:**

Cost of sales and services decreased 5.2% mainly due to the change in the accounting policy for PC costs related to Internet services since January 2005, under which costs will be booked over the life of the customer contract rather than taken when the company purchases the PC, as was the practice in 2004, as well as for lower charges in pensions and seniority premiums, travel expenses, costs of directories, insurance and settlement cost.

- **Commercial, administrative and general:**

Commercial, administrative and general expenses increased 3.4% in the quarter due to third party services for the maintenance and growth of the telephone plant.

- **Transport and interconnection:**

Transport and interconnection costs decreased 9.1% due to the reduction of the calling party pays rate, the main component of this item.

- Depreciation and amortization:

Depreciation and amortization decreased 17.2% due to a lower level of assets to be depreciated and to the impact of the exchange and inflation rates.

Transport and interconnection cost reflected the highest increase that was 24%, and represented 48.1% of total cost and expenses. In the quarter, operating income totaled 1 million Argentinean pesos compared with an operating loss of 10 million Argentinean pesos in last year's second quarter. The operating margin was 1.8%, an increase of 21.8 percentage points compared with the same period of the previous year. EBITDA (1) totaled 9 million Argentinean pesos, compared with 2 million Argentinean pesos in the same period of 2004.

Colombia

Revenues from these operations during the second quarter totaled 24,199 million Colombian pesos, 22.1% higher than in 2004. Most of the revenues in Colombia are comprised of services related to data transmission; therefore the increase in revenues was due to the higher number of line equivalents for data transmission. Costs and expenses decreased 2.3%. Among total costs and expenses, 27.6% corresponded to transport and interconnection and reflected an increase of 19.7%. Commercial, administrative and general expenses increased 17% and represented 23.1% of total costs and expenses. Depreciation in the quarter decreased 30.6% in the quarter. Operating income for the quarter totaled 3,272 million Colombian pesos compared with an operating loss of 1,604 million Colombian pesos in the same period of last year. The operating margin was 13.5%, 21.6 percentage points higher than the same period of 2004. EBITDA (1) totaled 8,730 million Colombian pesos in the quarter, 39.6% more than the same period of last year, and produced a margin of 36.1%, 4.5 percentage points higher than last year's second quarter.

Peru

Revenues from operations in Peru during the second quarter totaled 44 million new soles, 9.3% higher than the previous year. The voice business, which represented 66.4% of total revenues, increased 20.3% due to growth in telephone traffic, mainly from the increase in digital trunks serving the corporate market as well as interconnection traffic growth. Costs and expenses in the quarter increased 5% due to the increase of 30.1% in transport and

interconnection costs, which represented 43.7% of total costs and expenses. Depreciation increased 3.6% as a result of the capitalization of assets, including some from previous years. These items were partially offset by cost control initiatives that produced an 18.5% decrease in commercial, administrative and general expenses and by a 10.6% decrease in cost of sales and services. The operating loss in the quarter totaled 3 million new soles. EBITDA (1) totaled 9 million new soles, producing a margin of 19.5%, an increase of 2.9 percentage points compared with last year's second quarter.
