Item 11. Executive Compensation

Compensation Discussion & Analysis

We compensate our management through a combination of base salary, annual incentive bonuses and long-term equity based awards. The compensation is designed to be competitive with those of a peer group which we have selected for comparative purposes and to align the interests of our executive officers with the interests of our stockholders.

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

This section discusses the principles underlying our executive compensation policies and decisions, and the most important factors relevant to an analysis of these policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the data presented in the tables and narrative that follow.

Our Compensation Committee

Our Compensation Committee approves, implements and monitors all compensation and awards to executive officers including the chief executive officer, chief financial officer and the other three executive officers named in the Summary Compensation Table below, all of whom we refer to as the executive officers or named executive officers. The Committee's membership is determined by the Board of Directors and is composed of four independent, non-management directors. The Committee, in its sole discretion, has the authority to delegate any of its responsibilities to subcommittees as it deems appropriate. The Committee did not delegate any of its responsibilities during 2006.

The Committee periodically approves and adopts, or makes recommendations to the Board for Abraxas' compensation decisions. In the first quarter of each year, Mr. Watson, the Chief Executive Officer, submits to the Compensation Committee his recommendations for salary adjustments and long-term equity incentive awards based upon his subjective evaluation of individual performance and his subjective judgment regarding each executive officer's salary and equity incentives, for each executive officer except himself. For more information on our Compensation Committee, please refer to the discussion under Proposal One Election of Directors Committees of the Board of Directors.

The Compensation Committee reviews all components of compensation for our executive officers, including base salary, annual incentive bonuses, long-term equity based awards, the dollar value to the executive and cost to Abraxas of all perquisites and all severance and change of control arrangements. Based on this review, the Compensation Committee has determined that the compensation paid to our executive officers reflects our compensation philosophy and objectives.

Compensation Philosophy and Objectives

Our underlying philosophy in the development and administration of Abraxas' annual and long-term compensation plans is to align the interests of our executive officers with those of Abraxas' stockholders. Key elements of this philosophy are:

Establishing compensation plans that deliver base salaries which are competitive with companies in our peer group, within Abraxas' budgetary constraints and commensurate with Abraxas' salary structure.

Rewarding outstanding performance particularly where such performance is reflected by an increase in Abraxas' Net Asset Value.

Providing equity-based incentives to ensure motivation over the long-term to respond to Abraxas' business challenges and opportunities as owners rather than just as employees.

The compensation currently paid to Abraxas' executive officers consists of three core elements: base salary, annual bonuses under a performance-based, non-equity incentive plan and long-term equity based awards granted pursuant to our 2005 Employee Long-Term Equity Incentive Plan, which we refer to as the 2005 Employee Plan, plus other employee benefits generally available to all employees of Abraxas. We believe these elements support our underlying philosophy of aligning the interests of our named executive officers with those of Abraxas' stockholders by providing the named executive officers a competitive salary, an opportunity for annual bonuses, and equity-based incentives to ensure motivation over the long-term. We view the three core elements of compensation as related but distinct. Although we review total compensation, we do not believe that significant compensation derived from one component of compensation should increase or reduce compensation from another component. We determine the appropriate level for each component of compensation separately. We have not adopted any formal or informal policies or guidelines for allocating compensation among long-term incentives and annual base salary and bonuses, between cash and non-cash compensation, or among different forms of non-cash

compensation; however, we do consider the age, tenure and seniority of each named executive officer in making compensation decisions.

Abraxas does not have any other deferred compensation programs or supplemental executive retirement plans and no perquisites are provided to Abraxas executive officers that are not otherwise available to all employees of Abraxas, and no perquisites are valued in excess of \$10,000 per employee.

Elements of Executive Compensation

Executive compensation consists of the following elements:

Base Salary. In determining base salaries for the executive officers of Abraxas, we aim to set base salaries at a level we believe enables us to hire and retain individuals in a competitive environment and to reward individual performance and contribution to our overall business goals. We review the salary structure of Abraxas as compared to a peer group of exploration and production companies included in the William M. Mercer 2006 Energy Compensation Survey, which we refer to as the Mercer Energy Survey. We chose the Mercer Energy Survey as a benchmark because the survey includes over 180 companies within the energy industry and covers all components of compensation across the full spectrum of positions and responsibilities. Abraxas has participated in the survey since its inception in 1999 and of the participants, 74% are publicly-traded companies and 40% categorized themselves as an exploration and production company.

Abraxas salary range is set by reference to the salaries paid by our peer group companies in the Mercer Energy Survey while remaining within Abraxas budgetary constraints. We use the companies in our peer group to compare Abraxas salary structure to that of other companies that compete with Abraxas for executives but without targeting salaries to be higher, lower, or approximately the same as those of the companies in the peer group. We believe that the base salary levels for our named executive officers are consistent with the practices of the companies in our peer group and increases in base salary levels from time to time are designed to reflect competitive practices in the industry, individual performance and the officer's contribution to our overall business goals. Individual performance and contribution to the overall business goals of Abraxas are subjective measures and evaluated by Mr. Watson and the Compensation Committee.

The base salaries paid to our named executive officers in 2006 are set forth below in the Summary Compensation Table. For 2006, base salaries, paid as cash compensation, were \$1,048,250 with Mr. Watson receiving \$326,000. We believe that the base salaries paid achieved our objectives.

Base salaries for 2007 have been increased by an average of 4% over 2006 for our named executive officers. This increase reflects competitive practices in the industry as supported by the Mercer Energy Survey.

Annual Bonuses. Abraxas current bonus plan was adopted by our Board of Directors in 2003, and later amended to include all of our named executive officers. The purpose of the bonus plan is to create financial incentives for our named executive officers that are tied directly to increases in Net Asset Value, or NAV, per share of Abraxas common stock. We chose NAV as the foundation of the bonus plan because we believe that NAV equates to the value of Abraxas reserve base, giving risked credit for non-proven reserves, and adjusted for other assets and liabilities, including long-term debt. We believe that NAV is a better indicator of the health of Abraxas than its stock price, as the success of finding oil and gas is directly reflected in our NAV, while our stock price can be influenced by a number of factors outside the control of the executive officers of Abraxas. In addition, many exploration and production analysts use NAV per share comparisons to establish price targets for the companies they follow. Under the bonus plan, NAV is calculated at each year-end after receipt of the reserve report from our independent petroleum engineering firm and the audited financials, subject to certain adjustments, as follows:

Net Asset Value Calculation:

PV10 Proved Reserves
 +PV10 Risked Probable Reserves
 +Property & Equipment
 +Acreage
 +Other Assets
 ±Net Working Capital
 -Debt
 =Net Asset Value (NAV)
 ÷Shares Outstanding
 =NAV per share

The proved and probable reserves are estimated at year-end by our independent petroleum engineering firm in accordance with guidelines published by the Society of Petroleum Engineers (SPE), and all other items in the calculation are derived from the year-end audited financials. The PV10 of the proved and probable reserves is the present value, using a 10% discounted rate, of the future net cash flows before income tax calculated within the parameters set forth by the Securities and Exchange Commission. The calculated NAV is then divided by the number of outstanding shares of Abraxas common stock at year-end to arrive at the NAV per share.

The annual bonuses are calculated by the percentage increase in the current year-end NAV per share over the previous year-end NAV per share up to the first 10%; after 10% has been achieved, all excess percentage increases are doubled, with a maximum award for any one-year of 70% of the executive officer's base annual salary. For example, if the percentage increase in NAV for a given year was 15%, the calculated bonus would be equal to 20% of the executive officer's annual base salary. Therefore, in order to compare NAV year-over-year, the current year-end PV10s for proved and probable reserves are calculated with commodity prices used in the previous year-end PV10 calculations. Then, for the ensuing year, the PV10s for proved and probable reserves are calculated with current commodity prices to establish the NAV per share at the beginning of a given year, thus the difference between the calculated NAV per share at the end of a given year and the calculated NAV per share at the beginning of the following year.

In the first quarter of each year, the annual bonuses for the prior year are calculated after the reserve report and audited financial statements are available. Mr. Watson submits the annual bonus calculation to the Compensation Committee for review and discussion.

For example, at the beginning of 2005, the calculated NAV per share was \$1.09 and the calculated NAV per share at the end of 2005 was \$2.32, a 113% increase. On February 23, 2006, the Compensation Committee recommended 2005 annual bonus awards for our named executive officers, and the board approved these annual bonus awards at its meeting on February 24, 2006, and \$608,300 was awarded in annual bonuses under the annual bonus plan to our named executive officers for 2005.

The following table details the 2005 bonus calculation:

| Name | | Bonus Award Achieved (Percentage of Salary) (1) | Maximum Award (Percentage of Salary) | Annual Bonus Awarded Under the Annual Bonus Plan (2) |
|--------------------|------------|--|---|---|
| | Base | | | |
| | Salary | | | |
| Robert L.G. Watson | \$ 314,000 | 216% | 70% | \$ 219,800 |
| Chris E. Williford | 193,000 | 216% | 70% | 135,100 |
| Lee T. Billingsley | 181,000 | 216% | 70% | 126,700 |
| William H. Wallace | 181,000 | 216% | 70% | 126,700 |

-
- (1) 113% increase in NAV: 1% for the first 10%, then 2% for each percent increase $(10 + (103 \times 2)) = 216\%$
 - (2) In addition to these amounts earned under the annual bonus plan, \$48,314 was also paid to the named executive officers in 2005, for total bonus awards of \$656,614.

At the beginning of 2006, the calculated NAV per share was \$5.98 and the calculated NAV per share at the end of 2006 was \$4.77, calculated with commodity prices as of December 31, 2005. As a result, no bonuses were paid under this plan in 2006. The award opportunities for 2006 are reflected in the Grants of Plan-Based Awards table in the Estimated Future Payouts Under Non-Equity Incentive Plan Awards columns and in the Summary Compensation Table as earned with respect to 2006 in the Non-Equity Incentive Plan Compensation column. At the beginning of 2007, the calculated NAV per share was \$1.60, calculated with commodity prices as of December 31, 2006.

The Compensation Committee has the discretion to defer all or any part of any bonus to future years, to pay all or any portion of any bonus, or deferred bonus, in shares of Abraxas common stock and has the discretion to pay bonuses even if no bonus would be payable under the bonus plan. In the past, the Committee has elected to pay a portion of annual bonus in shares of Abraxas common stock and may continue to do so in the future. The Committee reviews the cash position of the Company and the amount of the annual bonus when making such determinations.

The Compensation Committee also has the discretion to pay bonuses outside of this plan. Mr. Wendel was added to this plan in 2006 but was not eligible in 2005. The Compensation Committee awarded a discretionary bonus to Mr. Wendel of \$28,000 for his efforts in 2006.

Long-Term Equity Incentive Plan. Abraxas 2005 Employee Plan, which was approved by our stockholders at the 2006 annual meeting, authorizes us to grant incentive stock options, non-qualified stock options and shares of restricted stock to our named executive officers, as well as to all employees of Abraxas. We use equity incentives as a form of long-term compensation because it provides our executive officers an opportunity to acquire an equity interest in Abraxas and further aligns their interest with those of our stockholders. Options grants generally have a term of 10 years and vest in equal increments over 4 years. Restricted stock grants vest in accordance with each individual grant agreement. Vesting is accelerated in certain events described under Employment Agreements and Potential Payments Upon Termination or Change in Control.

The purposes of this plan are to employ and retain qualified and competent personnel and to promote the growth and success of Abraxas, which can be accomplished by aligning the long-term interests of the executive officers with those of the stockholders by providing the executive officers an opportunity to acquire an equity interest in Abraxas. All grants are made with an exercise price equal to the closing price of our common stock.

A total of 1,200,000 shares of Abraxas common stock are reserved, subject to adjustment following certain events, such as stock splits. The maximum annual award for any one employee is 200,000 shares of Abraxas common stock. If options, as opposed to restricted stock, are awarded, the exercise share price shall be no less than 100% of the fair market value on the date of the award, unless the employee is awarded incentive stock options and at the time of the award, owns more than 10% of the voting power of all classes of stock of Abraxas. Under this circumstance, the exercise share price shall be no less than 110% of the fair market value on the date of the award. Option terms and vesting schedules are at the discretion of the Compensation Committee.

In the first quarter of each year, Mr. Watson submits to the Compensation Committee his recommendations for long-term equity incentive awards based upon his subjective evaluation of individual performance and his subjective judgment regarding each executive officer's long-term equity incentives, for each named executive officer except himself. The Compensation Committee reviews and discusses the recommendations and has the sole authority to determine any long-term equity incentive awards for Mr. Watson. In determining whether to grant long-term equity incentive awards, we seek to ensure that the total compensation package, including cash compensation, is competitive with the compensation paid by the companies included in the Mercer Energy Survey, yet such awards are substantially contingent upon the conclusion of Mr. Watson and

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

the Compensation Committee as to whether individual and corporate efforts have produced attractive long-term returns to Abraxas stockholders. We also consider past grants to each executive officer and the level to which such past grants are (or are not) in-the-money .

Abraxas has historically granted long-term equity incentives after Mr. Watson presents his recommendations to the Compensation Committee in the first quarter; however, we have not granted long-term equity incentives every year and we have awarded long-term equity incentive awards at other times during the year, principally in the event of a new hire, substantial promotion or significant corporate event, such as the completion of a financing transaction. We believe that certain corporate events warrant the granting of options outside the normal course of business as these events are significant to the future success of Abraxas. We do not time stock option or restricted stock grants in coordination with the release of material non-public information.

Employment Contracts, Change-In-Control Arrangements and Certain Other Matters. We provide the opportunity for our named executive officers to be protected under the severance and change in control provisions contained in their employment agreements. We believe that these provisions help us to attract and retain an appropriate caliber of talent for the position. Our severance and change in control provisions for the named executive officers are summarized in Employment Agreements and Potential Payments Upon Termination or Change in Control below. Based upon the Mercer Energy Survey, we believe that our severance and change in control provisions are consistent with the programs and levels of severance and post employment compensation of other companies in our peer group and believe that these arrangements are reasonable.

Other Employee Benefits. Abraxas executive officers are eligible to participate in all of our employee benefit plans, such as medical, dental, group life and long-term disability insurance, in each case on the same basis as other employees. In addition to employee group life insurance, Abraxas provides a key-man life insurance policy for Mr. Watson. Abraxas executive officers are also eligible to participate in our 401(k) plan on the same basis as other employees. Abraxas Board of Directors, at its sole discretion, may authorize Abraxas to match (in part or in whole) the contributions of each employee to the 401(k) plan during a given year; Abraxas contributions may be in the form of cash, shares of common stock or a combination thereof.

Impact of Regulatory Requirements

Deductibility of Executive Compensation. In 1993, the federal tax laws were amended to limit the deduction a publicly-held company is allowed for compensation paid to the chief executive officer and to the four most highly compensated executive officers other than the chief executive officer. Generally, amounts paid in excess of \$1 million to a covered executive, other than performance-based compensation, cannot be deducted. In order to constitute performance-based compensation for purposes of the tax law, stockholders must approve the performance measures. Since Abraxas does not anticipate that the compensation for any executive officer will exceed the \$1 million threshold in the near term, stockholder approval necessary to maintain the tax deductibility of compensation at or above that level is not being requested. We will reconsider this matter if compensation levels approach this threshold, in light of the tax laws then in effect. We will consider ways to maximize the deductibility of executive compensation, while retaining the discretion necessary to compensate executive officers in a manner commensurate with performance and the competitive environment for executive talent.

Nonqualified Deferred Compensation. On October 22, 2004, the American Jobs Creation Act of 2004 was signed into law, changing the tax rules applicable to nonqualified deferred compensation arrangements. While the final regulations have not become effective yet, Abraxas believes it is operating in good faith compliance with the statutory provisions which were effective January 1, 2005.

Accounting for Stock-Based Compensation. Beginning on October 1, 2005, we began accounting for stock-based compensation, including its 2005 Employee Plan and 2005 Directors Plan, in accordance with the requirements of FASB Statement 123(R).

COMPENSATION COMMITTEE REPORT

The Compensation Committee of Abraxas has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K.

- (1) Options vest in twenty-five percent (25%) increments each year for four (4) years on the anniversary of the grant date.
- (2) On December 6, 2002, the Board of Directors approved a plan pursuant to which the price of each outstanding stock option granted to employees of Abraxas with an exercise price greater than \$0.66 per share was reduced to \$0.66 per share. However, only one-half of Mr. Watson's options were repriced at \$0.66. The repricing was approved in connection with Abraxas' financial restructuring which was consummated in January 2003. As part of the negotiations that Abraxas had undertaken with the beneficial holder of the largest block of Abraxas' then outstanding second lien notes, the holder conditioned its participation in the exchange offer for the second lien notes on the repricing. Because the Board believed that the financial restructuring, including the exchange offer, represented the best alternative available to Abraxas to reduce its long term indebtedness and to increase its liquidity, the Board approved the repricing. The effectiveness of the repricing was conditioned upon the consummation of the financial restructuring which occurred on January 23, 2003.
- (3) These options were exercised by the named executive officer subsequent to December 31, 2006.

Employment Agreements and Potential Payments Upon Termination or Change in Control

Abraxas has entered into employment agreements with each of our named executive officers pursuant to which each will receive compensation as determined from time to time by the Board in its sole discretion.

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

The employment agreements for Messrs. Watson and Williford are scheduled to terminate on December 21, 2007, and are automatically extended for additional one-year terms unless Abraxas gives 120 days notice of its intention not to renew the employment agreement. The employment agreements for Messrs. Wallace and Wendel and Dr. Billingsley are scheduled to terminate on December 31, 2007, and are automatically extended for an additional year if by December 1 neither Abraxas nor Messrs. Wallace and Wendel or Dr. Billingsley, as the case may be, has given notice to the contrary.

The employment agreements contain the following defined terms:

Cause means termination upon

(i) the continued failure by the officer to substantially perform his duties with Abraxas (other than any such failure resulting from his incapacity due to physical or mental illness or any such actual or anticipated failure resulting from termination by him for Good Reason) after a written demand for substantial performance is delivered to the officer by the Board, which demand specifically identifies the manner in which the Board believes that he has not substantially performed his duties, or

(ii) the engaging by the officer in conduct which is demonstrably and materially injurious to the Company, monetarily or otherwise. The officer shall not be deemed to have been terminated for Cause unless and until the officer has been delivered a copy of a resolution duly adopted by the affirmative vote (which cannot be delegated) of not less than a majority of the members of the Board who are not officers of the Company at a meeting of the Board called and held for such purposes (after reasonable notice to the officer and an opportunity for the officer, together with the officer's counsel, to be heard before the Board), finding that in the good faith opinion of the Board, the officer was guilty of conduct set forth above in clauses (i) or (ii) above and specifying the particulars thereof in detail.

Change in Control means the occurrence of

(i) any person or group (as such terms are used in Section 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended, (the Exchange Act)) becoming the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), except that a person shall be deemed to be the beneficial owner of all shares that any such person has the right to acquire pursuant to any agreement or arrangement or upon exercise of conversion rights, warrants, options or otherwise, without regard to the sixty day period referred to in such Rule), directly or indirectly, of securities representing 20% or more of the combined voting power of the Company's then outstanding securities,

(ii) any person or group making a tender offer or an exchange offer for 20% or more of the combined voting power of the Company's then outstanding securities,

(iii) at any time during any period of two consecutive years, individuals who at the beginning of such period constituted the Board and any new directors, whose election by the Board or nomination for election by the Company's stockholders was approved by a vote of at least two-thirds (2/3) of the Company directors then still in office who either were the Company directors at the beginning of the period or whose election or nomination for election was previously so approved (Current Directors), ceasing for any reason to constitute a majority thereof,

(iv) the Company consolidating, merging or exchanging securities with any other entity and the stockholders of the Company immediately before the effective time of such transaction not beneficially owning, immediately after the effective time of such transaction, shares entitling such stockholders to a majority of all votes (without consideration of the rights of any class of stock entitled to elect directors by a separate class vote) to which all stockholders of the corporation issuing cash or securities in the consolidation, merger or share exchange would be entitled for

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

the purpose of electing directors or where the Current Directors immediately after the effective time of the consolidation, merger or share exchange not constituting a majority of the Board of Directors of the corporation issuing cash or securities in the consolidation, merger or share exchange, or

(v) any person or group acquiring 50% or more of the Company's assets.

Disability means the incapacity of the officer due to physical or mental illness which causes the officer to have been absent from the full-time performance of his duties with the Company for six consecutive months, and within

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

30 days after the Company gives the officer written notice of termination, the officer has not returned to the full-time performance of his duties.

Good Reason means, without the officer's express written consent, any of the following:

(i) a material adverse alteration in the nature or status of his position, duties or responsibilities;

(ii) a reduction in his current annual base salary;

(iii) a change in the principal place of his employment to a location more than twenty-five (25) miles from the Company's current principal place of employment, excluding required travel on the Company's business to an extent substantially consistent with the officer's present business travel obligations;

(iv) the failure by the Company, without his consent, to pay to him any portion of his current compensation, or to pay to him any portion of any deferred compensation, within ten (10) days of the date any such compensation payment is due;

(v) the failure by the Company to continue in effect any compensation plan in which he participates, or any substitute plans or the failure by the Company to continue his participation therein on the same basis, both in terms of the amount of benefits provided and the level of his participation relative to other participants, as existing;

(vi) the failure by the Company to continue to provide him with benefits at least as favorable to those enjoyed by him under any of the Company's pension, life insurance, medical, health and accident, disability, deferred compensation or savings plans in which he is currently participating, the taking of any action by the Company which would directly or indirectly materially reduce any of such benefits or deprive the officer of any material fringe benefit enjoyed by him, or the failure by the Company to provide him with the number of paid vacation days to which he is entitled on the basis of the Company's practice with respect to him;

(vii) the failure of the Company to obtain a satisfactory agreement from any successor to assume and agree to perform his employment agreement; or

(viii) any purported termination of his employment which is not effected pursuant to the employment agreement's termination provisions.

Retirement means termination in accordance with the Company's retirement policy, generally applicable to its salaried employees or in accordance with any retirement arrangement established with the officer's consent with respect to himself.

If, during the term of the employment agreement for each named executive officer or any extension thereof, an officer's employment is terminated other than for Cause or Disability, by reason of the officer's death or Retirement, or by such officer for Good Reason, then such

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

officer will be entitled to receive the following:

Watson and Williford: a lump sum payment equal to the greater of (a) his annual base salary for the last full year during which he was employed by Abraxas or (b) his annual base salary for the remainder of the term of his employment agreement.

Wallace, Wendel and Billingsley: no provisions for termination of employment because at all times during the term of each officer's employment agreements, such officer's employment is at will and may be terminated by Abraxas for any reason with notice or cause. If, during the term of the employment agreement for each of Messrs. Wallace and Wendel or Dr. Billingsley or any extension thereof, a change in control occurs, then such officer will be entitled to an automatic extension of the term of the officer's employment agreement for a period of 36 months beyond the term in effect immediately before the change in control.

If, following a change in control, an officer's employment is terminated other than for Cause or Disability, by reason of the officer's death or Retirement or by such officer for Good Reason, then such terminated officer will be entitled to the following:

Watson and Williford: a lump sum payment equal to 2.99 times his annual base salary.

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

Wallace, Wendel and Billingsley: a lump sum payment equal to three times his annual base salary.

If any lump sum payment to a named executive officer would individually or together with any other amounts paid or payable constitute an excess parachute payment within the meaning of Section 280G of the Internal Revenue Code of 1986, as amended, and applicable regulations thereunder, the amounts to be paid will be increased so that each named executive officer, as the case may be, will be entitled to receive the amount of compensation provided in his contract after payment of the tax imposed by Section 280G.

In addition, unvested options that have been awarded to our named executive officers will vest upon any change in control. As of December 31, 2006, 270,000 options were unvested and 262,500 of those were out-of-the-money with an exercise price of \$4.59.

The table below contains certain information concerning termination and change in control payments to each of our named executive officers as if the event occurred on December 31, 2006.

Compensation of Directors

All compensation paid to directors is limited to non-employee directors. We use a combination of cash and stock-based incentive compensation to attract and retain qualified individuals to serve on the Board.

Compensation. Abraxas pays each director an annual retainer fee of \$12,000 in four quarterly payments. Beginning in the fourth quarter of 2006, each quarterly payment will be paid in shares of restricted stock pursuant to the 2005 Director Plan; prior to this time, each quarterly payment was paid in cash. The number of shares issued to each non-employee director is calculated each quarter by dividing one-quarter of the then-established annual retainer fee by the closing price of our common stock on the date of each quarterly board meeting. Fractional shares are not issued; therefore, any shortfall of the then-established annual retainer fee will be paid in cash after the last quarterly board meeting of each year. Any non-employee director who leaves the Board during the calendar year is not eligible for any restricted stock awards after leaving the Board. In addition, Abraxas pays each

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

director, including the advisory director, \$1,500 for each board meeting attended and \$1,000 for each committee meeting attended. The chairman of the audit committee receives an additional annual fee of \$3,000 and the chairmen of the compensation, governance, and nominating committees each receive an additional annual fee of \$1,500.

Stock Options. Abraxas has awarded each director a total of 85,000 options (40,000 to the advisory director), with exercise prices equal to the prevailing market prices at the time of issuance, ranging between \$0.68 and \$4.59 per share. In addition, each year at the first regular board meeting following the annual meeting, Abraxas awards each director, including the advisory director, 10,000 options, in accordance with the terms of the 2005 Director Plan. The 2005 Directors Plan reserves 900,000 shares of Abraxas common stock, subject to adjustment following certain events, such as stock splits. The maximum annual award for any one director is 10,000 shares plus the number of restricted shares awarded pursuant to the retainer payment described above. The exercise price of all options awarded are no less than 100% of the fair market value on the date of the award while the option terms and vesting schedules are at the discretion of the Compensation Committee. The following is a description of the material terms of the 2005 Director Plan:

Unless otherwise provided in the applicable award agreement or any severance agreement, vested awards granted under the 2005 Directors Plan shall expire, terminate, or otherwise be forfeited as follows:

three months after the date the Company delivers a notice of termination of a Participant's Active Status, other than in circumstances covered by the following three circumstances:

§ immediately upon termination for misconduct;

§ 12 months after the date of death; and

§ 36 months after the date on which the director ceased performing services as a result of retirement.

COMPENSATION OF DIRECTORS

The following table sets forth a summary of compensation for the fiscal year ended December 31, 2006 that Abraxas paid to each director. Abraxas does not sponsor a pension benefits plan, a non-qualified deferred compensation plan or a non-equity incentive plan for our directors; therefore, these columns have been omitted from the following table. Except for reimbursement of travel expenses to attend board and committee meetings, no other or additional compensation for services were paid to any of the directors.

Policy

Edgar Filing: ABRAXAS PETROLEUM CORP - Form 10-K/A

On February 21, 2007, our Board of Directors adopted a formal written related person transaction approval policy, which sets out Abraxas policies and procedures for the review, approval, or ratification of related person transactions. For these purposes, a related person is a director, nominee for director, executive officer, or holder of more than 5% of our common stock, or any immediate family member of any of the foregoing. This policy applies to any financial transaction, arrangement or relationship or any series of similar financial transactions, arrangements or relationships in which Abraxas is a participant and in which a related person has a direct or indirect interest, other than the following:

payment of compensation by Abraxas to a related person for the related person's service in the capacity or capacities that give rise to the person's status as a related person;

transactions available to all employees or all stockholders on the same terms;

purchases of supplies from Abraxas in the ordinary course of business at the same price and on the same terms as offered to our other customers, regardless of whether the transactions are required to be reported in Abraxas filings with the SEC; and

transactions, which when aggregated with the amount of all other transactions between the related person and Abraxas, involve less than \$10,000 in a fiscal year.

Our Audit Committee is to approve any related person transaction subject to this policy before commencement of the related person transaction, provided that if the related person transaction is identified after it commences, it shall be brought to the Audit Committee for ratification, amendment or rescission. The chairman of our Audit Committee has the authority to approve or take other actions in respect of any related person transaction that arises, or first becomes known, between meetings of the audit committee, provided that any action by the Chairman must be reported to our Audit Committee at its next regularly scheduled meeting.

Our Audit Committee will analyze the following factors, in addition to any other factors the members of the Audit Committee deem appropriate, in determining whether to approve a related person transaction:

whether the terms are fair to Abraxas;

whether the transaction is material to Abraxas;

the role the related person has played in arranging the related person transaction;

the structure of the related person transaction; and

the interest of all related persons in the related person transaction.

Our Audit Committee may, in its sole discretion, approve or deny any related person transaction. Approval of a related person transaction may be conditioned upon Abraxas and the related person following certain procedures designated by the Audit Committee.
