GLACIER BANCORP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Operations and Summary of Significant Accounting Policies

General

Glacier Bancorp, Inc. (“Company”) is a Montana corporation headquartered in Kalispell, Montana. The Company provides a full range of banking services to individuals and businesses in Montana, Idaho, Utah, Washington, Wyoming, Colorado and Arizona through its wholly-owned bank subsidiary, Glacier Bank (“Bank”). The Company offers a wide range of banking products and services, including transaction and savings deposits, real estate, commercial, agriculture and consumer loans and mortgage origination services. The Company serves individuals, small to medium-sized businesses, community organizations and public entities.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the Company’s financial condition as of June 30, 2017, the results of operations and comprehensive income for the three and six month periods ended June 30, 2017 and 2016, and changes in stockholders’ equity and cash flows for the six month periods ended June 30, 2017 and 2016. The condensed consolidated statement of financial condition of the Company as of December 31, 2016 has been derived from the audited consolidated statements of the Company as of that date.

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. Operating results for the six months ended June 30, 2017 are not necessarily indicative of the results anticipated for the year ending December 31, 2017.

The Company is a defendant in legal proceedings arising in the normal course of business. In the opinion of management, the disposition of pending litigation will not have a material affect on the Company’s consolidated financial position, results of operations or liquidity.

Material estimates that are particularly susceptible to significant change include: 1) the determination of the allowance for loan and lease losses (“ALLL” or “allowance”); 2) the valuation of investment securities; 3) the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans; and 4) the evaluation of goodwill impairment. For the determination of the ALLL and real estate valuation estimates, management obtains independent appraisals (new or updated) for significant items. Estimates relating to investment valuations are obtained from independent third parties. Estimates relating to the evaluation of goodwill for impairment are determined based on internal calculations using significant independent party inputs.

Principles of Consolidation

The consolidated financial statements of the Company include the parent holding company and the Bank. The Bank consists of fourteen bank divisions, a treasury division, an information technology division and a centralized mortgage division. The treasury division includes the Bank’s investment portfolio and wholesale borrowings, the information technology division includes the Bank’s internal data processing, and the centralized mortgage division includes mortgage loan servicing and secondary market sales. The Bank divisions operate under separate names, management teams and advisory directors. The Company considers the Bank to be its sole operating segment as the Bank 1) engages in similar bank business activity from which it earns revenues and incurs expenses; 2) the operating results of the Bank are regularly reviewed by the Chief Executive Officer (i.e., the chief operating decision maker) who makes

decisions about resources to be allocated to the Bank; and 3) financial information is available for the Bank. All significant inter-company transactions have been eliminated in consolidation.

The Bank has subsidiary interests in variable interest entities (“VIE”) for which the Bank has both the power to direct the VIE’s significant activities and the obligation to absorb losses or right to receive benefits of the VIE that could potentially be significant to the VIE. These subsidiary interests are included in the Company’s consolidated financial statements. The parent holding company also owns non-bank subsidiaries that have issued trust preferred securities as Tier 1 capital instruments. The trust subsidiaries are not included in the Company’s consolidated financial statements. The Company’s investments in the trust subsidiaries are included in non-marketable equity securities on the Company’s statement of financial condition.

In April 2017, the Company completed its acquisition of TFB Bancorp, Inc. and its wholly-owned subsidiary, The Foothills Bank, a community bank based in Yuma, Arizona (collectively, “Foothills”). In August 2016, the Company completed its acquisition of Treasure State Bank, a community bank based in Missoula, Montana. The transactions were accounted for using the acquisition method, and their results of operations have been included in the Company’s consolidated financial statements as of the acquisition dates.

Pending Acquisition

In June 2017, the Company announced the signing of a definitive agreement to acquire Columbine Capital Corp., and its wholly-owned subsidiary, Collegiate Peaks Bank, a community bank based in Buena Vista, Colorado (collectively, “Collegiate”). Collegiate provides banking services to businesses and individuals in the Mountain and Front Range communities of Colorado, with banking offices located in Aurora, Buena Vista, Denver and Salida. As of June 30, 2017, Collegiate had total assets of \$466,356,000, gross loans of \$336,608,000 and total deposits of \$398,605,000. The acquisition is subject to required regulatory approvals and other customary conditions of closing and is expected to be completed during the first quarter of 2018. Upon closing of the transaction, Collegiate will be merged into Glacier Bank and will operate as a separate bank division under its existing name and management team.

Loans Receivable

Loans that are intended to be held-to-maturity are reported at the unpaid principal balance less net charge-offs and adjusted for deferred fees and costs on originated loans and unamortized premiums or discounts on acquired loans. Fees and costs on originated loans and premiums or discounts on acquired loans are deferred and subsequently amortized or accreted as a yield adjustment over the expected life of the loan utilizing the interest method. The objective of the interest method is to calculate periodic interest income at a constant effective yield. When a loan is paid off prior to maturity, the remaining fees and costs on originated loans and premiums or discounts on acquired loans are immediately recognized into interest income.

The Company’s loan segments, which are based on the purpose of the loan, include residential real estate, commercial, and consumer loans. The Company’s loan classes, a further disaggregation of segments, include residential real estate loans (residential real estate segment), commercial real estate and other commercial loans (commercial segment), and home equity and other consumer loans (consumer segment).

Loans that are thirty days or more past due based on payments received and applied to the loan are considered delinquent. Loans are designated non-accrual and the accrual of interest is discontinued when the collection of the contractual principal or interest is unlikely. A loan is typically placed on non-accrual when principal or interest is due and has remained unpaid for ninety days or more. When a loan is placed on non-accrual status, interest previously accrued but not collected is reversed against current period interest income. Subsequent payments on non-accrual loans are applied to the outstanding principal balance if doubt remains as to the ultimate collectability of the loan. Interest accruals are not resumed on partially charged-off impaired loans. For other loans on nonaccrual, interest accruals are resumed on such loans only when they are brought fully current with respect to interest and principal and when, in the judgment of management, the loans are estimated to be fully collectible as to both principal and interest.

The Company considers impaired loans to be the primary credit quality indicator for monitoring the credit quality of the loan portfolio. Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and, therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring). Interest income on accruing impaired loans is recognized using the interest method. The Company measures impairment on a

loan-by-loan basis in the same manner for each class within the loan portfolio. An insignificant delay or shortfall in the amounts of payments would not cause a loan or lease to be considered impaired. The Company determines the significance of payment delays and shortfalls on a case-by-case basis, taking into consideration all of the facts and circumstances surrounding the loan and the borrower, including the length and reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest due.

A restructured loan is considered a troubled debt restructuring (“TDR”) if the creditor, for economic or legal reasons related to the debtor’s financial difficulties, grants a concession to the debtor that it would not otherwise consider. The Company periodically enters into restructure agreements with borrowers whereby the loans were previously identified as TDRs. When such circumstances occur, the Company carefully evaluates the facts of the subsequent restructure to determine the appropriate accounting and under certain circumstances it may be acceptable not to account for the subsequently restructured loan as a TDR. When assessing whether a concession has been granted by the Company, any prior forgiveness on a cumulative basis is considered a continuing concession. A TDR loan is considered an impaired loan and a specific valuation allowance is established when the fair value of the collateral-dependent loan or present value of the loan’s expected future cash flows (discounted at the loan’s effective interest rate based on the original contractual rate) is lower than the carrying value of the impaired loan. The Company has made the following types of loan modifications, some of which were considered a TDR:

- reduction of the stated interest rate for the remaining term of the debt;
- extension of the maturity date(s) at a stated rate of interest lower than the current market rate for newly originated debt having similar risk characteristics; and
- reduction of the face amount of the debt as stated in the debt agreements.

The Company recognizes that while borrowers may experience deterioration in their financial condition, many continue to be creditworthy customers who have the willingness and capacity for debt repayment. In determining whether non-restructured or unimpaired loans issued to a single or related party group of borrowers should continue to accrue interest when the borrower has other loans that are impaired or are TDRs, the Company on a quarterly or more frequent basis performs an updated and comprehensive assessment of the willingness and capacity of the borrowers to timely and ultimately repay their total debt obligations, including contingent obligations. Such analysis takes into account current financial information about the borrowers and financially responsible guarantors, if any, including for example:

- analysis of global, i.e., aggregate debt service for total debt obligations;
- assessment of the value and security protection of collateral pledged using current market conditions and alternative market assumptions across a variety of potential future situations; and
- loan structures and related covenants.

For additional information relating to loans, see Note 3.

Allowance for Loan and Lease Losses

Based upon management’s analysis of the Company’s loan portfolio, the balance of the ALLL is an estimate of probable credit losses known and inherent within the Bank’s loan portfolio as of the date of the consolidated financial statements. The ALLL is analyzed at the loan class level and is maintained within a range of estimated losses. Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The determination of the ALLL and the related provision for loan losses is a critical accounting estimate that involves management’s judgments about known relevant internal and external environmental factors that affect loan losses. The balance of the ALLL is highly dependent upon management’s evaluations of borrowers’ current and prospective performance, appraisals and other variables affecting the quality of the loan portfolio. Individually significant loans and major lending areas are reviewed periodically to determine potential problems at an early date. Changes in management’s estimates and assumptions are reasonably possible and may have a material impact upon the Company’s consolidated financial statements, results of operations or capital.

Risk characteristics considered in the ALLL analysis applicable to each loan class within the Company’s loan portfolio are as follows:

Residential Real Estate. Residential real estate loans are secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class include a large number of borrowers, geographic dispersion of market areas and the loans are originated for relatively smaller amounts.

Commercial Real Estate. Commercial real estate loans typically involve larger principal amounts, and repayment of these loans is generally dependent on the successful operation of the property securing the loan and/or the business conducted on the property securing the loan. Credit risk in these loans is impacted by the creditworthiness of a borrower, valuation of the property securing the loan and conditions within the local economies in the Company's diverse, geographic market areas.

Commercial. Commercial loans consist of loans to commercial customers for use in financing working capital needs, equipment purchases and business expansions. The loans in this category are repaid primarily from the cash flow of a borrower's principal business operation. Credit risk in these loans is driven by creditworthiness of a borrower and the economic conditions that impact the cash flow stability from business operations across the Company's diverse, geographic market areas.

Home Equity. Home equity loans consist of junior lien mortgages and first and junior lien lines of credit (revolving open-end and amortizing closed-end) secured by owner-occupied 1-4 family residences. Repayment of these loans is primarily dependent on the personal income and credit rating of the borrowers. Credit risk in these loans is impacted by economic conditions within the Company's market areas that affect the value of the residential property securing the loans and affect the borrowers' personal incomes. Mitigating risk factors for this loan class are a large number of borrowers, geographic dispersion of market areas and the loans are originated for terms that range from 10 years to 15 years.

Other Consumer. The other consumer loan portfolio consists of various short-term loans such as automobile loans and loans for other personal purposes. Repayment of these loans is primarily dependent on the personal income of the borrowers. Credit risk is driven by consumer economic factors (such as unemployment and general economic conditions in the Company's diverse, geographic market area) and the creditworthiness of a borrower.

The ALLL consists of a specific valuation allowance component and a general valuation allowance component. The specific component relates to loans that are determined to be impaired and individually evaluated for impairment. The Company measures impairment on a loan-by-loan basis based on the present value of expected future cash flows discounted at the loan's effective interest rate, except when it is determined that repayment of the loan is expected to be provided solely by the underlying collateral. For impairment based on expected future cash flows, the Company considers all information available as of a measurement date, including past events, current conditions, potential prepayments, and estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the loan. For alternative ranges of cash flows, the likelihood of the possible outcomes is considered in determining the best estimate of expected future cash flows. The effective interest rate for a loan restructured in a TDR is based on the original contractual rate. For collateral-dependent loans and real estate loans for which foreclosure or a deed-in-lieu of foreclosure is probable, impairment is measured by the fair value of the collateral, less estimated cost to sell. The fair value of the collateral is determined primarily based upon appraisal or evaluation of the underlying real property value.

The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors. The historical loss experience is based on the previous twelve quarters loss experience by loan class adjusted for risk characteristics in the existing loan portfolio. The same trends and conditions are evaluated for each class within the loan portfolio; however, the risk characteristics are weighted separately at the individual class level based on the Company's judgment and experience.

The changes in trends and conditions evaluated for each class within the loan portfolio include the following:

-

- Changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in global, national, regional, and local economic and business conditions and developments that affect the collectability of the portfolio, including the condition of various market segments;
- Changes in the nature and volume of the portfolio and in the terms of loans;
- Changes in experience, ability, and depth of lending management and other relevant staff;
- Changes in the volume and severity of past due and nonaccrual loans;
- Changes in the quality of the Company's loan review system;
- Changes in the value of underlying collateral for collateral-dependent loans;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
 - The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the Company's existing portfolio.

The ALLL is increased by provisions for loan losses which are charged to expense. The portions of loan balances determined by management to be uncollectible are charged off as a reduction of the ALLL and recoveries of amounts previously charged off are credited as an increase to the ALLL. The Company's charge-off policy is consistent with bank regulatory standards. Consumer loans generally are charged off when the loan becomes over 120 days delinquent. Real estate acquired as a result of foreclosure or by deed-in-lieu of foreclosure is classified as real estate owned until such time as it is sold.

At acquisition date, the assets and liabilities of acquired banks are recorded at their estimated fair values which results in no ALLL carried over from acquired banks. Subsequent to acquisition, an allowance will be recorded on the acquired loan portfolios for further credit deterioration, if any.

Reclassifications

Certain reclassifications have been made to the 2016 financial statements to conform to the 2017 presentation.

Impact of Recent Authoritative Accounting Guidance

The Accounting Standards CodificationTM ("ASC") is the Financial Accounting Standards Board's ("FASB") officially recognized source of authoritative GAAP applicable to all public and non-public non-governmental entities. Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under the authority of the federal securities laws are also sources of authoritative GAAP for the Company as an SEC registrant. All other accounting literature is non-authoritative. The following paragraphs provide descriptions of recently adopted or newly issued but not yet effective accounting standards that could have a material effect on the Company's financial position or results of operations.

In March 2017, FASB amended FASB ASC Subtopic 310-20, Receivables-Nonrefundable Fees and Other Costs. The amendments in the Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date instead of the maturity date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2018. Early adoption is permitted and if adopted in an interim period, any adjustments should be reflected as of the beginning of the year that includes the interim period. The entity should apply the amendments on a modified retrospective basis through a cumulative-effective adjustment directly to retained earnings as of the beginning of the period of adoption. The Company has premiums on debt securities that are currently being amortized to the maturity date, primarily in the state and local governments category. The Company is currently evaluating the amount of the premium associated with debt securities that will be impacted by the amendments, the impact the amendments will have to the Company's financial position and results of operations, and whether it will early adopt. The accounting policies and procedures will be modified after the Company has fully evaluated the standard, although significant changes are not expected.

In January 2017, FASB amended FASB ASC Topic 350, Simplifying the Test for Goodwill. The amendments in the Update simplify the measurement of goodwill by eliminating Step 2 from the goodwill impairment test. Instead, under these amendments, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss should not exceed the total amount of goodwill allocated to that reporting unit. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company has goodwill from prior business combinations and performs an annual impairment test or more frequently if changes or circumstances occur that would more-likely-than-not reduce the fair value of the reporting unit below its carrying value. During the

third quarter of 2016, the Company performed its impairment assessment and determined the fair value of the aggregated reporting units exceed the carrying value, such that the Company's goodwill was not considered impaired. Although the Company cannot anticipate future goodwill impairment assessments, based on the most recent assessment, it is unlikely that an impairment amount would need to be calculated and, therefore, the Company does not anticipate a material impact from these amendments to the Company's financial position and results of operations. The current accounting policies and processes are not anticipated to change, except for the elimination of the Step 2 analysis. For additional information regarding goodwill impairment testing, see Note 4.

In June 2016, FASB amended FASB ASC Topic 326, Financial Instruments - Credit Losses. The amendments in this Update replace the incurred loss model with a methodology that reflects expected credit losses over the life of the loan and requires consideration of a broader range of reasonable and supportable information to calculate credit loss estimates. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2019. The Company is currently evaluating the impact of these amendments to the Company's financial position and results of operations and currently does not know or cannot reasonably quantify the impact of the adoption of the amendments as a result of the complexity and extensive changes from the amendments. The ALLL is a material estimate of the Company and given the change from an incurred loss model to a methodology that considers the credit loss over the life of the loan, there is the potential for an increase in the ALLL at adoption date. The Company is anticipating a significant change in the processes and procedures to calculate the ALLL, including changes in assumptions and estimates to consider expected credit losses over the life of the loan versus the current accounting practice that utilizes the incurred loss model. The Company will also develop new procedures for determining an allowance for credit losses relating to held-to-maturity investment securities. In addition, the current accounting policy and procedures for other-than-temporary impairment on available-for-sale investment securities will be replaced with an allowance approach. The Company has formed a project team and continues to review the standard for developing and implementing processes and procedures during the next two years to ensure it is fully compliant with the amendments at adoption date. For additional information on the allowance for loan losses, see Note 3.

In March 2016, FASB amended FASB ASC Topic 718, Compensation - Stock Compensation. The amendments in this Update address certain aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification of awards on the statement of cash flows. The amendments were effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2016 and the Company adopted the amendments as of January 1, 2017. The amendments require entities to recognize all income tax effects related to share-based payment awards in the statement of operations when the awards vest or are settled. Previously, income tax benefits at the settlement of awards were reported as increases (or decreases) to additional paid-in capital to the extent that those benefits were greater than (or less than) the income tax benefits recognized in earnings during the awards' vesting periods. Such amounts are to be classified as an operating activity in the statement of cash flows instead of the prior accounting treatment, which required it to be classified as both an operating and a financing activity. The Company has elected to apply this classification change on a retrospective basis. Also in connection with the adoption of the Update, the Company has elected to change its accounting policy to recognize forfeitures as they occur. The requirement to report income tax effects in earnings has been applied to the settlement of awards on a prospective basis and the impact of applying the guidance reduced reported income tax expense for the six month period ended June 30, 2017 by \$538,000, or approximately \$0.01 per diluted common share. The implementation of the remaining provisions of the Update did not have a significant impact on the Company's consolidated financial statements.

In February 2016, FASB amended FASB ASC Topic 842, Leases. The amendments in this Update address several aspects of lease accounting with the significant change being the recognition of lease assets and lease liabilities for leases previously classified as operating leases. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2018, and early adoption is permitted. The Company has several lease agreements for which the amendments will require the Company to recognize a lease liability to make lease payments and a right-of-use asset which will represent its right to use the underlying asset for the lease term. The Company is currently reviewing the amendments to ensure it is fully compliant by the adoption date and doesn't expect to early adopt. As permitted by the amendments, the Company is anticipating electing an accounting policy to not recognize lease assets and lease liabilities for leases with a term of twelve months or less. The impact is not expected to have a material effect on the Company's financial position or results of operations since the Company does not have a material amount of lease agreements. The Company is currently in the process of fully

evaluating the amendments and will subsequently implement new processes which are not expected to significantly change since the Company already has processes for certain lease agreements that recognize the lease assets and lease liabilities. In addition, the Company will change its current accounting policies to comply with the amendments with such changes as mentioned above.

In January 2016, FASB amended FASB ASC Topic 825, Financial Instruments. The amendments in this Update address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments are effective for public business entities for the first interim and annual reporting periods beginning after December 15, 2017. Early adoption is only permitted under certain circumstances outlined in the amendments. A reporting entity should apply the amendments by means of a cumulative-effect adjustment to the Company's statement of financial condition as of the beginning of the reporting year of adoption. The amendments will impact the Company in a few areas including requiring equity investments (with certain exclusions) to be measured at fair value with the changes recognized in net income, requirement to utilize an exit price when measuring the fair value of financial instruments, additional disclosures related to other comprehensive income, evaluation of a valuation allowance on a deferred tax asset related to available-for-sale investment securities in combination with the entity's other deferred tax assets, and other disclosure changes. The Company is currently evaluating the impact of these amendments, but does not expect them to have a material effect on the Company's financial position or results of operations since it does not have a material amount of equity securities or a valuation allowance. However, the amendments will have an impact on certain items that are disclosed at fair value that are not currently utilizing the exit price notion when measuring fair value. As of June 30, 2017, the Company cannot quantify the change in the fair value of such disclosures since the Company is currently evaluating the full impact of the Update and is in the planning stages of developing appropriate procedures and processes to comply with the disclosure requirements of such amendments. The current accounting policies and procedures will be modified after the Company has fully evaluated the standard to comply with the accounting changes mentioned above.

In May 2014, FASB amended FASB ASC Topic 606, Revenue from Contracts with Customers. The amendments clarify the principles for recognizing revenue and develop a common revenue standard among industries. The new guidance establishes the following core principle: recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for goods or services. Five steps are provided for a company or organization to follow to achieve such core principle. The new guidance also includes a cohesive set of disclosure requirements that will provide users of financial statements with comprehensive information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The entity should apply the amendments using one of two retrospective methods described in the amendment. Accounting Standards Update No. 2015-14, Revenue from Contracts with Customers (Topic 606) delayed the effective date for public entities to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Several subsequent amendments have been issued that provide clarifying guidance and are effective with the adoption of the original Update. Early application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company continues to evaluate the standard and the impact of these amendments, although it doesn't expect the amendments to have a significant impact to the Company's financial position, results of operation, or disclosures. The amendments could potentially impact the accounting procedures and processes over the recognition of certain revenue sources, including, but not limited to, non-interest income. The Company is actively evaluating the standard and beginning to develop processes and procedures during 2017 to ensure it is fully compliant with these amendments at the date of adoption.

Note 2. Investment Securities

The following tables present the amortized cost, the gross unrealized gains and losses and the fair value of the Company's investment securities:

(Dollars in thousands)	June 30, 2017			Fair Value
	Amortized Cost	Gross Unrealized Gains	Losses	
Available-for-sale				
U.S. government and federal agency	\$35,774	30	(193)	35,611
U.S. government sponsored enterprises	19,161	122	(9)	19,274
State and local governments	646,916	24,580	(3,593)	667,903
Corporate bonds	421,208	1,423	(262)	422,369
Residential mortgage-backed securities	894,877	4,265	(2,778)	896,364
Commercial mortgage-backed securities	101,258	178	(485)	100,951
Total available-for-sale	2,119,194	30,598	(7,320)	2,142,472
Held-to-maturity				
State and local governments	659,347	26,045	(6,897)	678,495
Total held-to-maturity	659,347	26,045	(6,897)	678,495
Total investment securities	\$2,778,541	56,643	(14,217)	2,820,967

(Dollars in thousands)	December 31, 2016			Fair Value
	Amortized Cost	Gross Unrealized Gains	Losses	
Available-for-sale				
U.S. government and federal agency	\$39,554	15	(162)	39,407

Held-to-maturity				
State and local governments	675,674	21,400	(7,985)	689,089
Total held-to-maturity	675,674	21,400	(7,985)	689,089
Total investment securities	\$3,098,476	46,360	(30,270)	3,114,566

The following table presents the amortized cost and fair value of available-for-sale and held-to-maturity securities by contractual maturity at June 30, 2017. Actual maturities may differ from expected or contractual maturities since issuers have the right to prepay obligations with or without prepayment penalties.

(Dollars in thousands)	June 30, 2017			
	Available-for-Sale		Held-to-Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due within one year	\$173,687	173,917	—	—
Due after one year through five years	344,407	346,022	1,702	1,761
Due after five years through ten years	219,792	229,630	64,115	66,745
Due after ten years	385,173	395,588	593,530	609,989
	1,123,059	1,145,157	659,347	678,495
Mortgage-backed securities ¹	996,135	997,315	—	—
Total	\$2,119,194	2,142,472	659,347	678,495

¹ Mortgage-backed securities, which have prepayment provisions, are not assigned to maturity categories due to fluctuations in their prepayment speeds.

Proceeds from sales and calls of investment securities and the associated gains and losses that have been included in earnings are listed below:

(Dollars in thousands)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Available-for-sale				
Proceeds from sales and calls of investment securities	\$104,172	29,861	112,663	88,484
Gross realized gains ¹	3,057	143	3,067	943
Gross realized losses ¹	(3,514)	(261)	(3,663)	(1,000)
Held-to-maturity				
Proceeds from calls of investment securities	7,445	10,470	15,235	21,625
Gross realized gains ¹	72	44	153	91
Gross realized losses ¹	(137)	(146)	(179)	(146)

¹ The gain or loss on the sale or call of each investment security is determined by the specific identification method.

Investment securities with an unrealized loss position are summarized as follows:

(Dollars in thousands)	June 30, 2017					
	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss

Held-to-maturity						
State and local governments	\$117,912	(1,712)	86,601	(6,273)	204,513	(7,985)
Total held-to-maturity	\$117,912	(1,712)	86,601	(6,273)	204,513	(7,985)

Based on an analysis of its investment securities with unrealized losses as of June 30, 2017 and December 31, 2016, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. The fair value of the investment securities is expected to recover as payments are received and the securities approach maturity. At June 30, 2017, management determined that it did not intend to sell investment securities with unrealized losses, and there was no expected requirement to sell any of its investment securities with unrealized losses before recovery of their amortized cost.

Note 3. Loans Receivable, Net

The Company's loan portfolio is comprised of three segments: residential real estate, commercial, and consumer and other loans. The loan segments are further disaggregated into the following classes: residential real estate, commercial real estate, other commercial, home equity and other consumer loans. The following table presents loans receivable for each portfolio class of loans:

(Dollars in thousands)	At or for the Six Months ended June 30, 2017	At or for the Year ended December 31, 2016
Residential real estate loans	\$712,726	674,347
Commercial loans		
Real estate	3,393,753	2,990,141
Other commercial	1,549,067	1,342,250
Total	4,942,820	4,332,391
Consumer and other loans		
Home equity	445,245	434,774
Other consumer	244,971	242,951
Total	690,216	677,725
Loans receivable	6,345,762	5,684,463
Allowance for loan and lease losses	(129,877)	(129,572)
Loans receivable, net	\$6,215,885	5,554,891
Net deferred origination (fees) costs included in loans receivable	\$(1,166)	(1,228)
Net purchase accounting (discounts) premiums included in loans receivable	\$(19,317)	(12,144)
Weighted-average interest rate on loans (tax-equivalent)	4.78	% 4.77 %

The following tables summarize the activity in the ALLL by portfolio segment:

Collectively evaluated for impairment	5,554,200	662,735	2,904,507	1,318,300	428,840	239,818
Total loans receivable	\$5,684,463	674,347	2,990,141	1,342,250	434,774	242,951

Substantially all of the Company's loans receivable are with customers in the Company's geographic market areas. Although the Company has a diversified loan portfolio, a substantial portion of its customers' ability to honor their obligations is dependent upon the economic performance in the Company's market areas.

The following tables disclose information related to impaired loans by portfolio segment:

(Dollars in thousands)	At or for the Three or Six Months ended June 30, 2017

Pre-modification recorded balance	\$21,956	335	12,617	8,816	178	10
Post-modification recorded balance	\$19,274	335	9,935	8,816	178	10
TDRs that subsequently defaulted						
Number of loans	1	—	—	1	—	—
Recorded balance	\$18	—	—	18	—	—

(Dollars in thousands)	Six Months ended June 30, 2016					
	Total	Residential Real Estate	Commercial Real Estate	Other Commercial	Home Equity	Other Consumer
TDRs that occurred during the period						
Number of loans	22	—	6	14	2	—
Pre-modification recorded balance	\$13,871	—	2,203	11,459	209	—
Post-modification recorded balance	\$13,895	—	2,203	11,483	209	—
TDRs that subsequently defaulted						
Number of loans	11	1	1	3	—	6
Recorded balance	\$2,933	1,918	570	316	—	129

The modifications for the TDRs that occurred during the six months ended June 30, 2017 and 2016 included one or a combination of the following: an extension of the maturity date, a reduction of the interest rate or a reduction in the principal amount.

In addition to the TDRs that occurred during the period provided in the preceding tables, the Company had TDRs with pre-modification loan balances of \$4,170,000 and \$3,649,000 for the six months ended June 30, 2017 and 2016, respectively, for which other real estate owned (“OREO”) was received in full or partial satisfaction of the loans. The majority of such TDRs were in home equity and residential real estate for the six months ended June 30, 2017 and 2016, respectively. At June 30, 2017 and December 31, 2016, the Company had \$1,748,000 and \$1,770,000, respectively, of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process. At June 30, 2017 and December 31, 2016, the Company had \$3,145,000 and \$2,699,000, respectively, of OREO secured by residential real estate properties.

Note 4. Goodwill

The following schedule discloses the changes in the carrying value of goodwill:

(Dollars in thousands)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Net carrying value at beginning of period	\$147,053	140,638	147,053	140,638
Acquisitions and adjustments	30,758	—	30,758	—
Net carrying value at end of period	\$177,811	140,638	177,811	140,638

The gross carrying value of goodwill and the accumulated impairment charge consists of the following:

(Dollars in thousands)	June 30, 2017	December 31, 2016
Gross carrying value	\$217,970	187,212
Accumulated impairment charge ¹	(40,159)	(40,159)
Net carrying value	\$177,811	147,053

¹ A goodwill impairment charge was recognized in 2011 and was due to high levels of volatility and dislocation in bank stock prices nationwide.

The Company performed its annual goodwill impairment test during the third quarter of 2016 and determined the fair value of the aggregated reporting units exceeded the carrying value, such that the Company's goodwill was not considered impaired. Changes in the economic environment, operations of the aggregated reporting units, or other factors could result in the decline in the fair value of the aggregated reporting units which could result in a goodwill impairment in the future.

For additional information on goodwill related to acquisitions, see Note 12.

25

Note 5. Variable Interest Entities

A VIE is a partnership, limited liability company, trust or other legal entity that meets one of the following criteria: 1) the entity's equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support from other parties; 2) the holders of the equity investment at risk, as a group, lack the characteristics of a controlling financial interest; and 3) the voting rights of some holders of the equity investment at risk are disproportionate to their obligation to absorb losses or receive returns, and substantially all of the activities are conducted on behalf of the holder of equity investment at risk with disproportionately few voting rights. A VIE must be consolidated by the Company if it is deemed to be the primary beneficiary, which is the party involved with the VIE that has both: 1) the power to direct the activities of the VIE that most significantly affect the VIE's economic performance; and 2) the obligation to absorb the losses of the VIE that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

The Company's VIEs are regularly monitored to determine if any reconsideration events have occurred that could cause the primary beneficiary status to change. A previously unconsolidated VIE is consolidated when the Company becomes the primary beneficiary. A previously consolidated VIE is deconsolidated when the Company ceases to be the primary beneficiary or the entity is no longer a VIE.

Consolidated Variable Interest Entities

The Company has equity investments in Certified Development Entities ("CDE") which have received allocations of New Markets Tax Credits ("NMTC"). The NMTC program provides federal tax incentives to investors to make investments in distressed communities and promotes economic improvements through the development of successful businesses in these communities. The NMTC is available to investors over a seven-year period and is subject to recapture if certain events occur during such period. The maximum exposure to loss in the CDEs is the amount of equity invested and credit extended by the Company. However, the Company has credit protection in the form of indemnification agreements, guarantees, and collateral arrangements. The Company has evaluated the variable interests held by the Company in each CDE (NMTC) investment and determined the Company does not individually meet the characteristics of a primary beneficiary; however, the related-party group does meet the criteria as a group and substantially all of the activities of the CDEs either involve or are conducted on behalf of the Company. As a result, the Company is the primary beneficiary of the CDEs and their assets, liabilities, and results of operations are included in the Company's consolidated financial statements. The primary activities of the CDEs are recognized in commercial loans interest income and other borrowed funds interest expense on the Company's statements of operations and the federal income tax credit allocations from the investments are recognized in the Company's statements of operations as a component of income tax expense. Such related cash flows are recognized in loans originated, principal collected on loans and change in other borrowed funds.

The following table summarizes the carrying amounts of the consolidated VIEs' assets and liabilities included in the Company's statements of financial condition and are adjusted for intercompany eliminations. All assets presented can be used only to settle obligations of the consolidated VIEs and all liabilities presented consist of liabilities for which creditors and other beneficial interest holders therein have no recourse to the general credit of the Company.

(Dollars in thousands)	June 30, December 31,	
	2017	2016
Assets		
Loans receivable	\$49,084	36,950
Accrued interest receivable	93	120
Other assets	2,983	1,984
Total assets	\$52,160	39,054
Liabilities		

Other borrowed funds	\$5,520	4,105
Accrued interest payable	1	2
Other liabilities	5	27
Total liabilities	\$5,526	4,134

Unconsolidated Variable Interest Entities

The Company has equity investments in Low-Income Housing Tax Credit (“LIHTC”) partnerships with carrying values of \$8,580,000 and \$7,282,000 as of June 30, 2017 and December 31, 2016, respectively. The LIHTCs are indirect federal subsidies to finance low-income housing and are used in connection with both newly constructed and renovated residential rental buildings. Once a project is placed in service, it is generally eligible for the tax credit for ten consecutive years. To continue generating the tax credit and to avoid tax credit recapture, a LIHTC building must satisfy specific low-income housing compliance rules for a full fifteen-year period. The maximum exposure to loss in the VIEs is the amount of equity invested and credit extended by the Company. However, the Company has credit protection in the form of indemnification agreements, guarantees, and collateral arrangements. The Company has evaluated the variable interests held by the Company in each LIHTC investment and determined that the Company does not have controlling financial interests in such investments, and is not the primary beneficiary. The Company reports the investments in the unconsolidated LIHTCs as other assets on the Company’s statements of financial condition. Total unfunded contingent commitments related to the Company’s LIHTC investments totaled \$23,512,000 at June 30, 2017, of which \$15,176,000 is expected to be fulfilled in 2017 and \$8,336,000 is expected to be fulfilled in 2018. There were no impairment losses on the Company’s LIHTC investments during the six months ended June 30, 2017.

The Company has elected to use the proportional amortization method for the amortization of all eligible LIHTC investments and amortization expense is recognized as a component of income tax expense. The following table summarizes the amortization expense and the amount of tax credits and other tax benefits recognized for qualified affordable housing project investments during the periods presented.

	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
(Dollars in thousands)				
Amortization expense	\$640	354	1,143	609
Tax credits and other tax benefits recognized	976	431	1,752	823

The Company also owns the following trust subsidiaries, each of which issued trust preferred securities as Tier 1 capital instruments: Glacier Capital Trust II, Glacier Capital Trust III, Glacier Capital Trust IV, Citizens (ID) Statutory Trust I, Bank of the San Juans Bancorporation Trust I, First Company Statutory Trust 2001, and First Company Statutory Trust 2003. The trust subsidiaries have no assets, operations, revenues or cash flows other than those related to the issuance, administration and repayment of the securities held by third parties. The trust subsidiaries are not included in the Company’s consolidated financial statements because the sole asset of each trust subsidiary is a receivable from the Company, even though the Company owns all of the voting equity shares of the trust subsidiaries, has fully guaranteed the obligations of the trust subsidiaries and may have the right to redeem the third party securities under certain circumstances. The Company reports the trust preferred securities issued to the trust subsidiaries as subordinated debentures on the Company’s statements of financial condition.

Note 6. Securities Sold Under Agreements to Repurchase

The Company's securities sold under agreements to repurchase ("repurchase agreements") totaled \$451,050,000 and \$473,650,000 at June 30, 2017 and December 31, 2016, respectively, and are secured by investment securities with carrying values of \$533,428,000 and \$472,239,000, respectively. Securities are pledged to customers at the time of the transaction in an amount at least equal to the outstanding balance and are held in custody accounts by third parties. The fair value of collateral is continually monitored and additional collateral is provided as deemed appropriate.

The following tables summarize the carrying value of the Company's repurchase agreements by remaining contractual maturity and category of collateral:

(Dollars in thousands)	June 30, 2017		
	Remaining Contractual Maturity of the Agreements		
	Overnight	Up to and 30 Days	Total
Residential mortgage-backed securities	\$440,955	—	440,955

Total	\$451,050	—	451,050

(Dollars in thousands)	December 31, 2016		
	Remaining Contractual Maturity of the Agreements		
	Overnight	Up to and 30 Days	Total
Residential mortgage-backed securities	\$471,706	643	472,349
Commercial mortgage-backed securities	1,301	—	1,301
Total	\$473,007	643	473,650

Note 7. Derivatives and Hedging Activities

As of June 30, 2017, the Company's interest rate swap derivative financial instruments were designated as cash flow hedges and are summarized as follows:

(Dollars in thousands)	Forecasted Notional Amount	Variable Interest Rate ¹	Fixed Interest Rate ¹	Payment Term
Interest rate swap	\$ 160,000	3 month LIBOR	3.378 %	Oct. 21, 2014 - Oct. 21, 2021
Interest rate swap	100,000	3 month LIBOR	2.498 %	Nov. 30, 2015 - Nov. 30, 2022

¹ The Company pays the fixed interest rate and the counterparty pays the Company the variable interest rate.

The hedging strategy converts the LIBOR-based variable interest rate on borrowings to a fixed interest rate, thereby protecting the Company from interest rate variability.

The interest rate swaps with the \$160,000,000 and \$100,000,000 notional amounts began their payment terms in October 2014 and November 2015, respectively. The Company designated wholesale deposits as the cash flow hedge and these deposits were determined to be fully effective during the current and prior year. As such, no amount of ineffectiveness has been included in the Company's statements of operations for the six months ended June 30, 2017 and 2016. Therefore, the aggregate fair value of the interest rate swaps was recorded in other liabilities with changes recorded in other comprehensive income ("OCI"). The Company expects the hedges to remain highly effective during the remaining terms of the interest rate swaps. Interest expense recorded on the interest rate swaps totaled \$3,973,000 and \$3,995,000 for the six months ended June 30, 2017 and 2016, respectively, and is reported as a component of interest expense on deposits. Unless the interest rate swaps are terminated during the next year, the Company expects \$4,852,000 of the unrealized loss reported in other comprehensive income at June 30, 2017 to be reclassified to interest expense during the next twelve months.

The following table presents the pre-tax gains or losses recorded in accumulated other comprehensive income and the Company's statements of operations relating to the interest rate swap derivative financial instruments:

(Dollars in thousands)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Interest rate swaps				
Amount of loss recognized in OCI (effective portion)	\$(2,108)	(4,020)	(1,844)	(13,948)
Amount of loss reclassified from OCI to interest expense	(1,262)	(1,578)	(2,594)	(3,407)
Amount of loss recognized in other non-interest expense (ineffective portion)	—	—	—	—

The following table discloses the offsetting of financial liabilities and interest rate swap derivative liabilities. There were no interest rate swap derivative assets at the dates presented.

(Dollars in thousands)	June 30, 2017			December 31, 2016		
	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statements of Financial Position	Net Amounts of Liabilities Presented in the Statements of Financial Position
Interest rate swaps	\$ 13,975	—	13,975	14,725	—	14,725

Pursuant to the interest rate swap agreements, the Company pledged collateral to the counterparty in the form of investment securities totaling \$26,519,000 at June 30, 2017. There was \$0 collateral pledged from the counterparty to the Company as of June 30, 2017. There is the possibility that the Company may need to pledge additional collateral in the future if there were declines in the fair value of the interest rate swap derivative financial instruments versus the collateral pledged.

Note 8. Other Expenses

Other expenses consists of the following:

(Dollars in thousands)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Debit card expenses	\$1,794	2,252	3,512	4,101
Consulting and outside services	1,600	1,492	3,020	2,506
Employee expenses	1,143	925	1,932	1,504
Telephone	934	983	1,911	1,943
Loan expenses	722	955	1,613	1,738
VIE amortization and other expenses	948	402	1,412	1,041
Postage	636	790	1,361	1,670
Printing and supplies	668	728	1,308	1,671
Accounting and audit fees	530	309	1,042	700
Business development	453	543	793	885
Legal fees	446	474	786	711
Checking and operating expenses	362	998	727	1,692
ATM expenses	382	263	694	518
Other	885	1,253	1,812	2,233
Total other expenses	\$11,503	12,367	21,923	22,913

Note 9. Accumulated Other Comprehensive Income (Loss)

The following table illustrates the activity within accumulated other comprehensive income (loss) by component, net of tax:

(Dollars in thousands)	Gains on Available-For-Sale Securities	Losses on Derivatives Used for Cash Flow Hedges	Total
Balance at December 31, 2015	\$ 13,935	(11,946)	1,989
Other comprehensive income (loss) before reclassifications	24,846	(8,544)	16,302
Amounts reclassified from accumulated other comprehensive income (loss)	35	2,087	2,122
Net current period other comprehensive income (loss)	24,881	(6,457)	18,424
Balance at June 30, 2016	\$ 38,816	(18,403)	20,413
Balance at December 31, 2016	\$ 1,639	(9,021)	(7,382)
Other comprehensive income (loss) before reclassifications	12,256	(1,129)	11,127
Amounts reclassified from accumulated other comprehensive income (loss)	365	1,589	1,954
Net current period other comprehensive income	12,621	460	13,081
Balance at June 30, 2017	\$ 14,260	(8,561)	5,699

Note 10. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period presented. Diluted earnings per share is computed by including the net increase in shares as if dilutive outstanding restricted stock awards were vested, using the treasury stock method.

Basic and diluted earnings per share has been computed based on the following:

(Dollars in thousands, except per share data)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Net income available to common stockholders, basic and diluted	\$33,687	30,451	64,942	59,133
Average outstanding shares - basic	77,546,236	76,170,734	77,061,867	76,148,493
Add: dilutive restricted stock awards	46,089	34,335	63,810	43,162
Average outstanding shares - diluted	77,592,325	76,205,069	77,125,677	76,191,655
Basic earnings per share	\$0.43	0.40	0.84	0.78
Diluted earnings per share	\$0.43	0.40	0.84	0.78

There were no restricted stock awards excluded from the diluted average outstanding share calculation for the six months ended June 30, 2017 and 2016. Anti-dilution occurs when the unrecognized compensation cost per share of a restricted stock award exceeds the market price of the Company's stock.

Note 11. Fair Value of Assets and Liabilities

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Transfers in and out of Level 1 (quoted prices in active markets), Level 2 (significant other observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date. There were no transfers between fair value hierarchy levels during the six month periods ended June 30, 2017 and 2016.

Recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets and liabilities measured at fair value on a recurring basis, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended June 30, 2017.

Investment securities, available-for-sale: fair value for available-for-sale securities is estimated by obtaining quoted market prices for identical assets, where available. If such prices are not available, fair value is based on independent asset pricing services and models, the inputs of which are market-based or independently sourced market parameters, including but not limited to, yield curves, interest rates, volatilities, market spreads, prepayments, defaults, recoveries,

cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. Where Level 1 or Level 2 inputs are not available, such securities are classified as Level 3 within the hierarchy.

Fair value determinations of available-for-sale securities are the responsibility of the Company's corporate accounting and treasury departments. The Company obtains fair value estimates from independent third party vendors on a monthly basis. The vendors' pricing system methodologies, procedures and system controls are reviewed to ensure they are appropriately designed and operating effectively. The Company reviews the vendors' inputs for fair value estimates and the recommended assignments of levels within the fair value hierarchy. The review includes the extent to which markets for investment securities are determined to have limited or no activity, or are judged to be active markets. The Company reviews the extent to which observable and unobservable inputs are used as well as the appropriateness of the underlying assumptions about risk that a market participant would use in active markets, with adjustments for limited or inactive markets. In considering the inputs to the fair value estimates, the Company places less reliance on quotes that are judged to not reflect orderly transactions, or are non-binding indications. In assessing credit risk, the Company reviews payment performance, collateral adequacy, third party research and analyses, credit rating histories and issuers' financial statements. For those markets determined to be inactive or limited, the valuation techniques used are models for which management has verified that discount rates are appropriately adjusted to reflect illiquidity and credit risk.

Interest rate swap derivative financial instruments: fair values for interest rate swap derivative financial instruments are based upon the estimated amounts to settle the contracts considering current interest rates and are calculated using discounted cash flows that are observable or that can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy. The inputs used to determine fair value include the 3 month LIBOR forward curve to estimate variable rate cash inflows and the Fed Funds Effective Swap Rate to estimate the discount rate. The estimated variable rate cash inflows are compared to the fixed rate outflows and such difference is discounted to a present value to estimate the fair value of the interest rate swaps. The Company also obtains and compares the reasonableness of the pricing from an independent third party.

The following tables disclose the fair value measurement of assets and liabilities measured at fair value on a recurring basis:

(Dollars in thousands)	Fair Value June 30, 2017	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Investment securities, available-for-sale			
U.S. government and federal agency	\$35,611	—35,611	—
U.S. government sponsored enterprises	19,274	—19,274	—
State and local governments	667,903	—667,903	—
Corporate bonds	422,369	—422,369	—
Residential mortgage-backed securities	896,364	—896,364	—
Commercial mortgage-backed securities	100,951	—100,951	—
Total assets measured at fair value on a recurring basis	\$2,142,472	—2,142,472	—
Interest rate swaps	\$13,975	—13,975	—

Total liabilities measured at fair value on a recurring basis \$13,975 —13,975 —

(Dollars in thousands)	Fair Value December 31, 2016	Fair Value Measurements At the End of the Reporting Period Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Investment securities, available-for-sale			
U.S. government and federal agency	\$ 39,407	—	—
U.S. government sponsored enterprises	19,570	—	—
State and local governments	786,373	—	—
Corporate bonds	471,951	—	—
Residential mortgage-backed securities	1,007,515	—	—
Commercial mortgage-backed securities	100,661	—	—
Total assets measured at fair value on a recurring basis	\$ 2,425,477	—	—
Interest rate swaps	\$ 14,725	—	—
Total liabilities measured at fair value on a recurring basis	\$ 14,725	—	—

Non-recurring Measurements

The following is a description of the inputs and valuation methodologies used for assets recorded at fair value on a non-recurring basis, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the period ended June 30, 2017.

Other real estate owned: OREO is carried at the lower of fair value at acquisition date or current estimated fair value, less estimated cost to sell. Estimated fair value of OREO is based on appraisals or evaluations (new or updated). OREO is classified within Level 3 of the fair value hierarchy.

Collateral-dependent impaired loans, net of ALLL: loans included in the Company's loan portfolio for which it is probable that the Company will not collect all principal and interest due according to contractual terms are considered impaired. Estimated fair value of collateral-dependent impaired loans is based on the fair value of the collateral, less estimated cost to sell. Collateral-dependent impaired loans are classified within Level 3 of the fair value hierarchy.

The Company's credit departments review appraisals for OREO and collateral-dependent loans, giving consideration to the highest and best use of the collateral. The appraisal or evaluation (new or updated) is considered the starting point for determining fair value. The valuation techniques used in preparing appraisals or evaluations (new or updated) include the cost approach, income approach, sales comparison approach, or a combination of the preceding valuation techniques. The key inputs used to determine the fair value of the collateral-dependent loans and OREO include selling costs, discounted cash flow rate or capitalization rate, and adjustment to comparables. Valuations and significant inputs obtained by independent sources are reviewed by the Company for accuracy and reasonableness. The Company also considers other factors and events in the environment that may affect the fair value. The appraisals or evaluations (new or updated) are reviewed at least quarterly and more frequently based on current market conditions, including deterioration in a borrower's financial condition and when property values may be subject to significant volatility. After review and acceptance of the collateral appraisal or evaluation (new or updated),

adjustments to the impaired loan or OREO may occur. The Company generally obtains appraisals or evaluations (new or updated) annually.

The following tables disclose the fair value measurement of assets with a recorded change during the period resulting from re-measuring the assets at fair value on a non-recurring basis:

(Dollars in thousands)	Fair Value June 30, 2017	Fair Value Measurements At the End of the Reporting Period Using Quoted Prices in Significant Markets for Observable Inputs (Level 1)	
		Other Significant Unobservable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other real estate owned	\$ 785	—	785
Collateral-dependent impaired loans, net of ALLL	8,107	—	8,107
Total assets measured at fair value on a non-recurring basis	\$ 8,892	—	8,892

(Dollars in thousands)	Fair Value December 31, 2016	Fair Value Measurements At the End of the Reporting Period Using Quoted Prices in Significant Markets for Observable Inputs (Level 1)	
		Other Significant Unobservable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other real estate owned	\$ 7,839	—	7,839
Collateral-dependent impaired loans, net of ALLL	5,664	—	5,664
Total assets measured at fair value on a non-recurring basis	\$ 13,503	—	13,503

Non-recurring Measurements Using Significant Unobservable Inputs (Level 3)

The following tables present additional quantitative information about assets measured at fair value on a non-recurring basis and for which the Company has utilized Level 3 inputs to determine fair value:

(Dollars in thousands)	Fair Value June 30, 2017	Quantitative Information about Level 3 Fair Value Measurements		
		Valuation Technique	Unobservable Input	Range (Weighted-Average) ¹
Other real estate owned	\$ 785	Sales comparison approach	Selling costs	8.0% - 10.0% (8.9%)
Collateral-dependent impaired loans, net of ALLL	\$ 5	Cost approach	Selling costs	20.0% - 20.0% (20.0%)

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

2,198	Sales comparison approach	Selling costs	8.0% - 15.0% (9.8%)
5,904	Combined approach	Selling costs	10.0% - 10.0% (10.0%)
		Adjustment to comparables	20.0% - 20.0% (20.0%)
\$8,107			

(Dollars in thousands)	Fair Value December 31, 2016	Quantitative Information about Level 3 Fair Value Measurements		Range (Weighted-Average) ¹
		Valuation Technique	Unobservable Input	
Other real estate owned	\$ 7,767	Sales comparison approach	Selling costs	6.0% - 10.0% (6.9%)
			Adjustment to comparables	0.0% - 10.0% (0.1%)
	72	Combined approach	Selling costs	10.0% - 10.0% (10.0%)
			Adjustment to comparables	10.0% - 10.0% (10.0%)
\$ 7,839				
Collateral-dependent impaired loans, net of ALLL	\$ 110	Cost approach	Selling costs	6.0% - 20.0% (6.6%)
	1,982	Sales comparison approach	Selling costs	8.0% - 10.0% (9.6%)
	3,572	Combined approach	Selling costs	10.0% - 10.0% (10.0%)
			Adjustment to comparables	20.0% - 20.0% (20.0%)
	\$ 5,664			

¹ The range for selling costs and adjustments to comparables indicate reductions to the fair value.

Fair Value of Financial Instruments

The following is a description of the methods used to estimate the fair value of all other assets and liabilities recognized at amounts other than fair value.

Cash and cash equivalents: fair value is estimated at book value.

Investment securities, held-to-maturity: fair value for held-to-maturity securities is estimated in the same manner as available-for-sale securities, which is described above.

Loans held for sale: fair value is estimated at book value.

Loans receivable, net of ALLL: fair value is estimated by discounting the future cash flows using the rates at which similar notes would be written for the same remaining maturities. The market rates used are based on current rates the Company would impose for similar loans and reflect a market participant assumption about risks associated with non-performance, illiquidity, and the structure and term of the loans along with local economic and market conditions. Estimated fair value of impaired loans is based on the fair value of the collateral, less estimated cost to sell, or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate). All impaired loans are classified as Level 3 and all other loans are classified as Level 2 within the valuation hierarchy.

Accrued interest receivable: fair value is estimated at book value.

Non-marketable equity securities: fair value is estimated at book value due to restrictions that limit the sale or transfer of such securities.

Deposits: fair value of term deposits is estimated by discounting the future cash flows using rates of similar deposits with similar maturities. The market rates used were obtained from an independent third party and reviewed by the

Company. The rates were the average of current rates offered by the Company's local competitors. The estimated fair value of demand, NOW, savings, and money market deposits is the book value since rates are regularly adjusted to market rates and transactions are executed at book value daily. Therefore, such deposits are classified in Level 1 of the valuation hierarchy. Certificate accounts and wholesale deposits are classified as Level 2 within the hierarchy.

Federal Home Loan Bank advances: fair value of non-callable Federal Home Loan Bank ("FHLB") advances is estimated by discounting the future cash flows using rates of similar advances with similar maturities. Such rates were obtained from current rates offered by FHLB. The estimated fair value of callable FHLB advances was obtained from FHLB and the model was reviewed by the Company.

Securities sold under agreements to repurchase and other borrowed funds: fair value of term repurchase agreements and other term borrowings is estimated based on current repurchase rates and borrowing rates currently available to the Company for repurchases and borrowings with similar terms and maturities. The estimated fair value for overnight repurchase agreements and other borrowings is book value.

Subordinated debentures: fair value of the subordinated debt is estimated by discounting the estimated future cash flows using current estimated market rates. The market rates used were averages of currently traded trust preferred securities with similar characteristics to the Company's issuances and obtained from an independent third party.

Accrued interest payable: fair value is estimated at book value.

Off-balance sheet financial instruments: commitments to extend credit and letters of credit represent the principal categories of off-balance sheet financial instruments. Rates for these commitments are set at time of loan closing, such that no adjustment is necessary to reflect these commitments at market value. The Company has an insignificant amount of off-balance sheet financial instruments.

The following tables present the carrying amounts, estimated fair values and the level within the fair value hierarchy of the Company's financial instruments:

(Dollars in thousands)	Carrying Amount June 30, 2017	Fair Value Measurements At the End of the Reporting Period Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total financial liabilities	\$8,246,418	6,094,463	2,119,547	—

Note 12. Mergers and Acquisitions

On April 30, 2017, the Company acquired 100 percent of the outstanding common stock of TFB Bancorp, Inc. and its wholly-owned subsidiary, The Foothills Bank, a community bank based in Yuma, Arizona. Foothills provides banking services to individuals and businesses in Arizona, with banking offices located in Yuma, Prescott and Casa Grande, Arizona. The acquisition expands the Company's market into the state of Arizona and further diversifies the Company's loan, customer and deposit base. Foothills merged into Glacier Bank and operates as a separate Bank division under its existing name and management team. The Foothills acquisition was valued at \$64,015,000 and resulted in the Company issuing 1,381,661 shares of its common stock and \$17,342,000 in cash in exchange for all of Foothills' outstanding common stock shares. The fair value of the Company shares issued was determined on the basis of the closing market price of the Company's common stock on the April 30, 2017 acquisition date. The excess of the fair value of consideration transferred over total identifiable net assets was recorded as goodwill. The goodwill arising from the acquisition consists largely of the synergies and economies of scale expected from combining the operations of the Company and Foothills. None of the goodwill is deductible for income tax purposes as the acquisition was accounted for as a tax-free exchange.

The assets and liabilities of Foothills were recorded on the Company's consolidated statements of financial condition at their estimated fair values as of the April 30, 2017 acquisition date and Foothills' results of operations have been included in the Company's consolidated statements of operations since that date.

The following table discloses the calculation of the fair value of the consideration transferred, the total identifiable net assets acquired and the resulting goodwill arising from the Foothills acquisition:

(Dollars in thousands)	April 30, 2017
Fair value of consideration transferred	
Fair value of Company shares issued, net of equity issuance costs	\$ 46,673
Cash consideration for outstanding shares	17,342
Contingent consideration	—
Total fair value of consideration transferred	64,015
Recognized amounts of identifiable assets acquired and liabilities assumed	
Identifiable assets acquired	
Cash and cash equivalents	13,251
Investment securities	25,420
Loans receivable	292,529
Core deposit intangible ¹	4,331
Accrued income and other assets	19,699
Total identifiable assets acquired	355,230
Liabilities assumed	
Deposits	296,760
FHLB advances	22,800
Accrued expenses and other liabilities	2,264
Total liabilities assumed	321,824
Total identifiable net assets	33,406
Goodwill recognized	\$ 30,609

¹ The core deposit intangible for this acquisition was determined to have an estimated life of 10 years.

The fair value of the Foothills assets acquired includes loans with fair values of \$292,529,000 and the gross principal and contractual interest due under the Foothills contracts is \$303,527,000. The Company evaluated the principal and contractual interest due at the acquisition date and determined that an insignificant amount is not expected to be collectible.

The Company incurred \$785,000 of third-party acquisition-related costs in connection with the Foothills acquisition during the six months ended June 30, 2017. The expenses are primarily included in other expense in the Company's consolidated statements of operations.

Total income consisting of net interest income and non-interest income of the acquired operations of Foothills was approximately \$3,789,000 and net income was approximately \$750,000 from April 30, 2017 to June 30, 2017. The following unaudited pro forma summary presents consolidated information of the Company as if the Foothills acquisition had occurred on January 1, 2016:

(Dollars in thousands)	Three Months ended		Six Months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Net interest income and non-interest income	\$ 115,215	108,848	225,071	213,308
Net income	30,527	31,206	62,752	60,788

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to provide a more comprehensive review of the Glacier Bancorp, Inc.'s ("Company") operating results and financial condition than can be obtained from reading the Consolidated Financial Statements alone. The discussion should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in "Part I. Item 1. Financial Statements."

FORWARD-LOOKING STATEMENTS

This Form 10-Q may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about management's plans, objectives, expectations and intentions that are not historical facts, and other statements identified by words such as "expects," "anticipates," "intends," "plans," "believes," "should," "projects," "seeks," "estimates" or words of similar import. These forward-looking statements are based on current beliefs and expectations of management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. In addition to the factors set forth in the sections titled "Risk Factors," "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations", as applicable, in this report and the Annual Report on Form 10-K for the year ended December 31, 2016 (the "2016 Annual Report"), the following factors, among others, could cause actual results to differ materially from the anticipated results:

- the risks associated with lending and potential adverse changes of the credit quality of loans in the Company's portfolio;
- changes in trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System or the Federal Reserve Board, which could adversely affect the Company's net interest income and profitability;
- changes in the cost and scope of insurance from the FDIC and other third parties;
- legislative or regulatory changes, including increased banking and consumer protection regulation that adversely affect the Company's business;
- inability to complete pending or prospective future acquisitions, limit certain sources of revenue, or increase cost of operations;
- costs or difficulties related to the completion and integration of acquisitions;
- the goodwill the Company has recorded in connection with acquisitions could become impaired, which may have an adverse impact on earnings and capital;
- reduced demand for banking products and services;
- the reputation of banks and the financial services industry could deteriorate, which could adversely affect the Company's ability to obtain (and maintain) customers;
- competition among financial institutions in the Company's markets may increase significantly;
- the risks presented by continued public stock market volatility, which could adversely affect the market price of the Company's common stock and the ability to raise additional capital or grow the Company through acquisitions;
- the projected business and profitability of an expansion or the opening of a new branch could be lower than expected;
- consolidation in the financial services industry in the Company's markets resulting in the creation of larger financial institutions who may have greater resources could change the competitive landscape;
- dependence on the Chief Executive Officer ("CEO"), the senior management team and the Presidents of Glacier Bank ("Bank") divisions;
- material failure, potential interruption or breach in security of the Company's systems and technological changes which could expose us to new risks (e.g., cybersecurity), fraud or system failures;
- natural disasters, including fires, floods, earthquakes, and other unexpected events;

the Company's success in managing risks involved in the foregoing; and
the effects of any reputational damage to the Company resulting from any of the foregoing.

Please take into account that forward-looking statements speak only as of the date of this Form 10-Q. The Company does not undertake any obligation to publicly correct or update any forward-looking statement if it later becomes aware that actual results are likely to differ materially from those expressed in such forward-looking statement.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Financial Highlights

The Company reported net income of \$33.7 million for the current quarter, an increase of \$3.2 million, or 11 percent, from the \$30.5 million of net income for the prior year second quarter. Diluted earnings per share for the current quarter was \$0.43 per share, an increase of \$0.03, or 8 percent, from the prior year second quarter diluted earnings per share of \$0.40. Included in the current quarter was \$867 thousand of acquisition-related expenses.

Net income for the six months ended June 30, 2017 was \$64.9 million, an increase of \$5.8 million, or 10 percent, from the \$59.1 million of net income for the first six months of the prior year. Diluted earnings per share for the first half of 2017 was \$0.84 per share, an increase of \$0.06, or 8 percent, from the diluted earnings per share of \$0.78 for the same period in the prior year.

Acquisitions

On June 6, 2017, the Company announced the signing of a definitive agreement to acquire Columbine Capital Corp., the holding company for Collegiate Peaks Bank, a community bank in Buena Vista, Colorado (collectively, “Collegiate”). As of June 30, 2017, Collegiate had total assets of \$466 million, gross loans of \$337 million and total deposits of \$399 million. The acquisition marks the Company’s 19th acquisition since 2000, its eighth transaction in the past five years, and its fourth transaction in the state of Colorado. The acquisition is subject to required regulatory approvals and other customary conditions of closing and is expected to be completed during the first quarter of 2018. Upon closing of the transaction, Collegiate will be merged into Glacier Bank and will operate as a separate Bank division under its existing name and management team.

On April 30, 2017, the Company completed the acquisition of TFB Bancorp, Inc. and its wholly-owned subsidiary, The Foothills Bank (collectively, “Foothills”), which resulted in goodwill of \$30.6 million. The Company’s results of operations and financial condition include the acquisition of Foothills from the acquisition date. For additional information regarding this acquisition, see Note 12 to the Consolidated Financial Statements in “Part I. Item 1. Financial Statements.” The following table provides information on the fair value of selected classifications of Foothills’ assets and liabilities acquired:

(Dollars in thousands)	April 30, 2017
Total assets	\$385,839
Investment securities	25,420
Loans receivable	292,529
Non-interest bearing deposits	97,527
Interest bearing deposits	199,233
Federal Home Loan Bank advances	22,800

Financial Condition Analysis

Assets

The following table summarizes the Company’s assets as of the dates indicated:

(Dollars in thousands)	Jun 30, 2017	Mar 31, 2017	Dec 31, 2016	\$ Change from Mar 31, Dec 31, 2017 2016	
Cash and cash equivalents	\$237,590	234,004	152,541	3,586	85,049
Investment securities, available-for-sale	2,142,472	2,314,521	2,425,477	(172,049)	(283,005)
Investment securities, held-to-maturity	659,347	667,388	675,674	(8,041)	(16,327)
Total investment securities	2,801,819	2,981,909	3,101,151	(180,090)	(299,332)
Loans receivable					
Residential real estate	712,726	685,458	674,347	27,268	38,379
Commercial real estate	3,393,753	3,056,372	2,990,141	337,381	403,612
Other commercial	1,549,067	1,462,110	1,342,250	86,957	206,817
Home equity	445,245	433,554	434,774	11,691	10,471
Other consumer	244,971	239,480	242,951	5,491	2,020
Loans receivable	6,345,762	5,876,974	5,684,463	468,788	661,299
Allowance for loan and lease losses	(129,877)	(129,226)	(129,572)	(651)	(305)
Loans receivable, net	6,215,885	5,747,748	5,554,891	468,137	660,994
Other assets	644,200	590,247	642,017	53,953	2,183
Total assets	\$9,899,494	9,553,908	9,450,600	345,586	448,894

Total investment securities of \$2.802 billion at June 30, 2017 decreased \$180 million, or 6 percent, during the current quarter and decreased \$367 million, or 12 percent, from the prior year second quarter. The decrease in the investment portfolio resulted from the Company continuing to redeploy the investment securities portfolio cash flow into the Company's higher yielding loan portfolio. Investment securities represented 28 percent of total assets at June 30, 2017 compared to 33 percent of total assets at December 31, 2016 and 34 percent of total assets at June 30, 2016.

Excluding the Foothills acquisition, the Company experienced another strong quarter for loan growth with an increase of \$176 million, or 12 percent annualized, during the current quarter. The loan category with the largest dollar increase was commercial real estate loans which increased \$107 million, or 4 percent. Excluding the Foothills acquisition and the acquisition of Treasure State Bank ("TSB") in August of 2016, the loan portfolio increased \$623 million, or 12 percent, since June 30, 2016 with the primary increases coming from growth in commercial real estate and other commercial loans of \$365 million and \$255 million, respectively.

Liabilities

The following table summarizes the Company's liabilities as of the dates indicated:

(Dollars in thousands)	Jun 30, 2017	Mar 31, 2017	Dec 31, 2016	\$ Change from	
				Mar 31, 2017	Dec 31, 2016
Deposits					
Non-interest bearing deposits	\$2,234,058	2,049,476	2,041,852	184,582	192,206
NOW and DDA accounts	1,717,351	1,596,353	1,588,550	120,998	128,801
Savings accounts	1,059,717	1,035,023	996,061	24,694	63,656
Money market deposit accounts	1,608,994	1,516,731	1,464,415	92,263	144,579
Certificate accounts	886,504	941,628	948,714	(55,124)	(62,210)
Core deposits, total	7,506,624	7,139,211	7,039,592	367,413	467,032
Wholesale deposits	291,339	340,946	332,687	(49,607)	(41,348)
Deposits, total	7,797,963	7,480,157	7,372,279	317,806	425,684
Securities sold under agreements to repurchase	451,050	497,187	473,650	(46,137)	(22,600)
Federal Home Loan Bank advances	211,505	211,627	251,749	(122)	(40,244)
Other borrowed funds	5,817	8,894	4,440	(3,077)	1,377
Subordinated debentures	126,063	126,027	125,991	36	72
Other liabilities	97,139	94,776	105,622	2,363	(8,483)
Total liabilities	\$8,689,537	8,418,668	8,333,731	270,869	355,806

Excluding the Foothills acquisition, core deposits increased \$70.7 million, or 1 percent, from the prior quarter with an increase of \$87 million, or 4 percent, in non-interest bearing deposits. Excluding the Foothills and TSB acquisitions, core deposits increased \$401 million, or 6 percent, from June 30, 2016 with the primary increase in non-interest bearing deposits which grew \$217 million.

Securities sold under agreements to repurchase ("repurchase agreements") of \$451 million at June 30, 2017 decreased \$46.1 million, or 9 percent, from the prior quarter and increased \$36.7 million, or 9 percent, from the prior year second quarter. Federal Home Loan Bank ("FHLB") advances of \$212 million at June 30, 2017 were stable compared to the prior quarter and decreased \$117 million, or 36 percent, from the prior year second quarter due to the increase in deposits.

Stockholders' Equity

The following table summarizes the stockholders' equity balances as of the dates indicated:

(Dollars in thousands, except per share data)	Jun 30, 2017	Mar 31, 2017	Dec 31, 2016	\$ Change from	
				Mar 31, 2017	Dec 31, 2016
Common equity	\$1,204,258	1,139,652	1,124,251	64,606	80,007
Accumulated other comprehensive (loss) income	5,699	(4,412)	(7,382)	10,111	13,081
Total stockholders' equity	1,209,957	1,135,240	1,116,869	74,717	93,088
Goodwill and core deposit intangible, net	(193,249)	(158,799)	(159,400)	(34,450)	(33,849)
Tangible stockholders' equity	\$1,016,708	976,441	957,469	40,267	59,239
Stockholders' equity to total assets	12.22 %	11.88 %	11.82 %		
Tangible stockholders' equity to total tangible assets	10.47 %	10.39 %	10.31 %		
Book value per common share	\$15.51	14.82	14.59	0.69	0.92
Tangible book value per common share	\$13.03	12.74	12.51	0.29	0.52

Tangible stockholders' equity of \$1.017 billion at June 30, 2017 increased \$40.3 million, or 4 percent, from the prior quarter primarily as a result of earnings retention, \$46.7 million of Company stock issued in connection with the Foothills acquisition and an increase in accumulated other comprehensive income. Tangible stockholders' equity increased \$45.7 million, or 5 percent, from a year ago, the result of earnings retention and \$57.1 million of Company stock issued in connection with the Foothills and TSB acquisitions; such increases more than offset the increase in goodwill and core deposit intangibles and the decrease in accumulated other comprehensive income. Tangible book value per common share at quarter end increased \$0.29 per share from the prior quarter and increased \$0.28 per share from a year ago.

Cash Dividend

On June 28, 2017, the Company's Board of Directors declared a quarterly cash dividend of \$0.21 per share, an increase of \$0.01 per share, or 5 percent, over the prior year second quarter. The dividend was payable July 21, 2017 to shareholders of record on July 12, 2017. Future cash dividends will depend on a variety of factors, including net income, capital, asset quality, general economic conditions and regulatory considerations.

Operating Results for Three Months Ended June 30, 2017
Compared to March 31, 2017 and June 30, 2016

Income Summary

The following table summarizes revenue for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Jun 30, 2017	Mar 31, 2017	Jun 30, 2016	Mar 31, 2017	Jun 30, 2016
Net interest income					
Interest income	\$94,032	87,628	86,069	6,404	7,963
Interest expense	7,774	7,366	7,424	408	350
Total net interest income	86,258	80,262	78,645	5,996	7,613
Non-interest income					
Service charges and other fees	17,495	15,633	15,772	1,862	1,723
Miscellaneous loan fees and charges	1,092	980	1,163	112	(71)
Gain on sale of loans	7,532	6,358	8,257	1,174	(725)
Loss on sale of investments	(522)	(100)	(220)	(422)	(302)
Other income	2,059	2,818	1,787	(759)	272
Total non-interest income	27,656	25,689	26,759	1,967	897
	\$113,914	105,951	105,404	7,963	8,510
Net interest margin (tax-equivalent)	4.12	% 4.03	% 4.06	%	

Net Interest Income

In the current quarter, interest income of \$94.0 million increased \$6.4 million, or 7 percent, from the prior quarter with the primary increase from commercial loans which increased \$6.2 million, or 12 percent. Current quarter interest income increased \$8.0 million, or 9 percent, over the prior year second quarter. Current quarter interest income on commercial loans increased \$9.2 million, or 20 percent, from the prior year second quarter which more than offset the \$1.7 million decrease in investment interest income.

The current quarter interest expense of \$7.8 million increased \$408 thousand, or 6 percent, from the prior quarter and increased \$350 thousand, or 5 percent, from the prior year second quarter. The total cost of funding (including non-interest bearing deposits) for the current quarter was 37 basis points compared to 37 basis points for the prior quarter and 38 basis points for the prior year second quarter.

The Company's net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the current quarter was 4.12 percent compared to 4.03 percent in the prior quarter. The 9 basis points increase in the net interest margin included a 5 basis point increase from discount accretion on acquired loans. The increase in margin was also attributable to an increase in loan yields and the continuing shift of lower yielding investments to higher yielding loans. The current quarter net interest margin increased 6 basis points over the prior year second quarter net interest margin of 4.06 percent, due to a decrease in cost of funds and the remix of earning assets to higher yielding loans.

Non-interest Income

Non-interest income for the current quarter totaled \$27.7 million, an increase of \$2.0 million, or 8 percent, from the prior quarter and an increase of \$897 thousand, or 3 percent, over the same quarter last year. Service charges and other fees of \$17.5 million, increased by \$1.9 million, or 12 percent, from the prior quarter primarily from seasonal activity and increased \$1.7 million, or 11 percent, from the prior year second quarter from the increased number of accounts. Gain on sale of loans for the current quarter increased \$1.2 million, or 18 percent, from the prior quarter as a result of

seasonal activity. Gain on sale of loans for the current quarter decreased \$725 thousand, or 9 percent, from the prior year second quarter primarily due to less mortgage refinance activity. Other income of \$2.1 million, decreased \$759 thousand, or 27 percent, over the prior quarter principally due to the prior quarter gain on sale of other real estate owned (“OREO”).

Non-interest Expense

The following table summarizes non-interest expense for the periods indicated:

(Dollars in thousands)	Three Months ended			\$ Change from	
	Jun 30, 2017	Mar 31, 2017	Jun 30, 2016	Mar 31, 2017	Jun 30, 2016
Compensation and employee benefits	\$39,498	39,246	37,560	252	1,938
Occupancy and equipment	6,560	6,646	6,443	(86)	117
Advertising and promotions	2,169	1,973	2,085	196	84
Data processing	3,411	3,124	3,938	287	(527)
Other real estate owned	442	273	214	169	228
Regulatory assessments and insurance	1,087	1,061	1,066	26	21
Core deposit intangibles amortization	639	601	788	38	(149)
Other expenses	11,503	10,420	12,367	1,083	(864)
Total non-interest expense	\$65,309	63,344	64,461	1,965	848

During 2016, the Company consolidated its Bank divisions' individual core database systems into a single core database and re-issued debit cards with chip technology (the Core Consolidation Project or "CCP"). Expenses related to CCP were \$1.3 million during the second quarter of 2016. Excluding CCP expenses, non-interest expense for the current quarter increased \$2.2 million, or 3 percent, over the prior year second quarter.

Compensation and employee benefits for the current quarter increased by \$1.9 million, or 5 percent, from the prior year second quarter due to salary increases and the increased number of employees from acquisitions. Outsourced data processing expense increased \$287 thousand, or 9 percent, from the prior quarter due to Foothills which will not be converted to the Company's core system until fourth quarter of 2017. Outsourced data processing expense decreased \$527, or 13 percent, from the prior year second quarter as a result of decreased costs associated with CCP. The current quarter other expenses increased \$1.1 million over the prior quarter primarily from expenses connected with equity investments in New Markets Tax Credit ("NMTC") projects. Current quarter other expenses decreased \$864 thousand, or 7 percent, from the prior year second quarter which was due to decreased costs from CCP.

Efficiency Ratio

The current quarter efficiency ratio was 52.89 percent, a 268 basis points decrease from the prior quarter efficiency ratio of 55.57 percent and a decrease of 321 basis points from the prior year second quarter ratio of 56.10 percent. The decrease in the efficiency ratio compared to the prior quarter and the prior year was primarily attributable to the increase in net interest income primarily due to higher commercial interest income.

Provision for Loan Losses

The following table summarizes the provision for loan losses, net charge-offs and select ratios relating to the provision for loan losses for the previous eight quarters:

(Dollars in thousands)	Provision for Loan Losses	Net Charge-Offs (Recoveries)	Allowance for Loan and Lease Losses as a Percent of Loans	Accruing Loans 30-89 Days Past Due as a Percent of Loans	Non-Performing Assets to Total Sub-sidiary Assets
Second quarter 2017	\$ 3,013	\$ 2,362	2.05 %	0.49 %	0.70 %
First quarter 2017	1,598	1,944	2.20 %	0.67 %	0.75 %
Fourth quarter 2016	1,139	4,101	2.28 %	0.45 %	0.76 %

Edgar Filing: GLACIER BANCORP INC - Form 10-Q

Third quarter 2016	626	478	2.37	%	0.49	%	0.84	%	
Second quarter 2016	—	(2,315)	2.46	%	0.44	%	0.82	%
First quarter 2016	568	194	2.50	%	0.46	%	0.88	%	
Fourth quarter 2015	411	1,482	2.55	%	0.38	%	0.88	%	
Third quarter 2015	826	577	2.68	%	0.37	%	0.97	%	

45

Net charge-offs for the current quarter were \$2.4 million compared to \$1.9 million for the prior quarter and net recoveries of \$2.3 million from the same quarter last year. There was \$3.0 million of current quarter provision for loan losses, compared to \$1.6 million in the prior quarter and no provision in the prior year second quarter. Loan portfolio growth, composition, average loan size, credit quality considerations, and other environmental factors will continue to determine the level of the loan loss provision.

The determination of the allowance for loan and lease losses (“ALLL” or “allowance”) and the related provision for loan losses is a critical accounting estimate that involves management’s judgments about current environmental factors which affect loan losses, such factors including economic conditions, changes in collateral values, net charge-offs, and other factors discussed below in “Additional Management’s Discussion and Analysis.”

Operating Results For Six Months ended June 30, 2017 Compared to June 30, 2016

Income Summary

The following table summarizes revenue for the periods indicated:

(Dollars in thousands)	Years ended		\$ Change	% Change	
	June 30, 2017	June 30, 2016			
Net interest income					
Interest income	\$181,660	\$170,450	\$11,210	7	%
Interest expense	15,140	15,099	41	—	%
Total net interest income	166,520	155,351	11,169	7	%
Non-interest income					
Service charges and other fees	33,128	30,453	2,675	9	%
Miscellaneous loan fees and charges	2,072	2,184	(112)	(5)	%
Gain on sale of loans	13,890	14,249	(359)	(3)	%
Loss on sale of investments	(622)	(112)	(510)	455	%
Other income	4,877	4,237	640	15	%
Total non-interest income	53,345	51,011	2,334	5	%
	\$219,865	\$206,362	\$13,503	7	%
Net interest margin (tax-equivalent)	4.08	% 4.04			%

Net Interest Income

Interest income for the first six months of the current year increased \$11.2 million, or 7 percent, from the prior year first six months and was principally due to a \$14.6 million increase in income from commercial loans which more than offset the decrease of \$3.6 million in interest income on investments.

Interest expense of \$15.1 million for the first six months of the current year increased \$41 thousand over the the same period in the prior year. The total funding cost (including non-interest bearing deposits) for the first six months of 2017 was 37 basis points compared to 39 basis points for the first six months of 2016.

The net interest margin as a percentage of earning assets, on a tax-equivalent basis, for the first six months of 2017 was 4.08 percent, a 4 basis point increase from the net interest margin of 4.04 percent for the first six months of 2016. The increase in the margin was primarily attributable to a shift in earning assets to higher yielding loans combined with a continued increase in low cost deposits.

Non-interest Income

Non-interest income of \$53.3 million for the first six months of 2017 increased \$2.3 million, or 5 percent, over the same period last year. Service charges and other fees of \$33.1 million for the first six months of 2017 increased \$2.7 million, or 9 percent, from the same period last year as a result of an increased number of deposit accounts. The gain on sale of loans of \$13.9 million for the first six months of 2017 decreased \$359 thousand, or 3 percent, from the same period last year which was due to a lower volume of refinanced mortgages. Other income of \$4.9 million for the first half of 2017 increased \$640 thousand, or 15 percent, over the same period last year and was primarily the result of gain on sale of OREO.

Non-interest Expense

The following table summarizes non-interest expense for the periods indicated:

(Dollars in thousands)	Years ended		\$ Change	% Change	
	June 30, 2017	June 30, 2016			
Compensation and employee benefits	\$78,744	\$74,501	\$4,243	6	%
Occupancy and equipment	13,206	13,119	87	1	%
Advertising and promotions	4,142	4,210	(68)	(2)	%
Data processing	6,535	7,311	(776)	(11)	%
Other real estate owned	715	604	111	18	%
Regulatory assessments and insurance	2,148	2,574	(426)	(17)	%
Core deposit intangible amortization	1,240	1,585	(345)	(22)	%
Other expenses	21,923	22,913	(990)	(4)	%
Total non-interest expense	\$128,653	\$126,817	\$1,836	1	%

Expenses related to CCP were \$2.2 million during the first six months of 2016. Excluding CCP expenses, non-interest expense for the current quarter increased \$4.0 million, or 3 percent, over the prior year same period. Compensation and employee benefits for the first six months of 2017 increased \$4.2 million, or 6 percent, from the same period last year due to salary increases, vesting of restricted stock awards, and the increased number of employees from the acquired banks. Outsourced data processing expense decreased \$776, or 11 percent, from the prior year first six months as a result of decreased costs associated with CCP. Current year other expenses of \$21.9 million decreased \$990 thousand, or 4 percent, from the prior year and was principally driven by decreased costs associated with CCP.

Efficiency Ratio

The efficiency ratio of 54.17 percent for the first six months of 2017 decreased 214 basis points from the prior year efficiency ratio of 56.31 percent for the first six months of 2016 which resulted from the increase in net interest income largely due to higher interest income on commercial loans.

Provision for Loan Losses

The provision for loan losses was \$4.6 million for the first six months of 2017, an increase of \$4.0 million from the same period in the prior year. Net charge-offs during the first six months of 2017 were \$4.3 million compared to net recoveries of \$2.1 million from the first six months of 2016.

ADDITIONAL MANAGEMENT'S DISCUSSION AND ANALYSIS

Investment Activity

Investment securities classified as available-for-sale are carried at estimated fair value and investment securities classified as held-to-maturity are carried at amortized cost. Unrealized gains or losses, net of tax, on available-for-sale securities are reflected as an adjustment to other comprehensive income. The Company's investment securities are summarized below:

(Dollars in thousands)	June 30, 2017		December 31, 2016		June 30, 2016	
	Carrying Amount	Percent	Carrying Amount	Percent	Carrying Amount	Percent
Available-for-sale						
U.S. government and federal agency	\$35,611	1 %	\$39,407	1 %	\$43,386	1 %
U.S. government sponsored enterprises	19,274	1 %	19,570	1 %	46,899	1 %
State and local governments	667,903	24 %	786,373	25 %	902,789	29 %
Corporate bonds	422,369	15 %	471,951	15 %	437,093	14 %
Residential mortgage-backed securities	896,364	32 %	1,007,515	33 %	1,043,078	33 %
Commercial mortgage-backed securities	100,951	3 %	100,661	3 %	14,710	— %
Total available-for-sale	2,142,472	76 %	2,425,477	78 %	2,487,955	78 %
Held-to-maturity						
State and local governments	659,347	24 %	675,674	22 %	680,574	22 %
Total held-to-maturity	659,347	24 %	675,674	22 %	680,574	22 %
Total investment securities	\$2,801,819	100 %	\$3,101,151	100 %	\$3,168,529	100 %

The Company's investment portfolio is primarily comprised of state and local government securities and mortgage-backed securities. State and local government securities are largely exempt from federal income tax and the Company's maximum federal statutory rate of 35 percent is used in calculating the tax-equivalent yields on the tax-exempt securities. Mortgage-backed securities are primarily short, weighted-average life U.S. agency guaranteed residential mortgage pass-through securities. To a lesser extent, mortgage-backed securities also consist of short, weighted-average life U.S. agency guaranteed residential collateralized mortgage obligations and U.S. agency guaranteed commercial mortgage-backed securities. Combined, the mortgage-backed securities provide the Company with ongoing liquidity as scheduled and pre-paid principal is received on the securities.

State and local government securities carry different risks that are not as prevalent in other security types. The Company evaluates the investment grade quality of its securities in accordance with regulatory guidance. Investment grade securities are those where the issuer has an adequate capacity to meet the financial commitments under the security for the projected life of the investment. An issuer has an adequate capacity to meet financial commitments if the risk of default by the obligor is low and the full and timely payment of principal and interest are expected. In assessing credit risk, the Company may use credit ratings from Nationally Recognized Statistical Rating Organizations ("NRSRO" entities such as Standard and Poor's ["S&P"] and Moody's) as support for the evaluation; however, they are not solely relied upon. There have been no significant differences in the Company's internal evaluation of the creditworthiness of any issuer when compared with the ratings assigned by the NRSROs.

The following table stratifies the state and local government securities by the associated NRSRO ratings. The highest issued rating was used to categorize the securities in the table for those securities where the NRSRO ratings were not at the same level.

(Dollars in thousands)	June 30, 2017		December 31, 2016	
	Amortized	Fair	Amortized	Fair
	Cost	Value	Cost	Value
S&P: AAA / Moody's: Aaa	\$313,069	318,083	345,527	346,301

Total	\$1,306,263	1,346,398	1,451,069	1,475,462

The following table presents the carrying amount and weighted-average yield of available-for-sale and held-to-maturity investment securities by contractual maturity at June 30, 2017. Weighted-average yields are based upon the amortized cost of securities and are calculated using the interest method which takes into consideration premium amortization, discount accretion and mortgage-backed securities' prepayment provisions. Weighted-average yields on tax-exempt investment securities exclude the federal income tax benefit.

For additional information on investment securities, see Note 2 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Other-Than-Temporary Impairment on Securities Analysis

Non-marketable equity securities. Non-marketable equity securities largely consist of capital stock issued by the FHLB of Des Moines and are evaluated for impairment whenever events or circumstances suggest the carrying value may not be recoverable. Based on the Company's evaluation of its investments in non-marketable equity securities as of June 30, 2017, the Company determined that none of such securities had other-than-temporary impairment.

Debt securities. In evaluating debt securities for other-than-temporary impairment losses, management assesses whether the Company intends to sell the security or if it is more-likely-than-not that the Company will be required to

sell the debt security. In so doing, management considers contractual constraints, liquidity, capital, asset/liability management and securities portfolio objectives. For debt securities with limited or inactive markets, the impact of macroeconomic conditions in the U.S. upon fair value estimates includes higher risk-adjusted discount rates and changes in credit ratings provided by NRSRO. In June 2017, S&P issued a credit opinion confirming its AA+ rating of U.S. government long-term debt, and the outlook remains stable. In June 2017, Moody's issued a credit opinion confirming its Aaa rating of U.S. government long-term debt and the outlook remains stable. In April 2017, Fitch issued a credit opinion confirming its AAA rating of U.S. government long-term debt and the outlook remains stable. S&P, Moody's and Fitch have similar credit ratings and outlooks with respect to certain long-term debt instruments issued by Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac") and other U.S. government agencies linked to the long-term U.S. debt.

The following table separates investments with an unrealized loss position at June 30, 2017 into two categories: investments purchased prior to 2017 and those purchased during 2017. Of those investments purchased prior to 2017, the fair market value and unrealized gain or loss at December 31, 2016 is also presented.

(Dollars in thousands)	June 30, 2017			December 31, 2016

Commercial mortgage-backed securities	69,314	(485)	(1)%	71,672	(1,552)	(2)%
Total	\$865,033	\$(13,966)	(2)%	\$913,498	\$(21,889)	(2)%
Temporarily impaired securities purchased during 2017						
State and local governments	\$3,680	\$(250)	(7)%			
Corporate bonds	999	(1)	—%			
Residential mortgage-backed securities	10	—	—%			
Total	\$4,689	\$(251)	(5)%			
Temporarily impaired securities						
U.S. government and federal agency	\$24,146	\$(193)	(1)%			
U.S. government sponsored enterprises	3,460	(9)	—%			
State and local governments	270,244	(10,490)	(4)%			
Corporate bonds	120,896	(262)	—%			
Residential mortgage-backed securities	381,662	(2,778)	(1)%			
Commercial mortgage-backed securities	69,314	(485)	(1)%			
Total	\$869,722	\$(14,217)	(2)%			

With respect to severity, the following table provides the number of debt securities and amount of unrealized loss in the various ranges of unrealized loss as a percent of book value at June 30, 2017:

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss
5.1% to 10.0%	66	\$(7,429)
0.1% to 5.0%	358	(6,788)
Total	424	\$(14,217)

With respect to the duration of the impaired debt securities, the Company identified 129 securities which have been continuously impaired for the twelve months ending June 30, 2017. The valuation history of such securities in the prior year(s) was also reviewed to determine the number of months in the prior year(s) in which the identified securities were in an unrealized loss position.

The following table provides details of the 129 debt securities which have been continuously impaired for the twelve months ended June 30, 2017, including the most notable loss for any one bond in each category.

(Dollars in thousands)	Number of Debt Securities	Unrealized Loss for 12 Months Or More	Most Notable Loss
U.S. government and federal agency	17	\$ (170)	\$ (34)
State and local governments	91	(8,412)	(1,269)
Corporate bonds	3	(8)	(6)
Residential mortgage-backed securities	18	(202)	(97)
Total	129	\$ (8,792)	

Based on the Company's analysis of its impaired debt securities as of June 30, 2017, the Company determined that none of such securities had other-than-temporary impairment and the unrealized losses were primarily the result of interest rate changes and market spreads subsequent to acquisition. A substantial portion of the debt securities with unrealized losses at June 30, 2017 were issued by Fannie Mae, Freddie Mac, Government National Mortgage Association ("Ginnie Mae") and other agencies of the U.S. government or have credit ratings issued by one or more of the NRSRO entities in the four highest credit rating categories. All of the Company's impaired debt securities at June 30, 2017 have been determined by the Company to be investment grade.

Lending Activity

The Company focuses its lending activities primarily on the following types of loans: 1) first-mortgage, conventional loans secured by residential properties, particularly single-family; 2) commercial lending, including agriculture and public entities; and 3) installment lending for consumer purposes (e.g., home equity, automobile, etc.). Supplemental information regarding the Company's loan portfolio and credit quality based on regulatory classification is provided in the section captioned "Loans by Regulatory Classification" included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations." The regulatory classification of loans is based primarily on the type of collateral for the loans. Loan information included in "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" is based on the Company's loan segments and classes, which are based on the purpose of the loan, unless otherwise noted as a regulatory classification. The following table summarizes the Company's loan portfolio as of the dates indicated:

Interest income ¹	\$1,119	589	2,364	1,084

¹ Amounts represent estimated interest income that would have been recognized on loans accounted for on a non-accrual basis as of the end of each period had such loans performed pursuant to contractual terms.

Non-performing assets at June 30, 2017 were \$68.9 million, a decrease of \$2.6 million, or 4 percent, from the prior quarter and a decrease of \$6.7 million, or 9 percent, from a year ago. Non-performing assets as a percentage of subsidiary assets at June 30, 2017 was 0.70 percent which was a decrease of 12 basis points from the prior year second quarter of 0.82 percent. Early stage delinquencies (accruing loans 30-89 days past due) of \$31.1 million at June 30, 2017 decreased \$8.0 million from the prior quarter and increased \$7.6 million from the prior year second quarter.

Most of the Company's non-performing assets are secured by real estate, and based on the most current information available to management, including updated appraisals or evaluations (new or updated), the Company believes the value of the underlying real estate collateral is adequate to minimize significant charge-offs or losses to the Company. The Company evaluates the level of its non-performing loans, the values of the underlying real estate and other collateral, and related trends in internal and external environmental factors and net charge-offs in determining the adequacy of the ALLL. Through pro-active credit administration, the Company works closely with its borrowers to seek favorable resolution to the extent possible, thereby attempting to minimize net charge-offs or losses to the Company.

In prior years, construction loans, a regulatory classification, accounted for a significant portion of the Company's non-accrual loans. As a result of the gradual economic recovery and the Company's diligent focus on this category of non-performing loans, construction loans only accounted for 22 percent of the Company's non-accrual loans as of June 30, 2017. With very limited exceptions, the Company does not disburse additional funds on non-performing loans. Instead, the Company has proceeded to collection and foreclosure actions in order to reduce the Company's exposure to loss on such loans.

For additional information on accounting policies relating to non-performing assets and impaired loans, see Note 1 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Impaired Loans

Loans are designated impaired when, based upon current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement and therefore, the Company has serious doubts as to the ability of such borrowers to fulfill the contractual obligation. Impaired loans include non-performing loans (i.e., non-accrual loans and accruing loans ninety days or more past due) and accruing loans under ninety days past due where it is probable payments will not be received according to the loan agreement (e.g., troubled debt restructuring). Impaired loans were \$126 million and \$130 million as of June 30, 2017 and December 31, 2016, respectively. The ALLL includes specific valuation allowances of \$3.1 million and \$6.9 million of impaired loans as of June 30, 2017 and December 31, 2016, respectively.

Restructured Loans

A restructured loan is considered a troubled debt restructuring ("TDR") if the creditor, for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. Each restructured debt is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified. The Company discourages the use of the multiple loan strategy when restructuring loans regardless of whether or not the loans are designated as TDRs. The Company's TDR loans of \$57.2 million and \$73.8 million as of June 30, 2017 and December 31, 2016, respectively, are considered impaired loans.

Other Real Estate Owned

The book value of loans prior to the acquisition of collateral and transfer of the loans into OREO during 2017 was \$4.2 million. The fair value of the loan collateral acquired in foreclosure during 2017 was \$3.5 million. The following table sets forth the changes in OREO for the periods indicated:

	At or for the Six Months ended	At or for the Three Months ended	At or for the Year ended	At or for the Six Months ended
(Dollars in thousands)	June 30, 2017	March 31, 2017	December 31, 2016	June 30, 2016
Balance at beginning of period	\$20,954	20,954	26,815	26,815
Acquisitions	96	—	882	—
Additions	3,521	390	5,198	3,635
Capital improvements	—	—	149	136
Write-downs	(275)	(21)	(1,821)	(79)
Sales	(5,796)	(3,552)	(10,269)	(6,137)
Balance at end of period	\$18,500	17,771	20,954	24,370

Allowance for Loan and Lease Losses

Determining the adequacy of the ALLL involves a high degree of judgment and is inevitably imprecise as the risk of loss is difficult to quantify. The ALLL methodology is designed to reasonably estimate the probable loan and lease losses within the Company's loan portfolio. Accordingly, the ALLL is maintained within a range of estimated losses. The determination of the ALLL, including the provision for loan losses and net charge-offs, is a critical accounting estimate that involves management's judgments about all known relevant internal and external environmental factors that affect loan losses, including the credit risk inherent in the loan portfolio, economic conditions nationally and in the local markets in which the Company operates, trends and changes in collateral values, delinquencies, non-performing assets, net charge-offs and credit-related policies and personnel. Although the Company continues to actively monitor economic trends, soft economic conditions combined with potential declines in the values of real estate that collateralize most of the Company's loan portfolio may adversely affect the credit risk and potential for loss to the Company.

The ALLL evaluation is well documented and approved by the Company's Board of Directors. In addition, the policy and procedures for determining the balance of the ALLL are reviewed annually by the Company's Board of Directors, the internal audit department, independent credit reviewers and state and federal bank regulatory agencies.

At the end of each quarter, the Company analyzes its loan portfolio and maintains an ALLL at a level that is appropriate and determined in accordance with GAAP. The allowance consists of a specific valuation allowance component and a general valuation allowance component. The specific valuation allowance component relates to loans that are determined to be impaired. A specific valuation allowance is established when the fair value of a collateral-dependent loan or the present value of the loan's expected future cash flows (discounted at the loan's effective interest rate) is lower than the carrying value of the impaired loan. The general valuation allowance component relates to probable credit losses inherent in the balance of the loan portfolio based on historical loss experience, adjusted for changes in trends and conditions of qualitative or environmental factors.

The Bank divisions' credit administration reviews their respective loan portfolios to determine which loans are impaired and estimates the specific valuation allowance. The impaired loans and related specific valuation allowance are then provided to the Company's credit administration for further review and approval. The Company's credit administration also determines the estimated general valuation allowance and reviews and approves the overall ALLL. The credit administration of the Company exercises significant judgment when evaluating the effect of applicable qualitative or environmental factors on the Company's historical loss experience for loans not identified as impaired. Quantification of the impact upon the Company's ALLL is inherently subjective as data for any factor may not be directly applicable, consistently relevant, or reasonably available for management to determine the precise impact of a factor on the collectability of the Company's loans collectively evaluated for impairment as of each evaluation date. The Company's credit administration documents its conclusions and rationale for changes that occur in each applicable factor's weight (i.e., measurement) and ensures that such changes are directionally consistent based on the underlying current trends and conditions for the factor. To have directional consistency, the provision for loan losses and credit quality should generally move in the same direction.

The Company's model includes fourteen Bank divisions with separate management teams providing substantial local oversight to the lending and credit management function. The Company's business model affords multiple reviews of larger loans before credit is extended, a significant benefit in mitigating and managing the Company's credit risk. The geographic dispersion of the market areas in which the Company operates further mitigates the risk of credit loss. While this process is intended to limit credit exposure, there can be no assurance that further problem credits will not arise and additional loan losses incurred, particularly in this slowly improving, but fragile economic recovery and in periods of rapid economic downturns.

The primary responsibility for credit risk assessment and identification of problem loans rests with the loan officer of the account. This continuous process of identifying impaired loans is necessary to support management's evaluation of the ALLL adequacy. An independent loan review function verifying credit risk ratings evaluates the loan officer and management's evaluation of the loan portfolio credit quality.

No assurance can be given that the Company will not, in any particular period, sustain losses that are significant relative to the ALLL amount, or that subsequent evaluations of the loan portfolio applying management's judgment about then current factors, including economic and regulatory developments, will not require significant changes in the ALLL. Under such circumstances, this could result in enhanced provisions for loan losses.

The following table summarizes the allocation of the ALLL as of the dates indicated:

(Dollars in thousands) ALLL	June 30, 2017				December 31, 2016				June 30, 2016			
	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category	ALLL	Percent of ALLL in Category	Percent of Loans in Category
Residential real estate	\$11,522	9 %	11 %	\$12,436	9 %	12 %	\$13,666	10 %	13 %			
Commercial real estate	68,503	53 %	54 %	65,773	51 %	52 %	66,809	50 %	52 %			
Other commercial	36,984	28 %	24 %	37,823	29 %	24 %	37,031	28 %	23 %			
Home equity	7,662	6 %	7 %	7,572	6 %	8 %	8,629	7 %	8 %			
Other consumer	5,206	4 %	4 %	5,968	5 %	4 %	6,251	5 %	4 %			
Total	\$129,877	100 %	100 %	\$129,572	100 %	100 %	\$132,386	100 %	100 %			

The following table summarizes the ALLL experience for the periods indicated:

(Dollars in thousands)	At or for the Six Months ended	At or for the Three Months ended	At or for the Year ended	At or for the Six Months ended
	June 30, 2017	March 31, 2017	December 31, 2016	June 30, 2016
Balance at beginning of period	\$129,572	129,572	129,697	129,697
Provision for loan losses	4,611	1,598	2,333	568
Charge-offs				
Residential real estate	(43)	(22)	(464)	(355)
Commercial loans	(3,515)	(1,719)	(4,860)	(1,013)
Consumer and other loans	(5,260)	(2,488)	(6,172)	(1,164)
Total charge-offs	(8,818)	(4,229)	(11,496)	(2,532)
Recoveries				
Residential real estate	65	47	207	44
Commercial loans	1,362	614	5,576	3,501
Consumer and other loans	3,085	1,624	3,255	1,108
Total recoveries	4,512	2,285	9,038	4,653
Net (charge-offs) recoveries	(4,306)	(1,944)	(2,458)	2,121
Balance at end of period	\$129,877	129,226	129,572	132,386
ALLL as a percentage of total loans	2.05 %	2.20 %	2.28 %	2.46 %
Net charge-offs (recoveries) as a percentage of total loans	0.07 %	0.03 %	0.04 %	(0.04)%

The allowance as a percent of total loans outstanding at June 30, 2017 was 2.05 percent, a decrease of 23 basis points from 2.28 percent at December 31, 2016 which was driven by loan growth, stabilizing credit quality, and no allowance carried over from the Foothills acquisition as a result of the acquired loans recorded at fair value.

The Company's ALLL of \$130 million is considered adequate to absorb losses from any class of its loan portfolio. For the periods ended June 30, 2017 and 2016, the Company believes the ALLL is commensurate with the risk in the Company's loan portfolio and is directionally consistent with the change in the quality of the Company's loan portfolio.

When applied to the Company's historical loss experience, the qualitative or environmental factors result in the provision for loan losses being recorded in the period in which the loss has probably occurred. When the loss is confirmed at a later date, a charge-off is recorded. During 2017, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$305 thousand. During the same period in 2016, the provision for loan losses exceeded loan charge-offs, net of recoveries, by \$2.7 million.

The Company provides commercial services to individuals, small to medium-sized businesses, community organizations and public entities from 145 locations, including 136 branches, across Montana, Idaho, Utah, Washington, Wyoming, Colorado and Arizona. The states in which the Company operates have diverse economies and markets that are tied to commodities (crops, livestock, minerals, oil and natural gas), tourism, real estate and land development and an assortment of industries, both manufacturing and service-related. Thus, the changes in the global, national, and local economies are not uniform across the Company's geographic locations.

Overall, there continues to be slow improvements in the economic environment compared to the past several years and the housing market is slowly recovering. Home prices continue to increase in all of the states within the Company's footprint, except Wyoming. Colorado, Idaho and Washington are experiencing the strongest pricing pressures, while Wyoming and Montana continue to lag behind the national trend. Four of the Company's states are ranked in the top 10 nationally for house price appreciation. Home ownership in the United States has continually declined since 2008; however, there have been recent periods of increased home ownership during the second half of 2015 and the second half of 2016. The long-term average for the United States homeownership rate is at 65.3 percent. Annual personal income growth remains in positive territory for each of the Company's states, except for Wyoming, while Washington and Utah exceed the national average. The Federal Reserve Bank of Philadelphia's composite state coincident indices projects steady growth during the third quarter of 2017 throughout the Company's footprint. The United States economy grew at its weakest pace in three years in the first part of 2017 as consumer spending barely increased and businesses invested less on inventories. The slow down in growth is hypothesized to be temporary as the market is near full employment and consumer confidence is at a multi-year high. All of the states in the Company's footprint have unemployment rates at or below 5 percent, which reflects the Federal Reserve's definition of full employment. Crude oil, natural gas and base metal prices have all increased throughout 2016 and certain agriculture commodities within the Company's footprint remain volatile. The tourism industry and related lodging activity continues to be a source of strength for locations where the Company's markets include national parks and similar recreational areas. However, Canadian tourism in Washington, Idaho and Montana has been negatively impacted by the weak Canadian dollar. Overall, the Company sees positive signs in the various economic indices; however, given the significant recession experienced during 2008 and 2009, the Company is cautiously optimistic about the subsequent recovery of the housing industry. The Company will continue to actively monitor the economy's impact on its lending portfolio.

In evaluating the need for a specific or general valuation allowance for impaired and unimpaired loans, respectively, within the Company's construction loan portfolio (i.e., regulatory classification), including residential construction and land, lot and other construction loans, the credit risk related to such loans was considered in the ongoing monitoring of such loans, including assessments based on current information, including appraisals or evaluations (new or updated) of the underlying collateral, expected cash flows and the timing thereof, as well as the estimated cost to sell when such costs are expected to reduce the cash flows available to repay or otherwise satisfy the construction loan. Construction loans were 12 percent of the Company's total loan portfolio and accounted for 22 percent and 20 percent of the Company's non-accrual loans at June 30, 2017 and December 31, 2016, respectively. Collateral securing construction loans includes residential buildings (e.g., single/multi-family and condominiums), commercial buildings, and associated land (e.g., multi-acre parcels and individual lots, with and without shorelines).

The Company's ALLL consisted of the following components as of the dates indicated:

(Dollars in thousands)	June 30, 2017	March 31, 2017	December 31, 2016	June 30, 2016
Specific valuation allowance	\$3,081	6,787	6,881	4,365
General valuation allowance	126,796	122,439	122,691	128,021
Total ALLL	\$129,877	129,226	129,572	132,386

During 2017, the ALLL increased by \$651 thousand, the net result of a \$3.7 million decrease in the specific valuation allowance and a \$4.4 million increase in the general valuation allowance. The specific valuation allowance decreased as the result of a \$4.8 million decrease in loans individually evaluated for impairment with a specific impairment. The increase in the general valuation allowance since the prior year end was a result of an increase of \$368 million in loans collectively evaluated for impairment, excluding the current year acquisition. At acquisition date, the assets and liabilities of the acquired banks are recorded at their estimated fair values which results in no ALLL carried over on loans from acquired banks.

For additional information regarding the ALLL, its relation to the provision for loan losses and risk related to asset quality, see Note 3 to the Consolidated Financial Statements in “Part I. Item 1. Financial Statements.”

57

Loans by Regulatory Classification

Supplemental information regarding identification of the Company's loan portfolio and credit quality based on regulatory classification is provided in the following tables. The regulatory classification of loans is based primarily on the type of collateral for the loans. There may be differences when compared to loan tables and loan amounts appearing elsewhere which reflect the Company's internal loan segments and classes which are based on the purpose of the loan.

The following table summarizes the Company's loan portfolio by regulatory classification:

(Dollars in thousands)	Loans Receivable, by Loan Type				% Change from		
	Jun 30, 2017	Mar 31, 2017	Dec 31, 2016	Jun 30, 2016	Mar 31 2017	Dec 31, 2016	Jun 30, 2016
Custom and owner occupied construction	\$103,816	\$92,835	\$86,233	\$78,525	12 %	20 %	32 %
Pre-sold and spec construction	76,553	68,736	66,184	59,530	11 %	16 %	29 %
Total residential construction	180,369	161,571	152,417	138,055	12 %	18 %	31 %

Sources of Funds

The Company's deposits have traditionally been the principal source of funds for use in lending and other business purposes. The Company also obtains funds from repayment of loans and investment securities, repurchase agreements, wholesale deposits, advances from FHLB and other borrowings. Loan repayments are a relatively stable source of funds, while interest bearing deposit inflows and outflows are significantly influenced by general interest rate levels and market conditions. Borrowings and advances may be used on a short-term basis to compensate for reductions in normal sources of funds such as deposit inflows at less than projected levels. Borrowings also may be used on a long-term basis to support expanded activities, match maturities of longer-term assets or manage interest rate risk.

Deposits

The Company has several deposit programs designed to attract both short-term and long-term deposits from the general public by providing a wide selection of accounts and rates. These programs include non-interest bearing demand accounts, interest bearing NOW and demand accounts, savings, money market deposit accounts, fixed rate certificates of deposit with maturities ranging from three months to five years, negotiated-rate jumbo certificates, and individual retirement accounts. These deposits are obtained primarily from individual and business residents in the Bank's geographic market areas. In addition, wholesale deposits are obtained through various programs and include brokered deposits classified as NOW, DDA, money market deposit and certificate accounts. The Company's deposits are summarized below:

(Dollars in thousands)	June 30, 2017		December 31, 2016		June 30, 2016	
	Amount	Percent	Amount	Percent	Amount	Percent
Non-interest bearing deposits	\$2,234,058	29 %	\$2,041,852	28 %	\$1,907,026	27 %
NOW and DDA accounts	1,717,351	22 %	1,588,550	22 %	1,495,952	21 %
Savings accounts	1,059,717	13 %	996,061	13 %	926,865	13 %
Money market deposit accounts	1,608,994	21 %	1,464,415	20 %	1,403,028	20 %
Certificate accounts	886,504	11 %	948,714	13 %	1,017,681	14 %
Wholesale deposits	291,339	4 %	332,687	4 %	338,264	5 %
Total interest bearing deposits	5,563,905	71 %	5,330,427	72 %	5,181,790	73 %
Total deposits	\$7,797,963	100 %	\$7,372,279	100 %	\$7,088,816	100 %

Securities Sold Under Agreements to Repurchase, Federal Home Loan Bank Advances and Other Borrowings

The Company borrows money through repurchase agreements. This process involves the selling of one or more of the securities in the Company's investment portfolio and simultaneously entering into an agreement to repurchase that same securities at an agreed upon later date, typically overnight. A rate of interest is paid for the agreed period of time. Through a policy adopted by the Bank's Board of Directors, the Bank enters into repurchase agreements with local municipalities, and certain customers, and has adopted procedures designed to ensure proper transfer of title and safekeeping of the underlying securities. In addition to retail repurchase agreements, the Company enters into wholesale repurchase agreements as additional funding sources. The Company has not entered into reverse repurchase agreements.

The Bank is a member of the FHLB of Des Moines, which is one of eleven banks that comprise the FHLB system. The Bank is required to maintain a certain level of activity-based stock in order to borrow or to engage in other transactions with the FHLB of Des Moines. Additionally, the Bank is subject to a membership capital stock requirement that is based upon an annual calibration tied to the total assets of the Bank. The borrowings are collateralized by eligible categories of loans and investment securities (principally, securities which are obligations of, or guaranteed by, the U.S. government and its agencies), provided certain standards related to credit-worthiness have been met. Advances are made pursuant to several different credit programs, each of which has its own interest rates

and range of maturities. The Bank's maximum amount of FHLB advances is limited to the lesser of a fixed percentage of the Bank's total assets or the discounted value of eligible collateral. FHLB advances fluctuate to meet seasonal and other withdrawals of deposits and to expand lending or investment opportunities of the Company.

Additionally, the Company has other sources of secured and unsecured borrowing lines from various sources that may be used from time to time.

Short-term borrowings

A critical component of the Company's liquidity and capital resources is access to short-term borrowings to fund its operations. Short-term borrowings are accompanied by increased risks managed by the Bank's Asset Liability Committee ("ALCO") such as rate increases or unfavorable change in terms which would make it more costly to obtain future short-term borrowings. The Company's short-term borrowing sources include FHLB advances, federal funds purchased and retail and wholesale repurchase agreements. The Company also has access to the short-term discount window borrowing programs (i.e., primary credit) of the Federal Reserve Bank ("FRB"). FHLB advances and certain other short-term borrowings may be renewed as long-term borrowings to decrease certain risks such as liquidity or interest rate risk; however, the reduction in risks are weighed against the increased cost of funds and other risks.

The following table provides information relating to significant short-term borrowings, which consists of borrowings that mature within one year of period end:

(Dollars in thousands)	At or for the Six Months ended June 30, 2017	At or for the Year ended December 31, 2016
Repurchase agreements		
Amount outstanding at end of period	\$451,050	473,650
Weighted interest rate on outstanding amount	0.56 %	0.34 %
Maximum outstanding at any month-end	\$497,187	473,650
Average balance	\$424,204	384,066
Weighted-average interest rate	0.39 %	0.31 %

Subordinated Debentures

In addition to funds obtained in the ordinary course of business, the Company formed or acquired financing subsidiaries for the purpose of issuing trust preferred securities that entitle the investor to receive cumulative cash distributions thereon. The subordinated debentures outstanding as of June 30, 2017 were \$126 million, including fair value adjustments from prior acquisitions.

Contractual Obligations and Off-Balance Sheet Arrangements

In the normal course of business, there may be various outstanding commitments to obtain funding and to extend credit, such as letters of credit and un-advanced loan commitments, which are not reflected in the accompanying condensed consolidated financial statements. The Company does not anticipate any material losses as a result of these transactions.

Off-balance sheet arrangements also include any obligation related to a variable interest held in an unconsolidated entity. The Company does not anticipate any material losses as a result of these transactions. For additional information regarding the Company's interests in unconsolidated variable interest entities ("VIE"), see Note 5 to the Consolidated Financial Statements in "Part I. Item 1. Financial Statements."

Liquidity Risk

Liquidity risk is the possibility that the Company will not be able to fund present and future obligations as they come due because of an inability to liquidate assets or obtain adequate funding at a reasonable cost. The objective of liquidity management is to maintain cash flows adequate to meet current and future needs for credit demand, deposit withdrawals, maturing liabilities and corporate operating expenses. Effective liquidity management entails three elements:

1. Assessing on an ongoing basis, the current and expected future needs for funds, and ensuring that sufficient funds or access to funds exist to meet those needs at the appropriate time;
2. Providing for an adequate cushion of liquidity to meet unanticipated cash flow needs that may arise from potential adverse circumstances ranging from high probability/low severity events to low probability/high severity; and
3. Balancing the benefits between providing for adequate liquidity to mitigate potential adverse events and the cost of that liquidity.

The Company has a wide range of versatility in managing the liquidity and asset/liability mix. The Bank's ALCO meets regularly to assess liquidity risk, among other matters. The Company monitors liquidity and contingency funding alternatives through management reports of liquid assets (e.g., investment securities), both unencumbered and pledged, as well as borrowing capacity, both secured and unsecured, including off-balance sheet funding sources. The Company evaluates its potential funding needs across alternative scenarios and maintains contingency funding plans consistent with the Company's access to diversified sources of contingent funding.

The following table identifies certain liquidity sources and capacity available to the Company as of the dates indicated:

(Dollars in thousands)	June 30, 2017	December 31, 2016
FHLB advances		
Borrowing capacity	\$1,727,496	1,558,527
Amount utilized	(211,505)	(251,749)
Amount available	\$1,515,991	1,306,778
FRB discount window		
Borrowing capacity	\$1,290,964	1,226,683
Amount utilized	—	—
Amount available	\$1,290,964	1,226,683
Unsecured lines of credit available	\$230,000	255,000
Unencumbered investment securities		
U.S. government and federal agency	\$33,322	39,407
U.S. government sponsored enterprises	8,713	12,086
State and local governments	682,432	814,942
Corporate bonds	19,930	19,573
Residential mortgage-backed securities	134,808	258,260
Commercial mortgage-backed securities	47,641	78,144
Total unencumbered securities	\$926,846	1,222,412

Capital Resources

Maintaining capital strength continues to be a long-term objective of the Company. Abundant capital is necessary to sustain growth, provide protection against unanticipated declines in asset values, and to safeguard the funds of depositors. Capital is also a source of funds for loan demand and enables the Company to effectively manage its assets and liabilities. The Company has the capacity to issue 117,187,500 shares of common stock of which 78,001,890 have been issued as of June 30, 2017. The Company also has the capacity to issue 1,000,000 shares of preferred stock of which none have been issued as of June 30, 2017. Conversely, the Company may decide to utilize a portion of its strong capital position, as it has done in the past, to repurchase shares of its outstanding common stock, depending on market price and other relevant considerations.

The Federal Reserve has adopted capital adequacy guidelines that are used to assess the adequacy of capital in supervising a bank holding company. The federal banking agencies implemented final rules (“Final Rules”) to establish a new comprehensive regulatory capital framework with a phase-in period beginning on January 1, 2015 and ending on January 1, 2019. The Final Rules implemented the third installment of the Basel Accords (“Basel III”) regulatory capital reforms and changes required by the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”) and substantially amended the regulatory risk-based capital rules applicable to the Company. Under Basel III, the Company must hold a conservation buffer above the adequately capitalized risk-based capital ratios. The capital conservation buffer for 2017 is 1.25%. As of June 30, 2017, management believes the Company and Bank meet all capital adequacy requirements to which they are subject.

The following table illustrates the Bank’s regulatory ratios and the Federal Reserve’s current capital adequacy guidelines as of June 30, 2017. The Federal Reserve’s fully phased-in guidelines applicable in 2019 are also summarized.

	Total Capital (To Risk-Weighted Assets)	Tier 1 Capital (To Risk-Weighted Assets)	Common Equity Tier 1 (To Risk-Weighted Assets)	Leverage Ratio/ Tier 1 Capital (To Average Assets)
Glacier Bank’s actual regulatory ratios	15.16	% 13.91	% 13.91	% 11.53
Minimum capital requirements	8.00	% 6.00	% 4.50	% 4.00
Well capitalized requirements	10.00	% 8.00	% 6.50	% 5.00
Minimum capital requirements, including fully-phased in capital conservation buffer (2019)	10.50	% 8.50	% 7.00	% N/A

There are no conditions or events since June 30, 2017 that management believes have changed the Company’s or Bank’s risk-based capital category.

Federal and State Income Taxes

The Company files a consolidated federal income tax return using the accrual method of accounting. All required tax returns have been timely filed. Financial institutions are subject to the provisions of the Internal Revenue Code of 1986, as amended, in the same general manner as other corporations.

Under Montana, Idaho, Utah, Colorado and Arizona law, financial institutions are subject to a corporation income tax, which incorporates or is substantially similar to applicable provisions of the Internal Revenue Code. The corporation income tax is imposed on federal taxable income, subject to certain adjustments. State taxes are incurred at the rate of 6.75 percent in Montana, 7.4 percent in Idaho, 5 percent in Utah, 4.63 percent in Colorado and 6.968 percent in Arizona. Washington and Wyoming do not impose a corporate income tax.

Income tax expense for the six months ended June 30, 2017 and 2016 was \$21.7 million and \$19.8 million, respectively. The Company's effective tax rate for the six months ended June 30, 2017 and 2016 was 25.0 percent and 25.1 percent, respectively. The current and prior year's low effective tax rates are due to income from tax-exempt investment securities, municipal loans and leases and benefits from federal income tax credits. The income from tax-exempt investment securities, loans and leases was \$28.6 million and \$28.9 million for the six months ended June 30, 2017 and 2016, respectively. The benefits from federal income tax credits were \$2.4 million and \$1.4 million for the six months ended June 30, 2017 and 2016, respectively.

The Company has equity investments in Certified Development Entities ("CDE") which have received allocations of NMTCs. Administered by the Community Development Financial Institutions Fund ("CDFI Fund") of the U.S. Department of the Treasury, the NMTC program is aimed at stimulating economic and community development and job creation in low-income communities. The federal income tax credits received are claimed over a seven-year credit allowance period. The Company also has equity investments in Low-Income Housing Tax Credits ("LIHTC") which are indirect federal subsidies used to finance the development of affordable rental housing for low-income households. The federal income tax credits are claimed over a ten-year credit allowance period. The Company has investments of \$22.1 million in Qualified Zone Academy and Qualified School Construction bonds whereby the Company receives quarterly federal income tax credits in lieu of taxable interest income. The federal income tax credits on these investment securities are subject to federal and state income tax.

Following is a list of expected federal income tax credits to be received in the years indicated.

(Dollars in thousands)	New Markets Tax Credits	Low-Income Housing Tax Credits	Investment Securities Tax Credits	Total
2017	\$ 2,721	2,860	783	6,364
2018	2,399	4,186	710	7,295
2019	2,499	4,323	661	7,483
2020	2,726	4,109	611	7,446
2021	2,726	3,291	566	6,583
Thereafter	3,319	18,034	1,929	23,282
	\$ 16,390	36,803	5,260	58,453

Average Balance Sheet

The following schedule provides 1) the total dollar amount of interest and dividend income of the Company for earning assets and the average yields; 2) the total dollar amount of interest expense on interest bearing liabilities and the average rates; 3) net interest and dividend income and interest rate spread; and 4) net interest margin (tax-equivalent).

(Dollars in thousands)	Three Months ended June 30, 2017			Six Months ended June 30, 2017

¹ Includes tax effect of \$1.5 million and \$2.9 million on tax-exempt municipal loan and lease income for the three and six months ended June 30, 2017.

²

Total loans are gross of the allowance for loan and lease losses, net of unearned income and include loans held for sale. Non-accrual loans were included in the average volume for the entire period.

- ³ Includes tax effect of \$5.9 million and \$11.9 million on tax-exempt investment securities income for the three and six months ended June 30, 2017.
- ⁴ Includes tax effect of \$339 thousand and \$677 thousand on federal income tax credits for the three and six months ended June 30, 2017.
- ⁵ Wholesale deposits include brokered deposits classified as NOW, DDA, money market deposit and certificate accounts.

Rate/Volume Analysis

Net interest income can be evaluated from the perspective of relative dollars of change in each period. Interest income and interest expense, which are the components of net interest income, are shown in the following table on the basis of the amount of any increases (or decreases) attributable to changes in the dollar levels of the Company's interest earning assets and interest bearing liabilities ("volume") and the yields earned and paid on such assets and liabilities ("rate"). The change in interest income and interest expense attributable to changes in both volume and rates has been allocated proportionately to the change due to volume and the change due to rate.

	Six Months ended June 30, 2017 vs. 2016		
	Increase (Decrease) Due		
	to:		
(Dollars in thousands)	Volume	Rate	Net
Interest income			
Residential real estate loans	\$(111)	(30)	(141)
Commercial loans (tax-equivalent)	17,095	(1,342)	15,753
Consumer and other loans	298	8	306
Investment securities (tax-equivalent)	(4,751)	(147)	(4,898)
Total interest income	12,531	(1,511)	11,020
Interest expense			
NOW and DDA accounts	42	(77)	(35)
Savings accounts	34	54	88
Money market deposit accounts	86	(5)	81
Certificate accounts	(379)	(108)	(487)
Wholesale deposits	(128)	67	(61)
FHLB advances	(437)	364	(73)
Repurchase agreements and other borrowed funds	209	319	528
Total interest expense	(573)	614	41
Net interest income (tax-equivalent)	\$13,104	(2,125)	10,979

Net interest income (tax-equivalent) increased \$11.0 million for the six months ended June 30, 2017 compared to the same period in 2016. The interest income for the first six months increased over the same period last year primarily from increased growth of the Company's commercial loan portfolio. The decrease in interest income on the investment securities portfolio was the result of continuing to redeploy cash flow from investment securities into the loan portfolio. Total interest expense remained relatively flat compared to the prior year with volatility in certain categories including certificate accounts, FHLB advances and other borrowed funds.

Effect of inflation and changing prices

Accounting principles generally accepted in the United States of America ("GAAP") often requires the measurement of financial position and operating results in terms of historical dollars, without consideration for change in relative purchasing power over time due to inflation. Virtually all assets of the Company are monetary in nature; therefore, interest rates generally have a more significant impact on a company's performance than does the effect of inflation.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

The Company's assessment of market risk as of June 30, 2017 indicates there are no material changes in the quantitative and qualitative disclosures from those in the 2016 Annual Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as required by Exchange Act Rules 240.13a-15(b) and 15d-14(c)) as of June 30, 2017. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's current disclosure controls and procedures are effective and timely, providing them with material information relating to the Company required to be disclosed in the reports the Company files or submits under the Exchange Act.

Changes in Internal Controls

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the second quarter of 2017, to which this report relates that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Item 1A. Risk Factors

The Company believes there have been no material changes from risk factors previously disclosed in the 2016 Annual Report. The risks and uncertainties described in the 2016 Annual Report should be carefully reviewed. These are not the only risks and uncertainties that the Company faces. Additional risks and uncertainties that the Company does not currently know about or that the Company currently believes are immaterial, or that the Company has not predicted, may also harm its business operations or adversely affect the Company. If any of these risks or uncertainties actually occurs, the Company's business, financial condition, operating results or liquidity could be adversely affected.
