American Medical Security Group Reports
Fourth Quarter & Full-Year 2001 Financial Results

- o Net income of \$0.30 per share in 4th quarter; exceeds expectations
- o Full-year income per share of \$0.70, before nonrecurring item
- o Company increases guidance for 2002
- o Health segment loss ratio improves for fifth consecutive quarter
- o Cash flow positive in quarter, full year

GREEN BAY, Wis. -- February 4, 2002 -- American Medical Security Group, Inc. (NYSE:AMZ) (AMS), today reported net income of \$4.3 million or \$0.30 per share for the fourth quarter of 2001. That compares to net income of \$0.1 million or \$0.01 per share in the fourth quarter of 2000, and \$3.5 million or \$0.25 per share in the third quarter of 2001.

For the full-year 2001, the company reported income of \$10.0 million or \$0.70 per share excluding a \$0.41 nonrecurring litigation charge in the first quarter. That compares to net income of \$2.7 million or \$0.18 per share for the year 2000. AMS' income and income per share have improved in each of the last five quarters.

More

Ad One

"AMS began to realize its strong potential in 2001," said Samuel V. Miller, AMS Chairman & Chief Executive Officer. "Our positive results, particularly in the last half of the year, reflect the culmination of aggressive rate action over several quarters, a redefinition of our markets and strong expense control."

According to Miller, these actions have particularly benefited AMS' smallgroup business which is now experiencing a significant turnaround following two years of depressed performance.

"We've made great strides in improving our profitability. Now, in light of the positive reception for our new products, the addition of an industry veteran as Chief Marketing Officer, and an improving competitive climate, we hope to begin growing membership and revenues again in the second half of the year, while maintaining our margins," Miller said.

MEMBERSHIP & REVENUE

During 2000 and 2001, AMS addressed rising health claim costs by increasing premiums and exiting certain unprofitable markets. As anticipated, these actions led to a decline in membership and revenues but improved the company's loss ratio and profitability.

Edgar Filing: AMERICAN MEDICAL SECURITY GROUP INC - Form DEFA14A

Total health segment membership was 557,716 at the end of 2001 compared to 687,863 at the end of 2000.

For the fourth quarter of 2001, total revenues were \$208 million, compared to \$240 million in the same period of 2000. Total revenues were \$877 million for full-year 2001, versus \$990 million for the prior year. The decline in revenues for both the fourth quarter and full-year 2001 reflect declining membership and a higher proportion of individual MedOne business, partially offset by increased premiums.

MedOne membership increased slightly in the fourth quarter of 2001, and also continued to grow as a percentage of the company's overall business. MedOne membership for the fourth quarter of 2001 represented 45% of AMS' total membership, compared to 43% for the third quarter of 2001 and 34% for the fourth quarter of 2000.

More

Ad Two

In January 2002, Tim O'Keefe was named AMS Senior Vice President & Chief Marketing Officer. He has more than 12 years of executive management experience with a number of companies in the health insurance field. A key focus for O'Keefe will be the successful rollout of the company's new small group, individual, dental and short-term medical products. Agent reaction to the new products in states where they have been introduced has been very positive, and quote requests are up significantly.

HEALTH SEGMENT LOSS RATIO

The company's health segment loss ratio has declined for the fifth consecutive quarter. In the fourth quarter of 2001, the health loss ratio was 68.9% compared to 71.3% in the third quarter of 2001 and 76.4% for the fourth quarter of 2000. For the full-year 2001, the health segment loss ratio was 72.6% compared to 77.2% for 2000. The improvement results from AMS' premium increases surpassing increases in claim costs, and, to a lesser degree, a change in the company's product mix.

"The improvement in our loss ratio has surpassed our expectations in the past two quarters," said Gary D. Guengerich, Executive Vice President & Chief Financial Officer. "We believe this positive trend will moderate but continue into 2002."

3

HEALTH SEGMENT EXPENSE RATIO

The company's health expense ratio for the fourth quarter of 2001 was 28.0% versus 27.0% in the third quarter of 2001 and 24.7% in the fourth quarter of 2000. The increases primarily reflect lower premiums and a product mix change driven by growth in the MedOne business. The MedOne business has higher selling and administrative expenses but lower claim costs than the small group product.

COMBINED RATIO

The total health segment loss ratio plus the expense ratio, or the combined ratio, improved to 96.9% in the fourth quarter of 2001, compared to 98.3% in the third quarter of 2001, and 101.1% in the fourth quarter of 2000.

CASH FLOW & BALANCE SHEET

Edgar Filing: AMERICAN MEDICAL SECURITY GROUP INC - Form DEFA14A

Cash flow provided by operations was \$17.1 million in the fourth quarter of 2001 and \$17.6 million for the full year, a reflection of the increasing profitability of the company. The company expects cash flow for 2002 to significantly exceed that of 2001.

AMS had a book value per share of \$16.30 and a tangible book value per share of \$8.85 at the end of the fourth quarter of 2001. That compares to \$15.77 and \$8.24 at the end of the fourth quarter of 2000.

EARNINGS GUIDANCE

"We are increasing our earnings guidance for 2002 based on our significantly improved financial performance in the past two quarters," Guengerich said. "While there may be material upside potential beyond these estimates, our guidance is based on rapidly emerging positive trends, tempered by the inherent variables in our business."

The company currently projects that its earnings per share will be approximately \$0.30 for the first quarter of 2002 and between \$1.15 and \$1.25 for full-year 2002. The full-year amount includes approximately \$0.17 per share resulting from the nonamortization of goodwill from the adoption of FASB Statement No. 142, "Goodwill and Other Intangible Assets."

OTHER NEWS

On January 29, 2002, Blue Cross and Blue Shield United of Wisconsin, a wholly owned subsidiary of Cobalt Corporation, and a holder of 45% of the outstanding shares of AMS, filed with the company notice of its intent to nominate four persons for election to the AMS Board of Directors at the 2002 annual meeting of AMS shareholders.

4

Cobalt had previously made a 13D filing in which it stated it was considering submitting such nominations and was also looking at alternative methods of disposing of its shares of AMS. The company has been engaged in discussions with Cobalt concerning how to address Cobalt's need to dispose of its shares in a manner that is favorable to all of the company's shareholders.
