FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2010

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-10822

National Health Investors, Inc.

(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

62-1470956
(I.R.S. Employer Identification No.)

222 Robert Rose Drive,
Murfreesboro, Tennessee
(Address of principal executive
offices)

37129
(Zip Code)

(615) 890-9100

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

There were 27,670,316 shares of common stock outstanding of the registrant as of July 30, 2010.

NATIONAL HEALTH INVESTORS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2010

(unaudited)

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

We, the management of National Health Investors, Inc., ("NHI" or the "Company") believe that the unaudited condensed consolidated financial statements to which these notes are attached include all normal, recurring adjustments which are necessary to fairly present the condensed consolidated financial position, results of operations and cash flows of NHI in all material respects. The Condensed Consolidated Balance Sheet at December 31, 2009 has been derived from the audited consolidated financial statements at that date. We assume that users of these financial statements have read or have access to the audited December 31, 2009 consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations and that the adequacy of additional disclosure needed for a fair presentation, except in regard to material contingencies, may be determined in that context. Accordingly, footnotes and other disclosures which would substantially duplicate those contained in our most recent Annual Report on Form 10-K for the year ended December 31, 2009 have been omitted. This condensed consolidated financial information is not necessarily indicative of the results that may be expected for a full year for a variety of reasons including, but not limited to, acquisitions and dispositions, changes in interest rates, rents and the timing of debt and equity financings. For a better understanding of NHI and its condensed consolidated financial statements, we recommend reading these condensed consolidated financial statements in conjunction with the audited consolidated financial statements for the year ended December 31, 2009, which are included in our 2009 Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission, a copy of which is available at our web site: www.nhinvestors.com.

Discontinued Operations and Assets Held for Sale - We have reclassified for all periods presented the operations of the facilities meeting the accounting criteria as either being sold or held for sale as discontinued operations in the Condensed Consolidated Statements of Income. Long-lived assets classified as held for sale are reported separately in the Condensed Consolidated Balance Sheet.

Federal Income Taxes - We intend at all times to qualify as a real estate investment trust (REIT) under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended. Therefore, we will not be subject to federal income tax provided we distribute at least 90% of our REIT taxable income to our stockholders and meet other requirements to continue to qualify as a REIT. Accordingly, no provision for federal income taxes has been made in the condensed consolidated financial statements. Our failure to continue to qualify under the applicable REIT qualification rules and regulations would have a material adverse impact on our financial position, results of operations and cash flows. Earnings and profits, which determine the taxability of dividends to stockholders, differ from net income reported for financial reporting purposes due primarily to differences in the basis of assets, recognition of commitment fees, estimated useful lives used to compute depreciation expense, recognition of straight-line lease income and stock-based compensation. Our tax returns filed for years beginning in 2007 are subject to examination by taxing authorities. We classify interest and penalties related to uncertain tax positions, if any, in our condensed consolidated financial statements as a component of general and administrative expense.

New Accounting Pronouncements - In February 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-09, *Subsequent Events* (Topic 855). This update removes the requirement for the Company to disclose the date through which subsequent events have been evaluated in issued financial statements. The Company evaluates subsequent events after the balance sheet date through the issuance date of the financial statements.

NOTE 2. REAL ESTATE

At June 30, 2010, exclusive of assets held for sale, we had investments in 87 health care real estate properties leased to operators, of which 41 properties were leased to National HealthCare Corporation (NHC), a publicly-held company and our largest customer. The 41 properties leased to NHC include four facilities subleased to and operated by other companies, the lease payments of which are guaranteed by NHC. Our current lease with NHC expires December 31, 2021 (excluding 3 additional 5-year renewal options). For the six months ended June 30, 2010, rental income from continuing operations was \$35,979,000, of which \$17,849,000 (50%) was recognized from NHC consisting of base rent of \$16,850,000 and percentage rent of \$999,000, \$485,000 of which related to final determination of NHC's 2009 revenues. For the six months ended June 30, 2009, our rental income from continuing operations was \$24,776,000, of which \$17,661,000 (71%) was recognized from NHC consisting of base rent of \$16,850,000 and percentage rent for 2008 of \$541,000 and percentage rent for 2009 of \$270,000 (the base year for the percentage rent calculation having been 2007). For purposes of the percentage rent calculation described in the master lease agreement, NHC's revenue by facility is certified to NHI by March 31st of the following year.

Table of ContentsAcquisitions and New Leases of Real Estate

On February 1, 2010, we completed the purchase of six Florida skilled nursing facilities, consisting of 780 beds or 228,600 square feet, from Care Foundation of America, Inc. (CFA) for \$67,000,000. The facilities are leased to affiliates of Health Services Management, Inc. (HSM), pursuant to a lease that commenced October 1, 2009, for \$6,200,000 annually in aggregate rent, plus 3% annual escalators beginning October 1, 2011. The leases expire in 2014 and the tenant has a 3-year optional renewal term. We account for acquired businesses using the acquisition method as prescribed by Accounting Standards Codification Topic 805, *Business Combinations*. The facilities were part of our mortgage loan portfolio for 16 years. The purchase resulted in the dismissal of pending litigation with CFA, as described in Note 8. We funded the purchase with the full satisfaction of \$23,300,000 in principal and interest on a mortgage note due from CFA, \$29,700,000 in cash deposits and \$14,000,000 in advances from our revolving credit facility. See Note 7 for additional information about our revolving credit facility. As part of this transaction, we recognized all identifiable tangible assets at fair value at the date of acquisition (there were no identifiable intangible assets or liabilities assumed) and attributed \$4,690,000 of the purchase price to land value and \$62,310,000 to the value of building and improvements. Certain costs related to this business combination totaled \$490,000 and have been recorded as general and administrative expenses in our Condensed Consolidated Statement of Income for the six months ended June 30, 2010.

The revenue and earnings for the six facilities acquired from CFA included in our Condensed Consolidated Statement of Income for the six months ended June 30, 2010, and the pro forma revenue and earnings of the combined entity had the acquisition date been January 1, 2010, or January 1, 2009, are as follows (*in thousands*).

	Revenue	Earnings
Actual from February 1, 2010 June 30, 2010	\$ 2,583	\$ 1,934
Combined pro forma from January 1, 2010 June 30, 2010	\$ 42,676	\$ 37,453
Combined pro forma from January 1, 2009 June 30, 2009	\$ 32,379	\$ 32,785

In March 2010, we completed a \$12,500,000 purchase/leaseback transaction involving a 66-bed acute psychiatric hospital known as Alvarado Parkway Behavioral Institute in La Mesa, California. At the closing of this transaction, \$11,500,000 was funded and \$1,000,000 was withheld until such time as a \$1,000,000 bank letter of credit is obtained by the seller. This facility is leased to Helix Healthcare for a term of 15 years at an initial lease payment of \$1,500,000 plus annual fixed escalators.

In March 2010, we completed a \$21,400,000 purchase/leaseback transaction involving four assisted living and memory care facilities totaling 126 units in Minnesota. The facilities, which are two to six years old, are leased to Suite Living Senior Specialty Services for a term of 15 years at an initial lease payment of \$2,140,000 plus annual fixed escalators.

In June 2010, we completed an \$11,500,000 purchase/leaseback transaction with Bickford Senior Living and its affiliates (Bickford) involving two assisted living facilities in Iowa and one in Indiana. The assisted living communities, two of which were built in 1998 and one in 2005, total 102 units. The three facilities are leased to Bickford over 15 years at an initial lease amount of \$1,035,000 plus annual fixed escalators. The purchase of the three facilities brings the master lease with Bickford to a total of eight facilities.

In December 2009, we entered into a lease agreement as lessor, which became effective January 1, 2010, with Emeritus Senior Living as lessee to lease eight existing senior living communities located in Arizona, South Carolina, and Tennessee, consisting of 258 assisted living units, 66 memory care units, and 12 independent living cottages. The initial annual lease amount is \$3,350,000 plus annual escalators and has an initial term of 15 years with two available extension options of five years each. The lease also contains a purchase option exercisable beginning in year 11 and extending through the initial lease termination date.

Planned or Completed Dispositions of Certain Real Estate

In June 2010, we completed a sale of two skilled nursing facilities in Texas to the current lessee Legend Healthcare and affiliates (Legend) for \$6,247,000 in cash. These facilities were constructed in 1986 and 1990, total 182 beds, and were originally leased to Legend in March 2005 with a purchase option. NHI is deferring recognition of the tax gain on the sale of these facilities by utilizing the like-kind exchange rules under Section 1031 of the U.S. Internal Revenue Code. The net gain on the sale of these facilities was \$2,004,000 for financial statement purposes.

Table of Contents

In December 2009, we accepted an earnest money deposit of \$150,000 from our current lessee, affiliates of Fundamental Long Term Care Holdings, LLC (Fundamental), to sell six skilled nursing facilities in Texas. The planned sale of these facilities meets the accounting criteria as being held for sale and is expected to close when HUD financing is arranged by Fundamental. As of June 30, 2010 and December 31, 2009, the carrying value of \$33,420,000 represents the lesser of the facilities net book value or fair value less cost to sell. At June 30, 2010, we had received additional earnest money deposits of \$3,175,000. We have reclassified the results of operations of these facilities as discontinued operations for all periods presented in our Condensed Consolidated Statements of Income. The summary of operating results of all facilities classified as discontinued operations is shown in Note 11.

NOTE 3. MORTGAGE NOTES RECEIVABLE

At June 30, 2010, we had investments in mortgage notes receivable secured by real estate and UCC liens on the personal property of 33 health care properties. Certain of the notes receivable are also secured by guarantees of significant parties to the notes and by cross-collateralization of properties with the same owner.

As described in Note 2, a portion of the acquisition of the six Florida skilled nursing facilities from CFA was funded with the full satisfaction of \$22,936,000 in mortgage note principal and \$364,000 in accrued interest due from CFA. It is our policy to recognize mortgage interest income on non-performing mortgage loans in the period in which cash is received. During the six months ended June 30, 2010, we received payment and recognized interest income of \$560,000 from CFA.

In March 2010, we entered into a \$3,000,000 second mortgage loan secured by three skilled nursing facilities in Texas totaling 311 beds. Our loan is part of a bridge to long-term financing for the borrower. The mortgage includes a term of five years and a fixed interest rate of 14%.

In May 2010, we entered into a \$1,000,000 second mortgage loan secured by a 116 bed skilled nursing facility and a 28-unit assisted living facility located in Texas. The mortgage includes a term of five years and a fixed interest rate of 14%.

In May 2010, we entered into a \$1,000,000 participation agreement on a \$6,500,000 bridge loan secured by a 125-bed skilled nursing facility located in Texas. Our loan is part of a bridge to long-term financing for the borrower. The mortgage includes a term of one year and a fixed interest rate of 14.5%.

In June 2010, we entered into a construction loan commitment to provide up to \$13,870,000 for the development and construction of a 70-bed transitional rehabilitation center with a skilled nursing license in Mesa, Arizona. Construction on the facility began in June 2010 and is planned for completion in February 2011. NHI has the option to purchase and lease back the facility when it reaches a predetermined level of stabilized net operating income. The \$13,870,000 commitment includes an \$11,870,000 construction loan and an additional \$2,000,000 supplemental draw available to the borrower when the facility achieves certain operating metrics. The loan is for a period of five years and requires payments of interest only at a rate of 10%. Until operations commence, interest payments will be accrued as part of the construction loan balance.

NOTE 4. INVESTMENTS IN MARKETABLE SECURITIES

Our investments in marketable securities include available-for-sale securities and are reported at fair value. Unrealized gains and losses on available-for-sale securities are recorded in stockholders' equity. Realized gains and losses from securities sales are determined based upon specific identification of the securities.

During the six months ended June 30, 2010 and 2009, we recognized \$627,000 and \$746,000, respectively, of dividend and interest income from our marketable securities and have included these amounts in non-operating income in the Condensed Consolidated Statements of Income.

Our investment in NHC convertible preferred stock has been in an unrealized loss position for at least twelve months immediately preceding June 30, 2010. We have evaluated the severity and duration of the impairment of this security by considering the strong financial condition of NHC and have concluded that we have the ability and intent to hold this investment for a reasonable period of time sufficient for a recovery of carrying value.

Table of Contents

Marketable securities consist of the following (*in thousands*):

	June 30, 2010		December 31, 2009	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Common and preferred stock of other REITs	\$ 5,831	\$ 18,546	\$ 5,831	\$ 20,185
NHC convertible preferred stock	1,388	1,286	1,389	1,137
	\$ 7,219	\$ 19,832	\$ 7,220	\$ 21,322

Gross unrealized gains and losses related to available-for-sale securities are as follows (*in thousands*):

	June 30, 2010	December 31, 2009
Gross unrealized gains	\$ 12,716	\$ 14,355
Gross unrealized losses	(103)	(252)
	\$ 12,613	\$ 14,103

NOTE 5. INVESTMENT IN PREFERRED STOCK, AT COST

In September 1998, we purchased 2,000,000 shares of the cumulative preferred stock of LTC Properties, Inc. (LTC), a publicly-held REIT. The nonvoting preferred stock is convertible into common stock at a 1:1 ratio. The closing price of LTC s common stock at June 30, 2010 was \$24.27 per share. The preferred stock has an annual cumulative coupon rate of 8.5% payable quarterly and a liquidation preference of \$19.25 per share. The preferred stock is not redeemable by us or LTC. The preferred stock, which is not listed on a stock exchange, is considered a non-marketable security and is recorded at cost in our consolidated balance sheets. Amounts to be received from the 8.5% coupon rate are recorded as investment income when the dividend is declared. The carrying value of the preferred stock equals its cost of \$38,132,000 at June 30, 2010 and 2009.

NOTE 6. FAIR VALUE MEASUREMENTS

Our financial instruments consist primarily of cash and cash equivalents, receivables, payables, and debt instruments. The carrying values of these financial instruments approximate their respective fair values as they are either short-term in nature, have variable rates that adjust according to current market rates or carry fixed interest rates which approximate current market rates. We estimate the fair values of other financial instruments using quoted market prices and discounted cash flow techniques. At June 30, 2010 and December 31, 2009, there were no material differences between the carrying amounts and fair values of our financial instruments.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. A three-level fair value hierarchy is required to prioritize the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

.
Level 1 Quoted prices in active markets for identical assets or liabilities.

.
Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

.
Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Table of Contents

We have segregated all assets and liabilities that are measured at fair value on a recurring basis (at least annually) into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date in the table below.

Entities have the option to measure many financial instruments and certain other items at fair value. Entities that choose the fair value option will recognize unrealized gains and losses on items for which the fair value option was elected in earnings at each subsequent reporting date. We have currently chosen not to elect the fair value option for any items that are not already required to be measured at fair value.

Assets measured at fair value on a recurring basis are summarized below (*in thousands*):

<u>Description</u>	Total	Fair Value Measurements at June 30, 2010 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Common and preferred stocks of other REITs	\$ 18,546	\$ 18,546	\$ -	\$ -
NHC convertible preferred stock	1,286	1,286	-	-
Total Marketable Securities	\$ 19,832	\$ 19,832	\$ -	\$ -

Common and Preferred Stocks The fair value of our common and preferred stock investments classified as marketable securities are derived using quoted market prices of identical securities or other observable inputs such as trading prices of identical securities in active markets.

NOTE 7. REVOLVING CREDIT FACILITY

On February 1, 2010, we entered into a \$100,000,000 unsecured revolving credit facility to fund new healthcare real estate investments. The new credit facility, which was provided by Regions Bank as agent and Pinnacle National

Bank as a participating bank, bears interest at a margin of 250 basis points over LIBOR with a floor of 1%, which at June 30, 2010 was 3.5%, and matures in February 2011. The unused balance fee is 0.5% per annum. The credit facility contains financial covenants related to our leverage ratio, fixed charge ratio, unencumbered asset ratio and tangible net worth ratio, all of which we were in compliance with at June 30, 2010. At June 30, 2010, the credit facility had an outstanding balance of \$43,823,000. For the six months ended June 30, 2010, we recognized \$544,000 in interest expense related to this credit facility.

NOTE 8. COMMITMENTS AND CONTINGENCIES

We believe that we have operated our business so as to qualify as a REIT under Section 856 through 860 of the Internal Revenue Code of 1986, as amended (the Code) and we intend to continue to operate in such a manner, but no assurance can be given that we will be able to qualify at all times. If we qualify as a REIT, we will generally not be subject to federal corporate income taxes on our net income that is currently distributed to our stockholders. This treatment substantially eliminates the double taxation (at the corporate and stockholder levels) that typically applies to corporate dividends. Our failure to continue to qualify under the applicable REIT qualification rules and regulations would cause us to owe state and federal income taxes and would have a material adverse impact on our financial position, results of operations and cash flows.

In October 2009, we completed a purchase/leaseback transaction with Bickford Senior Living and its affiliates (Bickford) for \$28,250,000. The purchase price was funded from our accumulated cash liquidity and includes \$3,000,000 in conditional payments to be made over the next three years based on Bickford s expected achievement of certain operating financial thresholds.

In March 2010, we completed a purchase/leaseback transaction with Helix Healthcare (Helix) for \$12,500,000. The purchase price was funded with borrowings from our revolving credit facility and includes \$1,000,000 as a conditional payment which is expected to be made in 2010.

Table of Contents

As of June 30, 2010, we had pending commitments related to three health care real estate projects: (1) as described in Note 3, in June 2010 we entered into a construction loan commitment to provide up to \$13,870,000 for the development and construction of a 70-bed transitional rehabilitation center in Mesa, Arizona; and as of June 30, 2010 we had funded a total of \$3,421,000 toward this commitment, (2) one of our leases contains a provision whereby we will fund up to \$750,000 of certain capital improvements and operating equipment purchases with the total being added to the base amount from which the lease payment is calculated, and (3) we were committed to fund an additional \$50,000 on a mortgage note receivable. We have sufficient liquidity to fund these commitments and to finance new investments.

The health care facilities in which we have investments of leases or loans are subject to claims and suits in the ordinary course of business. Our lessees and mortgagors have indemnified and will continue to indemnify us against all liabilities arising from the operation of the health care facilities, and will indemnify us against environmental or title problems affecting the real estate underlying such facilities. While there are lawsuits pending against certain of the owners and/or lessees of the health care facilities, management believes that the ultimate resolution of all pending proceedings will have no material adverse effect on our financial position, results of operations and cash flows.

On December 31, 1999, NHI acquired six Florida properties from the Chapter 11 bankruptcy trustee for York Hannover Nursing Centers, Inc. On January 1, 2000, NHI sold those properties to Care Foundation of America, Inc., a Tennessee nonprofit corporation (CFA) for \$32.7 million, (\$6.8 million of which was ultimately due to National HealthCare Corporation ("NHC"), which had contributed to the purchase price consideration, under the terms of an inter-creditor agreement between NHI and NHC), with NHI financing 100% of the purchase price, and the debt having an original maturity date of July 1, 2001. The maturity date of the debt was subsequently extended several times over the years, with the most recent extension making the principal balance of \$22,936,000 due December 31, 2008. On December 30, 2008, CFA filed for Chapter 11 bankruptcy in the U.S. District Court for the Middle District of Tennessee (Case No. 08-12367). On January 2, 2009, CFA filed an adversary proceeding complaint against NHI in the bankruptcy case (the CFA Adversary Proceeding). CFA s complaint alleged in part that NHI exercised dominion and control over CFA s board of directors from 1999 until sometime in 2008 and that NHI had used that control to cause CFA to buy and finance the six Florida homes on terms that were not fair to CFA. CFA also alleged that these transactions constituted excess benefit transactions as defined in Section 4958 of the Internal Revenue Code. NHI denied CFA s claims and filed a counterclaim seeking a declaratory judgment as to the validity and enforceability of CFA s outstanding secured debt to NHI. In June 2009, the bankruptcy court granted a motion to intervene filed by the Tennessee Attorney General s Office. In December 2009, NHI agreed to purchase the six Florida properties (which are leased to a third-party for \$6.2 million annually, plus escalators over the initial lease term expiring in 2014) from CFA for a total of \$67 million; CFA agreed to pay the full amount of its outstanding balance due to NHI as a credit against the purchase price (CFA had continued to pay interest of 9.5% on the principal amount due during the bankruptcy); and the parties agreed to dismiss with prejudice their respective claims in the CFA Adversary Proceeding. The transaction and the resolution of the claims were approved by both the bankruptcy court and the Tennessee Attorney General s Office. The transaction was completed on February 1, 2010.

In November 2008, the Company was served with a Civil Investigative Demand by the Office of the Tennessee Attorney General (OTAG), which indicated that the OTAG was investigating transactions between the Company and three Tennessee nonprofit corporations, including CFA. NHI has provided OTAG with requested information and documents. OTAG agreed as part of the settlement of the CFA litigation that it will take no further action based on the Company's relationship with CFA. At this time, however, NHI does not know whether OTAG will commence any legal proceedings with respect to any transaction with any other nonprofit corporation or, if so, what relief will be sought.

On October 20, 2009, Burt Shearer Trustee, as trustee of the Shearer Family Living Trust, filed a shareholder derivative complaint (M.D. Tenn. Case No. 09-991), naming as defendants NHI directors W. Andrew Adams, Robert A. McCabe, Jr., Robert T. Webb, and Ted H. Welch and as a nominal defendant NHI. On January 19, 2010, the plaintiff filed an amended complaint. The amended complaint asserts that the allegations made in the CFA Adversary Proceeding are true and that the individual defendants are responsible for the wrongdoing alleged by CFA in that proceeding and have thus breached their fiduciary duties to NHI. The derivative amended complaint alleges that, as a result of that breach of duty, NHI has sustained damages in an amount not specified. The amended complaint seeks no relief from NHI itself.

NOTE 9. SHARE-BASED COMPENSATION

We recognize share-based compensation for all stock options and restricted stock granted over the requisite service period using the fair value for these grants as estimated at the date of grant for employees and the end of the reporting period for non-employees using the Black-Scholes pricing model.

Table of Contents

The 1997 and 2005 Share-Based Compensation Plans

The Compensation Committee of the Board of Directors (the Committee) has the authority to select the participants to be granted options; to designate whether the option granted is an incentive stock option (ISO), a non-qualified option, or a stock appreciation right; to establish the number of shares of common stock that may be issued upon exercise of the option; to establish the vesting provision for any award; and to establish the term any award may be outstanding. The exercise price of any ISO s granted will not be less than 100% of the fair market value of the shares of common stock on the date granted and the term of an ISO may not be more than ten years. The exercise price of any non-qualified options granted will not be less than 100% of the fair market value of the shares of common stock on the date granted unless so determined by the Committee.

In May 2005, our stockholders approved the 2005 Plan pursuant to which 1,500,000 shares of our common stock were available to grant as share-based payments to employees, officers, directors or consultants. As of June 30, 2010, 683,967 shares were available for future grants under the 2005 plan. The individual restricted stock and option grant awards vest over periods up to ten years. The term of the options outstanding under the 2005 Plan is up to ten years from the date of grant.

The NHI 1997 Stock Option Plan (the 1997 Plan) provides for the granting of options to key employees and directors of NHI to purchase shares of common stock at a price no less than the market value of the stock on the date the option is granted. As of June 30, 2010, no shares were available for future grants under this plan. The term of the options outstanding under the 1997 Plan is five years from the date of the grant.

Compensation expense is recognized only for the awards that ultimately vest. Accordingly, forfeitures that were not expected may result in the reversal of previously recorded compensation expense. The compensation expense reported for share-based compensation related to the 2005 Plan and the 1997 Plan totaled \$2,038,000 for the six months ended June 30, 2010, consisting of \$2,024,000 for stock options and \$14,000 for restricted stock, as compared to \$701,000 for the six months ended June 30, 2009, consisting of \$672,000 for stock options and \$29,000 for restricted stock. At June 30, 2010, we had \$606,000 of unrecognized compensation cost related to unvested restricted shares issued and unvested stock options, net of expected forfeitures, which is expected to be recognized over the following periods: 2010 - \$309,000; 2011 - \$262,000, and 2012 - \$35,000. Stock-based compensation is included in general and administrative expense in the Condensed Consolidated Statements of Income.

The following table summarizes our outstanding stock options for the six months ended June 30, 2010 and 2009:

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

	2010	2009
Options outstanding, January 1,	253,836	159,668
Options granted under 2005 Plan	395,000	275,000
Options exercised under 1997 Plan	(48,717)	(15,000)
Options exercised under 2005 Plan	(123,946)	-
Options outstanding, June 30,	476,173	419,668
Exercisable June 30,	312,331	302,249

The following table summarizes our restricted stock activity for the six months ended June 30, 2010 and 2009:

	2010	2009
Non-vested at January 1,	5,100	7,025
Vested during the period	(1,925)	(1,925)
Non-vested at June 30,	3,175	5,100

Table of Contents**NOTE 10. NON-OPERATING INCOME**

Non-operating income is summarized below (*in thousands*):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Dividends	\$ 1,132	\$ 1,173	\$ 2,263	\$ 2,339
Interest income	9	380	67	792
Realized gain on sale of marketable securities	-	141	-	117
Other revenue	144	6	387	187
	\$ 1,285	\$ 1,700	\$ 2,717	\$ 3,435

NOTE 11. DISCONTINUED OPERATIONS

As described in Note 2, the planned sale of the Fundamental facilities meets the accounting criteria as being held for sale and we have reclassified the results of operations of these facilities as discontinued operations for all periods presented in our Condensed Consolidated Statements of Income. Our lease revenue from the facilities was \$1,167,000 and \$1,250,000 for the three months ended June 30, 2010 and 2009, respectively, and \$2,417,000 and \$2,500,000 for the six months ended June 30, 2010 and 2009, respectively.

As described in Note 2, in June 2010 we sold two skilled nursing facilities in Texas to the current lessee Legend Healthcare and affiliates (Legend). We have reclassified the results of operations of these facilities as discontinued operations for all periods presented in our Condensed Consolidated Statements of Income. Our lease revenue for the three months and six months ended June 30, 2010 was negatively impacted by the accumulated straight-line lease adjustment of \$13,000 which was written off as a result of the sale. Lease revenue from the facilities was (\$13,000) and \$119,000 for the three months ended June 30, 2010 and 2009, respectively, and \$107,000 and \$240,000 for the six months ended June 30, 2010 and 2009, respectively. The net gain on the sale of these facilities was \$2,004,000 for financial statement purposes.

Edgar Filing: NATIONAL HEALTH INVESTORS INC - Form 10-Q

In January 2009, we received final payment of \$642,000 related to the settlement of a terminated lease for one of our former Texas facilities that was sold in 2005 to a third-party operator.

In March 2009, we completed the sale of a closed facility in Emporia, Kansas for net cash proceeds of \$175,000. The facility was classified as held for sale at December 31, 2008. In February 2009, we recorded an impairment charge of \$25,000 to reduce its carrying value, less the cost to sell the facility.

In June 2009, we recognized for financial and tax purposes \$1,494,000 of deferred credits which existed at the date of sale of a nursing home in Washington in 2004. At the expiration of the five-year statute of limitations, management concluded based on advice from counsel that we were legally released from any potential liability settlements.

Income from discontinued operations for the six months ended June 30, 2010 also includes a \$14,000 refund related to a previously closed facility in Bellingham, Washington. Additionally, general and administrative expenses of \$21,000 related to closed facilities in Washington and Kansas have been included in income from discontinued operations for the six months ended June 30, 2009.

Income from discontinued operations, excluding gains on sale of real estate, is summarized below: (*in thousands*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Revenues	\$ 1,168	\$ 2,863	\$ 2,538	\$ 4,876
Expenses:				
Depreciation	35	282	69	565
General and administrative	-	5	-	21
Impairment of real estate assets	-	-	-	25
	35	287	69	611
Income from operations - discontinued	\$ 1,133	\$ 2,576	\$ 2,469	\$ 4,265

Table of Contents**NOTE 12. EARNINGS PER SHARE**

Basic earnings per common share are based on the weighted average number of common shares outstanding during the reporting period. Diluted earnings per common share assume the exercise of stock options and vesting of restricted shares using the treasury stock method.

The following table summarizes the average number of common shares and the net income used in the calculation of basic and diluted earnings per share (*in thousands, except share and per share amounts*):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Income from continuing operations	\$ 16,052	\$ 12,839	\$ 30,659	\$ 26,199
Discontinued operations	3,137	2,576	4,473	4,265
Net income available to common stockholders	\$ 19,189	\$ 15,415	\$ 35,132	\$ 30,464

Item 2.

Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

References throughout this document to NHI or the Company include National Health Investors, Inc. and its wholly-owned subsidiaries. In accordance with the Securities and Exchange Commission's Plain English guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words we, our, ours and us refer only to National Health Investors, Inc. and its wholly-owned subsidiaries and not any other person.

Unless the context indicates otherwise, references herein to the Company include all of our wholly-owned subsidiaries.

This Quarterly Report on Form 10-Q and other materials we have filed or may file with the Securities and Exchange Commission, as well as information included in oral statements made, or to be made, by our senior management contain certain forward-looking statements as that term is defined by the Private Securities Litigation Reform Act of 1995. All statements regarding our expected future financial position, results of operations, cash flows, funds from operations, continued performance improvements, ability to service and refinance our debt obligations, ability to finance growth opportunities, and similar statements including, without limitations, those containing words such as may, will, believes, anticipates, expects, intends, estimates, plans, and other similar forward-looking statements.

Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected or contemplated in the forward-looking statements as a result of, but not limited to, the following factors:

-

We depend on the operating success of our customers (facility operators) for collection of our revenues during this time of uncertain economic conditions and legislative healthcare reform in the U.S.;

-

We are exposed to risk that our tenants and mortgagors may become subject to bankruptcy or insolvency proceedings;

-

We are exposed to risks related to government regulations and the effect they have on our tenants and mortgagors business;

-

We are exposed to risk that the cash flows of our tenants and mortgagors will be adversely affected by increased liability claims and general and professional liability insurance costs;

-

We are exposed to risks related to environmental laws and the costs associated with the liability related to hazardous substances;

-

We are exposed to the risk that we may not be indemnified by our lessees and mortgagors against future litigation;

-

We depend on the success of future acquisitions and investments;

-

We depend on the ability to reinvest cash in real estate investments in a timely manner and on acceptable terms;

-

We may incur more debt and intend to replace our current credit facility with longer term debt in the future, which may not be available on terms acceptable to the Company;

-

We are exposed to the risk that the illiquidity of real estate investments could impede our ability to respond to adverse changes in the performance of our properties;

-

We are exposed to the risk that our assets may be subject to impairment charges;

-

We depend on the ability to continue to qualify as a real estate investment trust;

-

We have ownership limits in our charter with respect to our common stock and other classes of capital stock, and

-

We are subject to certain provisions of Maryland law and our charter and bylaws that could hinder, delay or prevent a change in control transaction, even if the transaction involves a premium price for our common stock or our stockholders believe such transaction to be otherwise in their best interests.

Table of Contents

See the notes to the annual audited consolidated financial statements in our most recent Annual Report on Form 10-K for the year ended December 31, 2009, and Business and Risk Factors under Item 1 and Item 1A therein, for a discussion of various governmental regulations and other operating factors relating to the healthcare industry and the risk factors inherent in them. You should carefully consider these risks before making any investment decisions in the Company. These risks and uncertainties are not the only ones facing the Company. There may be additional risks that we do not presently know of or that we currently deem immaterial. If any of the risks actually occur, our business, financial condition, results of operations, or cash flows could be materially adversely affected. In that case, the trading price of our shares of stock could decline and you may lose part or all of your investment. Given these risks and uncertainties, we can give no assurance that these forward-looking statements will, in fact, occur and, therefore, caution investors not to place undue reliance on them.

Executive Overview

NHI, a Maryland corporation incorporated in 1991, is a real estate investment trust ("REIT") which invests in income-producing health care properties primarily in the long-term care industry. As of June 30, 2010, our portfolio consisted of real estate and mortgage investments (excluding assets held for sale) with a carrying value totaling approximately \$401,894,000 and other investments in preferred stock and marketable securities of \$57,964,000 resulting in total invested assets of \$459,858,000. Our mission is to invest in health care real estate which generates current income that will be distributed to stockholders. We have pursued this mission by investing in leased properties and mortgage loans nationwide, primarily in the long-term health care industry. These investments include skilled nursing facilities, assisted living facilities, medical office buildings, independent living facilities, an acute psychiatric hospital, an acute care hospital and a transitional rehabilitation center, all of which are collectively referred to herein as "Health Care Facilities". We have funded these investments in the past through three sources of capital: (1) current cash flow, including principal prepayments from our borrowers, (2) the sale of equity securities, and (3) debt offerings, including bank lines of credit, the issuance of convertible debt instruments, and the issuance of ordinary debt.

Portfolio

At June 30, 2010, our continuing operations consisted of investments in real estate and mortgage notes receivable in 120 health care properties located in 23 states consisting of 81 skilled nursing facilities, 28 assisted living facilities, 4 medical office buildings, 4 independent living facilities, 1 acute psychiatric hospital, 1 acute care hospital and 1 transitional rehabilitation center. These investments consisted of approximately \$325,807,000 of net real estate investments with 17 lessees and \$76,087,000 aggregate carrying value of mortgage notes receivable from 15

borrowers.

As more fully described in Note 2 to the condensed consolidated financial statements, 41 of our properties are leased to NHC. Consistent with our strategy of diversification, we have increased our portfolio over time so that the portion of our portfolio leased by NHC has been reduced from 100% of our total portfolio on October 17, 1991 (the date we began operations) to 12.8% of our total portfolio on June 30, 2010, based on the net book value of these properties. In 1991, these assets were transferred by NHC to NHI at their then current net book value in a non-taxable exchange. Many of these assets were substantially depreciated as a result of having been presented in NHC's financial statements for as many as 20 years. As a result, we believe that the fair value of these assets is significantly in excess of their net book value. To illustrate, rental income for the year ended December 31, 2009 from NHC was \$34,782,000 or approximately 65.2% of the net book value of the facilities leased to NHC. Subsequent additions to the portfolio related to non-NHC investments reflect their higher value based on existing costs at the date the investment was made.

As with all assets in our portfolio, we monitor the financial and operating results of each of the NHC properties on a quarterly basis. In addition to reviewing the consolidated financial results of NHC, the individual center financial results are reviewed, including their occupancy, patient mix, and other relevant information.

Table of Contents

The following tables summarize our investments in real estate (excluding corporate office and assets held for sale) and mortgage notes receivable as of June 30, 2010:

Real Estate Properties	Properties	Beds/Sq. Ft.*	Net Investment
Skilled Nursing Facilities	51	6,858	\$ 177,829,000
Assisted Living Facilities	26	1,585	114,186,000
Medical Office Buildings	4	124,427*	8,541,000
Independent Living Facilities	4	456	7,001,000
Acute Psychiatric Hospitals	1	66	12,398,000
Acute Care Hospitals	1	55	5,852,000
Total Real Estate Properties	87		325,807,000

Mortgage Notes Receivable	Properties	Beds/Sq. Ft.*	Net Investment
Skilled Nursing Facilities	30	3,061	68,012,000
Assisted Living Facilities	2	146	4,654,000
Transitional Rehabilitation Center	1	70	3,421,000
Total Mortgage Notes Receivable	33	3,277	76,087,000
Total Portfolio	120		\$ 401,894,000

Portfolio Summary	Properties	Percentage	Net Investment
Real Estate Properties	87	81.1%	\$ 325,807,000
Mortgage Notes Receivable	33	18.9%	76,087,000

Exclusive of assets held for sale, operators who operate more than 3% of our total real estate investments are as follows: American HealthCare, LLC; Bickford Senior Living; Community Living Partnerships, LLC; ElderTrust of Florida, Inc.; Emeritus Senior Living; Health Services Management, Inc.; Helix Healthcare, Inc.; National HealthCare Corp.; Legend Healthcare, LLC; and SeniorTrust of Florida, Inc.

Table of Contents

As of June 30, 2010, the average effective quarterly rental income was \$1,808 per licensed bed for skilled nursing facilities, \$3,045 per unit for assisted living facilities, \$1,023 per unit for independent living facilities, \$6,343 per bed for acute psychiatric hospitals, \$12,841 per bed for acute care hospitals and \$3 per square foot for medical office buildings.

We invest a portion of our funds in the common and preferred shares of other publicly-held REITs to ensure the substantial portion of our assets are invested for real estate purposes. At June 30, 2010, our investment in common and preferred shares of publicly-held REITs was \$57,964,000. Refer to Notes 4, 5 and 6 of our condensed consolidated financial statements for further information.

Areas of Focus

We are evaluating and will make additional investments during the remainder of 2010 while continuing to monitor and improve our existing properties. We continue to cautiously evaluate new portfolio investments and monitor the current prices being offered for health care assets. However, even as we make new investments, we expect to maintain a relatively low level of debt compared to our total book capitalization and relative to our peers in the industry. New investments in real estate and mortgage notes may be funded by our liquid investments and by external financing. We intend to make new investments that meet our risk criteria and where we believe the spreads over our cost of capital will generate sufficient returns to our shareholders.

Real Estate and Mortgage Write-downs (Recoveries)

Our borrowers and tenants experience periods of significant financial pressures and difficulties similar to other health care providers. Governments at both the federal and state levels have enacted legislation to lower or at least slow the growth in payments to health care providers. Furthermore, the costs of professional liability insurance have continued to increase significantly.

Since the inception of the Company, a number of our real estate property operators and mortgage loan borrowers have experienced bankruptcy. Others have surrendered properties to us in lieu of foreclosure or have failed to make timely payments on their obligations to us.

The following table summarizes our write-downs and recoveries for the six months ended June 30, 2010 and 2009, respectively.

Write-downs (Recoveries) (in thousands)	Six Months Ended June 30,	
	2010	2009
Real estate	\$ -	\$ 25
Mortgage notes receivable	(573)	(1,077)
	\$ (573)	\$ (1,052)

During the three months ended June 30, 2010, we received payments totaling \$573,000 as a recovery of previous mortgage note write-downs. The payments resulted from the settlement of bankruptcy proceedings related to a former borrower.

In February 2009, we received payment in full of \$3,150,000 on the pro-rata portion of a note secured by a Georgia nursing home and recorded a recovery of amounts previously written down of \$1,077,000.

During 2008, we recorded an impairment charge of \$1,986,000 related to two Kansas facilities to reduce the carrying value of these facilities to fair value, less the cost of selling the facilities. One of the facilities, located in Hoisington, Kansas, was sold in November of 2008. The remaining facility, located in Emporia, Kansas, was sold during the first quarter of 2009. Prior to selling the Emporia facility, an additional impairment charge of \$25,000 was recorded to further reduce carrying value to its fair value less cost to sell.

We believe that the carrying amounts of our real estate properties are recoverable and notes receivable are realizable (including those identified as impaired or non-performing) and are supported by the value of the underlying collateral. However, it is possible that future events could require us to make significant adjustments to these carrying amounts.

Results of Operations

The results of operations for facilities sold or classified as held for sale have been reported in the current and prior periods as discontinued operations. The reclassifications to retroactively reflect the disposition of these facilities had no impact on previously reported net income.

Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009

Net income for the three months ended June 30, 2010, was \$19,189,000 versus \$15,415,000 for the same period in 2009, an increase of \$3,774,000 or 24.4%. Diluted earnings per common share were \$.69 in 2010 versus \$.55 in 2009, an increase of \$.14 or 25.4%. The significant items affecting net income are described below.

Total revenues for the three months ended June 30, 2010, were \$19,248,000 versus \$14,708,000 in 2009, an increase of \$4,540,000 or 30.8%. Rental income increased \$5,528,000 or 45.6% from the same period in 2009 primarily as a result of (1) \$1,550,000 from HSM for leases of the six Florida skilled nursing facilities acquired February 1, 2010 from CFA, (2) \$1,389,000 from Legend Healthcare, LLC for new leases that commenced in July and August, 2009, (3) an \$853,000 increase in straight-line rent income recognized as a result of acquisitions made and leases entered into in 2009 and 2010, (4) \$605,000 from Bickford Senior Living for new leases that commenced

during the fourth quarter of 2009 and second quarter of 2010, (5) \$535,000 from Suite Living Senior Specialty Services for new leases that commenced in March 2010, (6) \$375,000 from Helix Healthcare for a lease that commenced in March 2010, and (7) other adjustments to existing leases of \$221,000.

Mortgage interest income for the three months ended June 30, 2010 decreased \$988,000 or 38.2% to \$1,602,000 from the same period in 2009. We received \$922,000 less in interest income during the second quarter of 2010 when compared to the same period in 2009 as a result of the satisfaction of CFA's mortgage on six Florida skilled nursing facilities. Additionally, interest income received from existing mortgages decreased by \$341,000 when compared to the same period in 2009 due to normal amortization, final maturity or early payoff; such decrease being partially offset by \$275,000 in interest income received on new mortgage investments. Unless we continue to make new investments in mortgages in 2010 and future years, our mortgage interest income will continue to decrease due to the normal amortization and scheduled maturity of our loans.

Total expenses (excluding loan and realty recoveries which are required to be shown as a reduction of expenses for financial reporting purposes and expenses related to discontinued operations) for the three months ended June 30, 2010, were \$4,580,000 versus \$3,541,000 for the same period in 2009, an increase of \$1,039,000 or 29.3%. Depreciation expense increased \$1,163,000 over the same period in 2009 due to new real estate investments made in 2009 and the first three months of 2010.

Non-Operating Items

Non-operating income for the three months ended June 30, 2010, was \$1,285,000 versus \$1,700,000 for the same period in 2009, a decrease of \$415,000 or 24.4%. Non-operating income consists primarily of dividend and interest income on our investments in marketable securities and bank deposits. Interest income for the second quarter of 2010 was \$9,000 versus \$380,000 for the same period in 2009, a decrease of \$371,000 or 97.6%, due primarily to lower bank deposits as a result of new real estate and mortgage note investments funded in 2009 and 2010. Interest expense and amortization of loan costs increased \$446,000 as a result of borrowings on our revolving credit facility which we used to finance new investments.

Discontinued Operations

See Note 11 to the condensed consolidated financial statements.

Table of Contents

Six Months Ended June 30, 2010 Compared to Six Months Ended June 30, 2009

Net income for the six months ended June 30, 2010, was \$35,132,000 versus \$30,464,000 for the same period in 2009, an increase of \$4,668,000 or 15.3%. Diluted earnings per common share were \$1.27 in 2010 versus \$1.10 in 2009, an increase of \$.17 or 15.5%. The significant items affecting net income are described below.

Total revenues for the six months ended June 30, 2010, were \$39,576,000 versus \$29,279,000 in 2009, an increase of \$10,297,000 or 35.2%. Rental income increased \$11,203,000 or 45.2% from the same period in 2009 primarily as a result of (1) \$2,778,000 from Legend Healthcare, LLC for new leases that commenced in July and August, 2009, (2) \$2,583,000 from HSM for leases of the six Florida skilled nursing facilities acquired February 1, 2010 from CFA, (3) \$1,520,000 in past-due rent received and recognized into income from RGL Development, LLC, (4) a \$1,463,000 increase in straight-line rent income recognized as a result of acquisitions made and leases entered into in 2009 and 2010, (5) \$1,205,000 from Bickford Senior Living for new leases that commenced during the fourth quarter of 2009 and second quarter of 2010, (6) \$650,000 from Suite Living Senior Specialty Services for new leases that commenced in March 2010, (7) \$467,000 from Helix Healthcare for a lease that commenced in March 2010, (8) a \$187,000 increase in percentage rent recognized from NHC, (9) a \$175,000 increase in revenue from existing properties newly leased to Emeritus Senior Living in January, 2010 and (10) other adjustments to existing leases of \$175,000.

Mortgage interest income for the six months ended June 30, 2010 decreased \$906,000 or 20.1% to \$3,597,000 from the same period in 2009. We received \$362,000 less in interest income during the first six months of 2010 when compared to the same period in 2009 as a result of the satisfaction of CFA's mortgage on six Florida skilled nursing facilities. Additionally, interest income received from existing mortgages decreased by \$968,000 when compared to the same period in 2009 due to normal amortization, final maturity or early payoff; such decrease was partially offset by \$424,000 in interest income received on new mortgage investments. Unless we continue to make new investments in mortgages in 2010 and future years, our mortgage interest income will continue to decrease due to the normal amortization and scheduled maturities of our loans.

Total expenses (excluding loan and realty recoveries which are required to be shown as a reduction of expenses for financial reporting purposes and expenses related to discontinued operations) for the six months ended June 30, 2010, were \$11,505,000 versus \$7,522,000 for the same period in 2009, an increase of \$3,983,000 or 52.9%. General and administrative expenses increased \$2,292,000 primarily as the result of additions to our executive management team and staff during 2009. There was a \$1,337,000 increase in stock-based compensation expense, \$490,000 in transaction costs related to the CFA acquisition which were expensed as incurred, a \$365,000 increase in payroll-related expenses, and smaller items totaling \$100,000. We recognize stock-based compensation for financial reporting purposes for all stock options granted over the requisite service period using the fair value for these grants as

estimated at the date of grant for employees and the end of the reporting period for non-employees using the Black-Scholes pricing model. Depreciation expense increased \$2,056,000 over the same period in 2009 due to new real estate investments made in 2009 and the first three months of 2010.

Non-Operating Items

Non-operating income for the six months ended June 30, 2010, was \$2,717,000 versus \$3,435,000 for the same period in 2009, a decrease of \$718,000 or 20.9%. Non-operating income consists primarily of dividend and interest income on our investments in marketable securities and bank deposits. Interest income for the six months ended June 30, 2010 was \$67,000 versus \$792,000 for the same period in 2009, a decrease of \$725,000 or 91.5%, due primarily to lower bank deposits as a result of new real estate and mortgage note investments made in 2009 and during the six months ended June 30, 2010. Interest expense and amortization of loan costs increased \$632,000 as a result of borrowings on our revolving credit facility which we used to finance new investments.

Discontinued Operations

See Note 11 to the condensed consolidated financial statements.

Liquidity and Capital Resources

Sources and Uses of Funds

Our primary sources of cash include rent and interest payments, principal payments on mortgage notes receivable and proceeds from the sales of real property. Our primary uses of cash include dividend distributions, debt service payments (including principal and interest), investments in real estate and mortgage loans and general overhead.

Table of Contents

These sources and uses of cash are reflected in our Condensed Consolidated Statements of Cash Flows as summarized below (*dollars in thousands*):

	Six Months Ended June 30,				
	2010	2009	\$ Change	% Change	
Cash and cash equivalents at beginning of period	\$ 45,718	\$ 100,242	\$ (54,524)	(54.39%)	
Cash provided by operating activities	38,935	32,785	6,150	18.76%	
Cash (used in) provided by investing activities	(82,914)	(32,349)	(50,565)	(156.31%)	
Cash provided by (used in) financing activities	10,005	(35,424)	45,429	128.24%	
Cash and cash equivalents at end of period	\$ 11,744	\$ 65,254	\$ (53,510)	(82.00%)	

Operating Activities Net cash provided by operating activities for the six months ended June 30, 2010 increased compared to the same period in 2009 primarily as a result of lease revenue from new acquisitions. Certain working capital changes also affected operating cash and were primarily due to the timing of collections of accounts receivable and the payments of accounts payable and accrued expenses.

Investing Activities Net cash used in investing activities for the six months ended June 30, 2010 increased compared to the same period in 2009 due primarily to our real estate acquisitions and investments in mortgage notes. Cash used to fund new investments in real estate properties and mortgage loans in 2010 was \$88,475,000 and \$8,621,000, respectively. Cash proceeds of \$6,247,000 were received on the sale of two skilled nursing facilities to our lessee Legend Healthcare. During 2010, we received earnest money deposits totaling \$3,175,000 from our current lessee Fundamental toward the sale of six skilled nursing facilities in Texas which is expected to close when HUD financing is arranged by Fundamental. Collections and prepayments of mortgage notes receivable in 2010 amounted to \$4,760,000.

Financing Activities Net cash provided by financing activities was \$10,005,000 for the six months ended June 30, 2010 compared to \$35,424,000 used in financing activities for the same period in 2009. Net borrowings under our revolving credit facility in 2010 used to fund new real estate and mortgage loan investments were \$43,823,000. Dividends paid to stockholders during 2010 were \$33,855,000.

Liquidity

At June 30, 2010, our liquidity was strong, with cash, highly-liquid marketable securities and available borrowing capacity on our revolving credit facility of \$87,753,000. Cash proceeds from lease and mortgage collections, loan payoffs and the recovery of previous write-downs have been distributed as dividends to stockholders, used to retire our indebtedness, and accumulated in bank deposits for the purpose of making new real estate and mortgage loan investments.

Our liquidity in cash accounts and other readily marketable securities (traded on public exchanges) is a result of our normal operating cash flows from core business investments in leases and mortgage notes as shown in our condensed consolidated financial statements.

On February 1, 2010 we entered into a \$100,000,000 unsecured revolving credit facility to fund new healthcare real estate investments. The new credit facility, which was provided by Regions Bank as agent and Pinnacle National Bank as a participating bank, bears interest at a margin of 250 basis points over LIBOR with a floor of 1% and matures in February 2011. The unused balance fee is 0.5% per annum. The facility contains certain representations, warranties, and financial and other covenants customary in such loan agreements. At June 30, 2010, we had available borrowing capacity on our revolving credit facility of \$56,177,000.

We intend to comply with REIT dividend requirements that we distribute at least 90% of our taxable income for the year ending December 31, 2010 and thereafter. During the first six months of 2010, we declared (1) a quarterly dividend of \$.575 per common share for stockholders of record on March 31, 2010, payable on May 10, 2010; and (2) a quarterly dividend of \$.575 per common share for stockholders of record on June 30, 2010, payable on August 10, 2010.

Dividends declared for the fourth quarter of each fiscal year are paid by the end of the following January and are treated for tax purposes as having been paid in the fiscal year just ended as provided in IRS Code Sec. 857(b)(8). The 2009 fourth quarter dividend was \$.55 per common share, plus a special dividend of \$.10 per common share, and both were paid on January 29, 2010.

Table of Contents*Off Balance Sheet Arrangements*

We currently have no outstanding guarantees or letters of credit. We may or may not elect to use financial derivative instruments to hedge interest rate exposure. At June 30, 2010, we did not participate in any such financial instruments.

Contractual Obligations and Contingent Liabilities

As of June 30, 2010, our contractual payment obligations and contingent liabilities were as follows (*in thousands*):

	Total	Year 1	Year 2-3
Borrowings under revolving credit facility, including interest ⁽¹⁾	\$ 44,748	\$ 44,748	\$ -
Construction loan commitment	10,449	10,449	-
Deferred real estate purchase consideration	4,000	1,500	2,500
Capital improvements	750	750	-
Mortgage note advances	50	50	-
	\$ 59,997	\$ 57,497	\$ 2,500

(1) Interest was calculated at 3.5%, the interest rate at June 30, 2010, through expiration of the credit facility based on the balance outstanding at June 30, 2010. It also includes an unused balance fee of 0.5%.

Contingencies

In October 2009, we completed a purchase/leaseback transaction with Bickford Senior Living and its affiliates (Bickford) for \$28,250,000. The purchase price was funded from our accumulated cash liquidity and includes \$3,000,000 in conditional payments to be made over the next three years based on Bickford's expected achievement of certain operating financial thresholds.

In March 2010, we completed a purchase/leaseback transaction with Helix Healthcare (Helix) for \$12,500,000. The purchase price was funded with borrowings from our revolving credit facility and includes \$1,000,000 as a conditional payment which is expected to be made in 2010.

Commitments

As of June 30, 2010, we had pending commitments related to three health care real estate projects: (1) as described in Note 3, in June 2010 we entered into a construction loan commitment to provide up to \$13,870,000 to Santé Mesa, LLC for the development and construction of a 70-bed transitional rehabilitation center in Mesa, Arizona; and as of June 30, 2010 we had funded a total of \$3,421,000 toward this commitment, (2) one of our leases contains a provision whereby we will fund up to \$750,000 of certain capital improvements and operating equipment purchases with the total being added to the base amount from which the lease payment is calculated, and (3) we were committed to fund an additional \$50,000 on a mortgage note receivable. We have sufficient liquidity to fund these commitments and to finance new investments.

Funds From Operations

Our funds from operations (FFO) for the six months ended June 30, 2010 was \$38,272,000 compared to \$34,304,000 for the same period in 2009, an increase of \$3,968,000 or 11.6%. The increase in FFO was primarily the result of the impact on net income of our new investments in 2009 and 2010 and the associated impact on real estate depreciation, a non-cash adjustment to FFO. FFO represents net earnings available to common stockholders, excluding the effects of asset dispositions, plus depreciation associated with real estate investments. Diluted FFO assumes the exercise of stock options using the treasury stock method.

We believe that FFO is an important supplemental measure of operating performance for a REIT. Because the historical cost accounting convention used for real estate assets requires straight-line depreciation (except on land), such accounting presentation implies that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen and fallen with market conditions, presentations of operating results for a REIT that uses historical cost accounting for depreciation could be less informative, and should be supplemented with a measure such as FFO. The term FFO was designed by the REIT industry to address this issue. Our measure may not be comparable to similarly titled measures used by other REITs. Consequently, our FFO may not provide a meaningful measure of our performance as compared to that of other REITs. Since other REITs may not use our definition of FFO, caution should be exercised when comparing our Company's FFO to that of other REITs. FFO in and of itself does not represent cash generated from operating activities in accordance with generally accepted accounting principles (GAAP) (FFO does not include changes in operating assets and liabilities) and therefore should not be

Table of Contents

considered an alternative to net earnings as an indication of operating performance, or to net cash flow from operating activities as determined by GAAP as a measure of liquidity, and is not necessarily indicative of cash available to fund cash needs.

We have complied with the SEC's interpretation that recurring impairments taken on real property may not be added back to net income in the calculation of FFO. The SEC's position is that recurring impairments on real property are not an appropriate adjustment.

The results of operations for facilities included in assets held for sale or facilities sold have been reported in the current and prior periods as discontinued operations. The reclassifications to retrospectively reflect the disposition of these facilities had no impact on previously reported FFO.

The following table reconciles net income to FFO and is presented for basic and diluted weighted average shares (*in thousands, except share and per share amounts*):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Net income	\$ 19,189	\$ 15,415	\$ 35,132	\$ 30,464
Elimination of certain non-cash items in net income:				
Real estate depreciation - continuing operations	2,654	1,635	5,087	3,287
Real estate depreciation - discontinued operations	29	277	57	553
Net gain on sale of real estate	(2,004)	-	(2,004)	-
Funds from operations	\$ 19,868	\$ 17,327	\$ 38,272	\$ 34,304

BASIC

Weighted average common shares outstanding	27,665,629	27,578,000	27,649,003	27,576,272
Basic FFO per common share	\$.72	\$.63	\$ 1.38	\$ 1.24

DILUTED

Weighted average common shares outstanding		27,729,034		27,592,050		27,705,257		27,587,139
Diluted FFO per common share	\$.72	\$.63	\$	1.38	\$	1.24

Impact of Inflation

Inflation may affect us in the future by changing the underlying value of our real estate or by impacting our cost of financing our operations. Our revenues are generated primarily from long-term investments. Inflation has remained relatively low during recent periods. There can be no assurance that future Medicare, Medicaid or private pay rate increases will be sufficient to offset future inflation increases. Certain of our leases require increases in rental income based upon increases in the revenues of the tenants.

New Accounting Pronouncements

See Note 1 to the condensed consolidated financial statements for the impact of new accounting standards.

Table of Contents

Item 3.

Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

Our cash and cash equivalents consist of highly liquid investments with an original maturity of three months or less. Our mortgage notes receivable bear interest at fixed interest rates. Our investment in preferred stock, at cost, represents an investment in the preferred stock of another REIT and yields dividends at a fixed rate of 8.5%. As a result of the short-term nature of our cash instruments and because the interest rates on our investments in notes receivable and preferred stock, respectively, are fixed, a hypothetical 10% change in interest rates has no impact on our future earnings and cash flows related to these instruments.

As of June 30, 2010, \$43,823,000 of our debt bears interest at variable rates, currently 3.5%. A hypothetical 10% increase or decrease in interest rates would decrease or increase, respectively, our future earnings and cash flows related to these debt instruments by \$153,400 annually.

We do not use derivative instruments to hedge interest rate risks. The future use of such instruments will be subject to strict approvals by our senior officers.

Equity Price Risk

We consider our investments in marketable securities of \$19,832,000 at June 30, 2010 as available-for-sale securities. Increases and decreases in the fair market value of our investments in other marketable securities are unrealized gains and losses that are recorded in stockholders' equity. The investments in marketable securities are recorded at their fair value based on quoted market prices. Thus, there is exposure to equity price risk, which is the potential change in fair value due to a change in quoted market prices. We monitor our investments in marketable securities to consider evidence of whether any portion of our original investment is likely not to be recoverable, at which time we would record an impairment charge to operations. A hypothetical 10% change in quoted market prices

would result in a related \$1,983,200 change in the fair value of our investments in marketable securities.

Item 4.

Controls and Procedures.

Evaluation of Disclosure Control and Procedures. As of June 30, 2010, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and our Chief Accounting Officer (CAO), of the effectiveness of the design and operation of management's disclosure controls and procedures (as defined in rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934) to ensure information required to be disclosed in our filings under the Securities and Exchange Act of 1934, is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms; and (ii) accumulated and communicated to our management, including our CEO and our CAO, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving desired control objectives, and management is necessarily required to apply its judgment when evaluating the cost-benefit relationship of potential controls and procedures. Based upon the evaluation, the CEO and our CAO concluded that the design and operation of these disclosure controls and procedures were effective as of June 30, 2010.

There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Changes in Internal Control over Financial Reporting. There were no changes in our internal control over financial reporting identified in management's evaluation during the three months ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1.

Legal Proceedings.

The Health Care Facilities are subject to claims and suits in the ordinary course of business. Our lessees and mortgagors have indemnified and will continue to indemnify us against all liabilities arising from the operation of the Health Care Facilities, and will indemnify us against environmental or title problems affecting the real estate underlying such facilities. While there may be lawsuits pending against certain of the owners and/or lessees of the Health Care Facilities, management believes that the ultimate resolution of all such pending proceedings will have no material adverse effect on our financial position, operations and cash flows.

On December 31, 1999, NHI acquired six Florida properties from the Chapter 11 bankruptcy trustee for York Hannover Nursing Centers, Inc. On January 1, 2000, NHI sold those properties to Care Foundation of America, Inc., a Tennessee nonprofit corporation (CFA) for \$32.7 million, (\$6.8 million of which was ultimately due to National HealthCare Corporation ("NHC"), which had contributed to the purchase price consideration, under the terms of an inter-creditor agreement between NHI and NHC), with NHI financing 100% of the purchase price, and the debt having an original maturity date of July 1, 2001. The maturity date of the debt was subsequently extended several times over the years, with the most recent extension making the balance of \$22,936,000 due December 31, 2008. On December 30, 2008, CFA filed for Chapter 11 bankruptcy in the U.S. District Court for the Middle District of Tennessee (Case No. 08-12367). On January 2, 2009, CFA filed an adversary proceeding complaint against NHI in the bankruptcy case (the CFA Adversary Proceeding). As disclosed in Note 8 of the notes to the consolidated financial statements, CFA s complaint alleged in part that NHI exercised dominion and control over CFA s board of directors from 1999 until sometime in 2008 and that NHI had used that control to cause CFA to buy and finance the six Florida homes on terms that were not fair to CFA. CFA also alleged that these transactions constituted excess benefit transactions as defined in Section 4958 of the Internal Revenue Code. NHI denied CFA s claims and filed a counterclaim seeking a declaratory judgment as to the validity and enforceability of CFA s outstanding secured debt to NHI. In June 2009, the bankruptcy court granted a motion to intervene filed by the Tennessee Attorney General s Office. In December 2009, NHI agreed to purchase the six Florida properties (which are leased to a third-party for \$6.2 million annually, plus escalators over the initial lease term expiring in 2014) from CFA for a total of \$67 million; CFA agreed to pay the full amount of its outstanding balance due to NHI as a credit against the purchase price (CFA had continued to pay interest of 9.5% on the principal amount due during the bankruptcy); and the parties agreed to dismiss with prejudice their respective claims in the CFA Adversary Proceeding. The transaction and the resolution of the claims were approved by both the bankruptcy court and the Tennessee Attorney General s Office. The transaction closed on February 1, 2010.

In November 2008, NHI was served with a Civil Investigative Demand by the Office of the Tennessee Attorney General (OTAG), which indicated that that OTAG was investigating transactions between NHI and three Tennessee nonprofit corporations, including CFA. NHI has provided OTAG with requested information and documents. OTAG has agreed as part of the resolution of the CFA Adversary Proceeding that it will take no further action based on NHI's relationship with CFA. At this time, however, NHI does not know whether OTAG will commence any legal proceedings with respect to any transaction with any other nonprofit corporation or, if so, what relief will be sought.

On October 20, 2009, Burt Shearer Trustee, as trustee of the Shearer Family Living Trust, filed a shareholder derivative complaint (M.D. Tenn. Case No. 09-991), naming as defendants NHI directors W. Andrew Adams, Robert A. McCabe, Jr., Robert T. Webb, and Ted H. Welch and as a nominal defendant NHI. On January 19, 2010, the plaintiff filed an amended complaint. The amended complaint asserts that the allegations made in the CFA Adversary Proceeding are true and that the individual defendants are responsible for the wrongdoing alleged by CFA in that proceeding and have thus breached their fiduciary duties to NHI. The derivative amended complaint alleges that, as a result of that breach of duty, NHI has sustained damages in an amount not specified. The amended complaint seeks no relief from NHI itself. The defendants have filed a motion to dismiss the amended complaint for failure to make an adequate pre-filing demand; that motion is pending before the court.

Item 1A.

Risk Factors.

During the quarter ended June 30, 2010, there were no material changes to the risk factors that were disclosed in Item 1A of National Health Investors, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2009.
