SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

December 26, 2015

1. Unaudited Condensed Consolidated Financial Statements

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, which are normal and recurring in nature, necessary to present fairly the financial position of Seneca Foods Corporation (the "Company") as of December 26, 2015 and results of its operations and its cash flows for the interim periods presented. All significant intercompany transactions and accounts have been eliminated in consolidation. The March 31, 2015 balance sheet was derived from the audited consolidated financial statements.

The results of operations for the three and nine month periods ended December 26, 2015 are not necessarily indicative of the results to be expected for the full year.

The accounting policies followed by the Company are set forth in Note 1 to the Company's Consolidated Financial Statements in the Company's 2015 Annual Report on Form 10-K.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes which requires that all deferred tax liabilities and assets of the same tax jurisdiction or a tax filing group, as well as any related valuation allowance, be offset and be presented as a single noncurrent amount in a classified balance sheet. The Company adopted this standard during the third quarter of fiscal 2016 on a prospective basis. Prior periods were not retrospectively adjusted.

Other footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and notes included in the Company's 2015 Annual Report on Form 10-K.

All references to years are fiscal years ended or ending March 31 unless otherwise indicated. Certain percentage tables may not foot due to rounding.

Reclassifications—Certain previously reported amounts have been reclassified to conform to the current period classification.

On October 30, 2015, the Company, B&G Foods North America ("B&G"), General Mills, Inc. and GMOL entered into a Relationship Transfer Agreement. Pursuant to the terms of the Relationship Transfer Agreement (i) the Company has consented to the assignment by GMOL of the Second Amended and Restated Alliance Agreement ("Alliance Agreement") and certain related agreements to B&G in connection with the sale by GMOL of its Green Giant and Le Sueur businesses to B&G, (ii) effective upon such assignment, each of the Company and General Mills have released the other party from any future obligations under the Alliance Agreement and certain related agreements; (iii) effective upon such assignment, the Company and B&G have agreed to amend certain terms of the Alliance Agreement; (iv) the Company and B&G have agreed to cooperate and negotiate in good faith to enter into new agreements to replace or supplement the Alliance Agreement and certain related agreements as soon as practicable and (v) GMOL has agreed to pay Seneca for this assignment \$24,275,000 at the closing of the sale of GMOL's Green Giant and Le Sueur business to B&G. The effective date of the assignment was November 2, 2015.

During the nine months ended December 26, 2015, the Company sold \$126,050,000 of Green Giant finished goods inventory to General Mills Operations, LLC ("GMOL") for cash, on a bill and hold basis, as compared to \$138,641,000 for the nine months ended December 27, 2014. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the criteria required for bill and hold treatment.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

December 26, 2015

On October 30, 2015, the Company completed the acquisition of 100% of the stock of Gray & Company. The business, based in Hart, Michigan, is a processor of maraschino cherries and a provider of glaze or candied fruit products. This acquisition includes a plant in Dayton, Oregon. The purchase price was approximately \$23,784,000 (net of cash acquired) plus the assumption of certain liabilities. In conjunction with the closing, the Company paid off \$12,034,000 of liabilities acquired. The rationale for the acquisition was twofold: (1) the business is a complementary fit with our existing business and (2) it provides an extension of our product offerings. This acquisition was financed with proceeds from the Company's revolving credit facility. The purchase price to acquire Gray & Company was allocated based on the internally developed preliminary fair value of the assets acquired and liabilities assumed and the preliminary independent valuation of inventory, intangibles, and property, plant, and equipment. The purchase price of \$23,784,000 has been allocated as follows (in thousands):

Purchase Price (net of cash received) \$23,784

Allocated as follows:

Current assets	\$36,256
Intangibles	330
Other long-term assets	3
Property, plant and equipment	15,447
Deferred Taxes	(8,022)
Other long-term liabilities	(4,323)
Current liabilities	(15,907)
Total	\$23,784

First-In, First-Out ("FIFO") based inventory costs exceeded LIFO based inventory costs by \$150,818,000 as of the end of the third quarter of fiscal 2016 as compared to \$164,269,000 as of the end of the third quarter of fiscal 2015. The change in the LIFO Reserve for the three months ended December 26, 2015 was a decrease of \$11,662,000 as compared to an increase of \$5,315,000 for the three months ended December 27, 2014. The change in the LIFO Reserve for the nine months ended December 26, 2015 was a decrease of \$13,249,000 as compared to an increase of \$10,885,000 for the nine months ended December 27, 2014. This reflects the projected impact of an overall cost decrease expected in fiscal 2016 versus an overall cost increase in fiscal 2015.

4. During December 2015, the Company exercised \$75,000,000 for the in-season facility and \$100,000,000 for the off-season facility of the remaining \$150,000,000 accordion feature of its existing revolving credit facility pursuant to the Second Amended and Restated Loan and Security Agreement dated July 20, 2011. Maximum borrowings under the Revolver total \$400,000,000 from April through July and \$475,000,000 from August through March. The Revolver balance as of December 26, 2015 was \$309,211,000 and is included in Current Portion of Long-Term Debt in the accompanying Condensed Consolidated Balance Sheet since the Revolver matures on July 20, 2016. The Company utilizes its Revolver for general corporate purposes, including seasonal working capital needs, to pay debt principal and interest obligations, and to fund capital expenditures and acquisitions. Seasonal working capital needs are affected by the growing cycles of the vegetables and fruits the Company processes. The majority of vegetable and fruit inventories are produced during the months of June through November and are then sold over the following year. Payment terms for vegetable and fruit produce are generally three months but can vary from a few days to seven months. Accordingly, the Company's need to draw on the Revolver may fluctuate significantly

throughout the year.

December 26, 2015

The increase in average amount of Revolver borrowings during the first nine months of fiscal 2016 compared to the first nine months of fiscal 2015 was attributable to the Gray & Company acquisition of \$23,784,000 made in the third quarter of fiscal 2016, the \$23,100,000 pension contribution made in fiscal 2016 and Inventories which are \$84,032,000 higher than the same period last year, partially offset by the \$24,275,000 received from General Mills for the agreement assignment to B&G Foods and increased operating results in the first nine months of fiscal 2016 as compared to the first nine months of fiscal 2015.

General terms of the Revolver include payment of interest at LIBOR plus a defined spread.

The following table documents the quantitative data for Revolver borrowings during the third quarter and year-to-date periods of fiscal 2016 and fiscal 2015:

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on April 1, 2018 (beginning of fiscal 2019). Early adoption is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes which requires that all deferred tax liabilities and assets of the same tax jurisdiction or a tax filing group, as well as any related valuation allowance, be offset and be presented as a single noncurrent amount in a classified balance sheet. This standard is effective for the Company for fiscal years beginning after December 15, 2017 (beginning of fiscal 2019). Early adoption is permitted. The Company adopted this standard during the third quarter of fiscal 2016 on a prospective basis. Prior periods were not retrospectively adjusted.

There were no other recently issued accounting pronouncements that impacted the Company's condensed consolidated financial statements. In addition, the Company did not adopt any new accounting pronouncements (other than ASU 2015-17 above) during the quarter ended December 26, 2015.

- As required by Accounting Standards Codification ("ASC") 825, "Financial Instruments," the Company estimates the fair values of financial instruments on a quarterly basis. The estimated fair value for long-term debt (classified as Level 2 in the fair value hierarchy) is determined by the quoted market prices for similar debt (comparable to the Company's financial strength) or current rates offered to the Company for debt with the same maturities.
11. Long-term debt, including current portion had a carrying amount of \$348,514,000 and an estimated fair value of \$349,137,000 as of December 26, 2015. As of March 31, 2015, the carrying amount was \$274,164,000 and the estimated fair value was \$274,999,000. The fair values of all the other financial instruments approximate their carrying value due to their short-term nature.

- In June 2010, the Company received a Notice of Violation of the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65, from the Environmental Law Foundation ("ELF"). This notice was made to the California Attorney General and various other government officials, and to 49 companies including Seneca Foods Corporation whom ELF alleges manufactured, distributed or sold packaged peaches, pears, fruit cocktail and fruit juice that contain lead without providing a clear and reasonable warning to consumers. Under California law, proper notice must be made to the State and involved firms at least 60 days before any suit under Proposition 65 may be filed by private litigants like ELF. That 60-day period has expired and to date neither the California Attorney General nor any appropriate district attorney or city attorney has initiated an action against the Company. However, private litigant ELF filed an action against the Company and 27 other named companies on September 28, 2011, in Superior Court of Alameda County, California, alleging violations of Proposition 65 and seeking various measures of relief, including injunctive and declaratory relief and civil penalties. The Company, along with the other named companies, vigorously defended the claim. A responsive answer was filed, the discovery process was completed and a trial on liability was held beginning in April of 2013 in accordance with court schedules. The trial was completed on May 16, 2013 and, on July 15, 2013
12. the judge issued a tentative and proposed statement of decision agreeing with the Company, and the other defendants, that the "safe harbor" defense had been met under the regulations relating to Proposition 65 and the Company will not be required to place a Proposition 65 warning label on the products at issue in the case. The trial decision was finalized and the decision was appealed by ELF with a filing dated October 3, 2013. The California Court of Appeal, First Appellate District, Division One unanimously rejected the appeal by ELF in a decision dated March 17, 2015. ELF filed a petition for review with the California Supreme Court on April 28, 2015, and the petition was denied on July 8, 2015. With the successful defense of the case, the remedies portion of the case was not litigated and the denial of review by the California Supreme Court effectively ends the action, with only a few procedural matters to clean-up as a result of the denial of review. Our portion of legal fees in defense of this action have been sizable, as would be expected with litigation resulting in trial, and the appeal, but have not had a material adverse impact on the Company's financial position, results of operations, or cash flows. Additionally, in the ordinary course of its business, the Company is made party to certain legal proceedings seeking monetary damages, including proceedings invoking product liability claims, either directly or through indemnification obligations, and we are not able to predict the probability of the outcome or estimate of loss, if any, related to any such matter.

December 26, 2015

The effective tax rate was 32.9% and 24.6% for the nine month periods ended December 26, 2015 and December 27, 2014, respectively. The 8.3 percentage point increase in the effective tax rate represents an increase in tax expense as a percentage of book income when compared to the same period last year. The major contributor to this increase is with the federal credits for R & D, WOTC and fuel. These credits are largely fixed and with the significant increase in pre-tax earnings for the nine months ended December 26, 2015, these credits are a smaller percentage of pre-tax earnings in comparison to the nine months ended December 27, 2014. This accounts for 5.9 percent of the increase.

During fiscal 2016 and 2015, the Company entered into some interim lease notes which financed down payments for various equipment orders at market rates. As of December 26, 2015, some of these interim notes had not been converted into operating leases since the equipment was not placed in service. These notes, which total \$402,000 and \$5,989,000 as of December 26, 2015 and December 27, 2014, respectively, are included in Notes Payable in the accompanying Condensed Consolidated Balance Sheets. These notes are expected to be converted into operating leases within the next twelve months.

For the three month period ended December 26, 2015, the gross margin increased from the prior year quarter from 5.7% to 12.3% due primarily to higher net selling prices (after considering promotions) in the current year as compared to the prior year. The LIFO credit for the third quarter ended December 26, 2015 was \$11,662,000 as compared to \$5,315,000 charge for the third quarter ended December 27, 2014 and reflects the impact on the current quarter of the current decreased inflationary cost increases expected in fiscal 2016, compared to fiscal 2015. On an after-tax basis, LIFO increased net earnings by \$7,580,000 for the quarter ended December 26, 2015 and decreased net earnings by \$3,455,000 for the quarter ended December 27, 2014, based on the statutory federal income tax rate.

For the nine month period ended December 26, 2015, the gross margin increased from the prior year period from 5.9% to 10.5% due primarily to higher net selling prices (after considering promotions) compared to the prior year, and a LIFO credit in the current year as compared to a charge in the prior year. The LIFO credit for the nine months ended December 26, 2015 was \$13,249,000 as compared to a charge of \$10,885,000 for the nine months ended December 27, 2014 and reflects the impact on the nine months of decreased inflationary cost increases expected in fiscal 2016, compared to fiscal 2015. For the nine month period ended December 26, 2015, administrative expense as a percentage of sales increased from 2.3% for the third quarter ended December 27, 2014 to 2.6%. Administrative expense increased for the nine month period ended December 26, 2015 as a percentage of sales due primarily to lower net sales in the current year as compared to the same period in the prior year and higher employment costs in fiscal 2016.

As shown in the Condensed Consolidated Statements of Cash Flows, net cash used in operating activities was \$12,465,000 in the first nine months of fiscal 2016, compared to net cash used in operating activities of \$15,832,000 in the first nine months of fiscal 2015. The \$3,367,000 decrease in cash used is primarily attributable to increased net earnings of \$33,479,000 as previously discussed, a \$8,669,000 increase in the impairment provision, a \$8,433,000 increase in cash provided by income taxes, a \$4,772,000 decrease in cash used by deferred taxes, a \$3,969,000 increase in cash provided by other current assets, partially offset by a \$34,499,000 higher increase in inventory in the first nine months of fiscal 2016 as compared to the first nine months of fiscal 2015, a \$17,092,000 decrease in the cash provided by Accounts Payable, Accrued Expenses and Other Liabilities, and a \$4,162,000 decrease in cash provided by accounts receivable.

As compared to December 27, 2014, inventory increased \$84,032,000 to \$631,181,000 at December 26, 2015. The components of the inventory increase reflect a \$76,427,000 increase in finished goods, a \$2,952,000 decrease in work in process and a \$10,557,000 increase in raw materials and supplies. The finished goods increase reflects higher inventory quantities and decreased sales volume as compared to the prior year. The raw materials and supplies increase is primarily due to an increase in cans and raw steel quantities compared to the prior year. FIFO based inventory costs exceeded LIFO based inventory costs by \$150,818,000 as of the end of the third quarter of 2016 as compared to \$164,269,000 as of the end of the third quarter of 2015.

Cash used in investing activities was \$30,024,000 in the first nine months of fiscal 2016 compared to cash used in investing activities of \$37,887,000 in the first nine months of fiscal 2015. Additions to property, plant and equipment were \$6,396,000 in the first nine months of fiscal 2016 as compared to \$21,905,000 in the first nine months of fiscal 2015. In October 2015, the Company acquired Gray & Company for \$23,784,000. In April 2014, the Company purchased a 50% equity interest in Truitt Bros. Inc. for \$16,308,000.

Cash provided by financing activities was \$50,910,000 in the first nine months of fiscal 2016, which included borrowings of \$301,232,000 and the repayment of \$238,871,000 of long-term debt, principally consisting of borrowing and repayment on the revolving credit facility ("Revolver"). Other than borrowings under the Revolver, there was no new long-term debt during the first nine months of fiscal 2016. In addition, the Company paid down

Notes Payable of \$9,501,000 during the nine month period ended December 26, 2015 related to some interim notes which became operating leases. During the nine months ended December 27, 2014, the Company repurchased \$9,201,000 of its Class A Common Stock as treasury stock.

During December 2015, the Company exercised \$75 million for the in-season facility and \$100 million for the off-season facility of the remaining \$150 million accordion feature of its existing revolving credit facility pursuant to the Second Amended and Restated Loan and Security Agreement dated July 20, 2011. Maximum borrowings under the Revolver total \$400,000,000 from April through July and \$475,000,000 from August through March. The interest rate on the Revolver is based on LIBOR plus an applicable margin based on excess availability and the Company's fixed charge coverage ratio. As of December 26, 2015, the interest rate was approximately 1.82% on a balance of \$309,211,000. We believe that cash flows from operations, availability under our Revolver and other financing sources will provide adequate funds for our working capital needs, planned capital expenditures, and debt obligations for at least the next 12 months.

The Company's credit facilities contain standard representations and warranties, events of default, and certain affirmative and negative covenants, including various financial covenants. At December 26, 2015, the Company was in compliance with all such financial covenants.

New Accounting Standards

Refer to footnote 9 of the Notes to Condensed Consolidated Financial Statements.

Seasonality

The Company's revenues are typically higher in the second and third fiscal quarters. This is due in part because the Company sells, on a bill and hold basis, Green Giant canned and frozen vegetables to B&G at the end of each pack cycle, which typically occurs during these quarters. B&G buys the product from the Company at cost plus a specified fee for each equivalent case. See the Critical Accounting Policies section below for further details. The Company's non-Green Giant sales also exhibit seasonality with the third fiscal quarter generating the highest retail sales due to holidays that occur during that quarter.

Pursuant to the terms of the Relationship Transfer Agreement (i) the Company has consented to the assignment by GMOL of the Second Amended and Restated Alliance Agreement ("Alliance Agreement") and certain related agreements to B&G in connection with the sale by GMOL of its Green Giant and Le Sueur businesses to B&G, (ii) effective upon such assignment, each of the Company and General Mills have released the other party from any future obligations under the Alliance Agreement and certain related agreements; (iii) effective upon such assignment, the Company and B&G have agreed to amend certain terms of the Alliance Agreement; (iv) the Company and B&G have agreed to cooperate and negotiate in good faith to enter into new agreements to replace or supplement the Alliance Agreement and certain related agreements as soon as practicable and (v) GMOL has agreed to pay Seneca for this assignment \$24,275,000 at the closing of the sale of GMOL's Green Giant and Le Sueur business to B&G. The effective date of the assignment was November 2, 2015.

During the nine months ended December 26, 2015, the Company sold \$126,050,000 of Green Giant finished goods inventory to General Mills Operations, LLC ("GMOL") for cash, on a bill and hold basis, as compared to \$138,641,000 for the nine months ended December 27, 2014. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the revenue recognition criteria required for bill and hold treatment.

Trade promotions are an important component of the sales and marketing of the Company's branded products, and are critical to the support of the business. Trade promotion costs, which are recorded as a reduction of net sales, include amounts paid to encourage retailers to offer temporary price reductions for the sale of our products to consumers,

amounts paid to obtain favorable display positions in retailers' stores, and amounts paid to retailers for shelf space in retail stores. Accruals for trade promotions are recorded primarily at the time of sale of product to the retailer based on expected levels of performance. Settlement of these liabilities typically occurs in subsequent periods primarily through an authorized process for deductions taken by a retailer from amounts otherwise due to us. As a result, the ultimate cost of a trade promotion program is dependent on the relative success of the events and the actions and level of deductions taken by retailers for amounts they consider due to them. Final determination of the permissible deductions may take extended periods of time.

SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

December 26, 2015

The Company assesses its long-lived assets for impairment whenever there is an indicator of impairment. Property, plant, and equipment are depreciated over their assigned lives. The assigned lives and the projected cash flows used to test impairment are subjective. If actual lives are shorter than anticipated or if future cash flows are less than anticipated, a future impairment charge or a loss on disposal of the assets could be incurred. Impairment losses are evaluated if the estimated undiscounted value of the cash flows is less than the carrying value. If such is the case, a loss is recognized when the carrying value of an asset exceeds its fair value.

ITEM 4 Controls and Procedures

The Company maintains a system of internal and disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported on a timely basis. The Company's Board of Directors, operating through its Audit Committee, which is composed entirely of independent outside directors, provides oversight to the financial reporting process.

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of December 26, 2015, our disclosure controls and procedures were effective. The Company continues to examine, refine and formalize its disclosure controls and procedures and to monitor ongoing developments in this area.

There have been no changes during the period covered by this report to the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
