**PROXY STATEMENT
Annual Meeting of Shareholders
To Be Held April 24, 2007**

Date, time, place and purpose of Sterling's Annual Meeting

The 2007 annual meeting of Shareholders of Sterling Financial Corporation (Sterling), including any postponements or adjournments thereof (the Annual Meeting), will be held at 10:00 a.m., local time, on Tuesday, April 24, 2007, in the Eric A. Johnston Auditorium of the Cheney Cowles Center Building, 2316 West First Avenue, Spokane, Washington. At the meeting, Sterling's Shareholders as of March 1, 2007 (the Record Date) will be asked to elect each of the nominees for the Board of Directors, approve an amendment to Sterling's Articles of Incorporation to increase the number of authorized shares of Sterling common stock, approve Sterling's 2007 Long-Term Incentive Plan, and to ratify the appointment of BDO Seidman, LLP (BDO) as the independent registered public accounting firm for Sterling for 2007. This proxy statement is first being sent to holders of Sterling common stock on or about [], 2007, and is accompanied by a proxy that is being solicited by the Sterling Board of Directors for use at the Annual Meeting.

Record date; outstanding shares; shares entitled to vote

Only holders of record of Sterling common stock at the close of business on the record date are entitled to notice of and to vote at the Annual Meeting. Each holder of Sterling common stock is entitled to one vote for each share of Sterling common stock owned as of the record date. As of the record date, there were [] shares of Sterling common stock outstanding.

Quorum; vote required

Under Washington law, any Shareholder action at a meeting requires that a quorum exist with respect to that action. A quorum for the actions to be taken at the Annual Meeting will consist of a majority of the outstanding shares of Sterling common stock entitled to vote, present in person or by proxy at the Annual Meeting. Shareholders of record, including brokers holding customers' shares of record, who are present at the Annual Meeting in person or by proxy and who abstain from voting are considered present and entitled to vote, and will count toward a quorum.

If a quorum exists at the Annual Meeting, those nominees for election to the Board of Directors who receive the greatest number of affirmative votes cast for Directors will be elected as Directors. The affirmative vote by holders of a majority of the outstanding common stock of Sterling is required to approve the amendment to Sterling's Articles of Incorporation increasing the number of authorized shares of common stock. If a quorum exists, the affirmative vote by the holders of a majority of the common stock present in person or represented by proxy and entitled to vote is required to approve other matters to be acted upon at the Annual Meeting. Abstentions and broker non-votes will have no impact on the election of Directors or other proposals. Proxies and ballots will be received and tabulated by American Stock Transfer & Trust Company, Sterling's transfer agent.

Voting of proxies

The Board of Directors requests that you complete, date and sign the proxy card accompanying this proxy statement and promptly return the card in the enclosed postage-paid envelope. Unless contrary instructions are specified, all properly signed proxies received by Sterling and not revoked before the vote at the Annual Meeting will be voted:

1) FOR the election of the four Directors nominated by the Board of Directors; 2) FOR approval of an amendment to Sterling s Articles of Incorporation to increase the number of authorized shares of Sterling common stock; 3) FOR approval of Sterling s 2007 Long-Term Incentive Plan; 4) FOR the ratification of the appointment of BDO as the independent registered public accounting firm for Sterling for 2007; and 5) in accordance with the best

Table of Contents

judgment of the proxy agents on any other matters properly brought before the Annual Meeting. If the Annual Meeting is postponed or adjourned, your proxy will still be effective and may be voted at the rescheduled meeting. You will still be able to change or revoke your proxy until it is voted.

If you own your shares in street name, that is, through a brokerage account or in another nominee form, you must provide instructions to the broker or nominee as to how your shares should be voted. Otherwise, your shares may not be voted and will be recorded as broker non-votes. Your broker or nominee will usually provide you with the appropriate instruction forms at the time you receive this proxy statement. If you own your shares in this manner, you cannot vote in person at the Annual Meeting unless you receive a proxy to do so from the broker or the nominee and you bring the proxy to the Annual Meeting.

If you are a participant in Sterling's 401(k) Employee Savings and Investment Plan and Trust, your completed proxy will serve as voting instructions to the plan trustee. However, your voting instructions must be received at least five days prior to the Annual Meeting to count. In accordance with the terms of the plan, if you fail to instruct the plan trustee how to vote your plan shares, the trustee will vote your plan shares in accordance with the recommendations of the 401(k) Advisory Committee.

How to revoke your proxy

You may revoke your proxy at any time by taking any of the following actions before your proxy is voted at the Annual Meeting:

Deliver to Sterling a written notice bearing a date later than the date of the proxy card, stating that you revoke the proxy;

Sign and deliver to Sterling a proxy card relating to the same shares and bearing a later date; or

Attend the meeting and vote in person, although attendance at the meeting will not, by itself, revoke a proxy.

Also, please note that if you have voted through your broker, bank or other nominee and you wish to change your vote, you must follow the instructions received from such entity to change your vote.

Voting electronically via Internet or telephone

A large number of banks and brokerage firms provide Shareholders whose shares are registered in the name of such firms the opportunity to vote via the Internet or by telephone. The voting form sent to a beneficial owner will provide instructions if such options are available.

Expenses of proxy solicitation

The expense of preparing, printing and mailing this proxy statement and the proxies solicited hereby will be borne by Sterling. Proxies will be solicited by Sterling by mail and may also be solicited on behalf of Sterling by directors, officers and other employees of Sterling, without additional remuneration, in person or by telephone or facsimile transmission. Sterling will also request brokerage firms, banks, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares of Sterling common stock as of the record date and will reimburse such entities for the cost of forwarding the proxy materials in accordance with customary practice.

Recommendation of the Board of Directors

The Board of Directors of Sterling believes the proposals described herein are in the best interests of Sterling and its Shareholders and, accordingly, recommends that the Shareholders vote FOR the proposals identified in the Notice.

Dissenters Rights

There are no dissenters rights applicable to any matters to be considered at the Annual Meeting.

PROPOSAL 2: AMENDMENT OF ARTICLES OF INCORPORATION

The Board of Directors has approved and is submitting to the Shareholders for approval, an amendment to Article V of Sterling's Restated Articles of Incorporation. The amendment would increase the number of shares of common stock Sterling is authorized to issue to 100,000,000 shares. Sterling's Articles of Incorporation currently authorize the issuance of up to 60,000,000 shares of common stock and 10,000,000 shares of preferred stock. As of March 1, 2007, [] shares of common stock were outstanding. No shares of preferred stock have been outstanding since 1997.

The following is the text of the first sentence of Article V of the Articles of Incorporation, as proposed to be amended:

The total number of shares of stock which the Corporation shall have the authority to issue is one hundred and ten million (110,000,000), of which one hundred million shall be Common Stock having a par value of One Dollar (\$1.00) per share and ten million (10,000,000) shall be Preferred Stock having a par value of One Dollar (\$1.00) per share.

The proposed amendment to Sterling's Articles of Incorporation has been unanimously approved by the Board of Directors for consideration by Shareholders. The Board believes that the increase in the capitalization of Sterling will assure that an adequate number of authorized but unissued shares are available for Sterling to issue shares of common stock to obtain equity capital, effect acquisitions, grant awards under Sterling's stock option plans, and to use for stock dividends or in stock splits.

Once Shareholders approve a level of authorized shares for any class of Sterling's capital stock, no subsequent approval by Shareholders is required for issuance of shares of that class in an amount up to the number of shares authorized, except to the extent required under the rules of the Nasdaq Global Select Market. Pursuant to Sterling's Articles of Incorporation, the Board has the authority to determine the relative rights of Sterling's common stock and preferred stock, including voting, conversion, liquidation and dividend rights and sinking fund provisions. Sterling's Articles of Incorporation provide that no holder of Sterling's capital stock will have any preemptive rights to acquire any of Sterling's securities.

If common stock were issued, the per share voting power, Shareholder's equity, or amounts available for distribution as dividends and on any liquidation of Sterling may be diluted as a result of any such additional issuances. Certain effects of this proposal could operate to deter a potential takeover of Sterling. For example, the additional shares proposed to be authorized could be issued to dilute the stock ownership of a person seeking to obtain control of Sterling, thereby preserving current management, making more difficult or discouraging a merger, tender offer or proxy contest directed at Sterling, delaying the assumption of control by a holder of a large block of Sterling's shares, increasing the degree of control of current management, or operating to the advantage of incumbent management in a hostile takeover attempt and to the disadvantage of Shareholders who might want to participate in the takeover

transaction. Approval of the Amendment of Sterling's Articles of Incorporation requires the affirmative vote of a majority of shares of common stock that are issued and outstanding as of March 1, 2007.

The Board of Directors unanimously recommends that Shareholders vote FOR the Proposal to Amend the Articles of Incorporation.

PROPOSAL 3: ADOPTION OF THE 2007 LONG-TERM INCENTIVE PLAN

The Board of Directors adopted the Sterling Financial Corporation 2007 Long-Term Incentive Plan (the 2007 Incentive Plan), as of February 26, 2007, subject to the approval of the Shareholders at the Annual Meeting. The Board of Directors believes that it is in the best interests of Sterling to adopt the 2007 Incentive Plan and recommends that the Shareholders vote in favor of the 2007 Incentive Plan. Approximately 436,249 options to purchase shares of common stock were available for grant under Sterling s existing equity compensation plans as of December 31, 2006.

The following summary of the 2007 Incentive Plan is qualified in its entirety by reference to the complete text of the 2007 Incentive Plan, which is included with this proxy statement as Exhibit A. Capitalized terms used in this summary that are not separately defined below have the meanings set forth in the 2007 Incentive Plan.

Description of the 2007 Incentive Plan

The purpose of the 2007 Incentive Plan is to: a) foster and promote the long-term financial success of Sterling and materially increase Shareholder value; b) enable Sterling to attract, motivate and retain highly-qualified key employees and directors; and c) encourage key employees and directors to link their interests with the long-term financial success of Sterling and the growth of Shareholder value. Under the 2007 Incentive Plan, the following types of Awards may be granted: (i) Incentive Stock Options; (ii) Non-Qualified Stock Options; (iii) Stock Appreciation Rights (SARs); (iv) Restricted Stock; (v) Restricted Stock Units; (vi) Performance Shares; and (vii) supplemental payments dedicated to payment of any federal income taxes that may be payable in conjunction with Awards under the 2007 Incentive Plan. Non-employee directors, consultants and advisors of Sterling are eligible to participate in the 2007 Incentive Plan but may not receive Incentive Stock Options. Generally, Awards will be granted under the 2007 Incentive Plan to executive and other officers, approximately [] individuals, although all Employees are eligible to participate. Sterling has reserved 2 million shares of common stock for grants of Awards under the 2007 Incentive Plan. The 2007 Incentive Plan will generally be administered by the Personnel Committee of the Board of Directors, which consists of at least two Outside Directors; however, the 2007 Incentive Plan allows administration of the Plan to be delegated to such other committees as are deemed appropriate by the Board and by any applicable laws depending on the group of employees or service providers who are subject to the committee s granting authority (any of these committees are referred to as the Administrator in the Plan as well as in this summary).

No Incentive Stock Option, Non-Qualified Stock Option or SAR may be granted with an exercise price per share less than the Fair Market Value of the common stock at the date of grant. In the Administrator s discretion, the exercise price of an Option may be paid in cash, by check, by delivery of already owned shares of common stock, via a broker-assisted cashless exercise program, by a combination of the foregoing methods or any other method permitted by law and acceptable to the Administrator. However, if the Participant acquired the stock to be surrendered upon exercise directly or indirectly from Sterling, he or she must have owned the stock to be surrendered for at least six months prior to tendering such stock for the exercise of an Option.

An eligible Participant may receive more than one Incentive Stock Option, but the maximum aggregate Fair Market Value of the common stock (determined when the Incentive Stock Option is granted) with respect to which Incentive Stock Options are first exercisable by such Participant in any calendar year cannot exceed \$100,000. In addition, no Incentive Stock Option may be granted to a Participant owning directly or indirectly stock possessing more than 10% of the total combined voting power of all classes of stock of Sterling (a Ten-Percent Shareholder), unless the exercise price is not less than 110% of the Fair Market Value of the shares subject to such Incentive Stock Option on the date of grant.

Except as otherwise provided by the Administrator, Awards under the 2007 Incentive Plan are not transferable other than as designated by the Participant by will or by the laws of descent and distribution. The expiration date of an Incentive Stock Option is determined by the Administrator at the time of the grant, but in no event may an Incentive Stock Option be exercisable after the expiration of ten years from the date of grant of the Incentive Stock Option (five years in the case of an Incentive Stock Option granted to a Ten-Percent Shareholder).

Table of Contents

SARs may be granted under the 2007 Incentive Plan upon such terms and conditions as the Administrator may determine, subject to the provisions of the Plan. The exercise price of the SAR shall not be less than the Fair Market Value of the common stock on the date of the grant. Upon the exercise of a SAR, Sterling will pay to the Participant in cash, common stock, or a combination thereof (the method of payment to be at the discretion of the Administrator), an amount equal to the excess of the Fair Market Value of the common stock on the exercise date over the exercise price, multiplied by the number of SARs being exercised.

Shares of Restricted Stock may be granted under the 2007 Incentive Plan upon such terms and conditions as the Administrator may determine, subject to the provisions of the Plan. In making an Award of Restricted Stock, the Administrator will determine the periods during which the Restricted Stock is subject to forfeiture and such other terms and conditions as the Administrator may deem admissible and appropriate. The Administrator also has discretion to accelerate the time at which the restrictions to which Restricted Stock is subject will lapse or be removed. During the Period of Restriction, as set forth in the Award Agreement, the Participant may not sell, transfer, pledge or assign the Restricted Stock, but will be entitled to vote the Restricted Stock, unless the Administrator determines otherwise. During the Period of Restriction, the Participant also has the right to receive dividends with respect to the Restricted Stock unless provided otherwise in the Award Agreement.

The Administrator may grant Awards in the form of Restricted Stock Units or Performance Shares, which are both generally subject to performance vesting criteria as established by the Administrator. The Administrator may set vesting criteria based upon the achievement of company-wide, business unit, or individual goals (including, but not limited to, continued employment), other performance milestones or any other basis determined by the Administrator in its discretion.

The basis for payment of Restricted Stock Units or Performance Shares for a given Performance Period shall be the achievement of those financial and nonfinancial vesting criteria determined by the Administrator in the Award Agreement. Upon meeting the applicable vesting criteria, the payout of Restricted Stock Units or Performance Shares shall be dependent on the extent to which the vesting criteria are met as determined by the Administrator and provided in the Award Agreement. Payments shall be made, in the discretion of the Administrator, solely in cash or common stock, or a combination of cash and common stock, as soon as practicable following the date(s) set forth in the Award Agreement.

The Administrator may provide for Supplemental Payments by Sterling to Participants in amounts specified by the Administrator, which amounts shall not exceed the amounts necessary to pay the federal income tax payable with respect to Awards and Supplemental Payments, based on the assumption that the Participant is taxed at the maximum effective federal income tax rate on such amount. The Administrator shall have the discretion to grant Supplemental Payments that are payable in cash, common stock, or a combination of both, as determined by the Administrator at the time of payment.

The 2007 Incentive Plan provides that following a change in control, any then outstanding Awards that are not assumed or substituted by the successor corporation shall become vested and exercisable in full, all restrictions and conditions of all Restricted Stock then outstanding shall be deemed satisfied and the restriction period shall be deemed to have expired, all performance goals or vesting criteria shall be deemed achieved at 100% of target levels and all other terms and conditions on an outstanding Award shall be deemed met.

Under the 2007 Incentive Plan, the Administrator has authority, in its discretion but subject to the provisions of the Plan and the authority delegated by the Board, to: (i) determine the Fair Market Value of the stock subject to Awards under the Plan; (ii) select the Service Providers to whom Awards may be granted thereunder; (iii) determine the number of Shares to be covered by each Award; (iv) approve forms of agreement for use under the Plan; (v) determine

the terms and conditions, not inconsistent with the terms of the Plan, of any Award granted hereunder (including, but are not limited to, the exercise price, the time or times when Awards may be exercised or will become vested, any vesting acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Award or the Shares relating thereto, based in each case on such factors as the Administrator will determine); (vi) institute an Exchange Program; (vii) construe and interpret the terms of the Plan and Awards granted pursuant to the Plan; (viii) prescribe, amend and rescind rules and regulations relating to the Plan; (ix) modify or amend each Award (subject to the provisions of the Plan), including the discretionary authority to extend the post-termination exercisability period of Awards longer than is otherwise provided for in the Plan (subject to compliance with Code

Table of Contents

Section 409A); provided, however, notwithstanding any contrary provision in this Plan, neither the Administrator nor the Board may directly or indirectly reduce the exercise price of any Award without the approval of Sterling's stockholders; (x) allow Participants to satisfy withholding tax obligations in such manner as provided in the Plan; (xi) authorize any person to execute on behalf of Sterling any instrument required to effect the grant of an Award previously granted by the Administrator; (xii) allow a Participant to defer the receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant under an Award; and (xiii) make all other determinations deemed necessary or advisable for administering the Plan. The decisions, determinations and interpretations made by the Administrator in good faith shall not be subject to review by any person and shall be final and binding on all Participants and any other holders of Awards. No person or member of a committee acting as the Administrator will be liable for any action or determination made in good faith by the Administrator with respect to the 2007 Incentive Plan or any Incentive Award and, to the fullest extent permitted by Sterling's Restated Articles of Incorporation and Bylaws, Sterling will indemnify each member of the Administrator.

Certain Federal Income Tax Consequences

Sterling believes that under present law, the following are the U.S. federal income tax consequences generally arising with respect to Options. The grant of an Option will not be a taxable event to the Participant and Sterling will not be entitled to a deduction with respect to such grant.

Upon the exercise of a Non-Qualified Stock Option, a Participant will recognize ordinary income at the time of exercise equal to the excess of the then Fair Market Value of the shares of common stock received over the exercise price. The taxable income recognized upon exercise of a Non-Qualified Stock Option will be treated as compensation income subject to withholding and Sterling will be entitled to deduct as a compensation expense an amount equal to the ordinary income a Participant recognizes with respect to such exercise. The treatment to a participant of a disposition of shares acquired through the exercise of an option generally depends on how long the shares were held and on whether the shares were acquired by exercising an incentive stock option or by exercising an option other than an incentive stock option. Generally, there will be no tax consequence to Sterling in connection with a disposition of shares acquired under an option, except that Sterling may be entitled to a deduction in cases in which shares acquired under an incentive stock option are disposed of before the applicable incentive stock option holding periods having been satisfied.

A Participant receiving Restricted Stock generally will recognize ordinary income in the amount of the Fair Market Value of the corresponding common stock at the time the common stock is no longer subject to forfeiture, less any consideration paid for the common stock. Sterling will be entitled to a deduction at the same time and in the same amount. The holding period to determine whether the Participant has long-term or short-term capital gain or loss on a subsequent sale generally begins when the restriction period expires, and the Participant's tax basis for such common stock will generally equal the Fair Market Value of such common stock on such date.

However, a Participant may elect, under Section 83(b) of the Code, within 30 days of the grant of the Restricted Stock, to recognize taxable ordinary income on the date of grant equal to the excess of the Fair Market Value of the Restricted Stock (determined without regard to the restrictions) over the price (if any) paid for the Restricted Stock. By reason of such an election, the Participant's holding period will commence on the date of grant and the Participant's tax basis will be equal to the Fair Market Value of the common stock on that date (determined without regard to restrictions). Likewise, Sterling generally will be entitled to a deduction at that time in the amount that is taxable as ordinary income to the Participant. If the shares of common stock are forfeited after making such an election, the forfeiture shall be treated as a sale or exchange upon which there is a capital loss equal to the excess of purchase price of the forfeited shares of common stock over any amount realized on such forfeiture.

No Incentive Awards have been granted or allocated under the 2007 Incentive Plan. Approval of the 2007 Incentive Plan requires the affirmative vote of the holders of a majority of shares of common stock present and voting at the Annual Meeting.

The Board of Directors unanimously recommends that Shareholders vote FOR the Proposal to approve Sterling s 2007 Incentive Plan.

PROPOSAL 4: RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed BDO Seidman, LLP to serve as the independent registered public accounting firm for Sterling and its subsidiaries for the year ending December 31, 2007, and any interim periods. Shareholders are being asked to ratify such appointment. BDO has advised Sterling that it will have in attendance at the Annual Meeting one or more representatives who will be available to respond to appropriate questions presented at the Annual Meeting. Such representatives will have an opportunity to make a statement at the Annual Meeting if they desire to do so. If the appointment of BDO is not ratified by the required number of votes, the Board will review its future selection of independent registered public accounting firms.

The Board of Directors unanimously recommends that Shareholders vote FOR the ratification of the appointment of BDO as the independent registered public accounting firm for Sterling for 2007.

Fees for 2005 and 2006 include the integrated audit of Sterling s consolidated financial statements and management s assessment of internal controls over financial reporting as required by the Public Company Accounting Oversight Board and the SEC.

Audit-Related Fees: The aggregate fees and expenses billed by BDO for audit related services rendered during 2005 and 2006 were \$18,000 and \$18,000, respectively. Types of services in this category were primarily audits of the employee benefit plans and consultation on accounting standards.

All Other Fees: There were no other services provided by BDO during 2005 and 2006.

PRE-APPROVAL OF AUDIT AND NON-AUDIT SERVICES

It is the responsibility of Sterling s Audit Committee to pre-approve all audit and non-audit services provided by BDO. The Audit Committee has adopted a policy authorizing certain permissible audit and non-audit services to be performed by BDO with subsequent reporting and oversight required by the Audit Committee. Permissible services, not pre-approved pursuant to this policy, require specific review and approval prior to the engagement by the Audit Committee, or a designated member. Specific pre-approval of such permissible services with estimated fees of \$2,500 or less may be waived via the *de minimis* exception rule. Procedures are in place to ensure the Audit Committee chairman is notified in the event the *de minimis* rule is used. All services rendered by and fees paid to BDO are reported to and monitored quarterly by the Audit Committee. The Audit Committee considers whether the provision of related audit services are compatible with maintaining the independent registered public accounting firm s independence. To assist the Audit Committee in its oversight responsibilities, the pre-approval policy identifies the three basic principles of independence with respect to services provided by the independent registered public

accounting firm, as well as the non-audit services the independent registered public accounting firm is prohibited from providing. One hundred percent of all services provided by BDO in each of the last two fiscal years were pre-approved by the Audit Committee.

To assist in carrying out its duties, the Board has delegated authority to the Audit Committee, the Personnel Committee, and the Nominating Committee. For more information relating to the duties and composition of these committees, please see the sections below entitled Committees of the Board of Directors.

Following our 2007 Annual Meeting of Shareholders, the Board will consist of ten Directors. In the interim period between Annual Meetings of Shareholders, the Board has the authority under Sterling's Bylaws to fill vacancies and may increase or decrease the size of the Board by amending the Bylaws. The Directors are classified into three classes with staggered terms of three years.

Attendance of Directors

The Board of Directors of Sterling held 8 meetings during 2006. Each Director attended at least 75% of such meetings and those of the Board committees on which the Director served during the year. It is Sterling's policy that members of the Board of Directors should attend all annual meetings of Shareholders except for absences due to causes beyond the reasonable control of the Directors. At the 2006 annual meeting of Shareholders of Sterling Financial Corporation, all of the Directors were in attendance.

Committees of the Board of Directors

The Board of Directors of Sterling has established Audit, Personnel and Nominating Committees.

Audit Committee. The Audit Committee has been established in accordance with the rules of the SEC for the purpose of overseeing Sterling's accounting and financial reporting processes, the audits of the financial statements, as well as compliance with legal and regulatory requirements. The Audit Committee reviews the independent registered public accounting firm's qualifications, independence and performance, and oversees and monitors the performance of Sterling's internal audit function. The Audit Committee is responsible for the retention, supervision and termination of the independent registered public accounting firm and for resolving any disagreements between management and the independent registered public accounting firm. The independent registered public accounting firm reports directly to the Audit Committee. The Audit Committee is also responsible for reviewing the adequacy of the authority, responsibilities and functions of Sterling's internal audit department. The Audit Committee is not responsible for conducting reviews of auditing or accounting procedures. Management has primary responsibility for Sterling's financial reporting process and for preparing Sterling's financial statements. Sterling's independent registered public accounting firm is responsible for performing an independent audit of the consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). The Audit Committee serves a board-level oversight role in which it provides advice, counsel and direction to management and

the independent registered public accounting firm on the basis of the information it receives, discussions with the independent registered public accounting firm, and the experience of the Audit Committee's members in business, financial and accounting matters.

The Audit Committee held six meetings during 2006 and currently consists of Messrs. Eisenhart (Chairman), Barnett, Bauhofer and Fugate, each of whom has been determined by the Board to be independent and financially literate as required by the rules of the NASD and the SEC. Members of the Audit Committee have reviewed and discussed with management and the independent registered public accounting firm the periodic reports of Sterling prior to filing such reports with the SEC. No member of the Audit Committee has participated in the preparation of

the financial statements of Sterling or its subsidiaries at any time during the past three years. The Board has determined that Mr. Barnett is an audit committee financial expert as defined by the SEC. The Audit Committee operates under a written charter reviewed and approved annually by Sterling's Board of Directors. Sterling's Audit Committee Charter is publicly available on Sterling's website at www.sterlingfinancialcorporation-spokane.com.

Personnel Committee. The Personnel Committee reviews and makes recommendations to the Board of Directors with respect to personnel policies that include, but are not limited to, officer and employee salaries and benefits. The Personnel Committee does not currently operate under a written charter, but is in the process of preparing and evaluating such a charter for future adoption by the Board of Directors. The Personnel Committee held three meetings during 2006 and currently consists of Messrs. Larrabee (Chairman), Fugate and Bauhofer, each of whom has been determined by the Board to be independent as that term is defined by the rules of the NASD and the SEC.

Nominating Committee. The Nominating Committee recommends to the Board of Directors a slate of nominees for election by the Shareholders at each annual meeting of Sterling. At the request of the Board, the Nominating Committee recommends, for approval by the Board, nominees to fill vacancies or new positions on the Board as they may occur or be created from time to time, all in accordance with Sterling's Bylaws. The Nominating Committee identifies potential nominees from various sources, including recommendations from Directors and officers of Sterling. The Nominating Committee will consider nominees recommended by Shareholders upon submission in writing to the Chairman of the Board of Directors the names of such nominees, together with their qualifications for service as Directors of Sterling. Individuals recommended by Shareholders are evaluated in the same manner as other potential nominees. The Nominating Committee reviews and discusses recommendations received for Director candidates and evaluates the qualifications of such candidates before selecting a slate of nominees to be recommended to the Board. Qualifications that the Nominating Committee will consider in evaluating Director candidates include contacts within Sterling's market area, skills, experience, time availability and such other criteria as the Nominating Committee shall determine to be relevant. The Nominating Committee held two meetings in 2006, and currently consists of Messrs. Fugate (Chairman), Larrabee and Bauhofer, each of whom has been determined by the Board to be independent as that term is defined by the rules of the NASD and the SEC. The Nominating Committee operates under a written charter approved by Sterling's Board of Directors. Sterling's Nominating Committee Charter is publicly available on Sterling's website at www.sterlingfinancialcorporation-spokane.com.

Compensation of Directors

Directors of Sterling who are not employees of Sterling are paid an annual fee of \$20,000 plus a fee, which is currently \$3,000, for every meeting attended. Directors serving on committees of the Board also receive a fee of \$500 for every committee meeting attended unless they serve as the chair of such committee, in which case they receive a fee of \$1,000 for every committee meeting attended. Directors receive reimbursement for travel and other expenses incurred in connection with Board business.

Nonemployee Directors of Sterling also receive annual grants of non-qualified stock options. Such options have an exercise price equal to the fair market value of the Sterling common stock on the date of grant and generally expire ten years from the date of grant. In the event that a nonemployee Director is removed from office for cause, all options granted to such nonemployee Director pursuant to the automatic grants of non-qualified stock options described above will expire immediately upon such removal.

CORPORATE GOVERNANCE

Sterling has proactively taken steps to establish a corporate governance framework that affirms our high standards of business conduct, emphasizes the importance of integrity and honesty in the conduct of our business, and ensures the integrity of the controls and procedures implemented by our Directors, officers and employees, including our internal control over financial reporting. Actions we have taken to establish this corporate governance framework include: maintaining a Board composed of a majority of independent Directors; adoption of charters for our Directors committees; adoption of a Code of Ethics for all of our Directors, officers and employees; and provision of a procedure for shareholders and employees to communicate with the Board. We believe that the

Table of Contents

ethical foundations outlined in our corporate governance framework are critical to our ongoing success and the maximization of shareholder value.

Affirmative Determinations Regarding Director Independence

The Board of Directors has determined that each of the following Directors is an independent director as such term is defined by the rules of the National Association of Securities Dealers (NASD) and the Securities Exchange Commission (SEC):

Rodney W. Barnett
Donald N. Bauhofer
William L. Eisenhart
James P. Fugate
James B. Keegan, Jr.
Robert D. Larrabee
Michael F. Reuling

The Board of Directors has also determined that each member of the three committees of the Board meets the independence requirements applicable to those committees prescribed by the rules of the NASD and the SEC. These rules generally provide that an independent director is a person other than an officer or employee of Sterling or its subsidiaries or any other individual having a relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director. The Nasdaq Rules also provide specific criteria that, if met, disqualify a Director from being independent.

Code of Ethics

The Board of Directors has adopted a Code of Ethics that applies to all Sterling employees and Directors, including Sterling's senior financial officers. The Code of Ethics is publicly available on Sterling's website at www.sterlingfinancialcorporation-spokane.com.

EXECUTIVE COMPENSATION**Compensation Discussion and Analysis****Compensation Philosophy and Objectives**

Sterling seeks to attract and retain a highly qualified management team and promote a strong pay-for-performance culture by aligning compensation with superior short and long-term performance that builds shareholder value.

Sterling's Board of Directors believes that compensation should:

- relate to the value created for Shareholders by being directly tied to the financial performance and condition of Sterling and each Executive Officer's contribution thereto;

- reward individuals who help Sterling achieve its short-term and long-term objectives and thereby contribute significantly to the success of Sterling;

- help to attract and retain the most qualified individuals available by being competitive in terms of compensation paid to persons having similar responsibilities and duties in other companies in the same and

closely-related industries; and

reflect the qualifications, skills, experience and responsibilities of each Executive Officer.

Sterling uses a compensation framework with multiple payment components to balance various short-term and long-term objectives. This framework is designed to balance the executives' need for current cash, security, and funds to cover taxes on long-term incentives through vehicles such as salary and annual incentives, with the need to align executives' long-term interests with those of shareholders through vehicles such as equity grants. The framework is also intended to avoid awarding a particular form of compensation if the tax treatment of such compensation will reduce the incentive to the executive.

Base salary and perquisites provide some degree of security to each executive at the base threshold level of compensation and encourage the executives' day to day productivity. Annual cash incentives are designed to motivate executives to focus on Sterling's annual goals, while long-term incentives are designed to motivate the executives to focus on long-term strategic goals that will produce both outstanding financial performance for Sterling and long-term rewards for the executives. Components such as employment agreements and stock options are designed to meet Sterling's goal of attracting and retaining a stable team of effective leaders while providing non-competition and other protections for Sterling.

Table of Contents

Sterling's compensation framework is also designed to ensure direct supervision and accountability with regard to performance evaluations at each level of the organization. For this reason, the Personnel Committee is directly responsible for determining the total compensation level and individual components of the CEO's compensation package, based upon various factors, including a review of Sterling's performance, and the CEO's individual performance. The CEO, in turn is directly responsible for conducting a similar review of the President of Sterling and then recommending an appropriate compensation package to be approved by the Personnel Committee. The President, in like manner, reviews the performance of the chief operating officer of Sterling Savings and recommends an appropriate compensation package to be approved by the CEO. This system continues in sequence throughout Sterling's chain-of-command, so that the compensation of each employee is always based upon an evaluation of the employee's performance by the employee's direct supervisor, subject to approval by the next higher level of management, and an overall review by Sterling's human resources department.

The appropriate level of compensation for each officer or employee of Sterling is expected to vary based upon Sterling's overall performance, Sterling's financial performance and an individual's attainment of their personal objectives and contribution to the attainment of Sterling's objectives. Specific items of Sterling's performance taken into account when making compensation decisions include:

Growth in total assets.

Growth in loan originations and loan origination fees.

Growth in total loans receivable.

Growth in total deposits.

Growth in fees and service charges income.

Return on average equity.

Return on average assets.

Maintenance of asset quality.

Successful completion and integration of acquisitions.

Performance of Sterling's stock price.

Although the current value of historical awards may also be taken into account, the primary objective is to reward Sterling's management team for their current performance and provide incentive for future performance. Because there is no specific weighting applied to the factors considered, the Personnel Committee and each supervising manager are expected to use their own judgment and expertise in determining appropriate compensation packages that meet Sterling's overall objectives. Each supervisor, following consultation with and subject to the concurrence of his or her immediate supervisor, has discretion to set a total compensation amount that he or she determines to be appropriate without regard to any fixed minimum, maximum or target incentive level.

Sterling does not specifically require that its Executive Officers own Sterling common stock, but does award stock and stock options pursuant to Sterling's long term incentive plans in part to ensure that the Executive Officers' financial incentives are aligned with those of Sterling's shareholders. In order to avoid creating conflicts between an officer's

interests and the interests of shareholders, Sterling's Insider Trading Policy prohibits all Sterling personnel from engaging in hedging transactions. Officers who are parties to an employment agreement with Sterling are also generally prohibited from pledging their shares of Sterling common stock as collateral for loans or other financing transactions, or otherwise hedging the economic risk of owning their shares.

Historically, the Board has determined the number of shares of Sterling common stock and options to purchase shares of Sterling common stock available to be awarded, and then awarded them annually at its regularly scheduled meeting in December. At its December 2006 meeting the Board decided to change its procedure and begin granting all awards of such stock and stock options during the open window in January following the release of earnings for the fourth quarter and fiscal year to increase the likelihood that the awards will be priced at a time when the market has full access to information about Sterling's performance.

Role of Sterling's Management

The role of Sterling's management is to provide reviews and recommendations for the Personnel Committee's consideration, and to manage Sterling's executive compensation programs, policies and governance. Direct responsibilities include, but are not limited to:

providing an ongoing review of the effectiveness of the compensation programs, including competitiveness, and alignment with Sterling's objectives;

recommending changes, if necessary to ensure achievement of all program objectives; and

determining pay levels, payout and/or awards for key executive officers other than the CEO.

Role of Personnel Committee

The Personnel Committee, which is composed of three nonemployee Directors, is responsible for performing compensation committee functions, as provided under the rules of the SEC, including administration of the compensation of the CEO and the other Executive Officers. The actions taken by the Personnel Committee are subject to review and appropriate approval of Sterling's Board of Directors.

The primary purpose of the Personnel Committee is to conduct reviews of Sterling's general executive compensation policies and strategies and oversee and evaluate Sterling's overall compensation structure to ensure that Sterling's compensation objectives are fulfilled.

Direct responsibilities of the Personnel Committee include, but are not limited to:

evaluating and approving goals and objectives relevant to compensation of the CEO and other executive officers, and evaluating the performance of the executives in light of those goals and objectives;

determining and approving the compensation level for the CEO;

approving or reviewing the compensation structure for other key Executive Officers;

evaluating and approving all grants of equity-based compensation to Executive Officers;

recommending to the Board compensation policies for outside Directors; and

reviewing performance-based and equity-based incentive plans for the CEO and other Executive Officers and reviewing other benefit programs presented to the Personnel Committee by the CEO.

The Personnel Committee meets regularly in executive session and assesses a number of factors, without giving specific weight to any one factor, in designing and evaluating Sterling's compensation framework. Additionally, the Personnel Committee is advised from time to time by outside compensation consultants on its compensation policies. In 2004 and 2006, the Personnel Committee retained the firm of Clark Consulting as its compensation consultant to assist in the continual development and evaluation of compensation policies and the Personnel Committee's determinations of compensation awards. The role of Clark Consulting is to provide independent, third-party advice and expertise in executive compensation issues.

During 2006, the Personnel Committee reviewed an informal market survey conducted by Sterling employees to evaluate whether Sterling's compensation program is competitive with other institutions in the banking industry. Although Sterling generally does not limit its market comparisons to a specific peer group, it did consider companies in the banking and financial services industries with assets ranging from \$5 billion to \$25 billion as part of its compensation analysis. These companies included: Bank of Hawaii Corp., Cathay General Bancorp, FirstMerit Corp., Fremont General Corp., Pacific Capital Bancorp, UCBH Holdings, Inc., Umpqua Holdings Corp., Whitney Holding Corp., and Wilmington Trust Corp. As a result of this survey, the Personnel Committee determined that Sterling's compensation levels for the Named Executive Officers are at about 75% of the industry average, but are still competitive for Sterling's market.

The Personnel Committee deems Sterling's consistent performance, continued growth and strong return to shareholders as evidence that Sterling's compensation framework is achieving the desired objectives.

Compensation of CEO

During 2006, the compensation of Mr. Gilkey, Chairman of the Board and CEO, was based on the general principles of the executive compensation program and on Mr. Gilkey's Employment Agreement. In determining the salary and other forms of compensation for Mr. Gilkey, the Personnel Committee took into consideration Mr. Gilkey's substantial experience and standing in the industry in general and with Sterling in particular. The Personnel Committee also considered the increased responsibilities for Mr. Gilkey as a result of Sterling's diversification and growth in recent years. The Personnel Committee believes that Mr. Gilkey's compensation as CEO appropriately reflects Sterling's performance during 2006 and his contributions to that performance.

Components of Compensation

At present, the executive compensation program is comprised of base salary, annual cash incentive compensation, long-term compensation in the form of deferred compensation and stock options, and benefits typically offered to executives of similar corporations.

Base Salary. Sterling pays its executives cash salaries intended to be competitive and take into account the individual's qualifications, experience, performance, responsibilities, and past and potential contribution to the company. When determining base salary levels of the CEO and evaluating the base salary levels of other executive officers, the Personnel Committee assesses a number of factors, without giving specific weight to any one factor. The Personnel Committee also takes into account Sterling's financial and operating performance as compared with industry averages, and considers the diverse skills required of its executive management to expand its operations while maintaining good performance. In addition, the Personnel Committee annually reviews a survey of average salaries paid to executive management in the banking industry, without limiting its review to any particular group of peers.

Annual Cash Incentive Compensation. Sterling maintains an Annual Cash Incentive Compensation Program. The annual component of this program is intended to encourage and reward the achievement of growth in Sterling's: (1) reported earnings, (2) total assets; (3) return on average assets; and (4) return on average equity. These criteria are deemed by the Personnel Committee to be critical in increasing shareholder value on both a short-term and long-term basis. The program also is designed to assist in attracting and retaining qualified employees and to further link the financial interests and objectives of employees with those of shareholders. Pursuant to the terms of his employment agreement, the amount of cash incentive paid to the CEO is generally determined on a discretionary basis by the Personnel Committee if Sterling has achieved its corporate goals and may range from 10% to 100% of the CEO's base salary. Pursuant to the terms of his employment agreement, the President may also receive a cash incentive that ranges from 10% to 100% of his base salary as determined on a discretionary basis by the CEO with the approval of the Board. For other executive officers, bonuses are determined at the discretion of the executive's supervisor based on an evaluation of individual contributions to Sterling's financial performance.

Long-Term Incentive Plans. The Personnel Committee believes that long-term incentive plans, such as the 2003 Long-Term Incentive Plan, provide a competitive incentive that links the achievement of financial goals and individual performance, resulting in greater shareholder value. The purpose of these plans is to encourage the ownership of Sterling common stock, attract and retain qualified employees, develop and maintain strong management and employee loyalty, and give suitable recognition to an individual's material contributions to Sterling's success.

When determining the quantity and amount of awards to be granted, the Personnel Committee assesses the same factors considered in setting base salary, but with a greater emphasis on long-term growth measurements, such as

return on average assets and return on average equity, and the expansion of Sterling's entire delivery system. Components of Sterling's delivery system that are considered include growth in the number of total branches, increases in the number of personnel and achievement of specific components of Sterling's strategic plan.

The Personnel Committee currently seeks to limit the number of equity awards to executive management to no more than 30% to 40% of the total number of awards granted under Sterling's long-term incentive plans in any given year, with the remainder to be awarded to non-executive employees. The availability of equity awards is subject to

Table of Contents

the approval of Sterling's long-term incentive plans by Sterling's shareholders. The Personnel Committee balances the value of equity awards as an incentive to align employees' interests with shareholders, with the dilutive effect that issuing equity awards has on existing shareholders, and seeks to ensure that the number of equity awards authorized in any given long-term incentive plan approved by Sterling's shareholders will be sufficient to provide incentive awards for three to four years. Accordingly, a new long-term incentive plan is presented to the Shareholders for approval at this Annual Meeting, as summarized elsewhere in this proxy and is attached hereto as Exhibit A.

Supplemental Executive Retirement Plan. In January 2002, Sterling adopted a Supplemental Executive Retirement Plan (the "SERP"). The SERP is a non-qualified, unfunded plan that is designed to provide retirement benefits for certain key employees of Sterling. Depending on their classification under the Plan, participants will receive from 40% to 60% of their annual salary amount as of January 1, 2002, for 10 to 15 years, beginning at normal retirement age. Retirement benefits vest at the rate of 10% per year of service. Except for participants who have completed 25 years of service, benefits are reduced for early retirement. The present value of the retirement benefits becomes 100% vested if, within three years of a change in control of Sterling, either the Plan or the participant's employment are terminated.

Deferred Compensation Plans. Since 1984, Sterling has maintained a nonqualified Deferred Compensation Plan (the "Old DCP") intended to link compensation to the long-term performance of Sterling and to provide employees with a strong incentive for increasing shareholder value. No further contributions have been made to this plan since 2001. As of December 31, 2006, there were seven participants in the Old DCP. All amounts in a participant's account become 100% vested upon death, disability, normal retirement age of 60, upon a change of control, or upon termination of the Plan. Prior to such an event, amounts in a participant's account vest at the rate of 10% per year of service from and after the year of contribution, provided that such vesting is accelerated so that each participant shall reach 100% vesting by age 60. Payment may be in a lump sum or in installments as determined by the Board, and installments may be accelerated by the Board. Payment must be commenced within one year of the termination of the participant's employment with Sterling.

Due to the enactment of Internal Revenue Code Section 409A ("Section 409A"), the Old DCP was divided into two plans: one for balances that accrued and vested prior to January 1, 2005, which are not subject to Section 409A; and one for balances vesting from and after January 1, 2005, which must comply with the rules and restrictions of Section 409A. Four participants in the Old DCP had balances that were not fully earned and vested prior to January 1, 2005 and these are the only participants in the segregated plan, called the 2005 Deferred Compensation Plan (the "2005 DCP"). Following the publication of the final regulations under Section 409A, the 2005 DCP will be amended as necessary to comply with the requirements of Section 409A. Until the final regulations are published, this 2005 DCP has been and will be operated in good faith compliance with Section 409A and the guidance promulgated thereunder.

In 2006, Sterling Savings adopted a new nonqualified Deferred Compensation Plan (the "Sterling Savings DCP"). The Sterling Savings DCP is designed to retain and attract key employees and Directors while serving as a vehicle to assist with saving for retirement. Plan participation is limited to Directors and a select group of management or highly compensated employees as determined by the Plan Committee. As of December 31, 2006, there were 34 participants in the Sterling Savings DCP. Under the plan, participants may contribute up to 75% of their base salary and up to 100% of commissions, bonus and Director fees. The deferred amounts are credited to the participants' accounts, which do not hold assets but are maintained for record-keeping purposes. The earnings under the Plan are credited based on the return of measurement funds selected by the participants. The measurement funds are designed to mirror the performance of mutual funds selected by the Plan Committee. All participant contributions vest immediately. Each year, based on a written agreement (such as an employment agreement) or at its sole discretion, Sterling may contribute amounts to all, some or none of the participants. The vesting of the Sterling contributions is determined based on the written agreement between the participant and Sterling or based on a vesting schedule determined by the Plan Committee. Within 60 days after the later of the first business day of the plan year following the plan year in

which the participant retires, or the last day of the six month period immediately following the date on which the participant retires, the participant's account will be distributed either in a lump sum or installments up to 15 years as elected by the participant. Within 60 days after the Plan Committee is notified of the participant's death or the participant becomes disabled, the participant's account will be distributed in a lump sum. Within 60 days after the last day of the six month period immediately following the date on which

Table of Contents

employment terminates, the participant's account will be distributed in a lump sum payment. Participants may elect to receive a scheduled distribution with certain exclusions.

Perquisites. Certain key employees of Sterling receive benefits that are designed to reward their contributions to Sterling and to encourage their productivity and continued service to Sterling. Certain of the perquisites provided to the Named Executive Officers, such as athletic club memberships, are deemed to provide business value to Sterling because they provide a place for executives to continue to interact with customers and develop business during non-business hours. Perquisites provided to certain of the Named Executive Officers during 2006 included an auto allowance, payment of club dues and financial planning and tax preparation assistance.

Klamath Plans. In connection with the acquisition of Klamath First Bancorp, Inc. (Klamath) in 2004, Sterling assumed Supplemental Executive Retirement Plans (the Klamath SERP Agreements) in place with certain former Klamath executives. Under the Klamath SERP Agreements, these executives are entitled to receive a normal retirement benefit at their normal retirement age that provides a continuation of salary for life, with annual increases of two percent. The amount of the normal retirement benefit is based on each executive's projected annual salary at the time of his normal retirement age. The former Klamath executives are fully vested in these agreements.

Sterling also assumed director fee continuation agreements with the former Klamath directors, which entitle each director to retirement benefits upon termination of service, except for cause. Klamath directors who were terminated subsequent to the transaction are initially entitled to normal retirement benefits of \$3,007 per month for directors who were at least age 65 on the effective date of the transaction and \$2,834 per month for directors who were under age 65, with annual increases of two percent. A director retiring before age 65 may elect to receive the retirement benefit prior to age 65, in which case the benefit will be reduced accordingly, based on the number of years that payments commence before normal retirement age. If the director dies before 60 monthly payments have been made, such payments will continue until a total of 60 monthly payments have been made, or until the death of the director's surviving spouse, whichever occurs earlier.

FirstBank Plans. In connection with the acquisition of FirstBank NW Corp. (FirstBank) in 2006, Sterling assumed an Executive Nonqualified Retirement Plan (the FirstBank NQRP) in place for certain former FirstBank executives. Under the FirstBank NQRP, these executives are entitled to receive a normal retirement benefit at their normal retirement age that provides monthly payments for life, with annual increases of 2.5% for inflation, as provided in their plan agreements under the FirstBank NQRP. The former FirstBank executives are entitled to receive the portion of their normal retirement benefit that was vested as of November 30, 2006 under the FirstBank NQRP.

Sterling also assumed the FirstBank Northwest Deferred Compensation Plan (the FirstBank DCP) in which the former FirstBank and FirstBank Northwest directors participated. Participants were allowed to defer a portion of their cash compensation into the plan and at all times remained 100% vested in these amounts. Participant balances will be distributed in accordance with the participant elections, which were made in accordance with the Code Section 409A transition guidance.

Sterling also assumed five fully paid-up split dollar insurance agreements for the benefit of certain FirstBank and FirstBank Northwest directors under which the insured's beneficiary will receive 40% of the excess death proceeds upon each insured's death. The excess death proceeds are the amounts to be received under the designated life insurance policy that are in excess of the account value of the policy at the time of death.

Grants of Plan-Based Awards

Under the direction of the Audit Committee, Sterling has reviewed its policy regarding the granting of stock options and affirmed that Sterling has adequate procedures in place to ensure that no option grants have been or may be back-dated or spring-loaded. In connection with the review of its stock option granting policies, in 2006 the Board determined that stock options will only be granted during the open trading period following the release of earnings results. The purpose of this change is to ensure that the market value at the time that options are granted reflects full information disclosure. As a result of the adoption of this policy in 2006, Sterling did not make any grants of plan-based awards during 2006 and any stock option grants based upon the Named Executive Officers' performance in 2006 will not be awarded until 2007 and will therefore be reported in the 2008 proxy statement.

Table of Contents**Pension Benefits**

The SERP is a non-qualified, unfunded plan that is designed to provide retirement benefits for certain key employees of Sterling. Messrs. Gilkey and Zuppe are eligible for full retirement benefits at age 67 1/2 calculated at 60% of their 2002 base salary paid over a period 15 years. Messrs. Harlow and Byrne and Ms. Stanley are eligible for full retirement benefits at age 65 calculated at 60% of their 2002 base salary paid out over a period of 15 years.

Messrs. Gilkey and Zuppe are fully vested in the retirement benefit. In the event Messrs. Harlow and Byrne and Ms. Stanley were to take early retirement benefits, their benefit would be reduced by 5% annually for each year the retirement date precedes their normal retirement age. The early retirement reduction will not exceed 50%. Benefits under the SERP commence at normal retirement age.

Mr. Bobbitt resigned from Sterling Savings Bank in June of 2006 and is eligible for a reduced payout amount based on the early retirement formula, which is a 35% reduction from full payout.

The following table reflects the present value of accrued benefits payable to each of the Named Executive Officers, including the years of credited service under the plan, determined in accordance with the plan and using a 7% present value discount rate.

Name	Plan	(1)	Present Value of Accumulated Benefit (\$)	Payments During Last Fiscal Year (\$)
		Number of Years Credited Service (#)		
Harold B. Gilkey	SERP	23	1,894,519	0
William W. Zuppe	SERP	23	1,145,594	0
Heidi B. Stanley(2)	SERP	21	155,853	0
David P. Bobbitt(3)	SERP	9	370,352	0
John M. Harlow(2)	SERP	19	959,917	0
Daniel G. Byrne(2)	SERP	23	151,429	0
Donn C. Costa(4)	SERP	0	0	0

(1) Actual number of years of service for Messrs. Gilkey, Zuppe and Byrne are 2 years longer than years of credited service and actual years of service for Mr. Bobbitt and Ms. Stanley are 1 year longer than years of credited service, for purposes of the SERP.

(2) Ms. Stanley, Mr. Harlow, and Mr. Byrne are not fully vested and therefore their accumulated benefit reflects an early retirement reduction based on a normal retirement age of 60 and assuming an early retirement as of December 31, 2006.

(3) Mr. Bobbitt resigned on June 30, 2006, and his accumulated benefit represents the present value of his benefit to the extent vested as of that date.

(4) Mr. Costa is not eligible for the SERP.

Nonqualified Deferred Compensation

The Old DCP, enacted in 1984 and frozen after 2001, provides a vehicle to assist employees with saving for retirement and creates an incentive to increase employee ownership of Sterling common stock. Only employer contributions to the plan are allowed. See discussion under *Deferred Compensation Plans* in the *Components of Compensation* section for further details on this plan and the segregation of the plan in response to the enactment of Code Section 409A.

Most of the contributions are invested in shares of Sterling common stock, but the participants have the opportunity to diversify any funds contributed after May 1, 2001, among Sterling common stock, the MFS Value Fund, the Black Rock S&P 500 Fund, and the Franklin Small Cap Growth Fund.

Table of Contents

The annualized performance of each selection in the Old DCP are as follows:

Sterling common stock 35.3%

MFS Value Fund 6.2%

BlackRock S&P 500 Index Fund 15.5%

Franklin Sm/Mid Cap Growth Fund 7.5%.

Payments must commence within one year of termination of employment and may be paid in a lump sum or installments, as determined by the Personnel Committee, provided however, that the balances vesting after December 31, 2004 will be distributed in compliance with the Code Section 409A.

In 2006, Sterling Savings adopted the Sterling Savings DCP, which allows participants to defer up to 75% of base salary and 100% of bonuses, commissions and Director fees. Employer contributions are also permitted under the plan. In 2006, Donn Costa was the only Named Executive Officer to participate in the Sterling Savings DCP.

Earnings under the Sterling Savings DCP are based on participants' allocations among the following measurement funds.

Fund	Annualized Return for 2006
Fidelity VIP Money Market	4.62%
Maxim Loomis Sayles Bond	11.10%
DWS Dreman High Return Equity VIP	18.74%
Dreyfus Stock Index Fund	15.47%
Fidelity VIP Contrafund	11.43%
Janus Aspen Series Forty	9.35%
Fidelity VIP Mid Cap	12.40%
DWS Dreman Small Cap Value VIP	25.06%
Dreyfus VIF International Equity	23.31%

Distributions are made under the plan following a participant's death, disability, retirement or termination of service in a lump sum or up to 15 annual installments as elected by the participant. Participants may elect to receive a scheduled distribution during employment with certain exclusions. See discussion under "Deferred Compensation Plans" in the "Components of Compensation" section for a more detailed description of the Sterling Savings DCP.

The following table reflects the accumulated balances under all of the deferred compensation arrangements maintained by Sterling in which the Named Executive Officers participate.

- (2) Ms. Stanley and Messrs. Gilkey, Zuppe, Harlow, Byrne, and Bobbitt are participants in the Old DCP, which has had no additional contributions since 2001 and was segregated into two separate arrangements following the enactment of Code Section 409A. (See Deferred Compensation Plans in the Components of Compensation section.) The balances herein reflect the total amount of earnings and aggregate balances on December 31, 2006 in both the segregated arrangements.

Employment Agreements and Termination Provisions

Harold B. Gilkey and William W. Zuppe. Messrs. Gilkey and Zuppe are each employed under the terms of an employment agreement with Sterling Financial Corporation, both of which continue until December 31, 2009. Under the agreements, Sterling will pay Messrs. Gilkey and Zuppe a minimum annual base salary of \$500,000 and \$375,000, respectively. In addition, Messrs. Gilkey and Zuppe are entitled to receive annual incentive bonus awards equal to a minimum of 10% of base salary and a minimum of 10,000 nonqualified stock options under the stock option plan then in effect.

In the event of a termination from employment due to permanent disability, termination without cause, or constructive discharge, Messrs. Gilkey and Zuppe are entitled to severance pay in an amount equal to their base salary for a period that is the longer of the remaining term or three years. In addition, Messrs. Gilkey and Zuppe would receive any earned but unpaid base salary and incentive bonus, and any amounts (whether vested or not) held in a deferred compensation or retirement plan for their benefit. They are also entitled to receive medical, dental, life, disability, accident, and travel insurance through the end of the Severance Period. Messrs. Gilkey and Zuppe would also be entitled to receive payment for tax preparation and financial planning, an annual physical examination by a physician of his choice, club membership dues, and an automobile allowance (collectively, the perquisites) for the Severance Period. If Messrs. Gilkey and Zuppe had been terminated on December 31, 2006 under circumstances triggering severance payments under their employment agreements, the estimated total value of all perquisites assuming the same 6% discount rate to present value as provided under the employment agreement for a cash-out of perquisites in the event of a termination following a change in control, would be \$77,417 and \$74,146, respectively.

In the event of termination from employment for cause or due to death, or a voluntary termination for reasons other than a constructive discharge or permanent disability, Messrs. Gilkey and Zuppe would receive earned but unpaid base salary and incentive bonus as of the date of termination of employment. No other payments would be made other than stock options or other incentive awards held pursuant to the terms of the grant(s) thereof and vested benefits payable under the terms of any executive or employee benefit programs maintained by Sterling in which they participate.

In the event of termination from employment due to a change in control, Messrs. Gilkey and Zuppe are entitled to receive their respective base salary and incentive bonus amount at the highest annual rate received during employment equal to the amount they would have received had they continued working for a period that is the longer of the remaining term or three years (the Separation Period). In addition, Messrs. Gilkey and Zuppe would receive any earned but as yet unpaid base salary, incentive bonus and any amounts held in a deferred compensation plan or retirement account then in effect at the time of termination as well as an amount equal to Sterling's contribution to its 401(k) plan had they remained employed through the Separation Period. Messrs. Gilkey and Zuppe would also receive the perquisites detailed above and continued medical, dental, life, accident, disability, and travel insurance with coverage equal to the coverage that would have been maintained had they remained an employee for the Separation Period, or, upon the request of Messrs. Gilkey and Zuppe, the present value of such coverage in a lump sum cash

payment using a discount rate of 6% per year compounded monthly. Any stock options and other incentive awards would be fully exercisable during the Separation Period.

If the payments made to Messrs. Gilkey and Zuppe are determined to be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, Sterling would pay an amount determined to equal the excise tax that would be applied to the excess parachute payment as defined in Section 280G of the Internal Revenue Code as well as an amount equal to federal, state, and local income taxes on this additional payment (the Excise Tax Gross-Up)

Table of Contents

such that Messrs. Gilkey and Zuppe would receive the net amount they would have received had no excise tax been applied.

If Messrs. Gilkey and Zuppe had been terminated on December 31, 2006 under circumstances triggering severance payments under their employment agreements, the estimated total value of all severance payments would be \$3,131,938 and \$2,154,221, respectively. This estimate assumes: (i) a 7% increase in medical/dental premiums each year during the Separation Period; (ii) the cost and usage of all perquisites and insurance premiums (other than medical/dental) will not increase over the Separation Period and the annual cost is paid in monthly installments; (iii) all benefits to be paid over time are cashed out at their present value using a discount rate of 6% as provided in the employment agreement; and (iv) that no Excise Tax Gross-Up is triggered because the severance payments do not exceed three times their respective base amounts under 280G.

Heidi B. Stanley, Daniel G. Byrne and John M. Harlow. Ms. Stanley, Mr. Byrne and Mr. Harlow (the Executives) are employed under the terms of an employment agreement with Sterling Financial Corporation. These agreements may be terminated at any time by either the Executives or Sterling. Under the agreements, Sterling will pay the Executives a base salary in an amount that is determined annually by the Chairman and the President of Sterling. In addition, the Executives are eligible to participate in stock option or incentive plans then in effect.

In the event of a termination of employment for any reason other than due to a change in control, Sterling shall have no liability to pay further compensation or any other benefit to the Executives.

In the event of termination of employment by Sterling for any reason, or by the Executives for good cause, within three years following a change in control, the Executives would receive an amount equal to three times their base salary, incentive bonus, and any contributions that would have been made to any benefit plans for which they would have been eligible had they continued employment. In addition, they would be entitled to any benefits in the employee pension plans, employee benefit plans and incentive plans in which they participate as determined by the plan then in effect. Any stock options held by the Executives at the time of termination would become fully vested and any restrictions on restricted stock may be accelerated, subject to the approval of the Board.

If the payments made to the Executives are determined to be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, Sterling would pay the Excise Tax Gross-Up equal the excise tax that would be applied to the excess payment as defined in Section 280G of the Internal Revenue Code as well as an amount equal to federal, state, and local income taxes on this additional payment such that they would receive the net amount that he or she would have received had no excise tax been applied.

If Ms. Stanley and Messrs. Byrne and Harlow had been terminated on December 31, 2006 under circumstances triggering severance payments under their employment agreements, the estimated total value of all severance payments would be \$2,012,887, \$1,304,001 and \$1,295,629, respectively. This estimate assumes: (i) a 20% excise tax rate and a 35% income tax rate for purposes of the Excise Tax Gross-Up and (ii) all benefits included in the severance payments are based on the 2006 cost of such benefit.

Donn C. Costa. Mr. Costa is employed under the terms of an employment agreement with Sterling Financial Corporation, which will continue until December 31, 2009, provided, however, that the term shall be automatically extended for two separate and consecutive additional one-year periods unless Sterling provides Mr. Costa notice that this agreement will not be extended by October 1 of the year prior to the applicable one-year extension period. Under the terms of this agreement, Mr. Costa will receive a base salary of \$370,000 annually. In addition, a contribution to the Sterling Executive Deferred Compensation Plan has been made in the amount of \$300,000, which amount will vest over a four-year period in increments of 25% per year. Mr. Costa is also eligible for an annual discretionary bonus in accordance with the standard practices of Sterling for its employees at the senior vice president level.

In the event Mr. Costa's employment is terminated by Sterling for any reason other than for cause or by Mr. Costa for good cause, either during the term of the agreement or within two years following a change in control, Mr. Costa will receive an amount equal to two times his base salary. In addition, at the Board's discretion, any stock options held by Mr. Costa at the time of such termination after a change in control may become fully vested and any restrictions on restricted stock may be accelerated. Mr. Costa will also receive continuation of medical benefits

Table of Contents

under the provisions of the Consolidated Omnibus Budget Reconciliation Act of 1985 at Sterling's expense if his employment terminates for any reason other than gross misconduct.

If the payments made to Mr. Costa in conjunction with a change in control are determined to constitute a parachute payment under 280G of the Internal Revenue Code, he may elect to receive either one dollar less than three times his base amount, as defined under 280G of the Internal Revenue Code, or 2.99 times his base amount as the sole benefit payable under his employment agreement.

If Mr. Costa had been terminated on December 31, 2006 under circumstances triggering severance payments under his employment agreement, the estimated total value of all severance payments assuming (i) no reduction in his severance payments is triggered due to the application of Code Section 280G and (ii) the present value of his medical benefits is calculated for coverage over the COBRA continuation period of 18 months based on a 6% discount rate would be \$1,379,654. The average medical premium used for the present value calculation was determined assuming a 7% annual increase in premiums under Sterling's medical plan.

Determination of Payouts. The determination of payout of post-termination compensation, benefits, and perquisites for the Executive Officers is based on the terms of each individual employment contract in conjunction with plan documents governing the individual benefit plans.

The calculation of payouts for benefits is based on current total cost for each benefit (employer and employee) projected over three years and discounted for a cash payout where this option is specified in the contract. The 401(k) match is determined by applying the Sterling match formula to the IRS contribution limit, projecting an increase in those limits of \$500 per year over the three-year period.

Retirement benefits are calculated based on the terms described in the plan documents and according to any vesting, age, or service requirements. Where applicable, the benefit payout amount is reduced to reflect the actual vested amount to be received in any of the termination scenarios.

Conditions and Obligations. Mr. Gilkey and Mr. Zuppe are bound by a non-compete clause for a period of two years following termination of employment. These executives may not, without express prior written approval of Sterling's Board, directly or indirectly own or hold any proprietary interest in, or be employed by or receive remuneration from, any corporation, partnership, sole proprietorship or other entity engaged in competition with Sterling or any of its subsidiaries, other than severance-type or retirement-type benefits from entities constituting prior employers. They may not solicit any customer or client of Sterling or any of its subsidiaries for a competitor organization. They may not act on behalf of any competitor to interfere with the relationship between Sterling or its subsidiaries and their employees during the non-compete period.

Ms. Stanley, Mr. Byrne, and Mr. Harlow are bound by a non-compete clause for a period of one year following termination of employment in which they may not, without prior express written approval of Sterling's Board, directly or indirectly own or hold any proprietary interest in any corporate, partnership, sole proprietorship or other entity engaged in competition with Sterling or any of its affiliates. For a period of two years following termination of employment, these executives may not solicit any customer or client of Sterling for a competitor, act on behalf of any competitor to interfere with the relationship between Sterling, its subsidiaries or affiliates and their employees, or solicit employees of Sterling, its subsidiaries or affiliates for new employment. Mr. Costa is also bound by similar non-compete and non-solicitation clauses, but both clauses apply for a period of two years following his termination of employment during the term of his employment agreement. However, in the event the term of the agreement is allowed to expire without renewal by Sterling, the non-compete and non-solicitation will only apply if Sterling pays Mr. Costa an amount equal to two times his base salary.

Upon a violation of the non-compete provision, Sterling's obligation to make payments, deliver shares of stock or provide for any benefits under the employment agreements, except to the extent vested and exercisable, shall cease.

4. ADMINISTRATION OF THE PLAN.

(a) *Procedure*.

(i) *Multiple Administrative Bodies*. Different Committees with respect to different groups of Service Providers may administer the Plan.

(ii) *Section 162(m)*. To the extent that the Administrator determines it to be desirable to qualify Options granted hereunder as performance-based compensation within the meaning of Section 162(m) of the Code, the Plan will be administered by a Committee of two or more outside directors within the meaning of Section 162(m) of the Code.

(iii) *Rule 16b-3*. To the extent desirable to qualify transactions hereunder as exempt under Rule 16b-3, the transactions contemplated hereunder will be structured to satisfy the requirements for exemption under Rule 16b-3.

(iv) *Other Administration*. Other than as provided above, the Plan will be administered by (A) the Board or (B) a Committee, which committee will be constituted to satisfy Applicable Laws.

(b) *Powers of the Administrator*. Subject to the provisions of the Plan, and in the case of a Committee, subject to the specific duties delegated by the Board to such Committee, the Administrator will have the authority, in its discretion:

(i) to determine the Fair Market Value;

(ii) to select the Service Providers to whom Awards may be granted hereunder;

(iii) to determine the number of Shares to be covered by each Award granted hereunder;

(iv) to approve forms of agreement for use under the Plan;

(v) to determine the terms and conditions, not inconsistent with the terms of the Plan, of any Award granted hereunder. Such terms and conditions include, but are not limited to, the exercise price, the time or times when Awards may be exercised (which may be based on performance criteria), any vesting acceleration or waiver of forfeiture restrictions, and any restriction or limitation regarding any Award or the Shares relating thereto, based in each case on such factors as the Administrator will determine;

(vi) to institute an Exchange Program;

(vii) to construe and interpret the terms of the Plan and Awards granted pursuant to the Plan;

A-4

Table of Contents

(viii) to prescribe, amend and rescind rules and regulations relating to the Plan, including rules and regulations relating to sub-plans established for the purpose of satisfying applicable foreign laws;

(ix) to modify or amend each Award (subject to Section 20(c) of the Plan), including the discretionary authority to extend the post-termination exercisability period of Awards longer than is otherwise provided for in the Plan (subject to compliance with Code Section 409A); provided, however, that notwithstanding any contrary provision in this Plan, neither the Administrator nor the Board may directly or indirectly reduce the exercise price of any Award without the approval of the Company's shareholders;

(x) to allow Participants to satisfy withholding tax obligations in such manner as prescribed in Section 15;

(xi) to authorize any person to execute on behalf of the Company any instrument required to effect the grant of an Award previously granted by the Administrator;

(xii) to allow a Participant to defer the receipt of the payment of cash or the delivery of Shares that would otherwise be due to such Participant under an Award; and

(xiii) to make all other determinations deemed necessary or advisable for administering the Plan.

(c) *Effect of Administrator's Decision.* The decisions, determinations and interpretations made by the Administrator in good faith shall not be subject to review by any person and shall be final and binding on all Participants and any other holders of Awards. Notwithstanding any provision of the Plan to the contrary, administration of the Plan shall at all times be limited by the requirement that any administrative action or exercise of discretion shall be void (or suitably modified when possible) if necessary to avoid the application to any Participant of taxation under Section 409A of the Code.

(d) *No Liability.* No person or member of a Committee that is acting as the Administrator shall be liable for any action or determination made in good faith by the Administrator with respect to this Plan or any Award under this Plan, and, to the fullest extent permitted by the Company's Restated Articles of Incorporation and Bylaws, the Company shall indemnify each person or member of a Committee that is acting as the Administrator.

5. *ELIGIBILITY.* Non-Qualified Stock Options, Restricted Stock, Restricted Stock Units, Stock Appreciation Rights and Performance Shares may be granted to Service Providers. Incentive Stock Options may be granted only to Employees. Subject to the provisions of Section 3(d), no person will be eligible to receive Awards under this Plan representing or equivalent to more than **[two hundred thousand (200,000)]** Shares in any calendar year. A person may be granted more than one Award under this Plan.

6. *STOCK OPTIONS.*

(a) *Limitations.* Each Option will be designated in the Award Agreement as either an Incentive Stock Option or a Non-Qualified Stock Option. However, notwithstanding such designation, to the extent that the aggregate Fair Market Value of the Shares with respect to which Incentive Stock Options are exercisable for the first time by the Participant during any calendar year (under all plans of the Company and any Parent or Subsidiary) exceeds \$100,000, that portion of such Options pursuant to which the aggregate Fair Market Value of the underlying Shares exceeds such \$100,000 limitation will be treated as Non-Qualified Stock Options. For purposes of this Section 6(a), Incentive Stock Options will be taken into account in the order in which they were granted. The Fair Market Value of the Shares will be determined as of the time the Option with respect to such Shares is granted. In the event that the Code or the regulations promulgated thereunder are later amended to provide for a different limit on the Fair Market Value of

Shares permitted to be subject to Incentive Stock Options, such different limit will be automatically incorporated herein and will apply to any Options granted after the effective date of such amendment.

(b) Term of Option. The term of each Option will be stated in the Award Agreement. In the case of an Incentive Stock Option, the term will be ten (10) years from the date of grant or such shorter term as may be provided in the Award Agreement. Moreover, in the case of an Incentive Stock Option granted to a Participant who, at the time the Incentive Stock Option is granted, owns stock representing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or any Parent or Subsidiary, the term of the Incentive Stock Option will be five (5) years from the date of grant or such shorter term as may be provided in the Award Agreement.

Table of Contents

(c) Option Exercise Price and Consideration.

(i) Exercise Price. The per share exercise price for the Shares to be issued pursuant to the exercise of an Option will be determined by the Administrator, subject to the following:

(1) In the case of an Incentive Stock Option

(A) granted to an Employee who, at the time the Incentive Stock Option is granted, owns stock representing more than ten percent (10%) of the voting power of all classes of stock of the Company or any Parent or Subsidiary, the per Share exercise price will be no less than 110% of the Fair Market Value per Share on the date of grant.

(B) granted to any Employee other than an Employee described in paragraph (A) immediately above, the per Share exercise price will be no less than 100% of the Fair Market Value per Share on the date of grant.

(C) Notwithstanding the foregoing, Incentive Stock Options may be granted with a per Share exercise price of less than 100% of the Fair Market Value per Share on the date of grant pursuant to a transaction described in, and in a manner consistent with, Section 424(a) of the Code.

(2) In the case of a Non-Qualified Stock Option, the per Share exercise price will be no less than 100% of the Fair Market Value per Share on the date of grant.

(ii) Waiting Period and Exercise Dates. At the time an Option is granted, the Administrator will fix the period within which the Option may be exercised and will determine any conditions that must be satisfied before the Option may be exercised.

(iii) Form of Consideration. The Administrator will determine the acceptable form of consideration for exercising an Option, including the method of payment. In the case of an Incentive Stock Option, the Administrator will determine the acceptable form of consideration at the time of grant. The consideration for any Option granted hereunder may consist entirely of:

(1) cash;

(2) check;

(3) other Shares, provided Shares acquired directly or indirectly from the Company, (A) have been owned by the Participant and not subject to substantial risk of forfeiture for more than six months on the date of surrender, and (B) have a Fair Market Value on the date of surrender equal to the aggregate exercise price of the Shares as to which said Option will be exercised;

(4) consideration received by the Company under a broker-assisted cashless exercise program;

(5) any combination of the foregoing methods of payment; or

(6) such other consideration and method of payment for the issuance of Shares to the extent permitted by Applicable Laws.

(d) Exercise of Option.

(i) *Procedure for Exercise; Rights as a Stockholder.* Any Option granted hereunder will be exercisable according to the terms of the Plan and at such times and under such conditions as determined by the Administrator and set forth in the Award Agreement. An Option may not be exercised for a fraction of a Share.

An Option will be deemed exercised when the Company receives: (i) notice of exercise (in such form as the Administrator may specify from time to time) from the person entitled to exercise the Option, and (ii) full payment for the Shares with respect to which the Option is exercised (together with all applicable withholding taxes). Full payment may consist of any consideration and method of payment authorized by the Administrator and permitted by the Award Agreement and the Plan. Shares issued upon exercise of an Option will be issued in the name of the Participant or, if requested by the Participant, in the name of the Participant and his or her spouse. Until the Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other distribution

Table of Contents

rights as a shareholder will exist with respect to the Optioned Stock, notwithstanding the exercise of the Option. The Company will issue (or cause to be issued) such Shares promptly after the Option is exercised. No adjustment will be made for a dividend or other distribution right for which the record date is prior to the date the Shares are issued, except as provided in Section 3(d) of the Plan.

Exercising an Option in any manner will decrease the number of Shares thereafter available, both for purposes of the Plan and for sale under the Option, by the number of Shares as to which the Option is exercised.

(ii) Termination of Relationship as a Service Provider. If a Participant ceases to be a Service Provider, other than upon the Participant's death or Disability, the Participant may exercise his or her Option within such period of time as is specified in the Award Agreement to the extent that the Option is vested on the date of termination (but in no event later than the expiration of the term of such Option as set forth in the Award Agreement). In the absence of a specified time in the Award Agreement, the Option will remain exercisable for three (3) months following the Participant's termination. Unless otherwise provided by the Administrator, if on the date of termination the Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will revert to the Plan. If after termination the Participant does not exercise his or her Option within the time specified by the Administrator, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

(iii) Disability of Participant. If a Participant ceases to be a Service Provider as a result of the Participant's Disability (or if such Disability occurs during the period of time provided under Section 6(d)(ii) for exercising an option following a Participant's termination other than upon death or Disability), the Participant may exercise his or her Option within such period of time as is specified in the Award Agreement to the extent the Option is vested on the date of termination (but in no event later than the expiration of the term of such Option as set forth in the Award Agreement). In the absence of a specified time in the Award Agreement, the Option will remain exercisable for twelve (12) months following the Participant's Disability. Unless otherwise provided by the Administrator, if on the date of termination the Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will revert to the Plan. If after termination the Participant does not exercise his or her Option within the time specified herein, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

(iv) Death of Participant. If a Participant dies while a Service Provider (or during the period of time provided under Sections 6(d)(ii) or (iii) for exercising an Option following a Participant's Disability or termination other than for death or Disability), the Option may be exercised following the Participant's death within such period of time as is specified in the Award Agreement to the extent that the Option is vested on the date of death (but in no event may the option be exercised later than the expiration of the term of such Option as set forth in the Award Agreement), by the Participant's designated beneficiary, provided such beneficiary has been designated prior to Participant's death in a form acceptable to the Administrator. If no such beneficiary has been designated by the Participant, then such Option may be exercised by the personal representative of the Participant's estate or by the person(s) to whom the Option is transferred pursuant to the Participant's will or in accordance with the laws of descent and distribution. In the absence of a specified time in the Award Agreement, the Option will remain exercisable for twelve (12) months following Participant's death. Unless otherwise provided by the Administrator, if at the time of death Participant is not vested as to his or her entire Option, the Shares covered by the unvested portion of the Option will immediately revert to the Plan. If the Option is not so exercised within the time specified herein, the Option will terminate, and the Shares covered by such Option will revert to the Plan.

7. RESTRICTED STOCK.

(a) Grant of Restricted Stock. Subject to the terms and provisions of the Plan, the Administrator, at any time and from time to time, may grant Shares of Restricted Stock to Service Providers in such amounts as the Administrator, in its sole discretion, will determine.

(b) Restricted Stock Agreement. Each Award of Restricted Stock will be evidenced by an Award Agreement that will specify the Period of Restriction, the number of Shares granted, and such other terms and conditions as the

A-7

Table of Contents

Administrator, in its sole discretion, will determine. Unless the Administrator determines otherwise, the Company as escrow agent will hold Shares of Restricted Stock until the restrictions on such Shares have lapsed.

(c) Transferability. Except as provided in this Section 7, Shares of Restricted Stock may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated until the end of the applicable Period of Restriction.

(d) Other Restrictions. The Administrator, in its sole discretion, may impose such other restrictions on Shares of Restricted Stock as it may deem advisable or appropriate.

(e) Removal of Restrictions. Except as otherwise provided in this Section 7, Shares of Restricted Stock covered by each Restricted Stock grant made under the Plan will be released from escrow as soon as practicable after the last day of the Period of Restriction or at such other time as the Administrator may determine. The Administrator, in its discretion, may accelerate the time at which any restrictions will lapse or be removed.

(f) Voting Rights. During the Period of Restriction, Service Providers holding Shares of Restricted Stock granted hereunder may exercise full voting rights with respect to those Shares, unless the Administrator determines otherwise.

(g) Dividends and Other Distributions. During the Period of Restriction, Service Providers holding Shares of Restricted Stock will be entitled to receive all dividends and other distributions paid with respect to such Shares unless otherwise provided in the Award Agreement. If any such dividends or distributions are paid in Shares, the Shares will be subject to the same restrictions on transferability and forfeitability as the Shares of Restricted Stock with respect to which they were paid.

(h) Return of Restricted Stock to Company. On the date set forth in the Award Agreement, the Restricted Stock for which restrictions have not lapsed will revert to the Company and again will become available for grant under the Plan.

8. RESTRICTED STOCK UNITS

(a) Grant. Restricted Stock Units may be granted at any time and from time to time as determined by the Administrator. After the Administrator determines that it will grant Restricted Stock Units under the Plan, it shall advise the Participant in an Award Agreement of the terms, conditions, and restrictions related to the grant, including the number of Restricted Stock Units.

(b) Vesting Criteria and Other Terms. The Administrator shall set vesting criteria in its discretion, which, depending on the extent to which the criteria are met, will determine the number of Restricted Stock Units that will be paid out to the Participant. The Administrator may set vesting criteria based upon the achievement of Company-wide, business unit, or individual goals (including, but not limited to, continued employment), or any other basis determined by the Administrator in its discretion.

(c) Earning Restricted Stock Units. Upon meeting the applicable vesting criteria, the Participant shall be entitled to receive a payout as specified in the Restricted Stock Unit Award Agreement. Notwithstanding the foregoing, at any time after the grant of Restricted Stock Units, the Administrator, in its sole discretion, may reduce or waive any vesting criteria that must be met to receive a payout.

(d) Form and Timing of Payment. Payment of earned Restricted Stock Units shall be made as soon as practicable after the date(s) set forth in the Restricted Stock Unit Award Agreement. The Administrator may settle earned Restricted Stock Units in Shares, in cash or in a combination thereof, at the Administrator's discretion.

(e) Cancellation. On the date set forth in the Restricted Stock Unit Award Agreement, all unearned Restricted Stock Units shall be forfeited to the Company.

9. STOCK APPRECIATION RIGHTS.

(a) Grant of SARs. Subject to the terms and conditions of the Plan, a SAR may be granted to Service Providers at any time and from time to time as determined by the Administrator, in its sole discretion.

Table of Contents

(b) *Exercise Price and Other Terms.* The per Share exercise price for the Shares to be issued pursuant to exercise of an SAR shall be determined by the Administrator and shall be no less than 100% of the Fair Market Value per Share on the date of grant. Otherwise, the Administrator, subject to the provisions of the Plan, shall have complete discretion to determine the terms and conditions of SARs granted under the Plan including the number of SARs to be granted; provided, however, that no SAR may have a term of more than ten (10) years from the date of grant.

(c) *SAR Agreement.* Each SAR grant will be evidenced by an Award Agreement that will specify the exercise price, the term of the SAR, the conditions of exercise, and such other terms and conditions as the Administrator, in its sole discretion, will determine.

(d) *Expiration of SARs.* An SAR granted under the Plan will expire upon the date determined by the Administrator, in its sole discretion, and set forth in the Award Agreement. Notwithstanding the foregoing, the rules of Section 6(d) also will apply to SARs.

(e) *Payment of SAR Amount.* Upon exercise of an SAR, a Participant will be entitled to receive payment from the Company in an amount determined by multiplying:

- (i) The difference between the Fair Market Value of a Share on the date of exercise over the exercise price; times
- (ii) The number of Shares with respect to which the SAR is exercised.

The payment upon SAR exercise may be in cash, in Shares or in a combination thereof, in the Administrator's sole discretion.

10. **PERFORMANCE SHARES.**

(a) *Grant of Performance Shares.* Subject to the terms and conditions of the Plan, Performance Shares may be granted to Participants at any time and on such terms and conditions as shall be determined by the Administrator, in its sole discretion. The Administrator shall determine (i) the number of Shares subject to a Performance Share award granted to any Participant, and (ii) the conditions that must be satisfied, which typically will be based principally or solely on achievement of performance milestones but may include a service-based component, upon which is conditioned the grant or vesting of Performance Shares. Performance Shares shall be granted in the form of units to acquire Shares. Each such unit shall be the equivalent of one Share for purposes of determining the number of Shares subject to an Award. Until the Shares are issued, no right to vote or receive dividends or any other rights as a shareholder shall exist with respect to the units to acquire Shares.

(b) *Other Terms.* The Administrator, subject to the provisions of the Plan, shall have complete discretion to determine the terms and conditions of Performance Shares granted under the Plan. Performance Share grants shall be subject to the terms, conditions, and restrictions determined by the Administrator at the time the Performance Share is awarded, which may include such performance-based milestones as are determined appropriate by the Administrator. Performance Shares may be paid in Shares, in cash or in a combination thereof.

(c) *Performance Share Award Agreement.* Each Performance Share grant shall be evidenced by an Award Agreement that shall specify such other terms and conditions as the Administrator, in its sole discretion, shall determine.

11. **GRANTS TO OUTSIDE DIRECTORS.**

(a) Types of Awards. Outside Directors are eligible to receive any type of Award offered under this Plan, except Incentive Stock Options. Awards pursuant to this Section 11 may be automatically made pursuant to policy adopted by the Board, or made from time to time as determined in the discretion of the Board.

Table of Contents

(b) Eligibility. Awards subject to this Section 11 shall be granted only to Outside Directors. An Outside Director who is elected or re-elected as a member of the Board will be eligible to receive an Award under this Section 11.

(c) Vesting and Exercisability. Except as set forth in Section 14(c), Awards shall vest and be exercisable as determined by the Board.

(d) Exercise Price. The exercise price of an Option or a SAR granted to an Outside Director shall be not less than the Fair Market Value of the Shares at the time that such Option or SAR is granted.

12. LEAVES OF ABSENCE. Unless the Administrator provides otherwise, vesting of Awards granted hereunder will be suspended during any unpaid leave of absence. A Service Provider will not cease to be an Employee in the case of (i) any leave of absence approved by the Company or (ii) transfers between locations of the Company or between the Company, its Parent, or any Subsidiary. For purposes of Incentive Stock Options, no such leave may exceed three (3) months, unless reemployment upon expiration of such leave is provided by statute or contract. If reemployment upon expiration of a leave of absence approved by the Company is not so provided, then any Incentive Stock Option held by the Participant will cease to be treated as an Incentive Stock Option and will be treated for tax purposes as a Non-Qualified Stock Option if it is not exercised within three (3) months of the day after the expiration of the initial three (3) month leave period.

13. TRANSFERABILITY OF AWARDS. Unless determined otherwise by the Administrator, an Award may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the Participant, only by the Participant. If the Administrator makes an Award transferable, such Award will contain such additional terms and conditions as the Administrator deems appropriate.

14. DISSOLUTION OR LIQUIDATION; MERGER OR CHANGE IN CONTROL.

(a) Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Administrator will notify each Participant as soon as practicable prior to the effective date of such proposed transaction. To the extent it has not been previously exercised, an Award will terminate immediately prior to the consummation of such proposed action.

(b) Change in Control. In the event of a merger or Change in Control, each outstanding Award will be treated as the Administrator determines, including, without limitation, that each Award be assumed or an equivalent option or right substituted by the successor corporation or a Parent or Subsidiary of the successor corporation. The Administrator shall not be required to treat all Awards similarly in the transaction.

In the event that the successor corporation does not assume or substitute for the Award, the Participant will fully vest in and have the right to exercise all of his or her outstanding Options and Stock Appreciation Rights, including Shares as to which such Awards would not otherwise be vested or exercisable, all restrictions on Restricted Stock and Restricted Stock Units will lapse, and, with respect to Awards with performance-based vesting, all performance goals or other vesting criteria will be deemed achieved at 100% on-target levels and all other terms and conditions met. In addition, if an Option or Stock Appreciation Right is not assumed or substituted in the event of a Change in Control, the Administrator will notify the Participant in writing or electronically that the Option or Stock Appreciation Right will be exercisable for a period of time determined by the Administrator in its sole discretion, and the Option or Stock Appreciation Right will terminate upon the expiration of such period.

For the purposes of this subsection (b), an Award will be considered assumed if, following the Change in Control, the Award confers the right to purchase or receive, for each Share subject to the Award immediately prior to the Change in Control, the consideration (whether stock, cash, or other securities or property) received in the Change in Control by holders of Common Stock for each Share held on the effective date of the transaction (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding Shares); provided, however, that if such consideration received in the Change in Control is not solely common stock of the successor corporation or its Parent, the Administrator may, with the consent of the successor corporation, provide for the consideration to be received upon the exercise of an Option or Stock Appreciation Right or upon the payout of a Restricted Stock Unit or Performance Share, for each Share subject to such Award, to be

solely common stock of the successor corporation or its Parent equal in fair market value to the per share consideration received by holders of Common Stock in the Change in Control.

Notwithstanding anything in this Section 14(b) to the contrary, an Award that vests, is earned or paid-out upon the satisfaction of one or more performance goals will not be considered assumed if the Company or its successor modifies any of such performance goals without the Participant's consent; provided, however, a modification to such performance goals only to reflect the successor corporation's post-Change in Control corporate structure will not be deemed to invalidate an otherwise valid Award assumption.

(c) Outside Director Awards. With respect to Awards granted to an Outside Director that are assumed or substituted for, if on the date of or following such assumption or substitution the Participant's status as a Director or a director of the successor corporation, as applicable, is terminated other than upon a voluntary resignation by the Participant (unless such resignation is at the request of the acquirer), then the Participant will fully vest in and have the right to exercise Options and/or Stock Appreciation Rights as to all of the Optioned Stock, including Shares as to which such Awards would not otherwise be vested or exercisable, all restrictions on Restricted Stock and Restricted Stock Units will lapse, and, with respect to Performance Shares, all performance goals or other vesting criteria will be deemed achieved at 100% on-target levels and all other terms and conditions met.

(d) Right of Cash-Out. If approved by the Board prior to or within thirty (30) days after such time as a Change in Control shall be deemed to have occurred, the Board shall have the right for a forty-five (45) day period immediately following the date that the Change in Control is deemed to have occurred to require all, but not less than all, Participants to transfer and deliver to the Company all Awards previously granted to Participants in exchange for an amount equal to the cash value (defined below) of the Awards. Such right shall be exercised by written notice to all Participants. For purposes of this Section 14(d), the cash value of an Award shall equal the sum of (i) all cash to which the Participant would be entitled upon settlement or exercise of such Award and (ii) the excess of the market value (defined below) per share over the option price, if any, multiplied by the number of shares subject to such Award. For purposes of the preceding sentence, market value per share shall mean the higher of (i) the average of the Fair Market Value per share on each of the five trading days immediately following the date a Change in Control is deemed to have occurred or (ii) the highest price, if any, offered in connection with the Change in Control. The amount payable to each Participant by the Company pursuant to this Section 14(d) shall be in cash or by certified check and shall be reduced by any taxes required to be withheld.

15. TAX WITHHOLDING.

(a) Withholding Requirements. Prior to the delivery of any Shares or cash pursuant to an Award (or exercise thereof), the Company will have the power and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy federal, state, local, foreign or other taxes (including the Participant's FICA obligation) required to be withheld with respect to such Award (or exercise thereof).

(b) Withholding Arrangements. The Administrator, in its sole discretion and pursuant to such procedures as it may specify from time to time, may permit a Participant to satisfy such tax withholding obligation, in whole or in part by (a) paying cash, (b) electing to have the Company withhold otherwise deliverable cash or Shares having a Fair Market Value equal to the minimum statutory amount required to be withheld, or (c) delivering to the Company already-owned Shares having a Fair Market Value equal to the minimum statutory amount required to be withheld. The Fair Market Value of the Shares to be withheld or delivered will be determined as of the date that the taxes are required to be withheld.

16. SUPPLEMENTAL PAYMENT ON EXERCISE OR VESTING OF AWARDS. The Administrator, either at the time of grant or at the time of exercise or vesting, as the case may be, of any Award granted hereunder (other than an

Incentive Stock Option that continues to qualify as such at the time of exercise), may provide for a Supplemental Payment by Sterling to the Participant in the amount specified by the Administrator, which shall not exceed the amount necessary to pay the federal income tax payable with respect to both the exercise or vesting of the Award and the receipt of the Supplemental Payment, assuming the holder is taxed at the maximum effective federal income tax rate applicable thereto. The Administrator shall have the discretion to grant Supplemental Payments that are payable solely in cash or Supplemental Payments that are payable in cash, Common Stock, or a combination of

both, as determined by the Committee at the time of payment. The Supplemental Payment shall be made within 30 days of the date that such Award is exercised or vests.

17. NO EFFECT ON EMPLOYMENT OR SERVICE. Neither the Plan nor any Award will confer upon a Participant any right with respect to continuing the Participant's relationship as a Service Provider with the Company, nor will they interfere in any way with the Participant's right or the Company's right to terminate such relationship at any time, with or without cause, to the extent permitted by Applicable Laws.

18. DATE OF GRANT. The date of grant of an Award will be, for all purposes, the date on which the Administrator makes the determination granting such Award, or such other later date as is determined by the Administrator. Notice of the determination will be provided to each Participant within a reasonable time after the date of such grant.

19. TERM OF PLAN. Subject to Section 24 of the Plan, the Plan will become effective upon its adoption by the Board. It will continue in effect for a term of ten (10) years unless terminated earlier pursuant to Section 20 of the Plan.

20. AMENDMENT AND TERMINATION OF THE PLAN.

(a) Amendment and Termination. The Board may at any time amend, alter, suspend or terminate the Plan.

(b) Shareholder Approval. The Company will obtain shareholder approval of any Plan amendment to the extent necessary and desirable to comply with Applicable Laws.

(c) Effect of Amendment or Termination. No amendment, alteration, suspension or termination of the Plan will impair the rights of any Participant, unless mutually agreed otherwise between the Participant and the Administrator, which agreement must be in writing and signed by the Participant and the Company. Termination of the Plan will not affect the Administrator's ability to exercise the powers granted to it hereunder with respect to Awards granted under the Plan prior to the date of such termination.

21. CONDITIONS UPON ISSUANCE OF SHARES.

(a) Legal Compliance. Shares will not be issued pursuant to the exercise of an Award unless the exercise of such Award and the issuance and delivery of such Shares will comply with Applicable Laws and will be further subject to the approval of counsel for the Company with respect to such compliance.

(b) Investment Representations. As a condition to the exercise of an Award, the Company may require the person exercising such Award to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if counsel for the Company deems that such a representation is required.

22. INABILITY TO OBTAIN AUTHORITY. The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, will relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority will not have been obtained.

23. GOVERNING LAW. The Plan shall be construed in accordance with the laws of the State of Washington, except as superseded by federal law, and in accordance with applicable provisions of the Code and regulations or other authority issued thereunder by the appropriate governmental authority.

24. SHAREHOLDER APPROVAL. The Plan will be subject to approval by the shareholders of the Company within twelve (12) months after the date the Plan is adopted. Such shareholder approval will be obtained in the manner and to the degree required under Applicable Laws.
