Preliminary Prospectus
SRM Networks, Inc.,
a Nevada corporation

3,000,000 Shares of Common Stock

We are an Internet solutions company that specializes in website hosting and development services. We are offering for sale 3,000,000 shares of our common stock in a self-underwritten offering directly to the public. We are offering the shares without any underwriting discounts or commissions. The purchase price is \$0.05 per share. If all of the shares offered by us are purchased, the proceeds to us will be \$150,000. We may receive less than \$150,000 if all of the offered shares are not purchased.

This is our initial public offering and no public market currently exists for shares of our common stock. We have not applied for listing or quotation on any public market. We do not expect a liquid market to develop for several years, if at all.

After the offering, our management will own 45% of the issued and outstanding shares of common stock if all of the offered shares are sold. Investors may not revoke their subscription. The funds that are raised in this offering will not be deposited in an escrow account and will be available for immediate utilization by our management.

See "Risk Factors" on Pages 4 to 9 for factors to be considered before investing in the shares of our common stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of the prospectus. Any representation to the contrary is a criminal offense.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

The information in this prospectus is not complete and may be changed. We will not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

The date of this prospectus is September 28, 2001.
Subject to completion.

required to deliver a prospectus. This is in addition to the dealers' obligations to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

3

Prospectus Summary

Our Business:

Our principal business address is 1241 North Central Avenue, Suite 7, Glendale, California 91202; our telephone number (818) 243-1181.

We are an Internet solutions company that specializes in website hosting and development services. Website hosting encompasses a broad range of possible services, including basic services, such as simply posting a customer's website on the Internet using the hosting company's computer hardware and software, and enhanced services such as enabling financial transactions over the Internet, email, audio and video capabilities. Enhanced services may be developed internally by the web hosting company or purchased from external sources and resold by the web hosting company.

We offer, on a resale basis, a range of basic and enhanced web hosting services to businesses wishing to place their website on the Internet. These businesses often decide to use a web hosting company in order to avoid the financial cost, time and expertise requirements of hosting the website and obtaining enhanced services themselves. We focus on meeting the needs of small and medium-sized businesses and individuals who are establishing a commercial or informational presence on the Internet.

Our state of organization:

We were incorporated in Nevada on June 8, 2001.

Number of shares being offered:

We are offering for sale 3,000,000 shares of our common stock. We will sell the shares we are registering only to those individuals who have received a copy of the prospectus. Investors will experience dilution of 40% or \$0.02 per share if all of the offered shares are

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

sold.

Number of shares outstanding after the offering:	2,500,000 shares of our common stock are currently issued and outstanding. After the offering, 5,500,000 shares of our common stock will be issued and outstanding.
Estimated use of proceeds:	We will receive \$150,000 if all of the offered shares are sold. We intend to use any proceeds from such sale for marketing expenses and for working capital.

RISK FACTORS

In addition to the other information in this prospectus, the following risk factors should be considered carefully in evaluating our business before purchasing any of our shares of common stock. A purchase of our common stock is speculative in nature and involves a lot of risks. No purchase of our common stock should be made by any person who is not in a position to lose the entire amount of his investment.

Risks related to our business

We have a limited operating history upon which an evaluation of our prospects can be made.

We were incorporated in June 2001. Our lack of operating history makes an evaluation of our business and prospects very difficult. Our prospects must be considered speculative, considering the risks, expenses, and difficulties frequently encountered in the establishment of a new business. We cannot be certain that our business will be successful or that we will generate significant revenues.

4

We have incurred a net loss since inception and expect to incur net losses for the foreseeable future.

As of June 30, 2001, our losses since inception were approximately \$2,135. We expect to incur significant operating and capital expenditures and, as a result, we expect significant net losses in the future. We will need to generate significant revenues to achieve and maintain profitability. We may not be able to generate sufficient revenues to achieve profitable operations.

Our ability to succeed is uncertain because we currently have limited sources of revenue and minimal marketing activities due to the lack of significant revenues. Therefore, investors may lose all or part of their investment, if we do not raise funds in this offering or generate revenues.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

We have not yet engaged in any significant marketing of the products and services. Our marketing activities are significantly limited and, to fund more sophisticated marketing activities, we need to raise funds in this offering or generate revenues. Our inability to raise sufficient funds in this offering or generate revenues may significantly hinder our ability to conduct marketing activities.

We are heavily dependent on the services of one provider for Internet access and hosting services, which we resell under our name.

Our provider may experience disruptions of service or have limited capacity, which could disrupt our services. In the event of an extended disruption, we may not be able to replace or supplement these services on a timely basis or at all. Because we rely on third-party Internet service provider companies for our backbone connections to the Internet, we face limitations on our ability to serve our subscribers, including the following:

- o we do not control decisions regarding availability of service at any particular time;
- o we may not be able to deploy new technologies because our providers may not be able to support that technology; and
- o we may not be able to negotiate favorable interconnectivity agreements with other Internet service providers.

The Internet industry is experiencing consolidation that may intensify competition, which may make it more difficult for us to generate revenues.

The Internet industry has recently experienced substantial consolidation and a proliferation of strategic transactions. We expect this consolidation and strategic partnering to continue. Acquisitions or strategic partnerships could harm us in a number of ways, including:

- o competitors could acquire or partner with companies with which we have strategic partnerships and discontinue our strategic partnerships, resulting in the loss of distribution opportunities for our services;
- o our competitors could merge with each other or third-parties with significant resources and experience, thereby increasing their ability to compete with our services; and
- o a competitor could acquire or partner with one of our key suppliers.

Any of these factors could materially adversely affect our operations and, consequently, our business, operating results and financial condition. We cannot guaranty that we will be able either to develop services comparable or superior to services offered by our current or future competitors or to adapt to new technologies, evolving industry standards and changes in customer requirements. Increased competition, particularly online competition, may result in price reductions, reduced margins and loss of market share, any or all of which could harm our business.

We anticipate that we may need to raise additional capital to market our products and services. Our failure to raise additional capital will significantly affect our ability to fund our proposed marketing activities.

To market our products and services, we may be required to raise additional funds. We do not know if we will be able to acquire additional financing at

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

commercially reasonable rates. We anticipate that we will spend a lot of funds on the marketing and promotion of our products and services. Our failure to obtain additional funds would significantly limit or eliminate our ability to fund our sales and marketing activities.

We anticipate that we may seek additional funding through public or private sales of our securities. That could include equity securities, or through commercial or private financing arrangements. Adequate funds may not be available when needed or on terms acceptable to us. In the event that we are not able to obtain additional funding on a timely basis, we may be required to limit any proposed operations or eliminate certain or all of our marketing programs, either of which could have a material adverse affect on our results of operations.

We are dependent on the efforts and abilities of certain of our senior management.

The interruption of the services of key management could have a material adverse effect on our operations, profits and future development, if suitable replacements are not promptly obtained. We anticipate that we will enter into employment agreements with each of our key executives. We cannot guaranty that each executive will remain with us during or after the term of his or her employment agreement. In addition, our success depends, in part, upon our ability to attract and retain other talented personnel. Although we believe that our relations with our personnel are good and that we will continue to be successful in attracting and retaining qualified personnel, we cannot guaranty that we will be able to continue to do so. Our officers and directors will hold office until their resignations or removal.

Our officers and directors are engaged in other activities that could have conflicts of interest with us. Therefore, our officers and directors may not devote sufficient time to our affairs, which may affect our ability to conduct marketing activities and generate revenues.

The persons serving as our officers and directors have existing responsibilities and may have additional responsibilities to provide management and services to other entities. As a result, conflicts of interest between us and the other activities of those entities may occur from time to time, in that our officers and directors shall have conflicts of interest in allocating time, services, and functions between the other business ventures in which they may be or become involved and our affairs. Mr. Sherman currently works for us on a full time basis. Mr. Thompson currently devotes approximately ten hours per week, but anticipates that he will devote significantly more hours if we begin generating significant revenues.

Our success may depend in part upon our ability to preserve our trade secrets, obtain and maintain patent protection for our technologies, products and processes, and operate without infringing the proprietary rights of other parties.

However, we may rely on certain proprietary technologies, trade secrets, and know-how that are not patentable. Although we may take action to protect our unpatented trade secrets and our proprietary information, in part, by the use of confidentiality agreements with our employees, consultants and certain of our contractors, we cannot guaranty that:

- o these agreements will not be breached;
- o we would have adequate remedies for any breach; or
- o our proprietary trade secrets and know-how will not otherwise become known or be independently developed or discovered by competitors.

We cannot guaranty that our actions will be sufficient to prevent imitation or

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

duplication of either our products and services by others or prevent others from claiming violations of their trade secrets and proprietary rights.

Because we are not listed for trading on any exchange or quotation service, we have no obligation to file timely reports with any exchange or quotation service.

Our securities are not listed for trading on any exchange or quotation service. We are not required to comply with the timely disclosure policies of any exchange or quotation service. The requirements to which we would be subject if our securities were so listed typically include the timely disclosure of a material change or fact with respect to our affairs and the making of required filings. We cannot guaranty that our reports will be filed timely.

6

Risks related to this offering

We may not be able to implement our business strategy unless sufficient funds are raised in this offering, which could prevent us from becoming profitable.

We are a development stage company. We depend on the proceeds of this offering in order to implement our business plan. We may not realize sufficient proceeds to complete organizational and development costs, or to provide adequate cash flow for planned marketing expenses. Our inability to raise sufficient funds in this offering may significantly hinder our growth. If we fail to raise sufficient funds in this offering, investors may lose their entire cash investment.

We arbitrarily determined the offering price of the shares of common stock. Therefore, investors may lose all or part of their investment if the offering price is higher than the current market value of the offered shares.

The offering price of the shares of common stock being offered by us has been determined primarily by our capital requirements and has no relationship to any established criteria of value, such as book value or earnings per share. Additionally, because we have no significant operating history and have only generated minimal revenues to date, the price of the shares of common stock is not based on past earnings, nor is the price of the shares indicative of current market value for the assets owned by us. Investors could lose all or a part of their investment if the offering price has been arbitrarily set too high. Even if a public trading market develops for our common stock, the shares may not attain market values commensurate with the offering price.

We lack a public market for shares of our common stock, which may make it difficult for investors to sell their shares.

There is no public market for shares of our common stock. We cannot guaranty that an active public market will develop or be sustained. Therefore, investors may not be able to find purchasers for their shares of our common stock. Should there develop a significant market for our shares, the market price for those shares may be significantly affected by such factors as our financial results and introduction of new products and services. Factors such as announcements of new or enhanced products by us or our competitors and quarter-to-quarter

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

variations in our results of operations, as well as market conditions in our sector may have a significant impact on the market price of our shares. Further, the stock market has experienced extreme volatility that has particularly affected the market prices of stock of many companies and that often has been unrelated or disproportionate to the operating performance of those companies.

We may not have sufficient financial resources to fund our operations if the offering is substantially undersold.

There is no minimum offering amount for this offering. We may not sell any or all of the offered shares. If the offering is substantially undersold, investors may lose their entire investment because we will not have sufficient funds to fund our operations. If we do not sell all of the offered shares, we may also be forced to limit any proposed marketing activities, which will hinder our ability to generate revenues.

Investors in this offering will suffer immediate and substantial dilution of their investment because they will provide 94% of the capital for a 55% equity interest in the company.

The initial public offering price is substantially higher than the pro forma net tangible book value per share of our outstanding common stock. Our existing shareholders have paid an average of \$0.004 per share for their common stock, which is considerably less than the amount to be paid for the common stock in this offering. As a result, assuming an initial public offering price of \$0.05 per share, investors purchasing common stock in this offering will incur immediate dilution of \$0.02 in pro forma net tangible book value per share of common stock as of June 30, 2001.

Our existing shareholders control our operations and matters requiring shareholder approval.

Scott Sherman and Brad Thompson, each of whom is one of our officers and directors, will beneficially own approximately 45% of our common stock following the completion of this offering if all of the shares of are sold, or approximately 55.5% if two thirds of the offered shares are sold. As a result, they will have the ability to control or significantly influence all matters requiring approval by our shareholders, including the election and removal of directors, approval of significant corporate transactions and the ability to control the decision of whether a change in control will occur.

We may not realize sufficient proceeds from this offering to implement our business plan, as we are offering shares on direct participation basis, rather than using the experience of a dealer-broker.

We are offering shares on a direct participation basis. No individual, firm, or corporation has agreed to purchase any of the offered Shares. We cannot guaranty that any or all of the shares will be sold. We do not plan to use a dealer-broker, even though a dealer-broker may have more experience, resources or contacts to more effectively achieve the sale of shares. A delay in the sale of the shares in this offering can be expected to cause a similar delay in the implementation of our business plan.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Because we may be subject to the "penny stock" rules, the level of trading activity in our stock may be reduced which may make it difficult for investors to sell their shares.

Broker-dealer practices in connection with transactions in "penny stocks" are regulated by certain penny stock rules adopted by the Securities and Exchange Commission. Penny stocks, like shares of our common stock, generally are equity securities with a price of less than \$5.00, other than securities registered on certain national securities exchanges or quoted on Nasdaq. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and, if the broker-dealer is the sole market maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market, and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, broker-dealers who sell these securities to persons other than established customers and "accredited investors" must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. Consequently, these requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security subject to the penny stock rules, and investors in our common stock may find it difficult to sell their shares.

Investment in our common stock is highly speculative and purchasers may lose their entire investment.

Any person who cannot afford the loss of his or her entire purchase price for the offered shares should not purchase of the offered shares because such a purchase is highly speculative and involves significant risks. A purchase of the offered shares would be unsuitable for a person who cannot afford to lose his or her entire purchase price for the offered shares. Our business objectives must also be considered speculative, and we cannot guaranty that we will satisfy those objectives. Purchasers of the offered shares may not realize any return on their purchase of the offered shares. Purchasers may lose their investments in us completely.

Information in this prospectus contains "forward looking statements" which can be identified by the use of forward-looking words such as "believes", "estimates", "could", "possibly", "probably", "anticipates", "estimates", "projects", "expects", "may", "will", or "should" or other variations or similar words. No assurances can be given that the future results anticipated by the forward-looking statements will be achieved. The following matters constitute cautionary statements identifying important factors with respect to those forward-looking statements, including certain risks and uncertainties that could cause actual results to vary materially from the future results anticipated by those forward-looking statements. Among the key factors that have a direct bearing on our results of operations are the effects of various governmental regulations, the fluctuation of our direct costs and the costs and effectiveness of our operating strategy. Other factors could also cause actual results to vary materially from the future results anticipated by those forward-looking statements.

Use of Proceeds

We will receive up to \$150,000 if all of the shares of common stock offered by us at \$0.05 per share are purchased. Assuming all of the shares are purchased, we intend to use 25% of the proceeds for marketing expenses and 75% of the proceeds for working capital. If all of the shares are not sold, then we intend to use the proceeds that we receive for working capital. We cannot guaranty that we will sell any or all of the shares being offered by us.

Determination of Offering Price

Factors Used to Determine Share Price. The offering price of the 3,000,000 shares of common stock being offered by us has been determined primarily by our capital requirements and has no relationship to any established criteria of value, such as book value or earnings per share. Additionally, because we have no significant operating history and have not generated any revenues to date, the price of the shares of common stock is not based on past earnings, nor is the price of the shares indicative of current market value for the assets owned by us. No valuation or appraisal has been prepared for our business and potential business expansion.

Dilution

We are intending to sell 3,000,000 shares of our common stock being registered by this registration statement. We were initially capitalized by the sale of our common stock. The following table sets forth the number of shares of common stock purchased from us, the total consideration paid and the price per share. The table assumes all 3,000,000 shares of common stock will be sold.

	Shares Issued		Total Consideration	
	Number	Percent	Amount	Perco
Founding Shareholders	2,500,000 Shares	45.45%	\$10,000	6.2
Purchasers of Shares	3,000,000 Shares	54.55%	\$150,000	93.7
Total	5,500,000 Shares	100%	\$160,000	100

The following table sets forth the difference between the offering price of the shares of our common stock being offered by us, the net tangible book value per share, and the net tangible book value per share after giving effect to the offering by us, assuming that all of the shares of the common stock offered by us are sold. Net tangible book value per share represents the amount of total tangible assets less total liabilities divided by the number of shares outstanding as of June 30, 2001.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Offering Price	\$0.05 per share
Net tangible book value at 6/30/01	\$.003 per share
Net tangible book value after giving effect to the offering	\$0.03 per share
Per Share Dilution to New Investors	\$0.02 per share
Percent Dilution to New Investors	40%

9

Selling Security Holders

There are no selling security holders in this offering.

Plan of Distribution

We are offering for sale 3,000,000 shares of our common stock on a direct participation basis. We have not conducted any discussions or negotiations for the sale of all or any portion of those 3,000,000 shares of our common stock. There is no minimum number of shares that must be purchased by each prospective purchaser and the maximum number of shares we will sell is 3,000,000. We will not pay any commissions or other fees, directly or indirectly to any person or firm in connection with solicitation of sales of the common stock. There is no minimum proceeds set for this offering. We will not place the funds raised in an escrow account. All funds received in this offering will be deposited directly into our corporate general account and will be available for immediate utilization.

We anticipate that Scott Sherman, our president, will participate in the offer and sale of our shares of common stock, and rely on the safe harbor from broker-dealer registration set out in Rule 3a4-1 under the Securities Exchange Act of 1934. Although Mr. Sherman is an associated person of the company as that term is defined in Rule 3a4-1 under the Exchange Act, he is deemed not to be a broker for the following reasons:

- o Mr. Sherman is not subject to a statutory disqualification as that term is defined in Section 3(a)(39) of the Exchange Act at the time of his participation in the sale of our securities.
- o Mr. Sherman will not be compensated for his participation in the sale of company securities by the payment of commission or other remuneration based either directly or indirectly on transactions in securities.
- o Mr. Sherman is not an associated person of a broker or dealer at the time of participation in the sale of company securities.

Mr. Sherman will restrict his participation to the following activities:

- o Preparing any written communication or delivering any communication through the mails or other means that does not involve oral solicitation by the president of a potential purchaser;

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

- o Responding to inquiries of potential purchasers in communication initiated by the potential purchasers, provided, however, that the content of responses are limited to information contained in a registration statement filed under the Securities Act or other offering document;
- o Performing ministerial and clerical work involved in effecting any transaction.

We have not retained a broker for the sale of securities being offered. In the event we retain a broker who may be deemed an underwriter, an amendment to the registration statement will be filed.

The shares of common stock being offered by us have not been registered for sale under the securities laws of any state as of the date of this prospectus. We intend to register or qualify the offered shares in the following states: Colorado, Georgia, Nevada, Oregon, Washington and Wisconsin.

Under the Securities Exchange Act of 1934 and the regulations thereunder, any person engaged in a distribution of the shares of our common stock offered by this prospectus may not simultaneously engage in market making activities with respect to our common stock during the applicable "cooling off" periods prior to the commencement of such distribution.

Legal Proceedings

There are no legal actions pending against us nor are any legal actions contemplated by us at this time.

10

Directors, Executive Officers, Promoters and Control Persons

Our directors and principal executive officers are as specified on the following table:

Name	Age	Position
Scott Sherman	27	president, secretary and a director
Brad Thompson	32	treasurer and a director

Scott J. Sherman. Mr. Sherman is our president, secretary and one of our directors since our inception. Mr. Sherman manages all aspects of our operations, including web development and marketing and sales of our products. From January 2001 to May 2001, Mr. Sherman worked, as a Sr. Account Manager for Speedera Networks, Inc. Speedera Networks, Inc. provides managed services for global load balancing, failover, content delivery, and streaming media to improve the quality of the Internet experience for users worldwide. From January 2000 to January 2001, Mr. Sherman was the western USA regional manager for Adero, Inc. which provides website performance services for companies worldwide. From 1998 to January 2000, Mr. Sherman worked was the director of western

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

operations for Lynxus, Inc., a national internet service provider. From 1996 to August 1998, Mr. Sherman worked for Log-On Data Corp., Inc., a California corporation, as a regional sales manager where he was responsible for all Internet Service Provider sales. Mr. Sherman earned his Bachelor of Arts Degree in Economics from California State University Long Beach in 1996. Mr. Sherman has not been a director of any other reporting company.

Brad W. Thompson. Mr. Thompson is our treasurer and one of our directors since our inception. Since 1998, Mr. Thompson has worked as a computer consultant, which includes the design, setup, implementation, and management of local area networks for businesses. Mr. Thompson possesses a certification with Microsoft as a Microsoft Certified Systems Engineer and works primarily in the Microsoft Windows family of software products including Windows NT, 2000, ME, 95 and 98. Mr. Thompson has also set up primary and backup domain controllers, proxy servers, web servers, exchange servers, print servers, file servers, and application servers. Mr. Thompson also has significant experience in developing and implementing web sites. In addition to Mr. Thompson's software knowledge and experience, Mr. Thompson has worked extensively with computer hardware including hubs, switches, printers and wiring and hardware issues within a computer such as motherboards, hard drives, cd writers and readers, monitors and power sources. During the past three years, Mr. Thompson has worked approximately thirty hours per week as a computer consultant and generated approximately \$70,000 per year. From 1996 to 1998, Mr. Thompson handled the day-to-day operations of Medical2000, in which he was one of the two partners. He managed all the back office work while his partner worked out in the field making sales calls. Mr. Thompson earned his Bachelor of Science Degree in Agricultural and Managerial Economics from the University of California at Davis in 1992. Mr. Thompson is not an officer or director of any other reporting company.

There is no family relationship between any of our officers or directors. There are no orders, judgments, or decrees of any governmental agency or administrator, or of any court of competent jurisdiction, revoking or suspending for cause any license, permit or other authority to engage in the securities business or in the sale of a particular security or temporarily or permanently restraining any of our officers or directors from engaging in or continuing any conduct, practice or employment in connection with the purchase or sale of securities, or convicting such person of any felony or misdemeanor involving a security, or any aspect of the securities business or of theft or of any felony. Nor are any of the officers or directors of any corporation or entity affiliated with us so enjoined.

Security Ownership of Certain Beneficial Owners and Management

The following table sets forth certain information regarding the beneficial ownership of our common stock as of September 28, 2001, by each person or entity known by us to be the beneficial owner of more than 5% of the outstanding shares of common stock, each of our directors and named executive officers, and all of our directors and executive officers as a group.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

	Beneficial Owner	Beneficial Owner	if no shares are sold	Class if 3,000,000 shares are sold

Common Stock	Brad Thompson 51-66th Place Long Beach, California 90803	1,250,000 shares, treasurer, director	50%	22.73%
Common Stock	All directors and named executive officers as a group	2,500,000 shares	100%	45.46%

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission and generally includes voting or investment power with respect to securities. In accordance with Securities and Exchange Commission rules, shares of our common stock which may be acquired upon exercise of stock options or warrants which are currently exercisable or which become exercisable within 60 days of the date of the table are deemed beneficially owned by the optionees. Subject to community property laws, where applicable, the persons or entities named in the table above have sole voting and investment power with respect to all shares of our common stock indicated as beneficially owned by them.

Changes in Control. Our management is not aware of any arrangements which may result in "changes in control" as that term is defined by the provisions of Item 403(c) of Regulation S-B.

Description of Securities

We are authorized to issue 50,000,000 shares of \$.001 par value common stock and 5,000,000 shares of \$.001 par value preferred stock. As of September 28, 2001, 2,500,000 shares of our common stock were issued and outstanding.

Each shareholder of our common stock is entitled to a pro rata share of cash distributions made to shareholders, including dividend payments. The holders of our common stock are entitled to one vote for each share of record on all matters to be voted on by shareholders. There is no cumulative voting with respect to the election of our directors or any other matter. Therefore, the holders of more than 50% of the shares voted for the election of those directors can elect all of the directors. The holders of our common stock are entitled to receive dividends when, as and if declared by our Board of Directors from funds legally available therefore. Cash dividends are at the sole discretion of our Board of Directors. In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining available for distribution to them after payment of our liabilities and after provision has been made for each class of stock, if any, having any preference in relation to our common stock. Holders of shares of our common stock have no conversion, preemptive or other subscription rights, and there are no redemption provisions applicable to our common stock.

Dividend Policy. We have never declared or paid a cash dividend on our capital stock. We do not expect to pay cash dividends on our common stock in the

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

foreseeable future. We currently intend to retain our earnings, if any, for use in our business. Any dividends declared in the future will be at the discretion of our board of directors and subject to any restrictions that may be imposed by our lenders.

12

Interest of Named Experts and Counsel

No "expert" or our "counsel" was hired on a contingent basis, or will receive a direct or indirect interest in us, or was a promoter, underwriter, voting trustee, director, officer, or employee of the company, at any time prior to the filing of this registration statement.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

Article Seven of our Articles of Incorporation provides, among other things, that our officers and directors shall not be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as an officer or a director, except for liability:

- o for any breach of such director's duty of loyalty to us or our security holders;
- o for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- o for unlawful payments of dividends or unlawful stock purchase or redemption by us; or
- o for any transaction from which such director derived any improper personal benefit.

Accordingly, our directors may have no liability to our shareholders for any mistakes or errors of judgment or for any act of omission, unless the act or omission involves intentional misconduct, fraud, or a knowing violation of law or results in unlawful distributions to our shareholders.

Indemnification Agreements. We will enter into indemnification agreements with each of our executive officers. We will agree to indemnify each such person for all expenses and liabilities, including criminal monetary judgments, penalties and fines, incurred by such person in connection with any criminal or civil action brought or threatened against such person by reason of such person being or having been our officer or director or employee. In order to be entitled to indemnification by us, such person must have acted in good faith and in a manner such person believed to be in our best interests. With respect to criminal actions, such person must have had no reasonable cause to believe his or her conduct was unlawful.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in that act and is, therefore, unenforceable.

Organization Within Last Five Years

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Transactions with Promoters. Scott Sherman was our promoter. In June 2001, we issued 1,250,000 shares of our common stock to Mr. Sherman in exchange for \$5,000.

Description of Business

Our Background. We were incorporated in Nevada on June 8, 2001.

Our Business. We are an Internet solutions company that specializes in website hosting and development services. Website hosting encompasses a broad range of possible services, including basic services, such as simply posting a customer's website on the Internet using the hosting company's computer hardware and software, and enhanced services such as enabling financial transactions over the Internet, email, audio and video capabilities. Enhanced services may be developed internally by the web hosting company or purchased from external sources and resold by the web hosting company. We focus on meeting the needs of small and medium-sized businesses and individuals who are establishing a commercial or informational presence on the Internet.

Our Products and Services. We offer, on a resale basis, a range of basic and enhanced web hosting services to businesses wishing to place their website on the Internet. These businesses often decide to use a web hosting company in order to avoid the financial cost, time and expertise requirements of hosting the website and obtaining enhanced services themselves.

13

We also offer website design and development services. Website design and development may include such features as graphics, text, color, typestyle, audio and video. The person or company typically responsible for assisting in the design and maintenance of a website is called a webmaster. This function is labor intensive and would involve significant human resources and time to service a broad customer base. Consequently, webmaster functions are typically performed by specialized companies servicing a number of customers. These customers may also rely upon their webmasters to direct them to suitable hosting or Internet service provider company.

We also provide server co-location services. Server co-location services involve a customer physically placing their computer hardware, referred to as a server, on our premises. The customer gains access to our Internet support and maintenance services, high-speed Internet connections, security systems and appropriate physical environment for the server, such as static free and air-conditioned.

Our Target Markets and Marketing Strategy. We believe that our primary target market will consist of small and medium sized businesses that wish to have a website on the Internet without incurring the costs and time delays involved with developing, maintaining and updating a web presence on their own. The website is an informational or an informational/ commercial tool for these customers. In addition to small and medium sized businesses, reseller web hosting services may be purchased by entities, such as value added resellers, or VARs, and original equipment manufacturers, or OEMs, that will resell the services in connection with their own web related services.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Our marketing strategy is to promote our services and products and attract businesses to our website. Our marketing initiatives include:

- o utilizing direct response print advertisements placed primarily in small business, entrepreneurial, and special interest magazines;
- o links to industry focused websites;
- o advertising by television, radio, banners, affiliated marketing and direct mail; and
- o presence at industry tradeshows.

Growth Strategy. Our objective is to become a dominant provider of web hosting and development services. Our strategy is to provide clients with exceptional personal service and high quality web design. Key elements of our strategy include:

- o increase our relationships with businesses;
- o increase our relationships with third party providers of web products and services;
- o continue and expand our website;
- o provide additional services for businesses and consumers; and
- o pursue relationships with joint venture candidates. We will attempt to establish joint ventures with companies that will support our business development.

Competition. The markets for web hosting and development are very competitive. Our current and potential competitors include:

- o other web hosting and Internet services companies;
- o regional and national ISPs;
- o regional and national telecommunications companies; and
- o large information technology outsourcing firms.

We believe that most web-hosting competitors fit into two major groupings, each having our own set of competitive strengths and weaknesses. The first grouping, and most obvious of direct competition, are the big telephone and cable companies. We believe that because of their large corporate size, it takes these competitors much longer to develop and incorporate new features into their hosting services and to offer those services at a competitive price without subsidizing the pricing. As a result, we believe that by careful attention to our cost structure and rapid response to market demand for new features we can effectively compete with larger and more financially secure companies, both in services provided and on price.

The second major type of competitors are the pure website hosting companies. We believe that many of these companies have insufficient resources, inadequate infrastructure, insufficient Internet connectivity, and/or inadequate technical support. These companies may have congested network servers and slow Internet connectivity causing delays in website access and upload. This can result in lost customers visiting and exploring a website through abandoned connections. The smaller of these companies the less they are able to scale and respond quickly to their customers' growth requirements and may not be capable of supporting large numbers of new customers. While some of these pure website hosting companies may face these competitive deficiencies, there are a number of website hosting companies that have shown the ability to compete effectively. Our ability to compete with these companies over time is unproven.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Many of these competitors have greater financial resources than we have, enabling them to finance acquisition and development opportunities, to pay higher prices for the same opportunities or to develop and support their own operations. In addition, many of these companies can offer bundled, value-added or additional services not provided by us, and may have greater name recognition. These companies might be willing to sacrifice profitability to capture a greater portion of the market for web hosting or related web hosting activities, or pay higher prices than we would for the same expansion and development opportunities. Consequently, we may encounter significant competition in our efforts to achieve our internal growth objectives.

Our Website www.srmnetworks.com. Our current website displays our corporate logo and contact information and provides a general description of the services that we provide as well as prices of those services.

Our Intellectual Property. We do not presently own any patents, trademarks, licenses, concessions or royalties.

We own the Internet domain name www.srmnetworks.com. Under current domain name registration practices, no one else can obtain an identical domain name, but someone might obtain a similar name, or the identical name with a different suffix, such as ".org", or with a country designation. The regulation of domain names in the United States and in foreign countries is subject to change, and we could be unable to prevent third parties from acquiring domain names that infringe or otherwise decrease the value of our domain names.

Government Regulation. Internet access and online services are not subject to direct regulation in the United States. Changes in the laws and regulations relating to the telecommunications and media industry, however, could impact our business. For example, the Federal Communications Commission could begin to regulate the Internet and online services industry, which could result in increased costs for us. The laws and regulations applicable to the Internet and to our services are evolving and unclear and could damage our business. There are currently few laws or regulations directly applicable to access to, or commerce on, the Internet. Due to the increasing popularity and use of the Internet, it is possible that laws and regulations may be adopted, covering issues such as user privacy, defamation, pricing, taxation, content regulation, quality of products and services, and intellectual property ownership and infringement. Such legislation could expose us to substantial liability as well as dampen the growth in use of the Internet, decrease the acceptance of the Internet as a communications and commercial medium, or require us to incur significant expenses in complying with any new regulations. The European Union has recently adopted privacy and copyright directives that may impose additional burdens and costs on international operations.

Our Research and Development. We are not currently conducting any research and development activities, other than the development of our website. We do not anticipate conducting such activities in the near future.

Employees. As of September 28, 2001, we have one full time employee and one part time employee. We anticipate that we will not hire any employees in the next six months, unless we generate significant revenues. From time-to-time, we anticipate that we will use the services of independent contractors and consultants to for website design and development.

Facilities. Our executive, administrative and operating offices are located 1241 North Central Avenue, Suite 7, Glendale, California 91202. We do not own our offices. Scott Sherman, our president, secretary and one of our directors, currently provides office space to us at no charge. We do not have a written

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

lease or sublease agreement and Mr. Sherman does not expect to be paid or reimbursed for providing office facilities.

15

Management's Discussion and Analysis of Financial Condition and Results of Operations

For the period from June 8, 2001, our date of formation, through June 30, 2001.

Liquidity and Capital Resources. We have cash of \$9,290 as of June 30, 2001. Our accounts receivable were approximately \$720 as of June 30, 2001. Despite our limited history, we believe that we will collect those receivables in a timely fashion. Therefore, we believe that our available cash is sufficient to pay our day-to-day expenditures. Our officers and directors provided us with our initial capitalization of \$10,000. Those proceeds were used to provide us with additional working capital.

Results of Operations.

Revenues. We have realized revenues of approximately \$720 from web hosting and development services that we provided during the period ended June 30, 2001. We anticipate that we will generate more revenues as we expand our customer base.

Operating Expenses. For the period ended June 30, 2001, our total expenses were approximately \$2,855. The majority of those expenses were legal and professional fees of \$2,675. For the period ended June 30, 2001, we experienced a net loss of approximately \$2,135.

Our Plan of Operation for the Next Twelve Months. To effectuate our business plan during the next twelve months, we must increase our current customer base. We anticipate that we will use the funds raised in this offering and revenues generated to fund marketing activities and for working capital. Our failure to market and promote our services will harm our business and future financial performance.

We have cash of \$9,290 as of June 30, 2001. In the opinion of management, available funds will satisfy our working capital requirements through January 2002. Our forecast for the period for which our financial resources will be adequate to support our operations involves risks and uncertainties and actual results could fail as a result of a number of factors. We anticipate that we may need to raise additional capital to expand our operations, although we have not made any efforts to obtain additional capital. Such additional capital may be raised through public or private financing as well as borrowings and other sources. We cannot guaranty that additional funding will be available on favorable terms, if at all. If adequate funds are not available, then our ability to expand our operations may be adversely affected. If adequate funds are not available, we believe that our officers and directors will contribute funds to pay for our expenses. Our belief that our officers and directors will pay our expenses is based on the fact that our officers and directors collectively own 2,500,000 shares of our common stock, which equals approximately 45% of our outstanding common stock following the completion of this offering if all of the offered shares are sold, or approximately 55.5% if

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

two thirds of the offered shares are sold. We believe that our officers and directors will continue to pay our expenses as long as they maintain their ownership of our common stock. Therefore, we have not contemplated any plan of liquidation in the event that we do not generate revenues. As of June 30, 2001, our officers and directors have provided us with our initial capitalization of \$10,000. On September 6, 2001, Mr. Sherman contributed an additional \$5,000 to pay any expenses that we may incur in the next two months.

We are not currently conducting any research and development activities, other than the development of our website. We do not anticipate conducting such activities in the near future. In the event that we expand our customer base, then we may need to hire additional employees or independent contractors as well as purchase or lease additional equipment.

Description of Property

Property held by us. As of the date specified in the following table, we held the following property:

Property	June 30, 2001
Cash	\$9,290
Property and Equipment, net	\$0

Our facilities. Our executive, administrative and operating offices are located at 1241 North Central Avenue, Suite 7, Glendale, California 91202. Scott Sherman, our president, secretary and one of our directors, currently provides office space to us at no charge. We do not have a written lease or sublease agreement and Mr. Sherman does not expect to be paid or reimbursed for providing office facilities.

16

Certain Relationships and Related Transactions

Related party transactions.

Scott Sherman, our president, secretary and one of our directors, currently provides office space to us at no charge. Mr. Sherman does not expect to be paid or reimbursed for providing office facilities. We do not have a written lease or sublease agreement with Mr. Sherman. However, we anticipate that Mr. Sherman will continue to provide office space to us at no charge as long as he owns 1,250,000 shares of our common stock, which equals approximately 22.5% of our outstanding common stock following the completion of this offering if all of the offered shares are sold, or approximately 27.75% if two thirds of the offered shares are sold. We have not contemplated any future transactions with Mr. Sherman with respect to office space.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Market for Common Equity and Related Stockholder Matters

Reports to Security Holders. Our securities are not listed for trading on any exchange or quotation service. We are not required to comply with the timely disclosure policies of any exchange or quotation service. The requirements to which we would be subject if our securities were so listed typically include the timely disclosure of a material change or fact with respect to our affairs and the making of required filings. Although we are not required to deliver an annual report to security holders, we intend to provide an annual report to our security holders, which will include audited financial statements.

When we become a reporting company with the Securities and Exchange Commission, the public may read and copy any materials filed with the Securities and Exchange Commission at the Security and Exchange Commission's Public Reference Room at 450 Fifth Street N.W., Washington, D.C. 20549. The public may also obtain information on the operation of the Public Reference Room by calling the Securities and Exchange Commission at 1-800-SEC-0330. The Securities and Exchange Commission maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the Securities and Exchange Commission. The address of that site is <http://www.sec.gov>.

As of September 28, 2001, there were two record holders of our common stock.

There are no outstanding shares of our common stock which can be sold pursuant to Rule 144. There are no outstanding options or warrants to purchase, or securities convertible into, shares of our common stock. There are no outstanding shares of our common stock that we have agreed to register under the Securities Act of 1933 for sale by security holders.

There have been no cash dividends declared on our common stock. Dividends are declared at the sole discretion of our Board of Directors.

Penny stock regulation. Shares of our common stock will probably be subject to rules adopted by the Securities and Exchange Commission that regulate broker-dealer practices in connection with transactions in "penny stocks". Penny stocks are generally equity securities with a price of less than \$5.00, except for securities registered on certain national securities exchanges or quoted on the Nasdaq system, provided that current price and volume information with respect to transactions in those securities is provided by the exchange or system. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, deliver a standardized risk disclosure document prepared by the Securities and Exchange Commission, which contains the following:

- o a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- o a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to violation to such duties or other requirements of securities' laws;
- o a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the "bid" and "ask" price;
- o a toll-free telephone number for inquiries on disciplinary actions;
- o definitions of significant terms in the disclosure document or in the conduct of trading in penny stocks; and
- o such other information and is in such form, including language, type, size and format, as the Securities and Exchange Commission shall require by rule or regulation.

Prior to effecting any transaction in penny stock, the broker-dealer also must provide the customer the following:

- o the bid and offer quotations for the penny stock;
- o the compensation of the broker-dealer and its salesperson in the transaction;
- o the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- o monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for a stock that becomes subject to the penny stock rules. Holders of shares of our common stock may have difficulty selling those shares because our common stock will probably be subject to the penny stock rules.

Executive Compensation

Any compensation received by our officers, directors, and management personnel will be determined from time to time by our Board of Directors. Our officers, directors, and management personnel will be reimbursed for any out-of-pocket expenses incurred on our behalf.

Summary Compensation Table. The table set forth below summarizes the annual and long-term compensation for services in all capacities to us payable to our chief executive officer and our other executive officers whose total annual salary and bonus are anticipated to exceed \$50,000 during the years ending December 31, 2001 and December 31, 2002. Our Board of Directors may adopt an incentive stock option plan for our executive officers which would result in additional compensation.

Name and Principal Position	Year	Annual Salary (\$)	Bonus (\$)	Other Annual Compensation (\$)
Scott Sherman - president, secretary	2001	None	None	None
	2002	\$30,000	None	None
Brad Thompson - treasurer	2001	None	None	None
	2002	\$5,000	None	None

=====
Compensation of Directors. Our directors who are also our employees receive no extra compensation for their service on our Board of Directors.

Compensation of Officers. As of September 28, 2001, our officers have received no compensation for their services provided to us.

Employment Contracts. We anticipate that we will enter into an employment agreement with Scott Sherman.

Independent Auditor's Report

To the Stockholders of
SRM Networks, Inc.

I have audited the accompanying balance sheet of SRM Networks, Inc. (a development stage company) as of June 30, 2001, and the related statements of operations, changes in stockholders' equity, and cash flows for the period June 8, 2001 (inception) through June 30, 2001. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SRM Networks, Inc. (a development stage company) as of June 30, 2001, and the results of its operations and its cash flows for the period June 8, 2001 (inception) through June 30, 2001 in conformity with generally accepted accounting principles.

(a development stage company)

STATEMENT OF CASH FLOWS
JUNE 8, 2001 (INCEPTION) THROUGH JUNE 30, 2001

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

JUNE 30, 2001

Note 1 - BUSINESS DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES

Business Description - SRM Networks, Inc. (the "Company") was incorporated in the state of Nevada on June 8, 2001. The Company is an Internet solutions company that specializes in website hosting and website development services. The Company is headquartered in Glendale, California.

Cash and Cash Equivalents - For purposes of the balance sheet and statement of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Receivables - Receivables represent valid claims against debtors for sales or other charges arising on or before the balance-sheet date and are reduced to their estimated net realizable value. An allowance for doubtful accounts will be computed as a percentage (%) of sales when experience is established. As of June 30, 2001, the Company considered all receivables fully collectible.

Fair Value of Financial Instruments - The carrying value of cash, accounts receivable, and accounts payable and accrued expenses approximate their fair value due to the short period to maturity of these instruments.

Recognition of Revenues and Costs of Goods Sold - The Company records revenues of its services when they are complete and collectibility is reasonably assured. The Company will also provide an allowance for returns when experience is established. Cost of goods sold consists of the payroll and related expenses of personnel used and the purchase price of products sold including inbound and outbound shipping charges.

Income Taxes - The Company recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

Net Loss per Common Share - The Company has adopted the provisions of Statement of Financial Accounting Standards No. 128, "Earnings Per Share" ("SFAS 128"). SFAS 128 requires the reporting of basic and diluted earnings/loss per share. Basic loss per share is calculated by dividing net loss by the weighted average number of outstanding common shares during the period.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2001

Note 1 - BUSINESS DESCRIPTION AND SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements - In March 2000, the Emerging Issues Task Force (EITF) of the FASB reached a consensus on EITF Issue 00-2, "Accounting for Web Site Development Costs." This consensus provides guidance on what types of costs incurred to develop Web sites should be capitalized or expensed. The Company adopted this consensus upon incorporation on June 8, 2001. Such capitalized costs, if material, are to be included in "Fixed assets, net" and will be depreciated over a period of two years.

In September 2000, the EITF reached a final consensus on EITF Issue 00-10, "Accounting for Shipping and Handling Fees and Costs." This consensus, also adopted upon incorporation on June 8, 2001, requires that all amounts billed to a customer in a sale transaction related to shipping and handling, if any, represent revenue and should be classified as revenue.

NOTE 2 - ACCRUED EXPENSES

Accrued Wages and Compensated Absences - As of June 30, 2001, the Company currently did not have any employees. The majority of development costs and services have been provided to the Company by outside, third party vendors. As such, there is no accrual for wages or compensated absences as of June 30, 2001.

NOTE 3 - COMMON STOCK

On June 9, 2001, the Company issued 2,500,000 shares of its common stock to its officers for cash of \$10,000. Since there was no readily available market value at the time of issuance, the value of \$0.004 per share was considered as a reasonable estimate of fair value between the Company and the officers.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

NOTE 4 - INCOME TAXES

At June 30, 2001, the Company has available for federal income tax purposes a net operating loss carryforward of approximately \$2,135, expiring 2016, that may be used to offset future taxable income. Therefore, no provision for income taxes has been provided.

In addition, the Company has deferred tax assets of approximately \$320 at June 30, 2001. The Company has not recorded a benefit from its net operating loss carryforward because realization of the benefit is uncertain and, therefore, a valuation allowance of (\$320) has been provided for the deferred tax assets.

NOTE 5 - RELATED PARTY TRANSACTIONS

On June 9, 2001, the Company issued 2,500,000 shares of its common stock to its current officers for cash as described in Note 3.

The Company occupies office space provided by its officer. Accordingly, occupancy costs have been allocated to the Company based on the square foot percentage assumed multiplied by the officer's total monthly costs. These amounts are shown in the accompanying statement of operations for the period June 8, 2001 (inception) through June 30, 2001 and are considered additional contributions of capital by the officer and the Company.

27

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

In June 2001, our Board of Directors appointed Quintanilla Accountancy Corporation, independent accountant, to audit our financials statements from June 8, 2001, our date of formation, through June 30, 2001.

There have been no disagreements with our accountant since our formation required to be disclosed pursuant to Item 304 of Regulation S-B.

LEGAL MATTERS

The validity of the issuance of the shares of common stock offered by us has been passed upon by the law firm of Stepp Law Group, located in Newport Beach, California.

EXPERTS

Our financial statements for the period from June 8, 2001, our date of formation, through June 30, 2001, appearing in this prospectus which is part of a Registration Statement have been audited by Quintanilla Accountancy Corporation and are included in reliance upon such reports given upon the

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

authority of Quintanilla Accountancy Corporation as experts in accounting and auditing.

ADDITIONAL INFORMATION

We have filed a registration statement on Form SB-2 with the Securities and Exchange Commission pursuant to the Securities Act of 1933. This prospectus does not contain all of the information set forth in the registration statement and the exhibits and schedules to the registration statement. For further information regarding us and our common stock offered hereby, reference is made to the registration statement and the exhibits and schedules filed as a part of the registration statement.

PART II - INFORMATION NOT REQUIRED IN PROSPECTUS

Indemnification of Directors and Officers

Article Seven of our Articles of Incorporation provides, among other things, that our officers and directors shall not be personally liable to us or our shareholders for monetary damages for breach of fiduciary duty as an officer or a director, except for liability:

- o for any breach of such director's duty of loyalty to us or our security holders;
- o for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- o for unlawful payments of dividends or unlawful stock purchase or redemption by us; or
- o for any transaction from which such director derived any improper personal benefit.

Accordingly, our directors may have no liability to our shareholders for any mistakes or errors of judgment or for any act of omission, unless the act or omission involves intentional misconduct, fraud, or a knowing violation of law or results in unlawful distributions to our shareholders.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

Other Expenses of Issuance and Distribution

We will pay all expenses in connection with the registration and sale of our common stock. The estimated expenses of issuance and distribution are set forth below.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

Registration Fees	Approximately	\$39.60
Transfer Agent Fees	Approximately	\$650.00
Costs of Printing and Engraving	Approximately	\$500.00
Legal Fees	Approximately	\$5,000.00
Accounting Fees	Approximately	\$2,500.00

Recent Sales of Unregistered Securities

There have been no sales of unregistered securities within the last three years, which would be required to be disclosed pursuant to Item 701 of Regulation S-B, except for the following:

In June 2001, we issued 1,250,000 shares of our common stock to Scott Sherman, our president, secretary and one of our directors, in exchange for \$5,000 and 1,250,000 shares of our common stock to Brad Thompson, our treasurer and one of our directors, in exchange for \$5,000. The shares were issued in a transaction which we believe satisfies the requirements of that certain exemption from the registration and prospectus delivery requirements of the Securities Act of 1933, which exemption is specified by the provisions of Section 4(2) of the Securities Act of 1933, as amended.

23.2 Consent of Counsel**

* Included in Registration Statement on Form SB-2, Amendment No. 1, which was filed on September 7, 2001.

** Included in Financial Statements

*** Included in Exhibit 5

Undertakings

A. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities, other than the payment by us of expenses incurred or paid by our director, officer or controlling person in the successful defense of any action, suit or proceeding, is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

B. We hereby undertake:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To specify in the prospectus any facts or events arising after the effective date of the registration statement, or most recent post-effective amendment thereof, which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered, if the total dollar value of securities offered would not exceed that which was registered, and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) (Section 230.424(b) of Regulation S-B) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
 - (iii) To include any additional or changed material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

Edgar Filing: SRM NETWORKS INC - Form SB-2/A

- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

SIGNATURES

In accordance with the requirements of the Securities Act of 1933, as amended, we certify that we have reasonable grounds to believe that we meet all of the requirements of filing on Form SB-2 and authorized this registration statement to be signed on our behalf by the undersigned, in the city of Glendale, State of California, on September 28, 2001.
