\* Bank loans rated below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.

\*\* Senior Loans in the Fund's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Fund's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Fund's portfolio may be substantially less than the stated maturities shown. The Fund estimates that the actual average maturity of the Senior Loans held in its portfolio will be approximately 18-24 months.

(1) Senior Loans in which the Fund invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending

rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more major United States banks, and (iii) the certificate of deposit rate. Senior loans are generally considered to be restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or borrower prior to the disposition of a Senior Loan.

## Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-30D

### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

Nuveen Senior Income Fund (the "Fund") is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund is listed on the New York Stock Exchange and trades under the ticker symbol "NSL". The Fund was organized as a Massachusetts business trust on August 13, 1999.

The Fund seeks to provide a high level of current income, consistent with preservation of capital by investing primarily in senior secured loans whose interest rates float or adjust periodically based on a benchmark interest rate index. The Fund seeks to increase the income available for distribution to Common Shareholders by utilizing financial leverage.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with accounting principles generally accepted in the United States.

#### Investment Valuation

The prices of senior loans and bonds in the Fund's investment portfolio are provided by independent pricing services approved by the Fund's Board of Trustees. The pricing service providers typically value senior loans and bonds at the mean of the highest bona fide bid and lowest bona fide ask prices when current quotations are readily available. Senior loans and bonds for which current quotations are not readily available are valued at fair value using a wide range of market data and other information and analysis, including credit characteristics considered relevant by such pricing service providers to determine valuations. The Board of Trustees of the Fund has approved procedures which permit the Adviser to override the price provided by the independent pricing service. There were no price overrides during the three months ended October 31, 2001. Short-term investments which mature within 60 days are valued at amortized cost, which approximates market value.

The senior loans in which the Fund invests are generally not listed on any exchange and the secondary market for those senior loans is comparatively illiquid relative to markets for other fixed income securities. Because of the comparatively illiquid markets, the value of a senior loan may differ significantly from the value that would have been used had there been an active market for that senior loan.

#### Investment Transactions

Investment transactions are recorded on a trade date basis.

#### Investment Income

Interest income is determined on the basis of interest accrued, adjusted for amortization of premiums and accretion of discounts. Facility fees on senior loans purchased are treated as market discounts. Market premiums and discounts are amortized over the expected life of each respective borrowing. Fees consists primarily of amendment fees. Amendment fees are earned as compensation for reviewing and accepting changes to the original credit agreement.

#### Income Taxes

The Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income to its shareholders. Therefore, no federal income tax provision is required.

#### Dividends and Distributions to Shareholders

## Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-30D

The Fund intends to declare and pay monthly distributions to Common Shareholders. Generally payment is made or reinvestment is credited to shareholder accounts on the first business day after month-end. Net realized capital gains from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

### Notes to Financial Statements (Unaudited) (continued)

Distributions to shareholders of net investment income, and net realized capital gains are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. Accordingly, temporary over-distributions as a result of these differences may occur and will be classified as either distributions in excess of net investment income and/or distributions in excess of net realized gains from investment transactions, where applicable. Permanent differences between financial and tax basis reporting have been identified and appropriately reclassified. During the fiscal year ended July 31, 2001, permanent differences relating to expenses which are not deductible for tax purposes totaling \$82,779 were reclassified from undistributed net investment income to capital.

### Taxable Auctioned Preferred Shares

The Fund has issued and outstanding 1,840 Series TH \$25,000 stated value Taxable Auctioned Preferred Shares. The dividend rate paid on the Taxable Auctioned Preferred Shares may change every 28 days, as set by the auction agent.

### Derivative Financial Instruments

The Fund may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Fund is authorized to invest in such financial instruments, and may do so in the future, it did not make any such investments during the three months ended October 31, 2001.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

### Change in Accounting Policy

Effective August 1, 2001, the Fund adopted the provisions of the new AICPA Audit and Accounting Guide for Investment Companies. As required by the guide, the Fund began presenting paydown gains and losses on mortgage and asset-backed securities as interest income. Prior to adopting the new guide, the Fund presented paydown gains and losses on mortgage and asset-backed securities together with realized gain/loss from investment transactions. This change in accounting has no effect on the total net assets or net asset value of the Fund. Interest income increased by \$45,238 and realized gain/loss decreased by the same amount for the three months ended October 31, 2001.

The Statement of Changes in Net Assets and Financial Highlights for the prior periods have not been restated to reflect this change in presentation.

### 6. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Fund's investment management agreement with Nuveen Senior Loan Asset Management Inc. (the "Adviser"), a wholly owned subsidiary of the John Nuveen Company, the Fund pays an annual management fee, payable monthly, of .8500 of 1%, which is based upon the average daily managed assets of the Fund. "Managed assets" shall mean the average daily gross asset value of the Fund, minus the sum of the Fund's accrued and unpaid dividends on any outstanding Taxable Auctioned Preferred Shares and accrued liabilities (other than the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund and the liquidation preference of any outstanding Taxable Auctioned Preferred Shares).

The Adviser has agreed to waive part of its management fees or reimburse certain expenses of the Fund in an amount equal to .45% of the average daily managed assets for the period October 29, 1999 (commencement of operations) through October 31, 2004, .35% of the average daily managed assets for the year ended October 31, 2005, .25% of the average daily managed assets for the year ended October 31, 2006, .15% of the average daily managed assets for the year ended October 31, 2007, .10% of the average daily managed assets for the year ended October 31, 2008, and .05% of the average daily managed assets for the year ended October 31, 2009. The Adviser has not agreed to reimburse the Fund for any portion of its fees and expenses beyond October 31, 2009.

The management fee compensates the Adviser for overall investment advisory and

administrative services and general office facilities. The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Fund from the Adviser.
