Sidebar text: I URGE YOU TO CONSIDER RECEIVING FUTURE FUND REPORTS AND OTHER FUND INFORMATION BY E-MAIL AND THE INTERNETSEE THE INSIDE FRONT COVER OF THIS REPORT FOR STEP-BY-STEP INSTRUCTIONS.

Dear
SHAREHOLDER

Many of you recently received an annual report for your Fund for the year ended October 31, 2003. Since then, the fiscal year for the Fund has been changed to match the calendar year. This change in fiscal year was made strictly for administrative reasons, and does not have any impact on the management or future performance of your Fund. Because of this change, we have the opportunity to send you another annual report only two months after you received the previous one.

As noted in the previous report, your Fund continued to perform well. Detailed

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

information on your Fund's total return can be found in the Portfolio Managers' Perspective and on the Performance Overview pages within this report. Please take the time to read them.

In addition to providing regular monthly income, we believe that a real estate oriented investment like your Fund also may offer opportunities to reduce the risk of your overall investment portfolio. This is because the value of the Fund's holdings may move differently than the prices of other common stocks, bonds or mutual funds you may own. Since one part of your portfolio may be going up when another is going down, portfolio diversification may reduce your overall risk. Your financial advisor can explain the advantages of portfolio diversification in more detail. I urge you to contact him or her soon for more information on this important investment strategy.

I also urge you once again to consider receiving future Fund reports and other Fund information by e-mail and the Internet . Not only will you be able to receive the information faster, but this also may help lower your Fund's expenses. Sign up is quick and easy - see the inside front cover of this report for step-by-step instructions.

For more than 100 years, Nuveen has specialized in offering quality investments such as your Fund to those seeking to accumulate and preserve wealth. Our commitment to careful research, constant surveillance and judicious trading by our seasoned portfolio management team has never been stronger. Our mission continues to be to assist you and your financial advisor by offering the investment solutions and services that can help you meet your financial objectives. We thank you for choosing us as a partner as you work toward that goal.

Sincerely,

/s/ Timothy R. Schwertfeger

Nuveen Real Estate Income Fund (JRS)

Portfolio Managers'
PERSPECTIVE

The Fund is managed by a team of real estate investment professionals at Security Capital Research & Management Incorporated, a wholly-owned subsidiary of Banc One Corporation. Tony Manno and Ken Statz, who each have more than 21 years of experience in managing real estate investments, lead the team. Here they review the economic environment and performance of the Fund.

WHAT WERE THE MAJOR ECONOMIC DRIVERS OF THE REAL ESTATE AND REIT MARKETS DURING THE QUARTER AND YEAR ENDED DECEMBER 31, 2003?

The combination of low interest rates and clearer signs of economic recovery continued to highlight both income and growth attributes within the real estate stock group, driving another strong performance quarter and capping off a near-record performance year.

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

The performance pattern for real estate stocks by property type and by company during 2003 and in the fourth quarter generally reflected crosscurrents evident in both the broader stock and bond markets. Investors continued to aggressively seek current income while also targeting investments positioned for growth in an economic recovery. With the improving pattern of economic news as the year progressed, investor sentiment appeared to tilt further in favor of risk-taking. At the same time, there was a remarkable evenness to performance by property type in 2003, with returns almost universally strong and more closely clustered despite significant differences in fundamentals and outlook.

The standout performers by property type in 2003 were the retail companies, with mall companies in particular generating a total return of +52.5% for the year and +12.5% in the fourth quarter. Also part of the retail group, local shopping center companies generated returns of +40.8% in 2003, including a +8.1% return in the fourth quarter.

While still generating attractive total returns, the multifamily companies as a group were underperformers during 2003, with a total return for the year of +25.6% including a notably modest +3.7% return for the fourth quarter. Multifamily operating fundamentals continue to be weak, the combination of a depressed job market, low mortgage rates driving demand for single-family homes and continued new construction. Lodging company operations continue to be pressured by a depressed and intensely competitive travel environment, but the stocks benefited as 2003 progressed from a general easing of downside concerns regarding the Iraq conflict and a refocus by investors on the prospects for a U.S. economic recovery.

With arguably some of the most challenging operating conditions in many markets, the resilient performance of the office companies as a group during 2003 was impressive. Including a return of +11.2% during the fourth quarter, the office companies generated a total return of +36.4% in 2003, in our view reflecting stability inherent in longer lease terms for office properties and clear signs of a market bottom as the year progressed.

The level of new equity issuance stepped up significantly during the second half of 2003 bringing the full year total for new common equity to \$7.8 billion. While far short of 1997's \$26.0 billion record, this is the highest annual level of new common issuance since 1998 and reflects stepped up activity for IPOs as well as follow-on activity for existing companies.

IN THIS CONTEXT, HOW DID THE FUND PERFORM OVER THE PERIOD ENDED DECEMBER 31, 2003?

As noted in the chairman's letter, the Fund recently changed its fiscal year end to December 31 from October 31. Since shareholders recently received an annual report for the period ended October 31,

2

2003, this report covers the two months between that date and December 31, 2003. For these two months, the Fund produced a cumulative total return on net asset value of 8.69%, compared with 7.65% for the Wilshire Real Estate Index, an unmanaged index comprised of publicly-traded REITs and REOCs. It is important to note that the Fund has an active program of investing in preferred stocks, which are not included in the index. In addition, the Fund employs financial leverage while the index is unleveraged.

Since it is more customary in annual reports to show 12-month results, we've

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

also calculated fund and index total returns for the 12-month period ended December 31, 2003. For this time frame, the Fund produced a 42.69% total return on net asset value. This compares with a 37.07% return over the same period for the Wilshire Real Estate Securities Index. As of December 31, 2003, the Fund continued to trade at a premium to its net asset value.

WHAT WERE THE KEY STRATEGIES AND TACTICS USED TO MANAGE JRS OVER THIS PERIOD?

During the reporting period, we continued to focus on those preferred and common securities that we believed were best positioned to generate sustainable income and potential price appreciation. In managing the portfolio, we sought to structure a diversified portfolio while taking into account company credit quality issues, sector and geographic exposure and security-type allocations. Each decision was based on a multi-layered analysis of the company, the real estate it owns, its management, and the relative price of the security.

One important tool we employed in attempting to manage JRS for income and long-term capital appreciation was the ability to shift the portfolio's allocation between preferred and common stocks based upon the relative attractiveness of these two distinct markets. As of December 31, 2003, the portfolio allocations were 34% preferred and 65% common stock and 1% in cash equivalents.

WERE THERE ANY PARTICULAR AREAS OR TYPES OF PROPERTIES YOU FOCUSED ON IN PARTICULAR?

Throughout the reporting period, the portfolio was well diversified by property type, geography, issuer and type of security. One example of how this flexibility benefited JRS was our investment in apartment companies, many of which were under significant operating stress. By adjusting the Fund's allocation to apartments mainly through preferred stock holdings, we were able to be much more selective in our common stock investments, and still participate commensurately in the cash flows of this important component of the real estate industry.

A similar strategy was employed for office companies, in which the percentage of the allocation devoted to preferred stock ranged between 29% and 48%, and hotels, in which 85% to 100% was in preferred stock. We believe this extra layer of strategic flexibility enabled us to better diversify the portfolio by property type and issuer, without adding undue risks.

Notes to FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

Nuveen Real Estate Income Fund (the "Fund") is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended. The Fund's Common shares are listed on the American Stock Exchange and trade under the ticker symbol "JRS." The Fund was organized as a Massachusetts business trust on August 27, 2001.

Prior to the commencement of operations, the Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$15,000) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

The Fund seeks to provide high current income by investing primarily in a portfolio of income-producing common stocks, preferred stocks, convertible preferred stocks and debt securities issued by real estate companies, such as Real Estate Investment Trusts ("REITs").

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked price. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. If it is determined that market prices for a

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

security are unavailable or inappropriate, the Board of Trustees of the Fund, or its designee, may establish a fair value for the security. Short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method.

Investment Income

Dividend income is recorded on the ex-dividend date. Interest income is determined on an accrual basis (see Dividends and Distributions to Common Shareholders for REIT income recognition policy).

Income Taxes

The Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

Dividends to Common shareholders are declared monthly. The Fund's policy is to pass through to its shareholders, each month, substantially all REIT distributions it receives, together with other operating income less operating expenses. REIT distributions received by the Fund are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the twelve months ended December 31, 2003, the character of distributions to the Fund from the REITs was 69.69% ordinary income, 12.66% long-term and short-term capital gains, and 17.65% return of REIT capital.

13

Notes to FINANCIAL STATEMENTS (continued)

For the fiscal years ended October 31, 2002 and 2003, the Fund applied a percentage estimate, such as those shown above, or used a similar estimation of the breakdown of income type, to its receipts from the REITs and treated as income in the Statement of Operations only the amount of ordinary income so calculated. The Fund adjusted that estimated breakdown of income type (and consequently its net investment income) as necessary early in the following calendar year when the REITs informed their shareholders of the actual breakdown of income type. For the fiscal period ended December 31, 2003, the Fund applied the actual character of distributions reported by the REITs in which the Fund invests to its receipts from the REITs. If a REIT held in the portfolio of investments does not report the actual character of its distributions during the period, the Fund will treat the distributions as ordinary income.

During the fiscal years ended October 31, 2002 and 2003, the Fund treated each distribution to its shareholders from the portfolio REITs as being entirely from net investment income. The Fund recharacterized those distributions as being

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, at the beginning of the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in the Fund's portfolio. Recharacterizations are reflected in the accompanying financial statements. For the fiscal period ended December 31, 2003, the Fund applied the actual character of distributions reported by the REITs in which the Fund invests to the distributions paid to the Fund shareholders.

The Fund may also generate capital gains from trading investments in its portfolio which are distributed to shareholders not less frequently than annually. Such capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Taxable Auctioned Preferred Shares

The Fund has issued and outstanding 1,720 Series M, 1,720 Series T, 1,720 Series W and 1,720 Series F, \$25,000 stated value Taxable Auctioned Preferred shares. The dividend rate on each series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period.

Interest Rate Swap Transactions

The Fund is authorized to enter into hedging transactions, including interest rate swap transactions. The Fund uses interest rate swaps with the intent to reduce or eliminate the risk that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swaps involve the Fund's agreement with the swap counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on Taxable Auctioned Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the swap. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of credit loss with respect to the swap counterparty on interest rate swaps is limited to the net amount of interest payments that the Fund is to receive. The Fund has instructed the custodian to segregate assets with a current value at least equal to the amount of the net payment obligations under any interest rate swap transactions. Interest rate swap positions are marked to market daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Fund helps manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations, by having the Adviser continually monitor the financial stability of the swap counterparties.

14

At December 31, 2003, the Fund had open interest rate swap agreements with Citibank NA as follows:

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Offering Costs

Nuveen Investments, LLC has agreed to pay all Common share offering costs (other than the sales load) that exceed \$.03 per Common share. The Fund's share of Common share offering costs (\$843,000) were recorded as a reduction of the proceeds from the sale of the Common shares.

Costs incurred by the Fund in connection with its offering of Taxable Auctioned Preferred shares (\$2,013,664) were recorded as a reduction to paid-in surplus.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual amounts may differ from those estimates.

2. FUND SHARES

During the two months ended December 31, 2003, 2,658 Common shares were issued to shareholders due to reinvestment of distributions.

During the fiscal year ended October 31, 2003, 24,199 Common shares were issued to shareholders due to reinvestment of distributions.

Cost of investments	\$563,481,797

Gross unrealized appreciation and gross unrealized depreciation of investments and interest rate swap transactions at December 31, 2003, were as follows:

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Fund's investment management agreement with the Adviser, the Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the Fund's average daily managed assets. "Managed assets" means the average daily net assets of the Fund including assets attributable to Taxable Auctioned Preferred shares and the principal amount of borrowings, if any.

AVERAGE DAILY MANAGED ASSETS	MANAGEMENT FEE
For the first \$500 million	.9000%

=====

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into a Sub-Advisory Agreement with Security Capital Research & Management Incorporated ("Security Capital"), under which Security Capital manages the investment portfolio of the Fund. Security Capital is compensated for its services to the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates.

For the first ten years of the Fund's operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

Subadvisor Acquisition

On November 24, 2003, Banc One Investment Advisors Corporation, an indirect, wholly-owned subsidiary of Bank One Corporation acquired Security Capital. Pursuant to the Investment Company Act of 1940, the change in ownership of Security Capital caused the existing sub-advisory agreement to terminate, and shareholders of the Fund were required to approve a new subadvisory agreement with Security Capital. At the Fund's annual shareholder meeting on January 20, 2004, shareholders approved the new sub-advisory agreement.

On January 14, 2004 Bank One Corporation and J.P. Morgan Chase & Co. ("J.P. Morgan") announced that they have agreed to merge in a strategic business combination. The proposed merger is subject to approval of shareholders of Bank One Corp. and J.P. Morgan and approval of U.S. federal and state and foreign regulatory authorities. The transaction is expected to occur in mid-2004. In the event that the merger between Bank One Corp. and J.P. Morgan is deemed a change in control of the Sub-Adviser, shareholder approval of a new subadvisory agreement will be necessary.

6. SUBSEQUENT EVENT - DISTRIBUTIONS TO COMMON SHAREHOLDERS

Build Your Wealth AUTOMATICALLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name

Edgar Filing: NUVEEN REAL ESTATE INCOME FUND - Form N-CSR

of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

QUALIFIED DIVIDEND TAX DISCLOSURE

For Federal income tax purposes, the following information is furnished with respect to the distributions paid by the Fund during the calendar year ended December 31, 2003. For corporate shareholders none of the distributions qualify for the dividend received deduction. Certain dividends paid by the Fund may be subject to a maximum tax rate of 15%, as provided for by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The Fund intends to designate up to a maximum of 9.45% of the ordinary income as taxed at a maximum of 15%.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Each Fund intends to repurchase shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the period ended December 31, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.

The registrant has posted such code of ethics on its website at www.nuveen.com/etf.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors has determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its audit committee. ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

NUVEEN REAL ESTATE INCOME FUND FORM N-CSR DISCLOSURE RE: AUDIT FEES

The following table shows the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years and more recent stub period. For engagements with Ernst & Young, LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the fund during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years and more recent stub period for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Service Provider, if the engagement relates directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Services Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, Nuveen Advisory Corp. (the "Adviser") would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Trustees and made available to shareholders as required by applicable rules.
