Chairman's
LETTER TO SHAREHOLDERS

I am pleased to report that over the six-month period covered by this semiannual report your Fund continued to provide you with monthly tax-free income and an attractive total return. For more details about the management strategy and performance of your Fund, please see the Portfolio Manager's Perspective and Performance Overview sections of this report.

As I noted in my last letter to you, our conversations with financial advisors and investors suggest that many of you may be wondering whether long-term interest rates will soon begin to rise substantially, how high they might go, and whether that makes this a good time to adjust your holdings of fixed-income investments. We can't answer that question for you - no one knows what the future will bring.

"OUR MISSION CONTINUES TO BE TO ASSIST YOU AND YOUR FINANCIAL ADVISOR BY OFFERING INVESTMENT SERVICES AND PRODUCTS THAT CAN HELP YOU TO SECURE YOUR FINANCIAL OBJECTIVES."

From our experience, what we do know is that a well-balanced portfolio, structured and carefully monitored with the help of a trusted investment professional, can be an important component in achieving your long-term financial goals. In fact, a well-diversified portfolio may actually help to reduce your overall investment risk. That is one reason why we believe that a municipal bond investment like your Nuveen Fund can be an important building block in a comprehensive investment program designed to perform well in a variety of market conditions.

As in past reports, I'd also like to direct your attention to the inside front

Nuveen New Jersey and Pennsylvania Municipal Closed-End
Exchange-Traded Funds (NQJ, NNJ, NXJ, NUJ, NQP, NPY, NXM, NVY)

Portfolio Manager's
PERSPECTIVE

Portfolio manager Paul Brennan discusses key investment strategies and the semiannual performance of these Nuveen New Jersey and Pennsylvania Funds. With 14 years of investment experience, including 9 at Nuveen, Paul assumed portfolio management responsibility for these Funds in 2003.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE FUNDS DURING THE SIX MONTHS ENDED
DECEMBER 31, 2004?

Between June and December 2004, the Federal Reserve announced five quarter-point increases in the fed funds rate, raising this short-term interest rate benchmark to 2.25% from 1%. (On February 2, 2005, after the close of this reporting period, the Federal Reserve raised the fed funds rate by another 0.25% to 2.50%.) At the same time, long-term municipal interest rates trended lower. In this flattening yield curve environment, our focus centered on finding bonds that we believed had the potential to add value to the Funds' portfolios and perform well under a variety of market scenarios.

In general, we sought to purchase attractive bonds in parts of the yield curve that we believed would reduce the Funds' overall interest rate risk (the risk that the value of a Fund's portfolio will decline if market interest rates rise, since bond prices move in the opposite direction of interest rates). To accomplish this, we focused our purchase activity, depending on the Fund, on finding higher quality securities that mature in 5 to 20 years. In many cases, these bonds offered what we thought were attractive yields with less inherent interest rate risk than longer-term bonds. NNJ, however, had a shorter duration¹ than the other three New Jersey Funds throughout this period. For this Fund, we looked for opportunities with longer maturities in an effort to extend this Fund's duration.

While the majority of our purchases during this period focused on higher-quality credits, we continued to diversify the Funds' holdings with the addition of selected lower-rated issues, with special emphasis on the hospital sector. In the New Jersey Funds, our purchases included BBB rated bonds issued by Camden County Improvement Authority for Cooper Health Systems. These bonds offered what

we thought were attractive yields while enabling us to strategically increase the Funds' healthcare exposure. We also added state-issued cigarette tax bonds, which were rated BBB and backed by excise taxes on cigarettes purchased in New Jersey. These additions to our portfolios account for the slight increase in NQJ's and NNJ's allocations of BBB credits over the past six

1 Duration is a measure of a Fund's net asset value (NAV) volatility in reaction to interest rate movements. Fund duration, also known as leverage-adjusted duration, takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund. References to duration in this commentary are intended to indicate Fund duration unless otherwise noted.

4

months. The exception to this was NUJ, where we actively took advantage of opportunities to trim the Fund's overweighting in the BBB category and reinvest the proceeds in higher quality bonds.

In the Pennsylvania Funds, we also continued to work on increasing diversification, adding A rated bonds issued for St. Mary's Hospital Authority to all four Funds. In NXM and NVY, we also purchased bonds issued by the Pennsylvania Economic Development Financing Authority (EDFA) for Reliant Energy, a B1/B+ issue that performed very well after our purchase. Other purchases included nonrated bonds issued by Allegheny County for the development of Pittsburgh Mills shopping mall, which we found attractive based on the developer's successful track record with previous projects. To finance these additions, we sold some of our longer-term holdings, particularly in NQP and NVY where durations were longer.

One of our longer-term goals is to position each of these Funds so that they provide return variability and interest rate risk exposure roughly comparable to the variability and risk of the markets in which they invest. As one strategy to reach this goal, we attempted to manage some of its inherent interest rate risk in NXJ, NUJ, NXM, and NVY by utilizing interest rate swaps to hedge some of this risk. Our only objective with these hedges was to reduce the durations of these Funds without having a negative impact on their income stream or dividend-paying capability over the short-term. The costs of the hedges are reflected as an addition or subtraction from the Funds' net asset value as the value of the hedges fluctuate. While these hedge positions did reduce the Fund's exposure to interest rate risk, they did have negative impacts on the Funds' performance for the period ended December 31, 2004, because long-term interest rates fell and bond prices rose during the period in which the hedges were in place. However, this loss in value was at least partly offset by the fact that the municipal bonds in the Funds' portfolios, because they had longer-than-target durations, increased in value by more as a result of these interest rate decreases than they would have if they had had durations closer to the target.

For the six months ended December 31, 2004, the cumulative returns on NAV for all eight of the New Jersey and Pennsylvania Funds exceeded the return on the Lehman Brothers Municipal Bond Index. NUJ, NQP, NXM and NVY also outperformed the average return for their Lipper peer groups for this period, while the other Funds trailed their Lipper group average return.

One of the primary factors benefiting the six-month performances of these Funds relative to that of the unmanaged Lehman Brothers index was the Funds' use of financial leverage. While leveraging can add volatility to a Fund's NAV and share price, especially during periods of rising interest rates, this strategy can also provide opportunities for additional income and total returns for common shareholders when short-term interest

rates remain relatively low and long-term rates fall or remain relatively constant, as they did during this reporting period.

As noted earlier, one of our key strategies during this six-month period involved working to enhance the Funds' duration positioning. As a result, the majority of these Funds were well positioned for the rate environment of this period, and this played a role in their relative outperformance. However, NNJ and NPY had relatively large exposures to short duration securities with short calls. During this reporting period, in which yields on longer bonds dropped even as short-term rates rose, these overweightings detracted from the performance of these two Funds.

All of these Funds benefited from their holdings of lower quality bonds, which generally outperformed higher quality sectors as the economy improved. Among the lower-rated bonds making positive contributions to the Funds' cumulative returns during this period were those issued by the healthcare sector, especially hospital bonds, which ranked second in terms of performance among the Lehman municipal revenue sectors for this six-month period.

All of the New Jersey Funds' returns were also boosted by the strong double-digit performance of their holdings of BBB rated bonds backed by the 1998 master tobacco settlement agreement. These bonds produced exceptionally strong results during this period, as the litigation environment seemed to improve and a relative lack of supply faced continued strong demand. Over this period, NQJ and NUJ maintained exposures of approximately 4% to tobacco bonds, while NNJ and NXJ continued to allocate 3% to this sector.

As the airline sector began to show some signs of recovery, NXJ and NUJ also had positive contributions from their holdings of bonds issued for Continental Airlines, while NQJ benefited from its position in American Airlines bonds.

The Pennsylvania Funds also saw strong performance from their holdings of higher education bonds, another sector that posted good returns during this six-month period. NVY's performance also was helped by the pre-refunding of some of its state-issued general obligation holdings. This resulted in improved credit quality and price appreciation, which in turn added to NVY's return for the period.

7

One area of the New Jersey and Pennsylvania markets that did not perform well was the housing sector, both multifamily and single family, which ranked at the bottom of the Lehman revenue sectors for this period. This sector's

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

underperformance stemmed largely from the increase in mortgage prepayments as interest rates remained low, which resulted in a rise in bond calls. In general, all of these Funds had only modest allocations to the housing sector, which limited the negative impact.

HOW ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

As short-term interest rates remained relatively low throughout this reporting period, the leveraged structures of these Funds continued to help support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates these Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. This strategy helped to maintain the dividends of NQJ, NNJ, NXJ, NUJ, NQP, NPY and NXM throughout the reporting period. However, the modest rise in short-term interest rates during this period increased borrowing costs enough to offset some of the leverage advantage in NVY, which was initially invested during the low rate environment of 2002 and has not had the opportunity to build reserves. As a result, NVY's dividend was cut in December 2004.

In addition, due to capital gains generated by duration management and other portfolio management strategies, common shareholders of several of the Funds received substantial capital gains and net ordinary income distributions at the end of December 2004. These included shareholders of NQJ (\$0.1097 per share), NNJ (\$0.2179 per share), NUJ (\$0.0526 per share), NQP (\$0.1422 per share), NPY (\$0.1846 per share), NXM (\$0.3691 per share), and NVY (\$0.0429 per share). NXM's distribution was augmented by a sizable gain that resulted from our reducing the Fund's position in bonds issued by Pennsylvania EDFA for National Gypsum Company, which we had originally purchased at about 50 cents on the dollar. As the price on these bonds recovered to par with the resolution of asbestos litigation, we decided to realize some of the gains by trimming our holdings, thus generating a large capital gain for NXM.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay

8

dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of December 31, 2004, all of the Funds in this report with the exception of NVY had positive UNII balances for both financial statement and tax purposes. NVY had a negative UNII balances for both financial statement and tax purposes.

As of December 31, 2004, the Funds were trading at premiums or discounts to their net asset values as shown in the accompanying chart.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF DECEMBER 31, 2004?

We continued to believe that, given the current geopolitical and economic climate, maintaining strong credit quality was an important requirement. As of December 31, 2004, these eight Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA among the New Jersey Funds ranging from 67% in NUJ and 76% in NXJ to 80% in NQJ and 83% in NNJ. Among the Pennsylvania Funds, these allocations ranged from 74% in NXM to 84% in NPY, 85% in NVY, and 87% in NQP.

As of December 31, 2004, potential call exposure for the New Jersey Funds ranged from 3% in NXJ and 4% in NUJ to 7% in NNJ and 9% in NQJ during 2005 and 2006. Over this same period, the Pennsylvania Funds faced potential calls ranging from 2% in NVY and 3% in NXM to 8% in NQP and 10% in NPY. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

Agreement with Morgan Stanley dated August 10, 2004, to pay semi-annually the notional amount multiplied by 5.489% (annualized) and receive quarterly the notional amount multiplied by the three-month USD-LIBOR (United States Dollar - London Inter-Bank Offered Rates).	\$1,400,000	1/14/05

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.
- (2) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap contract.
- * Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings: Using the higher of Standard & Poor's or Moody's rating.
- *** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
- N/R Investment is not rated.
- + Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares.
- (2) Effective date represents the date on which both the Fund and counterparty commence interest payment accruals on each forward swap contract.
- * Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates.
- ** Ratings: Using the higher of Standard & Poor's or Moody's rating.
- *** Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
- N/R Investment is not rated.
- + Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term security. The rate disclosed is that currently in effect. This rate changes periodically based on market conditions or a specified market index.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of derivative investments are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. If the pricing service is unable to supply a price for a derivative investment each Fund may use a market quote provided by a major broker/dealer in such investments. If it is determined that market prices for an investment are unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at

amortized cost, which approximates market value.

Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At December 31, 2004, Pennsylvania Investment Quality (NQP), Pennsylvania Premium Income 2 (NPY), Pennsylvania Dividend Advantage (NXM), and Pennsylvania Dividend Advantage 2 (NVY) had outstanding when-issued purchase commitments of \$4,502,600, \$4,159,277, \$1,125,650 and \$562,825, respectively. There were no such outstanding purchase commitments in any of the other funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable weekly at the end of each rate period. The number of

Forward Swap Transactions

The Funds may invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net asset value. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment. The amount of the payment obligation is based on the notional amount of the forward swap contract. The Funds may close out a contract prior to the effective date at which point a realized gain or loss would be recognized. When a forward swap is terminated, it does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash. Each Fund intends, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To minimize such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Bank Borrowings

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

The Funds' have an unsecured bank line of credit under which outstanding balances bear interest at a variable rate equal to the Federal Funds Rate plus .45% per annum. As of December 31, 2004, the Funds were paying interest at 2.7625% per year on their respective outstanding borrowings. No compensating balances are required.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses on investments, timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

As approved by the Board of Trustees, effective August 1, 2004, a complex-wide management fee structure was adopted for all funds sponsored by Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. ("Nuveen") and its This fee structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all funds assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .009% as of January 31, 2005.

Effective August 1, 2004, the annual fund-level fee, payable monthly, for each of the Funds is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

	NEW JERSEY INVESTMENT QUALITY (NQJ) NEW JERSEY PREMIUM INCOME (NNJ) PENNSYLVANIA INVESTMENT QUALITY (NQP) PENNSYLVANIA PREMIUM INCOME 2 (NPY) FUND-LEVEL FEE RATE

Notes to
FINANCIAL STATEMENTS (Unaudited) (continued)

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

Each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

Reinvest Automatically
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY.A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on the dividends or distributions awaiting reinvestment. Because the market price may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Other Useful
INFORMATION

Effective Jan. 1, 2005, the asset management services and operations of Nuveen Advisory Corp. (NAC) and Nuveen Institutional Advisory Corp (NIAC) became part of Nuveen Asset Management (NAM). This internal consolidation is intended to simplify the delivery of services to the investment management clients of Nuveen Investments. It does not affect the investment objectives or portfolio management of any Fund.

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

Each Fund's (i) quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent 12-month period ended June 30, 2004, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities are available without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at 1-202-942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public Reference Section at 450 Fifth Street NW, Washington, D.C. 20549.

GLOSSARY OF TERMS USED IN THIS REPORT

AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

AVERAGE EFFECTIVE MATURITY: The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

LEVERAGE-ADJUSTED DURATION: Duration is a measure of the sensitivity of a bond or bond Fund's value to changes when interest rates change. Generally, the longer a bond or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.

NET ASSET VALUE (NAV): A Fund's common share NAV per share is calculated by

Edgar Filing: NUVEEN NEW JERSEY DIVIDEND ADVANTAGE MUNICIPAL FUND - Form N-CSRS

subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
