Chairman's
LETTER TO SHAREHOLDERS
| Robert P. Bremner | Chairman of the Board

Dear Shareholders,

I'd like to use my initial letter to you to accomplish several things. First, I want to report that after fourteen years of service on your Fund's Board, including the last twelve as chairman, Tim Schwertfeger retired from the Board in June. The Board has elected me to replace him as the chairman, the first time this role has been filled by someone who is not an employee of Nuveen Investments. Electing an independent chairman marks a significant milestone in the management of your Fund, and it aligns us with what is now considered a "best practice" in the fund industry. Further, it demonstrates the independence with which your Board has always acted on your behalf.

Following Tim will not be easy. During my eleven previous years on the Nuveen Fund Board, I found that Tim always set a very high standard by combining insightful industry and market knowledge and sound, clear judgment. While the Board will miss his wise counsel, I am certain we will retain the primary commitment Tim shared with all of us - an unceasing dedication to creating and retaining value for Nuveen Fund shareholders. This focus on value over time is a touchstone that I and all the other Board members will continue to use when making decisions on your behalf.

Second, I also want to report that we are very fortunate to welcome two new Board members to our team. John Amboian, the current chairman and CEO of Nuveen Investments, has replaced Tim as Nuveen's representative on the Board. John's presence will allow the independent Board members to benefit not only from his leadership role at Nuveen but also his broad understanding of the fund industry and Nuveen's role within it. We also added Terry Toth as an independent director. A former CEO of the Northern Trust Company's asset management group, Terry will bring extensive experience in the fund industry to our deliberations.

Third, on behalf of the entire Board, I would like you to know that we are closely monitoring the unprecedented market developments and their distressing impact on the Funds. We believe that these Funds continue to be actively and constructively managed for the long term and at the same time we are very aware
that these are trying times for our investors. We appreciate the patience you have shown with the Board and with Nuveen Investments as they manage your investment through this extremely difficult period.

Fourth, again on behalf of the entire Board, I would like to acknowledge the effort the whole Nuveen organization is making to resolve the auction rate preferred share situation in a satisfactory manner. As you know, we are actively pursuing a number of possible solutions, all with the goal of providing liquidity for preferred shareholders while preserving the potential benefits of leverage for common shareholders. We appreciate the patience you have shown as we've worked through the many difficulties involved.

Finally, I urge you to take the time to review the Portfolio Managers' Comments, the Common Share Dividend and Share Price Information, and the Performance Overview sections of this report. All of us are grateful that you have chosen Nuveen Investments as a partner as you pursue your financial goals, and, on behalf of myself and the other members of your Fund's Board, let me say we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,
/s/ Robert P. Bremner

Robert P. Bremner
Chairman of the Board
December 23, 2008

Portfolio Managers' COMMENTS

Nuveen Investments Municipal Closed-End Funds | NPP, NMA, NMO NAD, NXZ, NZF

Portfolio managers Tom Spalding and Paul Brennan discuss U.S. economic and municipal market conditions, key investment strategies, and the twelve-month performance of these six national Funds. A thirty-two-year veteran of Nuveen, Tom has managed NXZ since its inception in 2001 and NPP, NMA, NMO, and NAD since 2003. With nineteen years of industry experience, including eleven years at Nuveen, Paul assumed portfolio management responsibility for NZF in 2006.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE TWELVE-MONTH REPORTING PERIOD ENDED OCTOBER 31, 2008?

During this period, stress in the financial and credit markets led to increased price volatility for many securities, reduced liquidity and a general flight to quality. The Federal Reserve (Fed) began in September 2007 a series of interest rate cuts that lowered the fed funds rate by 325 basis points--from 5.25\% to $2.00 \%$-over an eight-month period ending April 2008. In October 2008, the Fed announced two additional reductions of 50 basis points each, bringing the fed funds rate down to $1.00 \%$ its lowest level since 2003. (On December 16, after the end of this twelve-month period, the Fed reduced the fed funds rate target to $0.25 \%$ or less.)

The Fed's rate-cutting actions also were a response to concerns about the pace of U.S. economic growth, as measured by the U.S. gross domestic product (GDP). After declining at an annual rate of $0.2 \%$ in the fourth quarter of 2007 , GDP improved to a positive 0.9\% in the first quarter of 2008 and posted growth of $2.8 \%$ in the second quarter of 2008 (all GDP numbers annualized). During the third quarter of 2008, however, GDP contracted at an annual rate of $0.5 \%$ the biggest decrease since 2001, mainly as the result of the first decline in

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

consumer spending since 1991 and an $18 \%$ drop in residential investment. The Consumer Price Index (CPI), driven largely by increased energy, food and transportation prices, registered a 3.7\% year-over-year gain as of October 2008, while the core CPI (which excludes food and energy) rose $2.2 \%$ over this same period, above the Fed's unofficial target of $2.0 \%$ or lower. In the labor markets, October 2008 marked the tenth consecutive month of job losses. The national unemployment rate for October 2008 was $6.5 \%$ its highest point in more than fourteen years, up from 4.8\% in October 2007.

In the municipal bond market, performance was significantly impacted by concerns about the credit markets, downgrades of municipal bond insurers, failed auctions of preferred shares and institutional investors' need to unwind various leveraging strategies. These events created surges of selling pressure, especially in late September and early October 2008. While some investors curtailed purchases, non-traditional buyers of

Discussions of specific investments are for illustrative purposes only and are not intended as recommendations of individual investments. The views expressed in this commentary represent those of the portfolio managers as of the date of this report and are subject to change at any time, based on market conditions and other factors. The Funds disclaim any obligation to advise shareholders of such changes.
municipal bonds such as hedge funds, traditional buyers such as tax-exempt money market funds, and institutions were forced to sell holdings of longer-maturity bonds into a market already experiencing reduced liquidity.

Combined with the Fed rate cuts, this selling produced a sharp steepening of the municipal yield curve, as longer-term interest rates rose and short-term rates declined over this period. In this environment, bonds with shorter maturities generally outperformed longer maturity bonds, and higher quality bonds tended to outperform lower quality credits.

Another item of note in the municipal market was the U.S. Supreme Court's May 2008 ruling that individual states could continue to offer their residents special tax treatment on municipal bonds issued within their borders. The high court's decision preserved tax rules in forty-two states, allowing them to continue to exempt from taxation the income their residents earn on in-state municipal bonds while taxing the income earned on municipal bonds issued in other states.

Over the twelve months ended October 31, 2008, municipal bond issuance nationwide totaled $\$ 450.3$ billion, a drop of $8 \%$ from the previous twelve months. In 2008, insured bonds comprised less than $20 \%$ of new supply, compared with the recent historical figure of approximately $50 \%$. While market conditions during this period impacted the demand for municipal bonds, we continued to see demand from investors attracted by higher interest rates and yields relative to taxable bonds.

WHAT KEY STRATEGIES WERE USED TO MANAGE THESE FUNDS DURING THIS REPORTING PERIOD?

During this twelve-month period, with the municipal market characterized by volatility and a relatively steep yield curve, we sought to capitalize on a turbulent environment by continuing to focus on relative value and investing for

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

the long term, preserving and enhancing liquidity, and managing duration(1) risk.

As events in the general financial markets unfolded, we found attractive opportunities in various sectors of the municipal market, using a fundamental approach to identify undervalued sectors and individual credits with the potential to perform well over the long term. Among the bonds we added during this period were health care and housing issues that we believed were attractively priced and had good credit fundamentals. Some of the Funds also added tobacco bonds to bring their allocations in line with the market.

In addition, some portfolio activity was driven by our efforts to boost liquidity or cash reserves. Especially during the commotion of September and October, we believed that it was prudent to take defensive measures that would reduce the Funds' exposure to market risk. These measures included pre-emptively selling some holdings and raising the Funds' cash reserves. Throughout the period, we selectively sold holdings with shorter durations, including pre-refunded(2) bonds. We also took advantage of strong bids to sell bonds that were attractive to the retail market. Given the market environment, retail demand was often strongest for higher credit quality bonds. At all times, we
(1) Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.
(2) Pre-refundings, also known as advance refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.
were careful to balance our efforts to enhance liquidity through sales to the retail market with our focus on maintaining the credit quality of our portfolios in an uncertain market. Some of our new purchases were also funded by reinvesting the proceeds from called or matured bonds.

As a key dimension of risk management, we employed a disciplined approach to duration positioning as an important component of our overall strategy. As part of this approach, we used inverse floating rate securities(3), in all six of these Funds. Inverse floaters typically provide the dual benefit of bringing the Funds' durations closer to our strategic target and enhancing their income-generation capabilities. NZF also used certain derivative instruments in an effort to lengthen its duration and help manage common share net asset value (NAV) volatility while trying to minimize any negative impact on its income stream or common share dividends over the short term. As of October 31, 2008, we continued to use inverse floaters in all of these Funds and the derivatives remained in place in NZF.

HOW DID THE FUNDS PERFORM?

Individual results for these Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Annualized Total Returns on Common Share Net Asset Value For periods ended 10/31/08

|  | 1-Year | 5-Year | 10-Year |
| :---: | :---: | :---: | :---: |
| NPP | -12.49\% | 1.63\% | 3.91\% |
| NMA | -15.65\% | 0.89\% | 3.66\% |
| NMO | -13.07\% | 1.35\% | 3.37\% |
| NAD | -16.42\% | 0.85\% | N/A |
| NXZ | -13.23\% | 2.79\% | N/A |
| NZF | -14.99\% | 1.97\% | N/A |
| Lipper General |  |  |  |
| Leveraged |  |  |  |
| Municipal Debt |  |  |  |
| Funds Average (4) | -19.05\% | 0.29\% | 2.87\% |
| Barclays Capital |  |  |  |
| Municipal |  |  |  |
| Bond Index(5) | -3.30\% | 2.73\% | 4.14\% |
| S\&P National |  |  |  |
| Municipal Bond Index(6) | -4.15\% | 2.75\% | N/A |

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.
(3) An inverse floating rate security is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during this reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in this Report sections of this shareholder report.
(4) The Lipper General Leveraged Municipal Debt Funds Average is calculated using the returns of all closed-end funds in this category for each period as follows: 1 year, 54 funds; 5 years, 52 funds; and 10 years, 38 funds. Fund and Lipper returns assume reinvestment of dividends.
(5) The Barclays Capital (formerly Lehman Brothers) Municipal Bond Index is an unleveraged, unmanaged national index comprising a broad range of investment-grade municipal bonds. Results for the Barclays Capital index do not reflect any expenses.
(6) The Standard \& Poor's (S\&P) National Municipal Bond Index is an unleveraged, market value-weighted index designed to measure the performance of the investment-grade U.S. municipal bond market.

For the twelve months ended October 31, 2008, the total returns on common share NAV for all six of the Funds in this report exceeded the average return for the Lipper General Leveraged Municipal Debt Funds Average. The Funds underperformed

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

the Barclays Capital Municipal Bond Index and the Standard \& Poor's (S\&P) National Municipal Bond Index.

Key management factors that influenced the Funds' returns included duration positioning, the use of derivatives, credit exposure and sector allocations. In addition, a major factor affecting each Fund's performance over this period was the use of leverage. The impact of leverage is discussed in more detail on page eight.

Given the changes in the interest rate environment during this period, bonds in the Barclays Capital Municipal Bond Index with maturities of ten years or less outperformed the market as a whole, with bonds maturing in one to six years benefiting the most. Because they were less sensitive to interest rate changes, these shorter bonds generally outperformed credits with longer maturities, with the biggest losses posted by bonds with the longest maturities (twenty-two years and longer). In general, the greater the Fund's exposure to the underperforming longer part of the yield curve, the greater the negative impact on the Fund's return. Overall, among these six Funds, NAD was the most heavily weighted in the longer part of the curve, while NMO had the smallest exposure to this part of the curve.

As mentioned earlier, NZF used derivative positions throughout this period to synthetically extend duration and move it closer to our strategic duration target. Despite the fact that longer duration municipal bonds generally underperformed those with shorter durations, the use of these derivatives had a positive impact on NZF's total return performance. This positive impact was attributable to the fact that the derivative positions provided exposure to taxable markets during a period when the taxable securities performed relatively well when compared with their non-taxable counterparts.

However, the inverse floaters used by all six of these Funds generally had a negative impact on performance. This resulted from the fact that the inverse floaters effectively increased the Funds' exposure to longer maturity bonds at a time when shorter maturities were in favor in the market.

Credit exposure, including exposure to bonds backed by municipal bond insurers, also was a factor in performance during this period. Because risk-averse investors generally sought higher quality investments as disruptions in the financial markets deepened, bonds with higher credit quality ratings typically performed very well. However, insured bonds with underlying credits that were rated $B B B$ or non-rated, originally purchased because of the higher yields they offered, experienced a disproportionately negative impact (compared with bonds with underlying credits rated AA or $A$ ) if the insurer backing the bond was downgraded from AAA. As many investors avoided high-yield securities, bonds rated $B B B$ or below and non-rated bonds generally posted poor returns. As of October 31, 2008, allocations of bonds rated BBB or lower and
non-rated bonds accounted for approximately 9\% of NMO's portfolio, 13\% of NAD, $14 \%$ of NPP and NZF, $16 \%$ of NMA and $19 \%$ of NXZ. This lower-rated credit exposure, which was generally higher than that of the Barclays Capital Municipal Bond Index, was a negative influence on Funds' performances for this period. Conversely, the Funds' weightings in bonds rated AAA were generally positive for performance.

Sectors of the market that generally contributed positively to the Funds' performances included general obligation bonds, resource recovery, water and sewer, and utilities. Pre-refunded bonds, which are usually backed by U.S.

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

Treasury securities, were one of the top performing segments of the market, due primarily to their shorter effective maturities, higher credit quality, and perceived safety. Holdings of pre-refunded bonds ranged from $18 \%$ to $40 \%$ among these Funds, with NMO having the heaviest weighting of pre-refunded issues and NAD the smallest.

In general, bonds that carried any credit risk, regardless of sector, continued to post weak performance. Revenue bonds as a whole, and the industrial development sector in particular, underperformed the general municipal market. Next to the industrial development sector, zero coupon bonds were among the worst performing categories. The health care and housing sectors also performed very poorly, as did lower-rated bonds backed by the 1998 master tobacco settlement agreement.

## IMPACT OF THE FUNDS' CAPITAL STRUCTURES AND LEVERAGE STRATEGIES ON PERFORMANCE

In addition to the factors mentioned above, one of the primary factors negatively impacting the annual returns of these Funds relative to those of the unleveraged indexes was the Funds' use of financial leverage. While leverage offers opportunities to generate additional income and total returns for common shareholders, the benefits provided by leveraging are influenced by the price movements of the bonds in each Fund's portfolio. During this period, as yields on longer-term bonds rose and their prices correspondingly fell, declining valuations had a negative effect on performance that was magnified by the use of leverage. In addition, at various points during the twelve-month period, the Funds' borrowing costs were relatively high, negatively impacting their total returns. In the turbulent market environment of the past twelve months, the impact of any valuation change in the Fund's holdings-whether positive or negative-was magnified by the use of leverage.

## RECENT DEVELOPMENTS IN THE MARKET ENVIRONMENT

Beginning in October, the nation's financial institutions and financial markets--including the municipal bond market--experienced significant turmoil. Reductions in demand decreased valuations of municipal bonds across all credit ratings, especially those with lower credit ratings, and this generally reduced the Funds' net asset values. The municipal market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms'capital was severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal bonds. This reduction in dealer
involvement in the market was accompanied by significant net selling pressure by investors, particularly with respect to lower-rated municipal bonds, as institutional investors generally removed money from the municipal bond market, at least in part because of their need to reduce the leveraging of their municipal investments. This de-leveraging was in part driven by the overall reduction in the amount of financing available for such leverage, the increased costs of such leverage financing, and the need to reduce leverage levels that had recently increased due to the decline in municipal bond prices.

Municipal bond prices were further negatively impacted by concerns that the need for further de-leveraging and a supply overhang as a large amount of new issues were postponed would cause selling pressure to persist for a period of time. In addition to falling prices, these market conditions resulted in greater price

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

#### Abstract

volatility of municipal bonds; wider credit spreads (i.e., lower quality bonds fell in price more than higher quality bonds); significantly reduced liquidity (i.e., the ability to sell bonds at a price close to their carrying value), particularly for lower quality bonds; and a lack of price transparency (i.e., the ability to accurately determine the price at which a bond would likely trade). Reduced liquidity was most pronounced in mid-October, and although liquidity improved considerably over ensuing weeks, it may reoccur if financial turmoil persists or worsens.

RECENT DEVELOPMENTS REGARDING BOND INSURANCE COMPANIES

As mentioned earlier, another factor that had an impact on the performance of these Funds was their position in bonds backed by municipal bond insurers that experienced downgrades in their credit ratings. During the period covered by this report, ACA, AMBAC, FGIC, MBIA, RAAI and SYNCORA (formerly XLCA) experienced one or more rating reductions by at least one or more rating agencies. Subsequent to the reporting period, AMBAC, MBIA and SYNCORA experienced further rating reductions while AGC and FSA received their first rating reductions by at least one rating agency. At the time this report was prepared, at least one rating agency has placed each of these insurers except AGC on "negative outlook" or "negative credit watch," which may presage one or more rating reductions for such insurer or insurers in the future. As concern increased about the balance sheets of these insurers, prices on bonds insured by these companies - especially those bonds with weaker underlying credits declined, detracting from the Funds' performance. By the end of this period, most insured bonds were being valued according to their fundamentals as if they were uninsured. On the whole, the holdings of all of our Funds continued to be well diversified not only between insured and uninsured bonds, but also within the insured bond category. It is important to note that municipal bonds historically have had a very low rate of default.

## RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED SECURITIES MARKETS

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the auction rate preferred shares issued by these Funds than
there were offers to buy. This meant that these auctions "failed to clear" and that many or all auction rate preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction rate preferred shares did not lower the credit quality of these shares, and auction rate preferred shareholders unable to sell their shares received distributions at the "maximum rate'' applicable to failed auctions as calculated in accordance with the pre-established terms of the auction rate preferred shares.

On June 11, 2008, Nuveen announced the Fund Board's approval of plans to use tender option bonds (TOBs), also known as floating rate securities, to refinance a portion of the municipal Funds' outstanding auction rate preferred shares, for which auctions have been failing for several months. This plan included an initial phase of approximately $\$ 1$ billion in forty-one Funds. During the twelve-month reporting period, NPP, NMA, NMO, NAD and NZF redeemed $\$ 39,350,000$, $\$ 16,350,000, \$ 18,325,000, \$ 28,200,000$ and $\$ 41,225,000$ of their outstanding auction rate preferred shares, respectively, at liquidation value, using the proceeds from the issuance of TOBs.

On August 7, 2008, NXZ issued par redemption notices for all outstanding shares of its auction rate preferred securities totaling $\$ 222$ million. These redemptions were achieved through the issuance of $\$ 196$ million of variable rate demand preferred shares (VRDP) and the proceeds from the creation of TOBs. VRDP is a new instrument designed to replace the auction rate preferred securities used as leverage in many Nuveen closed-end Funds. VRDP is offered only to qualified institutional buyers, as defined pursuant to Rule 144 A under the Securities Act of 1933.

For current, up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:
http://www.nuveen.com/ResourceCenter/AuctionRatePreferred.aspx.

Common Share
Dividend and Share Price
INFORMATION

During the twelve-month reporting period ended October 31, 2008 , there was one dividend increase in NPP, NMA, NMO, NAD and NZF, while the dividend of NXZ remained stable throughout the period.

Due to capital gains generated by normal portfolio activity, common shareholders of the following Funds received capital gains or net ordinary income distributions at the end of December 2007 as follows:

> Long-Term Capital Gains
> (per share)

Short-Term Capital Gains and/or Ordinary Income (per share)

NMA
$\$ 0.0238$
$\$ 0.0033$

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of October 31, 2008, NPP, NMA and NAD had positive UNII balances for both tax and financial statement purposes while NMO, NXZ and NZF had positive UNII balances for tax purposes and negative UNII balances for financial statement purposes.

The Funds' Board of Directors/Trustees approved an open-market share repurchase program on July 30, 2008, under which each Fund may repurchase up to $10 \%$ of its common shares. As of October 31, 2008, the Funds had not repurchased any of their outstanding common shares.

As of October 31, 2008 , the Funds' common share prices were trading at discounts to their common share NAVs as shown in the accompanying chart:

| 10/31/08 | Twelve-Month |
| :--- | ---: |
| Discount | Average Discount |

| NPP | $-9.38 \%$ | $-11.03 \%$ |
| :--- | ---: | ---: |
| NMA | $-5.86 \%$ | $-7.47 \%$ |
| NMO | $-5.81 \%$ | $-9.06 \%$ |
| NAD | $-8.92 \%$ | $-8.14 \%$ |
| NXZ | $-2.83 \%$ | $-2.24 \%$ |
| NZF | $-11.40 \%$ | $-8.61 \%$ |

(1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of $28 \%$. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Performance Plus Municipal Fund, Inc., Nuveen Municipal Advantage Fund, Inc., Nuveen Municipal Market Opportunity Fund, Inc., Nuveen Dividend Advantage Municipal Fund, Nuveen Dividend Advantage

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

Municipal Fund 2, and Nuveen Dividend Advantage Municipal Fund 3 (the "Funds") as of October 31, 2008, and the related statements of operations and cash flows (Nuveen Dividend Advantage Municipal Fund 2 only) for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2008 , by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Performance Plus Municipal Fund, Inc., Nuveen Municipal Advantage Fund, Inc., Nuveen Municipal Market Opportunity Fund, Inc., Nuveen Dividend Advantage Municipal Fund, Nuveen Dividend Advantage Municipal Fund 2, and Nuveen Dividend Advantage Municipal Fund 3 at October 31, 2008, the results of their operations and cash flows (Nuveen Dividend Advantage Municipal Fund 2 only) for the year then ended, changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with U.S. generally accepted accounting principles

```
Net Assets Applicable to Common Shares - 100%
```

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions (not covered by the report of independent registered public accounting firm) : Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAA and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Auction Rate Preferred Shares, at Liquidation Value as a percentage of Total Investments is $35.9 \%$.

N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions (not covered by the report of
```

independent registered public accounting firm) : Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.
The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Auction Rate Preferred Shares, at Liquidation Value as a percentage of Total Investments is $38.9 \%$.
N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

\hline
\end{tabular}
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions (not covered by the report of independent registered public accounting firm) : Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings
```

of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Non-income producing security, in the case of a bond, generally denotes that the issuer has defaulted on the payment of principal or interest or has filed for bankruptcy.
(6) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
(7) Auction Rate Preferred Shares, at Liquidation Value as a percentage of Total Investments is $35.0 \%$.
N/R Not rated.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

Variable Rate Demand Preferred Shares, at Liquidation Value - (52.4) \% (7)

```
Other Assets Less Liabilities - 3.9%
```

Net Assets Applicable to Common Shares - 100\%
(1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
(2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
(5) Portion of investment has been pledged as collateral for Recourse Trusts.
(6) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
(7) Variable Rate Demand Preferred Shares, at Liquidation Value as a percentage of Total Investments is $34.6 \%$.

N/R Not rated.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
(3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard \& Poor's Group ("Standard \& Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard \& Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of October 31, 2008. Please see the Portfolio Managers' Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure

```
the timely payment of principal and interest. Such
investments are normally considered to be equivalent to AAA
rated securities.
(5) Portion of investment has been pledged to collateralize the
net payment obligations under futures contracts.
(6) Auction Rate Preferred Shares, at Liquidation Value as a
percentage of Total Investments is 34.5%.
N/R Not rated.
(ETM) Escrowed to maturity.
(IF) Inverse floating rate investment.
(UB) Underlying bond of an inverse floating rate trust reflected
as a financing transaction pursuant to the provisions of
SFAS No. 140.
```

See accompanying notes to financial statements.

FINANCIAL STATEMENTS

## 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen Performance Plus Municipal Fund, Inc. (NPP), Nuveen Municipal Advantage Fund, Inc. (NMA), Nuveen Municipal Market Opportunity Fund, Inc. (NMO), Nuveen Dividend Advantage Municipal Fund (NAD), Nuveen Dividend Advantage Municipal Fund 2 (NXZ) and Nuveen Dividend Advantage Municipal Fund 3 (NZF) (collectively, the "Funds"). Performance Plus (NPP), Municipal Advantage (NMA), Market Opportunity (NMO) and Dividend Advantage (NAD) are traded on the New York Stock Exchange while Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940 , as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service may establish fair value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market
conditions. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. Futures contracts are valued using the closing settlement price, or, in the absence of such a price, at the mean of the bid and asked prices. If the pricing service is unable to supply a price for an investment or derivative instrument, each Fund may use market quotes provided by major broker/dealers in such investments. If it is determined that the market price for an investment or derivative instrument is unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish fair value in accordance with procedures established in good faith by the Board of Directors/Trustees. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At October 31, 2008, there were no such outstanding purchase commitments in any of the Funds.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses, if any. Dividend income, if any, is recorded on the ex-dividend date.

## Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter $M$ of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from

Notes to
FINANCIAL STATEMENTS (continued)
regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Effective April 30, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the affirmative evaluation of tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it
is "more-likely-than-not" (i.e., a greater than 50-percent likelihood) of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold may result in a tax expense in the current year.

Implementation of FIN 48 required management of the Funds to analyze all open tax years, as defined by the statute of limitations, for all major jurisdictions, which includes federal and certain states. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). The Funds have no examinations in progress.

For all open tax years and all major taxing jurisdictions through the end of the reporting period, management of the Funds has reviewed all tax positions taken or expected to be taken in the preparation of the Funds' tax returns and concluded the adoption of FIN 48 resulted in no impact to the Funds' net assets or results of operations as of and during the fiscal year ended October 31, 2008 .

The Funds are also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Auction Rate Preferred Shares

The following Funds have issued and outstanding Auction Rate Preferred shares, $\$ 25,000$ stated value per share, as a means of effecting financial leverage. Each Fund's Auction Rate Preferred shares are issued in more than one series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. As of October 31, 2008 , the number of Auction Rate Preferred shares outstanding, by Series and in total, for each Fund is as follows:

|  | PERFORMANCE <br> PLUS <br> (NPP) | MUNICIPAL ADVANTAGE (NMA) | MARKET OPPORTUNITY (NMO) | DIVI <br> ADVAN |
| :---: | :---: | :---: | :---: | :---: |
| Number of shares: |  |  |  |  |
| Series M | 3,672 | 2,863 | 3,807 |  |
| Series T | 3,671 | 2,863 | 3,807 |  |
| Series W | 3,671 | 2,863 | 3,046 |  |
| Series TH | 2,900 | 2,214 | -- | 3 |
| Series F | 3,672 | 2,863 | 3,807 |  |
| Total | 17,586 | 13,666 | 14,467 | 10 |

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Auction Rate Preferred shares issued by the Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many Auction Rate Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Auction Rate Preferred shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the Auction Rate Preferred shares.

These developments generally do not affect the management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been.

On June 11, 2008, Nuveen Investments, Inc. ("Nuveen") announced the Fund Board's approval of plans to use tender option bonds (TOBs), also known as "floaters" or floating rate obligations, to refinance a portion of the municipal funds' outstanding Auction Rate Preferred shares, whose auctions have been failing for several months. The plan included an initial phase of approximately $\$ 1$ billion in forty-one funds. During the fiscal year ended October 31, 2008 Performance Plus (NPP), Municipal Advantage (NMA), Market Opportunity (NMO), Dividend Advantage (NAD) and Dividend Advantage 3 (NZF) redeemed \$39,350,000, $\$ 16,350,000, \$ 18,325,000, \$ 28,200,000$ and $\$ 41,225,000$ of their outstanding Auction Rate Preferred shares, respectively, at liquidation value, using the proceeds from the issuance of TOBs.

Variable Rate Demand Preferred Shares
On August 7, 2008, Dividend Advantage 2 (NXZ) issued 1,960 Series 1 Variable Rate Demand Preferred (VRDP) shares, $\$ 100,000$ liquidation value per share, through a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. Proceeds of this offering along with the proceeds from the Fund's creation of TOBs, discussed above, were used to redeem all of the Fund's outstanding Auction Rate Preferred shares totaling $\$ 222,000,000$. The VRDP shares have a maturity date of August 1, 2038. Dividends on the VRDP shares are set through a weekly remarketing process at a rate established by a remarketing agent, which is intended to result in the value of the VRDP shares approximately equaling their liquidation value. VRDP shares include a liquidity feature that allows VRDP shareholders who are tendering shares for remarketing to have their shares purchased by a liquidity provider, Deutsche Bank AG (acting through its New York branch), in the event that the remarketing agent is not able to sell the tendered VRDP shares to other qualified institutional buyers.

Subject to certain conditions, VRDP shares may be redeemed, in whole or in part, at any time at the option of the Fund. The Fund may also redeem certain of the VRDP shares if the Fund fails to maintain certain asset coverage requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends.

The terms of the VRDP shares provide that, if any VRDP shares tendered to the liquidity provider cannot be successfully remarketed, the dividend rate for all

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

VRDP shares will be set at the Maximum Rate determined under a formula set forth in the Fund's organizational documents. The Maximum Rate is generally equal to a stated percentage spread in excess of the seven-day London Inter-Bank Offered Rate (LIBOR). If remarketings for these shares continue to be unsuccessful, the Maximum Rate is designed to escalate according to a specified schedule in order to enhance the remarketing agent's ability to successfully remarket the VRDP shares. This would increase the Fund's cost of leverage over time and reduce the Fund's Common share net earnings. There are various potential factors that could result in unsuccessful remarketings. These include periods of market stress, an actual or potential downgrade of the liquidity provider's credit ratings as well as changes in market perceptions regarding the financial strength of the Fund's liquidity provider.

Dividend Advantage 2 (NXZ) had $\$ 196,000,000$ VRDP shares outstanding for the period August 7, 2008 through October 31, 2008 with an annualized interest rate of $3.56 \%$.

For financial reporting purposes only, VRDP shares, at the liquidation value, are recorded as a liability on the Statement of Assets and Liabilities and the dividends paid on the VRDP shares are included as a component of "Interest expense" on the Statement of Operations.

## Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not

```
Notes to
FINANCIAL STATEMENTS (continued)
```

only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as an "Inverse floating rate investment". An investment in a self-deposited inverse floater is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards No. 140 (SFAS No. 140) "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities". In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as an "Underlying bond of an inverse floating rate trust", with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in Investment Income the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates is included as a component of "Interest expense" on the Statement of Operations.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is included as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

During the fiscal year ended October 31, 2008, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

At October 31, 2008, each Fund's maximum exposure to externally-deposited Recourse Trusts, if any, is as follows:

|  | PERFORMANCE <br> PLUS <br> (NPP) | MUNICIPAL ADVANTAGE (NMA) | MARKET OPPORTUNITY (NMO) |
| :---: | :---: | :---: | :---: |
| Maximum exposure | \$30,750, 000 | \$33,001,650 | \$7,500,000 |

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the fiscal year ended October 31, 2008, were as follows:
MARKET
OPPORTUNITY
(NMO)

Forward Swap Transactions

Each Fund is authorized to invest in forward interest rate swap transactions. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions
involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. The Funds may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To reduce such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount. Dividend Advantage 3 (NZF) was the only Fund to invest in forward interest swap transactions during the fiscal year ended October 31, 2008.

Futures Contracts

Each Fund is authorized to invest in futures contracts. Upon entering into a futures contract, a Fund is required to deposit with the broker an amount of cash or liquid securities equal to a specified percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by a Fund each day, depending on the daily fluctuation of the value of the contract.

During the period the futures contract is open, changes in the value of the contract are recognized as an unrealized gain or loss by "marking-to-market" on a daily basis to reflect the changes in market value of the contract. When the contract is closed or expired, a Fund records a realized gain or loss equal to the difference between the value of the contract on the closing date and value of the contract when originally entered into. Cash held by the broker to cover initial margin requirements on open futures contracts, if any, is recognized on the Statement of Assets and Liabilities. Additionally, the Statement of Assets and Liabilities reflects a receivable or payable for the variation margin, when applicable. Dividend Advantage 3 (NZF) was the only Fund to invest in futures

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

contracts during the fiscal year ended October 31, 2008.

Risks of investments in futures contracts include the possible adverse movement of the securities or indices underlying the contracts, the possibility that there may not be a liquid secondary market for the contracts and/or that a change in the value of the contract may not correlate with a change in the value of the underlying securities or indices.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. Such securities are included in the Portfolios of Investments with a $0.000 \%$ coupon rate in their description. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Offering Costs

Costs incurred by Dividend Advantage 2 (NXZ) in connection with its offering of the VRDP shares $(\$ 2,270,000)$ were recorded as a deferred charge which will be amortized over the 30-year life of the shares and is included as a component of "Interest expense"on the Statement of Operations.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

## Indemnifications

Under the Funds' organizational documents, their Officers and Director/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Notes to
FINANCIAL STATEMENTS (continued)

## Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

## 2. FUND SHARES

## Common Shares

On July 30, 2008, the Funds' Board of Directors/Trustees approved an open-market share repurchase program under which each Fund may repurchase an aggregate of up to approximately $10 \%$ of its outstanding Common shares. The Funds did not repurchase any of their Common shares during the fiscal year ended October 31 , 2008.

Transactions in Common shares were as follows:

|  | MUNICIPAL |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 08 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 07 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 08 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 07 \end{array}$ | $\begin{array}{r} E \\ 10 / 3 \end{array}$ |
| Common shares issued to shareholders reinvestment of distributions | to | -- | -- | 148,621 |  |
|  | DIV <br> ADVANT | (NAD) | ADVANTA | (NXZ) | AD |
|  | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 08 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 07 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 08 \end{array}$ | $\begin{array}{r} \text { YEAR } \\ \text { ENDED } \\ 10 / 31 / 07 \end{array}$ | $10 / 3$ |
| Common shares issued to shareholders reinvestment of distributions | to | 19,807 | 29,827 | 50,467 |  |

Preferred Shares

Transactions in Auction Rate Preferred shares were as follows:

3. INVESTMENT TRANSACTIONS

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

Purchases and sales (including maturities but excluding short-term investments and derivative transactions) during the fiscal year ended October 31, 2008, were as follows:

|  | PERFORMANCE <br> PLUS <br> (NPP) | MUNICIPAL ADVANTAGE (NMA) | $\begin{array}{r} \text { MARKET } \\ \text { OPPORTUNITY } \\ (\text { NMO }) \end{array}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Purchases | \$123, 620,755 | \$127,780,691 | \$ 82, 319,343 | \$ 92 |
| Sales and maturities | 145,226,088 | 175,267,119 | 139,011,635 | 132 |

## 4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No. 140. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At October 31, 2008, the cost of investments was as follows:

|  | PERFORMANCE <br> PLUS <br> (NPP) | MUNICIPAL ADVANTAGE <br> (NMA) | MARKET <br> OPPORTUNITY <br> (NMO) |
| :---: | :---: | :---: | :---: |
| Cost of investments | \$1,260,467,249 | \$931,359,400 | \$966,004,462 |

Notes to
FINANCIAL STATEMENTS (continued)

Gross unrealized appreciation and gross unrealized depreciation of investments at October 31, 2008, were as follows:

| PERFORMANCE | MUNICIPAL | MARKET | DIVID |
| ---: | ---: | ---: | ---: |
| PLUS | ADVANTAGE | OPPORTUNITY | ADVANT |
| (NPP) | $($ NMA $)$ | $($ NMO | $(\mathrm{N}$ |

Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

| October 31, 2014 | -- | -- | 3,141,529 | -- | 1, 88 |
| October 31, 2015 | 105,896 | -- | 1,902,879 | -- | 9 |
| October 31, 2016 | 443,483 | 876,507 | 1,398,166 | -- |  |
| Total | \$549,379 | \$876,507 | \$14,574,508 | \$4,699,062 | \$3, 02 |

Dividend Advantage (NAD) had $\$ 7,670,294$ of its capital loss carryforward expire on October 31, 2008.

## 5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Auction Rate Preferred shares or VRDP shares) of each Fund as follows:

Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR

| For the next \$125 million | . 4375 |
| :---: | :---: |
| For the next \$250 million | . 4250 |
| For the next \$500 million | . 4125 |
| For the next \$1 billion | . 4000 |
| For the next \$3 billion | . 3875 |
| For net assets over \$5 billion | . 3750 |
|  | DIVIDEND ADVANTAGE (NAD) |
| AVERAGE DAILY NET ASSETS (INCLUDING | DIVIDEND ADVANTAGE 2 (NXZ) |
| NET ASSETS ATTRIBUTABLE TO | DIVIDEND ADVANTAGE 3 (NZF) |
| AUCTION RATE PREFERRED SHARES OR VRDP SHARES) | FUND-LEVEL FEE RATE |
| For the first \$125 million | . $4500 \%$ |
| For the next \$125 million | . 4375 |
| For the next \$250 million | . 4250 |
| For the next $\$ 500$ million | . 4125 |
| For the next \$1 billion | . 4000 |
| For net assets over \$2 billion | . 3750 |

he annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the following table. As of October 31, 2008, the complex-level fee rate was .1998\%.

Notes to
FINANCIAL STATEMENTS (continued)

The complex-level fee schedule is as follows:
COMPLEX-LEVEL ASSET BREAKPOINT LEVEL (1) EFFECTIVE RATE AT BREAKPOINT LEVEL

| \$55 billion | . 2000\% |
| :---: | :---: |
| \$56 billion | . 1996 |
| \$57 billion | . 1989 |
| \$60 billion | . 1961 |
| \$63 billion | . 1931 |
| \$66 billion | . 1900 |
| \$71 billion | . 1851 |
| \$76 billion | . 1806 |
| \$80 billion | . 1773 |
| \$91 billion | . 1691 |
| \$125 billion | . 1599 |
| \$200 billion | . 1505 |
| \$250 billion | . 1469 |
| \$300 billion | . 1445 |

(1) The complex-level component of the management fee for the funds is calculated based upon the aggregate daily net assets of all Nuveen funds, with such daily net assets to include assets attributable to preferred stock (Auction Rate Preferred shares or VRDP shares) issued by or borrowings by such funds) but to exclude assets attributable to investments in other Nuveen funds.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first ten years of Dividend Advantage's (NAD) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Auction Rate Preferred shares or VRDP shares), for fees and expenses in the amounts and for the time periods set forth below:

| YEAR ENDING JULY 31, |  | YEAR ENDING JULY 31, |  |
| :---: | :---: | :---: | :---: |
| 1999* | . $30 \%$ | 2005 | . 25 \% |
| 2000 | . 30 | 2006 | . 20 |
| 2001 | . 30 | 2007 | . 15 |
| 2002 | . 30 | 2008 | . 10 |
| 2003 | . 30 | 2009 | . 05 |
| 2004 | . 30 |  |  |

* From the commencement of operations.

The Adviser has not agreed to reimburse Dividend Advantage (NAD) for any portion of its fees and expenses beyond July 31, 2009.

For the first ten years of Dividend Advantage 2's (NXZ) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily net assets (including net assets attributable to Auction Rate Preferred shares or VRDP shares), for fees and expenses in the amounts and for the time periods set forth below:

| YEAR ENDING MARCH 31, | YEAR ENDING |  |  |
| :---: | :---: | :---: | :---: |
|  |  | MARCH 31, |  |
| 2001* | . $30 \%$ | 2007 | . $25 \%$ |
| 2002 | . 30 | 2008 | . 20 |
| 2003 | . 30 | 2009 | . 15 |

| SEPTEMBER 30, |  |  |

* From the commencement of operations.

The Adviser has not agreed to reimburse Dividend Advantage 3 (NZF) for any portion of its fees and expenses beyond September 30, 2011.
6. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (SFASNo. 157)

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." This standard establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires additional disclosures about fair value measurements. SFAS No. 157 applies to fair value measurements already required or permitted by existing standards. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The changes to current generally accepted accounting principles from the application of this standard relate to the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. As of October 31, 2008, management does not believe the adoption of SFAS No. 157 will impact the financial statement amounts; however, additional disclosures may be required about the inputs used to develop the measurements and the effect of certain of the measurements included within the Statement of Operations for the period.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161 (SFASNo. 161)

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of October 31, 2008, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different

```
    from the price used in the calculation. Total returns are not annualized.
** After custodian fee credit, expense reimbursement and legal fee refund,
    where applicable.
+ The amounts shown are based on Common share equivalents.
++ Ratios do not reflect the effect of dividend payments to Auction Rate
    Preferred shareholders; income ratios reflect income earned on assets
    attributable to Auction Rate Preferred shares or VRDP shares, where
    applicable.
(a) Interest expense arises from payments to Variable Rate Demand Preferred shareholders and the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 - Variable Rate Demand Preferred Shares and Inverse Floating Rate Securities, where applicable.

* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

(a) Interest expense arises from payments to Variable Rate Demand Preferred shareholders and the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 - Variable Rate Demand Preferred Shares and Inverse Floating Rate Securities, where applicable.

See accompanying notes to financial statements.

Board Members \& Officers

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Fund is currently set at nine. None of the board members who are not "interested" persons of the Funds (referred to herein as "independent board members") has ever been a director or employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

(1) For Dividend Advantage (NAD), Dividend Advantage 2 (NXZ) and Dividend Advantage 3 (NZF), Board Members serve three year terms, except for two board members who are elected by the holders of Preferred Shares. The Board of Trustees for NAD, NXZ and NZF is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders' meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. For Performance Plus (NPP), Municipal Advantage (NMA) and Market Opportunity (NMO), the Board Members serve a one year term to serve until the next annual meeting or until their successors shall have been duly elected and qualified. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
(2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
(3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
(4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Annual Investment
Management Agreement APPROVAL PROCESS

The Investment Company Act of 1940, as amended (the "1940 Act"), provides, in substance, that each investment advisory agreement between a fund and its investment adviser will continue in effect from year to year only if its continuance is approved at least annually by the fund's board members, including by a vote of a majority of the board members who are not parties to the advisory agreement or "interested persons" of any parties (the "Independent Board Members"), cast in person at a meeting called for the purpose of considering such approval. In connection with such approvals, the fund's board members must request and evaluate, and the investment adviser is required to furnish, such information as may be reasonably necessary to evaluate the terms of the advisory agreement. Accordingly, at a meeting held on May 28-29, 2008 (the "May Meeting"), the Boards of Trustees or Directors (as the case may be) (each, a "Board" and each Trustee or Director, a "Board Member") of the Funds, including a majority of the Independent Board Members, considered and approved the

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

continuation of the advisory agreement (each, an "Advisory Agreement") between each Fund and Nuveen Asset Management ("NAM") for an additional one-year period. In preparation for their considerations at the May Meeting, the Board also held a separate meeting on April 23, 2008 (the "April Meeting"). Accordingly, the factors considered and determinations made regarding the renewals by the Independent Board Members include those made at the April Meeting.

In addition, in evaluating the Advisory Agreements, as described in further detail below, the Independent Board Members reviewed a broad range of information relating to the Funds and NAM, including absolute performance, fee and expense information for the Funds as well as comparative performance, fee and expense information for a comparable peer group of funds, the performance information of recognized benchmarks (as applicable), the profitability of Nuveen for its advisory activities (which includes its wholly owned subsidiaries), and other information regarding the organization, personnel, and services provided by NAM. The Independent Board Members also met quarterly as well as at other times as the need arose during the year and took into account the information provided at such meetings and the knowledge gained therefrom. Prior to approving the renewal of the Advisory Agreements, the Independent Board Members reviewed the foregoing information with their independent legal counsel and with management, reviewed materials from independent legal counsel describing applicable law and their duties in reviewing advisory contracts, and met with independent legal counsel in private sessions without management present. The Independent Board Members considered the legal advice provided by independent legal counsel and relied upon their knowledge of NAM, its services and the Funds resulting from their meetings and other interactions throughout the year and their own business judgment in determining the factors to be considered in evaluating the Advisory Agreements. Each Board Member may have accorded different weight to the various factors in reaching his or her conclusions with respect to a Fund's Advisory Agreement. The Independent Board Members did not identify any single factor as all-important or controlling. The Independent Board Members' considerations were instead based on a comprehensive consideration of all the information presented. The principal factors considered by the Board and its conclusions are described below.

## A. NATURE, EXTENT AND QUALITY OF SERVICES

In considering renewal of the Advisory Agreements, the Independent Board Members considered the nature, extent and quality of NAM's services, including advisory services and administrative services. The Independent Board Members reviewed materials outlining, among other things, NAM's organization and business; the types of services that NAM or its affiliates provide and are expected to provide to the Funds; the performance record of the applicable Fund (as described in further detail below); and any initiatives Nuveen had taken for the applicable fund product line. With respect to personnel, the Independent Board Members evaluated the background, experience and track record of NAM's
investment personnel. In this regard, the Independent Board Members considered the additional investment in personnel to support Nuveen fund advisory activities, including in operations, product management and marketing as well as related fund support functions, including sales, executive, finance, human resources and information technology. The Independent Board Members also reviewed information regarding portfolio manager compensation arrangements to evaluate NAM's ability to attract and retain high quality investment personnel.

In evaluating the services of NAM, the Independent Board Members also considered

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

NAM's ability to supervise the Funds' other service providers and given the importance of compliance, NAM's compliance program. Among other things, the Independent Board Members considered the report of the chief compliance officer regarding the Funds' compliance policies and procedures.

In addition to advisory services, the Independent Board Members considered the quality of administrative services provided by NAM and its affiliates including product management, fund administration, oversight of service providers, shareholder services, administration of Board relations, regulatory and portfolio compliance and legal support.

In addition to the foregoing services, the Independent Board Members also noted the additional services that NAM or its affiliates provide to closed-end funds, including, in particular, its secondary market support activities and the costs of such activities. The Independent Board Members recognized Nuveen's continued commitment to supporting the secondary market for the common shares of its closed-end funds through a variety of programs designed to raise investor and analyst awareness and understanding of closed-end funds. These efforts include maintaining an investor relations program to timely provide information and education to financial advisers and investors; providing advertising and marketing for the closed-end funds; maintaining its closed-end fund website; and providing educational seminars. With respect to closed-end funds that utilize leverage through the issuance of auction rate preferred securities ("ARPS"), the Board has recognized the unprecedented market conditions in the auction rate market industry with the failure of the auction process. The Independent Board Members noted Nuveen's efforts and the resources and personnel employed to analyze the situation, explore potential alternatives and develop and implement solutions that serve the interests of the affected funds and all of their respective shareholders. The Independent Board Members further noted Nuveen's commitment and efforts to keep investors and financial advisers informed as to its progress in addressing the ARPS situation through, among other things, conference calls, press releases, and information posted on its website as well as its refinancing activities. The Independent Board Members also noted Nuveen's continued support for holders of preferred shares of its closed-end funds by, among other things, seeking distribution for preferred shares with new market participants, managing relations with remarketing agents and the broker community, maintaining the leverage and risk management of leverage and maintaining systems necessary to test compliance with rating agency criteria.

Based on their review, the Independent Board Members found that, overall, the nature, extent and quality of services provided (and expected to be provided) to the respective Funds under the Advisory Agreements were satisfactory.

## B. THE INVESTMENT PERFORMANCE OF THE FUNDS AND NAM

The Board considered the investment performance of each Fund, including the Fund's historic performance as well as its performance compared to funds with similar investment objectives (the "Performance Peer Group") based on data provided by an independent third party (as described below). The Independent Board Members also reviewed portfolio level performance (which does not reflect fund level fees, expenses and leverage), as described in further detail below.

In evaluating the performance information, the Board considered whether the Fund has operated within its investment objectives and parameters and the impact that the investment mandates may have had on performance. In addition, in comparing a Fund's performance with that of its Performance Peer Group, the Independent Board Members took into account that the closest Performance Peer Group in certain

Annual Investment management Agreement APPROVAL PROCESS (continued)
instances may not adequately reflect the respective fund's investment objectives and strategies thereby hindering a meaningful comparison of the fund's performance with that of the Performance Peer Group.

The Independent Board Members reviewed performance information including, among other things, total return information compared with the Fund's Performance Peer Group and recognized benchmarks for the one-, three-, and five-year periods (as applicable) ending December 31, 2007 and with the Performance Peer Group for the quarter and same yearly periods ending March 31, 2008 (as applicable). The Independent Board Members also reviewed the Fund's portfolio level performance (which does not reflect fund level fees and expenses (and leverage for closed-end funds)) compared to recognized benchmarks for the one-, three-, and five-year periods ending December 31, 2007 (as applicable). The analysis was used to assess the efficacy of investment decisions against appropriate measures of risk and total return, within specific market segments. This information supplemented the Fund performance information provided to the Board at each of its quarterly meetings. Based on their review, the Independent Board Members determined that each Fund's investment performance over time had been satisfactory.

## C. FEES, EXPENSES AND PROFITABILITY

## 1. FEES AND EXPENSES

The Board evaluated the management fees and expenses of each Fund reviewing, among other things, such Fund's gross management fees (which take into account breakpoints), net management fees (which take into account fee waivers or reimbursements) and total expense ratios (before and after expense reimbursements and/or waivers) in absolute terms as well as compared to the gross management fees, net management fees (after waivers and/or reimbursements) and total expense ratios (before and after waivers) of a comparable universe of unaffiliated funds based on data provided by an independent data provider (the "Peer Universe") and/or a more focused subset of funds therein (the "Peer Group"). The Independent Board Members further reviewed data regarding the construction of Peer Groups as well as the methods of measurement for the fee and expense analysis and the performance analysis. In reviewing the comparisons of fee and expense information, the Independent Board Members took into account that in certain instances various factors such as the size of the Fund relative to peers, the size and particular composition of the Peer Group, the investment objectives of the peers, expense anomalies, and the timing of information used may impact the comparative data, thereby limiting the ability to make a meaningful comparison. The Independent Board Members also considered, among other things, the differences in the use of leverage and the differences in the use of insurance, if any. In reviewing the fee schedule for a Fund, the Independent Board Members also considered the fund-level and complex-wide breakpoint schedules (described in further detail below) and any fee waivers and reimbursements provided by Nuveen (applicable, in particular, for certain closed-end funds launched since 1999). Based on their review of the fee and expense information provided, the Independent Board Members determined that each Fund's management fees and net total expense ratio were reasonable in light of the nature, extent and quality of services provided to the Fund.

## 2. COMPARISONS WITH THE FEES OF OTHER CLIENTS

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

The Independent Board Members further reviewed information regarding the nature of services and fee rates offered by NAM to other clients. Such other clients include NAM's municipal separately managed accounts. In evaluating the comparisons of fees, the Independent Board Members noted that the fee rates charged to the Funds and other clients vary, among other things, because of the different services involved and the additional regulatory and compliance requirements associated with registered investment companies, such as the Funds. Accordingly, the Independent Board Members considered the differences in the product types, including, but not limited to, the services provided, the structure and operations, product distribution and costs thereof, portfolio investment policies, investor profiles, account sizes and regulatory requirements. The Independent Board Members noted, in particular, that
the range of services provided to the Funds (as discussed above) is much more extensive than that provided to separately managed accounts. Given the inherent differences in the products, particularly the extensive services provided to the Funds, the Independent Board Members believe such facts justify the different levels of fees.

## 3. PROFITABILITY OF NUVEEN

In conjunction with its review of fees, the Independent Board Members also considered the profitability of Nuveen for its advisory activities (which incorporated Nuveen's wholly-owned affiliated sub-advisers) and its financial condition. The Independent Board Members reviewed the revenues and expenses of Nuveen's advisory activities for the last two years and the allocation methodology used in preparing the profitability data. The Independent Board Members noted this information supplemented the profitability information requested and received during the year to help keep them apprised of developments affecting profitability (such as changes in fee waivers and expense reimbursement commitments). In this regard, the Independent Board Members noted that they had also appointed an Independent Board Member as a point person to review and keep them apprised of changes to the profitability analysis and/or methodologies during the year. The Independent Board Members considered Nuveen's profitability compared with other fund sponsors prepared by two independent third party service providers as well as comparisons of the revenues, expenses and profit margins of various unaffiliated management firms with similar amounts of assets under management prepared by Nuveen.

In reviewing profitability, the Independent Board Members recognized the subjective nature of determining profitability which may be affected by numerous factors including the allocation of expenses. Further, the Independent Board Members recognized the difficulties in making comparisons as the profitability of other advisers generally is not publicly available and the profitability information that is available for certain advisers or management firms may not be representative of the industry and may be affected by, among other things, the adviser's particular business mix, capital costs, types of funds managed and expense allocations.

Notwithstanding the foregoing, the Independent Board Members reviewed Nuveen's methodology and assumptions for allocating expenses across product lines to determine profitability. In reviewing profitability, the Independent Board Members recognized Nuveen's investment in its fund business.

Based on its review, the Independent Board Members concluded that Nuveen's level of profitability for its advisory activities was reasonable in light of the services provided.

In evaluating the reasonableness of the compensation, the Independent Board Members also considered other amounts paid to NAM by the Funds as well as any indirect benefits (such as soft dollar arrangements, if any) NAM and its affiliates receive, or are expected to receive, that are directly attributable to the management of the Funds, if any. See Section E below for additional information on indirect benefits NAM may receive as a result of its relationship with the Funds. Based on their review of the overall fee arrangements of each Fund, the Independent Board Members determined that the advisory fees and expenses of the respective Fund were reasonable.

## D. ECONOMIES OF SCALE AND WHETHER FEE LEVELS REFLECT THESE ECONOMIES OF SCALE

With respect to economies of scale, the Independent Board Members recognized the potential benefits resulting from the costs of a fund being spread over a larger asset base. The Independent Board Members therefore considered whether the Funds have appropriately benefited from any economies of scale and whether there is potential realization of any further economies of scale. In considering economies of scale, the Independent Board Members have recognized that economies of scale are difficult to measure and predict with precision, particularly on a fund-by-fund basis. Notwithstanding the foregoing, one method to help ensure the shareholders share in these benefits is to include breakpoints in the advisory fee schedule. Accordingly, the Independent Board Members reviewed and considered the fund-level breakpoints in the

Annual Investment management Agreement APPROVAL PROCESS (continued)
advisory fee schedules that reduce advisory fees. In this regard, given that the Funds are closed-end funds, the Independent Board Members recognized that although the Funds may from time to time make additional share offerings, the growth in their assets will occur primarily through appreciation of each Fund's investment portfolio.

In addition to fund-level advisory fee breakpoints, the Board also considered the Funds' complex-wide fee arrangement. Pursuant to the complex-wide fee arrangement, the fees of the funds in the Nuveen complex, including the Funds, are reduced as the assets in the fund complex reach certain levels. In evaluating the complex-wide fee arrangement, the Independent Board Members recognized that the complex-wide fee schedule was recently revised in 2007 to provide for additional fee savings to shareholders and considered the amended schedule. The Independent Board Members further considered that the complex-wide fee arrangement seeks to provide the benefits of economies of scale to fund shareholders when total fund complex assets increase, even if assets of a particular fund are unchanged or have decreased. The approach reflects the notion that some of Nuveen's costs are attributable to services provided to all its funds in the complex and therefore all funds benefit if these costs are spread over a larger asset base. Based on their review, the Independent Board Members concluded that the breakpoint schedule and complex-wide fee arrangement were acceptable and desirable in providing benefits from economies of scale to shareholders.

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

## E. INDIRECT BENEFITS

In evaluating fees, the Independent Board Members received and considered information regarding potential "fall out" or ancillary benefits NAM or its affiliates may receive as a result of its relationship with each Fund. In this regard, the Independent Board Members considered revenues received by affiliates of NAM for serving as agent at Nuveen's preferred trading desk and for serving as a co-manager in the initial public offering of new closed-end exchange traded funds.

In addition to the above, the Independent Board Members considered whether NAM received any benefits from soft dollar arrangements whereby a portion of the commissions paid by a Fund for brokerage may be used to acquire research that may be useful to NAM in managing the assets of the Funds and other clients. The Independent Board Members noted that NAM does not currently have any soft dollar arrangements; however, to the extent certain bona fide agency transactions that occur on markets that traditionally trade on a principal basis and riskless principal transactions are considered as generating "commissions," NAM intends to comply with the applicable safe harbor provisions.

Based on their review, the Independent Board Members concluded that any indirect benefits received by NAM as a result of its relationship with the Funds were reasonable and within acceptable parameters.

## F. OTHER CONSIDERATIONS

The Independent Board Members did not identify any single factor discussed previously as all-important or controlling. The Board Members, including the Independent Board Members, unanimously concluded that the terms of the Advisory Agreements are fair and reasonable, that NAM's fees are reasonable in light of the services provided to each Fund and that the Advisory Agreements be renewed.

## 122

Reinvest Automatically
EASILY and CONVENIENTLY

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR
REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

## EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the
shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or $95 \%$ of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or $95 \%$ of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a $\$ 2.50$ service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

CALL TODAY TO START REINVESTING DIVIDENDS AND/OR DISTRIBUTIONS

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.
[] AUCTION RATE BOND: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed", with current holders receiving a formula-based interest rate until the next scheduled auction.
[] AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
[] AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.
[] INVERSE FLOATERS: Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.
[] LEVERAGE-ADJUSTED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.
[] MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An
investment's current annualized dividend divided by its current market price.
[] NET ASSET VALUE (NAV): A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.
[] TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
[] ZERO COUPON BOND: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Other Useful INFORMATION

QUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the twelve-month period ended June 30, 2008, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www. nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www. nuveen.com/etf. (To view the code, click on the Shareholder Resources drop down menu box, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

## Nuveen Dividend Advantage Municipal Fund 3

The following tables show the amount of fees that Ernst \& Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst \& Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst \& Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule $2-01$ of Regulation $S-X$ (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than $5 \%$ of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

| FISCAL YEAR ENDED | AUDIT FEES BILLED TO FUND (1) | AUDIT-RELATED FEES BILLED TO FUND (2) | $\begin{array}{r} \text { TAX } \\ \text { BILLED } \end{array}$ |
| :---: | :---: | :---: | :---: |
| October 31, 2008 | \$ 35,039 | \$ 0 | \$ |
| Percentage approved pursuant to pre-approval exception | 0\% | 0\% |  |
| October 31, 2007 | \$ 30,797 | \$ 0 | \$ |
| ```Percentage approved pursuant to pre-approval exception``` | 0\% | 0\% |  |

(1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.
(2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees".
(3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.
(4) "All Other Fees" are the aggregate fees billed for products and services

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

for agreed upon procedures engagements performed for leveraged funds.

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst \& Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than $5 \%$ of the total amount of revenues paid to Ernst \& Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

| FISCAL YEAR ENDED | AUDIT-RELATED FEES BILLED TO ADVISER AND AFFILIATED FUND SERVICE PROVIDERS | TAX FEES BILLED TO <br> ADVISER AND <br> AFFILIATED FUND <br> SERVICE PROVIDERS | ALL OTH <br> BILLED AND AFFII SERVICE |
| :---: | :---: | :---: | :---: |
| October 31, 2008 | \$ 0 | \$ 0 |  |
| Percentage approved pursuant to pre-approval exception | 0\% | 0\% |  |
| October 31, 2007 | \$ 0 | \$ 0 |  |
| Percentage approved pursuant to pre-approval exception | 0\% | 0\% |  |

## NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst \& Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst \& Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst \& Young LLP about any non-audit services that Ernst \& Young LLP rendered during the Fund's last

# Edgar Filing: NUVEEN DIVIDEND ADVANTAGE MUNICIPAL FUND 3 - Form N-CSR 

fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst \& Young LLP's independence.

FISCAL YEAR ENDED

|  | TOTAL NON-AUDIT FEES |  |
| :---: | :---: | :---: |
|  | BILLED TO ADVISER AND |  |
|  | AFFILIATED FUND SERVICE | TOTAL NON |
|  | PROVIDERS (ENGAGEMENTS | BILLED TO |
| TOTAL NON-AUDIT FEES | RELATED DIRECTLY TO THE | AFFILIATED |
| BILLED TO FUND | REPORTING OF THE FUND) | PROVIDERS |
|  |  |  |

October 31, 2008 \$ 850 \$ 0
October 31, $2007 \quad \$ 1,250 \quad \$ 0$
"Non-Audit Fees billed to Adviser" for both fiscal year ends represent "Tax
Fees" billed to Adviser in their respective amounts from the previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than $\$ 10,000$; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under $\$ 10,000$ but greater than $\$ 5,000$; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under $\$ 5,000$.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a) (58) (A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c (a) (58) (A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, Terence J. Toth, William J. Schneider and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant invests its assets primarily in municipal bonds and cash management securities. On rare occasions the registrant may acquire, directly or through a special purpose vehicle, equity securities of a municipal bond issuer whose bonds the registrant already owns when such bonds have deteriorated or are expected shortly to deteriorate significantly in credit quality. The purpose of acquiring equity securities generally will be to acquire control of the municipal bond issuer and to seek to prevent the credit deterioration or facilitate the liquidation or other workout of the distressed issuer's credit problem. In the course of exercising control of a distressed municipal issuer,

NAM may pursue the registrant's interests in a variety of ways, which may entail negotiating and executing consents, agreements and other arrangements, and otherwise influencing the management of the issuer. NAM does not consider such activities proxy voting for purposes of Rule $206(4)-6$ under the 1940 Act, but nevertheless provides reports to the registrant's Board of Trustees on its control activities on a quarterly basis.

In the rare event that a municipal issuer were to issue a proxy or that the registrant were to receive a proxy issued by a cash management security, NAM would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the registrant's Board of Trustees or its representative. A member of NAM's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule $206(4)-6$, reports were filed with the SEC on Form N-PX, and the results provided to the registrant's Board of Trustees and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

THE PORTFOLIO MANAGER

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

NAME
PAUL BRENNAN

FUND
Nuveen Dividend Advantage Municipal Fund 3.

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

| PORTFOLIO MANAGER | TYPE OF ACCOUNT MANAGED | NUMBER OF ACCOUNTS | ASSETS |
| :---: | :---: | :---: | :---: |
| Paul Brennan | Registered Investment Company | 15 | \$12.21 billion |
|  | Other Pooled Investment Vehicles | 0 | \$0 |
|  | Other Accounts | 1 | \$.859 million |

* Assets are as of October 31, 2008. None of the assets in these accounts are subject to an advisory fee based on performance.

Compensation. Each portfolio manager's compensation consists of three basic elements--base salary, cash bonus and long-term incentive compensation. The compensation strategy is to annually compare overall compensation, including these three elements, to the market in order to create a compensation structure that is competitive and consistent with similar financial services companies. As discussed below, several factors are considered in determining each portfolio manager's total compensation. In any year these factors may include, among others, the effectiveness of the investment strategies recommended by the portfolio manager's investment team, the investment performance of the accounts managed by the portfolio manager, and the overall performance of Nuveen Investments, Inc. (the parent company of NAM). Although investment performance is a factor in determining the portfolio manager's compensation, it is not necessarily a decisive factor. The portfolio manager's performance is evaluated in part by comparing manager's performance against a specified investment benchmark. This fund-specific benchmark is a customized subset (limited to bonds in each Fund's specific state and with certain maturity parameters) of the S\&P/Investortools Municipal Bond index, an index comprised of bonds held by managed municipal bond fund customers of Standard \& Poor's Securities Pricing, Inc. that are priced daily and whose fund holdings aggregate at least $\$ 2$ million. As of October 31, 2008, the S\&P/Investortools Municipal Bond index was comprised of 52,959 securities with an aggregate current market value of $\$ 1,009$
billion.

Base salary. Each portfolio manager is paid a base salary that is set at a level determined by NAM in accordance with its overall compensation strategy discussed above. NAM is not under any current contractual obligation to increase a portfolio manager's base salary.

Cash bonus. Each portfolio manager is also eligible to receive an annual cash bonus. The level of this bonus is based upon evaluations and determinations made by each portfolio manager's supervisors, along with reviews submitted by his peers. These reviews and evaluations often take into account a number of factors, including the effectiveness of the investment strategies recommended to the NAM's investment team, the performance of the accounts for which he serves as portfolio manager relative to any benchmarks established for those accounts, his effectiveness in communicating investment performance to stockholders and their representatives, and his contribution to the NAM's investment process and to the execution of investment strategies. The cash bonus component is also impacted by the overall performance of Nuveen Investments, Inc. in achieving its business objectives.

Long-term incentive compensation. In connection with the acquisition of Nuveen Investments, Inc., by a group of investors lead by Madison Dearborn Partners in November 2007, certain employees, including portfolio managers, received profit interests in Nuveen's parent. These profit interests entitle the holders to participate in the appreciation in the value of Nuveen beyond the issue date and vest over five to seven years, or earlier in the case of a liquidity event.

Material Conflicts of Interest. Each portfolio manager's simultaneous management of the registrant and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Registrant and the other account. NAM, however, believes that such potential conflicts are mitigated by the fact that the NAM has adopted several policies that address potential conflicts of interest, including best execution and trade allocation policies that are designed to ensure (1) that portfolio management is seeking the best price for portfolio securities under the circumstances, (2) fair and equitable allocation of investment opportunities among accounts over time and (3) compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio manager, although the allocation procedures may provide allocation preferences to funds with special characteristics (such as favoring state funds versus national funds for allocations of in-state bonds). In addition, NAM has adopted a Code of Conduct that sets forth policies regarding conflicts of interest.

Beneficial Ownership of Securities. As of October 31, 2008, the portfolio manager beneficially owned the following dollar range of equity securities issued by the Registrant and other Nuveen Funds managed by NAM's municipal investment team.

NAME OF PORTFOLIO MANAGER FUND
DOLLAR RANGE OF EQUITY SECURITIES BENEFICIALLY

PORTFOLIO MANAGER BIO:

Paul Brennan, CFA, CPA, became a portfolio manager of Flagship Financial Inc. in 1994, and subsequently became an Assistant Vice President of NAM upon the acquisition of Flagship Resources Inc. by Nuveen in 1997. He became Vice President of NAM in 2002. He currently manages investments for 16 Nuveen-sponsored investment companies.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

| Period* | (a) | (b) | ( C$)$ | (d) * |
| :---: | :---: | :---: | :---: | :---: |
|  | TOTAL NUMBER OF | AVERAGE | TOTAL NUMBER OF SHARES | MAXIMUM |
|  | SHARES (OR | PRICE | (OR UNITS) PURCHASED AS | APPROX |
|  | UNITS) | PAID PER | PART OF PUBLICLY | SHARES |
|  | PURCHASED | SHARE (OR | ANNOUNCED PLANS OR | BE PURC |
|  |  | UNIT) | PROGRAMS | PROGRAM |
| AUGUST 7-31, 2008 | 0 | \$0 | 0 | 4,040, |
| SEPTEMBER 1-30, 2008 | 0 | \$0 | 0 | 4,040, |
| OCTOBER 1-31, 2008 | 0 | \$0 | 0 | 4,040, |
| TOTAL | 0 |  |  |  |

* The registrant's repurchase program, which authorized the repurchase of 4,040,000 shares, was announced August 7, 2008. Any repurchases made by the registrant pursuant to the program were made through open-market transactions.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

ITEM 11. CONTROLS AND PROCEDURES.
(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3 (c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule $30 \mathrm{a}-3(\mathrm{~b})$ under the 1940 Act (17 CFR $270.30 a-3(b))$ and Rules $13 a-15(b)$ or $15 d-15(b)$ under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR $240.13 a-15(b)$ or $240.15 d-15(b))$.
(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.
(a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/etf and there were no amendments during the period covered by this report. (To view the code, click on the Investor Resources drop down menu box, click on fund Governance and then Code of Conduct.)
(a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
(a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act ( 17 CFR $270.23 c-1$ ) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
(b) If the report is filed under Section $13(\mathrm{a})$ or $15(\mathrm{~d})$ of the Exchange Act, provide the certifications required by Rule $30 \mathrm{a}-2$ (b) under the 1940 Act (17 CFR $270.30 \mathrm{a}-2(\mathrm{~b}))$; Rule $13 \mathrm{a}-14(\mathrm{~b})$ or Rule $15 \mathrm{~d}-14(\mathrm{~b})$ under the Exchange Act (17 CFR $240.13 a-14(b)$ or $240.15 d-14(b))$, and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

## SIGNATURES
