Supplemental cash flow information

At March 28, 2009 and January 3, 2009, accounts payable included approximately \$0.9 million and \$6.7 million, respectively, for capital expenditures. Of the \$6.7 million of capital expenditures included in accounts payable at January 3, 2009, approximately \$4.3 million had been paid during the quarter ended March 28, 2009.

Included in changes in operating assets and liabilities for prepaid expenses and other assets is a \$10 million provisional payment made to the European Commission (EC) during January 2009 related to the EC 's Antitrust Decision. Refer to Note 11 Contingencies for further information.

In addition to proceeds from asset sales of \$56.4 million, \$25.9 million of long-term debt was assumed by the buyer of the fresh-cut flowers subsidiaries, therefore providing a total benefit to the Company of \$82.3 million from asset sales. During the fourth quarter of 2008, the fresh-cut flowers subsidiaries borrowed \$25.9 million and the Company 's cash balance at January 3, 2009 reflected the cash proceeds from this transaction. The debt ceased to be an obligation of the Company upon the closing of the first phase of the Flowers transaction during the first quarter of 2009.

DOLE FOOD COMPANY, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

NOTE 1 BASIS OF PRESENTATION

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Dole Food Company, Inc. and its consolidated subsidiaries (Dole or the Company) include all adjustments necessary, which are of a normal recurring nature, to present fairly the Company's financial position, results of operations and cash flows. The Company operates under a 52/53-week year. The quarters ended March 28, 2009 and March 22, 2008 are twelve weeks in duration. For a summary of significant accounting policies and additional information relating to the Company's financial statements, refer to the Notes to Consolidated Financial Statements in Item 8 of the Company's Annual Report on Form 10-K (Form 10-K) for the year ended January 3, 2009.

Interim results are subject to seasonal variations and are not necessarily indicative of the results of operations for a full year. The Company's operations are sensitive to a number of factors including weather-related phenomena and their effects on industry volumes, prices, product quality and costs. Operations are also sensitive to fluctuations in foreign currency exchange rates in both sourcing and selling locations as well as economic crises and security risks.

In March 2003, the Company completed a going-private merger transaction (going-private merger transaction). The privatization resulted from the acquisition by David H. Murdock, the Company's Chairman, of the approximately 76% of the Company that he and his affiliates did not already own. As a result of the transaction, the Company became wholly-owned by Mr. Murdock through David H. Murdock (DHM) Holding Company, Inc.

Certain amounts in the prior year financial statements and related footnotes have been reclassified to conform to the 2009 presentation. The Company adopted Statement of Financial Accounting Standards No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (FAS 160) during the first quarter of 2009 (see Note 2 for further information). In addition, the Company reclassified the operating results of its fresh-cut flowers operating segment and its North American citrus and pistachio operations to discontinued operations (see Note 4 Discontinued Operations).

NOTE 2 RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

During March 2008, the FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures About Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (FAS 161). This new standard requires enhanced disclosures for derivative instruments, including those used in hedging activities. It is effective for fiscal years and interim periods beginning after November 15, 2008. The Company adopted FAS 161 at the beginning of its first fiscal quarter of 2009. The adoption of FAS 161 had no impact on the Company's condensed consolidated financial statements.

During December 2007, the FASB issued FAS 160. FAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The Company adopted the provisions of FAS 160 as of the beginning of fiscal year 2009. FAS 160 is to be applied prospectively as of the beginning of 2009 except for the presentation and disclosure requirements which are to be applied retrospectively. The condensed consolidated financial statements now conform to the presentation required under FAS 160. Other than the change in presentation of noncontrolling interests, the adoption of FAS 160 had no impact on the Company's condensed consolidated financial statements.

During December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), *Business Combinations* (FAS 141R). FAS 141R provides revised guidance for recognizing and measuring assets acquired and liabilities assumed in a business combination. It establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed and also requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. FAS 141R also requires acquisition-related costs to be expensed in the period in which the costs are incurred rather than including such costs as part of the acquisition price. Changes in acquired tax

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

contingencies, including those existing at the date of adoption, will be recognized in earnings, rather than goodwill, if outside the maximum allocation period (generally one year). FAS 141R will be applied prospectively to business combinations with acquisition dates on or after January 1, 2009. As the provisions of FAS 141R are to be applied prospectively, the impact to the Company cannot be determined until a transaction occurs.

NOTE 3 OTHER INCOME (EXPENSE), NET

Included in other income (expense), net in the Company's condensed consolidated statements of operations for the quarters ended March 28, 2009 and March 22, 2008 are the following items:

	March 28, 2009	March 22, 2008
	(In thousands)	
Unrealized gain (loss) on the cross currency swap	\$ 17,716	\$ (32,354)
Realized gain on the cross currency swap	2,320	2,923
Gain on foreign denominated borrowings	7,132	491
Write-off of debt issuance costs	(5,222)	
Other	6	229
Other income (expense), net	\$ 21,952	\$ (28,711)

Refer to Note 13 Derivative Financial Instruments for further discussion regarding the Company's cross currency swap.

NOTE 4 DISCONTINUED OPERATIONS

During the second quarter of 2008, the Company approved and committed to a formal plan to divest its fresh-cut flowers operations (Flowers transaction). The first phase of the Flowers transaction was completed during the first quarter of 2009 (refer to Note 12 Assets Held-For-Sale). In addition, during the fourth quarter of 2007, the Company approved and committed to a formal plan to divest its citrus and pistachio operations (Citrus) located in central California. The operating results of Citrus were included in the fresh fruit operating segment. The sale of Citrus was completed during the third quarter of 2008. In evaluating the two businesses, the Company concluded that they each met the definition of a discontinued operation as defined in Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (FAS 144). Accordingly, the results of operations of these businesses have been reclassified for all periods presented.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

The operating results of fresh-cut flowers and Citrus for the quarters ended March 28, 2009 and March 22, 2008 are reported in the following table:

	Quarter Ended March 28, 2009 Fresh-Cut Flowers	Quarter Ended March 22, 2008 Fresh-Cut Flowers Citrus (In thousands)	Total
Revenues	\$ 2,780	\$ 33,816 \$ 1,872	\$ 35,688
Income (loss) before income taxes	\$ 159	\$ (3,141) \$ 43	\$ (3,098)
Income taxes	(37)	295 (18)	277
Income (loss) from discontinued operations, net of income taxes	\$ 122	\$ (2,846) \$ 25	\$ (2,821)
Gain on disposal of discontinued operations, net of income taxes	\$ 1,308	\$ \$	\$

For all periods presented, noncontrolling interests were not material.

NOTE 5 INCOME TAXES

The Company recorded \$8 million of income tax expense on \$109.1 million of pretax income from continuing operations for the quarter ended March 28, 2009. Income tax expense included interest expense of \$0.6 million (net of associated income tax benefits of approximately \$0.2 million) related to the Company's unrecognized tax benefits. The income tax expense for the quarter ended March 22, 2008 was \$9.4 million, including interest expense of \$2.8 million (net of associated income tax benefits of approximately \$1.3 million) related to the Company's unrecognized tax benefits. The Company's effective tax rate varies significantly from period to period due to the level, mix and seasonality of earnings generated in its various U.S. and foreign jurisdictions.

Under Accounting Principles Board Opinion No. 28, *Interim Financial Reporting* (APB 28), and FASB Interpretation No. 18, *Accounting for Income Taxes in Interim Periods* (FIN 18), the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of APB 28 and FIN 18 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

In applying APB 28 and FIN 18 to the income tax provision computation for the period ended March 28, 2009, the Company excluded, from its calculation of the estimated annual effective tax rate, income or loss earned in certain foreign jurisdictions having tax rates that vary significantly from those associated with the Company's earnings from operations in the rest of the jurisdictions in which it operates. Due to the volatility in the mix of earnings, the Company believes this approach is more representative of what is expected for the full year.

For the periods presented, the Company's income tax provision differs from the U.S. federal statutory rate applied to the Company's pretax income primarily due to operations in foreign jurisdictions that are taxed at a rate lower than the U.S. federal statutory rate offset by the accrual for uncertain tax positions.

The Company recognizes accrued interest and penalties related to its unrecognized tax benefits as a component of income taxes in the condensed consolidated statements of operations. Accrued interest and penalties before tax benefits were \$26.6 million and \$26.9 million at March 28, 2009 and January 3, 2009, respectively, and are included as a component of other long-term liabilities in the condensed consolidated balance sheet. The decrease is primarily attributable to the reduction in liabilities for unrecognized tax benefits due to the expiration of the statute of limitations associated with a non-U.S. liability.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

Dole Food Company or one or more of its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years prior to 2001.

Income Tax Audits: The Company believes its tax positions comply with the applicable tax laws and that it is adequately provided for all tax related matters. Matters raised upon audit may involve substantial amounts and could result in material cash payments if resolved unfavorably; however, management does not believe that any material payments will be made related to these matters within the next year. Management considers it unlikely that the resolution of these matters will have a material adverse effect on the Company's results of operations.

Internal Revenue Service Audit: The Company is currently under examination by the Internal Revenue Service for the tax years 2002-2005 and it is anticipated that the examination will be completed by the end of 2009.

At this time, the Company does not anticipate that total unrecognized tax benefits will significantly change due to the settlement of audits and the expiration of statutes of limitations within the next twelve months.

NOTE 6 INVENTORIES

The major classes of inventories were as follows:

	March 28, 2009	January 3, 2009
	(In thousands)	
Finished products	\$ 360,266	\$ 344,643

	\$ 2,056,924	\$ 1,798,556

2009 Debt Refinancing

On February 13, 2009, the Company commenced a tender offer to purchase for cash any and all of the outstanding 8.625% notes due May 2009 (2009 Notes) for a purchase price equal to \$980 per \$1,000 of 2009 Notes validly tendered, with an additional payment of \$20 per \$1,000 of 2009 Notes tendered early in the process. In connection with the tender offer, the Company sought consents to certain amendments to the indenture governing the 2009 Notes to eliminate substantially all of the restrictive covenants and certain events of default contained therein. On March 4, 2009, the Company announced that it had received the required consents necessary to amend the indenture with respect to the 2009 Notes and, accordingly, executed the supplemental indenture effecting such amendments, which became operative on March 18, 2009, when the Company accepted and paid for the tendered 2009 Notes. The tender offer expired on March 17, 2009.

On March 18, 2009, the Company completed the sale and issuance of \$350 million aggregate principal amount of 13.875% Senior Secured Notes due March 2014 (2014 Notes) at a discount of \$25 million. The 2014 Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933 (Securities Act) and to persons outside the United States in compliance with Regulation S under the Securities Act. The sale was exempt from the registration requirements of the Securities Act. Interest on the 2014 Notes will be paid semiannually in arrears on March 15 and September 15 of each year, beginning on September 15, 2009. The 2014 Notes have the benefit of a lien on certain U.S. assets of the Company that is junior to the liens of the Company's senior secured credit facilities (revolving credit and term loan facilities), and are senior obligations of the Company ranking equally with the Company's existing senior debt. The Company used the net proceeds from this offering, together with cash on hand and/or borrowings under the revolving credit facility, to purchase all of the

Table of Contents

DOLE FOOD COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

tendered 2009 Notes and to irrevocably deposit with the trustee of the 2009 Notes funds that were used to repay the remaining outstanding 2009 Notes at maturity on May 1, 2009.

In connection with these refinancing transactions, the Company amended its senior secured credit facilities, which amendments, among other things, permitted the issuance of new secured debt securities, increased the interest rate on the term and revolving credit facilities and added a leverage maintenance covenant.

The Company may purchase some of its \$400 million 7.25% notes due June 2010 during the next twelve months.

Debt Issuance Costs

In connection with the issuance of the 2014 Notes and the amendment of the Company's senior secured credit facilities, the Company incurred debt issuance costs of \$17.8 million. Debt issuance costs are capitalized and amortized into interest expense over the term of the underlying debt.

The Company wrote off \$5.2 million of deferred debt issuance costs during the quarter ended March 28, 2009 resulting from the amendment of its senior secured credit facilities. This amendment was accounted for as an extinguishment of debt in accordance with EITF 96-19, *Debtor's Accounting for a Modification or Exchange of Debt Instruments*. This write-off was recorded to other income (expense), net in the condensed consolidated statement of operations for the quarter ended March 28, 2009.

The Company amortized deferred debt issuance costs of \$0.9 million and \$1 million during the quarters ended March 28, 2009 and March 22, 2008, respectively.

Term Loans and Revolving Credit Facility

As of March 28, 2009, the term loan facilities consisted of \$176.8 million of Term Loan B and \$658.6 million of Term Loan C. The term loan facilities bear interest, at the Company's option, at a rate per annum equal to either (i) a base rate plus 3.5% to 4%; or (ii) LIBOR (subject to a minimum of 3%) plus 4.5% to 5%, in each case, based upon the Company's senior secured leverage ratio. The weighted average variable interest rate at March 28, 2009 for Term Loan B and Term Loan C was 8.2%. The term loan facilities require quarterly principal payments, plus a balloon payment due in 2013. The Company has an interest rate swap to hedge future changes in interest rates and a cross currency swap to effectively lower the U.S. dollar fixed interest rate to a Japanese yen fixed interest rate on Term Loan C. Refer to Note 13 - Derivative Financial Instruments for additional information related to these instruments.

As of March 28, 2009, the asset based revolving credit facility (ABL revolver) borrowing base was \$319.8 million and the amount outstanding under the ABL revolver was \$81.6 million. The ABL revolver bears interest, at the Company's option, at a rate per annum equal to either (i) a base rate plus 2% to 2.5%, or (ii) LIBOR plus 3% to 3.5%, in each case, based upon the Company's senior secured leverage ratio. At March 28, 2009, the weighted average variable interest rate for the ABL revolver was 4.3%. The ABL revolver matures in April 2011. After taking into account approximately \$5.3 million of outstanding letters of credit issued under the ABL revolver, the Company had approximately \$232.9 million available for borrowings as of March 28, 2009. In addition, the Company had approximately \$68.6 million of letters of credit and bank guarantees outstanding under its pre-funded letter of credit

facility as of March 28, 2009.

Covenants

Provisions under the indentures to the Company's senior notes and debentures require the Company to comply with certain covenants. These covenants include limitations on, among other things, indebtedness, investments, loans to subsidiaries, employees and third parties, the issuance of guarantees and the payment of dividends. The

Table of Contents

DOLE FOOD COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

ABL revolver contains a springing covenant, but that covenant has never been effective and would only become effective if the availability under the ABL revolver were to fall below \$35 million for any eight consecutive business days, which it has never done during the life of such facility. At March 28, 2009, the Company had \$232.9 million of availability under the ABL revolver.

In addition, as a result of the March 2009 amendment to the Company's senior secured term facilities, the Company is now subject to a first priority senior secured leverage ratio that must be at or below 3.25 to 1.00 as of the last day of the fiscal quarters ending March 28, 2009 through October 10, 2009 and steps down to 3.00 to 1.00 as of the last day of the fiscal quarter ending January 2, 2010. At March, 28, 2009, the first priority senior secured leverage ratio was less than 2.50 to 1.00.

A breach of a covenant or other provision in a debt instrument governing the Company's current or future indebtedness could result in a default under that instrument and, due to cross-default and cross-acceleration provisions, could result in a default under the Company's other debt instruments. Upon the occurrence of an event of default under the senior secured credit facilities or other debt instrument, the lenders or holders of such other debt instruments could elect to declare all amounts outstanding to be immediately due and payable and terminate all commitments to extend further credit. If the Company were unable to repay those amounts, the lenders could proceed against the collateral granted to them, if any, to secure the indebtedness. If the lenders under the Company's current indebtedness were to accelerate the payment of the indebtedness, the Company cannot give assurance that its assets or cash flow would be sufficient to repay in full its outstanding indebtedness, in which event the Company likely would seek reorganization or protection under bankruptcy or other, similar laws.

The Company's parent, DHM Holding Company, Inc. (HoldCo), entered into an amended and restated loan agreement for \$135 million on March 17, 2008 in connection with its investment in Westlake Wellbeing Properties, LLC. The obligations under such loan agreement mature on March 3, 2010. In addition, a \$20 million principal payment on the loan is due on June 17, 2009. Failure to make this payment when due would give lenders under this loan agreement the right to accelerate that debt. Because HoldCo is a party to Dole's senior secured credit facilities, any failure of Holdco to pay the \$20 million principal payment by June 17, 2009 or any other default under the Holdco agreement would result in a default under the Company's senior secured credit facilities under the existing cross-default and cross-acceleration provisions set forth in those senior secured credit facilities. If such a default were to occur, the Company's senior secured credit facilities could be declared due at the request of the lenders holding a majority of the senior secured debt under the applicable agreement and unless the default were waived the Company would no longer have the ability to request advances or letters of credit under its revolving credit facility. The acceleration of the indebtedness under the senior secured credit facilities would, if not cured within 30 days, also allow the holders of 25% or more in principal amount of any series of the Company's notes or debentures to accelerate the maturity of such series. Although HoldCo has assured the Company that it expects to have sufficient funds available from its shareholders to timely make the \$20 million principal payment by June 17, 2009, there can be no assurance that such will occur.

Dividends

The Company's ability to declare dividends is limited under the terms of its senior secured credit facilities and senior notes indentures.

NOTE 10 SEGMENT INFORMATION

The Company has three reportable operating segments: fresh fruit, fresh vegetables and packaged foods. These reportable segments are managed separately due to differences in their products, production processes, distribution channels and customer bases.

Management evaluates and monitors segment performance primarily through, among other measures, earnings before interest expense and income taxes (EBIT). EBIT is calculated by adding interest expense and income taxes to income (loss) from continuing operations. Management believes that segment EBIT provides useful information for analyzing the underlying business results as well as allowing investors a means to evaluate the financial results of each segment in relation to the Company as a whole. EBIT is not defined under accounting principles generally accepted in the United States of America (GAAP) and should not be considered in isolation or as a substitute for net income or cash flow measures prepared in accordance with GAAP or as a measure of the Company's profitability. Additionally, the Company's computation of EBIT may not be comparable to other similarly titled measures computed by other companies, because not all companies calculate EBIT in the same fashion.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

Revenues from external customers and EBIT for the reportable operating segments and corporate were as follows:

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
Revenues from external customers		
Fresh fruit	\$ 1,121,982	\$ 1,228,528

	\$ 4,279,382	\$ 4,364,619

NOTE 11 CONTINGENCIES

The Company is a guarantor of indebtedness of some of its key fruit suppliers and other entities integral to the Company's operations. At March 28, 2009, guarantees of \$1.9 million consisted primarily of amounts advanced under third-party bank agreements to independent growers that supply the Company with product. The Company has not historically experienced any significant losses associated with these guarantees.

The Company issues letters of credit and bank guarantees through its ABL revolver and its pre-funded letter of credit facilities, and, in addition, separately through major banking institutions. The Company also provides insurance company issued bonds. These letters of credit, bank guarantees and insurance company bonds are required by certain regulatory authorities, suppliers and other operating agreements. As of March 28, 2009, total letters of credit, bank guarantees and bonds outstanding under these arrangements were \$101.5 million, of which \$68.6 million was issued under its pre-funded letter of credit facility.

The Company also provides various guarantees, mostly to foreign banks, in the course of its normal business operations to support the borrowings, leases and other obligations of its subsidiaries. The Company guaranteed \$215.6 million of its subsidiaries' obligations to their suppliers and other third parties as of March 28, 2009.

The Company has change of control agreements with certain key executives, under which severance payments and benefits would become payable in the event of specified terminations of employment in connection with a change of control (as defined) of the Company.

The Company is involved from time to time in claims and legal actions incidental to its operations, both as plaintiff and defendant. The Company has established what management currently believes to be adequate reserves for pending

legal matters. These reserves are established as part of an ongoing worldwide assessment of claims and legal actions that takes into consideration such items as changes in the pending case load (including resolved and new matters), opinions of legal counsel, individual developments in court proceedings, changes in the law, changes in business focus, changes in the litigation environment, changes in opponent strategy and tactics, new developments as a result of ongoing discovery, and past experience in defending and settling similar claims. In the opinion of management, after consultation with outside counsel, the claims or actions to which the Company is a party are not expected to have a material adverse effect, individually or in the aggregate, on the Company's financial condition or results of operations.

DBCP Cases: A significant portion of the Company's legal exposure relates to lawsuits pending in the United States and in several foreign countries, alleging injury as a result of exposure to the agricultural chemical DBCP (1,2-dibromo-3-chloropropane). DBCP was manufactured by several chemical companies including Dow

Table of Contents

DOLE FOOD COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

and Shell and registered by the U.S. government for use on food crops. The Company and other growers applied DBCP on banana farms in Latin America and the Philippines and on pineapple farms in Hawaii. Specific periods of use varied among the different locations. The Company halted all purchases of DBCP, including for use in foreign countries, when the U.S. EPA cancelled the registration of DBCP for use in the United States in 1979. That cancellation was based in part on a 1977 study by a manufacturer which indicated an apparent link between male sterility and exposure to DBCP among factory workers producing the product, as well as early product testing done by the manufacturers showing testicular effects on animals exposed to DBCP. To date, there is no reliable evidence demonstrating that field application of DBCP led to sterility among farm workers, although that claim is made in the pending lawsuits. Nor is there any reliable scientific evidence that DBCP causes any other injuries in humans, although plaintiffs in the various actions assert claims based on cancer, birth defects and other general illnesses.

Currently there are 247 lawsuits, in various stages of proceedings, alleging injury as a result of exposure to DBCP or seeking enforcement of Nicaragua judgments. In addition, there are 111 labor cases pending in Costa Rica under that country's national insurance program.

Thirty-one of the 247 lawsuits are currently pending in various jurisdictions in the United States. Twenty lawsuits in Los Angeles Superior Court brought by foreign workers who alleged exposure to DBCP in countries where Dole did not even have operations during the relevant period have been dismissed without prejudice pursuant to a tolling agreement which terminates on December 31, 2012. At the conclusion of the order to show cause hearing on April 23, 2009, Los Angeles Superior Court Judge Victoria Chaney dismissed with prejudice the two remaining lawsuits by Nicaraguan plaintiffs finding that the plaintiffs, and certain of their attorneys, fabricated their claims, engaged in a long-running conspiracy to commit a fraud on the court, used threats of violence to frighten witnesses and suppress the truth, and conspired with corrupt Nicaraguan judges, depriving Dole and the other companies of due process. A further hearing regarding sanctions against the plaintiffs' lawyers is set for May 8, 2009. One of two U.S. law firms representing the plaintiffs in these two pending lawsuits has filed a notice of discharge of attorneys of record; and the second law firm has filed a motion to be relieved as counsel for the plaintiffs. Another case pending in Hawaii Superior Court with 10 plaintiffs from Costa Rica, Guatemala, Ecuador and Panama currently has a trial date of January 18, 2010; and in June 2009, a filed motion to dismiss the case on statute of limitations grounds will be heard. The remaining cases are pending in Latin America and the Philippines. Claimed damages in DBCP cases worldwide total approximately \$44.3 billion, with lawsuits in Nicaragua representing approximately 88% of this amount. Typically in these cases the Company is a joint defendant with the major DBCP manufacturers. Except as described below, none of these lawsuits has resulted in a verdict or judgment against the Company.

One case pending in Los Angeles Superior Court with 12 Nicaraguan plaintiffs initially resulted in verdicts which totaled approximately \$5 million in damages against Dole in favor of six of the plaintiffs. As a result of the court's March 7, 2008 favorable rulings on Dole's post-verdict motions, including, importantly, the court's decision striking down punitive damages in the case on U.S. Constitutional grounds, the damages against Dole have now been reduced to \$1.58 million in total compensatory awards to four of the plaintiffs; and the court granted Dole's motion for a new trial as to the claims of one of the plaintiffs. The parties in this lawsuit have filed appeals. Once the court makes its determination of costs, the Company will file an appeal bond, which will further stay the judgment pending the resolution of the appeal. One of two U.S. law firms representing the plaintiffs in this case has filed a notice of discharge of attorneys of record. In the meantime, the Company is seeking to have this case remanded back to Los Angeles Superior Court Judge Victoria Chaney in light of her findings in the dismissal of the two other cases.

involving Nicaraguan plaintiffs. Previously, the court appointed a mediator to explore possible settlement of all DBCP cases currently pending before the court.

In Nicaragua, 196 cases are currently filed (of which 20 are active) in various courts throughout the country, all but one of which were brought pursuant to Law 364, an October 2000 Nicaraguan statute that contains substantive and procedural provisions that Nicaragua's Attorney General formally opined are unconstitutional. In October 2003, the Supreme Court of Nicaragua issued an advisory opinion, not connected with any litigation, that Law 364

Table of Contents

DOLE FOOD COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

is constitutional. Thirty-two cases have resulted in judgments in Nicaragua: \$489.4 million (nine cases consolidated with 468 claimants) on December 11, 2002; \$82.9 million (one case with 58 claimants) on February 25, 2004; \$15.7 million (one case with 20 claimants) on May 25, 2004; \$4 million (one case with four claimants) on May 25, 2004; \$56.5 million (one case with 72 claimants) on June 14, 2004; \$64.8 million (one case with 86 claimants) on June 15, 2004; \$27.7 million (one case with 39 claimants) on March 17, 2005; \$98.5 million (one case with 150 claimants) on August 8, 2005; \$46.4 million (one case with 62 claimants) on August 20, 2005; \$809 million (six cases consolidated with 1,248 claimants) on December 1, 2006; \$38.4 million (one case with 192 claimants) on November 14, 2007; and \$357.7 million (eight cases with 417 claimants) on January 12, 2009, which the Company recently learned of unofficially. Except for the latest one, the Company has appealed all judgments, with Dole's appeal of the August 8, 2005 \$98.5 million judgment and of the December 1, 2006 \$809 million judgment currently pending before the Nicaragua Court of Appeal. Dole will appeal the \$357.7 million judgment once it has been served.

The 20 active cases are currently pending in civil courts in Managua (9), Chinandega (10) and Puerto Cabezas (1), all of which have been brought under Law 364 except for one of the cases pending in Chinandega. In 2 of the 9 cases in Managua (Dole has not been ordered to answer in seven cases), the Company has sought to have the cases returned to the United States pursuant to Law 364. Dole's requests are still pending and the Company expects to make similar requests in the remaining seven cases at the appropriate time. In four of the 10 cases in Chinandega (Dole has not been ordered to answer in six cases), the Company has sought to have the cases returned to the United States pursuant to Law 364. In one case, the Chinandega court has ordered the plaintiffs to respond to our request; in two cases, the court had denied the Company's requests, and Dole has appealed that decision; and in the other case, the court has not yet ruled on Dole's request. In the one case in Puerto Cabezas, the Company has sought to have the case returned to the United States, and Dole has appealed the court's denial of the Company's request.

The claimants' attempted enforcement of the December 11, 2002 judgment for \$489.4 million in the United States resulted in a dismissal with prejudice of that action by the United States District Court for the Central District of California on October 20, 2003. The claimants have voluntarily dismissed their appeal of that decision, which was pending before the United States Court of Appeals for the Ninth Circuit. Defendants' motion for sanctions against Plaintiffs' counsel is still pending before the Court of Appeals in that case. A Special Master appointed by the Court of Appeals has recommended that Plaintiffs' counsel be ordered to pay Defendants' fees and costs up to \$130,000 each to Dole and the other two defendants; and following such recommendation, the Court of Appeals has appointed a special prosecutor.

Claimants have also sought to enforce the Nicaraguan judgments in Colombia, Ecuador, and Venezuela. In addition, there is one case pending in the U.S. District Court in Miami, Florida seeking enforcement of the August 8, 2005 \$98.5 million Nicaraguan judgment. This case is currently stayed. This case was stayed pending the conclusion of the proceedings before Judge Chaney in the two dismissed Nicaraguan cases. Plaintiffs appealed the stay order. On May 6, 2009, the District Court judge held a status conference and indicated that, now that Judge Chaney has issued her rulings, he would lift the stay. Plaintiffs agreed to seek dismissal of their appeal. The District Court will hold a further conference on May 21, 2009 to schedule further proceedings to determine whether this judgment is unenforceable due to evidence of a corrupt and politicized Nicaraguan judiciary and evidence of fraud on the court and corruption relating to this judgment revealed in connection with the Nicaraguan cases recently dismissed by Judge Chaney. In Venezuela, the claimants have attempted to enforce five of the Nicaraguan judgments in that country's Supreme Court: \$489.4 million (December 11, 2002); \$82.9 million (February 25, 2004); \$15.7 million (May 25,

2004); \$56.5 million (June 14, 2004); and \$64.8 million (June 15, 2004). These cases are currently inactive. An action filed to enforce the \$27.7 million Nicaraguan judgment (March 17, 2005) in the Colombian Supreme Court was dismissed. In Ecuador, the claimants attempted to enforce the five Nicaraguan judgments issued between February 25, 2004 through June 15, 2004 in the Ecuador Supreme Court. The First, Second and Third Chambers of the Ecuador Supreme Court issued rulings refusing to consider those enforcement actions on the ground that the Supreme Court was not a court of competent jurisdiction for enforcement of a foreign

Table of Contents

DOLE FOOD COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

judgment. The plaintiffs subsequently refiled those five enforcement actions in the civil court in Guayaquil, Ecuador. Two of these subsequently filed enforcement actions have been dismissed by the 3rd Civil Court \$15.7 million (May 25, 2004) and the 12th Civil Court \$56.5 million (June 14, 2004) in Guayaquil; plaintiffs have sought reconsideration of those dismissals. The remaining three enforcement actions are still pending.

The Company believes that none of the Nicaraguan judgments will be enforceable against any Dole entity in the U.S. or in any other country, because Nicaragua's Law 364 is unconstitutional and violates international principles of due process. Among other things, Law 364 is an improper special law directed at particular parties; it requires defendants to pay large, non-refundable deposits in order to even participate in the litigation; it provides a severely truncated procedural process; it establishes an irrebuttable presumption of causation that is contrary to the evidence and scientific data; and it sets unreasonable minimum damages that must be awarded in every case.

On October 23, 2006, Dole announced that Standard Fruit de Honduras, S.A. reached an agreement with the Government of Honduras and representatives of Honduran banana workers. This agreement establishes a Worker Program that is intended by the parties to resolve in a fair and equitable manner the claims of male banana workers alleging sterility as a result of exposure to DBCP. The Honduran Worker Program will not have a material effect on Dole's financial condition or results of operations. The official start of the Honduran Worker Program was announced on January 8, 2007. On August 15, 2007, Shell Oil Company was included in the Worker Program.

As to all the DBCP matters, the Company has denied liability and asserted substantial defenses. While Dole believes there is no reliable scientific basis for alleged injuries from the agricultural field application of DBCP, Dole continues to seek reasonable resolution of other pending litigation and claims in the U.S. and Latin America. For example, as in Honduras, Dole is committed to finding a prompt resolution to the DBCP claims in Nicaragua, and is prepared to pursue a structured worker program in Nicaragua with science-based criteria. Although no assurance can be given concerning the outcome of these cases, in the opinion of management, after consultation with legal counsel and based on past experience defending and settling DBCP claims, the pending lawsuits are not expected to have a material adverse effect on the Company's financial condition or results of operations.

European Union Antitrust Inquiry: On October 15, 2008, the European Commission (EC) adopted a Decision against Dole Food Company, Inc. and Dole Fresh Fruit Europe OHG (collectively Dole) and against other unrelated banana companies, finding violations of the European competition (antitrust) laws. The Decision imposes 45.6 million in fines on Dole.

The Decision follows a Statement of Objections, issued by the EC on July 25, 2007, and searches carried out by the EC in June 2005 at certain banana importers and distributors, including two of Dole's offices. On November 28 and 29, 2007, the EC conducted searches of certain of the Company's offices in Italy and Spain, as well as of other companies' offices located in these countries.

Dole received the Decision on October 21, 2008 and appealed the Decision to the European Court of First Instance in Luxembourg on December 24, 2008.

The Company made an initial \$10 million (7.6 million) provisional payment towards the 45.6 million fine on January 22, 2009. As agreed with the European Commission (DG Budget), Dole provided the required bank guaranty

for the remaining balance of the fine to the European Commission by the deadline of April 30, 2009. The bank guaranty renews annually during the appeals process (which may take several years) and carries annual interest of 6.15% (accrued from January 23, 2009) on the remaining balance of the fine. If the European Court of First Instance fully agrees with the Company's arguments presented in its appeal, the Company will be entitled to the return of all monies paid, plus interest.

Although no assurances can be given, and although there could be a material adverse effect on the Company, the Company believes that it has not violated the European competition laws. No accrual for the Decision has been

(Unaudited)

made in the accompanying condensed consolidated financial statements, since the Company cannot determine at this time the amount of probable loss, if any, incurred as a result of the Decision.

Honduran Tax Case: In 2005, the Company received a tax assessment from Honduras of approximately \$137 million (including the claimed tax, penalty, and interest through the date of assessment) relating to the disposition of all of our interest in Cervecería Hondureña, S.A. in 2001. Dole believes the assessment is without merit and filed an appeal with the Honduran tax authorities, which was denied. As a result of the denial in the administrative process, in order to negate the tax assessment, on August 5, 2005, the Company proceeded to the next stage of the appellate process by filing a lawsuit against the Honduran government in the Honduran Administrative Tax Trial Court. The Honduran government sought dismissal of the lawsuit and attachment of assets, which Dole challenged. The Honduran Supreme Court affirmed the decision of the Honduran intermediate appellate court that a statutory prerequisite to challenging the tax assessment on the merits is the payment of the tax assessment or the filing of a payment plan with the Honduran courts; Dole has challenged the constitutionality of the statute requiring such payment or payment plan. Although no assurance can be given concerning the outcome of this case, in the opinion of management, after consultation with legal counsel, the pending lawsuits and tax-related matters are not expected to have a material adverse effect on the Company's financial condition or results of operations.

NOTE 12 ASSETS HELD-FOR-SALE

The Company continuously reviews its assets in order to identify those assets that do not meet the Company's future strategic direction or internal economic return criteria. As a result of this review, the Company has identified and is in the process of selling certain long-lived assets. In accordance with FAS 144, the Company has reclassified these assets as held-for-sale.

Total assets held-for-sale by segment were as follows:

	Fresh Fruit	Fresh Vegetables	Packaged Foods (In thousands)	Fresh-Cut Flowers - Discontinued Operation	Total Assets Held-For-Sale
Balance as of January 3, 2009	\$ 98,105	\$ 38,600	\$ 4,182	\$ 61,989	\$ 202,876
Additions	75				75
Sales	(24,438)	(35,349)	(806)	(49,350)	(109,943)
Balance as of March 28, 2009	\$ 73,742	\$ 3,251	\$ 3,376	\$ 12,639	\$ 93,008

At March 28, 2009, all assets held-for-sale related to property, plant and equipment, net of accumulated depreciation.

Total liabilities held-for-sale by segment were as follows:

				Fresh-Cut Flowers -	
	Fresh Fruit	Fresh Vegetables	Packaged Foods	Discontinued Operation	Total Liabilities Held-For-Sale
	(In thousands)				
Balance as of January 3, 2009	\$ 5,247	\$	\$	\$ 45,218	\$ 50,465
Sales	(5,247)			(45,218)	(50,465)
Balance as of March 28, 2009	\$	\$	\$	\$	\$

The Company received total proceeds of \$81.8 million on assets sold during the quarter ended March 28, 2009, which had been classified as held-for-sale. The total realized gain recorded on assets classified as held-for-sale, was \$17.9 million for the quarter ended March 28, 2009, which included \$1.3 million related to the fresh-cut flowers

(Unaudited)

operating segment. Realized gains related to continuing operations, of \$16.6 million, are shown as a separate component of operating income in the condensed consolidated statement of operations.

Fresh Fruit

The Company completed the sale of certain portions of its Latin American banana operations during January 2009. Net proceeds from the sale totaled approximately \$25.8 million. To date, the Company has collected \$16.1 million in cash (\$2 million in 2008 and \$14.1 million in 2009) and has recorded a \$9.7 million receivable which will be collected through January 2010. The Company also sold a wood box plant located in Chile for \$0.6 million. Total realized gains recorded on these sales approximated \$6.7 million for the quarter ended March 28, 2009.

Fresh Vegetables

During the first quarter of 2009, the Company completed the sale of 1,100 acres of property located in California. The Company received net cash proceeds of \$44.5 million and recorded a gain on the sale of \$9.2 million.

Packaged Foods

During the first quarter of 2009, the Company sold approximately 130 acres of peach orchards located in California for approximately \$1.6 million and recorded a gain on the sale of \$0.7 million.

Fresh-Cut Flowers Discontinued Operation

During January 2009, the first phase of the Flowers transaction was completed. The Company retains only certain real estate of the former flowers divisions to be sold in the subsequent phases of the transaction. Net proceeds from the sale totaled approximately \$29.3 million. Of this amount, \$21 million was collected in cash and the remaining \$8.3 million was recorded as a receivable, which will be repaid during January 2011. The Company recorded a gain on the sale of \$1.3 million, which is included as a component of gain on disposal from discontinued operations, net of income taxes in the condensed consolidated statement of operations for the quarter ended March 28, 2009.

NOTE 13 DERIVATIVE FINANCIAL INSTRUMENTS

The Company is exposed to foreign currency exchange rate fluctuations, bunker fuel price fluctuations and interest rate changes in the normal course of its business. As part of its risk management strategy, the Company uses derivative instruments to hedge certain foreign currency, bunker fuel and interest rate exposures. The Company's objective is to offset gains and losses resulting from these exposures with losses and gains on the derivative contracts used to hedge them, thereby reducing volatility of earnings. The Company does not hold or issue derivative financial instruments for trading or speculative purposes.

All of the Company's derivative instruments, with the exception of the interest rate swap, are not designated as effective hedges of cash flows as defined by Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities, as amended* (FAS 133). The interest rate swap is accounted for as a cash flow hedge under FAS 133 and accordingly, unrealized gains or losses are recorded as a component of

accumulated other comprehensive income (loss) in the condensed consolidated balance sheets.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

At March 28, 2009, the gross notional value and fair market value of the Company's foreign currency hedges were as follows:

	Gross Notional Value			Fair Market	Average
	Participating			Value	Strike
	Forwards	Forwards	Total	Assets	Price
			(In thousands)	(Liabilities)	
<i>Foreign Currency</i>					
<i>Hedges(Buy/Sell):</i>					
U.S. Dollar/Japanese Yen	\$ 120,054	\$	\$ 120,054	\$ (3,139)	JPY 104
U.S. Dollar/Euro	77,518		77,518	6,252	EUR 1.44
Chilean Peso/U.S. Dollar		16,125	16,125	2,653	CLP 670
Colombian Peso/U.S. Dollar		12,018	12,018	(1,633)	COP 2,192
Philippine Peso/U.S. Dollar		31,489	31,489	(693)	PHP 47.7
Total	\$ 197,572	\$ 59,632	\$ 257,204	\$ 3,440	

At March 28, 2009, the notional volume and the fair market value of the Company's bunker fuel hedges were as follows:

	Notional	Fair Market		
	Volume	Value	Asset	Average Price
	(metric tons)	(Liability)	(In thousands)	(per metric ton)
<i>Bunker Fuel Hedges:</i>				
Rotterdam	3,601	\$ (335)	\$	328

For both the foreign currency and bunker fuel hedges, the fair market value of these instruments is recorded in the condensed consolidated balance sheet as either a receivable or accrued liability. Settlement of these hedges will occur during 2009.

Net unrealized gains (losses) and realized gains (losses) included as a component of cost of products sold in the condensed consolidated statements of operations on the foreign currency and bunker fuel hedges for the quarters ended March 28, 2009 and March 22, 2008 were as follows:

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
<i>Unrealized Gains (Losses):</i>		
Foreign currency exchange contracts and other	\$ 9,502	\$ (3,793)
Bunker fuel contracts	3,241	439
	12,743	(3,354)
<i>Realized Gains (Losses):</i>		
Foreign currency exchange contracts	246	(2,973)
Bunker fuel contracts	(2,534)	1,087
	(2,288)	(1,886)
	\$ 10,455	\$ (5,240)

The Company entered into an interest rate swap in 2006 to hedge future changes in interest rates. This agreement effectively converted \$320 million of borrowings under Term Loan C, which was variable-rate debt, to a fixed-rate basis through 2011. The interest rate swap fixed the interest rate at 7.2%. The paying and receiving rates

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

under the interest rate swap were 5.5% and 1.2% as of March 28, 2009, with an outstanding notional amount of \$320 million. The fair value of the interest rate swap was a liability, included in accrued liabilities in the accompanying condensed consolidated balance sheets, of \$26.2 million and \$26.5 million at March 28, 2009 and January 3, 2009, respectively. Net payments of the interest rate swap are recorded as a component of interest expense in the condensed consolidated statements of operations for 2009 and 2008. Net payments were \$0.5 million and \$0.2 million for the quarters ended March 28, 2009 and March 22, 2008, respectively. Unrecognized losses of \$12.1 million related to the interest rate swap are expected to be realized into earnings over the next twelve months. These losses will be primarily offset by gains related to the cross currency swap.

The Company executed a cross currency swap during 2006 to synthetically convert \$320 million of Term Loan C into Japanese yen denominated debt in order to effectively lower the U.S. dollar fixed interest rate of 7.2% to a Japanese yen interest rate of 3.6%. Payments under the cross currency swap were converted from U.S. dollars to Japanese yen at an exchange rate of ¥111.9. At March 28, 2009, the exchange rate of the Japanese yen to U.S. dollar was ¥98.7. The value of the cross currency swap will fluctuate based on changes in the U.S. dollar to Japanese yen exchange rate and market interest rates until maturity in 2011, at which time it will settle in cash at the then current exchange rate. The fair market value of the cross currency swap was a liability, included in accrued liabilities in the accompanying condensed consolidated balance sheets, of \$22.8 million and \$40.5 million at March 28, 2009 and January 3, 2009, respectively. The unrealized gains (losses) and realized gains on the cross currency swap for the quarters ended March 28, 2009 and March 22, 2008 were as follows:

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
Unrealized gains (losses)	\$ 17,716	\$ (32,354)
Realized gains	2,320	2,923
	\$ 20,036	\$ (29,431)

Realized and unrealized gains and losses on the cross currency swap are recorded through other income (expense), net in the condensed consolidated statements of operations.

On June 16, 2009, the Company and the counterparty to the interest rate swap and the cross currency swap each have the right to compel the other to settle the swaps at that time, based on the values as of June 16, 2009, as opposed to waiting to settle the swaps at maturity in 2011. If the interest rate swap and the cross currency swap had hypothetically been settled on March 28, 2009, the Company would have been obliged to pay the counterparty a total of approximately \$58 million. The Company is in negotiations with the counterparty, with a view to not having a June 2009 early settlement of the swaps, and the Company expects that these negotiations will be concluded on terms and conditions acceptable to the Company, although no assurance can be given concerning the outcome.

The Company adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157) as of December 30, 2007 for financial assets and liabilities measured on a recurring basis. FAS 157 establishes a fair value hierarchy that prioritizes observable and unobservable inputs to valuation techniques used to measure fair value. These levels, in order of highest to lowest priority are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities.

Level 2: Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

Table of Contents**DOLE FOOD COMPANY, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**
(Unaudited)

The fair values of the Company's derivative instruments are determined using Level 2 inputs, which are defined as significant other observable inputs. The fair values of the foreign currency exchange contracts, bunker fuel contracts, interest rate swap and cross currency swap were estimated using internal discounted cash flow calculations based upon forward foreign currency exchange rates, bunker fuel futures, interest-rate yield curves or quotes obtained from brokers for contracts with similar terms less any credit valuation adjustments. The Company recorded a credit valuation adjustment at March 28, 2009 which reduced the derivative liability balances. The credit valuation adjustment decreased, resulting in a loss of \$7.5 million, to \$8.8 million at March 28, 2009 from \$16.3 million at January 3, 2009. Of this loss, \$0.7 million was recorded as interest expense and \$6.8 million was recorded as other income (expense), net.

The following table provides a summary of the fair values of assets and liabilities under the FAS 157 hierarchy:

	March 28, 2009	Fair Value Measurements at March 28, 2009 Using Significant Other Observable Inputs (Level 2) (In thousands)
Assets and Liabilities Measured on a Recurring Basis		
<i>Assets:</i>		
Foreign currency exchange contracts	\$ 8,905	\$ 8,905
<i>Liabilities:</i>		
Foreign currency exchange contracts	\$ 5,465	\$ 5,465
Bunker fuel contracts	335	335
Interest rate swap	26,178	26,178
Cross currency swap	22,772	22,772
	\$ 54,750	\$ 54,750

Credit Risk

The counterparties to the foreign currency exchange forward contracts, bunker fuel hedges, cross currency and interest rate swaps consist of a number of major international financial institutions. The Company has established counterparty guidelines and regularly monitors its positions and the financial strength of these institutions. While counterparties to hedging contracts expose the Company to credit-related losses in the event of a counterparty's non-performance, the risk would be limited to the unrealized gains on such affected contracts. The Company does not anticipate any such losses.

NOTE 14 GUARANTOR FINANCIAL INFORMATION

In connection with the issuance of the 2011 Notes in March 2003 and the 2010 Notes in May 2003, all of the Company's wholly-owned domestic subsidiaries (Guarantors) have fully and unconditionally guaranteed, on a joint and several basis, the Company's obligations under the indentures related to such Notes and to the Company's 2013 Debentures and 2014 Notes (the Guarantees). Each Guarantee is subordinated in right of payment to the Guarantors existing and future senior debt, including obligations under the senior secured credit facilities, and will rank pari passu with all senior subordinated indebtedness of the applicable Guarantor.

The accompanying guarantor consolidating financial information is presented on the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for the Company's share in the subsidiaries' cumulative results of operations, capital contributions and

Table of Contents

(Unaudited)

distributions and other changes in equity. Elimination entries relate to the elimination of investments in subsidiaries and associated intercompany balances and transactions as well as cash overdraft and income tax reclassifications.

The following are condensed consolidating statements of operations of the Company for the quarters ended March 28, 2009 and March 22, 2008; condensed consolidating balance sheets as of March 28, 2009 and January 3, 2009; and condensed consolidating statements of cash flows for the quarters ended March 28, 2009 and March 22, 2008.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

Overview

Significant highlights for Dole Food Company, Inc. and its consolidated subsidiaries (Dole or the Company) for the quarter ended March 28, 2009 were as follows:

Net revenues for the first quarter of 2009 were \$1.6 billion, a decrease of 8% compared to the first quarter of 2008. Excluding the sales from our JP Fresh and Dole France ripening and distribution subsidiaries, which were sold during the fourth quarter of 2008, sales decreased 1%.

Operating income for the first quarter of 2009 was \$123 million compared to \$53 million for the first quarter of 2008, an improvement of 131% over the first quarter of 2008.

Banana operations continued to benefit throughout the first quarter of 2009 from strong local pricing in both North America and Asia as well as from higher demand in Japan.

Chilean deciduous fruit business also improved during the first quarter of 2009, due to higher volumes and a favorable Chilean peso foreign currency exchange rate.

Revenues and earnings were lower in our European ripening and distribution business, excluding the first quarter 2008 results of JP Fresh and Dole France, due to unfavorable euro and Swedish krona foreign currency exchange rates.

Earnings in our fresh vegetables segment improved during the first quarter of 2009 due to higher pricing of commodity vegetables in North America and higher sales of premium salad kits introduced in the second half of 2008. In addition, improved utilization and more efficient distribution continue to improve packaged salads operating results.

Earnings in our packaged foods segment were lower during the first quarter of 2009 compared to the first quarter of 2008 as operating results in 2008 included unrealized foreign currency exchange hedge gains of \$6 million. Excluding these gains, earnings benefited from improved results in our packaged frozen fruit operations as well as from lower marketing and general and administrative expenses. These improvements were partially offset by lower volumes sold across most product lines.

The Company continued its focus on reducing its operating expenses. On a comparable basis, general and administrative costs decreased \$8 million or 17% during the first quarter of 2009 due to lower headcount and various cost-cutting initiatives.

Other income (expense), net for the first quarter of 2009 increased \$50.7 million compared to the first quarter of 2008 due primarily to non-cash unrealized gains on the Company's cross currency swap and foreign denominated borrowings. These items were partially offset by the write-off of deferred debt issuance costs of \$5.2 million associated with the Company's March 2009 amendment of its senior secured credit facilities.

During the first quarter of 2009, the Company completed the first phase of the sale of its fresh-cut flowers business (Flowers transaction), closed the sale of certain banana properties in Latin America and closed the

sale of certain property in California. The Company received net cash proceeds of \$82 million for these sales and recorded realized gains of \$17.9 million of which \$1.3 million related to the Flowers transaction and was recorded as a gain on disposal of discontinued operations.

The Company completed the sale and issuance of \$350 million 13.875% senior secured notes due March 2014 at a discount of \$25 million. The net proceeds from the offering, together with cash on hand and/or borrowings under the revolving credit facility were used to purchase all of the \$345 million 8.625% notes due May 2009 (2009 notes). In connection with the refinancing transaction, the Company amended its senior secured credit facilities, which amendments, among other things, permitted issuance of new secured debt securities to refinance our 2009 notes, increased the interest rate on the term and revolving credit facilities and added a leverage maintenance covenant. Debt issuance costs related to the refinancing transaction were approximately \$18 million.

Table of Contents

On April 23, 2009, Los Angeles Superior Court Judge Victoria Chaney dismissed with prejudice the two remaining DBCP lawsuits by Nicaraguan plaintiffs in L.A. Superior Court, finding that the plaintiffs, and certain of their attorneys, fabricated their claims, engaged in a long-running conspiracy to commit a fraud on the court, used threats of violence to frighten witnesses and suppress the truth, and conspired with corrupt Nicaraguan judges, depriving Dole and the other defendants of due process. Judge Chaney also found evidence that the fraud had contaminated other DBCP cases, including the Nicaraguan judgment in another DBCP case, which currently is pending before a federal district court in Miami. Judge Chaney found that there was clear and convincing evidence that U.S. and Nicaraguan plaintiffs' lawyers had conspired with Nicaraguan judges to fix DBCP cases by manufacturing false lab reports. Dole is seeking to have a prior L.A. Superior Court DBCP case judgment for \$1.58 million remanded to Judge Chaney in light of her April 23, 2009 findings.

Results of Operations

Selected results of operations for the quarter ended March 28, 2009 and March 22, 2008 were as follows:

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
Revenues, net	\$ 1,596,590	\$ 1,728,345
Operating income	123,099	53,360
Other income (expense), net	21,952	(28,711)
Interest expense	(37,546)	(43,497)
Income taxes	(8,048)	(9,377)
Income (loss) from discontinued operations, net of income taxes	122	(2,821)
Gain on disposal of discontinued operations, net of income taxes	1,308	
Net income (loss) attributable to Dole Food Company, Inc.	102,820	(28,945)

Revenues

For the quarter ended March 28, 2009, revenues decreased 8% to \$1.6 billion from \$1.7 billion for the quarter ended March 22, 2008. Excluding first quarter 2008 sales from the Company's JP Fresh and Dole France subsidiaries, which were sold during the fourth quarter of 2008 (divested businesses), sales decreased 1%. This decrease is primarily due to lower sales in the Company's packaged foods segment and European ripening and distribution business. Packaged foods sales decreased due to lower volumes sold worldwide of FRUIT BOWLS® and canned pineapple. The decrease in volumes was attributable to the timing of the Easter holiday, which occurred during the second quarter of 2009 versus the first quarter of 2008 and the timing of purchases by retailers in advance of January 2009 price increases. Excluding first quarter 2008 sales from the divested businesses, European ripening and distribution sales decreased due to the impact of unfavorable euro and Swedish krona foreign currency exchange rates which more than offset higher local pricing and improved volumes in Sweden and Germany. Net unfavorable foreign currency exchange movements in the Company's selling locations resulted in lower revenues of approximately \$80 million. These decreases were partially offset by higher sales of bananas resulting from higher pricing in North America and Asia and improved volumes sold in Asia. Additionally, North America commodity vegetables revenues increased due to improved pricing for lettuce and celery and higher volumes sold of strawberries.

Operating Income

For the quarter ended March 28, 2009, operating income increased to \$123.1 million from \$53.4 million for the quarter ended March 22, 2008. The fresh fruit and fresh vegetables operating segments reported higher operating income. Fresh fruit operating results increased primarily as a result of strong pricing in the Company's North America and Asia banana operations as well as from higher sales and lower product costs in the Chilean deciduous fruit business. Fresh fruit operating income also benefited from a gain of \$6.7 million on the sale of certain banana properties in Latin America. In addition, fresh fruit operating results improved due to an increase in unrealized

Table of Contents

foreign currency hedge gains of \$19 million. Excluding the impact of the gain on the sale of Latin banana properties and the impact of unrealized foreign currency hedge gains, fresh fruit operating income improved 32% over the first quarter of 2008. Fresh vegetables reported higher earnings due to improved pricing in the North America commodity vegetable business. Packaged salads also benefited from lower distribution costs. Fresh vegetables operating income also benefited from a gain of \$9.2 million on the sale of certain property in California. Operating income in the packaged foods segment was lower due to a reduction in unrealized foreign currency hedge gains of \$6 million. Excluding the impact of the hedge gains, packaged foods earnings increased primarily due to improved performance in the North America frozen fruit operation as well as lower marketing and general and administrative expenses worldwide.

Other Income (Expense), Net

For the quarter ended March 28, 2009, other income (expense), net improved to income of \$22 million compared to expense of \$28.7 million in the prior year. The improvement was primarily due to an increase in unrealized gains of \$56.8 million generated on the Company's cross currency swap and foreign denominated debt obligations. These improvements were partially offset by the write-off of deferred debt issuance costs of \$5.2 million associated with the Company's March 2009 amendment of its senior secured credit facilities.

Interest Expense

Interest expense for the quarter ended March 28, 2009 was \$37.5 million compared to \$43.5 million for the quarter ended March 22, 2008. Interest expense decreased primarily as a result of a reduction in borrowings and lower interest rates on the Company's debt facilities.

Income Taxes

The Company recorded \$8 million of income tax expense on \$109.1 million of pretax income from continuing operations for the quarter ended March 28, 2009. Income tax expense included interest expense of \$0.6 million (net of associated income tax benefits of approximately \$0.2 million) related to the Company's unrecognized tax benefits. Income tax expense for the quarter ended March 22, 2008 was \$9.4 million, including interest expense of \$2.8 million (net of associated income tax benefits of approximately \$1.3 million) related to the Company's unrecognized tax benefits. The Company's effective tax rate varies significantly from period to period due to the level, mix and seasonality of earnings generated in its various U.S. and foreign jurisdictions.

Under Accounting Principles Board Opinion No. 28, *Interim Financial Reporting* (APB 28), and FASB Interpretation No. 18, *Accounting for Income Taxes in Interim Periods* (FIN 18), the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of APB 28 and FIN 18 could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

In applying APB 28 and FIN 18 to the income tax provision computation for the period ended March 28, 2009, the Company excluded, from its calculation of the estimated annual effective tax rate, income or loss earned in certain foreign jurisdictions having tax rates that vary significantly from those associated with the Company's earnings from operations in the rest of the jurisdictions in which it operates. Due to the volatility in the mix of earnings, the Company believes this approach is more representative of what is expected for the full year.

For the periods presented, the Company's income tax provision differs from the U.S. federal statutory rate applied to the Company's pretax income primarily due to operations in foreign jurisdictions that are taxed at a rate lower than the

U.S. federal statutory rate offset by the accrual for uncertain tax positions.

Segment Results of Operations

The Company has three reportable operating segments: fresh fruit, fresh vegetables and packaged foods. These reportable segments are managed separately due to differences in their products, production processes, distribution channels and customer bases.

Table of Contents

Management evaluates and monitors segment performance primarily through, among other measures, earnings before interest expense and income taxes (EBIT). EBIT is calculated by adding interest expense and income taxes to income (loss) from continuing operations. Management believes that segment EBIT provides useful information for analyzing the underlying business results as well as allowing investors a means to evaluate the financial results of each segment in relation to the Company as a whole. EBIT is not defined under accounting principles generally accepted in the United States of America (GAAP) and should not be considered in isolation or as a substitute for net income or cash flow measures prepared in accordance with GAAP or as a measure of the Company's profitability. Additionally, the Company's computation of EBIT may not be comparable to other similarly titled measures computed by other companies, because not all companies calculate EBIT in the same fashion.

Revenues from external customers and EBIT for the reportable operating segments and corporate were as follows:

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
Revenues from external customers:		
Fresh fruit	\$ 1,121,982	\$ 1,228,528
Fresh vegetables	233,442	231,029
Packaged foods	240,850	268,505
Corporate	316	283
	\$ 1,596,590	\$ 1,728,345

	Quarter Ended	
	March 28, 2009	March 22, 2008
	(In thousands)	
EBIT:		
Fresh fruit	\$ 98,822	\$ 52,886
Fresh vegetables	16,473	(3,470)
Packaged foods	21,890	24,185
Total operating segments	137,185	73,601
Corporate:		
Unrealized gain (loss) on cross currency swap	17,716	(32,354)
Operating and other expenses	(7,020)	(13,826)
Corporate	10,696	(46,180)
Interest expense	(37,546)	(43,497)
Income taxes	(8,048)	(9,377)
Net income (loss) from continuing operations	\$ 102,287	\$ (25,453)

Fresh Fruit

Fresh fruit revenues for the quarter ended March 28, 2009 decreased 9% to \$1.1 billion from \$1.2 billion for the quarter ended March 22, 2008. Excluding first quarter 2008 sales from the Company's divested businesses in the European ripening and distribution operations, fresh fruit revenues during the first quarter of 2009 were unchanged. Higher sales of bananas were driven by improved local pricing in North America and Asia, improved volumes sold in Japan and favorable Japanese yen exchange rates. These improvements were offset by lower sales of bananas in Europe as a result of lower volumes and lower local pricing. In addition, the European ripening and distribution operations had lower sales due to the impact of unfavorable euro and Swedish krona foreign currency exchange

Table of Contents

rates partially offset by improved local pricing and increased volumes sold in Sweden and Germany. Net unfavorable foreign currency exchange movements in the Company's foreign selling locations resulted in lower revenues of approximately \$75 million during the first quarter ended March 28, 2009.

Fresh fruit EBIT for the quarter ended March 28, 2009 increased to \$98.8 million from \$52.9 million for the quarter ended March 22, 2008. EBIT increased primarily as a result of higher banana earnings and improved operating results in the Company's Chilean deciduous fruit operations. The increase in banana EBIT was driven by strong local pricing in North America and Asia as well as the impact of favorable Japanese yen exchange rates. These improvements to banana EBIT were partially offset by lower sales in Europe and increased product costs due to weather conditions in Latin America that impacted production yields. EBIT in the Company's Chilean deciduous fruit operations increased due primarily to higher volumes and lower product costs resulting from a favorable Chilean peso foreign currency exchange rate. Higher EBIT in the fresh fruit operating segment was also attributable to a gain of \$6.7 million generated on the sale of certain banana properties in Latin America. In addition, fresh fruit EBIT benefited from unrealized foreign currency hedge gains of \$19 million. These increases were partially offset by lower fresh pineapple earnings in North America and Europe due to lower sales and higher product costs and lower earnings in the European ripening and distribution operations due to the impact of an unfavorable euro foreign currency exchange rate.

Fresh Vegetables

Fresh vegetables revenues for the quarter ended March 28, 2009 increased to \$233.4 million from \$231 million for the quarter ended of March 22, 2008. The increase in sales was primarily due to improved pricing in the North America commodity vegetable business, primarily for lettuce and celery, as well as higher volumes of strawberries. Sales in the packaged salads business were relatively unchanged as higher sales generated from premium salad kits, which were introduced during the third quarter of 2008, were offset by the shift of purchases from higher to lower priced products.

Fresh vegetables EBIT for the quarter ended March 28, 2009 increased to \$16.5 million from a loss of \$3.5 million for the quarter ended March 22, 2008. The increase in EBIT was primarily due to improved pricing in the North America commodity vegetable business, higher sales of premium salad kits and lower distribution costs due in part to increased production in the eastern United States, where much of the product is sold. In addition, fresh vegetables EBIT benefited from a gain of \$9.2 million on the sale of certain property in California.

Packaged Foods

Packaged foods revenues for the quarter ended March 28, 2009 decreased 10% to \$240.9 million from \$268.5 million for the quarter ended March 22, 2008. The decrease in revenues was primarily due to lower volumes of FRUIT BOWLS, canned pineapple and fruit in jars sold worldwide. Lower volumes were due in part to the timing of the Easter holiday, which occurred during the second quarter of 2009 versus the first quarter of 2008. In addition, as a result of anticipated price increases during January 2009, retailers increased their purchases of product during the fourth quarter of 2008. Unfavorable foreign currency exchange movements in selling locations, primarily the Canadian dollar and British pound sterling, resulted in lower revenues of approximately \$5 million during the first quarter of 2009. These decreases were partially offset by higher sales of packaged frozen fruit products.

EBIT in the packaged foods segment for the quarter ended March 28, 2009 decreased to \$21.9 million from \$24.2 million for the quarter ended March 22, 2008. EBIT in the first quarter of 2008 included the benefit from unrealized foreign currency hedge gains of \$6 million. Excluding these gains, EBIT increased \$4 million during the first quarter of 2009. The increase in EBIT was attributable to improved earnings in the packaged frozen fruit operations. In addition, lower marketing and general and administrative expenses worldwide contributed to the improvement in EBIT. These increases were partially offset by lower sales in North America as well as unfavorable foreign currency movements in selling locations, primarily the Canadian dollar and British pound sterling.

Corporate

Corporate EBIT was income of \$10.7 million for the quarter ended March 28, 2009 compared to a loss of \$46.2 million for the quarter ended March 22, 2008. The improvement in EBIT was primarily due to unrealized

Table of Contents

gains generated on the cross currency swap of \$17.7 million compared to unrealized losses generated in the prior year of \$32.4 million. In addition, EBIT benefited from unrealized gains on foreign denominated borrowings of \$5.5 million. These improvements were partially offset by the write-off of deferred debt issuance costs of \$5.2 million related to the March 2009 amendment of the Company's senior secured credit facilities.

Discontinued Operations

During the second quarter of 2008, the Company approved and committed to a formal plan to divest its fresh-cut flowers operations. The first phase of the Flowers transaction was completed during the first quarter of 2009. In addition, during the fourth quarter of 2007, the Company approved and committed to a formal plan to divest its citrus and pistachio operations (Citrus) located in central California. The operating results of Citrus were included in the fresh fruit operating segment. The sale of Citrus was completed during the third quarter of 2008.

The operating results of fresh-cut flowers and Citrus for the quarters ended March 28, 2009 and March 22, 2008 are reported in the following table:

	Quarter Ended March 28, 2009 Fresh-Cut Flowers	Quarter Ended March 22, 2008 Fresh-Cut Flowers Citrus (In thousands)	Total
Revenues	\$ 2,780	\$ 33,816 \$ 1,872	\$ 35,688
Income (loss) before income taxes	\$ 159	\$ (3,141) \$ 43	\$ (3,098)
Income taxes	(37)	295 (18)	277
Income (loss) from discontinued operations, net of income taxes	\$ 122	\$ (2,846) \$ 25	\$ (2,821)
Gain on disposal of discontinued operations, net of income taxes	\$ 1,308	\$ \$	

Fresh-Cut Flowers

Fresh-cut flowers income before income taxes for the quarter ended March 28, 2009 increased to \$0.2 million from a loss of \$3.1 million for the quarter ended March 22, 2008. As a result of the January 16, 2009 close of the first phase of the Flowers transaction, fresh-cut flowers operating results for the first quarter of 2009 consisted of only two weeks of operations compared to twelve weeks during 2008. In connection with the sale, the Company received cash proceeds of \$21 million and recorded a note receivable of \$8.3 million, which is due January 2011. The Company recorded a gain of \$1.3 million on the sale.

Liquidity and Capital Resources

For the quarter ended March 28, 2009, cash flows provided by operating activities were \$39 million compared to cash flows used in operating activities of \$62.8 million for the quarter ended March 22, 2008. Cash flows provided by operating activities increased \$101.7 million, primarily due to higher earnings, improved collections of receivables and lower levels of inventory partially offset by lower levels of accounts payable and accrued liabilities due in part to the timing of payments.

Cash flows provided by investing activities were \$45.1 million for the quarter ended March 28, 2009, compared to cash flows used in investing activities of \$3.8 million for the quarter ended March 22, 2008. The change during 2009 was primarily due to an increase in cash proceeds received on asset sales as well as lower levels of capital expenditures.

Cash flows used in financing activities were \$107.4 million for the quarter ended March 28, 2009, compared to cash flows provided by financing activities of \$63.5 million for the quarter ended March 22, 2008. As a result of improved earnings and higher proceeds on asset sales during the first quarter of 2009, the Company was able to repay approximately \$68.9 million of its ABL revolver balance. In addition, the Company repaid the 2009 Notes

Table of Contents

and issued the 2014 Notes, resulting in a net repayment of \$20 million. The Company also paid \$18 million of debt issuance costs associated with its March 2009 refinancing transaction.

As of March 28, 2009, the Company had a cash balance of \$65.9 million, an asset based revolving credit facility (ABL revolver) borrowing base of \$319.8 million and \$81.6 million outstanding under the ABL revolver. After taking into account approximately \$5.3 million of outstanding letters of credit issued under the ABL revolver, the Company had approximately \$232.9 million available for borrowings as of March 28, 2009. Amounts outstanding under the term loan facilities were \$835.4 million at March 28, 2009. In addition, the Company had approximately \$68.6 million of letters of credit and bank guarantees outstanding under its pre-funded letter of credit facility at March 28, 2009. On April 30, 2009, the Company issued letters of credit to support a bank guarantee issued to the European Commission in connection with their Decision that imposed a fine on the Company. These letters of credit were issued from the ABL revolver and the pre-funded letter of credit facility. After the issuance, the amount outstanding under the pre-funded letter of credit facility was approximately \$90 million and the Company had approximately \$224 million available for borrowings under its ABL revolver.

The Company believes that available borrowings under the revolving credit facility and subsidiaries uncommitted lines of credit, together with its existing cash balances, future cash flow from operations, planned asset sales and access to capital markets will enable it to meet its working capital, capital expenditure, debt maturity and other commitments and funding requirements. Management's plan is dependent upon the occurrence of future events which will be impacted by a number of factors including the availability of refinancing, the general economic environment in which the Company operates, the Company's ability to generate cash flows from its operations, and its ability to attract buyers for assets being marketed for sale. Factors impacting the Company's cash flow from operations include such items as commodity prices, interest rates and foreign currency exchange rates, among other things, as more fully set forth in the Company's Form 10-K for the fiscal year ended January 3, 2009.

During the first quarter of 2009, the Company completed the sale and issuance of \$350 million aggregate principal amount of 13.875% Senior Secured Notes due March 2014 (2014 Notes) at a discount of \$25 million. The 2014 Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933 (Securities Act) and to persons outside the United States in compliance with Regulation S under the Securities Act. The sale was exempt from the registration requirements of the Securities Act. Interest on the 2014 Notes will be paid semiannually in arrears on March 15 and September 15 of each year, beginning on September 15, 2009. The 2014 Notes have the benefit of a lien on certain U.S. assets of the Company that is junior to the liens of the Company's senior secured credit facilities (revolving credit and term loan facilities), and are senior obligations of the Company ranking equally with the Company's existing senior debt. The Company used the net proceeds from this offering, together with cash on hand and/or borrowings under the revolving credit facility, to purchase all of the tendered 2009 Notes and to irrevocably deposit with the trustee of the 2009 Notes funds that were used to repay the remaining outstanding 2009 Notes at maturity on May 1, 2009.

In connection with these refinancing transactions, the Company amended its senior secured credit facilities, which amendments, among other things, permitted the issuance of new secured debt securities, increased the interest rate on the term loan and revolving credit facilities and added a leverage maintenance covenant.

As a result of the issuance of the 2014 Notes and amendment to the senior secured credit facilities during March 2009, interest rates on these instruments increased significantly as compared to the interest rates as they existed prior to the new debt issuance and amendments. If debt levels remain unchanged from the end of the first quarter of 2009, the Company expects that these increases in interest rates would result in additional cash interest expense of approximately \$45 million over the remainder of 2009, over the cash interest expense that would have occurred absent the increases in interest rates.

The Company may purchase some of its \$400 million 7.25% notes due June 2010 during the next twelve months.

On June 16, 2009, the Company and the counterparty to the interest rate swap and the cross currency swap each have the right to compel the other to settle the swaps at that time, based on the values as of June 16, 2009, as opposed to waiting to settle the swaps at maturity in 2011. If the interest rate swap and the cross currency swap had hypothetically been settled on March 28, 2009, the Company would have been obliged to pay the counterparty a

Table of Contents

total of approximately \$58 million. The Company is in negotiations with the counterparty, with a view to not having a June 2009 early settlement of the swaps, and the Company expects that these negotiations will be concluded on terms and conditions acceptable to the Company, although no assurance can be given concerning the outcome.

Other Matters

Recently Adopted Accounting Pronouncements: See Note 2 to the condensed consolidated financial statements for information regarding the Company's adoption of new accounting pronouncements.

European Union (EU) Banana Import Regime: On January 1, 2006, the EU implemented a tariff only import regime for bananas. The 2001 Understanding on Bananas between the European Communities and the United States required the EU to implement a tariff only banana import system on or before January 1, 2006, and the EU's banana regime change was therefore expected by that date.

Banana imports from Latin America are subject to a tariff of 176 euro per metric ton for entry into the EU market. Under the EU's previous banana regime, banana imports from Latin America were subject to a tariff of 75 euro per metric ton and were also subject to import license requirements and volume quotas. License requirements and volume quotas had the effect of limiting access to the EU banana market.

Although all Latin bananas are subject to a tariff of 176 euro per metric ton, the EU had allowed up to 775,000 metric tons of bananas from African, Caribbean, and Pacific (ACP) countries to be imported annually into the EU duty-free. This preferential treatment of a zero tariff on up to 775,000 metric tons of ACP banana imports, as well as the 176 euro per metric ton tariff applied to Latin banana imports, was challenged by Panama, Honduras, Nicaragua, and Colombia in consultation proceedings at the World Trade Organization (WTO). In addition, both Ecuador and the United States formally requested the WTO Dispute Settlement Body (DSB) to appoint panels to review the matter. In preliminary rulings on December 10, 2007 and February 6, 2008, the DSB ruled against the EU and in favor of Ecuador and the United States, respectively. The DSB publicly issued a final ruling maintaining its preliminary findings in favor of Ecuador on April 7, 2008 and publicly issued its final ruling maintaining its preliminary findings in favor of the United States on May 19, 2008.

The DSB issued its final and definitive written rulings in favor of Ecuador and the United States on November 27, 2008, concluding that the 176 euro per metric ton tariff is inconsistent with WTO trade rules. The DSB also considered that the prior duty-free tariff reserved for ACP countries was inconsistent with WTO trade rules but also recognized that, with the current entry into force of Economic Partnership Agreements between the EU and ACP countries, ACP bananas now may have duty-free, quota-free access to the EU market.

The Company expects that the current tariff applied to Latin banana imports will be lowered in order that the EU may comply with these DSB rulings and with the WTO trade rules. The DSB rulings did not indicate the amount the EU banana tariff should be lowered, and the Company encourages a timely resolution through negotiations among the EU, the U.S., and the Latin banana producing countries. Without the specifics of any proposed tariff reduction or the EU's proposed timetable for such tariff reduction, the Company cannot yet determine what potential effects this outcome will have for the Company; however, the Company believes that the DSB rulings were a favorable outcome in that the EU banana tariff should be lowered.

Derivative Instruments and Hedging Activities: The Company uses derivative instruments to hedge against fluctuations in interest rates, foreign currency exchange rate movements and bunker fuel prices. The Company does not utilize derivatives for trading or other speculative purposes.

All of the Company's derivative instruments, with the exception of the interest rate swap, are not designated as effective hedges of cash flows as defined by Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities, as amended* (FAS 133). As a result, all changes in fair value of the Company's derivative financial instruments are reflected in the Company's condensed consolidated statements of operations. The interest rate swap is accounted for as a cash flow hedge under FAS 133 and accordingly, unrealized gains or losses are recorded as a component of accumulated other comprehensive income (loss) in the condensed consolidated balance sheets.

Table of Contents

Unrealized gains (losses) on the Company's foreign currency and bunker fuel hedges and the cross currency swap by reporting segment were as follows:

	Quarter Ended March 28, 2009			
	Foreign Currency Hedges	Bunker Fuel Hedges	Cross Currency Swap	Total
	(In thousands)			
Fresh fruit	\$ 9,350	\$ 3,241	\$	\$ 12,591
Packaged foods	152			152
Corporate			17,716	17,716
	\$ 9,502	\$ 3,241	\$ 17,716	\$ 30,459

	Quarter Ended March 22, 2008			
	Foreign Currency Hedges	Bunker Fuel Hedges	Cross Currency Swap	Total
	(In thousands)			
Fresh fruit	\$ (9,955)	\$ 439	\$	\$ (9,516)
Packaged foods	6,162			6,162
Corporate			(32,354)	(32,354)
	\$ (3,793)	\$ 439	\$ (32,354)	\$ (35,708)

For information regarding the Company's derivative instruments and hedging activities, refer to Note 13 to the condensed consolidated financial statements.

Supplemental Financial Information

The following financial information has been presented, as management believes that it is useful information to some readers of the Company's condensed consolidated financial statements:

	March 28, 2009	January 3, 2009
	(In thousands)	
Balance Sheet Data:		
Total working capital (current assets less current liabilities)	\$ 871,369	\$ 531,047
Total assets	\$ 4,279,382	\$ 4,364,619
Total debt	\$ 2,113,923	\$ 2,204,093
Total shareholders' equity	\$ 524,839	\$ 433,159

Quarter Ended
March 28, March 22,
2009 2008
(In thousands)

Other Financial Data:

Operating Income	\$ 123,099	\$ 53,360
Depreciation and amortization from continuing operations	26,929	33,088
Operating income before depreciation and amortization (OIBDA)	150,028	86,448
Net unrealized (gain) loss on hedges	(12,743)	3,354
Adjusted OIBDA	\$ 137,285	\$ 89,802
Adjusted OIBDA margin	8.6%	5.2%
Capital expenditures from continuing operations	\$ 7,971	\$ 10,222

Adjusted OIBDA is defined as adjusted operating income before depreciation and amortization. Adjusted OIBDA is calculated by adding depreciation and amortization to GAAP operating income and adding (subtracting)

Table of Contents

net unrealized losses (gains) on foreign currency and bunker fuel hedges. Adjusted OIBDA margin is defined as the ratio of Adjusted OIBDA, as defined, relative to net revenues. Adjusted OIBDA is reconciled to GAAP operating income in the condensed consolidated financial statements in the tables above. Adjusted OIBDA and Adjusted OIBDA margin fluctuated primarily due to the same factors that impacted the changes in operating income and segment EBIT discussed previously in this Form 10-Q.

The Company presents Adjusted OIBDA and Adjusted OIBDA margin because management believes, similar to EBIT, Adjusted OIBDA is a useful performance measure for the Company. In addition, Adjusted OIBDA is presented because management believes it, or a similar measure is frequently used by securities analysts, investors in our debt securities, and others in the evaluation of companies, and because certain debt covenants in the Company's senior notes indentures are tied to measures fundamentally similar to Adjusted OIBDA. For some of the same reasons, management internally uses a similar version of Adjusted OIBDA for decision making and to evaluate Company performance.

Adjusted OIBDA and Adjusted OIBDA margin should not be considered in isolation from or as a substitute for operating income, net income and other consolidated income statement data prepared in accordance with GAAP or as a measure of profitability. Additionally, the Company's computation of Adjusted OIBDA and Adjusted OIBDA margin may not be comparable to other similarly titled measures computed by other companies, because all companies do not calculate Adjusted OIBDA and Adjusted OIBDA margin in the same manner.

This Management's Discussion and Analysis contains forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements, which are based on management's assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by the use of terms such as anticipate, will, expect, believe, should or similar expressions. The potential risks and uncertainties that could cause the Company's actual results to differ materially from those expressed or implied herein are set forth in Item 1A and Item 7A of the Company's Annual Report on Form 10-K for the year ended January 3, 2009 and include: weather-related phenomena; market responses to industry volume pressures; product and raw materials supplies and pricing; changes in interest and currency exchange rates; economic crises; quotas, tariffs and other governmental actions and international conflict.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the quarter ended March 28, 2009, there have been no material changes in the market risk disclosure presented in the Company's Annual Report on Form 10-K for the year ended January 3, 2009. For information regarding the Company's derivative instruments and hedging activities, refer to Note 13 to the condensed consolidated financial statements.

Item 4. CONTROLS AND PROCEDURES

An evaluation was carried out as of March 28, 2009 under the supervision and with the participation of Dole's management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures, as defined in Rule 15d-15(e) under the Securities Exchange Act. Based upon this evaluation, Dole's Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of March 28, 2009. No change in our internal control over financial reporting identified in connection with this evaluation that occurred during our first quarter of 2009 has materially affected, or is reasonably likely to materially affect, Dole's internal control over financial reporting.
