- [ ] Pre-commencement communications pursuant to Rule 13c-4(c) under the Exchange Act (17 CFR 240 13(c)-4(c))

ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.

In order to, among other things, preserve margins and maximize profitability during what appears to be an upcoming period of market softness, Technitrol, Inc.'s subsidiary, Pulse Engineering, Inc. has implemented a comprehensive program to reduce cost of goods sold. In connection therewith, on October 20, 2004, Pulse committed to a restructuring plan which includes a reduction in the workforce of approximately 360 indirect labor employees, contract termination costs, and a write off of manufacturing equipment, at Pulse's facilities in China. The severance related costs are estimated to be approximately US\$400,000 in cash. The contract termination costs are estimated to be approximately US\$400,000 in cash. The non-cash asset write off charges are estimated to be approximately US\$1,600,000. The estimated total amount to be incurred in connection with this plan is US\$2,400,000. It is expected that all actions pertaining to such restructuring plan will be completed by December 31, 2004. These amounts are estimates only and are subject to change as the plan is finalized and implemented.
