AMETEK, Inc.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
March 31, 2007  
(Unaudited)

**Note 1 Basis of Presentation**

The accompanying consolidated financial statements are unaudited. The Company believes that all adjustments (which primarily consist of normal recurring accruals) necessary for a fair presentation of the consolidated financial position of the Company at March 31, 2007, and the consolidated results of its operations and its cash flows for the three-month periods ended March 31, 2007 and 2006 have been included. Quarterly results of operations are not necessarily indicative of results for the full year. The accompanying financial statements should be read in conjunction with the financial statements and related notes presented in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 as filed with the Securities and Exchange Commission.

**Note 2 Recent Accounting Pronouncements**

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board ( FASB ) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* ( FIN 48 ). FIN 48 creates a single model to address accounting for uncertainty in tax positions, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. The cumulative effect of adopting FIN 48 resulted in a non-cash reduction of \$5.9 million to the January 1, 2007 opening balance of retained earnings (See Note 8).

Effective January 1, 2007, the Company adopted Emerging Issues Task Force (EITF) Issue No. 06-5, *Accounting for Purchases of Life Insurance- Determining the Amount That Could Be Realized in Accordance with FASB Technical Bulletin No. 85-4* ( EITF 06-5 ). EITF 06-5 provides guidance in determining the amount to be realized under certain insurance contracts and the related disclosures. Adoption of EITF 06-5 did not have any effect on the Company's consolidated results of operations, financial position and cash flows.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* ( FAS 159 ) which is effective for fiscal years beginning after November 15, 2007. This statement permits an entity to elect to measure certain assets and liabilities at fair value at specified election dates. The Company is currently evaluating the impact of adopting FAS 159 on our financial statements.

**Note 3 Earnings Per Share**

The calculation of basic earnings per share for the three-month periods ended March 31, 2007 and 2006 is based on the average number of common shares considered outstanding during the period. The calculation of diluted earnings per share for such periods reflects the effect of all potentially dilutive securities (primarily outstanding common stock options and restricted stock grants). The following table presents the number of shares used in the calculation of basic earnings per share and diluted earnings per share:

	Weighted average shares (In thousands)	
	Three months ended March 31, 2007	2006
Basic shares	105,125	104,838
Share-based award plans	1,756	1,847
Diluted shares	106,881	106,685

**Note 4 Goodwill**

The changes in the carrying amounts of goodwill by segment as of March 31, 2007 and December 31, 2006, were as follows:

	(In millions)		
	EIG	EMG	Total
Balance at December 31, 2006	\$ 531.7	\$ 349.7	\$ 881.4

Foreign currency translation adjustments	1.7	0.4	2.1
Balance at March 31, 2007	\$ 528.4	\$ 371.2	\$ 899.6

\* Purchase price allocation adjustments reflect final purchase price allocations and revisions to certain preliminary allocations for recent acquisitions, which include reclassifications between goodwill and

other intangible  
assets.

**Note 6 Comprehensive Income**

Comprehensive income includes all changes in stockholders' equity during a period except those resulting from investments by and distributions to stockholders.

The following table presents comprehensive income for the three-month periods ended March 31, 2007 and 2006:

	(In thousands)	
	Three months ended March

 Total comprehensive income	 \$ 52,379	 \$ 43,881

\* Represents the net gains and losses from the non-derivative foreign-currency-denominated long-term debt. These debt instruments were designated as hedging instruments to offset foreign exchange gains or losses on the net investment in certain foreign operations.

**Note 7 Share-Based Compensation**

Under the terms of the Company's stockholder approved share-based plans, incentive and non-qualified stock options and restricted stock awards have been, and may be, issued to the Company's officers, other management-level employees and its Board of Directors. Employees and non-employee director stock options generally vest over a four-year service period. Restricted stock awards generally cliff-vest at the end of a four year service period. Options primarily have a maximum contractual term of 7 years. At March 31, 2007, 6.3 million shares of common stock were reserved for issuance under the Company's share-based plans, including 4.2 million stock options outstanding. The Company issues previously un-issued shares when options are exercised, and shares are issued from treasury stock upon the award of restricted stock.

For grants under any of the Company's plans that are subject to graded vesting over a service period, we recognize expense on a straight-line basis over the requisite service period for the entire award.

AMETEK, Inc.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 March 31, 2007  
 (Unaudited)

The fair value of each option grant is estimated on the date of grant using a Black-Scholes option pricing model. The following weighted average assumptions were used in the Black-Scholes model to estimate the fair values of options granted during the periods indicated:

	Three Months Ended March 31, 2007	Year ended December 31, 2006
Expected stock volatility	23.4%	24.4%
Expected life of the options (years)	5.3	4.8
Risk-free interest rate	4.63%	4.71%
Expected dividend yield	0.70%	0.50%

Expected volatilities are based on historical volatility of the Company's stock. The Company used historical exercise data to estimate the options' expected term, which represents the period of time that the options granted are expected to be outstanding. Management anticipates the future option holding periods to be similar to the historical option holding periods. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Compensation expense recognized for all share-based awards is net of estimated forfeitures. The Company's estimated forfeiture rates are based on its historical experience.

Total share-based compensation expense recognized under SFAS 123R for the three months ended March 31, 2007 and 2006 was as follows:

	(In thousands)	
	Three months ended March 31,	
	2007	2006
Stock option expense	\$ 1,411	\$ 1,413
Restricted stock expense *	3,225	1,513
Total pretax expense	4,636	2,926
Related tax benefit	(1,300)	(766)
Reduction of net income	\$ 3,336	\$ 2,160
Reduction of earnings per share:		
Basic	\$ 0.03	\$ 0.03
Diluted	\$ 0.03	\$ 0.03

\* 2007 reflects the accelerated vesting of a restricted stock grant. See

discussion on  
page 10.

Pretax share-based compensation expense is included in either cost of sales, or selling, general and administrative expenses depending on where the recipient's cash compensation is reported and is included as a corporate item for business segment reporting.

AMETEK, Inc.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 March 31, 2007  
 (Unaudited)

A summary of the Company's stock option activity and related information for its option plans for the three months ended March 31, 2007 was as follows:

	Shares (In thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)
Outstanding at beginning of period	4,511	\$ 18.28	
Granted	8	34.28	
Exercised	(290)	11.15	
Forfeited	(24)	28.03	
Outstanding at end of period	4,205	\$ 18.75	3.9
Exercisable at end of period	2,162	\$ 14.08	2.9

The aggregate intrinsic value of options exercised during the three months ended March 31, 2007 was \$6.8 million. The total fair value of the stock options vested during the three months ended March 31, 2007 was \$0.1 million. The aggregate intrinsic value of the stock options outstanding at March 31, 2007 was \$78.8 million. The aggregate intrinsic value of the stock options exercisable at March 31, 2007 was \$30.4 million. The weighted average Black-Scholes-Merton fair value of stock options granted per share was \$9.83 for the three-months ended March 31, 2007 and \$9.55 for the year ended December 31, 2006.

The fair value of restricted shares under the Company's restricted stock arrangement is determined by the product of the number of shares granted and the grant date market price of the Company's common stock. Upon the grant of restricted stock, the fair value of the restricted shares (unearned compensation) at the date of grant, is charged as a reduction of capital in excess of par value in the Company's consolidated balance sheet and is amortized to expense on a straight-line basis over the vesting period, which is defined at the grant date. Restricted stock awards are also subject to accelerated vesting due to certain events. On February 20, 2007, the May 18, 2004 grant of 264,195 shares of restricted stock vested under an accelerated vesting provision. The charge to income due to the accelerated vesting of these shares did not have a material impact on our earnings in the first quarter of 2007. At March 31, 2007 the Company had 1.2 million shares of restricted stock outstanding.

**Note 8 Income Taxes**

The Company adopted the provisions of FIN 48, *Accounting for the Uncertainty in Income Taxes*, on January 1, 2007. As a result of the adoption of FIN 48, the Company recognized a \$4.7 million increase in liabilities associated with unrecognized tax benefits, including interest and penalties of \$2.4 million and a decrease of \$1.2 million in goodwill related to a previous business combination, and a \$5.9 million charge to the January 1, 2007, opening balance of retained earnings.

**Table of Contents**

AMETEK, Inc.  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 March 31, 2007  
 (Unaudited)

After recognizing the impacts of adopting FIN 48, as of the adoption date, the Company had gross unrecognized tax benefits of \$22.5 million of which \$21.3 million, if recognized, would affect the effective tax rate.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits in income tax expense. The amounts recognized in income tax expense for interest and penalties during the quarter ended March 31, 2007 were not significant.

The Company files U.S. Federal income tax returns, as well as, income tax returns in various state and foreign jurisdictions. The Internal Revenue Service (IRS) is currently examining the Company's U.S. income tax returns for 1999-2004. Tax years in certain state and foreign jurisdictions remain subject to examination; however the uncertain tax positions related to these jurisdictions are not considered material. At present, the Company does not expect any changes that would significantly impact the unrecognized tax benefits within the next twelve months.

**Note 10 Product Warranties**

The Company provides limited warranties in connection with the sale of its products. The warranty periods for products sold vary widely among the Company's operations, but for the most part do not exceed one year. The Company calculates its warranty expense provision based on past warranty experience and adjustments are made periodically to reflect actual warranty expenses.

Changes in the Company's accrued product warranty obligation for the three-months ended March 31, 2007 and 2006 were as follows:

	(In thousands)	
	Three months ended March	
	31,

Other	38	293
Balance, end of period	\$ 10,986	\$ 10,020

Product warranty obligations are reported as current liabilities in the consolidated balance sheet.

**Note 11 Segment Disclosure**

The Company has two reportable business segments, the Electronic Instruments Group and the Electromechanical Group. The Company aggregates its operating segments for segment reporting purposes primarily on the basis of product type, production process, distribution methods, and management organizations.

At March 31, 2007, there were no significant changes in identifiable assets of reportable segments from the amounts disclosed at December 31, 2006, nor were there any changes in the basis of segmentation, or in the measurement of segment operating results. Operating information relating to the Company's reportable segments for the three-month periods ended March 31, 2007 and 2006 can be found in the table on page 14 in the Management Discussion & Analysis section of this Report.

Note 12 Acquisitions Subsequent to March 31, 2007

In April 2007, the Company acquired Seacon Phoenix, a privately held provider of undersea electrical interconnect subsystems to the global submarine market for approximately \$38 million in cash. With annual sales of approximately \$17 million, Seacon Phoenix adds to AMETEK's position in highly engineered hermetically sealed electrical interconnects and microelectronic packaging used to protect sophisticated electronics in aerospace, defense, telecommunications and industrial applications. Headquartered in Westerly, RI, Seacon Phoenix joins AMETEK HCC Industries within AMETEK's Electromechanical Group.

Also in April 2007, the Company acquired the Halmar Robicon silicon controlled rectifier (SCR) power controller and related Power Control Systems technology and products of Siemens Energy & Automation, Inc.. Halmar Robicon's technology fits well with AMETEK Solidstate Controls and provides the opportunity to further broaden our capabilities and position in the U.S. power controller market. AMETEK Solidstate Controls is a unit of our Electronic Instruments Group.

**Operations for the first quarter of 2007 compared with the first quarter of 2006**

In the first quarter of 2007, the Company posted record sales, operating income, net income and diluted earnings per share. The Company achieved these results from strong internal growth both in the Electronic Instruments (EIG) and Electromechanical (EMG) Groups as well as contributions by the acquisitions of the Pittman business acquired in May 2006, the Land Instruments business acquired in June 2006, the Precitech business acquired in November 2006 and the Southern Aeroparts acquisition in December 2006. Strong internal growth and the acquisitions also enabled the Company to post record order input in the first quarter of 2007.

Net sales for the first quarter of 2007 were \$505.3 million, an increase of \$81.4 million, or 19.2% when compared with net sales of \$423.9 million in the first quarter of 2006. The net sales increase in the first quarter of 2007 was driven by strong internal sales growth of 9%, excluding a favorable 2% effect of foreign currency translation, led by the Company's differentiated base businesses. The acquisitions mentioned above contributed the remainder of the net sales increase.

International sales for the first quarter of 2007 were \$252.0 million, or 49.9% of consolidated sales, an increase of \$52.8 million, or 26.5% when compared with \$199.3 million, or 47.0% of consolidated sales in the same quarter of 2006. The increase in international sales primarily results from increased

sales from base businesses, which includes the effect of foreign currency translation, as well as the acquisitions of Land Instruments and Pittman. Increased international sales came mainly from sales to Europe and Asia by both Groups.

Order input for the first quarter of 2007 was a record at \$529.9 million, compared with \$467.6 million in the first quarter of 2006, an increase of \$62.3 million or 13.3%. The increase in order input was driven by the acquisitions mentioned previously as well as strong demand in the Company's differentiated businesses, led by the Company's aerospace, process and power businesses. The Company's backlog of unfilled orders at March 31, 2007 was \$561.4 million, compared with \$536.8 million at December 31, 2006, an increase of \$24.6 million or 4.6%. The increase in the backlog was due to higher order levels in our base differentiated businesses.

Segment operating income for the first quarter of 2007 was \$100.2 million, an increase of \$20.5 million or 25.7% from \$79.7 million in the first quarter of 2006. Segment operating income, as a percentage of sales, increased to 19.8% of sales in the first quarter of 2007 from 18.8% of sales in the first quarter of 2006. The increase in segment operating income resulted from strength in the Company's differentiated businesses, which includes the profit contributions made by the acquisitions. The margin improvement came from the Company's differentiated businesses.

Selling, general and administrative expenses (SG&A) were \$62.1 million in the first quarter of 2007, an increase of \$11.2 million or 22.1%, when compared with the first quarter of 2006. The \$11.2 million selling expense increase was evenly split between the acquisitions mentioned above and base businesses due to higher sales levels. As a percentage of sales, SG&A expenses were 12.3% in the first quarter of 2007, compared with 12.0% in the same period of 2006 due to higher selling expenses. Selling expenses, as a percentage of sales increased to 10.3% in the first quarter of 2007 compared with 9.9% of sales in the first quarter of 2006. The increase in selling expense as a percentage of sales was due primarily to the impact of acquisitions. The Company's acquisition strategy generally is to acquire differentiated businesses, which because of their distribution channels and higher marketing costs tend to have a higher level of selling expenses than the Company's base businesses. Base business selling expenses as a percentage of sales were in line with internal growth.

Corporate administrative expenses for the first quarter of 2007 were \$10.2 million, an increase of \$1.4 million when compared with the same period in 2006. The increase in corporate administrative expenses was primarily the result of higher equity-based compensation due primarily to the accelerated vesting of a restricted stock grant and other costs to grow the Company. As a percentage of sales, corporate administrative expenses were 2.0% in the first quarter of 2007, a decline from the 2.1% in the first quarter of 2006.

Consolidated operating income totaled \$89.9 million or 17.8% of sales for the first quarter of 2007, compared with \$70.8 million, or 16.7% of sales for the same quarter of 2006, an increase of \$19.1 million or 27.0%.

Interest expense was \$10.9 million in the first quarter of 2007, an increase of \$0.8 million or 7.9%, compared with \$10.1 million in the first quarter of 2006. The increase was primarily driven by higher average debt levels incurred to fund the 2006 acquisitions and higher average interest rates.

The effective tax rate for the first quarter of 2007 was 35.1% compared with 32.9% in the first quarter of 2006. The increase in the effective tax rate primarily reflects the elimination of the repealed Foreign Sales Corporation/Extraterritorial Income (FSC/ETI) tax benefit, an increase in state income taxes, and the impact of FIN 48 for the recognition of interest and penalties on the unrecognized tax benefits.

Net income for the first quarter of 2007 totaled \$50.9 million, an increase of 26.3% from \$40.3 million in the first quarter of 2006. Diluted earnings per share rose 26.3% to \$0.48 per share, compared with \$0.38 per share for the first quarter of 2006.

The sales increase was due to internal growth in the Group's process and analytical, aerospace and power businesses along with the acquisitions of Land Instruments and Precitech. Internal growth accounted for approximately 11% of the sales increase, excluding a favorable 2% effect of foreign currency translation. The acquisitions accounted for the remainder of the increase.

The acquisitions of Pittman and Southern Aeroparts accounted for the remainder of the sales increase.

Operating income of EMG was \$38.0 million for the first quarter of 2007, an increase of \$6.0 million or 18.8% when compared with the \$32.0 million in the first quarter of 2006.
