INFORMATION TO BE INCLUDED IN THE REPORT

Item 1.01. Entry into a Material Definitive Agreement.

On August 24, 2005, Rockwell Automation, Inc. entered into a Purchase and Sale Agreement with First Industrial Acquisitions, Inc. (the Buyer) to sell and lease-back approximately 24 operating properties (including the buildings and other improvements affixed to the properties) owned by Rockwell Automation (the Subject Property). The Subject Property includes both manufacturing and office facilities. The total purchase price for the Subject Property to be paid to Rockwell Automation is expected to be approximately \$152 million, subject to adjustments provided in the Agreement based on the properties actually sold.

At closing, Rockwell Automation will execute (as tenant) individual triple-net leases for each Subject Property. The lease term will vary from five to fifteen years depending on the property and each lease will contain provisions for early termination and extension options. The majority of the leases will have 10-15 year terms. Each lease may be individually renewed for up to four consecutive terms of five years each. Under the leases, Rockwell Automation generally will be responsible for all operating and maintenance costs and taxes with respect to the Subject Property, on-going regulatory compliance with respect to environmental matters, and capital leasehold improvements and repairs.

The aggregate amount of annual rent payable with respect to the Subject Property is initially expected to be approximately \$12 million. Beginning with the second renewal term of each lease, the amount of rent under each individual lease will be increased by 7.5% per renewal term.

Rockwell Automation does not have any material relationships with the Buyer other than with respect to this transaction. The transaction is subject to certain closing conditions, including the review of certain title commitments and documents and surveys by the Buyer, completion of due diligence by the Buyer, the approval of the transaction by Rockwell Automation's Board of Directors by September 16, 2005, the performance of covenants and obligations under the Agreement, and the accuracy of representations and warranties.

The transaction is expected to close in October, 2005.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

The information set forth under Item 1.01. Entry into a Material Definitive Agreement is incorporated herein by reference.
