Item 1. Description of Securities to be Registered

The securities of CenturyTel, Inc. (the "Company" or the "Registrant") to be registered pursuant to Section 12(g) of the Securities Exchange Act of 1934, as amended, are options to purchase shares of Company common stock, \$1.00 par value per share (the "Common Shares"), granted to employees, officers and directors of the Company and its subsidiaries under the Company's 1988 Incentive Compensation Program (the "1988 Plan"), 1995 Incentive Compensation Plan (the "1995 Plan"), 2000 Incentive Compensation Plan (the "2000 Plan"), 2002 Directors Stock Option Plan (the "2002 Directors Plan"), and 2002 Management Incentive Compensation Plan (the "2002 Management Plan" and, collectively with the 1988 Plan, the 1995 Plan, the 2000 Plan, and the 2002 Directors Plan, the "Plans").

The following tables summarize information, as of December 31, 2003, regarding the period during which and the price at which options granted under the Plans are exercisable.

The following summary of the principal terms of the stock options granted under each of the Plans is a general description only and is subject to the detailed terms and conditions of the Plans and the related stock option agreements between the Company and the various optionees, copies or forms of which are incorporated herein by reference.

Stock Options Granted under the 2002 Management Incentive Compensation Plan

Under the terms of the 2002 Management Plan, the Compensation Committee of the Board of Directors of the Company (the "Committee") may grant non-qualified stock options or incentive stock options to purchase Common Shares and certain other types of stock-based awards to certain officers, key employees, consultants and advisors. Subject to certain adjustment provisions, a total of 4.5 million Common Shares were originally authorized to be issued under the 2002 Management Plan.

Specifically regarding the stock options granted under the 2002 Management Plan, the Committee determines the number and exercise price of the options, and the time or times that the options become exercisable upon grant, provided that the option exercise price may not be less than the fair market value of the Common Shares on the date of grant. The term of an option is also determined by the Committee, provided that the term may not exceed ten years. The Committee may accelerate the exercisability of any stock option at any time. The Committee may also approve the purchase by the Company of an unexercised stock option from the optionee by mutual agreement for the difference between the exercise price and the fair market value of the shares covered by the option.

Except for adjustments permitted in the 2002 Management Plan to protect against dilution in the event of any recapitalization, reclassification, stock dividend, stock split, combination of shares or other change in the Common Shares, unless approved by the shareholders, the exercise price of an outstanding option may not be decreased after grant, nor may an option that has an exercise price that is less than the then current fair market value of a Common Share be surrendered to the Company as consideration for the payment of cash or Common Shares or the grant of a new option with a lower exercise price or any other substitute award.

In the event of a change of control of the Company, as defined in the 2002 Management Plan, all options granted under the plan will become fully vested and exercisable, and the Committee will have the authority to take a variety of actions regarding the outstanding options.

As provided in the stock option agreements pursuant to the 2002 Management Plan, if at any time during the optionee's employment by the Company or within 18 months after termination of employment, the optionee engages in any activity in competition with or harmful to the Company, the options are subject to forfeiture.

As of December 31, 2003, there were options to acquire approximately 1,730,014 Common Shares outstanding under the 2002 Management Plan, and options to purchase up to 2,737,926 Common Shares may be granted under the 2002 Management Plan in the future.

Stock Options Granted under the 2002 Directors Stock Option Plan

Only non-employee directors are eligible to participate in the 2002 Directors Plan. Under the terms of the plan, each participant receives an automatic grant of a non-qualified option to purchase up to 6,000 Common Shares on the day following each annual meeting of the shareholders, beginning May 10, 2002. The exact number of options that each non-employee director will receive each year is determined by the Committee. If a non-employee director is added to the Company's Board of Directors other than by election at an annual meeting, the director will receive an option to purchase a *pro rata* number of Common Shares based upon the number of full calendar months between the date of grant and the next annual meeting. Subject to certain adjustment provisions, a total of 400,000 Common Shares were originally authorized to be issued under the 2002 Directors Plan.

The options granted pursuant to the 2002 Directors Plan become exercisable beginning one year after the date of grant. The Committee has the discretion to accelerate exercisability at any time. The options expire ten years after the date of grant, but may expire earlier if the non-employee director ceases to serve on the Board.

The exercise price will be the closing sale price of a Common Share on the date of grant. Except for adjustments permitted in the 2002 Directors Plan to protect against dilution in the event of any recapitalization, reclassification, stock dividend, stock split, combination of shares or other change in the Common Shares, unless approved by the shareholders, the exercise price of an outstanding option may not be decreased after grant, nor may an option that has an exercise price that is less than the then current fair market value of a Common Share be surrendered to the Company as consideration for the grant of a new option with a lower exercise price or a payment of cash or Common Shares.

In the event of a change of control of the Company, as defined in the 2002 Directors Plan, all options will become fully vested and exercisable, and the Committee will have the authority to take a variety of actions regarding the outstanding options.

As of December 31, 2003, there were options to acquire approximately 111,667 Common Shares outstanding under the 2002 Directors Plan, and options to purchase up to 288,333 Common Shares may be granted under the 2002 Directors Plan in the future.

Stock Options Granted under the 2000 Incentive Compensation Plan

The terms of the options granted under the 2000 Plan are substantially the same as the terms of the options granted under the 2002 Management Plan. Subject to certain adjustment provisions, a total of 4.0 million Common Shares were originally authorized to be issued under the 2000 Plan. As of December 31, 2003, there were options to acquire 2,875,594 Common Shares outstanding under the 2000 Plan. No additional options may be granted under the 2000 Plan.

Stock Options Granted under the 1995 Incentive Compensation Program

The terms of the options granted under the 1995 Plan are substantially the same as the terms of the options granted under the 2002 Management Plan, except that there are no provisions that (1) contemplate the forfeiture of the options if the optionee competes with or engages in activity harmful to the company or (2) prohibit the surrender to the Company of an option that has an exercise price that is less than the then current fair market value of a Common Share as consideration for the payment of cash or Common Shares or the grant of a new option with a lower exercise price or any other substitute award. A total of 2.0 million Common Shares were originally authorized to be issued under the 1995 Plan, which amount was adjusted to 4.5 million Common Shares under the 1995 Plan in connection with a three-for-two common stock split effected as a 50% stock dividend in March 1998 and a three-for-two common stock split effected as a 50% stock dividend in March 1999. As of December 31, 2003, there were options to acquire 2,016,147 Common Shares outstanding under the 1995 Plan. No additional options may be granted under the 1995 Plan.

Stock Options Granted under the 1988 Incentive Compensation Program

The terms of the options granted under the 1988 Plan are substantially the same as the terms of the options granted under the 1995 Plan, except that there are mandatory adjustment provisions in the event of any merger, consolidation or reorganization of the Company. Subject to the adjustment provisions, a total of 708,720 Common Shares were originally authorized to be issued under the 1988 Plan. As of December 31, 2003, there were options to acquire 1,150 Common Shares outstanding under the 1988 Plan. No additional options may be granted under the 1988 Plan.
