**Exhibit 99.1**

On October 20, 2006, United Bancshares, Inc. issued the following release:

**United Bancshares, Inc.** (Nasdaq: UBOH news), a bank holding company headquartered in Columbus Grove, Ohio with consolidated assets of \$551 million, today announced its operating results for the quarter and nine-month period ended September 30, 2006 and that the Board of Directors declared a dividend of \$0.13 per share to shareholders of record on November 30, 2006, payable on December 15, 2006.

For the quarter ended September 30, 2006, United Bancshares, Inc. reported net income of \$1,299,000, or \$0.36 basic earnings per share. This compares to third quarter 2005 net income of \$1,146,000, or \$0.31 basic earnings per share. Compared with the same period in 2005, third quarter 2006 net income increased \$153,000 or 13.3%. The increase in net income for the quarter was the result of an increase in non-interest income of \$163,000 and decreases in the provision for loan losses of \$187,000 and non-interest expenses of \$105,000, offset by a decrease of \$259,000 in net interest income and an increase of \$43,000 to the provision for income taxes.

Net income for the nine months ended September 30, 2006, totaled \$3,723,000, or \$1.03 basic earnings per share compared to net income of \$3,362,000, or \$0.91 basic earnings per share for the same period in 2005. Compared with the same period in 2005, net income for the nine-month period ended September 30, 2006 increased \$361,000 or 10.7%. The increase in net income for the nine-month period was the result of an increase of \$291,000 in non-interest income and decreases in the provision for loan losses of \$372,000, non-interest expenses of \$155,000 and the provision for income taxes of \$48,000, offset by a decrease in net interest income of \$505,000.

Net interest income was \$4,272,000 for the third quarter of 2006 compared to \$4,531,000 for the same period of 2005, a \$259,000 decrease. Net interest income was \$13,055,000 for the first nine months of 2006 compared to \$13,560,000 for the same period of 2005, a decrease of \$505,000. Net interest income for the nine-month period ended September 30, 2006 was reduced due to a decrease in average net interest-earning assets for the comparable period.

For the three and nine month periods ended September 30, 2006, the net interest margin (on a tax equivalent basis) was 3.57% and 3.66% respectively, compared with 3.72% and 3.64% for the same periods of 2005. Management believes that this decrease was primarily the result of continued pressures created by an inverted treasury yield curve. Management has been able to minimize the Corporation's margin compression through the ongoing transfer of assets from the Corporation's investment portfolio to the Corporation's higher yielding loan portfolio along with continuing disciplined pricing decisions on the Corporation's controllable interest-bearing assets and liabilities.

As a result of management's analysis no provision for loan losses was made for the third quarter of 2006, and a \$140,000 provision was made for the nine months ended September 30, 2006, compared to provisions for loan losses of \$187,000 for the three month and \$512,000 for the nine month periods ended September 30, 2005.

Gain on sales of loans amounted to \$104,000 for the quarter ended September 30, 2006 compared to \$93,000 for the comparable 2005 period, an increase of \$11,000 (11.8%). Such gains included capitalized servicing rights of \$54,000 and \$59,000, respectively, on \$6.2 and \$6.9 million originated loan sales during the respective quarters. The balance of the gain on sales of loans was cash gains and the mark to market adjustment of the Corporation's available for sale loan portfolio.

Gain on sales of loans amounted to \$245,000 for the nine-month period ended September 30, 2006 compared to \$288,000 for the comparable 2005 period, a decrease of \$43,000 (14.9%). Such gains included capitalized servicing rights of \$149,000 and \$201,000 on \$15.2 million and \$18.3 million originated loan sales during the respective periods. The balance of the gain on sales of loans represented cash gains. Additionally, during the nine-month period ended September 30, 2006, the Corporation realized a net loss on the sale of securities of \$4,000, compared to a net gain of \$120,000 for the same period in 2005.

Other non-interest income increased principally due to the increase in income from Bank Owned Life Insurance ( BOLI ), which was \$109,000 and \$340,000, respectively, for the quarter and nine-month periods ended September 30, 2006, compared to \$119,000 and \$152,000, respectively, for the same periods in 2005.

For the quarter ended September 30, 2006, non-interest expenses totaled \$3,454,000 compared to \$3,559,000 for the comparable period of 2005, a decrease of \$105,000 (2.9%). For the nine-month period ended September 30, 2006, non-interest expenses totaled \$10,559,000 compared to \$10,714,000 for the comparable period of 2005, a decrease of \$155,000 (1.4%).

The operating results for the three and nine month periods included an adjustment to the provision for stock options based on the Corporation's closing stock price as of September 30, 2006. As a result of this adjustment, non-interest expenses increased \$11,000 for the three-month period and decreased \$13,000 for the nine-month period, each ended September 30, 2006, and increased \$45,000 for the three-month period and decreased \$39,000 for the nine-month period, each ended September 30, 2005.

For the quarter ended September 30, 2006, the Corporation's efficiency ratio was 64.54% compared to 66.06% for the same period of 2005. The Corporation's efficiency ratio improved as a result of the aforementioned reduction in non-interest expenses and an increase in non-interest income offset by a reduction in net interest income. For the nine-month period ended September 30, 2006, the Corporation's efficiency ratio was 65.54% compared to 66.09% for the same period of 2005. The 2006 year-to-date improvement compared to 2005 was also the result of the aforementioned factors.

Return on average assets was 0.95% for the third quarter of 2006, compared to 0.84% for the comparable quarter of 2005. Return on average assets for the nine months ended September 30, 2006 was 0.92% compared to 0.81% for the same period in 2005. Such increases reflect the increase in 2006 net earnings as compared to 2005. Return on average shareholders' equity for the third quarter of 2006 was 11.77% compared to 10.26% for the same period of 2005. Return on average equity for the nine months ended September 30, 2006 was 11.37% compared to 10.12% for the same period in 2005.

Total assets amounted to \$550.8 million at September 30, 2006, compared to \$536.2 million at December 31, 2005, an increase of \$14.6 million, or 2.7%. Loans at September 30, 2006, net of the allowance for loan losses, increased \$24.4 million (8.0%) from December 31, 2005. Securities available-for-sale decreased \$10.6 million (5.8%) during this nine-month period. Deposits during this same period increased \$7.7 million (2.2%). Federal Home Loan Bank borrowings increased \$6.9 million (11.2%) during the nine-month period.

Shareholders' equity increased from \$43.8 million at December 31, 2005 to \$45.7 million at September 30, 2006. This increase was primarily the result of net income (\$3.7 million), the exercise of stock options (\$159,000) and the sale of 7,975 treasury shares (\$110,000) under the Corporation's Employee Stock Purchase Plan offset by the repurchase of 44,177 common shares (\$697,000) and the payment of dividends (\$1,405,000).

**Quarterly Report**

**September 30, 2006**

Dear Shareholders, Customers and Employees,

We are pleased to report that the Company's earnings continue to improve. The Company's net income for the nine-month period ended September 30, 2006 was \$3,723,000 (\$1.03 per share) compared to \$3,362,000 (\$0.91 per share) for the same period of 2005, a 10.7% increase. For the nine-month period in 2006, return on average equity was 11.37% compared to 10.12% for the same period in 2005. Thus far in 2006, dividends are \$0.39 per share compared to \$0.36 per share in 2005, an increase of 8.3%. Compared to the same nine-month period in 2005, the Company was able to increase non-interest income (\$291,000) and decrease non-interest expenses (\$155,000) for 2006.

As of September 30, 2006 total assets increased to \$550.8 million, a \$14.6 million increase, total loans increased to \$334.2 million, a \$24.2 million increase and total deposits increased to \$364.6 million a \$7.7 million increase, compared to December 31, 2005.

The improved earnings results have been accomplished while the Company's net interest margin remains under considerable pressure. We believe that the compression of margins throughout the financial services industry will continue through 2006 and into 2007 as a result of the yield curve. Management has and will continue to work hard on the Company's operating efficiencies and balance sheet structure to minimize the impact of this challenging environment and at the same time improve shareholder value. As always, we appreciate your support.

Respectfully,

Daniel W. Schutt
