ASB Financial Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three-month periods ended September 30, 2004 and 2003

1. Basis of Presentation

The accompanying unaudited consolidated financial statements were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. Accordingly, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto of ASB Financial Corp. (the "Corporation") included in the Annual Report on Form 10-KSB for the year ended June 30, 2004. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the financial statements have been included. The results of operations for the three-month period ended September 30, 2004, are not necessarily indicative of the results which may be expected for the entire fiscal year.

2. Principles of Consolidation

The accompanying consolidated financial statements include all of the accounts of the Corporation, American Savings Bank, fsb ("American"), ASB Community Development Corp. and A.S.L. Services, Inc., American's wholly-owned subsidiaries. All significant intercompany items have been eliminated.

3. Critical Accounting Policies

Certain of the Corporation's accounting policies are important to the portrayal of the Corporation's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Facts and circumstances which could affect these judgments include, but without limitation, changes in interest rates, changes in the performance of the economy or changes in the financial condition of borrowers. Management believes that its critical accounting policy focuses primarily on determining the allowance for loan losses. This critical accounting policy is discussed in detail in the Annual Report to Shareholders for the year ended June 30, 2004 (incorporated by reference into the Corporation's Form 10-KSB filing) in Note A of the Notes to Consolidated Financial Statements under "Allowance for Loan Losses." If management were to underestimate the allowance for loan losses, earnings could be reduced in the future as a result of greater than expected net loan losses. Overestimations of the required allowance could result in future increases in income, as loan loss recoveries increase or provisions for losses on loans decrease.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the three-month periods ended September 30, 2004 and 2003

4. Earnings Per Share

Basic earnings per common share is computed based upon the weighted-average number of common shares outstanding during the period less shares in the ASB Financial Corp. Employee Stock Ownership Plan ("ESOP") that are unallocated and not committed to be released. At September 30, 2004, all ESOP shares have been allocated and released. Weighted-average common shares deemed outstanding give effect to 8,128 unallocated ESOP shares for the three month period ended September 30, 2003. Diluted earnings per common share include the dilutive effect of all additional potential common shares issuable under the Corporation's stock option plan. The computations are as follows:

For the three months ended September 30,	2004	2003
Weighted-average common shares outstanding (basic)	1,685,248	1,660,853
Dilutive effect of assumed exercise of stock options	27,739	43,382
	-----	-----
Weighted-average common shares outstanding (diluted)	1,712,987	1,704,235
	=====	=====

5. Stock Option Plan

During fiscal 1996 the Board of Directors and shareholders adopted the ASB Financial Corp. 1995 Stock Option and Incentive Plan (the "Plan") that provided for the issuance of 225,423 shares, as adjusted, of authorized but unissued shares of common stock at fair value at the date of grant. In fiscal 1996, the Corporation granted 197,521 options which have an adjusted exercise price per share of \$7.64. The number of options granted and the exercise price have been adjusted to give effect to the return of capital and special dividend distributions paid by the Corporation. The Plan provides that one-fifth of the options granted became exercisable on each of the first five anniversaries of the date of grant.

The Corporation accounts for the Plan in accordance with SFAS No. 123, "Accounting for Stock-Based Compensation," which contains a fair value-based method for valuing stock-based compensation that entities may use, which measures compensation cost at the grant date based on the fair value of the award. Compensation is then recognized over the service period, which is usually the vesting period. Alternatively, SFAS No. 123 permits entities to continue to account for stock options and similar equity instruments under Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees." Entities that continue to account for stock options

Edgar Filing: ASB FINANCIAL CORP /OH - Form 10QSB

using APB Opinion No. 25 are required to make pro forma disclosures of net earnings and earnings per share, as if the fair value-based method of accounting defined in SFAS No. 123 had been applied.

5. Stock Option Plan (continued)

The Corporation applies APB Opinion No. 25 and related Interpretations in accounting for the Plan. Accordingly, no compensation cost has been recognized for the Plan. Had compensation cost for the Plan been determined based on the fair value at the grant dates for awards under the Plan consistent with the accounting method utilized in SFAS No. 123, the Corporation's net earnings and earnings per share for the three-month periods ended September 30, 2004 and 2003, would have been reported as the pro forma amounts indicated below:

The fair value of each option grant is estimated on the date of grant using the modified Black-Scholes options-pricing model with the following assumptions used for grants during fiscal 2004 and 2003: dividend yield of 2.3% and 2.9%, respectively; expected volatility of 20.0% for both years; a risk-free interest rate of 4.3% and 3.4%, respectively; and an expected life of ten years for all grants.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Forward Looking Statements

Certain statements contained in this report that are not historical facts are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms "anticipates," "plans," "expects," "believes," and similar expressions as they relate to ASB or its management are intended to identify such forward looking statements. ASB's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services.

Discussion of Financial Condition Changes from June 30, 2004 to September 30, 2004

At September 30, 2004, the Corporation's assets totaled \$169.2 million, an increase of \$2.8 million, or 1.7%, over total assets at June 30, 2004.

Cash and cash equivalents decreased by \$2.5 million, or 33.3%, from June 30, 2004 levels, to a total of \$4.9 million at September 30, 2004. Investment securities and certificates of deposit totaled \$12.5 million at September 30, 2004, a decrease of \$193,000, or 1.5%, from June 30, 2004 levels. Maturities and discount accretion related to investment securities totaling approximately \$1.0 million, were partially offset by purchases of \$761,000. Purchases of investment securities consisted primarily of fixed-rate medium-term callable U.S. Government agency obligations. Mortgage-backed securities totaled \$12.1 million at September 30, 2004, an increase of \$349,000, or 3.0%, from the total at June 30, 2004, due primarily to purchases totaling \$1.3 million, which were partially offset by principal repayments of \$1.2 million, a pre-tax increase in unrealized gains totaling \$181,000 and premium amortization of \$29,000.

Loans receivable increased by \$5.4 million, or 4.2%, during the three-month period ended September 30, 2004, to a total of \$135.2 million. Loan disbursements amounted to \$15.7 million for the three months ended September 30, 2004, and were partially offset by principal repayments of \$10.3 million. During the three months ended September 30, 2004, loans originated consisted of \$6.6 million of loans secured by one- to four-family residential real estate, \$5.2 million of loans secured by nonresidential real estate, \$2.5 million of commercial loans and \$1.4 million of consumer loans.

The allowance for loan losses totaled \$1.1 million at September 30, 2004 and June 30, 2004. Nonperforming and nonaccrual loans totaled \$1.0 million at September 30, 2004, unchanged from the total at June 30, 2004. The allowance for loan losses represented 110.0% and 99.9% of nonperforming loans at September 30, 2004 and June 30, 2004, respectively. At September 30, 2004, nonperforming loans consisted of \$772,000 in one- to four-family residential real estate loans and \$228,000 in nonresidential real estate, consumer and other loans. Management believes such loans are adequately

Edgar Filing: ASB FINANCIAL CORP /OH - Form 10QSB

collateralized and does not expect to incur any losses on such loans. Although management believes that its allowance for loan losses at September 30, 2004, was adequate based upon the available facts and circumstances, there can be no assurance that additions to such allowance will not be necessary in future periods, which could adversely affect the Corporation's results of operations.

Deposits totaled \$136.7 million at September 30, 2004, a decrease of \$53,000, or .04%, from June 30, 2004 levels. The decrease in deposits was due primarily to decreases in jumbo CD's and checking accounts.

ASB Financial Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Discussion of Financial Condition Changes from June 30, 2004 to September 30, 2004 (continued)

Federal Home Loan Bank advances increased by \$1.7 million, or 15.6%, during the three month period ended September 30, 2004. Advances amounted to \$3.0 million for the three months ended September 30, 2004, and were partially offset by repayments of \$1.3 million. The proceeds from the advances were used to fund new loan originations.

Shareholders' equity totaled \$18.1 million at September 30, 2004, an increase of \$678,000, or 3.9%, from the June 30, 2004 level. The increase was due to net earnings of \$501,000, \$192,000 in proceeds from the exercise of stock options, and a \$243,000 net increase in unrealized gains on securities, which were partially offset by dividends on common shares totaling \$258,000. Dividends totaled \$.15 per share for the three months ended September 30, 2004.

American is required to meet minimum regulatory capital requirements promulgated by the Office of Thrift Supervision ("OTS"). At September 30, 2004, American's regulatory capital exceeded the minimum capital requirements.

Comparison of Operating Results for the Three-Month Periods Ended September 30, 2004 and 2003

General

Net earnings totaled \$501,000 for the three months ended September 30, 2004, unchanged from the same period in 2003. An increase of \$43,000 in net interest income and decreases of \$7,000 in the provision for federal income taxes and \$2,000 in the provision for loan losses were completely offset by an increase of \$19,000 in general, administrative and other expense and a decrease of \$33,000 in other income.

Net Interest Income

Interest income on loans increased by \$103,000, or 5.2%, for the three months ended September 30, 2004, compared to the 2003 period. This increase was due primarily to a \$15.1 million, or 12.7%, increase in the average portfolio balance outstanding period to period, which was offset by a 45

Edgar Filing: ASB FINANCIAL CORP /OH - Form 10QSB

basis point decrease in the weighted-average yield, to 6.25% for the 2004 three-month period. Interest income on investment securities, mortgage-backed securities and interest-bearing deposits increased by \$10,000, or 5.0%, due primarily to a 10 basis point increase in the weighted-average yield, to 2.9% for the 2004 period and a \$795,000, or 2.8%, increase in the average balance of the related assets outstanding period to period.

Interest expense on deposits decreased by \$6,000, or .8%, for the three months ended September 30, 2004, compared to the same period in 2003. This decrease was due primarily to an 11 basis point decrease in the weighted-average cost of deposits, to 2.1% for the three months ended September 30, 2004, which was partially offset by a \$5.7 million, or 4.3%, increase in the average balance of deposits outstanding period to period. Interest expense on borrowings increased by \$76,000, or 542.9%, due to a 74 basis point increase in the average cost of borrowings during the period and a \$7.5 million, or 156.0%, increase in the average balance outstanding. The decrease in the yields on interest-earning assets and the costs of interest-bearing liabilities was due primarily to the effect of decreases in interest rates in the economy.

As a result of the foregoing changes in interest income and interest expense, net interest income increased by \$43,000, or 3.0%, to a total of \$1.5 million for the three months ended September 30, 2004. The interest rate spread decreased to 3.49% for the three months ended September 30, 2004, from 3.78% for the 2003 period, while the net interest margin decreased to 3.67% in the 2004 period, compared to 3.95% in the 2003 period.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Comparison of Operating Results for the Three-Month Periods Ended September 30, 2004 and 2003 (continued)

Provision for Losses on Loans

American charges a provision for losses on loans to earnings to bring the total allowance for loan losses to a level considered appropriate by management based on historical experience, the volume and type of lending conducted by American, the status of past due principal and interest payments, general economic conditions, particularly as such conditions relate to American's market area, and other factors related to the collectibility of American's loan portfolio. The Corporation recorded a provision for losses on loans totaling \$21,000 during the three months ended September 30, 2004, a decrease of \$2,000, or 8.7%, from the comparable three-month period in 2003. The reduction in the provision during the 2004 period was primarily influenced by a decline in nonperforming loans over the year. There can be no assurance that the loan loss allowance will be adequate to absorb losses on known nonperforming loans or that the allowance will be adequate to cover losses on nonperforming assets in the future, which could adversely affect the Corporation's results of operations.

Other Income

Other income totaled \$178,000 for the three months ended September 30, 2004, a decrease of \$33,000, or 15.6%, from the same period in 2003. The decrease

Edgar Filing: ASB FINANCIAL CORP /OH - Form 10QSB

was due to a reduction of \$58,000 in gain on sale of office premises, which was partially offset by a \$25,000, or 16.3%, increase in other operating income, primarily derived from increased ATM transaction fees and other charges.

General, Administrative and Other Expense

General, administrative and other expense totaled \$1.0 million for the three months ended September 30, 2004, an increase of \$19,000, or 2.0%, over the same period in 2003. This increase was comprised of increases of \$23,000, or 4.5%, in employee compensation and benefits, \$10,000, or 9.2%, in data processing costs and \$4,000, or 7.5%, in occupancy and equipment, which were partially offset by a decrease of \$18,000, or 6.6%, in other operating expense. The increase in employee compensation and benefits was due primarily to normal merit increases and incentives for employees. The increase in occupancy and equipment was due to higher depreciation expense recognized in connection with the completion of a new branch location. The increase in data processing was due primarily to rising vendor costs. The reduction in other operating expenses was due to decreases in legal, accounting and compliance costs.

Federal Income Taxes

The provision for federal income taxes totaled \$190,000 for the three months ended September 30, 2004, a decrease of \$7,000, or 3.6%, compared to the same period in 2003. This decrease was due to a combination of a decline in earnings before taxes of \$7,000, or 1.0%, and the effects of New Markets Tax Credits which were awarded to ASB Community Development Corp. in fiscal 2003. The effective tax rates were 27.5% and 28.2% for the three-month periods ended September 30, 2004 and 2003, respectively.
