Disclosure Controls and Procedures

Management is responsible for establishing and maintaining effective disclosure controls and procedures. At the end of the period covered by this report, management of the Company carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-14. Our disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed in the SEC reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time period specified by the SEC's rules and forms and that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, to allow timely decisions regarding required disclosure.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective (1) to provide reasonable assurance that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) to provide reasonable assurance that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined under Exchange Act Rules 13a-15(f) and 15d-15(f). Our company's internal control over financial reporting is a process designed by, or under the supervision of, a public company's principal executive and principal financial officers, or persons performing similar functions, and effected by the board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP including those policies and procedures that:

## Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10-K/A

(i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the company, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our company's assets that could have a material effect on the financial statements.

Our management, with the participation of our chief executive officer and chief financial officer, has assessed the effectiveness of our internal control over financial reporting as of December 31, 2008. In making this assessment, our management used the criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Their assessment included an evaluation of the design of the our internal control over financial reporting and testing of the operational effectiveness of our internal control over financial reporting. Based on their assessment and those criteria, our chief executive officer and chief financial officer, concluded that our company maintained effective internal control over financial reporting as of December 31, 2008.

### Changes in Internal Control over Financial Reporting

Management previously identified the following material weaknesses in our internal control over financial reporting: (i) A lack of sufficient personal and resources and an insufficient level of monitoring and oversight, restricts our ability to gather, analyze and report information relative to the financial statements in a timely manner; and (ii) the limited number of management and accounting personal makes it impracticable to achieve an optimum separation of duties. Since then, we have implemented appropriate change controls and access controls related to our financial reporting software. Our new controller and new production manager have increased the level of monitoring and oversight of our financial reporting process providing the appropriate level of management review of our key accounts and specific knowledge surrounding financial reporting, including accounting for complex transactions and appropriate financial statement disclosures. We believe that with these actions we have remediated the material weaknesses reported in our prior filings. Except for the above, there were no other changes in our internal control over financial reporting during the fourth quarter of 2008 that materially affected, or is reasonably likely to materially affect our internal control over financial reporting.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial report. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.
