NOTES TO UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**(dollars in thousands)****1. Basis of Presentation**

The condensed consolidated interim financial statements are unaudited, and certain information and footnote disclosures related thereto normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted in accordance with Rule 10-01 of Regulation S-X. In the opinion of management, the accompanying unaudited condensed consolidated financial statements were prepared following the same policies and procedures used in the preparation of the audited financial statements and reflect all adjustments (consisting of normal recurring adjustments) considered necessary to fairly state the financial position and results of operations of Charles River Laboratories International, Inc. ("the Company"). The results of operations for the interim periods are not necessarily indicative of the results for the entire fiscal year. These condensed consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 29, 2001.

Edgar Filing: CHARLES RIVER LABORATORIES INTERNATIONAL INC - Form 424B3

Certain amounts in the prior year financial statements and related notes have been reclassified to conform with current year presentation.

2. Long Term Debt

On May 29, 2002, the Company repaid all of the outstanding senior secured term loan facilities, including \$14,000 term loan A facility, \$41,100 term loan B facility and \$13,500 term loan C facility. The Company recorded an extraordinary loss before tax of \$1,790 due to the write-off of deferred financing costs. The extraordinary loss was recorded in the condensed consolidated statement of income net of a tax benefit of \$698.

On February 14, 2002, the Company completed a tender offer for \$79,728 par value for all of the 13.5% senior subordinated notes. The Company recorded an extraordinary loss before tax of \$27,479, due to the payment of premiums related to the early extinguishment of debt (\$23,886), the write-off of deferred financing costs (\$2,726) and issuance discounts (\$867). The extraordinary loss was recorded in the condensed consolidated statement of income net of a tax benefit of \$10,717.

On January 24, 2002, the Company issued \$175,000 par value of senior convertible debentures through a private placement offering. On February 11, 2002, the Company issued an additional \$10,000 par value of senior convertible debentures through the additional purchase option. The Company received approximately \$179,450, net of underwriter discounts. The senior convertible debentures will accrue interest at an initial annual rate of 3.5%, payable semi-annually in arrears, beginning August 1, 2002. The senior convertible debentures will mature in 2022 and are convertible into shares of the Company's common stock at a conversion price of \$38.87, subject to adjustment under certain circumstances. On or after February 5, 2005, the Company may redeem for cash all or part of the debentures that have not been previously converted at the redemption prices set forth in the purchase agreement. Holders may require the Company to repurchase for cash all or part of their debentures on February 1, 2008, February 1, 2013 or February 1, 2017 at a price equal to 100% of the par value of the debentures plus accrued interest up to but not including the date of repurchase. In addition, upon a change in control of the Company occurring on or prior to February 1, 2022, each holder may require the Company to repurchase all or a portion of such holder's debentures for cash. The Company used a portion of the net proceeds from the senior convertible debenture offering to retire all of the 13.5% senior subordinated notes through a tender offer.

7

3. Business Acquisitions

On June 7, 2002, Charles River Europe GmbH, a wholly owned subsidiary of Charles River Laboratories Inc., the Company's wholly owned subsidiary, acquired 100% of the voting equity interests of privately held Biological Laboratories Europe Limited ("BioLabs"). Consideration, including acquisition expenses, was \$22,900, net of cash acquired of \$2,998. The consideration consists of \$18,526 in cash and \$4,374 in future payments, of which \$2,360 is to be paid in the third quarter of 2002, \$1,888 is to be paid to two selling shareholders of BioLabs over a three year period and \$126 in acquisition costs. BioLabs, located in Western Ireland, provides a broad range of services supporting the discovery, development and manufacturing of pharmaceutical, medical devices and animal and human health products. BioLabs was acquired to strengthen the Company's existing biomedical products and services segment by adding new capabilities to service the large and growing global animal health and medical device industry. The acquisition was recorded as a purchase business combination in accordance with Statement of Financial Accounting Standards No. 141, "Business Combinations". The Company consolidated the operations of BioLabs from the date of acquisition.

As of June 29, 2002, the purchase price allocation for BioLabs had not been completed, however, it is expected to be finalized by the end of fiscal year 2002. The estimated allocation of purchase price as of June 29, 2002 is as follows:

Edgar Filing: CHARLES RIVER LABORATORIES INTERNATIONAL INC - Form 424B3

On January 8, 2001, Charles River Laboratories, Inc. ("CRL"), the Company's wholly owned subsidiary, purchased 100% of the common stock of Pathology Associates International Corporation ("PAI"). Consideration, including acquisition expenses, of \$35,238 was paid with respect to this acquisition, consisting of \$25,557 of cash and a \$12,000 callable convertible note. This acquisition was recorded as a purchase business combination and CRL consolidated the operations of PAI from the date of acquisition.

Effective February 27, 2001, CRL acquired Primedica Corporation ("Primedica") for consideration, including acquisition expenses, of \$51,107. Consideration was comprised of \$25,708 of cash, \$16,375 of the Company's common stock and \$9,024 in assumed debt. This acquisition was recorded as a purchase business combination and CRL consolidated the operations of Primedica from the date of acquisition.

On July 20, 2001, CRL purchased 100% of the common stock of Genetic Models, Inc. ("GMI") for cash consideration of \$4,000. This acquisition was recorded as a purchase business combination in accordance with Statement of Financial Accounting Standards No. 141, "Business Combinations". The Company consolidated the operations of GMI from the date of acquisition.

8

The following selected unaudited pro forma consolidated results of operations are presented as if each of the acquisitions had occurred as of the beginning of the period immediately preceding the period of acquisition after giving effect to certain adjustments for the amortization of goodwill for the three and six months ended June 30, 2002, additional interest expense and related income tax effects. The pro forma data is for informational purposes only and does not necessarily reflect the results of operations had the companies operated as one during the period. No effect has been given for synergies, if any, that may have been realized through the acquisitions.

Refer to Note 5 for further discussion of the method of computation of earnings per share.

4. Restructuring Charges

During the fourth quarter of 2001, the Company recorded a restructuring charge associated with the closing of a San Diego, California facility. Approximately 40 employees were terminated as a result of this action.

During the fourth quarter of 2000, the Company recorded a restructuring charge associated with the closing of a facility in France. During 2001, the Company recorded additional charges relating to the settlement of labor disputes which originated during the first quarter of 2001. Approximately 60 employees were terminated as a result of the restructuring.

A summary of the activities associated with the above restructuring charges and the related liabilities balance as of December 29, 2001 and June 29, 2002 are as follows:

	Employee Separations	Other	Total
December 29, 2001	\$ 1,350	\$ 339	\$ 1,689

	<u>Employee Separations</u>	<u>Other</u>	<u>Total</u>
June 29, 2002	\$ 544	\$ 162	\$ 706

The Company has closed both the San Diego facility and the French facility and expects the reserves to be fully utilized by the end of fiscal year 2002.

5. Earnings per Share

Basic earnings per share for the three and six month periods ended June 29, 2002 and June 30, 2001 were computed by dividing earnings available to common shareholders for these periods by the weighted average number of common shares outstanding in the respective periods.

The weighted average number of common shares outstanding in the three and six month periods ended June 29, 2002 and June 30, 2001 have been adjusted to include common stock equivalents for the purpose of calculating diluted earnings per share before and after the extraordinary item for these periods.

The following table illustrates the reconciliation of the numerator and denominator of the basic and diluted earnings per share before and after the extraordinary item computations:

	<u>Three Month Period Ended</u>		<u>Six Month Period Ended</u>

8. Commitments and Contingencies

Various lawsuits, claims and proceedings of a nature considered normal to its business are pending against the Company. In the opinion of management, the outcome of such proceedings and litigations currently pending will not materially affect the Company's consolidated financial statements.

On April 27, 2001, the Company's French subsidiaries obtained a favorable legal judgement in a contract dispute, with a damages award of approximately \$3,500. As of June 29, 2002, the Company has received the full damage award of approximately \$3,500 under the legal judgment. The Company received \$2,240 during fiscal year 2001 and the remaining \$1,260 during the second quarter of 2002. As the defendant has appealed the decision, the proceeds are included as deferred income in the consolidated balance sheet as of June 29, 2002 and December 29, 2001.

The Company has provided letters of credit in favor of the insurance carriers in the amount of \$3,063.

9. Business Segment Information

The following table presents sales and other financial information by product line segment for the three and six month periods ended June 29, 2002 and June 30, 2001. Sales to unaffiliated customers represent net sales originating in entities primarily engaged in either research models or biomedical products and services.

	Three Month Period Ended		Six Month Period Ended

10. Goodwill and Other Intangible Assets

Effective at the beginning of fiscal year 2002, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (FAS 142), which establishes financial accounting and reporting standards for acquired goodwill and other intangible assets. Under FAS 142, goodwill and indefinite lived intangible assets are no longer amortized but are reviewed at least annually for impairment. Separate intangible assets that have finite useful lives will continue to be amortized over their useful lives.

FAS 142 requires that goodwill be tested annually for impairment using a two-step process. The first step is to identify a potential impairment and, in transition, this step must be measured as of the beginning of the year of adoption. The Company completed the first step during the second quarter of 2002, which resulted in identifying no potential goodwill impairments as of the beginning of fiscal year 2002. The second step of the goodwill impairment test, which measures the amount of the impairment loss (measured as of the beginning of the year of adoption), is not applicable for fiscal year 2002. Intangible assets deemed to have an indefinite life will be tested for impairment using a one-step process which compares the fair value to the carrying amount of the asset as of the beginning of the fiscal year. Pursuant to the requirements of FAS 142, this impairment test was completed during the first quarter of 2002. The Company has determined that its identifiable intangible assets with indefinite useful lives were not impaired.

13

The following table displays goodwill and other intangible assets not subject to amortization and other intangible assets that continue to be subject to amortization:

	June 29, 2002		December 29, 2001	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Goodwill	\$ 99,795	\$ (12,379)	\$ 60,866	\$ (8,779)

The changes in the gross carrying amount and accumulated amortization of goodwill from December 29, 2001 to June 29, 2002 are as follows:

	Research Models		Biomedical Products and Services		Total	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Balance at December 29, 2001	\$ 8,101	\$ (1,108)	\$ 52,765	\$ (7,671)	\$ 60,866	\$ (8,779)

Estimated amortization expense for each of the next five years is as follows:

2002	\$ 2,593
2003	2,460
2004	1,691
2005	1,469
2006	1,384

14

The following selected pro forma consolidated results are presented as if Statement of Financial Accounting Standards No. 141, "Business Combinations" and FAS 142 had been adopted at the beginning of fiscal year 2001 and accordingly amortization for goodwill and other identifiable intangible assets has been eliminated.

11. Recently Issued Accounting Standards

In April 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" (FAS 145). FAS 145 eliminates the requirement that gains and losses from the extinguishment of debt be aggregated and, if material, classified as an extraordinary item, net of the related income tax effect. However, an entity would not be prohibited from classifying such gains and losses as extraordinary items so long as they are both unusual in nature and infrequent in occurrence. This provision of FAS 145 will be effective for the Company as of the beginning of fiscal year 2003. The Company expects to reclassify losses on extinguishment of debt that have been classified as an extraordinary item in prior periods presented.

In July 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" (FAS 146), which nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and

15

Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". FAS 146 requires a liability for a cost associated with an exit or disposal activity be recognized and measured initially at its fair value in the period in which the liability is incurred. If fair value cannot be reasonably estimated, the liability shall be recognized initially in the period in which fair value can be reasonably estimated. In periods subsequent to the initial measurement, changes to the liability resulting from a revision to either the timing or the amount of estimated cash flows shall be recognized as an adjustment to the liability in the period of the change. The provisions of FAS 146 will be effective for the Company prospectively for exit or disposal activities initiated after December 29, 2002. The Company is in the process of assessing the impact of FAS 146 on its consolidated financial statements.

16

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Six Months Ended June 29, 2002 Compared to the Six Months Ended June 30, 2001

Net Sales. Net sales for the six months ended June 29, 2002 were \$270.3 million, an increase of \$54.4 million, or 25.2%, from \$215.9 million for the six months ended June 30, 2001. On a pro forma basis, sales increased 17.3% for the six months ended June 29, 2002. Pro forma sales includes net sales of the companies we acquired in 2002 and 2001 as if they occurred at the beginning of fiscal 2001.

Research Models. Net sales of research models for the six months ended June 29, 2002 were \$113.4 million, an increase of \$15.9 million, or 16.3%, from \$97.5 million for the six months ended June 30, 2001. Small animal research model sales increased in North America by 18.0% due to an increase in unit volume, a shift to higher priced specialty units including the models from our 2001 acquisition of Genetic Models, Inc.

Edgar Filing: CHARLES RIVER LABORATORIES INTERNATIONAL INC - Form 424B3

("GMI") and improved pricing. Small animal research model sales in Europe increased 12.5%, driven in part by an increase in unit volume, a shift to higher priced specialty units and increased equipment sales. Small animal research model sales in Japan increased 15.1% for the six months ended June 29, 2002, excluding the negative impact from currency translation of \$1.9 million, due to competitor product quality issues through the second quarter of 2002. Sales from our large animal breeding and import conditioning business increased by \$3.8 million due mainly to the timing of animal shipments for the six months ended June 29, 2002.

Biomedical Products and Services. Net sales of biomedical products and services for the six months ended June 29, 2002 were \$156.9 million, an increase of \$38.5 million, or 32.5%, compared to \$118.4 million for the six months ended June 30, 2001. Pro forma sales of biomedical products and services increased 19.5% for the six months ended June 29, 2002 compared to the six months ended June 30, 2001. The increase in net sales of biomedical products and services is due to the continued growth in outsourcing in the pharmaceutical industry and our acquisitions. Biological Laboratories Europe Limited ("BioLabs"), which we acquired on June 7, 2002, along with our 2001 acquisition, Primedica Corporation ("Primedica"), contributed \$46.4 million of sales for the six months ended June 29, 2002, compared to \$31.2 million from Primedica for the six months ended June 30, 2001.

Cost of Products Sold and Services Provided. Cost of products sold and services provided for the six months ended June 29, 2002 was \$168.0 million, an increase of \$32.6 million, or 24.1%, from \$135.4 million for the six months ended June 30, 2001. Cost of products sold and services provided for the six months ended June 29, 2002 was 62.2% of the net sales compared to 62.7% for the six months ended June 30, 2001.

Research Models. Cost of products sold and services provided for research models for the six months ended June 29, 2002 was \$61.3 million, an increase of \$5.3 million, or 9.5%, compared to \$56.0 million for six months ended June 30, 2001. Cost of products sold and services provided for the six months ended June 29, 2002 improved to 54.1% of net sales compared to 57.4% of net sales for the six months ended June 30, 2001. Cost of products sold and services provided increased at a lower rate than net sales due to reduced production costs resulting from the closure of a French facility and increased sales which resulted in improved capacity utilization and better efficiencies.

Biomedical Products and Services. Cost of products sold and services provided for biomedical products and services for the six months ended June 29, 2002 was \$106.7 million, an increase of \$27.3 million, or 34.4%, compared to \$79.4 million for the six months ended June 30, 2001. Cost of products sold and services provided as a percentage of net sales increased to 68.0% for the six months ended June 29, 2002 from 67.1% for the six months ended June 30, 2001. Cost of products sold and services provided increased as a percentage of net sales for the six months ended June 29, 2002 primarily due to the addition of Primedica which operated at lower gross margins than the remainder of our biomedical products and services businesses.

17

Selling, General and Administrative Expenses. Selling, general and administrative expenses for the six months ended June 29, 2002 were \$42.3 million, an increase of \$9.6 million, or 29.4%, from \$32.7 million for the six months ended June 30, 2001. Selling, general and administrative expenses for the six months ended June 29, 2002 was 15.6% of net sales compared to 15.1% of net sales for the six months ended June 30, 2001.

Research Models. Selling, general and administrative expenses for research models for the six months ended June 29, 2002 were \$13.6 million, a decrease of \$0.6 million compared to \$14.2 million for the six months ended June 30, 2001. Selling, general and administrative expenses for the six months ended June 29, 2002 were 12.0% of net sales, compared to 14.6% for the six months ended June 30, 2001, principally due to economies of scale and a charge of \$1.0 million associated with the closing of a French facility during the six months ended June 30, 2001.

Biomedical Products and Services. Selling, general and administrative expenses for biomedical products and services for the six months ended June 29, 2002 were \$18.5 million, an increase of \$4.0 million, or 27.6%, compared to \$14.5 million for the six months ended June 30, 2001. Selling, general and administrative expenses for the six months ended June 29, 2002 was 11.8% of net sales compared to 12.2% of net sales for the six months ended June 30, 2001. Selling, general and administrative expenses increased at a lower rate than net sales due to cost containment during the six months ended June 29, 2002.

Unallocated Corporate Overhead. Unallocated corporate overhead, which consists of various corporate expenses, was \$10.2 million for the six months ended June 29, 2002, compared to \$4.0 million for the six months ended June 30, 2001. The change was caused by decreased pension income and increased administrative expenses including investor relations, security and corporate insurance costs.

Amortization of Goodwill and Other Intangibles. Amortization of goodwill and other intangibles for the six months ended June 29, 2002 was \$1.3 million, a decrease of \$2.5 million from \$3.8 million for the six months ended June 30, 2001. The decrease was due to our adoption of

Edgar Filing: CHARLES RIVER LABORATORIES INTERNATIONAL INC - Form 424B3

the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (FAS 142). During the second quarter of 2002, we completed the goodwill impairment test, which identified no potential goodwill impairment as of the beginning of the fiscal year 2002.

Operating Income. Operating income for the six months ended June 29, 2002 was \$58.8 million, an increase of \$14.9 million, or 33.9%, from \$43.9 million for the six months ended June 30, 2001. Operating income for the six months ended June 29, 2002 was 21.8% of net sales, compared to 20.3% of net sales for the six months ended June 30, 2001.

Research Models. Operating income from sales of research models for the six months ended June 29, 2002 was \$38.5 million, an increase of \$11.5 million, or 42.6%, from \$27.0 million for the six months ended June 30, 2001. Operating income from sales of research models for the six months ended June 29, 2002 was 34.0% of net sales, compared to 27.7% for the six months ended June 30, 2001 due to increased sales and higher gross margins primarily from improved capacity utilization.

Biomedical Products and Services. Operating income from sales of biomedical products and services for the six months ended June 29, 2002 was \$30.4 million, an increase of \$9.4 million, or 44.8%, from \$21.0 million for the six months ended June 30, 2001. Operating income from sales of biomedical products and services for the six months ended June 29, 2002 increased to 19.4% of net sales, compared to 17.7% of net sales for the six months ended June 30, 2001, due to the benefit associated with the elimination of goodwill amortization, along with higher operating cost efficiency, partially offset by the lower margins from the acquisition of Primedica.

18

Interest Expense. Interest expense for the six months ended June 29, 2002 was \$6.9 million, compared to \$12.9 million for the six months ended June 30, 2001. The \$6.0 million decrease is primarily due to the impact of the tender offer for all of the 13.5% senior subordinated notes completed during the first quarter of 2002, lower interest rate on our 3.5% senior convertible debenture issuance and the payoff of all of the term loans during the second quarter of 2002.

Other Income. Other income for the six months ended June 29, 2002 was \$1.1 million, compared to \$0.4 million for the six months ended June 30, 2001. The increase is primarily due to net foreign currency gains.

Income Taxes. The effective tax rate for the six months ended June 29, 2002 of 39.0% compares favorably to the effective tax rate of 41.3% for the six months ended June 30, 2001. In the six months ended June 29, 2002, the increased operating income, along with the impact of reduced leverage, increased our pre-tax income. The greater pre-tax income lowered the impact of the permanent differences on the effective tax rate and lead to better utilization of the foreign tax credits.

Income before Extraordinary Loss. Income before extraordinary loss for the six months ended June 29, 2002 was \$32.0 million, an increase of \$14.2 million from \$17.8 million for the six months ended June 30, 2001. Income before extraordinary loss for the six months ended June 29, 2002 was 11.8% of net sales, compared to 8.2% of net sales for the six months ended June 30, 2001. The improvement is driven by the increase in operating income, lower effective tax rate and the decrease in interest expense.

Extraordinary Loss. We recorded an extraordinary loss of \$17.9 million for the six months ended June 29, 2002. The pre-tax loss of \$29.3 million is the result of a premium associated with the debt repayments and the write-off of deferred financing costs and original issuance discounts. The related tax benefit was \$11.4 million. In the six months ended June 30, 2001, we recorded an extraordinary loss of \$1.8 million, net of tax benefit of \$1.0 million, as a result of the early repayment of debt.

Net Income. The net income for the six months ended June 29, 2002 was \$14.1 million, a decrease of \$1.9 million compared to a net income of \$16.0 million for the six months ended June 30, 2001.

Three Months Ended June 29, 2002 Compared to the Three Months Ended June 30, 2001

Net Sales. Net sales for the three months ended June 29, 2002 were \$136.5 million, an increase of \$19.7 million, or 16.9%, from \$116.8 million for the three months ended June 30, 2001. On a pro forma basis, sales increased 15.3% for the three months ended June 29, 2002. Pro forma sales includes net sales of the companies we acquired in 2002 and 2001 as if they occurred at the beginning of fiscal 2001.

Research Models. Net sales of research models for the three months ended June 29, 2002 were \$56.5 million, an increase of \$8.5 million, or 17.7%, from \$48.0 million for the three months ended June 30, 2001. Small animal research model sales increased in North America by 16.4% due to an increase in unit volume, a shift to higher priced specialty units including the models from our 2001 acquisition of Genetic Models, Inc. ("GMI") and improved pricing. Excluding positive impact from currency translation of \$0.8 million, small animal research model

sales in Europe increased 14.3%, driven in part by an increase in unit volume, a shift to higher priced specialty units, and increased equipment sales. Small animal research model sales in Japan increased 9.3% for the three months ended June 29, 2002, excluding the negative impact from currency translation of \$0.4 million, due to competitor product quality issues. Sales from our large animal breeding and import conditioning business increased by \$2.0 million due mainly to the timing of animal shipments for the three months ended June 29, 2002.

Biomedical Products and Services. Net sales of biomedical products and services for the three months ended June 29, 2002 were \$80.0 million, an increase of \$11.2 million, or 16.3%, compared to \$68.8 million for the three months ended June 30, 2001. Pro forma sales of biomedical products and services increased 15.0% for the three months ended June 29, 2002 compared to the three months ended June 30, 2001. The increase in net sales of biomedical products and services is due to the continued growth in outsourcing in the pharmaceutical industry.

Cost of Products Sold and Services Provided. Cost of products sold and services provided for the three months ended June 29, 2002 was \$84.1 million, an increase of \$11.0 million, or 15.0%, from \$73.1 million for the three months ended June 30, 2001. Cost of products sold and services provided for the three months ended June 29, 2002 was 61.6% of the net sales compared to 62.6% for the three months ended June 30, 2001.

Research Models. Cost of products sold and services provided for research models for the three months ended June 29, 2002 was \$30.4 million, an increase of \$3.3 million, or 12.2%, compared to \$27.1 million for the three months ended June 30, 2001. Cost of products sold and services provided for the three months ended June 29, 2002 improved to 53.8% of net sales compared to 56.5% of net sales for the three months ended June 30, 2001. Cost of products sold and services provided increased at a lower rate than net sales due to reduced production costs resulting from the closure of a French facility and increased sales which resulted in improved capacity utilization and better efficiencies.

Biomedical Products and Services. Cost of products sold and services provided for biomedical products and services for the three months ended June 29, 2002 was \$53.7 million, an increase of \$7.7 million, or 16.7%, compared to \$46.0 million for the three months ended June 30, 2001. Cost of products sold and services provided as a percentage of net sales increased to 67.1% for the three months ended June 29, 2002 from 66.8% for the three months ended June 30, 2001.

Selling, General and Administrative Expenses. Selling, general and administrative expenses for the three months ended June 29, 2002 were \$21.4 million, an increase of \$4.1 million, or 23.7%, from \$17.3 million for the three months ended June 30, 2001. Selling, general and administrative expenses for the six months ended June 29, 2002 was 15.7% of net sales compared to 14.8% of net sales for the three months ended June 30, 2001.

Research Models. Selling, general and administrative expenses for research models for the three months ended June 29, 2002 were \$7.1 million, compared to \$7.2 million for the three months ended June 30, 2001. Selling, general and administrative expenses for the three months ended June 29, 2002 was 12.6% of net sales, compared to 15.0% for the three months ended June 30, 2001, principally due to economies of scale.

Biomedical Products and Services. Selling, general and administrative expenses for biomedical products and services for the three months ended June 29, 2002 were \$9.4 million, an increase of \$0.9 million, compared to \$8.5 million for the three months ended June 30, 2001. Selling, general and administrative expenses for the three months ended June 29, 2002 was 11.8% of net sales compared to 12.4% of net sales for the three months ended June 30, 2001. Selling, general and administrative expenses increased at a lower rate than net sales due to cost containment during the three months ended June 29, 2002.

Unallocated Corporate Overhead. Unallocated corporate overhead, which consists of various corporate expenses, was \$4.9 million for the three months ended June 29, 2002, compared to \$1.6 million for the three months ended June 30, 2001. The change was caused by decreased pension income and increased administrative expenses including investor relations, security and corporate insurance costs.

Amortization of Goodwill and Other Intangibles. Amortization of goodwill and other intangibles for the three months ended June 29, 2002 was \$0.6 million, a decrease of \$1.4 million from \$2.0 million for the three months ended June 30, 2001. The decrease was due to our adoption of the Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (FAS 142). During the second quarter of 2002, we completed the goodwill impairment test, which identified no potential

goodwill impairment as of the beginning of the fiscal year 2002.

Operating Income. Operating income for the three months ended June 29, 2002 was \$30.4 million, an increase of \$5.9 million, or 24.1%, from \$24.5 million for the three months ended March 31, 2001. Operating income for the three months ended June 29, 2002 was 22.3% of net sales, compared to 21.0% of net sales for the three months ended June 30, 2001.

Research Models. Operating income from sales of research models for the three months ended June 29, 2002 was \$19.0 million, an increase of \$5.3 million, or 38.7%, from \$13.7 million for the three months ended June 30, 2001. Operating income from sales of research models for the three months ended June 29, 2002 was 33.6% of net sales, compared to 28.5% for the three months ended June 30, 2001 due to increased sales and higher gross margins primarily from improved capacity utilization.

Biomedical Products and Services. Operating income from sales of biomedical products and services for the three months ended June 29, 2002 was \$16.3 million, an increase of \$3.8 million, or 30.4%, from \$12.5 million for the three months ended June 30, 2001. Operating income from sales of biomedical products and services for the three months ended June 29, 2002 increased to 20.4% of net sales, compared to 18.0% of net sales for the three months ended June 30, 2001, due to the benefit associated with the elimination of goodwill amortization, along with higher operating cost efficiency.

Interest Expense. Interest expense for the three months ended June 29, 2002 was \$3.0 million, compared to \$5.9 million for the three months ended June 30, 2001. The \$2.9 million decrease is primarily due to the impact of the tender offer for all of the 13.5% senior subordinated notes completed during the first quarter of 2002, lower interest rate on our 3.5% senior convertible debenture issuance and the payoff of all the term loans during the second quarter of 2002.

Other Income. Other income for the three months ended June 29, 2002 was \$1.2 million, compared to other expense of \$0.1 million for the three months ended June 30, 2001. The increase is due to net foreign currency gains.

Income Taxes. The effective tax rate for the three months ended June 29, 2002 of 39.0% compares favorably to the effective tax rate of 40.8% for the three months ended June 30, 2001. In the three months ended June 29, 2002, the increased operating income, along with the impact of reduced leverage, increased our pre-tax income. The greater pre-tax income lowered the impact of the permanent differences on the tax rate and lead to better utilization of the foreign tax credits.

Income before Extraordinary Loss. Income before extraordinary loss for the three months ended June 29, 2002 was \$17.4 million, an increase of \$6.8 million from \$10.6 million for the three months ended June 30, 2001. Income before extraordinary loss for the three months ended June 29, 2002 was 12.7% of net sales, compared to 9.1% of net sales for the three months ended June 30, 2001. The improvement is driven by the increase in operating income, lower effective income tax rate and the decrease in interest expense.

Extraordinary Loss. We recorded an extraordinary loss of \$1.1 million for the three months ended June 29, 2002. The pre-tax loss of \$1.8 million is the result of the write-off of deferred financing costs in connection with the debt repayments. The related tax benefit was \$0.7 million. In the three months ended June 30, 2001, we recorded an extraordinary loss of \$1.6 million, net of tax benefit of \$0.8 million, as a result of the early repayment of debt.

Net Income. The net income for the three months ended June 29, 2002 was \$16.3 million, an increase of \$7.3 million compared to a net income of \$9.0 million for the three months ended June 30, 2001.

Liquidity and Capital Resources

Cash and cash equivalents of the Company totaled \$84.7 million at June 29, 2002 compared with \$58.3 million at December 29, 2001. Our principal sources of liquidity are cash from operations as well as cash provided by our equity and debt offerings.

Net cash provided by operating activities for the six months ended June 29, 2002 and June 30, 2001 was \$53.6 million and \$18.4 million, respectively. The increase in cash provided by operations is primarily a result of our improved performance during the first six months of 2002.

Net cash used in investing activities during the six months ended June 29, 2002 and June 30, 2001 was \$33.8 million and \$63.2 million, respectively. The decrease in cash used is a result of more significant business acquisitions in 2001 compared to 2002.

Edgar Filing: CHARLES RIVER LABORATORIES INTERNATIONAL INC - Form 424B3

Net cash provided by financing activities during the six months ended June 29, 2002 and June 30, 2001 was \$4.4 million and \$41.0 million, respectively. During the first quarter of 2002, we issued \$185.0 million par value of senior convertible debentures. We used \$79.7 million of the proceeds to repay all of the 13.5% senior subordinated notes. A premium of \$23.9 million was paid on the early retirement of the 13.5% senior subordinated notes.

Minimum future payments of the Company's long term debt at June 29, 2002 are as follows:

	<u>Total</u>	<u>Less than 1 Year</u>	<u>1 3 Years</u>	<u>4 5 Years</u>	<u>After 5 Years</u>
Long term debt	\$ 190.8	\$ 2.1	\$ 1.7	\$ 1.4	\$ 185.6

We anticipate that our operating cash flows, together with borrowings under our credit facility, will be sufficient to meet our anticipated future operating expenses, capital expenditures and debt service obligations as they become due.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are subject to market risks arising from changes in interest rates and foreign currency exchange rates. Our primary interest rate exposure results from changes in LIBOR or the base rate which are used to determine the applicable interest rates under our revolving credit facility. During the second quarter of 2002, we paid off all of our variable rate term loans and have not borrowed against our revolving credit facility, and therefore, are not subject to interest rate risk at this time. Fluctuations in interest rates will not affect the interest payable on the senior convertible debentures, which is fixed.

We generally do not use financial instruments for trading or other speculative purposes.

We also have exposure to some foreign currency exchange rate fluctuations for the cash flows received from our foreign affiliates. This risk is mitigated by the fact that their operations are conducted in their respective local currencies. Currently, we do not engage in any foreign currency hedging activities.

Recently Issued Accounting Standards

In April 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" (FAS 145). FAS 145 eliminates the requirement that gains and losses from the extinguishment of debt be aggregated and, if material, classified as an

22

extraordinary item, net of the related income tax effect. However, an entity would not be prohibited from classifying such gains and losses as extraordinary items so long as they are both unusual in nature and infrequent in occurrence. This provision of FAS 145 will be effective for the Company as of the beginning of fiscal year 2003. The Company expects to reclassify losses on extinguishment of debt that have been classified as an extraordinary item in prior periods presented.

In July 2002, the FASB issued Statement of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" (FAS 146), which nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". FAS 146 requires a liability for a cost associated with an exit or disposal activity be recognized and measured initially at its fair value in the period in which the liability is incurred. If fair value cannot be reasonably estimated, the liability shall be recognized initially in the period in which fair value can be reasonably estimated. In periods subsequent to the initial measurement, changes to the liability resulting from a revision to either the timing or the amount of estimated cash flows shall be recognized as an adjustment to the liability in the period of the change. The provisions of FAS 146 will be effective for the Company prospectively for exit or disposal activities initiated after December 29, 2002. The Company is in the process of assessing the impact of FAS 146 on its consolidated financial statements.

Factors Affecting Future Results

This document contains forward looking statements. You can identify these statements by forward looking words such as "may", "will", "expect", "anticipate", "believe", "estimate" and "continue" or similar words. You should read statements that contain these words carefully

because they discuss our future expectations, contain projections of our future results of operations or of our financial condition or state other "forward looking" information. We believe that it is important to communicate our future expectations to our investors. However, there may be events in the future that we are not able to accurately predict or control and that may cause our actual results to differ materially from those discussed as a result of various factors, including, but not limited to, our success in selecting and integrating business and technology we acquire, contaminations at our facilities, changes in the pharmaceutical or biotechnology industries, competition and changes in government regulations or general economic or market conditions. These factors should be considered carefully and readers should not place undue reliance on our forward looking statements. We are under no duty to update the forward looking statements after the date of this document or to conform these statements to actual results.
