PROXY STATEMENT

2007 Annual Meeting of Stockholders
June 20, 2007

GENERAL INFORMATION

This Proxy Statement and the accompanying Proxy Card are furnished in connection with the solicitation by the Board of Directors of Lakeland Industries, Inc. (the "Company") of proxies from the holders of the Company's \$0.01 par value Common Stock (the "Common Stock") for use at the 2007 Annual Meeting of Stockholders to be held on June 20, 2007, and at any adjournment thereof (the "Annual Meeting").

This Proxy Statement, the Notice of Annual Meeting of Stockholders, the Proxy Card and the Company's 2007 Form 10-K (which includes the Company's Annual Report to Stockholders) are first being sent to the Company's stockholders on or about May 9, 2007.

About the Annual Meeting

What is the purpose of the Annual Meeting?

At the Annual Meeting, stockholders will act upon the matters outlined in the accompanying notice of meeting, including the election of directors and the ratification of the board of directors' appointment of Holtz Rubenstein Reminick LLP. In addition, the Company's management will report on the performance of the Company during fiscal 2007 and respond to appropriate questions from stockholders.

Who is entitled to vote?

Only stockholders of record at the close of business on the record date, April 27, 2007, are entitled to receive notice of the annual meeting and to vote the shares of common stock that they held on that date at the meeting, or any postponement or adjournment of the meeting. Each outstanding share entitles its holder to cast one vote on each matter to be voted upon.

Please note that if you hold your shares in "street name" (that is, through a broker or other nominee), you will need to bring appropriate documentation from your broker or nominee to vote personally at the meeting.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date will constitute a quorum, permitting the meeting to conduct its business. As of the record date, 5,521,824 shares of common stock of the Company were outstanding. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting for purposes of determining the presence of a quorum. A "broker non-vote" occurs when a broker or other nominee indicates on the proxy card that it does not have discretionary authority to vote on a particular matter.

Index

How do I vote?

If you complete and properly sign the accompanying proxy card and return it to the Company, it will be voted as you direct. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. "Street name" stockholders who wish to vote at the meeting will need to obtain and vote a proxy from the institution that holds their shares. The Company has made proxy statements, proxies and annual reports available to the nominee institutions for delivery to "street name" stockholders.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may change your vote at any time before the proxy is exercised by filing with the secretary of the Company either a notice of revocation or a duly executed proxy, bearing a later date. The powers of the proxy holders will be suspended if you attend the meeting in person and so request, although attendance at the meeting will not by itself revoke a previously granted proxy.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth together with the description of each item in this proxy statement. The Board recommends a vote:

- 1) "For" election of the nominated slate of one Class III director; and
- 2) "For" ratification of the appointment of Holtz Rubenstein Reminick LLP, as the Company's independent public accountants for the fiscal year ending January 31, 2008.

With respect to any other matter that properly comes before the meeting, the proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

What vote is required to approve each item?

Election of Director. Assuming that a quorum is present, the affirmative vote of a plurality of the votes present in person or represented by proxy at the meeting is required for the election of directors. A properly executed proxy marked "WITHOLD AUTHORITY" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. Abstentions and broker non-votes will have no impact on the election of directors except to the extent failure to vote for an individual will result in another individual receiving a larger proportion of votes. The Company's certificate of incorporation does not provide for cumulative voting in the election of directors.

Ratification of Independent Auditors and Other Items. For the ratification of the independent auditors and any other item voted upon at the annual meeting, assuming that a quorum is present, and the affirmative vote of the holders of a majority of the shares present in person or represented by proxy will be required for approval. Abstentions will have the same effect as a negative vote. Broker non-votes will be treated as a vote not cast and will have no effect on the outcome of the vote.

Is my vote confidential?

Yes. It is our policy that all stockholder meeting proxies, ballots, and voting records that identify the vote of a particular stockholder are confidential. The vote of any stockholder will not be disclosed to any third party before the final vote count at the annual stockholders' meeting except: (i) to meet legal requirements; (ii) to assert claims for or

defend claims against the Company; (iii) to allow the inspectors of election to certify the results of the stockholder vote; (iv) if a proxy solicitation in opposition to the Board of Directors takes place; or (v) to respond to stockholders who have written comments on proxy cards or who have requested disclosure.

Index**Proposal 1****ELECTION OF DIRECTORS**
(Item 1 on Proxy Card)

Our Certificate of Incorporation provides for three classes of directors with staggered terms of office and provides that upon the expiration of the term of office for a class of directors, nominees for each class shall be elected for a term of three years to serve until the election and qualification of their successors or until their earlier resignation, death or removal from office. Our Certificate of Incorporation and our By-Laws also provide that each class of directors shall be nearly equal in number as possible and consistent with this rule that the Board shall allocate each newly created directorship to that of the available classes whose term of office is due to expire at the earliest date following such allocation. We currently have three Class I directors, three Class II directors and one Class III director. At the 2007 Annual Meeting there is one nominee for director in Class III. The incumbent Class I and Class II directors have one year and two years, respectively, remaining on their terms of office.

We have no reason to believe that the nominees will be disqualified or unable to serve, or will refuse to serve if elected. However, if a nominee is unable or unwilling to accept election, the proxies will be voted for such substitute as our Board of Directors may select. It is intended that the shares represented by proxies will be voted, in the absence of contrary instructions, for the nominee listed in Class III in the following table. The Board of Directors has nominated and Management recommends the election of the persons listed in the following table as Class III directors. The table also sets forth the names the three directors in Class I and Class II whose terms of office have not expired, their ages, their positions with the Company and the period each has served as a director of the Company. There are no family relationships among the Board members.

No officer or director is or has at any time been a defendant in any material legal proceeding involving bankruptcy, criminal activity, banking issues, commodities violations or securities issues.

Certain Relationships and Transactions

There are no transactions, or series of similar transactions, either during this fiscal year 2007 or currently proposed, to which the Company was or is to be a party, in which the amount involved exceeds \$60,000 and in which any director, nominee for director, executive officer, 5% stockholder or any immediate family member of any of the foregoing had, or will have, a direct or indirect material interest, other than Paul Smith, our Vice President of Sales, is the son of Raymond Smith the Chairman of the Board of Directors. Other than the relationship between Raymond Smith and Paul Smith there are no known family relationships between any of the Company's officers or directors.

Potential Anti-Takeover Effect

The Board of Directors has the authority, without further approval of our stockholders, to issue preferred shares (the "Preferred Shares") having such rights, preferences and privileges as the Board of Directors may determine. Any such issuance of Preferred Shares could, under certain circumstances, have the effect of delaying or preventing a change in control of the Company and may adversely affect the rights of holders of Common Stock. In addition, we are subject to Delaware statutes regulating business combinations, takeovers and control share acquisitions which might hinder or delay a change in control of the Company. Anti-takeover provisions that could be included in the Preferred Shares when issued and the Delaware statutes regulating business combinations, takeovers and control share acquisitions can have a depressive effect on the market price of our securities and can limit stockholders' ability to receive a premium on their shares by discouraging takeover and tender offer bids.

The Directors of the Company serve staggered three-year terms. Our Restated Certificate of Incorporation sets forth a provision that requires certain business combinations to be approved by at least two-thirds of the Company's voting securities, unless two-thirds of the members of the Board of Directors have approved the transaction, and further

requires approval of holders of two-thirds of the Company's voting shares to amend these provisions. In addition, our stockholders have authorized an Employee Stock Ownership Plan ("ESOP"). In the past, other companies have used similar plans to hinder or prevent a takeover situation. The Company has one contract with the CEO, Christopher J. Ryan that provides that in the event of a change in control he could receive up to two years' his annual base salary and bonus. The Company also had, for FY2007 but not included in the since-renewed contracts with the Chairman of the

Index

Board, Raymond Smith, and with Vice President Paul Smith, clauses in the contracts under which in the event of change of control they could receive up to twice their annual base salaries and bonuses. These factors could have an anti-takeover effect by making it more difficult to acquire the Company by means of a tender offer, a proxy contest or otherwise or the removal of incumbent officers and directors. These provisions could delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider in his or her best interest, including those attempts that might result in a premium over the market price for the Common Stock held by our stockholders.

Director Independence and Other Matters

The board of directors has determined each of the following directors to be an “independent director” as such term is defined in Rule 4200(a)(15) of the listing standards of the National Association of Securities Dealers or (“NASD”): John Kreft, John J. Collins, Eric O. Hallman, Stephen Bachelder, and Michael Cirenza.

The board has also determined that each member of the three committees of the board meets the independence requirements applicable to those committees prescribed by the NASD and the Securities and Exchange Commission (“SEC”). The board has further determined that Michael Cirenza, the Chairman of the Audit Committee, is an “audit committee financial expert”, as such term is defined in Items 401(h) and 407(d)(5) of Regulation S-K promulgated by the SEC.

Board Attendance

Each member of the Board of Directors is expected to make a reasonable effort to attend all meetings of the Board of Directors, all applicable committee meetings, and each annual meeting of shareholders. While no formal policy with respect to attendance has been adopted, attendance at these meetings is encouraged and expected. All members of the Board of Directors attended the June 2006 Annual Meeting of Shareholders and each of the current members of the Board of Directors is expected to attend the June 20, 2007 Annual Meeting of Shareholders. During fiscal 2007, the Board of Directors met on five occasions. All directors attended at least seventy-five percent of the aggregate number of meetings of the Board and Board committees on which they served.

the Board from time to time the appropriate skills and characteristics required of Board members in the context of the current size and make-up of the Board. needs of the Board at a particular point in time. As a result, the priorities and emphasis of the Nominating Committee and of the Board may change from time to time to take into account changes in business and other trends, and the portfolio of skills and experience of current and prospective Board members. Therefore, while focused on the achievement and the ability of potential candidates to make a positive contribution with respect to such factors, the Nominating Committee has not established any specific minimum criteria or qualification that a nominee must possess. The Nominating Committee establishes procedures for the nomination process, recommends candidates for election to the Board and also nominates officers for election by the Board.

The Nominating Committee will consider nominees to the Board recommended by stockholders. Such recommendations must be in writing and sent to our Secretary no later than January 31st of the calendar year in which the Annual Meeting is to be held, accompanied by a detailed description of the proposed nominee's principal occupation and his or her other qualifications which, in the stockholder's opinion, make such a person a suitable candidate for nomination to the Board. The Committee met one time during the year ended January 31, 2007. The nominating committee operates under a written charter that may be amended by the Board at any time. A current copy of the nominating committee's charter is available on the Company's website at www.lakeland.com.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that we specifically incorporate this Report by reference therein.

During the winter of 2000, the Audit Committee of the Board of Directors developed a charter for the Committee, which was approved by the full Board of Directors on June 21, 2000. The complete text of this charter, which reflects standards set forth in the regulations of the SEC and NASDAQ rules, is for your information reproduced in Appendix A in this Proxy Statement.

As set forth in more detail in the charter, the Audit Committee's primary duties and responsibilities fall into three broad categories:

First, the Committee serves as an independent and objective party to monitor our financial reporting process and internal control system;

Second, the Committee is responsible for reviewing and appraising the audit efforts of our independent accountants and internal auditing department; this includes matters concerning the relationship between the Company and its outside auditors, including recommending their appointment or removal; reviewing the scope of their audit services and related fees, as well as any other services being provided to us and determining whether the outside auditors are independent (based in part on the annual letter provided to us pursuant to Independence Standards Board Standard No. 1); and

Third, to provide an open avenue of communication among the independent accountants, financial and senior management, and the Board of Directors.

The Committee has implemented procedures to ensure that during the course of each fiscal year it devotes the attention that it deems necessary or appropriate to each of the matters assigned to it under the Committee's charter. To carry out its responsibilities, the Committee met five times during the year ended January 31, 2007.

In overseeing the preparation of our financial statements, the Committee met with both management who has the primary responsibility for the financial statements, the reporting process and the systems of internal control, and our outside auditors who are responsible for expressing an opinion on the conformity of our audited financial statements under generally accepted auditing standards, and reviewing and discussing all financial statements under generally accepted auditing standards, and reviewing and discussing all financial statements prior to their issuance and to discussing significant accounting issues. Management advised the Committee that all financial statements were prepared in accordance with generally accepted accounting principles, and the Committee discussed the statements with both management and the outside auditors. The Committee's review included discussion with the outside auditors of matters required to be discussed pursuant to Statement on Auditing Standards No. 61 and No. 90, "Communication with Audit Committees", as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

With respect to our outside auditors, the Committee, among other things, discussed with Holtz Rubenstein Reminick, LLP matters relating to its independence, including the disclosures made to the Committee and received written disclosure and the letter from the independent auditors as required by the Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees", as adopted by the Public Company Accounting Oversight Board in Rule 3600T.

The Audit Committee includes at least one independent director who is determined by the Board to meet the qualifications of an “audit committee financial expert” in accordance with SEC Rules. Michael E. Cirenza is the independent director who has been determined to be an audit committee financial expert. Stockholders should

understand that this designation is an SEC disclosure requirement related to Mr. Cirenza's experience and understanding with respect to certain accounting and auditing matters. The designation does not impose on Mr. Cirenza any duties, obligations or liability that are greater than those that are generally imposed on him as a member of the Audit Committee and the Board, and his designation as an audit committee financial expert pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the Audit Committee.

On the basis of these reviews and discussions, the Committee recommended to the Board of Directors that the Board approve the inclusion of our audited financial statements in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2007, for filing with the SEC. The Committee and the Board have also recommended the selection of our independent auditors.

Proposal 2

RATIFICATION OF AUDITORS

(Item 3 on Proxy Card)

The Board of Directors, on the recommendation of the Audit Committee, has appointed the firm Holtz Rubenstein Reminick LLP (hereinafter referred to as "HRR") as our registered public accounting firm for the fiscal year ending January 31, 2008 and recommends that the stockholders vote "FOR" ratification of such appointment. It is expected that a representative of HRR will be present at the Meeting and will have the opportunity to make a statement and will be available to respond to appropriate questions.

Stockholder ratification of the appointment of HRR as our registered public accounting firm is not required by our by-laws or other applicable legal requirement. However, the Board is submitting the appointment of HRR to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the appointment, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the appointment is ratified, the Board may direct the appointment of a different independent accounting firm at any time during the one year period if it determines that such a change would be in our best interests and in the best interests of our stockholders.

Ratification of the appointment of auditors requires a majority of the votes cast thereon. Abstentions with respect to this proposal have the same effect as a vote against the proposal. Broker non-votes with respect to this proposal will not be counted with regard to this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE "FOR" RATIFICATION OF THE APPOINTMENT OF HOLTZ RUBENSTEIN REMINICK LLP AS OUR INDEPENDENT PUBLIC ACCOUNTANTS.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Committee. The Compensation Committee of the board of directors (the “Committee”) assists the board of directors of the Company in discharging its responsibilities relating to compensation of the Company’s executive officers and supervision of the Company’s Restricted Stock and 401-K Plans. The Committee reports to the board of directors and is responsible for:

- developing guidelines for, and reviewing the compensation and performance of, the Company’s executive officers;
- evaluating the executive officers’ performance in light of these goals and objectives; and
- making recommendations to the board of directors regarding the management contracts of executive officers when they are proposed or renewed.

The Committee also is responsible for approving the compensation of the Chief Executive Officer.

Compensation Philosophy and Objectives. The Company seeks to pay its executive officers total compensation that is competitive with other companies of comparable size and complexity. Generally, the types of compensation and benefits provided to the Chief Executive Officer and other executive officers are comparable to those provided to other executive officers of small cap, publicly traded and similarly sized companies in the industry in which the Company operates.

The compensation policies of the Company are designed to:

- attract, motivate and retain experienced and qualified executives,
- increase the overall performance of the Company,
- increase stockholder value, and
- incentivize the executive officers to achieve the highest level of Company financial performance.

While the Company seeks to maintain competitive compensation arrangements for its executives, it also strongly believes that the competitiveness of the compensation packages should be based on the total compensation achievable by the executive officers and that a large portion of that compensation should be linked to the performance of the Company. Accordingly, the executive compensation packages provided to the Chief Executive Officer and the other executive officers are structured to include, among other things and in addition to base salary and fringe benefits, equity incentives. A reasonable portion of the compensation packages for executive officers is in the form of Restricted Stock grants, which are intended to provide incentives to executive officers to achieve long-term growth in the price of the Company’s common stock and additionally annual cash bonus opportunities, which are intended to reward executive officers for meeting annual financial performance goals. Overall compensation levels are set such that, for executive officers to achieve a competitive compensation level, there must be both growth in the market price of the Company’s common stock, growth in the Company’s earnings and revenues at rates that equal or exceed the recent growth rate of the Company’s earnings and revenues and the determination that such goals have been met and merit pay-outs pursuant to the incentive-portion of the overall compensation rests with the Committee.

The Committee believes that executive officer compensation should seek to align the interests of executives with those of the Company's stockholders, by seeking to reward long-term growth (not short term) in the value of the Company's common stock and to reward the achievement of annual financial goals by the Company. The incentive components of compensation, Restricted Stock grants and annual cash bonuses, for executive officers are linked to corporate financial performance as well as individual goals. This is intended to keep the executive team focused on the core goal of overall corporate performance.

Index

When setting or recommending compensation levels, the Committee considers the overall performance of the Company, the individual performance of each the executive officers, and their individual contributions to and ability to influence the Company's performance, and also seeks to encourage teamwork amongst the executives. The Committee believes that the level of base salaries plus bonuses and Restricted Stock grants, and fringe and other benefits, of executives should generally be maintained to compete with other public and private companies of comparable size and complexity. The Committee bases its determinations on a variety of factors, including the personal knowledge of market conditions that each member of the Committee has gained in his own experience managing businesses, salary surveys available to the Company, the knowledge of the Chief Executive Officer and other executives as to local market conditions, and information learned regarding the compensation levels at other small cap companies in the industrial apparel industry and other similarly sized businesses. The Committee periodically evaluates the types and levels of compensation paid by the Company to ensure that it is able to attract and retain qualified executive officers and that their compensation remains comparable to compensation paid to similarly situated executives in comparable companies.

The following describes in more specific terms the elements of compensation that implement the compensation philosophy and objectives described above, with specific reference to compensation earned by the named executive officers for FY2007.

Base Salaries. Base salaries of executive officers are determined at the time a person initially becomes an executive officer by evaluating the responsibilities of the position, the experience and knowledge of the individual and the competitive marketplace at that time for executive talent, including a comparison to base salaries for comparable positions (considered in the context of the total compensation paid by such companies). Salaries are reviewed from time to time thereafter, generally in connection with the expiration of employment agreements or when other considerations warrant such consideration in the discretion of the Committee and board of directors, considering the foregoing factors as well as the executive's performance and the other factors considered in setting total compensation described above.

When salary adjustments are considered, they are made in the context of the total compensation for executive officers, consistent with the core principles discussed earlier in this Compensation Discussion and Analysis. In each case, the participants involved in recommending and approving salary adjustments, consider the performance of each executive officer, including consideration of new responsibilities and the previous year's corporate performance. Individual performance evaluations take into account such factors as achievement of specific goals that are driven by the Company's strategic plan and attainment of specific individual objectives. The factors impacting base salary levels are not assigned specific weights but are considered as a totality, against the backdrop of the Company's overall compensation philosophy, and salary adjustments are determined in the discretion of the Committee and the board of directors. All base salaries paid in FY2007 were set in prior years; no base salary adjustments were made in FY2007, for those executive officers under contract.

Bonuses. The Company has historically paid annual bonuses to its executive officers based on corporate performance, as measured by reference to factors which the Committee believes reflect objective performance criteria over which management generally has the ability to exert some degree of control with the exception of Harvey Pride, the Sr. VP of Manufacturing, all cash bonuses are at the discretion of the Committee. Mr. Pride's cash bonuses, although at the discretion of the Committee, have specifically emphasized cost savings and expense reduction of the business areas he oversees.

Index

Restricted Stock Grants. A third component of executive officers' compensation is grants of Restricted Shares of common stock issued pursuant to the 2006 Equity Incentive Plan. The Committee or the full Board of Directors grants Restricted Stock to the Company's executives in order to align their interests with the interests of the stockholders. In FY2007, option grants to the Company's directors and executive officers were made by the full Board of Directors. Stock grants are considered by the Company to be an effective long-term incentive because the executives' gains are linked to increases in stock value, which in turn provides stockholder gains. Restricted Stock is granted to executive officers in accordance with the terms of the 2006 Equity Incentive Plan approved by the Company's shareholders in FY06. The full benefit of the Restricted Stock grants is realized only as a result of appreciation of the stock price in future periods, thus providing an incentive to create value for the Company's stockholders through appreciation of stock price. The vesting schedule for the Restricted Stock granted to executive officers is three years, which the Company believes makes the grants a more effective retention incentive.

Restricted Stock grants made to the executive officers in FY2007 reflect the significant individual contributions they are expected to make to the Company's operations and implementation of the Company's development and growth programs, and the amounts of such grants were determined based on the same considerations discussed above in the context of setting salaries and annual bonuses. The amount of Restricted Stock granted is not tied to a formula or comparable company target ranges, but rather determined periodically in the discretion of the Committee and the Board of Directors consistent with the compensation philosophy described above.

Setting Executive Compensation. Base salaries and other compensation for the Chief Executive Officer and other executive officers are set by the Committee and reflect a number of elements including recommendations by Mr. Ryan as to the other executive officers based on evaluation of their performance and the other factors described above. The Committee works closely with Mr. Ryan in establishing compensation levels for the other executive officers. Mr. Ryan and the individual executive typically engage in discussions regarding the executive's salary, and Mr. Ryan reports on such discussions and makes his own recommendations to the Committee. The Committee will separately discuss with Mr. Ryan any proposed adjustment to his own compensation. The Committee reports to the board of directors on all proposed changes in executive compensation, after it has formed a view on appropriate adjustments, and makes recommendations for consideration of the board for the Chief Executive Officer and the other executive officers. The Committee considers such recommendations and, thereafter, sets the compensation level for Mr. Ryan, and for the other executive officers. Salary levels and other aspects of compensation for executive officers historically have been set forth in employment agreements having terms of two years.

The Committee is charged with the responsibility for approving the compensation package for the Chief Executive Officer. The Chief Executive Officer is not present during voting or deliberation on his performance or compensation.

In recognition of the Company and its acquisition of Mifflin, its entrance into more complex international production and into new product markets, a comprehensive review of the executive compensation program for the Chief Executive Officer and other executive officers was undertaken beginning in August of 2005. The Committee retained the services of Shareholder Value Adviser, Inc. to review the principal elements of the compensation packages. The review was intended to recognize what other public companies of Lakeland's size and scope paid comparable executive, the added complexity of managing the Company resulting from its international growth, and to suggest by comparison appropriate incentives to achieve the increased business goals set by the Company for its new markets. The Committee also considered the additional expense associated with restricted stock grants. At present, no services are rendered to the Company by Shareholder Value Adviser, Inc.

The board of directors or the Committee can exercise the right to modify any recommended adjustments or awards to the executive officers.

Retirement Benefits. The Company does not provide any retirement benefits to its executive officers, other than matching a portion of employee contributions to a 401-K plan. This benefit is generally available to all employees of the Company.

Index

Employment Agreements. The Company currently enters into employment agreements with its executive officers because it generally believes that, in respect of key executive officers, there is a significant value in its competitive markets to setting out compensation and fringe benefit expectations in a writing, maintaining appropriate non-competition, non-solicitation of employees and confidentiality agreements with key executives, and agreeing in advance on post-termination payments and other obligations. These employment agreements are described in more detail under the caption "Employment Agreements."

Taxation and Accounting Matters.

The Committee considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to certain individuals. Generally, the Company expects that compensation paid to its executive officers will be fully deductible for federal income tax purposes. However, in certain situations, the Company may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers.

Index**COMPENSATION COMMITTEE REPORT**

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis included in this proxy statement. Based on this review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's proxy statement for its 2007 Annual Meeting of Stockholders.

The disability, life (\$13,575), 401-K plan contributions (\$6,338) and car allowance (\$13,548) and other fringe benefits were valued at \$33,461 in FY07.

If Mr. Smith were to terminate his employment agreement for “good reason” or the Company were to terminate his employment “without cause”, Mr. Smith, within 10 days, is entitled to a lump sum amount equal to (a) his pro-rata portion of any annual bonus, (b) the present value of three times his base salary and (c) base salary for the remainder of the term applying a 6% discount factor. In addition, he would continue to receive all benefits for the remainder of the term of his employment agreement or one year, whichever is greater, subject however to COBRA rules and regulations.

If Mr. Smith’s employment were terminated “for cause” or if he voluntarily resigned without “good reason”, he would be paid within 30 days that portion of his base salary and all fringe benefits under his contract that were due as of the date of his termination.

“For Cause” is defined as the conviction or entry of a plea of nolo contendere to a felony charge involving moral turpitude, gross negligence in performing duties or responsibilities (other than incapacity) or commission of an act of fraud, embezzlement, or gross neglect of duty. “Good Reason” is defined as the assignment of any duties materially and adversely inconsistent with his position or duties, the liquidation or dissolution of the Company, any material breach by the Company of Mr. Smith’s employment contract, or the relocation of corporate headquarters outside of Ronkonkoma, N.Y.

CHANGE IN CONTROL PROVISIONS

Mr. Raymond Smith (Chairman of the Board) and Mr. Paul Smith (Vice President) each have change in control provisions in their contracts. A change in control is defined as any person or group becoming directly or indirectly, the beneficial owner of 50% or more of the Company's then outstanding securities or upon the disposition of the Company of all or substantially all of the Company's business and or assets.

In such event, each of such persons has the right to terminate his contracts within 30 days, and he shall be entitled to receive a lump sum severance payment equal to the greater of the present value (using a discount factor of 6%) (i) the balance of his base salary during the term of his contract, plus his estimated annual bonus for the fiscal year in which such termination occurs, or (ii) two times his base salary, plus estimated bonuses, such bonuses to be determined in good faith by the Compensation Committee.

Failure to obtain such agreement prior to the effectiveness of any such succession entitles Mr. Ryan to terminate his employment agreement at his option on or after the Triggering Transaction Date for "good reason".

In such event, Mr. Ryan is entitled to receive, for the remainder of the contract, his then current annual base salary, his current target bonus and any benefits that would have been paid to him had he remained in the Company's employ throughout the contract term, provided that in all cases he shall receive at minimum the then current annual base salary, current target bonus and benefits for the remainder of the contract period, or for a period beginning on the date of termination and ending two years thereafter, whichever is longer.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Related Party Transactions

It is the Company's policy that directors, officers and any other person that is a related person within the meaning of SEC regulations are required to report any related party transactions to the Chief Executive Officer. All such transactions also are required to be reported to the Audit Committee, which, with the assistance of legal counsel and such other advisors as it deems appropriate, is responsible for reviewing and approving or ratifying any related party transaction. The Audit Committee intends to approve only those related party transactions that it believes are in, or not inconsistent with, the best interests of the Company. A written policy to this effect has been adopted by the board of directors. A related party transaction is defined as any transaction in which (1) the Company is a participant, (2) any related person has a direct or indirect material interest and (3) the amount involved exceeds \$15,000, but excludes any transaction that does not require disclosure under Item 404(a) of Regulation S-K. A related person is:

- an executive officer, director or director nominee of the Company;
- any person who is known to be the beneficial owner of more than 5% of the Company's common stock;
- any person who is an immediate family member (as defined under Item 404 of Regulation S-K) of an executive officer, director or director nominee or beneficial owner of more than 5% of the Company's common stock; and
- any firm, corporation or other entity in which any of the foregoing persons is employed or is a partner or principal or in a similar position or in which such person, together with any other of the foregoing persons, has a 5% or greater beneficial ownership interest.

In addition, every quarter, a report maintained by the Company's accounting staff is reviewed and approved by the Chief Executive Officer and Chief Financial Officer. The Audit Committee of the Board of Directors conducts an annual review of all transactions between related parties and the Company.

Related Party Leases

On March 1, 1999, we entered into a one year (renewable for four additional one year terms) lease agreement with Harvey Pride, Jr., our Vice President of Manufacturing, for a 2,400 sq. ft. customer service office located next to our existing Decatur, Alabama facility. We paid an annual rent of \$18,000 for this facility under the lease agreement in fiscal 2004 and 2005. This lease was renewed on March 1, 2004 through March 31, 2009 at the same rental rate.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16 (a) of the Securities Exchange Act of 1934 (the "Exchange Act"), requires the Company's directors, officers and beneficial owners of more than 10% of the Common Stock to file with the SEC initial reports of ownership of the Company's equity securities and to file subsequent reports when there are changes in such ownership. Officers, directors and beneficial owners of more than 10% of the Common Stock are required by SEC regulations to furnish the Company with copies of all Section 16(a) reports they file. Based solely on our review of the copies of such sales reports furnished to us by our directors and officers during and with respect to FY07, or upon written representations that no other reports were required, the Company believes that all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% beneficial owners were satisfied.

Based upon a review of Forms 3, 4, and 5 furnished to the Company during or with respect to the preceding fiscal year and written representations from certain reporting persons, we were not aware of any failure by a reporting person to make timely filings of those Forms as required by Section 16(a) of the Securities Exchange Act of 1934.

AUDIT COMMITTEE CHARTER**

Membership

The Audit Committee will be composed of not less than three members of the Board. They will be selected by the board, taking into account prior experience in matters to be considered by the committee, probable availability at times required for consideration of these matters, and their individual independence and objectivity.

The committee membership will meet the requirements of the audit committee policy of the NASDAQ Independent Director and Audit Committee Requirements. Accordingly, all of the members will be directors independent of management and free from any relationship that, in the opinion of the Board of Directors, would interfere with the exercise of independent judgment as a committee member.

No officers or employees of the company or its subsidiaries will serve on the committee. A former officer of the company or any of its subsidiaries may serve on the committee (even though the former officer may be receiving pension or deferred compensation payments from the company) if, in the opinion of the board of directors, the former officer will exercise independent judgment and will materially assist the committee's function. However, a majority of the committee will be directors who were not formerly officers of the company or any of its subsidiaries.

In considering relationships that might affect independence, including possible affiliate status, the board of directors will give appropriate consideration to guidelines issued by the NASDAQ as supplementary material to its audit committee policy, which were provided to assist boards of directors in observing the spirit of the policy.

The activities of the committee may result in the following types of actions.

- a. Those in which the committee will inform the board that action has been taken in the board's interest and does not require prior Board approval.

**LAKELAND INDUSTRIES, INC.
CODE OF ETHICS
FOR DIRECTORS, OFFICERS AND EMPLOYEES.**

Introduction

For the past several years, the activities of business organizations, both large and small, have been the subject of increased scrutiny and criticism by the public, the government, and the news media.

This is particularly true of multinational corporations, which have been the object of worldwide demands for public statements of their corporate codes of ethics.

For that reason, it is appropriate for Lakeland Industries, Inc. to restate its position on ethical conduct, based on the original precepts of the business and on policies formulated as the corporation has grown.

As a good corporate citizen, Lakeland Industries, Inc. has always endeavored to conduct its business in a manner conforming to the highest ethical standards. The company's reputation for unquestionable integrity is its most valuable asset in its relationships with its customers, employees, shareholders, and the communities in which its plants are located.

The following statement of business principles has been prepared to guide the future conduct of company activities in an ethical and legal manner. It is not intended to supply answers for every business activity; rather, it is an effort to reiterate the continuing policies of the corporation on ethical business behavior, which must be observed by all Lakeland Industries, Inc. employees and representatives throughout the world. It is essential that all employees and representatives conform to these principles as they perform their activities on behalf of Lakeland Industries, Inc.

Lakeland and its employees

Employees are the corporation's greatest asset, and it is a Lakeland Industries, Inc. policy to treat them fairly in all matters and to pay them competitively.

Lakeland and its domestic subsidiaries are engaged in a program of full compliance with all federal and state laws applicable to hiring and promoting people on the basis of demonstrated ability, experience, and training without regard to race, religion, sex age, national origin, or other factors requiring affirmative action. The corporation requires continuous management attention at all corporate levels to assure compliance with the spirit and letter of this policy.

With this in mind, it is the intent of Lakeland to:

Choose its employees on the basis of their ability to perform the work for which they are hired without regard to race, religion, sex, age, national origin, or other factors requiring affirmative action.

Offer employees a safe, healthy, and clean work environment.

Offer work that challenges the employees and gives them a feeling of satisfaction.

Pay employees fairly in relation to their contributions to the company's efforts, within the boundaries of current standards.

Lakeland and the Community

The corporation shall conduct its business in a manner that is socially responsible. In addition to manufacturing and selling products, it shall protect the quality of the environment and endeavor to conserve energy and other valuable resources.

Index

Each of the corporation's facilities is expected to make every effort to be an integral part of the community in which it operates, and to participate in its activities as a concerned and responsible citizen. Like individual citizens, it benefits from such activities as health, welfare, character building, education, and culture. And like individuals, it has the responsibility to support and develop these social and civic activities.

The company recognizes that employee participation in cultural, social or volunteer organizations can be public service of a higher order, and all Lakeland employees are encouraged to participate in public activities of their individual choice.

Lakeland and its Customers

The corporation shall endeavor to supply its customers with quality products, delivered on schedule and sold at a fair price. Lakeland products will be manufactured to the company's high quality standards and will offer customers all the technical skills of its employees and the expertise of Lakeland technology and know-how.

Lakeland and the Law

It is the policy of Lakeland to comply fully with all valid laws and regulations that govern its operations in the various communities, states and countries in which it operates and to conduct its affairs in keeping with the highest moral, legal and ethical standards.

There is an obligation, both corporate and individual, to fulfill the intent of the above statement. It is not expected that every employee will have full knowledge of the laws affecting his or her responsibilities. The company does, however, expect that employees with significant responsibilities will have a general knowledge of prohibited activities involved in their work and will seek guidance on any matter on which there is a question, either directly from the corporation's legal department or through their supervisors.

Honesty is not subject to equivocation at any time in any culture, and even where the law may be permissive; your corporation chooses to follow the course of highest integrity. The reputation of the company for scrupulous dealing is a priceless asset, just as it is for individuals. The intent of these principles is to maintain and develop the corporation's reputation in the future as it has in the past.

Lakeland and Business Ethics

The law is a base for ethical business conduct which should normally be at a level well above the minimum required by law. In its relationships with customers, the corporation will offer the same advantages to all and will be fair in all its endeavors. Gifts or bribes for the purpose of influencing the buying decisions of employees of customers or potential customers or persons in a position to influence a buying decision are clearly improper and prohibited.

In dealing with suppliers, an employee shall not solicit, accept, or countenance payments or substantial gifts, regardless of motive, from either a vendor or a potential vendor.

In its relationships with its competitors, the corporation and its employees will fully understand and strictly adhere to the requirements of the antitrust laws. These laws, which, in the United States, include the Sherman Act, Clayton Act, Robinson-Patman Act, and Federal Trade Commission Act, seek to advance and maintain the free enterprise system and take precedence over any business objective of the corporation, notwithstanding any resulting increases in sales or profits.

Such acts as price-fixing, restrictive agreements, boycotts, tie-in arrangements exclusive of reciprocal dealings, monopolizing, price inducements, and discriminatory allowances are or may be illegal. All employees shall scrupulously avoid violations of the antitrust laws. The corporation will not condone any

B-2

Index

actions which an employee knew or should have known would violate the antitrust laws or any other valid law or regulation.

The corporation and its units shall make no financial contributions to a political party or to a candidate running for any elective office. This policy applies to all political parties or candidates worldwide, even when permitted by local law. Payments, regardless of amount, to any government employee, or gifts or services of substantial value or lavish entertainment, regardless of motive, are prohibited.

Relationships with public employees shall be so conducted that neither the officials nor the company's integrity would be compromised if the full details of the relationship became a matter of public knowledge.

Lakeland and Conflicts of Interest

It has always been, and continues to be, the corporation's intent that its employees maintain the highest standards of loyalty in their conduct of company affairs. In essence, company employees shall deal with suppliers, customers, and other persons doing business or seeking to do business with the corporation in a manner that eliminates considerations of personal advantage.

Because they hold positions of trust in the corporation, a director, an officer, or any employees may not make a profit from the corporation because of their official position. They are also clearly prohibited from engaging in a competing business.

In addition to the legal responsibility of the directors and officers, it is the duty of all employees to act in the best interests of the corporation and to avoid situations which might produce a conflict between their own interests and those of the corporation. Employees shall have no financial interest in any firm doing business with or seeking to do business with the corporation, nor shall they accept employment outside the company which may result in a conflict of interest, unless same is fully disclosed and approved by a disinterested group of officers and/or directors.

Enforcement and Protection for Reporting Persons

Any director, officer or employee can report, anonymously, if they want, violations of the above Code of Ethics directly to Michael Cirenza an independent director and member to our Audit Committee. Mr. Cirenza will then inform the other independent directors Messrs. Hallman, Collins, Bachelder and Kreft and they will determine whether a violation has occurred, according to the standards outlined above, hold a formal meeting, if required, to question the officer, employee or director reported, and if necessary recommend a disciplinary remedy, termination, or notify the appropriate legal authorities. The reporting contact is Michael Cirenza, Partner, Anchin, Block & Anchin, LLP, 1375 Broadway, New York, NY 10018, Tel. # 212-536-6805; e-mail: Michael.cirenza@anchin.com.
