# MIDDLESEX WATER COMPANY ANNOUNCES FIRST QUARTER RESULTS

ISELIN, NJ, (May 8, 2007) Middlesex Water Company, (NASDAQ:MSEX), a provider of water and wastewater and related services in New Jersey and Delaware, today announced that operating revenues for the quarter ended March 31, 2007 increased \$0.8 million, from the same period in 2006.

#### **First Quarter Operating Results**

Consolidated operating revenues for the quarter rose 4.2% from the same period in 2006, largely due to customer growth and rate relief in our Delaware service territories. First quarter results reflect an additional \$0.5 million of revenues due to the implementation of a 15% interim rate increase in June 2006 and a 12% additional increase granted February 28, 2007 to our Delaware subsidiary, Tidewater Utilities, Inc. Customer growth contributed \$0.3 million of revenues. Consumption revenues in our Middlesex system were lower by \$0.1 million. This decline was offset by revenue increases in our other subsidiaries.

Operation and maintenance expenses for the three months ended March 31, 2007 increased \$0.8 million or 7.6%, compared to the same period in 2006 with labor and benefit costs accounting for \$0.6 million of the increase. Continued growth of our Delaware systems required additional personnel, while severe winter weather-related system repairs resulted in increased overtime costs in New Jersey. All other operation expenses increased \$0.2 million. Depreciation expense increased \$0.2 million, or 10.6%, primarily as a result of a higher level of utility plant in service since March 31, 2006.

"As expected, we are beginning to realize the full effect of rate decisions received in 2006 and 2007, and continue to see the impact of customer growth in our Delaware operations," said Dennis W. Doll, president and chief executive officer. "We remain diligent about obtaining timely rate relief for continued capital investment and other cost considerations. In that regard, we filed for an \$8.9 million, or 16.5%, rate increase for our Middlesex system in New Jersey on April 18<sup>th</sup>. We have continued to lay a foundation for further expansion of our water and wastewater services. We have now assumed partial operation of the wastewater treatment

facilities of the Town of Milton as part of our contract to purchase that system and we have now received all regulatory approvals to operate as a regulated water and wastewater utility in Maryland. As growth in both the regulated water and wastewater businesses is dependent upon economic conditions surrounding new housing as well as developer construction timetables, we continue to explore additional opportunities that showcase to developers, municipalities and others, our portfolio of capabilities offering a full complement of technical, operational and management skills," added Doll.

Middlesex Water reported earnings applicable to common stock of \$1.71 million, or \$0.13 per basic share, for the quarter ended March 31, 2007, compared with \$1.75 million, or \$0.15 per basic share, in 2006. On a fully diluted basis, earnings per share was \$0.13 for 2007, compared to \$0.15 per share for the same period in 2006. Basic and diluted earnings per share decreased due to the higher number of shares outstanding. Middlesex sold and issued 1.5 million shares of its common stock in November 2006. Net income decreased by less than \$0.1 million.

#### **Board Declares Quarterly Dividend**

The Company's Board of Directors declared a quarterly cash dividend of \$0.1725 per share, payable June 1, 2007 to common shareholders as of May 15, 2007. The Company has paid cash dividends in varying amounts continually since 1912. Middlesex Water has a Dividend Reinvestment Plan under which dividends and optional cash payments can be used to purchase additional shares of Common stock.

#### **Annual Shareholders Meeting**

Middlesex Water will host its annual meeting of shareholders on Wednesday, May 23, 2007 beginning at 11:00 EDT at its corporate headquarters in Iselin, NJ.

## **About Middlesex Water Company**

Middlesex Water Company, organized in 1897, is an investor-owned water utility, serving customers in central and southern New Jersey and in the State of Delaware. The Company and its New Jersey subsidiaries – Pinelands Water Company and Pinelands Wastewater Company—are subject to the regulations of the Board of Public Utilities of the State of New Jersey. Middlesex Water operates the water and wastewater utilities for the City of Perth Amboy through its subsidiary, Utility Service Affiliates (Perth Amboy), Inc. Middlesex Water also provides contract operations services and a service line maintenance program through its non-regulated subsidiary, Utility Service Affiliates, Inc. The Company's regulated Delaware

subsidiaries, Tidewater Utilities, Inc., together with Southern Shores Water Company, and Tidewater Environmental Services, Inc. (TESI) are subject to the regulations of the Public Service Commission in Delaware. TESI provides regulated wastewater utility services. White Marsh Environmental Systems, Inc. operates small water and wastewater systems under contract on a non-regulated basis in Delaware. These companies are also subject to various Federal, State and regulatory agencies concerning water and wastewater effluent, quality standards.
