SDRL - Seadrill Limited closes the tender rig T-16 transaction

Hamilton, Bermuda, October 21, 2013 - We refer to the press release dated October 11, 2013, which announced the transaction to sell the T-16 tender rig.

Seadrill Limited has completed the previously announced transaction to sell the T-16 tender rig to Seadrill Partners with effect from October 18, 2013.

The agreed upon sale is for a total price of US\$200 million, less approximately US\$93 million of debt outstanding under the credit facility secured by the T-16. Seadrill Limited has therefore sold the company that owns the T-16 in exchange for approximately US\$107 million in unregistered common units that Seadrill Partners has issued to Seadrill Limited.

This information is subject of the disclosure requirements pursuant to section 5-12 of the Norwegian Securities Trading Act.

SDRL - Seadrill Limited agrees to acquire high specification jack-up Prospector 3

Hamilton, Bermuda, November 15, 2013 - Seadrill Limited announced today that it has entered into an agreement to acquire the company that owns the yard construction contract of the newbuild high specification jack-up rig Prospector 3 from Prospector Offshore for a total purchase price of US\$235 million. In addition, Seadrill will provide drilling and handling tools, spares and operations preparations resulting in a total cost for this rig, ready to drill, of approximately US\$250 million.

The Prospector 3 is scheduled to be delivered from Dalian Shipbuilding Industry Offshore Co., Ltd. (DSIC Offshore) in China during the first quarter of 2014. The new unit is based on the F&G JU2000E design, with water depth capacity of 400ft and drilling depth of 35,000ft.

The agreement with Prospector is subject to approval by DSIC Offshore.

The lack of premium jack-up newbuild activity over the last decade is beginning to be felt and demand is currently exceeding available supply. The tightness in the market is leading many customers to contract these units for significantly longer terms than previously experienced for this asset class. The Board of Seadrill continues to be of opinion that the premium jack-up market provides a compelling investment opportunity.
