Item 8.01 Other Events

In August 2005, Hurricane Katrina hit the Gulf Coast of the United States and caused significant damage within the service area of Mississippi Power Company (Mississippi Power), a wholly-owned subsidiary of The Southern Company (Southern Company). See MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - PSC Matters - Storm Damage Cost Recovery of Southern Company and Mississippi Power in Item 7 and Note 3 to the financial statements of Southern Company under Storm Damage Cost Recovery and Note 3 to the financial statements of Mississippi Power under Retail Regulatory Matters - Storm Damage Cost Recovery in Item 8 of each registrant's Annual Report on Form 10-K for the year ended December 31, 2005 and MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - FERC and State PSC Matters - Storm Damage Cost Recovery of Southern Company and MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - FERC and Mississippi PSC Matters - Storm Damage Cost Recovery of Mississippi Power and Note (I) to the financial statements of Southern Company and Mississippi Power in each registrant's Quarterly Report on Form 10-Q for the quarter ended June 30, 2006.

As directed by the Mississippi Public Service Commission (Mississippi PSC), in September 2006, Mississippi Power filed an application with the Mississippi Development Authority (MDA) for a Community Development Block Grant (CDBG), the proceeds of which will be used to significantly mitigate the impact of the cost of storm restoration upon Mississippi Power's customers. On October 30, 2006, Mississippi Power received from the MDA a CDBG in the amount of \$276.4 million. Of this amount, \$267.6 million will be applied to Mississippi Power's retail storm restoration costs, with the remainder applied to wholesale storm restoration costs.

Edgar Filing: MISSISSIPPI POWER CO - Form 8-K

The Mississippi PSC has certified total storm restoration costs of \$302.4 million, of which \$292.8 million applies to Mississippi Power's retail jurisdiction. On October 27, 2006, the Mississippi PSC issued a financing order authorizing the issuance of \$121.2 million of system restoration bonds through a state bond program previously approved by the Mississippi legislature, the proceeds of which are to be applied to (1) the retail portion of Mississippi Power's storm restoration costs that were not covered by the CDBG (\$25.2 million), (2) Mississippi Power's property damage reserve (\$60 million) and (3) the retail portion of construction of a storm operations facility (\$36 million). Pursuant to the financing order, the system restoration bonds are to be issued by the Mississippi State Bond Commission and will be obligations of the State of Mississippi. The ultimate outcome of these matters cannot now be determined.
