NEWS RELEASE

AMCON REPORTS 2ND QUARTER

Edgar Filing: AMCON DISTRIBUTING CO - Form 8-K

Omaha, NE, May 12, 2003 AMCON Distributing Company (AMEX:DIT), an Omaha, NE based consumer products company, announced today that it incurred a net loss for the second quarter ended March 2003 of \$273,786 or \$0.09 per diluted share compared with a net income of \$90,435 or \$0.03 per diluted share for the second quarter of the prior year. Sales for the second quarter were \$177.0 million compared to \$194.2 million for the same period in the prior year.

For the six months ended March 2003, AMCON reported net income of \$1,187 compared to \$481,078 or \$0.16 per diluted share for the first six months of the prior year. Sales for the six months ended March 2003 were \$374.7 million compared to \$404.3 million for the same period of the prior year.

William F. Wright, Chairman of AMCON, stated that "Sales declined in our wholesale distribution business during the second quarter due to a deflationary trend in cigarette prices for certain national brands and a decline in cigarette carton volume of approximately 10.7%. Carton volume declined primarily due to the loss of one key customer that was acquired and several smaller customers due to competitive pricing strategies, as well as, cigarette consumers' continued shift of their buying habits toward value-priced brands for which the Company's market share is limited.

The change in earnings for the quarter was limited to approximately \$364,000 after taxes as we have been able to control our operating expenses, in spite of greatly increased professional fees associated with SEC and Sarbanes-Oxley Act compliance and in spite of an unfavorable LIFO adjustment of approximately \$400,000, as compared to the prior year.

At the same time, overall cash flow from operating activities exceeded \$12 million for the current six month period and our debt-to-equity ratio continues to improve. With our operating line usage at approximately 53% of availability and variable interest costs at slightly over 4%, we recently locked in interest costs for approximately one-half of our credit line usage for the next several years to keep those costs fixed below 5%.

Results in our retail health food segment show strong improvement over the prior year. Although this business has not yet achieved profitability, it is generating significant positive cash flows. We are encouraged by the performance of this segment and are actively planning expansion into new markets and with existing locations. We believe that this approach will allow us to increase our sales volume and more effectively allocate existing management overhead expenses."

Wright added, "Our beverage division which includes Hawaiian Natural Water Company, purchased in December 2001, and The Beverage Group, which began operations in December 2002, is still in the start-up phase. We are focusing our efforts on development of the U.S. mainland and Japanese markets for Hawaiian Springs natural water products and the distribution of other non-owned premium beverages in the U.S. Our new plant is now complete and an expanded warehouse and packaging facility is currently under construction in Hawaii. Additionally, we are finalizing distribution arrangements with brokers to expand our marketing efforts for proprietary beverage products in which we hold exclusive license arrangements. We are also continuing to look for expansion possibilities in this segment. We have recently added a line of coffee-based beverages from Hawaii Coffee Company, producers of Royal Kona brand coffee and Hawaii's largest coffee company, and a line of natural and organic fruit drinks produced by Bottle Green Drinks in Canada under the Presse and other labels. These new beverages add to our existing beverage products which include Hype Energy Drink and Xterra, a line of sports beverages and energy bars. As planned, the beverage business is expected to incur losses through the remainder of the fiscal year as we build market share for our products. However, we continue to be excited about the opportunities that the beverage business presents."
