**TRANS WORLD ENTERTAINMENT CORPORATION AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)**

**November 2, 2013 and October 27, 2012**

**Note 1. Nature of Operations**

Trans World Entertainment Corporation and subsidiaries (“the Company”) is one of the largest specialty retailers of entertainment products, including video, music, electronics, trend, video games and related products in the United States. The Company operates a chain of retail entertainment stores, primarily under the names f.y.e. for your entertainment and Suncoast Motion Pictures, and e-commerce sites, [www.fye.com](http://www.fye.com), [www.wherehouse.com](http://www.wherehouse.com), and [www.seconspin.com](http://www.seconspin.com) in a single industry segment. As of November 2, 2013, the Company operated 360 stores totaling approximately 2.1 million square feet in the United States, the District of Columbia and the Commonwealth of Puerto Rico.

***Liquidity and Cash Flows:***

The Company’s primary sources of working capital are cash and cash equivalents on hand, cash provided by operations and borrowing capacity under its revolving credit facility (See Note 6 for further details). The Company’s cash flows fluctuate from quarter to quarter due to various items, including seasonality of sales and earnings, merchandise inventory purchases and returns and the related terms on the purchases and capital expenditures. Management believes it will have adequate resources to fund its cash needs for the next twelve months and beyond, including its capital spending, its seasonal increase in merchandise inventory and other operating cash requirements and commitments. During Fiscal 2012, management carried out certain strategic initiatives in its efforts to reduce certain operating costs. In addition, management closed 33 stores and plans to continue its evaluation of profitability of the Company’s stores in consideration of lease terms, conditions and expirations, including considering new and relocated stores. Management has continued many of the initiatives begun in 2012 as part of the execution of its operating plan for 2013, including a focus on improved product selection based on customer preferences and industry changes, as well as further streamlining of its operations. The Company opened 14 stores and closed 12 stores during the thirty-nine weeks ended November 2, 2013.

Based on the Company’s current cash position, the Board of Directors approved a stock repurchase plan in the third quarter. (See Note 10 for further details).

***Seasonality:***

The Company’s business is seasonal, with the fourth fiscal quarter constituting the Company’s peak selling period. In fiscal 2012, the fourth quarter accounted for approximately 36% of annual net sales. The fourth quarter of fiscal 2012 consisted of 14 weeks. In anticipation of increased sales activity in the fourth quarter, the Company purchases additional inventory and hires seasonal associates to supplement its core store sales and distribution center staff. If, for

any reason, the Company's sales were below seasonal norms during the fourth quarter, the Company's operating results could be adversely affected. Quarterly sales can also be affected by the timing of new product releases, new store openings, store closings and the performance of existing stores.

**Note 2: Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements consist of Trans World Entertainment Corporation, its wholly-owned subsidiary, Record Town, Inc. ("Record Town"), and Record Town's subsidiaries, all of which are wholly-owned. All significant intercompany accounts and transactions have been eliminated.

The interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. The information furnished in these unaudited condensed consolidated financial statements reflects all normal, recurring adjustments which, in the opinion of management, are necessary for the fair presentation of such financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. During the thirty-nine weeks ended November 2, 2013, the Company recorded a prior period adjustment to the value of its inventory, which increased cost of sales and decreased gross margin by approximately \$0.3 million. The cumulative effect of this adjustment is deemed immaterial. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to rules and regulations applicable to interim financial statements. Certain prior period amounts have been reclassified to conform to the current presentation.

The information presented in the accompanying unaudited condensed consolidated balance sheet as of February 2, 2013 has been derived from the Company's February 2, 2013 audited consolidated financial statements. All other information has been derived from the Company's unaudited condensed consolidated financial statements as of and for the thirteen and thirty-nine weeks ended November 2, 2013 and October 27, 2012. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

The Company's significant accounting policies are the same as those described in Note 1 to the Company's Consolidated Financial Statements on Form 10-K for the fiscal year ended February 2, 2013.

**Note 3. Recently Adopted Accounting Pronouncements**

In February 2013, the Financial Accounting Standards Board issued ASU No. 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, which adds additional disclosure requirements relating to the reclassification of items out of accumulated other comprehensive income. This ASU was effective for the first quarter of 2013 for the Company. The adoption of this guidance does not have a significant impact on the Company's condensed consolidated financial statements.

**Note 4. Stock Based Compensation**

Total stock-based compensation expense recognized in the condensed consolidated statements of operations for thirteen weeks ended November 2, 2013 and October 27, 2012 was approximately \$27,000 and \$84,000 respectively, before income taxes. No deferred tax benefit was recorded against stock-based compensation expense for the thirteen weeks ended November 2, 2013 and October 27, 2012.

Total stock-based compensation expense recognized in the condensed consolidated statements of operations for the thirty-nine weeks ended November 2, 2013 and October 27, 2012 was approximately \$146,000 and \$212,000 respectively, before income taxes. No deferred tax benefit was recorded against stock-based compensation expense for the thirty-nine weeks ended November 2, 2013 and October 27, 2012.

As of November 2, 2013, there was approximately \$770,000 of unrecognized compensation cost related to stock award awards that is expected to be recognized as expense over a weighted average period of 2.1 years.

As of November 2, 2013, stock awards authorized for issuance under the Company's plans total 20.6 million. There are certain authorized stock awards for which the Company no longer grants awards. Of these awards authorized for issuance, 3.2 million were granted and are outstanding, 2.4 million of which were vested and exercisable. Awards available for future grants at November 2, 2013 were 2.6 million.

The table below outlines the assumptions that the Company used to estimate the fair value of stock based awards granted during the thirty-nine weeks ended November 2, 2013:

Dividend yield	0%
Expected stock price volatility	67.6%-75.2%
Risk-free interest rate	1.4%
Expected award life (in years)	4.9-7.0
Weighted average fair value per share of awards granted during the period	\$2.99

The following table summarizes stock award activity during the thirty-nine weeks ended November 2, 2013:

As of November 2, 2013, the intrinsic value of stock awards outstanding was \$1.4 million and exercisable was \$0.3 million.

## Note 5. Defined Benefit Plans

The Company maintains a non-qualified Supplemental Executive Retirement Plan ("SERP") for certain executive officers of the Company. The SERP provides eligible executives defined pension benefits that supplement benefits under other retirement arrangements.

Prior to June 1, 2003, the Company had provided the Board of Directors with a noncontributory, unfunded retirement plan ("Director Retirement Plan") that paid retired directors an annual retirement benefit. Directors who were not yet vested in their retirement benefits as of June 1, 2003 had the present value of benefits already accrued as of the effective date converted to deferred shares of the Company's Common Stock. Directors that were fully or partially vested in their retirement benefits were given a one-time election to continue to participate in the current retirement program or convert the present value of their benefits to deferred shares.

The measurement date for the SERP and Director Retirement Plan is fiscal year end, using actuarial techniques which reflect estimates for mortality, turnover and expected retirement. In addition, management makes assumptions concerning future salary increases. Discount rates are generally established as of the measurement date using theoretical bond models that select high-grade corporate bonds with maturities or coupons that correlate to the expected payouts of the applicable liabilities.

The following represents the components of the net periodic pension cost related to the Company's SERP and Director Retirement Plan for the respective periods:

	Thirteen weeks ended		Thirty-nine weeks ended	
	November 2, 2013		November 2, 2013	
	October 27, 2012		October 27, 2012	
	(in thousands)		(in thousands)	
Service cost	\$28	\$ 22	\$84	\$ 66
Interest cost	164	159	492	477
Amortization of prior service cost	181	86	543	258
Amortization of net gain	(1 )	—	(3 )	—
Net periodic pension cost	\$372	\$ 267	\$1,116	\$ 801

During the thirty-nine weeks ended November 2, 2013, the Company did not make any cash contributions to the SERP or the Director Retirement Plan, and presently expects to pay approximately \$103,000 in benefits relating to the SERP and \$49,000 in benefits relating to the Director Retirement Plan during Fiscal 2013.

**Note 6. Line of Credit**

In May 2012, the Company entered into a \$75 million credit facility (“Second Amended Credit Facility”) which amended its previous \$100 million credit facility (“Amended Credit Facility”). The principal amount of all outstanding loans under the Second Amended Credit Facility together with any accrued but unpaid interest, are due and payable in May 2017, unless otherwise paid earlier pursuant to

the terms of the Second Amended Credit Facility. Payments of amounts due under the Second Amended Credit Facility are secured by the assets of the Company.

The Second Amended Credit Facility includes customary provisions, including affirmative and negative covenants, which include representations, warranties and restrictions on additional indebtedness and acquisitions. The Second Amended Credit Facility also includes customary events of default, including, among other things, material adverse effect, bankruptcy, and certain changes of control. The Second Amended Credit Facility also contains other terms and conditions, including covenants around the number of store closings and allows for the payment of dividends with certain restrictions. It also changed the formula for interest rates. The Company is compliant with all covenants.

Interest under the Second Amended Credit Facility will accrue, at the election of the Company, at a Base Rate or LIBO Rate, plus, in each case, an Applicable Margin, which is determined by reference to the level of availability as defined in the Credit Agreement, with the Applicable Margin for LIBO Rate loans ranging from 2.25% to 2.75% and the Applicable Margin for Prime Rate loans ranging from 0.75% to 1.25%. In addition, a commitment fee ranging from 0.375% to 0.50% is also payable on unused commitments.

The availability under the Second Amended Credit Facility is subject to limitations based on sufficient inventory levels. Based on inventory levels at the end of the quarter, the availability under the Second Amended Credit Facility was \$65.0 million as of November 2, 2013. As of November 2, 2013, the Company did not have any borrowings outstanding under the Second Amended Credit Facility and had no outstanding letter of credit obligations. The Company did not have any borrowings during the thirty-nine weeks ended November 2, 2013.

As of October 27, 2012, the Company did not have any borrowings outstanding under the Amended Credit Facility and had \$0.6 million in outstanding letter of credit obligations. The Company did not have any borrowings during Fiscal 2012.

#### **Note 7. Accumulated Other Comprehensive Income (Loss)**

Accumulated other comprehensive income (loss) that the Company reports in the condensed consolidated balance sheets represents the excess of accrued pension liability over accrued benefit cost, net of taxes, associated with the Company's defined benefit plans. Comprehensive income or loss consists of net income or loss and the reclassification of prior service costs previously reported in comprehensive income (loss) for the thirteen and thirty-nine weeks ended November 2, 2013 and October 27, 2012. Amortization of prior service cost is recorded under selling, general and administrative expenses in the condensed consolidated statements of operations.

**Note 8. Depreciation and Amortization of Fixed Assets**

Depreciation and amortization of fixed assets included in the condensed consolidated statements of operations is as follows:

	Thirteen Weeks Ended November 2, 2013		Thirty-nine Weeks Ended November 2, 2013	
	October 27, 2012		October 27, 2012	
	(in thousands)		(in thousands)	
Cost of sales	\$116	\$122	\$361	\$372
Selling, general and administrative expenses	1,028	948	2,713	2,774
Total	\$1,144	\$1,070	\$3,074	\$3,146

**Note 9. Loss Per Share**

Basic loss per share is calculated by dividing net loss by the weighted average common shares outstanding for the period. Diluted income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock (net of any assumed repurchases) that then shared in the earnings of the Company, if any. It is computed by dividing net income (loss) by the sum of the weighted average shares outstanding and additional common shares that would have been outstanding if the dilutive potential common shares had been issued for the Company's common stock awards from the Company's Stock Award Plans.

For all periods presented, the impact of all outstanding stock awards was not considered because the Company reported a net loss and such impact would be anti-dilutive. Accordingly, basic and diluted loss per share are the same.

**Note 10. Shareholders' Equity**

During the thirty-nine weeks ended November 2, 2013, the Company repurchased approximately 302,000 shares of common stock at an average price of \$4.57 per share, for an aggregate purchase price of \$1.4 million, including direct fees related to the purchase of shares, leaving approximately \$20.6 million available for purchase under the program. The Company classified the repurchased shares as treasury stock on the Company's balance sheet.

**PART 1. FINANCIAL INFORMATION**

**Item 2 - Management's Discussion and Analysis of Financial Condition and**

**Results of Operations**

**November 2, 2013 and October 27, 2012**

**Overview**

Management's Discussion and Analysis of Financial Condition and Results of Operations provides information that the Company's management believes necessary to achieve an understanding of its financial statements and results of operations. To the extent that such analysis contains statements which are not of a historical nature, such statements are forward-looking statements, which involve risks and uncertainties. These risks include, but are not limited to, changes in the competitive environment for the Company's merchandise, including the entry or exit of non-traditional retailers of the Company's merchandise to or from its markets; releases by the music, video and video games industries of an increased or decreased number of "hit releases"; general economic factors in markets where the Company's merchandise is sold; and other factors discussed in the Company's filings with the Securities and Exchange Commission. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the unaudited condensed consolidated financial statements and related notes included elsewhere in this report and the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 2, 2013.

At November 2, 2013, the Company operated 360 stores totaling approximately 2.1 million square feet in the United States, the District of Columbia and the Commonwealth of Puerto Rico. The Company's stores offer predominantly entertainment product, including video and music. In total, these two categories represented 76% of the Company's net sales for the thirty-nine weeks ended November 2, 2013. The balance of categories, including trend, electronics, video games and related products represented 24% of the Company's net sales for the thirty-nine weeks ended November 2, 2013.

The Company's results have been, and will continue to be, contingent upon management's ability to understand industry trends and to manage the business in response to those trends and general economic trends. Management monitors a number of key performance indicators to evaluate its performance, including:

**Net sales and comparable store net sales:** The Company measures and reports the rate of comparable store net sales change. A store is included in comparable store net sales calculations at the beginning of its thirteenth full month of operation. Stores relocated/expanded or downsized are excluded from comparable store net sales if the change in square footage is greater than 20%. Closed stores that were open for at least thirteen months are included in comparable store net sales through the month immediately preceding the month of closing. The Company further analyzes net sales by store format and by product category.

**Cost of Sales and Gross Profit:** Gross profit is impacted primarily by the mix of products sold, by discounts negotiated with vendors and discounts offered to customers. The Company records its distribution and product shrink expenses in cost of sales. Distribution expenses include those costs associated with receiving, shipping, inspecting and warehousing product and costs associated with product returns to vendors. Cost of sales further includes obsolescence costs and is reduced by the benefit of vendor allowances, net of direct reimbursements of expense.

**Selling, General and Administrative (“SG&A”) Expenses:** Included in SG&A expenses are payroll and related costs, occupancy charges, general operating and overhead expenses and depreciation charges (excluding those related to distribution operations, as disclosed in Note 8 to the condensed consolidated financial statements). SG&A expenses also include asset impairment charges and write-offs, if any, and miscellaneous items, other than interest.

**Balance Sheet and Ratios:** The Company views cash, net inventory investment (merchandise inventory less accounts payable) and working capital (current assets less current liabilities) as relevant indicators of its financial position. See Liquidity and Capital Resources for further discussion of these items.

## RESULTS OF OPERATIONS

### Thirteen and Thirty-nine Weeks Ended November 2, 2013

### Compared to the Thirteen and Thirty-nine Weeks Ended October 27, 2012

The following table sets forth a period over period comparison of the Company’s net sales by category:

	Thirteen weeks ended				Comp Store Net Sales	Thirty-nine weeks ended				Comp Store Sales

Store Count:						360	376	(16 )	(4.3 %)	
Total Square Footage						2,141	2,310	(169 )	(7.3 %)	

**Net sales.** Net sales decreased 13.1% and 13.8% during the thirteen and thirty-nine weeks ended November 2, 2013, respectively, as compared to the same periods last year. The decline in net sales for the thirteen week period resulted from a decrease in total square footage of 7.3% and a 3.7% decrease in comparable net sales. The decline in net sales for the thirty-nine week period resulted from a decrease in total square footage of 7.3% and a 4.7% decrease in comparable net sales.

***Video:***

Comparable store net sales in the video category decreased 3.4% and 1.8% during the thirteen and thirty-nine weeks ended November 2, 2013, respectively. The decrease in the third quarter was driven by softness in DVD sales, as Blu-ray continued to perform well. The video category represented 46.0% of total net sales for the thirteen weeks ended November 2, 2013 compared to 45.4% in the comparable quarter last year.

According to Warner Brothers Home Video, industry sales were down 15.9% during the period corresponding to the Company's third fiscal quarter.

***Music:***

Comparable store net sales in the music category decreased 6.8% and 10.7% during the thirteen weeks and thirty-nine weeks ended November 2, 2013, respectively. The music category represented 29.9% of total net sales for the thirteen weeks ended November 2, 2013 compared to 30.9% in the comparable quarter last year.

According to Soundscan, total physical CD unit sales industry-wide were down 12.7% during the period corresponding to the Company's third fiscal quarter.

***Trend:***

Comparable store net sales in the trend category increased 10.8% and 13.1% during the thirteen and thirty-nine weeks ended November 2, 2013, respectively. The increase was driven by expanded product lines and improved selection. Trend product represented 11.7% of total net sales for the thirteen weeks ended November 2, 2013 compared to 9.8% in the comparable quarter last year.

***Electronics:***

Comparable store net sales in the electronics category decreased 15.5% and 15.6% during the thirteen and thirty-nine weeks ended November 2, 2013, respectively. Electronics net sales represented 8.1% of total net sales for the thirteen weeks ended November 2, 2013 compared to 9.6% in the comparable quarter last year.

***Video Games:***

Comparable store net sales for video games increased 7.1% and decreased 3.7% during the thirteen and thirty-nine weeks ended November 2, 2013, respectively. The comparable store net sales increase in the thirteen week period was driven by the release of Grand Theft Auto. Currently, 98 stores, or 27.2% of the Company's stores carry games. Video games net sales represent 4.3% of total net sales for the thirteen weeks ended November 2, 2013, same as the comparable quarter last year.

According to NPD Group, industry sales were up 17.3% during the period corresponding to the Company's third fiscal quarter.

**Gross Profit.** The following table sets forth a period over period comparison of the Company's gross profit:

Thirteen weeks ended	Change	Thirty-nine weeks ended	Change
----------------------	--------	-------------------------	--------

Edgar Filing: TRANS WORLD ENTERTAINMENT CORP - Form 10-Q

	<i>(in thousands)</i>				<i>(in thousands)</i>			
	November	October			November	October		
	2,	27,	\$	%	2,	27,	\$	%
	2013	2012			2013	2012		
Gross Profit	\$30,740	\$34,737	\$ (3,997)	(11.5 %)	\$98,543	\$112,370	\$(13,827)	(12.3 %)
As a % of sales	38.5	%	37.9	%	38.7	%	38.1	%

Gross profit dollars decreased 11.5% and 12.3% for the thirteen and thirty-nine weeks ended November 2, 2013, respectively as compared to the same periods last year. The decline in gross profit dollars is due to the decline in net sales. The decline in net sales was partially offset by an increase in gross profit as a percentage of net sales due to higher margin rates in the Company's video and music categories.

**SG&A Expenses.** The following table sets forth a period over period comparison of the Company's SG&A expenses:

	<b>Thirteen weeks ended</b> <i>(in thousands)</i>				<b>Thirty-nine weeks ended</b> <i>(in thousands)</i>			
	November 2, 2013	October 27, 2012	\$	%	November 2, 2013	October 27, 2012	\$	%
SG&A	\$33,552	\$36,365	\$(2,813)	(7.7%)	\$101,229	\$111,702	\$(10,473)	(9.4%)
As a % of sales	42.1	% 39.6	%		39.8	% 37.9	%	

For the thirteen weeks ended November 2, 2013, SG&A expenses decreased \$2.8 million, or 7.7% on the net sales decline of 13.1% resulting in a 250 basis point increase in SG&A expenses as a percentage of net sales. The increase in SG&A expenses as a percentage of net sales is primarily due to increased home office expenses to support strategic growth initiatives and deleveraging of store expenses on the negative comp sales..

For the thirty-nine weeks ended November 2, 2013, SG&A expenses decreased \$10.5 million, or 9.4% on the net sales decline of 13.8% resulting in a 190 basis point increase in SG&A expenses as a percentage of net sales. The increase in SG&A expenses as a percentage of net sales is primarily due to increased home office expenses to support strategic growth initiatives and deleveraging of store expenses on the negative comp sales.

**Interest Expense, Net.** Net interest expense was \$0.5 million and \$1.5 million during the thirteen and thirty-nine weeks ended November 2, 2013, respectively, compared to \$0.5 million and \$1.8 million during the thirteen and thirty-nine weeks ended October 27, 2012. Net interest expense consists primarily of interest on capital leases, unused commitment fees and the amortization of fees related to the Company's credit facility.

**Income Tax Expense (Benefit).** In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income. As of January, 2012, the Company had incurred a cumulative three-year loss. For the year ended February 2, 2013 the Company reported income before income taxes which included a large gain on sale of asset not expected to recur. As of February 2, 2013, based on available objective evidence, management concluded that a full valuation allowance should be maintained against the Company's deferred tax assets which continue to be recorded at November 2, 2013. If the Company continues its trend of pre-tax book income it believes that, based on consideration of all available evidence, including recent historical profitable operating performance and other positive and negative evidence such as financial and taxable income projections, market environment, and other factors, a determination may result during the next twelve months that all or a portion of its valuation allowance may no longer be needed. The Company awards the most weight to the existence of cumulative losses in recent years in its evaluation of the need for a full valuation allowance. Any reversal of the Company's valuation allowance will favorably impact its results of operations in the period of reversal. The Company is currently unable to determine when that reversal might occur, but it will continue to assess the realizability of its deferred tax assets and will adjust the valuation allowance if it is more likely than not that all or a

portion of the deferred tax assets will become realizable in the future. The Company has significant net operating loss carry forwards and other tax attributes that are available to offset projected taxable income and current taxes payable for the year ending February 1, 2014. The deferred tax impact resulting from the utilization of the net operating loss carry forwards and other tax attributes will be offset by a corresponding reduction in the valuation allowance. As of February 2, 2013, the Company had a net operating loss carry forward of \$153 million for federal income tax purposes and approximately \$248 million for state income tax purposes that expire at various times through 2031 and are subject to certain limitations and statutory expiration periods.

## Edgar Filing: TRANS WORLD ENTERTAINMENT CORP - Form 10-Q

For the thirteen and thirty-nine week periods ended November 2, 2013 and October 27, 2012, the Company's current tax expense was associated with quarter-specific items attributable to interest accruals on related uncertain tax positions and state taxes based on modified gross receipts incurred for these thirteen and thirty-nine week periods.

**Net Loss.** The following table sets forth a period over period comparison of the Company's net loss:

	Thirteen weeks ended			Thirty-nine weeks ended		
	November	October		November	October	
	2,	27,	Change	2,	27,	Change
	2013	2012		2013	2012	
	<i>(in thousands)</i>			<i>(in thousands)</i>		
Loss before income tax	\$(3,293)	\$(2,141)	\$(1,152)	\$(4,137)	\$(1,137)	\$(3,000)
Income tax expense	22	47	(25 )	119	141	(22 )
Net loss	\$(3,315)	\$(2,188)	\$(1,127)	\$(4,256)	\$(1,278)	\$(2,978)

For the thirteen weeks ended November 2, 2013, the Company's net loss was \$3.3 million compared to a loss of \$2.2 million for the thirteen weeks ended October 27, 2012. The decrease was due to the decline in gross profit from lower net sales.

For the thirty-nine weeks ended November 2, 2013, the Company's net loss was \$4.3 million, compared to net loss of \$1.3 million for the thirty-nine weeks ended October 27, 2012. The decrease was due to the decline in gross profit from lower net sales.

## LIQUIDITY

**Liquidity and Cash Flows:** The Company's primary sources of working capital are cash and cash equivalents on hand, cash provided by operations and borrowing capacity under its revolving credit facility (See Note 6 for further details). The Company's cash flows fluctuate from quarter to quarter due to various items, including seasonality of sales and earnings, merchandise inventory purchases and returns and the related terms on the purchases and capital expenditures. Management believes it will have adequate resources to fund its cash needs for the next twelve months and beyond, including its capital spending, its seasonal increase in merchandise inventory and other operating cash requirements and commitments. During Fiscal 2012, management carried out certain strategic initiatives in its efforts to reduce certain operating costs. In addition, management closed 33 stores and plans to continue its evaluation of profitability of the Company's stores in consideration of lease terms, conditions and expirations, including considering new and relocated stores. Management has continued many of the initiatives begun in 2012 as part of the execution of its operating plan for 2013, including a focus on improved product selection based on customer preferences and industry changes, as well as further streamlining of its operations. The Company opened 14 stores and closed 12 stores during the thirty-nine weeks ended November 2, 2013.

Based on the Company's current cash position, the Board of Directors approved a stock repurchase plan in the third quarter. (See Note 10 in the accompanying condensed consolidated financial statements for further details).

Management anticipates that any future cash requirements due to a shortfall in cash from operations would be funded by the Company's cash and cash equivalents on hand and its revolving credit facility,

discussed hereafter. The Company does not expect any material changes in the mix (between equity and debt) or the relative cost of capital resources.

The following table sets forth a summary of key components of cash flow and working capital for each of the thirty-nine weeks ended November 2, 2013 and October 27, 2012, or at those dates:

(in thousands)	Thirty-nine weeks ended		Change
	November 2, 2013	October 27, 2012	
Operating Cash Flows	\$(40,020 )	\$(24,386 )	\$(15,634)
Investing Cash Flows	(6,861 )	(1,965 )	(4,896 )
Financing Cash Flows	(73 )	(2,232 )	2,159
Cash and Cash Equivalents	86,028	59,932	(26,096)
Merchandise Inventory	174,884	178,332	(3,448 )
Working Capital	182,166	162,565	19,601

The Company had cash and cash equivalents of \$86.0 million at November 2, 2013, compared to \$133.0 million at February 2, 2013 and \$59.9 million at October 27, 2012. Merchandise inventory was \$82 per square foot at November 2, 2013 versus \$77 per square foot as of October 27, 2012.

Cash used by operating activities was \$40.0 million for the thirty-nine weeks ended November 2, 2013. The primary uses of cash were a \$19.5 million seasonal increase of inventory and a reduction of \$9.2 million in accounts payable. The Company's merchandise inventory and accounts payable are influenced by the seasonality of its business. A significant reduction of accounts payable occurs annually in the fiscal first half, reflecting payments for merchandise inventory sold during the prior year's holiday season. The increase in merchandise inventory from the end of fiscal 2012 represents the company's inventory build in anticipation of sales for the holiday season.

Cash used by investing activities, which was constituted entirely of capital expenditures, was \$6.9 million for the thirty-nine weeks ended November 2, 2013.

Cash used by financing activities was \$73,000 for the thirty-nine weeks ended November 2, 2013. The primary uses of cash was the purchase of common stock of \$4.2 million and \$0.7 million in payments of capital lease obligations, partially offset by \$4.8 million in proceeds due to the exercise of stock options.

During the thirteen weeks ended November 2, 2013, the Company repurchased approximately 302,000 shares of common stock at an average price of \$4.57 per share, for an aggregate purchase price of approximately \$1.4 million, leaving approximately \$20.6 million available for purchase under the stock repurchase program approved by the Board of Directors.

In May 2012, the Company entered into a \$75 million credit facility ("Second Amended Credit Facility") which amended its previous \$100 million credit facility ("Amended Credit Facility"). The principal amount of all outstanding loans under the Second Amended Credit Facility together with any accrued but unpaid interest, are due and payable in May 2017, unless otherwise paid earlier pursuant to the terms of

the Second Amended Credit Facility. Payments of amounts due under the Second Amended Credit Facility are secured by the assets of the Company.

The Second Amended Credit Facility includes customary provisions, including affirmative and negative covenants, which include representations, warranties and restrictions on additional indebtedness and acquisitions. The Second Amended Credit Facility also includes customary events of default, including, among other things, material adverse effect, bankruptcy, and certain changes of control. The Second Amended Credit Facility also contains other terms and conditions, including covenants around the number of store closings and allows for the payment of dividends with certain restrictions. It also changed the formula for interest rates. The Company is compliant with all covenants.

Interest under the Second Amended Credit Facility will accrue, at the election of the Company, at a Base Rate or LIBO Rate, plus, in each case, an Applicable Margin, which is determined by reference to the level of availability as defined in the Credit Agreement, with the Applicable Margin for LIBO Rate loans ranging from 2.25% to 2.75% and the Applicable Margin for Prime Rate loans ranging from 0.75% to 1.25%. In addition, a commitment fee ranging from 0.375% to 0.50% is also payable on unused commitments.

The availability under the Second Amended Credit Facility is subject to limitations based on sufficient inventory levels. Based on inventory levels at the end of the quarter, the availability under the Second Amended Credit Facility was \$65.0 million as of November 2, 2013. As of November 2, 2013, the Company didn't have any borrowings outstanding under the Second Amended Credit Facility and had no outstanding letter of credit obligations. The Company did not have any borrowings during the thirty-nine weeks ended November 2, 2013.

As of October 27, 2012, the Company didn't have any borrowings outstanding under the Amended Credit Facility and had \$0.6 million in outstanding letter of credit obligations. The Company did not have any borrowings during Fiscal 2012.

**Capital Expenditures.** During the thirty-nine weeks ended November 2, 2013, the Company made capital expenditures of \$6.9 million. The Company currently plans to spend approximately \$10.0 million for capital expenditures in fiscal 2013.

## CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires that management apply accounting policies and make estimates and assumptions that affect results of operations and the reported amounts of assets and liabilities in the financial statements. Management continually evaluates its estimates and judgments including those related to merchandise inventory and return costs, income taxes and accounting for gift card liability. Management bases its estimates and

judgments on historical experience and other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Form 10-K for the year ended February 2, 2013 includes a summary of the critical accounting policies and methods used by the Company in the preparation of its condensed consolidated financial statements. There have been no material changes or modifications to the policies since February 2, 2013.

**PART I – FINANCIAL INFORMATION**

**Recently Issued Accounting Pronouncements:**

There are no recently issued accounting standards that are expected to have a material effect on our financial condition, results of operations or cash flows.

**Item 3 - Quantitative and Qualitative Disclosures about Market Risk**

To the extent the Company borrows under its Second Amended Credit Facility, the Company is subject to risk resulting from interest rate fluctuations since interest on the Company's borrowings under its Second Amended Credit Facility can be variable. Interest under the Second Amended Credit Facility will accrue, at the election of the Company, at a Base Rate or LIBO Rate, plus, in each case, an Applicable Margin, which is determined by reference to the level of availability as defined in the Second Amended Credit Agreement, with the Applicable Margin for LIBO Rate loans ranging from 2.25% to 2.75% and the Applicable Margin for Base Rate loans ranging from 0.75% to 1.25%. If interest rates on the Company's Second Amended Credit Facility were to increase by 25 basis points, and to the extent borrowings were outstanding, for every \$1,000,000 outstanding on the facility, income before income taxes would be reduced by \$2,500 per year. For a discussion of the Company's accounting policies for financial instruments and further disclosures relating to financial instruments, see "Nature of Operations and Summary of Significant Accounting Policies" in the Notes to Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended February 2, 2013. The Company does not currently hold any derivative instruments.

**Item 4 – Controls and Procedures**

(a) Evaluation of disclosure controls and procedures. The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of November 2, 2013, have concluded that as of such date the Company's disclosure controls and procedures were effective and designed to ensure that (i) information required to be disclosed by the issuer in the reports that it files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in internal controls. There have been no changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

**TRANS WORLD ENTERTAINMENT CORPORATION AND SUBSIDIARIES**

**PART II - OTHER INFORMATION**

**Item 1 – Legal Proceedings**

The Company is subject to legal proceedings and claims that have arisen in the ordinary course of its business and have not been finally adjudicated. Although there can be no assurance as to the ultimate disposition of these matters, it is management's opinion, based upon the information available at this time, that the expected outcome of these matters, individually and in the aggregate, will not have a material adverse effect on the results of operations and financial condition of the Company.

**Item 1A – Risk Factors**

Risks relating to the Company's business and Common Stock are described in detail in Item 1A of the Company's most recently filed Annual Report on Form 10-K for the year ended February 2, 2013.

**Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds**

During the third quarter of fiscal 2013, the Company determined that participants in the Trans World Entertainment Corporation 401(k) Savings Plan (the "401(k) Plan") had invested in Company Common Stock (the "Common Stock") under the 401(k) Plan that were not registered under the Securities Act of 1933. Purchases of Common Stock were made on the open market by the 401(k) Plan. Investments in the Common Stock during the third quarter of fiscal 2013 represented 2,568 shares of the Company's Common Stock with an aggregate purchase price equal to \$12,070. Under applicable federal securities laws, certain participants may have a right to rescind their investment and require the Company to repurchase its Common Stock for an amount equal to the price paid for the Common Stock (or if the Common Stock has been sold, to receive damages for any loss that was incurred on the sale), plus interest. Additionally, the Company may be subject to civil and other penalties by regulatory authorities. Generally, the federal statute of limitations applicable to securities rescission rights is one year from the date of acquisition of the security. Investments by the 401(k) Plan in the Common Stock during the preceding twelve months represented 59,992 shares of the Company's Common Stock with an aggregate purchase price equal to \$238,488. Based on the November 2, 2013 closing price for the Company's Common Stock, the maximum potential payment for claims based on these rights is under \$30,000.

The failure to register the shares of Common Stock under the 401(k) Plan was inadvertent and the Company intends to make a registered rescission offer to eligible plan participants in the fourth quarter of fiscal 2013. Based on the current market price of the Company's Common Stock, the Company does not believe the potential liability for rescission claims is material to the Company's financial condition or results of operations.

The Common Stock investment option was closed to participants effective November 15, 2013. No further Common Stock purchases by the 401(k) Plan will be permitted.
