The compensation covered by the Retirement Income Plan is the annual salary paid to the participant, which is reflected in the column titled "Base Salary" in the Summary Compensation Table. The estimated credited years of service for each of Messrs. Hedrick, Bassham, Bates, Carrillo and Ms. Knopp at December 31, 2002, was 26, 6, 30, 1, and 13, respectively. The benefits are computed based on straight-life annuity amounts and are not subject to any deduction or offset for social security benefits or other amounts. Pursuant to applicable federal regulations, for periods after December 31, 1992, the maximum amount of compensation on which the benefits can be based was reduced to \$150,000 per year. The maximum amount of compensation upon which benefits can be based may be adjusted annually in \$10,000 increments, but in no event can such benefits be based on an adjusted maximum compensation in excess of that allowed by the Internal Revenue Service in connection with qualified retirement plans. For the year 2002 the maximum amount of compensation on which benefits may be based is \$200,000. Participants in the Retirement Income Plan will receive the greater of the accrued benefit at December 31, 1992, or the benefits accrued using the compensation limitation.

Employment Agreements and Related Matters

Each Named Executive Officer and certain other officers of the Company have entered into a Change of Control Agreement (the "Agreement") requiring such person to remain in the employ of the Company for two years following a change in control. In the event the Named Executive Officer is terminated during such period, other than for cause or certain other reasons, the Agreement provides that such person would receive 2.99 times annual base salary plus bonuses, the actuarial equivalent of vested benefits under the Company's retirement plan calculated with three additional years of service, continuation of welfare benefits for two years and outplacement services for one year.

COMPENSATION COMMITTEE

REPORT ON EXECUTIVE COMPENSATION

General. The Compensation Committee (the Committee) of the Board of Directors is comprised entirely of non-employee directors. The Committee is responsible for reviewing and approving the compensation of all executive officers of the Company, including the Named Executive Officers and for administering the 1996 Long-Term Incentive Plan and the 1999 Long-Term Incentive Plan. Following review and approval by the Committee, all significant issues pertaining to executive compensation are submitted to the full Board of Directors for approval.

Compensation Philosophy and Programs. The Company desires to attract and retain the required talent necessary to achieve its business strategy and provide maximum shareholder value over the long term. As such, the following compensation philosophy is intended to facilitate the design of programs to accomplish these goals:

Provide competitive total compensation and rewards that attract and retain executive talent with appropriate experience

Motivate and reward executives for achievement of outstanding results

Align shareholder interests with those of executive management

With the help of an independent compensation consulting firm, the Committee regularly compares the salary and incentive opportunities for the executive officers with the compensation provided for similar positions at comparable companies. The firm compares the Company information to data of a similar type obtained from companies of approximately the same size as the Company and operating in the same industry. The competitive market values were developed from a peer group of utility companies supplemented with market data from the Edison Electric Institute (EEI) (the utility comparator group).

The utility comparator group does not contain every company in the EEI 100 index used to prepare the performance graph that appears later in this Proxy Statement. The Committee believes that the companies with which the Company competes for employees are not necessarily the same as the companies included in that index.

Based on the above parameters, the Committee and Board of Directors continue to believe a total compensation program for executives should primarily be comprised of three elements: base salary, short-term incentives, and long-term incentives.

Base Salary. Base salary levels are targeted at median levels of the utility comparator group. The base salary of each executive is determined by his or her skills, experience, and potential impact on the Company's operations. Base salary adjustments are directly related to the officer's performance and success in achieving specific corporate and individual goals. In addition, the Company's overall financial performance also impacts salary adjustments. The Chief Executive Officer reviews the performance of the other executive officers and makes recommendations to the Committee based on each officer's performance. Based on the

information available to it, the Committee believes that the base salaries of the executive officers are generally near the median for comparable electric utilities.

Short-Term Incentives. Each executive officer has a target incentive opportunity if the Company achieves specific annual goals that are established in advance by the Committee and the Board of Directors. Short-term incentive awards to executive officers have historically been paid in restricted Common Stock and vest equally over a four-year period with 20% vesting once the goal is achieved and 20% vesting on each anniversary of such date for the next four years. Beginning in 2003, short-term incentive awards will be paid in cash rather than in restricted Common Stock. It is anticipated that the annual performance goals will be stretch goals based on the achievement of corporate objectives that will lead to enhanced shareholder value. In 2002, the performance goals were related to safety, customer satisfaction and earnings per share. If a certain level of earnings per share is not attained, no bonuses will be paid for any of the measures. Due to a shortfall in meeting the pre-established earnings per share goals for 2002, none of the executive officers received bonuses. For the 2003 incentive plan, goals have been established for safety, customer satisfaction and earnings per share. Again, no short-term incentive awards will be granted unless the earnings per share goal is met.

Long-Term Incentives. In 2000, Mr. Bassham was granted a stock option to acquire 25,000 shares of Common Stock. Additionally, in 2001, when they were elected President and Chief Executive Officer, Executive Vice President, Chief Financial and Administrative Officer, and Executive Vice President and Chief Operations Officer, respectively, Messrs. Hedrick, Bassham and Bates were each awarded stock options to acquire shares of Common Stock in the amounts of 250,000, 100,000 and 100,000, respectively. In 2002, Mr. Carrillo was awarded a stock option to acquire 100,000 shares of Common Stock when he was hired. The options have an exercise price of 100% of the market value of the Common Stock on the date of grant and vest in equal increments over 5 years. The options were designed as both a retention plan as well as a long-term incentive plan. The long-term incentive plan is intended to promote long-term growth and stability and to allow executive officers to acquire the Company's Common Stock and directly align the executive officers' personal interest with that of other shareholders.

Stock Ownership Guidelines. Recognizing that stock ownership by executive officers and directors can directly correlate to improved performance and enhancement of shareholder value, the Committee established stock ownership guidelines for executive officers and directors. The guidelines suggest that the Chief Executive Officer own Common Stock with a value equal to three times his base salary and that other executive officers and directors own Common Stock with a value equal to two times his or her base salary or annual retainer, respectively. The ownership guidelines were set in 1996 with the intention that they be met within 5 years for directors and executive officers at that time or within 5 years from the date a person becomes a director or executive officer. The stock ownership guidelines have been met by all people for whom the 5-year period is applicable.

Compensation of the Chief Executive Officer. The philosophy of the Committee and the Board of Directors is to directly tie the most significant portion of the Chief Executive Officer's compensation to the Company's success in enhancing shareholder value. The shareholders will benefit through the Chief Executive Officer's leadership in establishing and meeting short-term and medium-term financial and operational goals and his initiative in developing and implementing long-term strategy. At the same time, the Committee strongly believes that the Chief Executive Officer's total compensation should directly reflect increases in the value of the Common Stock.

The above-described philosophy guided the Board of Directors in establishing Mr. Hedrick's compensation. Mr. Hedrick's compensation has the following elements: base salary, annual incentive opportunity, restricted stock and stock options. Mr. Hedrick's base salary was set in 2001 at \$425,000 which is the same as that paid to his predecessor and within the range of salaries of CEO's of the utility comparator group. Mr. Hedrick's salary remained at \$425,000 for 2002. Based on the Company not meeting its 2002 earnings per share objective, Mr. Hedrick did not receive a bonus for 2002. On November 5, 2001, the Board of Directors granted Mr. Hedrick 50,000 restricted shares of Common Stock and options to acquire 250,000 shares with an exercise price of \$13.59. The restricted shares and options will vest in five equal installments on January 1, 2003 and on each anniversary thereof through January 1, 2007. The amount and total value of these restricted shares of Common Stock and options was determined based on the recommendations an outside compensation consultant. Mr. Hedrick's total compensation is slightly below the median level of the utility comparator group with which the Company competes for executive talent. The structure of Mr. Hedrick's compensation, in the view of the Board of Directors, aligns his interests with the total return to shareholders.
