(b) Pro Forma Financial Information.

The unaudited pro forma information financial information required by Item 9.01(b)(1) of Form 8-K is attached hereto as Exhibit 99.2. Exhibit 99.2 summarizes unaudited pro forma financial information assuming the Sale had occurred at the end of the period presented for balance sheet purposes and at the beginning of the periods presented for statement of operations purposes. This pro forma information is for informational purposes only and does not reflect any operational efficiencies or inefficiencies which may result from the Sale and, therefore, the pro forma income statement is not necessarily indicative of results that would have been achieved had the Sale occurred at the beginning of the periods presented and the pro forma balance sheet is not necessarily indicative of results that would have been achieved had the Sale occurred at the end of the period presented. In addition, the preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The pro forma adjustments use estimates and assumptions based on currently available information. GrafTech believes that the estimates and assumptions are reasonable and that the significant effects of the Sale are properly reflected. However, actual results may materially differ from these estimates and assumptions and the pro forma information is not necessarily indicative of future operating results.
