Timberland Bancorp, Inc. Announces Third Quarter Earnings

Technology investment expense reduces income by \$0.04 per share

HOQUIAM, Wash. July 22, 2003 Timberland Bancorp, Inc. (Nasdaq: TSBK), ("Company") the holding company for Timberland Bank, ("Bank"), today reported net income of \$1.54 million, or \$0.38 per diluted share, for the quarter ended June 30, 2003. This compares to \$0.45 per diluted share that the Company earned for the quarter ended June 30, 2002. The lower earnings for the current quarter are primarily due to increased non-interest expenses resulting from technology improvement expenses and increased employee costs. The increased non-interest expenses were, however, partially offset by increased non-interest income.

President Michael Sand noted that, "The planned technology improvements announced previously are in process and on schedule. The conversion to the

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

Kirchman Bankway core processing system from our current in-house supported system will occur in August of this year. In addition to the core processing system, Timberland is also changing its Internet banking provider, its ATM service provider and its loan platform system. We believe that these changes will enhance customer service, streamline our loan processing system, and allow us to offer more products to our commercial and retail customers." The Company incurred expenses of \$252,000 (\$166,000 net of income tax) related to the technology upgrades and conversion process during the current quarter. This expense reduced earnings by approximately \$0.04 per share for the June 30, 2003 quarter. It is estimated that additional expenses related to the technology initiatives and conversion process will also reduce earnings for the September 30, 2003 quarter by approximately \$0.05 per share.

Loan volumes and mortgage banking activity remained strong during the current quarter as the Bank originated loans totaling \$75.1 million and sold \$25.7 million in fixed rate loans. During this low interest rate cycle the Bank has continued to sell a majority of its fixed rate mortgage loans secured by residential properties. The Bank also saw an increase in construction loan demand during the current quarter as the construction loan portfolio increased 23% to \$91.9 million at June 30, 2003 from \$74.7 million at March 31, 2003.

The Company also reported asset quality improvements as the non-performing asset ("NPA") ratio was reduced to 0.77% at June 30, 2003 from 0.99% at March 31, 2003. This represents the lowest NPA level that the Company has reported since going public in 1998. As a result of the improved asset quality, the Company was able to reduce its provision for loan losses to \$66,000 for the current quarter from \$200,000 for the quarter ended June 30, 2002.

Increased non-interest income helped offset a portion of the increased non-interest expenses. Non-interest income increased 39% to \$1.65 million for the current quarter from \$1.19 million for the quarter ended June 30, 2002, primarily due to strong mortgage banking activity, increased gains on security sales, and income from the Bank Owned Life Insurance ("BOLI") program.

The Company experienced margin compression in the declining rate environment as net interest income decreased 3.7% to \$4.60 million for the current quarter from \$4.8 million for the quarter ended June 30, 2002. The decrease was primarily due to the Company's interest earning assets repricing downward at a greater rate than the Company's funding sources and a shift in the makeup of total earning assets. The Company's net interest margin reflected this compression as it decreased to 4.51% for the current quarter from 4.93% for the quarter ended June 30, 2002. The Company remains asset sensitive and is positioned to benefit from increasing interest rates.

Branch Expansion Update

The Bank's 15th full-service office will be located in downtown Olympia (Thurston County) and is scheduled to open in mid to late August 2003. This office will be Timberland's fourth Thurston County location and will serve as the headquarters for the Bank's Commercial Lending and Business Banking Divisions. This downtown Olympia site is centrally located and will provide a good strategic location as the Company continues to expand its commercial banking initiatives. Commercial real estate, commercial business, and commercial construction loans now comprise 33% of the Bank's loan portfolio.

The Bank also announced plans in May to expand to Gig Harbor (Pierce County). Plans are to open a branch in the Gig Harbor area within the next 6 months. Richard Pifer of Gig Harbor has been named Vice President and branch manager. He is a 12-year resident of Gig Harbor and has over 23 years of banking

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

experience, most recently with Key Bank. "We've been interested in entering the Gig Harbor market for some time. With Richard Pifer, we have an individual with the experience and abilities necessary to compete effectively in that market." stated CEO Clarence Hamre.

Disclaimer

This report contains certain "forward-looking statements." The Company desires to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 and is including this statement for the express purpose of availing itself of the protection of such safe harbor with forward looking statements. These forward-looking statements may describe future plans or strategies and include the Company's expectations of future financial results. Forward-looking statements are subject to a number of risks and uncertainties that might cause actual results to differ materially from stated objectives. These risk factors include but are not limited to the effect of interest rate changes, competition in the financial services market for both deposits and loans as well as regional and general economic conditions. The words "believe," "expect," "anticipate," "estimate," "project," and similar expressions identify forward-looking statements. The Company's ability to predict results or the effect of future plans or strategies is inherently uncertain and undue reliance should not be placed on such statements.

Comparison of Financial Condition at June 30, 2003 and September 30, 2002

Total Assets: Total assets increased to \$444.2 million at June 30, 2003 from \$431.1 million at September 30, 2002. This change is reflected primarily in a \$21.3 million increase in investments and interest bearing deposits in banks, which is partially offset by a \$11.7 million decrease in total loans.

Investments and Interest Bearing Deposits in Banks: Investments and interest bearing deposits in banks increased by \$21.3 million to \$88.4 million at June 30, 2003 from \$67.1 million at September 30, 2002. This increase is primarily due to investing proceeds from loan sales, loan prepayments, and increased customer deposits.

Loans: Net loans receivable, including loans held-for-sale, decreased to \$310.8 million at June 30, 2003 from \$322.5 million at September 30, 2002, primarily reflected in a \$16.6 million decrease in the Bank's one-to-four family mortgage loan portfolio. The portfolio decrease was primarily due to loan prepayments, as a result of the historically low home mortgage rates, and the

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

sale of a majority of the one-to-four family mortgages generated during the period. During the nine months ended June 30, 2003, the Bank originated loans of \$184.4 million and sold \$88.0 million in fixed rate one-to-four family mortgage loans. Management elected to sell a majority of the fixed rate residential loans originated instead of adding them to the Bank's portfolio due to the low rate environment.

Deposits: Deposits increased by \$10.6 million to \$302.9 million at June 30, 2003 from \$292.3 million at September 30, 2002, primarily due to a \$9.0 million increase in the Bank's passbook savings accounts, a \$7.7 million increase in N.O.W. checking accounts and a \$4.2 million increase in non-interest bearing accounts. These increases are partially offset by a \$6.2 million decrease in money market accounts and a \$4.1 million decrease in certificate of deposit accounts.

Shareholders' Equity: Total shareholders' equity increased by \$2.9 million to \$77.3 million at June 30, 2003 from \$74.4 million at September 30, 2002. The components of shareholders' equity were primarily affected by net income of \$5.2 million, the repurchase of 122,259 shares of the Company's stock for \$2.3 million and the payment of \$1.5 million in dividends to shareholders. Also affecting shareholders' equity was a \$664,000 increase to additional paid in capital from the exercise of stock options, and decreases of \$483,000 and \$396,000 in the equity components related to unearned shares issued to the Management Recognition and Development Plan and Employee Stock Ownership Plans, respectively.

On February 14, 2003 the Company announced a plan to repurchase 380,028 shares of the Company's stock. This marked the Company's eleventh stock repurchase plan. As of June 30, 2003, the Company had purchased 46,000 of these shares and cumulatively had repurchased 2,644,563 (40.0%) of the 6,612,500 shares that were issued when the Company went public in January 1998.

Comparison of Operating Results for the Three and Nine Months Ended June 30, 2003 and 2002

Net Income: Net income for the quarter ended June 30, 2003 was \$1.54 million, or \$0.38 per diluted share (\$0.41 per basic share) compared to \$1.80 million, or \$0.45 per diluted share (\$0.46 per basic share) for the quarter ended June 30, 2002. The lower earnings for the current quarter were primarily a result of increased non-interest expenses related to technology improvements and higher employee costs resulting from a larger employee base. The increase in non-interest expenses was, however, partially offset by increased non-interest income from loan sales, security sales, and BOLI income.

Net income for the nine months ended June 30, 2003 was \$5.20 million, or \$1.30 per diluted share (\$1.36 per basic share) compared to \$5.13 million, or \$1.27 per diluted share (\$1.31 per basic share) for the nine months ended June 30, 2002.

Net Interest Income: Net interest income decreased \$175,000 to \$4.60 million for the quarter ended June 30, 2003 from \$4.77 million for the quarter ended June 30, 2002. Total interest income decreased \$632,000 to \$6.77 million for the quarter ended June 30, 2003 from \$7.41 million for the quarter ended June 30, 2002, primarily due to a reduction in average yields on earning assets. The yield on earning assets was 6.65% for the quarter ended June 30, 2003 compared to 7.65% for the quarter ended June 30, 2002. In addition to overall lower market rates, the yield was also impacted by a shift in the makeup of

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

total earning assets. In 2002, loans, the Company's highest yielding class of assets, comprised 83.6% of average earning assets. In 2003, loans were 77.3% of average earning assets. This change was largely influenced by the decision to sell many of the loans originated in the current periods. That had the effect of increasing the gain on loans sold, at the expense of interest income. The impact of lower average yields was, however, partially offset by increased levels of average earning assets. Total interest expense decreased \$457,000 to \$2.18 million for the quarter ended June 30, 2003 from \$2.64 million for the quarter ended June 30, 2002. The average cost of funds for each of the Bank's deposit account types for the current quarter was lower than a year ago. The overall cost of funds decreased to 2.62% for the quarter ended June 30, 2003 from 3.42% for the quarter ended June 30, 2002. As a result of these changes, the net interest margin decreased to 4.51% for the quarter ended June 30, 2003 from 4.93% for the quarter ended June 30, 2002.

Net interest income decreased \$480,000 to \$14.09 million for the nine months ended June 30, 2003 from \$14.57 million for the nine months ended June 30, 2002. Total interest income decreased \$1.89 million to \$20.98 million for the nine months ended June 30, 2003 from \$22.86 million for the nine months ended June 30, 2002, primarily due to a reduction in average yields on earning assets. The yield on earning assets was 6.92% for the nine months ended June 30, 2003 compared to 8.13% for the nine months ended June 30, 2002. The impact of lower average yields was, however, partially offset by increased levels of average earning assets. Total interest expense decreased \$1.41 million to \$6.88 million for the nine months ended June 30, 2003 from \$8.29 million for the nine months ended June 30, 2002. The average cost of funds for each of the Bank's deposit account types for the current period was lower than a year ago. The overall cost of funds decreased to 2.77% for the nine months ended June 30, 2003 from 3.71% for the nine months ended June 30, 2002. As a result of these changes, the net interest margin decreased to 4.65% for the nine months ended June 30, 2003 from 5.18% for the nine months ended June 30, 2002.

Provision for Loan Losses: The Company's non-performing asset ("NPA") ratio decreased to 0.77% at June 30, 2003 from 1.31% at June 30, 2002. The provision for loan losses decreased to \$66,000 for the three months ended June 30, 2003 from \$200,000 for the three months ended June 30, 2002. Management deemed the allowance for loan losses of \$3.94 million at June 30, 2003 (1.26% of loans receivable and 180.2% of non-performing loans) adequate to provide for probable losses based on an evaluation of known and inherent risks in the loan portfolio at that date. The allowance for loan losses was \$3.46 million (1.08% of loans receivable and 77.0% of non-performing loans) at June 30, 2002. The increase in the level of the allowance for loan losses primarily resulted from a slight change in the mix of the loan portfolio. The Company had a net recovery of \$3,000 for the current quarter compared to a net charge-off of \$186,000 in the same quarter of 2002. For the nine months ended June 30, 2003 and 2002, net charge-offs were \$40,000 and \$378,000, respectively.

Non-interest Income: Total non-interest income increased \$459,000 to \$1.65 million for the quarter ended June 30, 2003 from \$1.19 million for the quarter ended June 30, 2002, primarily due to a \$134,000 increase in gain on sale of securities, the recognition of \$131,000 in BOLI income, and a \$113,000 increase in gain on sale of loans. The gain on sale of securities was the result of the sale of a \$1.9 million mortgaged backed security. The increased loan sale gains are primarily a result of the Bank selling \$25.7 million in fixed-rate one-to-four family loans during the current quarter. During the same period in 2002, the Bank sold \$15.5 million in fixed-rate one-to-four

Edgar Filing: TIMBERLAND BANCORP INC - Form 8-K

family loans.

For the nine months ended June 30, 2003 non-interest income increased \$1.39 million to \$4.79 million from \$3.40 million for the nine months ended June 30, 2002. This increase is primarily due to a \$436,000 increase in gain on sale of loans, the recognition of \$400,000 in BOLI income, a \$223,000 increase in service charges on deposits, a \$150,000 increase in security sale gains, and a \$149,000 increase in ATM transaction fees.

Non-interest Expense: Total non-interest expense increased by \$805,000 to \$3.94 million for the three months ended June 30, 2003 from \$3.14 million for the three months ended June 30, 2002. This increase is primarily due to a \$339,000 increase in salaries and employee benefits and \$252,000 in expenses related to the core processing system conversion and related technology improvements. The increase in salaries and employee benefits is primarily a result of adding employees to staff the Silverdale branch, increasing staffing levels in several other departments, and salary increases in October of 2002. The technology conversion related expenses are reflected in the income statement under premises and equipment (\$135,000) and other non-interest expenses (\$117,000).

For the nine months ended June 30, 2003 non-interest expense increased by \$1.58 million to \$10.97 million from \$9.39 million for the nine months ended June 30, 2002. This increase is primarily due to a \$949,000 increase in salaries and employee benefits, technology conversion related expenses of \$271,000 and a \$115,000 increase in ATM expenses.

TIMBERLAND BANCORP, INC. AND SUBSIDIARIES LOANS RECEIVABLE BREAKDOWN (Dollars in thousands)
