NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

THREE MONTHS ENDED DECEMBER 31, 2002

(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary in order to make the financial statements not misleading have been included. Results for the three months ended December 31, 2002 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in Synergx Systems Inc. (formerly Firetector Inc.) ("the Company") and Subsidiaries' annual report on Form 10-KSB for the year ended September 30, 2002.

At the annual meeting of Firetector Inc stockholders held on May 22, 2002, stockholders voted to amend the Company's Certificate of Incorporation to change Firetector's name to SYNERGX SYSTEMS INC.

2. REVENUE RECOGNITION

Product sales include sale of systems, which are similar in nature, that involve fire alarm, life safety and security (CCTV and card access), transit (on board systems) and communication (paging, announcement and audio/visual). Product sales represent sales of product along with the integration of technical services at a fixed price under a contract with an electrical contractor or end user customer (building owner or tenant), or customer agent. Product sales are allocated using a constant gross profit percentage over the entire contract, and recognized, using the percentage-of-completion method of accounting. The Company utilizes a units-of-work performed method to measure progress towards completion of the contract. The effects of changes in contract terms are reflected in the accounting period in which they become known. Contract terms provide for billing schedules that differ from revenue recognition and give rise to costs and estimated profits in excess of billings, and billings in excess of costs and estimated profits. Costs and estimated profits in excess of billing were not material at December 31, 2002 and 2001 and have been included in accounts receivable. There was no billing in excess of costs and estimated profits at December 31, 2002 and 2001.

Subcontract sales principally represents revenues related to electrical installation of wiring and piping performed by others for the Company when the Company acts as the prime contractor and sells its products along with electrical installation. Subcontract revenue is also recognized during the entire project using the percentage-of-completion method of accounting as electrical installation is performed at the job site.

Service revenue from separate maintenance contracts is recognized on a straight-line basis over the terms of the respective contract, which is generally one year. Non-contract service revenue is recognized when services are performed.

Edgar Filing: FIRETECTOR INC - Form 10QSB

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

THREE MONTHS ENDED DECEMBER 31, 2002

(UNAUDITED)

3. INVENTORY

Inventories are priced at the lower of cost (first-in, first-out) or market and consist primarily of raw materials.

4. LONG TERM DEBT

The Company has a revolving Credit Facility with Citizens Business Credit Company of Boston, Massachusetts, (the "Credit Facility"). The credit facility provides for a \$3,000,000 revolving line of credit which expires in December 2004. The Credit Facility provides for interest at prime rate (4.25% at December 31, 2002) plus 1/4% on outstanding balances. At December 31, 2002, \$1,016,622 was outstanding under this facility. Advances under the Credit Facility are measured against a borrowing base calculated on eligible receivables and inventory. The Credit Facility is secured by all of the assets of the Company and all of its operating subsidiaries.

The Credit Facility includes certain restrictive covenants, which among other things impose limitations on declaring or paying dividends, acquisitions and capital expenditures. The Company is also required to maintain certain financial ratios. Citizens Business Credit Company of Boston had modified the requirement of one of the ratios. At December 31, 2002, the Company was not in default of any of its covenants as a result of this modification.

5. RECLASSIFICATIONS

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements. These reclassifications have no effect on previously reported income.

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

THREE MONTHS ENDED DECEMBER 31, 2002

(UNAUDITED)

6. EARNINGS (LOSS) PER SHARE

The Financial Accounting Standards Board issued SFAS No. 128 "Earnings Per Shares" which requires companies to report basic and diluted earnings per share ("EPS") computations. Basic EPS excludes dilution and is based on the weighted-average common shares outstanding and diluted EPS gives effect to potential dilution of securities that could share in the earnings of the Company. Diluted EPS reflects the assumed issuance of shares with respect to the Company's employee stock options and warrants.

For the Three Months ended December

Edgar Filing: FIRETECTOR INC - Form 10QSB

	2002 ----	2001 ----
Basic EPS Computation

*All Warrants and Options were antidilutive for the three month period ended December 31, 2001 and 170,000 warrants were antidilutive for the three month period ended December 31, 2002 and therefore not included in the above calculation.

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

THREE MONTHS ENDED DECEMBER 31, 2002

(UNAUDITED)

7. SUBSEQUENT EVENT

In January 2003, the Company signed two letters of intent to acquire interest in Avante Technology ("Avante Tech") and Re:Port Business Solutions ("Re:Port") in partnership with Nafund Inc., a Toronto based private equity fund ("Nafund").

Avante Security Inc., a Canadian corporation ("Avante") designs, develops and installs security systems and devices in Canada. Utilizing the wireless technology of the very popular BlackBerry (TM) wireless handheld system, developed by Research in Motion (RIM), Avante has developed the Secure 7-24 solution. The Secure 7-24 uses wireless technology to transmit alarm and other data from a secured site to the Avante Command Centre and to multiple RIM pagers or cellular phones. Applications include transit, security response vehicles, corporate facilities management, manufacturing, distribution, secured

Edgar Filing: FIRETECTOR INC - Form 10QSB

neighborhoods and residential owners.

Avante and Nafund will organize Avante Tech as a new partnership to exploit the Secure 7-24 technology solution. Synergx would acquire 25% of Avante Tech's equity from Nafund in exchange for (a) 225,000 shares of Common Stock; (b) warrants to purchase 25,000 shares of Common Stock at \$2.00 per share for 24 months; and (c) agreeing to provide secured loans of up to Cdn\$300,000 to Avante Tech pro rata with equity/loans to be provided by Nafund and tied to certain development milestones. In connection with its investment, Synergx would secure exclusive licenses to exploit the Secure 7-24 technology in its key geographic markets and/or product lines.

Re:Port is a provider of software to the independent international investment counseling, portfolio management and brokerage community. Located in Toronto, Ontario, Re:Port software links external or outsourced trading, custodian, broker and bank systems to internal diverse security and asset management system and contact information systems and electronic filing and documentation systems. Utilizing the software and systems it has developed which are scaleable and able to provide cost-effective solutions, Re:Port and Nafund will organize a new entity to offer the types of back office services that have previously been available only to the largest investment counselors and money managers. Re:Port would secure a contract to provide such services to a Toronto based investment management firm which will hold equity in Re:Port. One of Synergx's Directors is the principal in Re:Port. Synergx would acquire 25% of the Class B Participating Units (Class B Participating Units will receive distributions of all free cash flow after the Class A Units have been redeemed) in exchange for (i) 175,000 shares of Common Stock and (ii) warrants to purchase 25,000 shares of Common Stock at \$2.00 per share for 24 months.

These acquisitions are subject to due diligence, definitive documentation, finalizing structure of the investment, bank approval and approval by the Company's stockholders at the next Annual Meeting of Stockholders. Stockholder approval is being solicited inasmuch as two Directors of Synergx Messrs. Litwin and Dalrymple, are Directors of Nafund. Moreover, Mr. Litwin is the president of Nafund and Mr. Dalrymple is on its investment advisory board (but hold no ownership interest in Nafund). In addition, Mr. Dalrymple is the principal of NSC Holdings, a Toronto based financial services group. Messrs. Litwin and Dalrymple have recused themselves from the vote by the Board of Directors.

SYNERGX SYSTEMS INC. AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued

THREE MONTHS ENDED DECEMBER 31, 2002

(UNAUDITED)

7. SUBSEQUENT EVENT (continued)

There can be no assurance that the investment described immediately above will be consummated or that said investment will prove to be profitable to Synergx. This investment is subject to the completion of a due diligence investigation to the satisfaction of Synergx, and the negotiation and execution of definitive documentation satisfactory to Synergx; until said investigation and definitive documentation is completed and executed, Synergx's board of directors retains the right to withdraw from the transaction.

8 - NEW ACCOUNTING PRONOUNCEMENTS

On December 31, 2002, the FASB issued SFAS No.148 ("SFAS 148"), Accounting for

Edgar Filing: FIRETECTOR INC - Form 10QSB

stock-Based Compensation-Transition and Disclosure. SFAS 148 amends SFAS No. 123 ("SFAS 123"), Accounting for Stock - Based Compensation, to provide an alternative method of transition to SFAS 123's fair value method of accounting for stock-based employee compensation. SFAS 148 also amends the disclosure provisions of SFAS 123 and APB opinion No. 28, Interim Financial Reporting, to require disclosure in the summary of significant accounting policies of the effects of an entity's accounting policy with respect to stock-based employee compensation on reported net income and earnings per share in annual and interim financial statements. While the statement does not amend SFAS 123 to require companies to account for employee stock options using the fair value method, the disclosure provisions of SFAS are applicable to all companies with stock-based employee compensation, regardless of whether they account for that compensation using the fair value method of SFAS 123, or the intrinsic value method of APB opinion No. 25. The company will continue to account for stock-based compensation according to APB opinion No. 25, while the adoption for the second fiscal quarter ending March 31, 2003 of SFAS 148 requires the Company to provide prominent disclosures about the effect of SFAS 123 on reported income and will require the Company to disclose these effects in interim financial statements. The Company does not expect that the adoption of SFAS 148 will have a significant impact to the consolidated financial position or results of operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

The Company has a \$3 million credit facility with Citizens Business Credit Company of Boston, (the "Credit Facility") that expires in December, 2004. The Credit Facility has an interest rate of prime plus 1/4% on outstanding balances. Advances under the Credit Facility are measured against a borrowing base calculated on eligible receivables and inventory. The Credit Facility is secured by all assets of the Company and all of its operating subsidiaries.

The Credit Facility includes various covenants, which among other things, impose limitations on declaring or paying dividends, acquisitions and capital expenditures. The Company is also required to maintain certain financial ratios. Citizens Business Credit had modified the requirements for one of these ratios. At December 31, 2002, the Company was not in default with any of its financial covenants as a result of this modification and at such time owed \$1,016,622 under the Credit Facility.

Net cash used by operations for the three months ended December 31, 2002 amounted to \$66,167 as compared to \$329,124 for the comparable prior year period. The primary reason for the decrease in cash being used by operations was due to \$51,822 of income before taxes in 2002 compared to a loss before income taxes of \$471,594 in 2001. During 2002, accounts receivable increased due to higher sales and inventory increased due to purchases being made ahead of requirements in order to obtain special purchase price discounts from a vendor. These increases of \$1.0 million in working capital were partially funded by a \$946,000 increase to accounts payable and accrued expenses. Accordingly, the net cash outflow from operation during 2002 was funded by a net increase of \$169,000 in borrowing under the Credit Facility.

The ratio of the Company's current assets to current liabilities decreased to approximately 2.19 to 1 at December 31, 2002 compared to 2.76 to 1 at December 31, 2001. The decrease in the current ratio is due to the increase in 2002 of inventory related to purchases being made ahead of schedule (to obtain special purchase price discounts) that were funded by a similar increase in accounts

Edgar Filing: FIRETECTOR INC - Form 10QSB

payable. In addition, the decrease in the current ratio was caused by \$587,000 of an improvement in cash flow since December 31, 2001 being used to reduce bank borrowing at December 31, 2002. However, working capital stayed at a high level of \$5.3 million at December 31, 2002 compared to \$5.6 million at December 31, 2001 even though cash was used to reduce bank borrowing to \$1.0 million at December 31, 2002.

2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Results of Operations

Revenues and Gross Profit

	Three Months Ended December 31, -----	
	2002	2001
	(In thousands of dollars)	
Product Revenue	\$3,292	\$2,188
Subcontract Revenue	271	234
Service Revenue	1,075	1,116
	-----	-----
Total Revenue	\$4,638	\$3,538
Gross Profit Product	\$1,028	\$464
Gross Profit Subcontract	60	48
Gross Profit Service	348	315
	-----	-----
Total Gross Profit	\$1,436	\$827
Gross Profit Product %	31%	21%
Gross Profit Subcontract %		
	22%	21%
Gross Profit Service %	32%	28%
	-----	-----
Total Gross Profit %	31%	23%

Revenues

The Company's product revenues during the three months ended December 31, 2002 were \$3,292,000 as compared to \$2,188,000 for the prior year period. Product revenues increase 50% in 2002 compared to the same period of 2001, which was impacted by the general slowdown in economic activity in the Company's principal markets, New York City and Dallas and from the events of September 11th which delayed work on several projects involving New York City Transit Authority and reduced tenant revenue as tenants relocated out of New York City or consolidated into existing space uptown. The product revenue improvement in 2002 is related to the New York City market area from the following: 1) release of projects that have been delayed by the events of September 11th, 2) from a gradual improvement in tenant activity, 3) higher sales of railcar communication products. However we have not seen similar improvement in our Dallas, Texas market area which still has not recovered from the slowdown in economic activity. Accordingly, we have implemented certain cost reduction initiatives in that market area while we continue to quote business aggressively.

Subcontract revenue increased during the current three month period to \$271,000 from \$234,000 in the comparable prior year period. The increase reflects electrical installation on more projects during the 2002 period.

Service revenue decreased during the current three month period to \$1,075,000

Edgar Filing: FIRETECTOR INC - Form 10QSB

from \$1,116,000 in the comparable prior year period. The decrease reflects lower call-in maintenance service on fire systems. The 2001 three month period benefited from the need for replacement parts in certain buildings effected by contamination from the events of September 11th.

2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Gross Profit

Gross profit on product revenues for the three months ended December 31, 2002, more than doubled to \$1,028,000 as compared to \$464,000 in the comparable prior year period. The improvement in absolute gross margin is primarily due to increased sales (noted above) and related gross margin. The improvement in gross margin percentage in 2002 to 31% compared to 21% in 2001 reflects the benefit of higher sales without a similar increase in overhead cost. While certain personnel were added to expand product sales, the majority of these overheads were relatively fixed in nature and therefore higher sales contributed to an increase in the gross margin percentage. In contrast, the 2001 period saw a lower gross margin which was caused by the events of September 11th and from the slowdown in economic activity.

Gross profit related to subcontract revenues for the three months ended December 31, 2002 increased in absolute terms as the Company was responsible for electrical installation on several fire alarm projects in 2002. Also, the gross profit percentage was lower during the three months ended December 31, 2001 as one project was contracted for sale at a lower than normal mark up during that period.

Gross profit on service revenues for the three months ended December 31, 2002 increased in spite of the decrease in call in service revenues. The call-in service during 2002 did not require as much replacement parts as the prior year period and therefore the 2002 period saw an improvement in both gross margin and the gross margin percentage.

Income Before Tax

The improvement in income before income taxes during the three months ended December 31, 2002 is primarily due to the increase in gross margin caused by higher product revenues, from improved margins due to the relative fixed nature of certain overhead costs (noted above), and from higher gross margin from subcontract and services revenues. Partially offsetting the improvement in income before income taxes was an increase of 8% in selling, general and administrative expenses to support higher product sales and expand product territory. Favorably affecting income before income taxes were declines in interest expense (56%) due to lower interest rates and lower borrowing levels for the three months ending December 31, 2002.

Tax Provision

The Company's current income tax provision represents federal, state and local income taxes. Deferred taxes represent the net change in deferred tax assets and non current deferred tax liability as it related to certain timing differences of book and tax deductions.

Order Position

The Company's order position, excluding service, at December 31, 2002 increased to \$12,620,000 as compared to \$12,105,000 at September 30, 2002 and \$9,065,000 at December 31, 2001. The increase in order position since September 30, 2002

Edgar Filing: FIRETECTOR INC - Form 10QSB

reflects recent large new orders received for several subway complexes which will be deliverable over several years as the projects are released. In addition, the backlog includes \$2.0 million of recent orders for communication and announcement systems from several transit car manufacturers, that will be shippable over the next 21 month period. While quotation activity is brisk, there is no assurance when orders will be received and whether the order position will increase. Due to the fact that the Company's products are sold and

2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

installed as part of larger mass transit construction projects, there is typically a delay between the booking of the contract and its revenue realization. The order position includes, and the Company continues to bid on projects that might include significant subcontractor labor, (electrical installation performed by others). The Company expects to be active in seeking orders where the Company would act as a prime contractor and be responsible for management of the project as well as electrical installation.

Item 3. Controls and Procedures

(a) Evaluation of Disclosure Controls and procedures

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Daniel S. Tamkin, Chief Executive Officer, and John A. Poserina, Chief Financial Officer of Synergx Systems certify that:

1. We have reviewed this quarterly report on Form 10-QSB of Synergx Systems Inc.;

2. Based on our knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on our knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of registrant as of, and for, the periods presented in this quarterly report;

4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:

a) Designated such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities,

Edgar Filing: FIRETECTOR INC - Form 10QSB

particularly during the period in which this quarterly report is being prepared;

b) Evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and

c) Presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions);

a) All significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
