INFORMATION STATEMENT

Edgar Filing: GSE SYSTEMS INC - Form DEF 14C

To the Stockholders:

This Information Statement is being furnished to holders of shares of common stock of GSE Systems, Inc. ("GSE," the "Company," "we" or "us"). The purpose of this Information Statement is to notify the stockholders that the holder of a majority of the outstanding shares of common stock of the Company has taken action by written consent to approve the issuance by the Company to Dolphin Direct Equity Partners, LP, a Delaware limited partnership, of a senior subordinated secured convertible note of the Company in the aggregate principal amount of \$2,000,000, and a warrant to purchase shares of the Company's common stock, for an aggregate purchase price of \$2,000,000. Under the rules of the American Stock Exchange, because the conversion of the note and exercise of the warrant could require the issuance by us of 20% or more of our outstanding common stock if certain anti-dilution adjustments are applied, we are required to obtain stockholder approval of the transaction. GP Strategies Corporation, which holds a majority of our outstanding common stock, approved the transaction on May 19, 2005 by written consent, as permitted by the Delaware General Corporation Law and our bylaws. No other approval is necessary or will be sought. The transaction closed and became effective on May 26, 2005, except that the approval to issue, upon the conversion of the note, certain shares of common stock of the Company will become effective 20 days after the mailing of this Information Statement to stockholders of the Company.

This Information Statement is being mailed on June 10, 2005 to stockholders of record of common stock of the Company at the close of business on May 19, 2005. The enclosed Information Statement is being furnished to you to inform you that the foregoing actions have been approved by the holder of a majority of the outstanding shares of common stock. We are not asking you for a proxy, and you are requested not to send us a proxy. You are urged to read the Information Statement in its entirety for a description of the actions taken by the holder of a majority of the outstanding shares of common stock of the Company.

By Order of the Board of Directors

Jeffery G. Hough
Secretary

Columbia, Maryland
June 7, 2005

We are furnishing this Information Statement and notice of actions taken without a meeting to our stockholders in connection with the approval by our board of directors of the matters described below and the subsequent approval of these matters by written consent of the holder of a majority of our outstanding common stock. All corporate approvals in connection with these matters have been obtained and this Information Statement is being furnished solely for the purpose of informing stockholders of these corporate actions in the manner required by the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Delaware General Corporation Law. Section 228(e) of the Delaware General Corporation Law requires us to provide notice of the taking of corporate action by written consent of stockholders without a meeting by less than unanimous consent to those stockholders who have not consented in writing to such actions. This Information Statement constitutes such notice.

We are not asking you for a proxy and you are requested not to send us a proxy.

Stockholders of record of common stock of the Company at the close of business on June 7, 2005 are entitled to receive this Information Statement. On that date, there were 8,999,706 shares of common stock issued and outstanding. Each share of common stock is entitled to one vote on all matters.

ACTIONS APPROVED BY THE WRITTEN CONSENT

On May 26, 2005, pursuant to a Senior Subordinated Secured Convertible Note and Warrant Purchase Agreement, dated as of May 26, 2005 (the "Agreement"), we issued and sold to Dolphin Direct Equity Partners, L.P. (the "Investor"), for an aggregate price of \$2,000,000, a senior subordinated secured convertible note of the Company in the aggregate principal amount of \$2,000,000 (the "Note") and a warrant (the "Warrant") to purchase 380,952 shares (the "Warrant Shares") of our common stock. We refer to this transaction as the "Financing." Our board of directors approved the Financing on May 19, 2005.

Our common stock is listed on the American Stock Exchange (the "Amex"), and we are therefore subject to the Amex's rules. Under Section 713 of the Amex Company Guide, companies with securities listed on the Amex must obtain stockholder approval before the sale, issuance, or potential issuance of their common stock, or securities convertible into their common stock, in connection with a transaction other than a public offering, equal to 20% or more of their outstanding common stock, for less than the greater of book or market value of their common stock.

The Note is convertible, in part or in whole, into shares of our common stock based on a conversion price of \$1.925. However, the conversion price, and thus the number of shares into which the Note may be converted, is subject to adjustment. Under these adjustment provisions, it is possible that we would be required to issue, upon conversion of the Note (when aggregated with the number of shares of our common stock issued upon exercise of the Warrant), 20% or more of the outstanding shares of our common stock on May 26, 2005 for less than the greater of book or market value of their common stock. Accordingly, under the Amex's rules, we would be required to obtain stockholder approval for any such issuance.

Under the terms of the Agreement and Note, notwithstanding the adjustment provisions of the Note, the number of shares of our common stock actually issued on conversion of the Note, when aggregated with the number of shares of our common stock actually issued upon exercise of the Warrant, will not exceed 19.99% of the outstanding shares of our common stock on May 26, 2005 (the "Conversion Share Limit"). However, the Note provides that the Conversion Share Limit will terminate upon the effectiveness of the consent to the transaction by stockholders holding a majority of the outstanding shares of our common stock, in compliance with the stockholder approval requirements of the Amex.

On May 19, 2005, we obtained the written consent (the "Majority Consent") of GP Strategies Corporation ("GP Strategies"), as holder of a majority of the outstanding shares of our common stock. In accordance with Rule 14c-2 under the Securities Exchange Act of 1934, as amended, the effectiveness of the Majority Consent, and the termination of the Conversion Share Limit, will become effective on the day following the twentieth day after this Information Statement is mailed to our stockholders. No other approval is necessary or will be sought. This Information Statement is being mailed to stockholders on or about June __, 2005.

Summary of the Terms of the Financing

The following is a summary of the terms of the Financing.

The Agreement. On May 26, 2005, pursuant to the Agreement, we issued the Note and the Warrant to the Investor for an aggregate purchase price of \$2,000,000, less certain fees we agreed to pay. Of such purchase price, \$500,000 was placed in escrow until the termination of the Conversion Share Limit. If the Conversion Share Limit has not been terminated by the 75th day after the closing date, such \$500,000 will be paid to the Investor.

Edgar Filing: GSE SYSTEMS INC - Form DEF 14C

Under the Agreement, we have agreed, among other things, not to, and to cause our subsidiaries not to, while the Note is outstanding, (i) acquire, sell or otherwise transfer any material assets or rights of the Company or a subsidiary, or enter into any contract or agreement relating to the sale of assets, which is not consummated pursuant to an arms length transaction, (ii) enter into any contract, agreement or transaction with any officer, director, stockholder or affiliate of the Company or a subsidiary other than ordinary course transactions that are consistent with past practice and pursuant to arms length terms, (iii) pay or declare any dividend or make any distribution upon, redeem, retire or repurchase or otherwise acquire, any shares of capital stock or other securities of the Company or a subsidiary, other than certain dividends currently owed to ManTech International, or (iv) materially change the Company's or any subsidiary's line of business as currently conducted.

We have agreed to file, within 30 days of the closing of the Financing, a registration statement covering the resale by the Investor of all shares of common stock issuable pursuant to the Note or the Warrant. We have also agreed to use our best efforts to have such registration statement declared effective by the Securities and Exchange Commission as soon as possible thereafter, but in no event later than 90 days after the closing of the Financing, and to keep the registration statement effective thereafter until all such securities have been sold or can be sold without most restrictions. If we do not meet the deadlines for filing and effectiveness of the registration statement, we will be required to pay Investor 2% of the outstanding principal of the Note for each 30-day period we are late. We have also agreed to provide piggyback registration rights if at any time there is not an effective registration statement covering the resale by the Investor of all shares of common stock issuable pursuant to the Note or the Warrant.

Note. The Note is in the principal amount of \$2,000,000 and matures on March 31, 2009. The Note initially bears interest at the rate of 8% per annum. Interest is payable in arrears on the last day of each calendar quarter and all principal and accrued interest is payable upon maturity. The interest rate will decrease, for each quarter during which the registration statement registering the shares of common stock into which the Note is convertible is in effect, by 2% per annum for each 25% increment over the conversion price then in effect achieved by our stock price.

The Note is convertible, in part or in whole, into a number of shares of our common stock equal to the principal and interest of the Note being converted divided by an initial conversion price of \$1.925. However, if we issue or sell any shares of common stock or securities exercisable or exchangeable for or convertible into common stock (excluding certain shares, including shares issued to the Investor, under certain employee benefit plans or pursuant to outstanding options or convertible securities) for a consideration per share less than the then effective conversion price, then the conversion price will be reduced to an amount equal to the consideration per share in such new issuance. The conversion price will also be appropriately adjusted upon any stock split, stock dividend, recapitalization, combination, or similar transaction. Notwithstanding such adjustment provision, the number of shares of common stock actually issued on conversion of the Note will be limited by the Conversion Share Limit until the effectiveness of the Majority Consent on the day following the twentieth day after this Information Statement is mailed to our stockholders. If we fail to issue a certificate for the shares into which the Note has been converted within three days of such conversion, we will be required to pay, for each day we are late, an amount equal to 1% of the product of number of shares to which the Investor is entitled and the closing price of our common stock on the last day we could have delivered such certificate.

Events of default under the Note include, among other things, and with certain cure periods, the suspension of trading or failure to be listed on one

Edgar Filing: GSE SYSTEMS INC - Form DEF 14C

of certain markets, failure to comply with certain agreements with Investor (such as a failure to comply with the conversion provisions of the Note, a failure to have sufficient shares authorized for conversion, and a failure to pay principal or interest or other amount when due), failure to pay material indebtedness, and bankruptcy. Upon and during the continuance of an event of default of the Note, the interest rate will increase to 24%. The holder of the Note may require us to redeem all or any portion of the Note upon an event of default for a price equal to the greater of the amount of the principal and interest of the note to be redeemed or the product of the number of shares of common stock into which such principal and interest is convertible multiplied by the closing trading price of the common stock immediately prior to the event of default.

The holder of the Note will be entitled to participate in any pro rata issuance or sale of securities to our stockholders to the extent that the holder would have been able to participate if the Note had been converted to common stock in its entirety.

We are prevented, under the terms of the Note, from engaging in any fundamental transaction (such as a merger, consolidation, or sale of the Company) unless the successor assumes in writing all of the obligations of the Company under the Note and the successor is a publicly traded company with common stock traded on the Amex, Nasdaq, or the New York Stock Exchange.

The Note ranks senior to all other indebtedness of the Company other than debt connected with our senior credit agreement (or any refinancing thereof) and our obligation to repay GP Strategies for payments made by GP Strategies pursuant to its guaranty of our senior credit agreement debt, to which the Note is expressly junior, and certain capitalized leases and contingent obligations. We are prohibited from any additional indebtedness senior to the Note while the Note is outstanding. The ranking is effectuated by a subordination agreement between our senior lender, the Investor, and us.

Warrant. The Warrant is exercisable for 380,952 Warrant Shares, and the initial exercise price is \$2.22 per Warrant Share. The exercise price of the Warrant must be paid in cash, except that if a registration statement is not available for the resale of Warrant Shares, the holder may make a "cashless exercise" of the Warrant. The Warrant expires on the seventh anniversary of its issuance.

If we issue or sell any shares of common stock or securities exercisable or exchangeable for or convertible into common stock (excluding certain shares, including shares issued to the Investor, under certain employee benefit plans or pursuant to outstanding options or convertible securities) for a consideration per share less than the then effective exercise price, then the exercise price will be reduced to an amount equal to the consideration per share in such new issuance, without adjustment to the number of Warrant Shares issuable on exercise. The exercise price and number of Warrant Shares will also be appropriately adjusted upon any dividend or distribution of assets (including any distribution of cash, securities or other property by way of dividend, spin-off, reclassification, or similar transaction) and upon any stock split, recapitalization, combination, or similar transaction. If we fail to issue a certificate for the shares for which the Warrant has been exercised within three days of such conversion, we will be required to pay, for each day we are late, an amount equal to 1% of the product of number of shares to which the Investor is entitled and the closing price of our common stock on the last day we could have delivered such certificate.

The holder of the Warrant will be entitled to participate in any pro rata issuance or sale of securities to our stockholders to the extent that the holder would have been able to participate if the Warrant had been exercised in its entirety.

Edgar Filing: GSE SYSTEMS INC - Form DEF 14C

We are prevented, under the terms of the Warrant, from engaging in any fundamental transaction (such as a merger, consolidation, or sale of the Company) unless the successor assumes in writing all of the obligations of the Company under the Warrant and the successor is a publicly traded company with common stock traded on the Amex, Nasdaq, or the New York Stock Exchange.

Security. We have granted the Investor a second priority lien on all of our and our subsidiaries' assets.

Reasons for the Actions Taken

We entered into the Financing for working capital purposes.

Effects of the Financing

The issuance of a significant amount of common stock upon conversion of the Note or exercise of the Warrant may adversely affect the price of our common stock. We have agreed to file a registration statement to permit the public resale of the shares of common stock issuable upon conversion of the Note or exercise of the Warrant. The influx of such a substantial number of shares into the public market could also have a significant negative effect on the trading price of our common stock. Issuance of these shares of common stock may substantially dilute the ownership interests of our existing stockholders.
No Dissenter' Rights

The corporate action described in this Information Statement will not afford to stockholders the opportunity to dissent from the actions described herein or to receive an agreed or judicially appraised value for their shares.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information regarding beneficial ownership of the Company's common stock, as of May 16, 2005, by: (i) each stockholder who is known by the Company to own beneficially more than 5% of the outstanding common stock, (ii) each of the Company's directors, (iii) each current executive officer of the Company named in the Summary Compensation Table, and (iv) all directors and executive officers as a group. Except as otherwise indicated, the Company believes that the beneficial owners of the common stock listed below have sole investment and voting power with respect to such shares, subject to community property laws where applicable.

We are not aware of any material proceedings to which any of the parties identified under (i), (ii) or (iii) above, or any associate thereof, is a party adverse to the Company or any of its subsidiaries or has a material interest adverse to the Company or any of its subsidiaries.

In preparing the following table, the Company has relied on the information contained in the statements previously filed by GP Strategies, and Schedule 13G/A filed for 2004 by Wells Capital Management, Inc. Certain of the shares reported in the following table may be deemed to be beneficially owned by more than one person and, therefore, may be included in more than one table entry.

The line is collateralized by substantially all of the Company's assets and provides for borrowings of up to 80% of eligible accounts receivable and 80% of eligible unbilled receivables, up to a maximum of \$1.5 million. GP Strategies also agreed to guarantee the Company's borrowings pursuant to a Management Services Agreement between the Company and GP Strategies.
